Foreword

With this edition, sixty-seven volumes of the West Virginia Blue Book have been published. It is hoped that this book lives up to the tradition of providing useful information regarding the State and its government during the year 1983.

The biennial trend of featuring pictures and biographies of all major elected and appointed officials has again been followed. For the first time, however, color photographs are included of each of the members of the Board of Public Works, the leaders of both houses of the Legislature, the five Justices of the State Supreme Court of Appeals and the President of the United States:

Another added feature is the listing on Page VIII of this section of main telephone numbers and addresses for various key agencies of State government.

I wish to thank all those on the local, county, state and federal levels who helped provide necessary data for the many pages that follow. Needless to say, the 1983 Blue Book would not have been possible without this assistance.

BOARD OF REGENTS

950 Kanawha Boulevard, E.

The West Virginia Board of Regents, created in 1969, is the governing body for all state colleges and universities. The Board controls, supervises and manages the financial, business and educational policies and affairs of the state colleges and universities, makes studies and recommendations respecting higher education in West Virginia, and allocates among the state colleges

and universities specific functions and responsibilities. It submits a budget for the state system of higher education to the appropriate executive and legislative agencies of the State Government and allocates funds to the institutions from the appropriation which it receives.

The Board is composed of 13 members, nine of whom are appointed by the Governor, with the advice and consent of the Senate, for six-year terms. The State Superintendent of Schools is an ex officio member. The Chairmen of the Advisory Council of Faculty, the Advisory Council of Students, and the Advisory Council of Classified Employees serve as ex officio and voting members of the Board. Not more than five of the appointed members can belong to the same political party and at least two members must be appointed from each congressional district.

The Board holds at least ten meetings a year with the annual meeting in June. Members receive \$100 per diem while engaged in the work of the Board, plus actual expenses. A president, who can for one term, succeed himself and any other officers deemed necessary, are elected annually. The Board employs a Chancellor and such professional, administrative and clerical personnel as are necessary, and prescribes their duties and compensation. (Code 18-26)

STATE BOARDS and COMMISSIONS

GENERAL PROVISIONS

Under Chapter 30, Article 1, Code 1931, amended, Chapter 96, Acts of the Legislature, Regular Session, 1974; all boards of examination and registration are governed by the following general rules, unless otherwise specifically provided:

Each board is required to adopt an official seal, make such rules and regulations, not inconsistent with law, as it deems best, and hold at least two meetings each year. Each board is also given power to compel the attendance of witnesses, and its officers are authorized to administer oaths.

Each applicant for license or registration must transmit with his application an examination fee of \$20, unless a different fee is especially provided by law. Each board is allowed to charge \$5 for each license or certificate issued and the same sum for every duplicate thereof. All licenses or certificates of registration are required to be numbered serially and to be signed by a majority of the members of the board, and each board has power to revoke, for cause, the certificate it issues. An applicant who has been refused a license, or a licensee whose certificate has been revoked has the right to appeal from the action of the board to the Circuit Court of the county in which he resides.

Unless otherwise specified, members of boards are allowed \$35 per day for each day actually spent in attending sessions of the board or of its committees and in necessary travel, and entitled to reimbursement for all actual and necessary expenses in carrying out their official duties.

Each board is required to make a report annually to the Governor on or before the first day of January, and the secretary of each board is required to prepare and maintain a complete roster of all persons licensed or registered by it.

THE WEST VIRGINIA STATE BAR (Integrated)

State Capitol, Bldg. 1, Room 400

Created by the Supreme Court of Appeals under its inherent rule-making power as authorized by Chapter 44, Acts of the Legislature, 1945. The court adopted and promulgated a definition of the practice of law; a code of professional ethics, a code of judicial ethics and a constitution and by-laws for the government of the State Bar, effective May 1, 1947. Its membership consists of all persons lawfully admitted to the practice of law in West Virginia.

By a majority vote in 1978, the members of the State Bar consented to the payment of an annual membership fee as follows: first annual membership fee payment, \$50.00; second and third annual membership fee payments, \$75.00; and fourth and subsequent annual membership fee payments, \$100.00.

The objects of the State Bar are to protect the interests of the public; to advance the administration of justice and the science of jurisprudence; to improve the relations between the public and the Bench and the Bar; to uphold and elevate the standards of honor, integrity, competency and courtesy in the legal profession; and to encourage cordial relations among its members. It is its declared purpose to give effect to pertinent rules of the Supreme Court of Appeals, and to perform the functions expressed in its Constitution and By-Laws. A principal duty of the State Bar is to uphold the standards of professional ethics and to diligently and vigilantly investigate and prosecute violations of these standards.

The State Bar is governed by a Board of Governors, consisting of all officers, except the secretary-treasurer, as *ex officio* members, and sixteen Governors, one Governor being elected by the members of the Bar by a secret mail ballot in each of the sixteen State Bar Districts. Preamble

Since through Divine Providence we enjoy the blessings of civil, political and religious liberty, we, the people of West Virginia, in and through the provisions of this Constitution, reaffirm our faith in and constant reliance upon God and seek diligently to promote, preserve and perpetuate good government in the State of West Virginia for the common welfare, freedom and security of ourselves and our posterity.

[Editor's note.—This preamble was proposed by House Joint Resolution No. 8, Acts 1959, p. 659; submitted by Acts 1960, c. 4; and ratified November 8, 1960.]

ARTICLE I

Relations to the Government of the United States

§1. The State of West Virginia is and shall remain, one of the United States of America. The Constitution of the United States of America, and the laws and treaties made in pursuance thereof, shall be the supreme law of the land.

Internal Government and Police

§2. The government of the United States is a government of enumerated powers, and all powers not delegated to it, nor inhibited to the states, are reserved to the states or to the people thereof. Among the powers so reserved to the states is the exclusive regulation of their own internal government and police; and it is the high and solemn duty of the several departments of government, created by this Constitution, to guard and protect the people of this State, from all encroachments upon the rights so reserved.

Continuity of Constitutional Operation

§3. The provisions of the Constitution of the United States, and of this State, are operative alike in a period of war as in time of peace, and any departure therefrom, or violation thereof, under the plea of necessity, or any other plea, is subversive of good government, and tends to anarchy and despotism.

Representatives to Congress

§4. For the election of representatives to Congress, the State shall be divided into districts, corresponding in number with the representatives to which it may be entitled; which districts shall be formed of contiguous counties, and be compact. Each district shall contain as nearly as may be, an equal number of population, to be determined according to the rule prescribed in the Constitution of the United States.

ARTICLE II

The State

§1. The territory of the following counties, formerly parts of the Commonwealth of Virginia, shall constitute and form the State of West Virginia, viz:

The counties of Barbour, Berkeley, Boone, Braxton, Brooke, Cabell, Calhoun, Clay, Doddridge, Fayette, Gilmer, Grant, Greenbrier, Hampshire, Hancock, Hardy, Harrison, Jackson, Jefferson, Kanawha, Lewis, Lincoln, Logan, Marion, Marshall, Mason, McDowell, Mercer, Mineral, Monongalia, Monroe, Morgan, Nicholas, Ohio, Pendleton, Pleasants, Pocahontas, Preston, Putnam, Raleigh, Randolph, Ritchie, Roane, Summers, Taylor, Tucker, Tyler, Upshur, Wayne, Webster, Wetzel, Wirt, Wood and Wyoming. The State of West Virginia includes the bed, bank and shores of the Ohio River, and so much of the Big Sandy River as was formerly included in the Commonwealth of Virginia; and all territorial rights and property in, and jurisdiction over, the same, heretofore reserved by, and vested in, the Commonwealth of Virginia, are vested in and shall hereafter be exercised by, the State of West Virginia. And such parts of the said beds, banks and shores as lie opposite, and adjoining the several counties of this State, shall form parts of said several counties respectively.

[Editor's note.—All of the territory of West Virginia was taken from the commonwealth of Virginia, and the Constitution of 1863 forty-four of the above-named counties were designated as forming the State of West Virginia, and in addition, the counties of Berkeley, Hampshire, Hardy, Jefferson, Morgan and Pendleton were to be admitted should that Constitution be adopted by a vote of the people of the districts comprising those counties. The districts adopted the Constitution, and these six counties became part of the State.]

The remaining four counties mentioned above were created by acts of the legislature as follows: Mineral county, from Hampshire county, on February 1, 1866; Grant county, from Hardy county, on February 14, 1866; Lincoln county, from parts of Cabell, Putnam, Kanawha and Boone counties, on February 23, 1867; and Summers county, from parts of Greenbrier, Monroe, Mercer and Fayette counties, on February 27, 1871. After the ratification of the Constitution of 1872, Mingo county was created by act of the Legislature from Logan county, on February 23, 1895, to make a total of fifty-five counties.]

Powers of Government in Citizens

§2. The powers of government reside in all the citizens of the State, and can be rightfully exercised only in accordance with their will and appointment.

Requisites of Citizenship

§3. All persons residing in this State, born, or naturalized in the United States, and subject to the jurisdiction thereof, shall be citizens of this State.

Equal Representation

§4. Every citizen shall be entitled to equal representation in the government, and, in all apportionments of representation, equality of numbers of those entitled thereto, shall as far as practicable, be preserved.

Provisions Regarding Property

§5. No distinction shall be made between resident aliens and citizens, as to the acquisition, tenure, disposition or descent of property.

§6. Treason against the State, shall consist only in levying war against it, or in adhering to its enemies, giving them aid and comfort. No person shall be convicted of treason, unless on the testimony of two witnesses to the same overt act, or on confession in open court. Treason shall be punished according to the character of the acts committed, by the infliction of one, or more, of the penalties, of death, imprisonment or fine, as may be prescribed by law.

“Montani Semper Liberi”—State Seal

§7. The present seal of the State, with its motto, “Montani Semper Liberi,” shall be the great seal of the State of West Virginia, and shall be kept by the secretary of state, to be used by him officially, as directed by law.

Writs, Commissions, Official Bonds—Indictments

§8. Writs, grants and commissions, issued under the authority of this State, shall run in the name of, and official bonds shall be made payable to the State of West Virginia. Indictments shall conclude, “Against the peace and dignity of the State.”

ARTICLE III

Bill of Rights

§1. All men are, by nature, equally free and independent, and have certain inherent rights, of which, when they enter into a state of society, they cannot, by any compact, deprive or divest their posterity, namely: the enjoyment of life and liberty, with the means of acquiring and possessing property, and of pursuing and obtaining happiness and safety.

Magistrates Servants of People

§2. All power is vested in, and consequently derived from, the people. Magistrates are their trustees and servants, and at all times amenable to them.

Rights Reserved to People

§3. Government is instituted for the common benefit, protection and security of the people, nation or community. Of all its various forms that is the best which is capable of producing the greatest degree of happiness and safety, and is most effectually secured against the danger of maladministration; and when any government shall be found inadequate or contrary to these purposes, a majority of the community has an indubitable, inalienable, and indefeasible right to reform, alter or abolish it in such manner as shall be judged most conducive to the public weal.

§4. The privilege of the writ of habeas corpus shall not be suspended. §10. No person shall be deprived of life, liberty, or property, without due process of law, and the judgment of his peers.

Political Tests Condemned

§11. Political tests, requiring persons, as a prerequisite to the enjoyment of their civil and political rights, to purge themselves by their own oaths, of past alleged offences, are repugnant to the principles of free government, and are cruel and oppressive. No religious or political test oath shall be required as a prerequisite or qualification to vote, serve as a juror, sue, plead, appeal, or pursue any profession or employment. Nor shall any person be deprived by law, of any right, or privilege, because of any act done prior to the passage of such law.

[Editor's note.—The Senate is now composed of thirty-four, and the House of Delegates of one hundred members.]

Senators and Delegates—Terms of Office

§3. Senators shall be elected for the term of four years, and delegates for the term of two years. The senators first elected, shall divide themselves into two classes, one senator from every district being assigned to each class; and of these classes, the first to be designated by lot in such manner as the senate may determine, shall hold their seats for two years, and the second for four years, so that after the first election, one half of the senators shall be elected biennially.

Division of State Into Senatorial Districts

§4. For the election of senators, the State shall be divided into twelve senatorial districts, which number shall not be diminished, but may be increased as hereinafter provided. Every district shall elect two senators, but, where the district is composed of more than one county, both shall not be chosen from the same county. The districts shall be compact, formed of contiguous territory, bounded by county lines, and, as nearly as practicable, equal in population, to be ascertained by the census of the United States. After every such census, the Legislature shall alter the senatorial districts, so far as may be necessary to make them conform to the foregoing provision.

Senatorial Districts Designated

§5. Until the senatorial districts shall be altered by the Legislature as herein prescribed, the counties of Hancock, Brooke and Ohio, shall constitute the first senatorial district; Marshall, Wetzel and Marion, the second; Ritchie, Doddridge, Harrison, Gilmer and Calhoun, the third; Tyler, Pleasants, Wood and Wirt, the fourth; Jackson, Mason, Putnam and Roane, the fifth; Kanawha, Clay, Nicholas, Braxton and Webster, the sixth; Cabell, Wayne, Lincoln, Boone, Logan, Wyoming, McDowell and Mercer, the seventh; Monroe, Greenbrier, Summers, Pocahontas, Fayette and Raleigh, the eighth; Lewis, Randolph, Upshur, Barbour, Taylor and Tucker, the ninth; Preston and Monongalia, the tenth; Hampshire, Mineral, Hardy, Grant and Pendleton, the eleventh; Berkeley, Morgan and Jefferson, the twelfth.

[Editor's note.—There are now seventeen senatorial districts. See § 1-2-1 of the Code, as amended by c. 99, p. 540, Acts, 1922 Regular Session.]

Provision for Delegate Representation

§6. For the election of delegates, every county containing a population of less than three fifths of the ratio of representation for the House of Delegates, shall, at each apportionment, be attached to some contiguous county or counties, to form a delegate district.

After Census, Delegate Apportionment

§7. After every census the delegates shall be apportioned as follows: The ratio of representation for the House of Delegates shall be ascertained by dividing the whole population of the State by the number of which the house is to consist and rejecting the fraction of a unit, if any, resulting from such division. Dividing the population of every delegate district, and of every county not included in a delegate district, by the ratio thus ascertained, there shall be assigned to each a number of delegates equal to the quotient obtained by this division, excluding the fractional remainder. The additional delegates necessary to make up the number of which the house is to consist, shall then be assigned to those delegate districts, and counties not included in a delegate district, which would otherwise have the largest fractions unrepresented; but every delegate district and county not included in a delegate district, shall be entitled to at least one delegate.

Designation of Delegate Districts

§8. Until a new apportionment shall be declared, the counties of Pleasants and Wood shall form the first delegate district, and elect three delegates; Ritchie and Calhoun the second, and elect two delegates; Barbour, Harrison and Taylor the third, and elect one delegate; Randolph and Tucker the fourth, and elect one delegate; Nicholas, Clay and Webster the fifth, and elect one delegate; McDowell and Wyoming the sixth, and elect one delegate.

Further Apportionments

§9. Until a new apportionment shall be declared, the apportionment of delegates to the counties not included in delegate districts, and to Barbour, Harrison and Taylor counties, embraced in such district, shall be as follows:

To Barbour, Boone, Braxton, Brooke, Cabell, Doddridge, Fayette, Hampshire, Hancock, Jackson, Lewis, Logan, Greenbrier, Monroe, Mercer, Mineral, Morgan, Grant, Hardy, Lincoln, Pendleton, Putnam, Roane, Gilmer, Taylor, Tyler, Upshur, Wayne, Wetzel, Wirt, Pocahontas, Summers and Raleigh counties, one delegate each.

To Berkeley, Harrison, Jefferson, Marion, Marshall, Mason, Monongalia and Preston counties, two delegates each.

To Kanawha County, three delegates.

To Ohio County, four delegates.

[Editor's note.—Many changes have been made in this apportionment. There are now forty delegate districts. For the present apportionment, see Acts, Regular Session, 1982, c. 99, p. 540.]

Arrangement of Senatorial and Delegate Districts

§10. The arrangement of the senatorial and delegate districts, and apportionment of delegates, shall hereafter be declared by law, as soon as possible after each succeeding census, taken by authority of the United States. When so declared they shall apply to the first general election for members of the Legislature, to be thereafter held, and shall continue in force unchanged, until such districts shall be altered, and delegates apportioned, under the succeeding census.

Additional Territory May Be Admitted into State

§11. Additional territory may be admitted into, and become part of this State, with the consent of the Legislature and a majority of the qualified voters of the State, voting on the question. And in such case provisions shall be made by law for the representation thereof in the Senate and House of Delegates, in conformity with the principles set forth in this Constitution. And the number of members of which each house of the Legislature is to consist, shall thereafter be increased by the representation assigned to such additional territory.

Senators and Delegates Required to Be Residents of Districts

These oaths shall be administered in the hall of the house to which the member is elected, by a judge of the supreme court of appeals, or of a circuit court, or by any other person authorized by law to administer an oath; and the secretary of state shall record and file said oaths subscribed by each member; and no other oath or declaration shall be required as a qualification. Any member who shall refuse to take the oath herein prescribed, shall forfeit his seat; and any member who shall be convicted of having violated the oath last above required to be taken, shall forfeit his seat and be disqualified thereafter from holding any office of profit or trust in this State.

Any member of the commission may be removed by the governor prior to the expiration of such member's term for official misconduct, incompetency or neglect of duty. The governor shall designate one member of the commission as chairman. The members of the commission shall serve without compensation, but shall be entitled to be reimbursed for all reasonable and necessary expenses actually incurred in the performance of their duties as such members.

The commission shall meet as often as may be necessary and shall within fifteen days after the beginning of the regular session of the Legislature in the year one thousand nine hundred seventy-one and within fifteen days after the beginning of the regular session in each fourth year thereafter submit by resolution to the Legislature its determination of compensation and expense allowances, which resolution must be concurred in by at least four members of the commission.

Notwithstanding any other provision of this Constitution, such compensation and expense allowances as may be provided for by any such general law shall be paid on and after the effective date of such general law. Until the first such general law becomes effective, the provisions of this section in effect immediately prior to the ratification of this amendment shall continue to govern.

(1) Every appropriation bill shall be either a budget bill, or a supplementary appropriation bill, as hereinafter provided.

Subsection B—Budget Bills

(2) Within ten days after the convening of the regular session of the Legislature in odd-numbered years, unless such time shall be extended by the Legislature, and on the second Wednesday of January in even-numbered years, the governor shall submit to the Legislature a budget for the next ensuing fiscal year. The budget shall contain a complete plan of proposed expenditures and estimated revenues for the fiscal year and shall show the estimated surplus or deficit of revenues at the end of each fiscal year. Accompanying each budget shall be a statement showing: (a) An estimate of the revenues and expenditures for the current fiscal year, including the actual revenues and actual expenditures to the extent available, and the revenues and expenditures for the next preceding fiscal year; (b) the current assets, liabilities, reserves and surplus or deficit of the State; (c) the debts and funds of the State; (d) an estimate of the State's financial condition as of the beginning and end of the fiscal year covered by the budget; (e) any explanation the governor may desire to make as to the important features of the budget and any suggestions as to methods for reduction or increase of the State's revenue.

(3) Each budget shall embrace an itemized estimate of the appropriations, in such form and detail as the governor shall determine or as may be prescribed by law: (a) For the Legislature as certified to the governor in the manner hereinafter provided; (b) for the executive department; (c) for the judiciary department, as provided by law, certified to the governor by the auditor; (d) for payment and discharge of the principal and interest of any debt of the State created in conformity with the Constitution, and all laws enacted in pursuance thereof; (e) for the salaries payable by the State under the Constitution and laws of the State; (f) for such other purposes as are set forth in the Constitution and in laws made in pursuance thereof.

(4) The governor shall deliver to the presiding officer of each house the budget and a bill for all the proposed appropriations of the budget clearly itemized and classified, in such form and detail as the governor shall determine or as may be prescribed by law; and the presiding officer of each house shall promptly cause the bill to be introduced therein, and such bill shall be known as the "Budget Bill." The governor may, with the consent of the Legislature, before final action thereon by the Legislature, amend or supplement the budget to correct an oversight, or to provide funds contingent on passage of pending legislation, and in case of an emergency, he may deliver such an amendment or supplement to the presiding officers of both houses; and the amendment or supplement shall thereby become a part of the budget bill as an addition to

the items of the bill or as a modification of or a substitute for any item of the bill the amendment or supplement may affect.

(5) The Legislature shall not amend the budget bill so as to create a deficit but may amend the bill by increasing or decreasing any item therein: Provided, that no item relating to the judiciary shall be decreased, and except as otherwise provided in this Constitution, the salary or compensation of any public officer shall not be increased or decreased during his term of office: Provided further, that the Legislature shall not increase the estimate of revenue submitted in the budget without the approval of the governor.

(6) The governor and such representatives of the executive departments, boards, officers and commissions of the State expending or applying for state moneys as have been designated by the governor for this purpose, shall have the right, and when requested by either house of the Legislature it shall be their duty, to appear and be heard with respect to any budget bill, and to answer inquiries relative thereto.

Subsection C—Supplementary Appropriation Bills

(7) Neither house shall consider other appropriations until the budget bill has been finally acted upon by both houses, and no such other appropriations shall be valid except in accordance with the provisions following: (a) Every such appropriation shall be embodied in a separate bill limited to some single work, object or purpose therein stated and called therein a supplementary appropriation bill; (b) each supplementary appropriation bill shall provide the revenue necessary to pay the appropriation thereby made by a tax, direct or indirect, to be laid and collected as shall be directed in the bill unless it appears from such budget that there is sufficient revenue available.

Subsection D—General Provisions

(8) If the budget bill shall not have been finally acted upon by the Legislature three days before the expiration of its regular session, the governor shall issue a proclamation extending the session for such further period as may, in his judgment, be necessary for the passage of the bill; but no matter other than the bill shall be considered during such an extension of a session except a provision for the cost thereof.

(9) For the purpose of making up the budget, the governor shall have the power, and it shall be his duty, to require from the proper state officials, including herein all executive departments, all executive and administrative officers, bureaus, boards, commissions and agencies expending or supervising the expenditure of, and all institutions applying for state moneys and appropriations, such itemized estimates and other information, in such form and at such times as he shall direct. The estimates for the legislative department, certified by the presiding officer of each house, and for the judiciary, as provided by law, certified by the auditor, shall be transmitted to the governor in such form and at such times as he shall direct, and shall be included in the budget.

(10) The governor may provide for public hearings on all estimates and may require the attendance at such hearings of representatives of all agencies and all institutions applying for state moneys. After such public hearings he may, in his discretion, revise all estimates except those for the legislative and judiciary departments.

(11) Every budget bill or supplementary appropriation bill passed by a majority of the members elected to each house of the Legislature shall, before it becomes a law, be presented to the governor. The governor may veto the bill, or he may disapprove or reduce items or parts of items contained therein. If he approves he shall sign it and thereupon it shall become a law. The bill, items or parts thereof, disapproved or reduced by the governor, shall be returned with his objections to each house of the Legislature.

Each house shall enter the objections at large upon its Journal and proceed to reconsider. If, after reconsideration, two thirds of the members elected to each

house agree to pass the bill, or such items or parts thereof, as were disapproved or reduced, the bill, items or parts thereof, approved by two thirds of such members, shall become law, notwithstanding the objections of the governor. In all such cases, the vote of each house shall be determined by yeas and nays to be entered on the journal.

A bill, item or part thereof, which is not returned by the governor within five days (Sundays excepted) after the bill has been presented to him shall become a law in like manner as if he had signed the bill, unless the Legislature, by adjournment, prevents such return, in which case it shall be filed in the office of the secretary of state, within five days after such adjournment, and shall become a law; or it shall be so filed within such five days with the objections of the governor, in which case it shall become law to the extent not disapproved by the governor.

(12) The Legislature may, from time to time, enact such laws, not inconsistent with this section, as may be necessary and proper to carry out its provisions.

(13) In the event of any inconsistency between any of the provisions of this section and any of the other provisions of the Constitution, the provisions of this section shall prevail. But nothing herein shall be construed as preventing the governor from calling extraordinary sessions of the Legislature, as provided by section nineteen of this article, or as preventing the Legislature at such extraordinary sessions from considering any emergency appropriation or appropriations.

(14) If any item of any appropriation bill passed under the provisions of this section shall be held invalid upon any ground, such invalidity shall not affect the legality of the bill or of any other item of such bill or bills.

[Editor's note.—The amendment of this section was proposed by House Joint Resolution No. 3, Acts 1967; submitted by Acts 1968, c. 15; and ratified on November 5, 1968. The amendment rewrote the section to read as set out above and designated it the "Modern Budget Amendment."]

ARTICLE VIII

THE JUDICIARY

Judicial Power

§1. The judicial power of the State shall be vested solely in a supreme court of appeals and in the circuit courts, and in such intermediate appellate courts and magistrate courts as shall be hereafter established by the Legislature, and in the justices, judges and magistrates of such courts.

Supreme Court of Appeals

§2. The supreme court of appeals shall consist of five justices. A majority of the justices of the court shall constitute a quorum for the transaction of business.

The justices shall be elected by the voters of the State for a term of twelve years, unless sooner removed or retired as authorized in this article. The Legislature may prescribe by law whether the election of such justices is to be on a partisan or nonpartisan basis.

Provision shall be made by rules of the supreme court of appeals for the selection of a member of the court to serve as chief justice thereof. If the chief justice is temporarily disqualified or unable to serve, one of the justices of the court designated in accordance with the rules of the court shall serve temporarily in his stead.

When any justice is temporarily disqualified or unable to serve, the chief justice may assign a judge of a circuit court or of an intermediate appellate court to serve from time to time in his stead.

Supreme Court of Appeals; Jurisdiction and Powers; Officers and Employees; Terms

§3. The supreme court of appeals shall have original jurisdiction of proceedings in habeas corpus, mandamus, prohibition and certiorari.

The court shall have appellate jurisdiction in civil cases at law where the matter in controversy, exclusive of interest and costs, is of greater value or amount than three hundred dollars unless such value or amount is increased by the Legislature; in civil cases in equity; in controversies concerning the title or boundaries of land; in proceedings in quo warranto, habeas corpus, mandamus, prohibition and certiorari; and in cases involving personal freedom or the constitutionality of a law. It shall have appellate jurisdiction in criminal cases, where there has been a conviction for a felony or misdemeanor in a circuit court, and such appellate jurisdiction as may be conferred upon it by law where there has been such a conviction in any other court. In criminal proceedings relating to the public revenue, the right of appeal shall belong to the State as well as to the defendant. It shall have such other appellate jurisdiction, in both civil and criminal cases, as may be prescribed by law.

The court shall have power to promulgate rules for all cases and proceedings, civil and criminal, for all of the courts of the State relating to writs, warrants, process, practice and procedure, which shall have the force and effect of law.

The court shall have general supervisory control over all intermediate appellate courts, circuit courts and magistrate courts. The chief justice shall be the administrative head of all the courts. He may assign a judge from one intermediate appellate court to another, from one circuit court to another, or from one magistrate court to another, for temporary service. The court shall appoint an administrative director to serve at its pleasure at a salary to be fixed by the court. The administrative director shall, under the direction of the chief justice, prepare and submit a budget for the court.

The officers and employees of the supreme court of appeals, including the clerk and the law librarian, shall be appointed and may be removed by the court. Their duties and compensation shall be prescribed by the court.

The number, times and places of the terms of the supreme court of appeals shall be prescribed by law. There shall be at least two terms of the court held annually.

Writ of Error, Supersedeas and Appeal; Scope and Form of Decisions

§4. A writ of error, supersedeas or appeal shall be allowed by the supreme court of appeals, or a justice thereof, only upon a petition assigning error in the judgment or proceedings of a court and then only after the court, or a justice thereof, shall have examined and considered the record and is satisfied that there probably is error in the record, or that it presents a point proper for the consideration of the court.

No decision rendered by the court shall be considered as binding authority upon any court, except in the particular case decided, unless a majority of the justices of the court concur in such decision.

When a judgment or order of another court is reversed, modified or affirmed by the court, every point fairly arising upon the record shall be considered and decided; the reasons therefor shall be concisely stated in writing and preserved with the record; and it shall be the duty of the court to prepare a syllabus of the points adjudicated in each case in which an opinion is written and in which a majority of the justices thereof concurred, which shall be prefixed to the published report of the case.

Circuit Courts

§5. The judge or judges of each circuit court shall be elected by the voters of the circuit for a term of eight years, unless sooner removed or retired as authorized in this article. The Legislature may prescribe by law whether the election of such judges is to be on a partisan or nonpartisan basis. Upon the effective date of this article, each statutory court of record of limited jurisdiction existing in

the State immediately prior to such effective date shall become part of the circuit court for the circuit in which it presently exists, and each such judge of such statutory court of record of limited jurisdiction shall thereupon become a judge of such circuit court. During his continuance in office, a judge of a circuit court shall reside in the circuit of which he is a judge.

The Legislature may increase, or other than during term of office decrease, the number of circuit judges within any circuit. The judicial circuits in existence on the effective date of this article shall remain as so constituted until changed by law, and the Legislature, at any session thereof held in the odd-numbered year next preceding the time for the full term election of the judges thereof, may rearrange the circuits and may increase or diminish the number of circuits. A judge of a circuit court in office at the time of any such change shall continue as a judge of the circuit in which he shall continue to reside after such change until his term shall expire, unless sooner removed or retired as authorized in this article.

There shall be at least one judge for each circuit court and as many more as may be necessary to transact the business of such court. If there be two or more judges of a circuit court, provision shall be made by rules of such circuit court for the selection of one of such judges to serve as chief judge thereof. If the chief judge is temporarily disqualified or unable to serve, one of the judges of the circuit court designated in accordance with the rules of such court shall serve temporarily in his stead.

The supreme court of appeals shall provide for dividing the business of those circuits in which there shall be more than one judge between the judges thereof so as to promote and secure the convenient and expeditious transaction of such business.

In every county in the State the circuit court for such county shall sit at least three times in each year. The supreme court of appeals shall designate the times at which each circuit court shall sit, but until this action is taken by the supreme court of appeals, each circuit court shall sit at the times prescribed by law. If there be two or more judges of a circuit court, such judges may hold court in the same county or in different counties within the circuit at the same time or at different times.

Circuit Courts; Jurisdiction, Authority and Power

§6. Circuit courts shall have control of all proceedings before magistrate courts by mandamus, prohibition and certiorari.

Circuit courts shall have original and general jurisdiction of all civil cases at law where the value or amount in controversy, exclusive of interest and costs, exceeds one hundred dollars unless such value or amount is increased by the Legislature; of all civil cases in equity; of proceedings in habeas corpus, mandamus, quo warranto, prohibition and certiorari; and of all crimes and misdemeanors. On and after January one, one thousand nine hundred seventy-six, the Legislature may provide that all matters of probate, the appointment and qualification of personal representatives, guardians, committees and curators, and the settlements of their accounts, shall be vested exclusively in circuit courts or their officers, but until such time as the Legislature provides otherwise, jurisdiction in such matters shall remain in the county commissions or tribunals existing in lieu thereof or the officers of such county commissions or tribunals.

Circuit courts shall have appellate jurisdiction in all cases, civil and criminal, where an appeal, writ of error or supersedeas is allowed by law to the judgment or proceedings of any magistrate court, unless such jurisdiction is conferred by law exclusively upon an intermediate appellate court or the supreme court of appeals.

Circuit courts shall also have such other jurisdiction, authority or power, original or appellate or concurrent, as may be prescribed by law.

Subject to the approval of the supreme court of appeals, each circuit court shall have the authority and power to establish local rules to govern the court.

Subject to the supervisory control of the supreme court of appeals, each circuit court shall have general supervisory control over all magistrate courts in the

circuit. Under the direction of the chief justice of the supreme court of appeals, the judge of the circuit court, or the chief judge thereof if there be more than one judge of the circuit court, shall be the administrative head of the circuit court and all magistrate courts in the circuit.

General Provisions Relating to Justices, Judges and Magistrates

§7. All justices, judges and magistrates must be residents of this State and shall be commissioned by the governor. No person may hereafter be elected as a justice of the supreme court of appeals unless he has been admitted to practice law for at least ten years prior to his election, and no person may hereafter be elected as a judge of a circuit court unless he has been admitted to practice law for at least five years prior to his election.

Justices, judges and magistrates shall receive the salaries fixed by law, which shall be paid entirely out of the state treasury, and which may be increased but shall not be diminished during their term of office, and they shall receive expenses as provided by law. The salary of a circuit judge shall also not be diminished during his term of office by virtue of the statutory courts of record of limited jurisdiction of his circuit becoming a part of such circuit as provided in section five of this article.

Any justice of the supreme court of appeals and any judge of any circuit court, including any statutory court of record of limited jurisdiction which becomes a part of a circuit court by virtue of section five of this article, in office on the effective date of this article shall continue in office until his term shall expire, unless sooner removed or retired as authorized in this article: *Provided*, That as to the term of any judge of a statutory court of record of limited jurisdiction which does not expire on the thirty-first day of December, one thousand nine hundred seventy-six, the following provisions shall govern and control unless any such judges shall be sooner removed or retired as authorized in this article: (1) If the term would otherwise expire before the thirty-first day of December, one thousand nine hundred seventy-six, such term shall continue through and expire on said thirty-first day of December, one thousand nine hundred seventy-six, (2) if the term would otherwise expire on the first day of January, one thousand nine hundred seventy-seven, such term shall terminate and expire on the thirty-first day of December, one thousand nine hundred seventy-six, and (3) if the term would otherwise expire after the thirty-first day of December, one thousand nine hundred seventy-six, but other than on the first day of January, one thousand nine hundred seventy-seven, such term shall continue through and expire on the thirty-first day of December, one thousand nine hundred eighty-four.

No justice, judge or magistrate shall hold any other office, or accept any appointment or public trust, under this or any other government; nor shall he become a candidate for any elective public office or nomination thereto, except a judicial office; and the violation of any of these provisions shall vacate his judicial office. No justice of the supreme court of appeals or judge of an intermediate appellate court or of a circuit court shall practice the profession of law during the term of his office, but magistrates who are licensed to practice this profession may practice law except to the extent prohibited by the Legislature.

If from any cause a vacancy shall occur in the office of a justice of the supreme court of appeals or a judge of a circuit court, the governor shall issue a directive of election to fill such vacancy in the manner prescribed by law for electing a justice or judge of the court in which the vacancy exists, and the justice or judge shall be elected for the unexpired term; and in the meantime, the governor shall fill such vacancy by appointment until a justice or judge shall be elected and qualified. If the unexpired term be less than two years, or such additional period, not exceeding a total of three years, as may be prescribed by law, the governor shall fill such vacancy by appointment for the unexpired term.

Censure, Temporary Suspension and Retirement of Justices, Judges and Magistrates; Removal

§8. Under its inherent rule-making power, which is hereby declared, the supreme court of appeals shall, from time to time, prescribe, adopt, promulgate

and amend rules prescribing a judicial code of ethics, and a code of regulations and standards of conduct and performances for justices, judges and magistrates, along with sanctions and penalties for any violation thereof, and the supreme court of appeals is authorized to censure or temporarily suspend any justice, judge or magistrate having the judicial power of the State, including one of its own members, for any violation of any such code of ethics, code of regulations and standards, or to retire any such justice, judge or magistrate who is eligible for retirement under the West Virginia judges' retirement system (or any successor or substituted retirement system for justices, judges and magistrates of this State) and who, because of advancing years and attendant physical or mental incapacity, should not, in the opinion of the supreme court of appeals, continue to serve as a justice, judge or magistrate.

No justice, judge or magistrate shall be censured, temporarily suspended or retired under the provisions of this section unless he shall have been afforded the right to have a hearing before the supreme court of appeals, nor unless he shall have received notice of the proceedings, with a statement of the cause or causes alleged for his censure, temporary suspension or retirement, at least twenty days before the day on which the proceeding is to commence. No justice of the supreme court of appeals may be temporarily suspended or retired unless all of the other justices concur in such temporary suspension or retirement. When rules herein authorized are prescribed, adopted and promulgated, they shall supersede all laws and parts of laws in conflict therewith, and such laws shall be and become of no further force or effect to the extent of such conflict.

A retired justice or judge may, with his permission and with the approval of the supreme court of appeals, be recalled by the chief justice of the supreme court of appeals for temporary assignment as a justice of the supreme court of appeals, or judge of an intermediate appellate court, a circuit court or a magistrate court.

A justice or judge may be removed only by impeachment in accordance with the provisions of section nine, article four of this Constitution. A magistrate may be removed from office in the manner provided by law for the removal of county officers.

Clerks of Circuit Courts

§9. The voters of each county shall elect a clerk of the circuit court, whose term of office shall be six years; his duties, responsibilities, compensation and the manner of removing him from office shall be prescribed by law. Whenever the clerk shall be so situated as to make it improper for him to act in any matter, a clerk to act therein shall be appointed by the judge of the circuit court or the chief judge thereof, if there be more than one judge of the circuit court. Vacancies shall be filled in the manner prescribed by law. A clerk of the circuit court in office on the effective date of this article shall continue in office until his term shall expire, unless sooner removed in the manner prescribed by law.

Magistrate Courts

§10. The Legislature shall establish in each county a magistrate court or courts with the right of appeal as prescribed by law. Such courts shall be courts of record if so prescribed by law.

The Legislature shall determine the qualifications and the number of magistrates for each such court to be elected by the voters of the county, and the Legislature may prescribe by law whether the election of such magistrates is to be on a partisan or nonpartisan basis: *Provided*, That any person in office as a justice of the peace of this State on the effective date of this article and who has served as a justice of the peace of this State for at least one year prior to such effective date shall, insofar as any qualifications established by the Legislature for the office of magistrate are concerned and notwithstanding the same, be deemed qualified for life to run for election as a magistrate of any such court: *And provided further*, That the Legislature shall not have the power to require that a magistrate be a person licensed to practice the profession of law, nor shall any justice or judge of any higher court establish any rules which by

their nature would dictate or mandate that a magistrate be a person licensed to practice the profession of law. The magistrates of such courts shall hold their offices for the term of four years unless sooner removed or retired as authorized in this article. The Legislature shall also determine the number of officers to be selected for each such court and the manner of their selection. During his continuance in office a magistrate or officer of such a court shall reside in the county for which he is elected or selected. The Legislature shall prescribe by law for the filling of any vacancy in the office of a magistrate or officer of such court.

The jurisdiction of a magistrate court shall extend throughout the county for which it is established, shall be uniform for all counties of the State and shall be subject to such regulations as to venue of actions and the counties in which process may be executed or served on parties or witnesses as may be prescribed by law. The times and places for holding such courts shall be designated or determined in such manner as shall be prescribed by law.

Magistrate courts shall have such original jurisdiction in criminal matters as may be prescribed by law, but no person shall be convicted or sentenced for a felony in such courts. In criminal cases, the procedure may be by information or warrant of arrest, without presentment or indictment by a grand jury. Such courts shall have original jurisdiction in all civil cases at law wherein the value or amount in controversy, exclusive of interest and costs, shall not exceed fifteen hundred dollars, unless such amount and value shall be increased by the Legislature, except such civil matters as may be excluded from their jurisdiction by law; and, to the extent provided by law, in proceedings involving real estate when the title thereto is not in controversy. No judgment of a magistrate in any proceeding involving real estate or any right pertaining thereto shall bar the title of any party or any remedy therefor.

The division of the business of a magistrate court in any county in which there shall be more than one magistrate of such court between the magistrates thereof so as to promote and secure the convenient and expeditious transaction of such business shall be determined in such manner or by such method as shall be prescribed by the judge of the circuit court of such county, or the chief judge thereof, if there be more than one judge of such circuit court.

In a trial by jury in a magistrate court, the jury shall consist of six jurors who are qualified as prescribed by law.

No magistrate or any officer of a magistrate court shall be compensated for his services on a fee basis or receive to his own use for his services any pecuniary compensation, reward or benefit other than the salary prescribed by law.

Municipal Courts

§11. The Legislature may provide for the establishment in incorporated cities, towns or villages of municipal, police or mayors' courts, and may also provide the manner of selection of the judges of such courts. Such courts shall have jurisdiction to enforce municipal ordinances, with the right of appeal as prescribed by law. Until otherwise provided by law, all such courts heretofore established shall remain and continue as now constituted, and with the same right of appeal, insofar as their jurisdiction to enforce municipal ordinances is concerned; but on and after January one, one thousand nine hundred seventy-seven, any other jurisdiction now exercised by such courts shall cease. No judge of a municipal, police or mayor's court or any officer thereof shall be compensated for his services on a fee basis or receive to his own use for his services any pecuniary compensation, reward or benefit other than the salary prescribed therefor.

Issuance and Execution of Writs, Warrants and Process; Admission to Bail

§12. The Legislature may designate the courts and officers or deputies thereof who shall have the power to issue, execute or serve such writs, warrants or any other process as may be prescribed by law, and may specify before what courts or officers thereof such writs, warrants or other process shall be returnable. The Legislature may also designate the courts and officers or deputies thereof who

shall have the power to admit persons to bail. No person exercising such powers shall be compensated therefor on a fee basis.

Parts of Existing Law Effective

§13. Except as otherwise provided in this article, such parts of the common law, and of the laws of this State as are in force on the effective date of this article and are not repugnant thereto, shall be and continue the law of this State until altered or repealed by the Legislature.

Pending Causes; Transfer of Causes; Records

§14. Until otherwise provided by law, all matters pending in any court on the effective date of this article shall remain and be prosecuted in the court in which they are pending.

Whenever the jurisdiction, powers or duties of any court are terminated or changed, the Legislature shall provide by law for the transfer of all matters pending therein as to which the court shall not thereafter act, together with all of the records and papers pertaining thereto, to a court having jurisdiction, powers or duties as to such matters, and shall provide for the prosecution therein of such matters as if then and there pending.

All records and papers pertaining to matters already disposed of in any court shall be preserved or disposed of in a manner prescribed by law.

Offices Phased Out; Effective Date of Article; Certain Provisions to Be Operable at Time Specified; Effect of Article on Certain Provisions of Constitution

§15. Notwithstanding the provisions of section one of this article, the office of justice of the peace, as heretofore constituted, shall continue until January one, one thousand nine hundred seventy-seven. No person shall be elected to the office of justice of the peace or constable at the general election to be held in the year one thousand nine hundred seventy-six, and said offices shall cease to exist as of January one, one thousand nine hundred seventy-seven.

This article shall take effect from the time of ratification, but in any case where it is specified in this article that a provision shall become operable on and after a certain date, such date shall govern and control as to the operable date of such provision.

The provisions of this article shall supersede and prevail over all other provisions of this Constitution which are expressly or impliedly in conflict or inconsistent therewith.

[Editor's note.—The amendment of this article was proposed by Senate Joint Resolution No. 6, Acts, Regular Session, 1974, p. 946; submitted under authority of art. 11, c. 3, of the West Virginia Code; and ratified November 5, 1974. Vote on the amendment: For ratification, 217,732; Against ratification, 127,393; Majority, 90,339.

§1. The voters of each county shall elect a surveyor of lands, a prosecuting attorney, a sheriff, and one and not more than two assessors, who shall hold their respective offices for the term of four years.

Constables, Coroners and Overseers of the Poor

§2. There shall also be elected in each district of the county, by the voters thereof, one constable, and if the population of any district shall exceed twelve hundred, an additional constable, whose term of office shall be four years, and whose powers as such shall extend throughout their county. The assessor shall, with the advice and consent of the county court, have the power to appoint one or more assistants. Coroners, overseers of the poor and surveyors of roads, shall

Sheriffs

§3. A person who has been elected or who has served as sheriff during all or any part of two consecutive terms shall be ineligible for the office of sheriff during any part of the term immediately following the second of the two consecutive terms. The person holding the office of sheriff when this section is ratified shall not be prevented from holding the office of sheriff during the term immediately following the term he is then serving.

[Editor's note.—The amendment of this section was proposed by House Joint Resolution No. 3, Acts, Regular Session, 1973, p. 700; and ratified at a special election on November 6, 1973. Vote on the amendment: For ratification, 123,003; Against ratification, 107,427; Majority, 15,576.

This section, prior to its amendment, read:

"The same person shall not be elected sheriff for two consecutive full terms; nor shall any person who acted as his deputy be elected successor to such sheriff, nor shall any sheriff act as deputy of his successor; nor shall he during his term of service, or within one year thereafter, be eligible to any other office. The retiring sheriff shall finish all business remaining in his hands, at the expiration of his term; for which purpose his commission and official bond shall remain in force. The duties of the office of sheriff shall be performed by him in person, or under his superintendence."

Malfesance and Misfeasance in Office

§4. The presidents of the county courts, the justices of the peace, sheriffs, prosecuting attorneys, clerks of the circuit and of the county courts, and all other county officers shall be subject to indictment for malfesance, misfeasance, or neglect of official duty and upon conviction thereof, their office shall become vacant.

Commissioning of Officers Not Otherwise Provided for

§5. The Legislature shall provide for commissioning such of the officers herein mentioned, as it may deem proper, not provided for in this Constitution, and may require any class of them to give bond with security for the faithful discharge of the duties of their respective offices.

Compensation—Deputies

§6. It shall further provide for the compensation, the duties and responsibilities of such officers, and may provide for the appointment of their deputies and assistants by general laws.

Conservators of the Peace

§7. The president of the county court and every justice and constable shall be a conservator of the peace throughout his county.

Formation of New Counties

§8. No new county shall hereafter be formed in this State with an area of less than four hundred square miles; nor with a population of less than six thousand; nor shall any county, from which a new county, or part thereof shall be taken, be reduced in area below four hundred square miles, nor in population below six thousand. Nor shall a new county be formed without the consent of a majority of the voters residing within the boundaries of the proposed new county, and voting on the question.

County Commissions

§9. The office of county court or tribunal in lieu thereof heretofore created is hereby continued in all respects as heretofore constituted, but from and after the effective date of this amendment shall be designated as the county commission and wherever in this Constitution, the code of West Virginia, acts of the Legislature or elsewhere in law a reference is made to the county court of any county, such reference shall be read, construed and understood to mean the county commission.

Except as otherwise provided in section eleven or thirteen of this article, there shall be in each county of the state a county commission, composed of three commissioners, and two of said commissioners shall be a quorum for the transaction of business. It shall hold four regular sessions in each year, and at such times as may be fixed and entered of record by the said commission. Provisions may be made by law for holding special sessions of said commissions.

Terms of Office of County Commissioners

§10. The commissioners shall be elected by the voters of the county, and hold their office for a term of six years, except that at the first meeting of said commissioners they shall designate by lot, or otherwise in such manner as they may determine, one of their number, who shall hold his office for a term of two years, one for four years, and one for six years, so that one shall be elected every two years; but no two of said commissioners shall be elected from the same magisterial district. If two or more persons residing in the same district shall receive the greater number of votes cast at any election, then only the one of such persons receiving the highest number shall be declared elected, and the person living in another district, who shall receive the next highest number of votes, shall be declared elected. Said commissioners shall annually elect one of their number as president. The commissioners of said commissions, now in office, shall remain therein for the term for which they have been elected, unless sooner removed therefrom, in the manner prescribed by law.

Powers of County Commissioners

§11. The county commissions, through their clerks, shall have the custody of all deeds and other papers presented for record in their counties, and the same shall be preserved therein, or otherwise disposed of, as now is, or may be prescribed by law. They shall also, under such regulations as may be prescribed by law, have the superintendence and administration of the internal police and fiscal affairs of their counties, including the establishment and regulation of roads, ways, bridges, public landings, ferries and mills, with authority to lay and disburse the county levies: *Provided*, That no license for the sale of intoxicating liquors in any incorporated city, town or village, shall be granted without the consent of the municipal authorities thereof, first had and obtained. Until otherwise prescribed by law, they shall, in all cases of contest, be the judge of the election, qualification and returns of their own members, and of all county and district officers, subject to such regulations, by appeal or otherwise, as may be prescribed by law. Such commissions may exercise such other powers, and perform such other duties, not of a judicial nature, as may be prescribed by law. Such existing tribunals as have been heretofore established by the Legislature to act as to police and fiscal matters in lieu of county commissions in certain counties shall remain and continue as now constituted in the counties in which they have been respectively established until otherwise provided by law, and they shall have and exercise the powers which the county commissions have under this article, and, until otherwise provided by law, such clerk as is mentioned in section twelve of this article shall exercise any powers and discharge any duties, heretofore conferred on, or required of, any such tribunal or the clerk of such tribunal respecting the recording and preservation of deeds and other papers presented for record and such other matters as are prescribed by law to be exercised and discharged by the clerk thereof.

Clerk of County Commission

§12. The voters of each county shall elect a clerk of the county commission, whose term of office shall be six years. His duties and compensation and the manner of his removal shall be prescribed by law. But the clerks of said commissions, now in office, shall remain therein for the term for which they have been elected, unless sooner removed therefrom, in the manner prescribed by law.

Reformation of County Commissions

§13. The Legislature shall, upon the application of any county, reform, alter or modify the county commission established by this article in such county, and in

lieu thereof, with the assent of a majority of the voters of such county voting at an election, create another tribunal for the transaction of the business required to be performed by the county commission created by this article. Whenever a county commission shall receive a petition signed by ten percent of the registered voters of such county requesting the reformation, alteration or modification of such county commission, it shall be the mandatory duty of such county commission to request the Legislature, at its next regular session thereafter, to enact an act reforming, altering or modifying such county commission and establishing in lieu thereof another tribunal for the transaction of the business required to be performed by such county commission, such act to take effect upon the assent of the voters of such county, as aforesaid. Whenever any such tribunal is established, all of the provisions of this article in relation to the county commission shall be applicable to the tribunal established in lieu of said commission. When such tribunal has been established, it shall continue to act in lieu of the county commission until otherwise provided by law.

[Editor's note.—The foregoing article was amended by adding sections 9, 10, 11, 12 and 13 and was proposed by Senate Joint Resolution No. 6, Acts, Regular Session, 1974, p. 946; submitted under authority of art. 11, c. 3, of the West Virginia Code; and ratified November 5, 1974. Vote on the amendment: For ratification, 217,732; Against ratification, 127,393; Majority, 90,339.

The purpose of the foregoing sections 9, 10, 11, 12 and 13 is to remove the county court from the Judicial Department, art. 8, as amended, and to transfer the office of county court or tribunal to art. 9, County Organization.]

ARTICLE X

Taxation and Finance

§1. Subject to the exceptions in this section contained, taxation shall be equal and uniform throughout the State, and all property, both real and personal, shall be taxed in proportion to its value to be ascertained as directed by law. No one species of property from which a tax may be collected shall be taxed higher than any other species of property of equal value; except that the aggregate of taxes assessed in any one year upon personal property employed exclusively in agriculture, including horticulture and grazing, products of agriculture as above defined, including livestock, while owned by the producer, and money, notes, bonds, bills and accounts receivable, stocks and other similar intangible personal property shall not exceed fifty cents on each one hundred dollars of value thereon and upon all property owned, used and occupied by the owner thereof exclusively for residential purposes and upon farms occupied and cultivated by their owners or bona fide tenants, one dollar; and upon all other property situated outside of municipalities, one dollar and fifty cents; and upon all other such property situated within municipalities, two dollars; and the Legislature shall further provide by general law, for increasing the maximum rates, authorized to be fixed, by the different levying bodies upon all classes of property, by submitting the question to the voters of the taxing units affected, but no increase shall be effective unless at least sixty percent of the qualified voters shall favor such increase, and such increase shall not continue for a longer period than three years at any one time, and shall never exceed by more than fifty percent the maximum rate herein provided and prescribed by law; and the revenue derived from this source shall be apportioned by the Legislature among the levying units of the State in proportion to the levy laid in said units upon real and other personal property; but property used for educational, literary, scientific, religious or charitable purposes, all cemeteries, public property, the personal property, including live stock, employed exclusively in agriculture as above defined and the products of agriculture as so defined while owned by the producers may by law be exempted from taxation; household goods to the value of two hundred dollars shall be exempted from taxation. The Legislature shall have authority to tax privileges, franchises, and incomes of persons and corporations and to classify and graduate the tax on all incomes according to the amount thereof and to exempt from taxation, incomes below a minimum to be fixed from time to time, and such revenues as may be derived from such tax may be appropriated as the Legislature may provide. Property Tax Limitation and Homestead Exemption Amendment of 1982

§1b. Ad valorem property taxation shall be in accordance with this section and other applicable provisions of this article not inconsistent with this section.

Subsection A—Value; Rate of Assessment; Exceptions

Notwithstanding any other provisions of this Constitution and except as otherwise provided in this section, all property subject to ad valorem taxation shall be assessed at sixty percent of its value, as directed to be ascertained in this section, except that the Legislature may from time to time, by general law agreed to by two thirds of the members elected to each house, establish a higher percentage for the purposes of this paragraph, which percentage shall be uniform as to all classes of property defined in section one of this article, but not more than one hundred percent of such value.

Notwithstanding the foregoing, for the first day of July, one thousand nine hundred eighty-two, and the first day of July of each year thereafter until the values may be fixed as a result of the first statewide reappraisal hereinafter required, assessments shall be made under the provisions of current statutory law, which is hereby validated for such purpose until and unless amended by the Legislature. Assessment and taxation in accord with this section shall be deemed to be equal and uniform for all purposes.

Subsection B—Determination of Value

The Legislature shall provide by general law for periodic statewide reappraisal of all property, which reappraisal shall be related for all property to a specified base year which, as to each such reappraisal, shall be uniform for each appraisal for all classes of property and all counties. In such law, the Legislature shall provide for consideration of (1) trends in market values over a fixed period of years prior to the base year, (2) the location of the property, and (3) such other factors and methods as it may determine: *Provided*, That with respect to reappraisal of all property upon the base year of one thousand nine hundred eighty, such reappraisals are deemed to be valid and in compliance with this section: *Provided, however*, That with respect to farm property, as defined from time to time by the Legislature by general law, the determination of value shall be according to its fair and reasonable value for farming purposes, as may be defined by general law.

The results of each statewide appraisal shall upon completion be certified and published and errors therein may be corrected, all as provided by general

law. The first such statewide appraisal shall be completed, certified and published on or before the thirty-first day of March, one thousand nine hundred eighty-five, for use when directed by the Legislature.

The Legislature shall further prescribe by general law the manner in which each statewide reappraisal shall be employed to establish the value of the various separately assessed parcels or interests in parcels of real property and various items of personal property subject to ad valorem property taxation, the methods by which increases and reductions in value subsequent to the base year of each statewide reappraisal shall be ascertained, and require the enforcement thereof.

Subsection C—General Homestead Exemption

Notwithstanding any other provisions of this Constitution to the contrary, the first twenty thousand dollars of assessed valuation of any real property, or of personal property in the form of a mobile home, used exclusively for residential purposes and occupied by the owner or one of the owners thereof as his residence who is a citizen of this state and who is sixty-five years of age or older or is permanently and totally disabled as that term may be defined by the Legislature, shall be exempt from ad valorem property taxation, subject to such requirements, limitations and conditions as shall be prescribed by general law.

Notwithstanding any other provision of this Constitution to the contrary, the Legislature shall have the authority to provide by general law for an exemption from ad valorem property taxation in an amount not to exceed the first twenty thousand dollars of value of any real property, or of personal property in the form of a mobile home, used exclusively for residential purposes and occupied by the owner or one of the owners thereof as his residence who is a citizen of this state, and who is under sixty-five years of age and not totally and permanently disabled: *Provided*, That upon enactment of such general law, this exemption shall only apply to such property in any county in which the property was appraised at its value as of the first day of January, one thousand nine hundred eighty, or thereafter, as determined by the Legislature, and this exemption shall be phased in over such period of time not to exceed five years from the date such property was so appraised, or such longer time as the Legislature may determine by general law: *Provided, however*, That in no event shall any one person and his spouse, or one homestead be entitled to more than one exemption under these provisions: *Provided further*, That these provisions are subject to such requirements, limitations and conditions as shall be prescribed by general law.

The Legislature shall have the authority to provide by general law for property tax relief to citizens of this State who are tenants of residential or farm property.

Subsection D—Additional Limitations on Value

With respect to the first statewide reappraisal, pursuant to this section, the resulting increase in value in each and every parcel of land or interest therein and various items of personal property subject to ad valorem property taxation over and above the previously assessed value shall be allocated over a period of ten years in equal amounts annually.

The Legislature may by general law also provide for the phasing in of any subsequent statewide reappraisal of property.

Subsection E—Levies for Free Schools

In equalizing the support of free schools provided by state and local taxes, the Legislature may require that the local school districts levy all or any portion of the maximum levies allowed under section one of this article which has been allocated to such local school districts.

Within the limits of the maximum levies permitted for excess levies for schools or better schools in sections one and ten of this article, the Legislature may, in lieu of the exercise of such powers by the local school districts as heretofore provided, submit to the voters, by general law, a statewide excess levy, and if it be approved by the required number of voters, impose such levy,

subject however to all the limitations and requirements for the approval of such levies as in the case of a district levy. The law submitting the question to the voters shall provide, upon approval of the levy by the voters, for the assumption of the obligation of any local excess levies for schools then in force theretofore authorized by the voters of a local taxing unit to the extent of such excess levies imposed by the state and so as to avoid double taxation of those local districts. The Legislature may also by general law reserve to the school districts such portions of the power to lay authorized excess levies as it may deem appropriate to enable local school districts to provide educational services which are not required to be furnished or supported by the state. If a statewide excess levy for the support of free schools is approved by the required majority, the revenue from such a statewide excess levy shall be deposited in the state treasury and be allocated first for the local obligations assumed and thereafter for such part of the state effort to support free schools, by appropriation or as the law submitting the levy to the voters shall require, as the case may be.

The defeat of any such proposed statewide excess levy for school purposes shall not in any way abrogate or impair any local existing excess levy for such purpose nor prevent the adoption of any future local excess levy for such purpose.

Subsection F—Implementation

In the event of any inconsistency between any of the provisions of this section and other provisions of this Constitution, the provisions of this section shall prevail. The Legislature shall have plenary power to provide by general law for the equitable application of this article and, as to taxes to be assessed prior to the first statewide reappraisal, to make such laws retroactive to the first day of July, one thousand nine hundred eighty-two or thereafter.

Duties of County Authorities in Assessing Taxes

§7. County authorities shall never assess taxes, in any one year, the aggregate of which shall exceed ninety-five cents per one hundred dollars valuation, except for the support of free schools; payment of indebtedness existing at the time of the adoption of this Constitution; and for the payment of any indebtedness with the interest thereon, created under the succeeding section, unless such assessment, with all questions involving the increase of such aggregate, shall have been submitted to the vote of the people of the county, and have received three fifths of all the votes cast for and against it.

It also added the part of the second sentence which precedes the proviso.]

§10. Notwithstanding any other provision of the Constitution to the contrary, the maximum rates authorized and allocated by law for tax levies on the several classes of property for the support of public schools may be increased in any school district for a period not to exceed five years, and in an amount not to exceed one hundred percent of such maximum rates, if such increase is approved, in the manner provided by law, by at least a majority of the votes cast for and against the same.

§2. No entry by warrant on land in this State shall hereafter be made.

Forfeited Lands

§3. All title to lands in this State heretofore forfeited, or treated as forfeited, waste and unappropriated, or escheated to the state of Virginia, or this State, or purchased by either of said states at sales made for the nonpayment of taxes and become irredeemable, or hereafter forfeited, or treated as forfeited, or escheated to this State, or purchased by it and become irredeemable, not redeemed, released or otherwise disposed of, vested and remaining in this State, shall be, and is hereby transferred to, and vested in any person (other than those for whose default the same may have been forfeited or returned delinquent, their heirs or devisees), for so much thereof as such person has, or shall have had, actual continuous possession of, under color or claim of title for ten years, and who, or those under whom he claims, shall have paid the state taxes thereon for any five years during such possession; or if there be no such person, then to any person (other than those for whose default the same may have been forfeited, or returned delinquent, their heirs or devisees), for so much of said land as such person shall have title or claim to, regularly derived, mediately or immediately from, or under a grant from the Commonwealth of Virginia, or this State, not forfeited, which but for the title forfeited, would be valid, and who, or those under whom he claims has, or shall have paid all state taxes charged or chargeable thereon for five successive years, after the year 1865, or from the date of the grant, if it shall have issued since that year; or if there be no such person, as aforesaid, then to any person (other than those for whose default the same may have been forfeited, or returned delinquent, their heirs or devisees), for so much of said land as such person shall have had claim to and actual continuous possession of, under color of title for any five successive years after the year 1865, and have paid all state taxes charged or chargeable thereon for said period.

Former Owner's Privilege

§5. The former owner of any such land, shall be entitled to receive the excess of the sum for which the land may be sold over the taxes charged and chargeable thereon, or which, if the land had not been forfeited, would have been charged or chargeable thereon, since the formation of this State, with interest at the rate of twelve per centum per annum, and the costs of the proceedings, if his claim be filed in the circuit court that decrees the sale, within two years thereafter.

When, for any five successive years, the owner of any tract of land, or undivided interest therein, shall not have been charged on such land books with state, county and district taxes thereon, then, by operation hereof, the land, or undivided in-

And any owner of land so forfeited, or of any interest therein, at the time of the forfeiture thereof, who shall then be an infant, married woman, or insane person, may, until the expiration of three years after the removal of such disability, have the land, or such interest, charged on such land books, with all State and other taxes that shall be, and but for the forfeiture would be, chargeable on the land, or interest therein, for the year one thousand eight hundred sixty-three, and every year thereafter, with interest at the rate of ten per centum per annum, and pay all taxes and interest thereon for such years, and thereby redeem the land or interest therein: Provided, such right to redeem shall in no case extend beyond twenty years from the time such land was forfeited.

[Editor's note.—The amendment of this section was proposed by House Joint Resolution No. 4, Acts 1933, 2nd Ex. Sess., p. 583; submitted by Acts 1933, 2nd Ex. Sess., c. 72; and ratified on November 6, 1934. The amendment rewrote this section. Prior to the amendment this section provided for the forfeiture of tracts containing one thousand acres or more, did not expressly provide for owners of undivided interests, and did not mention county and district taxes.]

It was held, before the amendment, that although this section provided for the forfeiture of lands containing one thousand acres or more, it did not limit such forfeiture to such tracts, and that an act providing for the forfeiture of a less number of acres than one thousand, for nonentry upon the land books, was merely cumulative and not inhibited by this section of the Constitution. See *State v. Swann*, 46 W. Va. 128, 33 S.E. 89 (1899).]

ARTICLE XIV

Amendments

§1. No convention shall be called, having the authority to alter the Constitution of the State, unless it be in pursuance of law, passed by the affirmative vote of a majority of the members elected to each house of the Legislature and providing that polls shall be opened throughout the State, on the same day therein specified, which shall not be less than three months after the passage of such law, for the purpose of taking the sense of the voters on the question of calling a convention. And such convention shall not be held unless a majority of the votes cast at such polls be in favor of calling the same; nor shall the members be elected to such convention, until, at least, one month after the result of the vote shall be duly ascertained, declared and published. And all acts and ordinances of the said convention shall be submitted to the voters of the State for ratification or rejection, and shall have no validity whatever until they are ratified.

How Amendments Are Made

§2. Any amendment to the Constitution of the State may be proposed in either house of the Legislature at any regular or extraordinary session thereof; and if the same, being read on three several days in each house, be agreed to on its third reading, by two thirds of the members elected thereto, the proposed amendment, with the yeas and nays thereon, shall be entered on the journals, and it shall be the duty of the Legislature to provide by law for submitting the same to the voters of the State for ratification or rejection, at a special election, or at the next general election thereafter, and cause the same to be published, at least three months before such election in some newspaper in every county in which a newspaper is printed. If a majority of the qualified voters, voting on the question at the polls held pursuant to such law, ratify the proposed amendment, it shall be in force from the time of such ratification, as part of the Constitution of the State. If two or more amendments be submitted at the same time, the vote on the ratification or rejection shall be taken on each separately, but an amendment may relate to a single subject or to related subject matters and may amend or modify as many articles and as many sections of the Constitution as may be necessary and appropriate in order to accomplish the objectives of the amendment. Whenever one or more amendments are submitted at a special election, no other question, issue or matter shall be voted upon at such special election, and

the cost of such special election throughout the State shall be paid out of the state treasury.

[Editor's note.—The first amendment of this section was proposed by House Joint Resolution No. 2, Acts, Regular Session, 1960, p. 833; submitted by Acts, Regular Session, 1960, c. 5; and ratified November 8, 1960. Vote on the amendment: For ratification, 222,210; Against ratification, 114,530; Majority, 107,680.

It added the words "but an amendment may relate to a single subject or to related subject matters and may amend or modify as many articles and as many sections of the Constitution as may be necessary and appropriate in order to accomplish the objectives of the amendment."

The second amendment was proposed by Senate Joint Resolution No. 3, Regular Session, 1971, p. 1041; submitted by Chapter 17, Acts, Regular Session, 1971; and ratified November 7, 1972. Vote on the amendment: For ratification, 391,390; Against ratification, 145,918; Majority, 245,472.

It inserted the words "at any regular or extraordinary session" in the first sentence; provided for submitting proposed amendments to the voters at special elections as well as general elections; and added the last sentence as it appears in the section above.]

Such bonus shall also be paid to any person, otherwise eligible under the preceding sentence, who rendered active service in the armed forces of the United States prior to the first day of August, one thousand nine hundred sixty-four, and who received the Vietnam armed forces expeditionary medal. Such bonus shall also be paid to any veteran, otherwise qualified under either of the two sentences next preceding, who was discharged within ninety days after entering the armed forces because of a service-connected disability. The principal amount of any bonds issued for the purpose of paying the bonuses provided for in this amendment shall not exceed the principal amount of forty million dollars, but may be funded or refunded either on the maturity dates of said bonds or on any date on which said bonds are callable prior to maturity, and if any of said bonds have not matured or are not then callable prior to maturity, the Legislature may nevertheless provide at any time for the issuance of refunding bonds to fund or refund such bonds on the dates when said bonds mature or on any date on which said bonds are callable prior to maturity and for the investment or reinvestment of the proceeds of such refunding bonds in direct obligations of the United States of America until the date or dates upon which such bonds mature or are callable prior to maturity. The principal amount of any refunding bonds issued under the provisions of this paragraph shall not exceed the principal amount of the bonds to be funded or refunded thereby.

The bonds may be issued from time to time for the purposes authorized by this amendment as separate issues or as combined issues.

Whenever the Legislature shall provide for the issuance of any bonds under the authority of this amendment, it shall at the same time provide for the levy and collection of an additional cigarette tax, or a tax on any other tobacco products, or an additional tax on nonintoxicating beer, or an additional charge on the sale of each bottle of wine or liquor, or an additional general consumers sales tax, or a graduated income tax, or any combination of one or more thereof, or such other dedicated tax as the Legislature may determine, in such amount as may be required to pay annually the interest on such bonds and the principal thereof within and not exceeding thirty years, and all such taxes or charges so levied shall be irrevocably dedicated for the payment of the principal of and interest on such bonds until such principal of and interest on such bonds are finally paid and discharged and any of the covenants, agreements or provisions in the acts of the Legislature levying such taxes or charges shall be enforceable in any court of competent jurisdiction by any of the holders of said bonds.

WEST VIRGINIA CHILDREN'S HOME

Elkins 26241

Director: John J. Myatt III.

Located in Randolph County, the West Virginia Children's Home was established by an Act of the Legislature in 1917. The two-story brick structure is situated on a 17-acre tract which includes playground equipment, an open air swimming pool, and a modern school with adjoining gymnasium facilities.

Effective July 1, 1977, the Legislature transferred operation of the Home to the State Department of Human Services.

Originally an orphanage for neglected children, the Home now provides non-secure residential diagnostic and short-term treatment services to adolescent youth. Placements are voluntary. The Home provides an array of educational, recreational, and cultural enrichment programs together with its regimen of diagnostic services.

The aim is to provide each child with the emotional and educational tools to enable a return to his or her community.

CORRECTIONAL

ANTHONY CENTER

Neola 24961

Superintendent: Jerry C. Hedrick. Capacity: 100.

Anthony Center is located at Neola in Greenbrier County on Route 92, near White Sulphur Springs. This sixty-one acre site, initially established and operated by the Federal Government as a Job Corps center, was leased in 1970 from the United States Forest Service for its present purpose. The Center houses youthful male offenders between the ages of eighteen and twenty-one who have been adjudicated guilty of a crime, other than a capital offense, and who in the opinion of the committing court are amenable to rehabilitative programs not requiring close confinement. The period of incarceration is six months, or longer if deemed advisable by the Center Superintendent, but may not exceed two years.

The institution provides individual and group counseling, a comprehensive academic and vocational training curriculum, job and/or educational placement, a work program, religious opportunities, and a recreational program.

The academic and vocational education programs integrated with extensive counseling serve as the treatment vehicle. Residents are placed in groups of eight to ten and function as a group in their daily activities. Peer pressure originating in the group is asserted to help internalize socially acceptable values, and displace counter-productive behavior patterns acquired prior to placement at Anthony Center. Guidance is provided by the staff who employ the Peer Group Interaction technique - utilizing peer approval and acceptance to encourage appropriate conduct and attitude. An extension of the educational and counseling programs is recourse to psychological services provided by a practicing clinical psychologist who is on site two days each week.

Academic courses offered are history, math, reading, English, social studies, and science. Special Education services are available as needed for teaching language arts and math. Vocational courses available are woodworking, welding, masonry, auto mechanics, building maintenance, with a "special needs" program being implemented to supplement the needs of the disadvantaged student. Each of the vocational courses have three levels of achievement, so that an individual can work at his particular level. The main objective of the educational program is to teach each resident an employable skill. This is accomplished by first, the student obtaining his GED (General Education Diploma) and then reaching a level of proficiency in at least one phase of any of the vocational courses. Classes are taught year round by eleven full-time certified teachers. The last phase of the program is to place each resident in a job or educational system prior to release.

Work details involve the kitchen, laundry, barracks, vehicles, water and sewage systems, and general institutional upkeep. Job simulated projects include community beautification and construction projects, along with road and stream clean-up.

A local clergyman holds worship services on a weekly basis for all interested residents. He also provides individual counseling for residents when needed.

The year-round recreational program consists of softball, horseshoes, volleyball, basketball, football, and weight lifting. When the weather permits, swimming is also included on the agenda. The spacious gymnasium makes it possible for residents to participate in indoor sports during the winter months. This program is based on one hundred percent participation.

Upon completion of the academic, vocational, and counseling programs, residents are placed in a pre-release group. In pre-release they are given additional responsibilities and privileges in a program designed to de-institutionalize and prepare them for return to society at large.

HUTTONSVILLE CORRECTIONAL CENTER

Huttonsville 26273

Warden: Ronald O. Gregory. Deputy Warden: Franklin D. Phares. Capacity: 550.

The Huttonsville Correctional Center is located on a farm near Huttonsville in Randolph County, approximately 18 miles south of Elkins on U.S. Route 250. It was created by an Act of the Legislature in 1937 to relieve overcrowding at the West Virginia Penitentiary. It remained a branch of the parent institution until 1947, at which time the Legislature established it as a separate entity - the West Virginia Medium Security Prison. In 1970, the Center received its current name by Legislative Act.

The primary form of employment for the inmates has always been general farm work. Although by Act of the Legislature in 1977 the 5,000 acre farm was turned over to the Farm Management Commission, with a resultant change of agricultural emphasis from labor intensive general purpose farming to beef cattle production, the largest single inmate labor effort remains on the farm. Many educational programs, both vocational and academic, are offered to interested inmates. These classes give them an opportunity to engage in rehabilitative efforts during their non-working hours. Through the cooperation of the Department of Education's Adult Basic Education program, inmates are provided classes in remedial reading and are able to work toward, and obtain, GED certificates. A Special Education program offers remediation to handicapped students. Vocational courses include auto mechanics, auto body repair, welding, machine shop, typing, electricity and Braille transcribing. Basic college classes are offered through West Virginia Wesleyan College's "Outreach" program. The ACT is administered on a bi-monthly schedule. An Art Class offers

inmates instruction in basic drawing and painting, the music class provides instruction in piano, guitar and banjo. A leatherworking craft class has been established.

The institution has, since 1970, served as the intake point for all adult male felons sentenced to the custody of the Department of Corrections. Upon reception, inmates are placed in the Diagnostic and Classification Unit for a period of approximately four weeks, during which time they undergo diagnostic testing, interviews, counseling, and evaluation. Based upon the information gathered during this period, each inmate is individually classified for transfer to the West Virginia Penitentiary or for integration into the Center's population with concurrent recommendations for placement in rehabilitative programming. Since 1972, the various county courts have had the option of sending convicted, but not sentenced, adult male felons to the Diagnostic Unit for a 60 day evaluation. Those sentenced for this purpose undergo a regiment similar to the one experienced by regularly committed inmates, but somewhat more rigorous. A report is then provided the court which attempts to describe the man's personality, make some broad predictions about future tendencies, and offer some options for consideration by the Judge prior to deciding between probation and incarceration. Living quarters at this facility consist of military barracks style dormitories. There are no provisions for extended individual confinement.

The population increased to a record high of seven hundred and twenty-nine on May 20, 1983, representing a 54.8 percent increase over the five year period from June 1, 1978.

WEST VIRGINIA INDUSTRIAL HOME FOR YOUTH

Industrial 26375

Kathryn Lucas, Superintendent. D. William Pannetta, Business Manager. Capacity: 85.

The West Virginia Industrial Home for Youth is located one mile west of Salem on the old U.S. Route 50. It was established by an Act of the Legislature on February 18, 1897, and formally opened May 5, 1899. It was built on a 61 acre tract; 11 acres have since been returned to the City of Salem for use as a City Park.

From Jones Cottage, the first building, the physical plant has grown to include the following buildings: Silver Hall Cottage (1914); Sutton Cottage (1928); Ava Stanard Cottage (1942); New Jones Cottage (1961). The Administration Building built in 1942, houses the administrative offices and a residence for the Superintendent. The complex also includes Johnston High School, erected in 1915, and a modern gymnasium completed in 1951. A large four-temperature storage building was completed in 1951.

The Industrial Home for Youth provides treatment services for both male and female juveniles who have been adjudicated delinquent.

The rehabilitation program for the delinquent females follows a therapeutic small group approach. Residents learn to work together to solve mutual problems in a process known as Positive Peer Culture. This process is based on the theory that when one person helps another, she changes through the helping process. In the group, usually consisting of nine to thirteen girls, the members are taught to show care and concern for others, and to learn to accept responsibility for their own actions as well as the actions of other group members.

The rehabilitation program for the delinquent males is based on Individual Treatment Plans established with the youth and his primary counselor. These plans establish long and short term goals with the child for behavioral, educational, and emotional needs. The resident meets with his counselor on a regular weekly basis to discuss strategies for attainment of these goals.

In addition to the therapeutic programs, residents also have the opportunity to receive individual counseling from a licensed clinical psychologist and counselors. The psychologist also conducts an evaluation for each new resident.

It is the goal of the educational personnel to make each student successful in learning situations, thus building positive attitudes toward learning. The educational programs offered at the Industrial Home for Youth include: Special Education, Basic Education, Physical Education, Vocational Education, Life Skills Class and G.E.D. If the students meet the requirements, they also have the opportunity to attend Salem College or the Gore Vocational Center. Each resident's educational curriculum is designed to meet their individual needs.

In addition to the delinquent population, the Industrial Home for Youth, provides a Diagnostic Unit for both males and females, pursuant to West Virginia Code 40-5-13(a).

This unit houses youths adjudicated delinquent and committed for a thirty-day period. These youths are completely segregated from the regular committed population. The Unit provides the committing court with a complete psychological and medical evaluation along with a social summary on each temporarily committed child.

WEST VIRGINIA PENITENTIARY **Moundsville 26041**

Warden: Donald Bordenkircher. Deputy Warden: B. C. Clutter. Capacity: 681.

The West Virginia Penitentiary is located at 818 Jefferson Avenue, Moundsville, in Marshall County. Built in 1866, it was designed as a maximum security facility for both male and female felons. This walled facility was restricted to males in 1948 and covers an area of about six acres. Prison Industry facilities are located within the walls and the inmates are assigned to those industrial areas according to need, interest and ability. The industries produce signs, license plates and printing. These structures also house maintenance sections including plumbing, sheet metal and carpentry.

In recent years a vocational and educational program has been implemented to provide educational and vocational skill development. Inmates may obtain their G.E. D. certificates and, if qualified, participate in college courses offered in a cooperative program with West Virginia Northern Community College which is located nearby. More extensive vocational courses including auto mechanics, electronics, air conditioning and refrigeration, sheet metal, welding, and furniture refinishing are being planned. Participation in both the educational and vocational programs is voluntary.

DAVIS CENTER **Davis, 26260**

Superintendent: William C. Duncil. Capacity: 60.

Davis Center is located near the entrance to Blackwater Falls State Park in Tucker County. It was authorized by an Act of the Legislature in 1955. It is a minimum security facility that houses youthful male offenders between the ages of sixteen and twenty who have been adjudicated delinquent by the various courts of record in the state. The period of confinement is six months, or longer if deemed advisable by the Center Superintendent. In any event, confinement would not exceed two years.

Davis Center operates a Peer Group Interaction Counseling Program. Residents are placed in groups of eight to ten where primary emphasis is directed toward developing responsibility for their actions and rebuilding their life compatible with socially acceptable behavior and goals. Each resident receives five weekly one and one-half hour group sessions.

A diagnostic program is offered to assess the residents' strengths and weaknesses in academic, vocational and personality areas. Individual counseling and drug and alcohol classes are provided.

A full prescriptive educational program is offered which includes remedial, Graduate Education Diploma (GED), post-high school or college preparatory. Educational classes are held in a new 5,000 square-foot School Building, the Withrow Educational Center, which was constructed entirely by residents and staff as part of the institution's Building Construction class.

Vocational classes consist of auto mechanics, welding, woodworking, and building construction. Additional classes in auto-body, building construction, power mechanics and welding are offered at the nearby Arch Moore Career Center.

A full range of recreational activities is offered, including basketball, volleyball, weight lifting, swimming and softball. Recreational activities also utilize nearby state parks and the natural mountain beauty of the Monongahela National Forest. Non-denominational Religious services are held each Sunday.

Through the use of the Guided Peer Group Interaction Program, young men receive counseling and guidance by their peers with adult assistance. No form of corporal punishment is used. A young man's stay depends on developing responsibility for caring and concern for group members, as well as fulfilling his contract. Ultimately, a major goal is to enhance the young man's capabilities of making socially accepted choices and decisions after his release back into society.

ANDREW S. ROWAN MEMORIAL HOME

Sweet Springs 24980

Administrator: S. Mason Preston. Clinical Director: Malcom Harris, M.D. Average Daily Population: 190.

Located in the picturesque Sweet Springs valley of Monroe County, the Andrew S. Rowan Memorial Home was established by an Act of the Legislature in 1945. The facility is named in honor of Col. Andrew Summers Rowan, a Monroe County native, famous for his Spanish-American War exploits when he was the man who carried the "Message to Garcia".

The buildings and grounds are rich with history and tradition. The "Old Sweet" dates back as an old resort to the late 1700s and has hosted many Presidents, statesmen and foreign dignitaries. The oldest and largest building still in use, completed in 1833, is of the Thomas Jefferson design and named in his honor. A 96-bed annex was added in 1956 and the most recent addition, a 100-bed wing, was completed in October 1974. The State has taken great pains to maintain the historical integrity of the architecture throughout the expansions.

Serving senior citizens of West Virginia as a personal care nursing home, the Rowan facility provides 24 hour nursing coverage in the least possible restrictive setting. It tries to maintain a true "Home" setting for its residents. In addition a Respite Care service was established in 1981 to provide a maximum of 2 weeks of temporary care to State residents over 60 who meet the other admission requirements. This service has proved especially helpful to families needing proper supervision of elderly relatives for short periods of time.

PUBLIC COLLEGES AND UNIVERSITIES

WEST VIRGINIA UNIVERSITY

Morgantown 26506

Teacher, student, healer, artist, scientist, grower of food and forest, builder of a better world...these are the many faces of West Virginia University. It seeks to reconstruct the past, to understand the present, to glimpse and help create the future.

The 22,000 students that WVU serves each year are from every West Virginia county, 49 other states, and 80 foreign countries. One of the University's proudest traditions is the sending of 19 Rhodes Scholars to Oxford University in England, which ranks WVU among the nation's top 40 institutions. WVU also ranks among the top 7 percent of the nation's college and universities in the number of Merit Scholars enrolled.

West Virginia University is one of only 72 land-grant institutions serving the nation. They are called land-grant institutions because the Congressional act establishing them in 1862 gave federally owned land to each state that then sold the land and used the funds to begin a college which offered programs in agriculture and engineering.

Since its founding in 1867, WVU has developed into a comprehensive university, offering 174 degree programs through 15 colleges and schools, and it has become the center of graduate and professional education, research, and extension programs in West Virginia. Coal and energy are a major focus of University research.

Branches include the Charleston Division, WVU Medical Center; Wheeling Division, School of Medicine; Potomac State College at Keyser, the state's only residential junior college; and five off-campus graduate centers at Jackson's Mill near Weston, Parkersburg, Potomac State, Shepherd College in the Eastern Panhandle, and at West Liberty State College in the Northern Panhandle.

WVU operates eight experiment farms in Hardy, Jefferson, Monongalia, Monroe, and Preston counties; six experiment forests in Greenbrier, Monongalia, Preston, Randolph, Raleigh, and Wetzel counties; a geology camp in Greenbrier County; and the State 4-H Camp and a museum of mid-19th century life at Jackson's Mill, the boyhood home of Confederate General Stonewall Jackson that has been entered in the National Register of Historic Places.

The WVU Library maintains one of the finest regional collections of its kind, the West Virginia and Regional History Collection. The Core Arboretum is the only place in the State where many of West Virginia's native plants have been brought together in a single location.

PARKERSBURG COMMUNITY COLLEGE

Parkersburg 26101

Parkersburg Community College, established July 1, 1971, by the West Virginia Board of Regents as the State's first comprehensive community college, offers a wide range of courses in college-parallel programs, technical and occupational fields as well as community services.

Wood County citizens are credited with establishing an institution of higher education in their area. They expressed a need for a two-year college and the State Legislature responded during its 1961 session by authorizing the establishment of branch campuses. Under the provision of that act, and subsequent action by the Board of Governors of West Virginia University, the Parkersburg Branch of WVU opened in September, 1961, and served until the enactment of legislation to establish the community college system in the state.

Located on State Route 47 near Interstate 77, four miles east of the City of Parkersburg, the College offers educational opportunities to the citizens of a nine-county area. An off-campus center was established at Ripley in 1975.

PCC offers two-year, college-parallel programs leading to Associate in Arts and Associate in Science degrees, Associate in Applied Science degree programs consisting of para-professional and technical courses; Certificate programs designed to prepare students for careers in less than two years, and a Continuing Education Program for those who wish to enrich their lives through courses without academic credit or to update their technical/professional skills by earning continuing education units (CEU's).

The College is accredited by the North Central Association of Colleges and Schools, the National League for Nursing, the American Medical Association Joint Review Committee on Education in Radiologic

Technology, the American Institute of Design and Drafting (certification), the National Accrediting Agency for Clinical Laboratory Science, the West Virginia Real Estate Commission, the West Virginia State Board of Examiners for Registered Nurses, and the American Medical Association Commission on Accreditation.

DENOMINATIONAL AND PRIVATE SCHOOLS

ALDERSON-BROADDUS COLLEGE

Philippi 26416

Alderson-Broaddus College is a fully accredited, four-year degree-granting, liberal arts and science institution located on a 150-acre campus on the site of the first land battle of the Civil War in Philippi. The coeducational, private college is fully accredited by the North Central Association of Colleges and Secondary Schools and affiliated with the West Virginia Baptist Convention and the American Baptist Churches, USA. The College is committed in charter and by-laws to three main purposes:

- 1) good academic instruction
- 2) a Christian environment for learning, and
- 3) the instilling of a service motivation in its students. Its enrollment is just under a thousand students and the total College staff numbers nearly 200.

The College offers a number of career-oriented programs but each field of study requires a thorough grounding in the liberal arts and sciences. Over the years, teacher education has been a strong major at the institution and more recently, special education for the learning disabled, the mentally retarded, and the gifted have been additions in this department. In 1945, the College inaugurated the state's first degree program in nursing. In 1967, the school initiated the nation's first degree program for physician's assistants. These health programs, along with other allied health majors, are made possible by a close affiliation with Broadus Hospital, located on the College campus and by affiliation with other health delivery institutions nearby.

The College operates on a three-term system, emphasizing concentration of learning, efficient utilization of facilities, and enrichment for students through a number of opportunities which include:

- 1) independent study
- 2) study in another culture overseas
- 3) internship opportunities with business and industry and various agencies, and
- 4) Christian and humanitarian service projects.

Many students complete at least one term of off-campus education as part of their graduation requirements.

Almost half of the students at Alderson-Broadus are from West Virginia, with another fourth from Pennsylvania and Ohio, and the balance from other states and foreign countries. While the College is proud of its Baptist heritage and its active church relatedness, yet its religious emphasis is conceived in broad terms to serve all backgrounds with the intent of exposing rather than imposing. Total student costs for the 1983-84 academic year are \$6,100. The majority of students receive significant scholarship, grant-in-aid, and work opportunity assistance. The College believes there is a significant growth factor for students in the residential campus living arrangement. Ninety percent of the single students are resident on campus, and married couple facilities are available in the local community.

The main campus of the College occupies approximately 90 acres of land, on which are located academic, religious, administrative, and auxiliary enterprise buildings. Modern academic buildings provide excellent laboratory facilities in addition to adequate space for classrooms and offices. There are seventeen major buildings, including dormitories and food service facilities. With the exception of two buildings, all structures on campus have been completed since 1956, with most having been completed between 1965 and 1980. The most recently developed buildings on the campus include Wilcox Chapel (1976) and New Main (1980), the complex which houses all major administrative operations of the College.

Bethany's students, numbering approximately 800, represent nearly 30 states and nine countries. One third are from the New York, New Jersey and New England states. Another third represent the Mid-Atlantic Region, while the remaining third are from other states and countries.

Bethany provides financial aid in the form of grants, loans and campus employment. Scholarships are available to those who possess superior academic ability.

U.S. ARMY ENGINEER DISTRICT, HUNTINGTON

CORPS OF ENGINEERS

502 Eighth Street, Huntington 25721

Congress has delegated to the Corps of Engineers responsibility for the development, construction, operation, and maintenance of navigation facilities, flood control structures, and related improvements, and services for water resources management.

The Civil Works Program of the Corps of Engineers is divided on the basis of watershed drainage areas. The Ohio River drainage basin includes all of West Virginia except the Eastern Panhandle, which is in the Potomac River basin. The Huntington District of the Ohio River Division encompasses that part of the Ohio River basin in West Virginia downstream from New Martinsville in Wetzel County. The Pittsburgh District encompasses the upstream remainder of the Ohio River basin, including the basin of the Monongahela River. The Potomac River basin is included in the Baltimore District of the North Atlantic Division.

Responsibility for military construction in West Virginia rests with the U.S. Army Engineer District, Baltimore.

Extension of the Ohio River navigation system in West Virginia presently includes three high lift dams on the Kanawha River and three navigation structures on the Monongahela River.

Improvement of the navigation facilities on the Ohio River bordering West Virginia includes eight high lift structures which replaced 22 obsolete, low lift dams. Seven of the structures have double, parallel locks with dimensions of 1,200 feet by 110 feet and 600 feet by 110 feet. The other structure, Gallipolis, was completed in 1937 and has parallel locks measuring 600 feet by 110 feet and 360 feet by 110 feet. In river-descending order, the structures are New Cumberland Locks and Dam, at New Cumberland; Pike Island Locks and Dam, near Wheeling; Hannibal Locks and Dam, near New Martinsville; Willow Island Locks and Dam, near Willow Island; Belleville Locks and Dam, near Belleville; Racine Locks and Dam, near Letart, and Gallipolis Locks and Dam, near Apple Grove. The pool of the other structure, Greenup Locks and Dam, near Greenup, Kentucky, borders Kentucky, Ohio and West Virginia and extends to the Gallipolis Dam. In order to provide comparable locking capacity, a study has been completed recommending authorization for modernization of the Gallipolis structure.

Modernization of the obsolete navigation structures in the upper portion of the Monongahela River is complete. Opekiska, Hildebrand and Morgantown Locks and Dams are complete and located entirely within West Virginia. Point Marion Lock and Dam is in Pennsylvania, with its upper pool extending to Morgantown Dam. Modifications to Point Marion Dam are complete and replacement of the lock is under study.

Multipurpose reservoir projects constructed by the Army Engineers within the State include Bluestone Lake on New River at Hinton; Sutton Lake on Elk River at Sutton; Tygart Lake on Tygart Valley River near Grafton; Summersville Lake on Gauley River near Summersville; East Lynn Lake on East Fork of Twelvepole Creek near Huntington; R. D. Bailey Lake on Guyandotte River near Gilbert; Burnsville Lake on Little Kanawha River near Burnsville; Beech Fork Lake on Twelvepole Creek near Huntington and Bloomington Lake on North Branch Potomac River near Piedmont. The Stonewall Jackson Lake project on West Fork River near Weston is under construction.

Local protection projects completed by the Corps of Engineers in West Virginia are located at Parkersburg, Point Pleasant, Huntington, Ceredo-Kenova, Ridgeley, W.Va.-Cumberland, Md. (one project),

Buckhannon, Elkins, Princeton, East Rainelle, and Williamson. Several completed small flood control projects and snagging and clearing projects have reduced or alleviated flood damage along smaller tributaries of main rivers within the State.

Services provided include those related to floodplain management and disaster relief assistance. The flood plain management services program provides for preparation of floodplain information reports for communities of the State upon their request, and help to any community, agency, or individual in evaluating flood hazards at individual locations.

UNITED STATES MARINE CORPS

United States Marine Corps activities in West Virginia consist of two organized Marine Corps Reserve Training Centers, one Recruiting Station Headquarters and eight Recruiting Sub-stations.

The purpose of the Marine Corps Reserve Training Centers is to facilitate the training programs and mobilization readiness of the Marine Corps Reserve Units in the event of mobilization, war or national emergency. Both Marine Corps Reserve Units in West Virginia are listed as excellent in their readiness posture. The South Charleston Unit (Company A, 4th Combat Engineer Battalion) has been nominated for several national awards for its accomplishment in combining its engineer training with a domestic action program. The primary mission of Company A is to provide close combat engineering support of an engineer nature as necessary to meet the essential habitual requirements of an infantry regiment and associated task elements in combat operations under moderate conditions of climate, weather, and terrain. Through the use of its engineer skills and equipment, Company A has saved State and local governments a considerable amount of money by building and renovating recreational facilities, cultural centers, and public land areas.

The Inspector-Instructor Staff of each Marine Corps Reserve Unit is assigned to train and assist the unit in meeting established Marine Corps Standards. These active duty Marines are also responsible to represent the Marine Corps on appropriate occasions as well as assist Marine dependents in West Virginia while their sponsor is stationed overseas.

The Main Recruiting Station and Sub-stations are primarily tasked with selection and screening qualified volunteers for the United States Marine Corps, Marine Corps Reserve, and with processing applicants for the Naval Reserve Officer Training Commissioning (NROTC) programs.

WEST VIRGINIA NATIONAL GUARD

John D. Rockefeller IV, Governor
Commander-in-Chief

Major General John A. Wilson III
The Adjutant General

The West Virginia National Guard is authorized and governed by Article I, Chapter 15 of the West Virginia Code and is constituted as both State and Federal force by authority of the National Defense Act approved June 3, 1916, as amended to January 1, 1945, inclusive. The National Guard is a reserve component of the Army of the United States and the United States Air Force and is composed of officers and enlisted personnel who volunteer for duty and are qualified in accordance with Federal and State regulations governing same. In time of peace, the National Guard is a State force, controlled by the Adjutant General as a principal military representative of the Commander-in-Chief. The Adjutant General issues, in the name of the Governor, all orders to the National Guard, disburses funds appropriated by the State Legislature for this purpose and acts as Commanding General for the Commander-in-Chief. In the event of war, insurrection, rebellion, invasion, tumult or a case of public disaster, the Governor has the power to order the West Virginia National Guard or any part thereof, into the active service of the State and to cause them to perform such duty as he shall deem proper. The National Guard is equipped and paid by the Federal Government, but must meet certain organizational and training standards to qualify for Federal recognition. When Congress declares a national emergency and authorizes the use of armed forces requiring troops in excess of those in the Active Forces, the President of the United States may order the National Guard into the active military service of the United States. Initial enlistments in the National Guard are for a period of six years with reenlistments authorized for either three or six years.

RANDOLPH

Randolph County was formed from Harrison in 1787 and included all of the present county of Tucker, all of Barbour east of the river, all of Upshur east of Buckhannon River, and a considerable portion of Pocahontas and Webster. It lost territory in 1821 when Pocahontas was formed; again in 1843 when Barbour came into existence; in 1851 it gave up some of its territory to Upshur; five years later 350 square miles were cut off to form Tucker; and

another portion was incorporated in Webster County when it was formed in 1860. After all of these losses Randolph still is the largest county in the State. It was named for Edmund Jennings Randolph, Governor of Virginia 1786-1788. The first white man who settled in what is now West Virginia, built his home on the waters of the Monongahela. In this county occurred the first Indian massacre in the State. From that beginning, the county has been a historical center down to the present.

First 4-H Camp in the world held in this county.

Kumbrabow State Forest and part of the Monongahela National Forest are located in this county.

Rich Mountain Battlefield is located near Beverly, site of an important Battle of the Civil War. Southeast of Huttonsville, on White Mountain (elevation over 4,000 feet), the federal forces maintained the highest fortified camp in the War Between the States.

OFFICIAL MUNICIPAL REGISTER

(Corrected to July 1, 1983)

CLASS I, II AND III CITIES

Under the provisions of Chapter 56, Acts of the Legislature, regular session, 1937, municipal corporations are classified by population as follows: Population in excess of 50,000, Class I city; population more than 10,000 and not more than 50,000, Class II city; and population more than 2,000 and not more than 10,000, Class III city. Municipal corporations not included in these classifications are known as towns or villages.

Transition from one to another class of municipal corporation occurs automatically when the requisite population qualification has been met. Population is determined on the basis of the last preceding census taken under the authority of the Congress of the United States or the Legislature of West Virginia. Census of 1980 is used as basis in determining class of cities listed in this Register.

Population figures are from the 1980 census, unless designated otherwise.

Zip Code 26426

who established the town came in a body from Salem, New Jersey, arriving in the spring of 1792.

The first civilized habitation on the land now occupied by the City of Salem was a hunter's camp established by Nicholas Carpenter in 1785 who used it for a hunting and trapping center. He also used it as a crude hotel for himself and his men who drove cattle from Clarksburg to the Ohio River at Marietta which was the nearest market.

Samuel Fitz Randolph purchased the property on which the village was founded in 1790. Mr. Randolph had started with a caravan of pioneer settlers from Salem, New Jersey, who crossed the mountains in 1789 and made their first stop at Woodbridgetown, Pennsylvania. Mr. Randolph, a number of Davises, some Maxsons, and others came on to what is now Salem, after a two and one-half year trek from the sea coast.

Salem was the first settlement of Seventh Day Baptists west of the mountains. It is now the home of Salem College, founded in 1888, and the Industrial Home for Youth, established in 1898. Glass has been a major industry. It is the birthplace of United States Senator Jennings Randolph and the great writer, Granville Davison Hall, author of *Daughter of the Elm*, *The Rending of Virginia*, and many other historical books.

County seat. Settled in 1769 by Ebenezer Zane and followers. Name derived from Indian word, "Wheelin," which name was used for years prior to the Zane settlement to designate the creek which bisects the city. In 1793 the existence of Wheeling as a town became evident when Zane divided the settlement into lots, but Wheeling was not incorporated as a town until 1806 by the General Assembly of Virginia.

Although the peace treaty with the Indians was still in effect when Zane settled here, he and his followers immediately built a fort, which they called "Fort Henry." Here was fought in September, 1782, the last battle of the American Revolution. It was during this siege that the famous legend of Betty Zane was established, when she braved a storm of gunfire to carry powder from the Zane cabin to the fort.

Wheeling was the state's capital until 1870 and again from 1875 to 1890 when the government was moved to Charleston.

THE AMERICAN FLAG

DESCRIPTION OF THE FLAG

The Flag of the United States of America has 13 horizontal stripes—7 red and 6 white—the red and white stripes alternating, and a union which consists of white stars of five points on a blue field placed in the upper quarter next to the staff and extending to the lower edge of the fourth red stripe from the top. The number of stars is the same as the number of States in the Union. The canton or union now contains 50 stars. On the admission of a State in to the Union a star will be added to the union of the Flag, and such addition will take effect on the 4th day of July next succeeding such admission.

PLEDGE OF ALLEGIANCE

I pledge allegiance to the flag of the United States of America and to the Republic for which it stands, one Nation under God, indivisible, with liberty and justice for all.

STATE FLAG

Before the design of the present State Flag was officially adopted by the Legislature on March 7, 1929, by Senate Joint Resolution No. 18, West Virginia had been represented by several flags which had proved impractical.

Prominently displayed on the pure white field of today's flag and emblazoned in proper colors is the Coat of Arms, the lower half of which is wreathed by Rhododendron. Across the top, lettered on a ribbon, is the constitutional designation—"State of West Virginia." The white field is bordered on four sides by a strip of blue, and for parade purposes all but the staff side are to be trimmed with gold fringe.

GREAT SEAL OF WEST VIRGINIA

The Great Seal of West Virginia, which also is the Coat of Arms, was adopted by the Legislature on September 26, 1863, and symbolizes the principal pursuits and resources of West Virginia. Described briefly, the obverse side of the Seal bears the legend, "State of West Virginia," together with the motto, "Montani Semper Liberi" (Mountaineers Are Always Free); a farmer stands to the right and a miner to the left of a large ivy-draped rock bearing the date of the state's admission to the Union, in front of the rock are two hunters' rifles upon which rests a Phrygian Cap, or "Cap of Liberty."

The reverse side of the Seal is not in common use today. It was intended to be employed when the Seal was attached to documents by ribbons and suspended in the manner of a medal.

Joseph H. Diss Debar, of Doddridge County, designed the State Seal in 1863 at the request of the first West Virginia Legislature.

STATE SONGS

"THE WEST VIRGINIA HILLS", "THIS IS MY WEST VIRGINIA" and "WEST VIRGINIA, MY HOME SWEET HOME" were designated as the official State Songs of West Virginia, each ranking equally with the others in official status, by House Concurrent Resolution No. 19, adopted by the Legislature on February 28, 1963.

OFFICIAL COLORS

OLD GOLD and BLUE were designated as Official State Colors by Senate Concurrent Resolution No. 20, adopted by the Legislature on March 8, 1863.

STATE DAY

"West Virginia Day"

On January 1, 1863, President Abraham Lincoln approved the Statehood Bill for West Virginia on the condition that it would gradually abolish slavery. West Virginia was proclaimed a State on April 20, 1863, with the bill becoming effective sixty days later on June 20, 1863.

"West Virginia Day" became a legal holiday by Chapter 59, Acts of the Legislature, Regular Session, 1927. (Code 2-2-1)

STATE TREE

The Sugar Maple or ACER SACCHARUM, as it is known scientifically, was made West Virginia's official tree by House Concurrent Resolution No. 12, adopted by the Legislature on March 7, 1949, authorizing a vote by pupils of public schools and civic organizations. It produces an excellent wood for furniture as well as maple syrup. A single tree is 70 to 120 feet high and produces two to three pounds of sugar when "sugared off"; has a five-lobed leaf and produces a small wing-shaped pod.

STATE BIRD

The Cardinal or RICHMONDENA CARDINALIS, as it is known scientifically, was made West Virginia's official bird by House Concurrent Resolution No. 12, adopted by the Legislature on March 7, 1949, authorizing a vote by pupils of public schools and other civic organizations. The male of the species is a rich scarlet with a mask and shading of black, while the young birds and females are a less brilliant color. The adult bird measures approximately eight inches long. It can be found from New York State to the Gulf of Mexico and as far west as Oklahoma.

STATE FLOWER

The RHODODENDRON MAXIMUM or "Big Laurel" was made the official State Flower of West Virginia by House Joint Resolution No. 19, adopted by the Legislature on January 29, 1903, following a recommendation by the Governor and a vote by the pupils of public schools. It is a shrub of the heath family and may be recognized by its large evergreen leaves and delicate pale pink or white bloom, mottled with either red or yellow flecks.

STATE ANIMAL

The BLACK BEAR or EUARCTOS AMERICANUS was selected as official state animal of West Virginia by a poll of students, teachers and sportsmen conducted by the Department of Natural Resources in 1954-55 and officially adopted by the Legislature, Regular Session 1973, by House Concurrent Resolution No. 6. Only species of bear found in the State. While commonly referred to as the "black bear" its coloring is actually deeply tinted with brown. Its

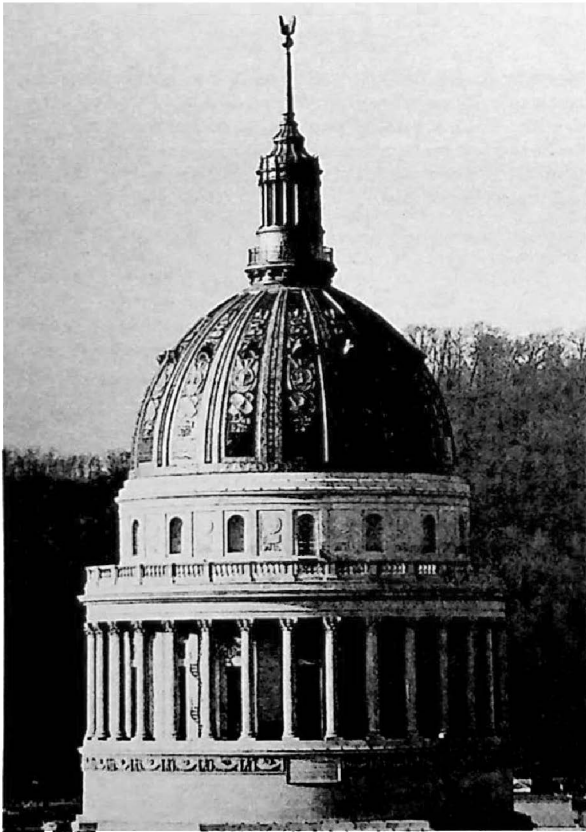

habitat in the State is primarily in the eastern mountain region. A litter usually consists of one or two cubs, rarely three, each weighing about eight ounces at birth. The adult reaches an average maximum weight of 250 pounds.

STATE FRUIT

The APPLE was designated as the official State Fruit by House Concurrent Resolution No. 56, adopted by the Legislature on March 7, 1972.

STATE FISH

The BROOK TROUT was designated the State Fish by House Concurrent Resolution No. 6 adopted Regular Session, 1973, following a poll of sportsmen who favored the Brook Trout. The brook trout is a native West Virginia species.

INLAND WATERWAYS—FEDERAL

(Data furnished by the Department of the Army)

Ohio River: Improvement of the Ohio River for navigation, as authorized by Congress in the River and Harbor Act of 1910, provides for a minimum channel depth of nine feet in the entire 981 miles of the river by the construction of locks and dams and open channel work. The original system, completed in 1929, and major modifications completed in 1937, resulted in 46 lock and dam structures.

In 1953 a modernization and replacement program was begun which will reduce the total number of navigation projects to 19, providing higher dams, larger locks, and deeper pools. Projects adjoining West Virginia include the pool of Greenup Locks and Dam, completed in 1964, between Kentucky, West Virginia, and Ohio; a proposed improvement of Gallipolis Locks and Dams, near Apple Grove; the Racine Locks and Dam, near Letart, completed in 1970; Belleville Locks and Dam, completed in 1969 at Belleville; Willow Island and Dam, near Waverly, West Virginia, completed in 1975; Hannibal Locks and Dam, at New

Martinsville, completed in 1975; Pike Island Locks and Dam, completed in 1965 at Wheeling; and New Cumberland Locks and Dam, completed in 1962 near New Cumberland.

Kanawha River, West Virginia: Three high-lift dams on the Kanawha River and the Gallipolis Dam on the Ohio River provide a minimum channel depth of nine feet on the Kanawha River for 91 miles, from the mouth to Deepwater. Each Kanawha River dam has twin locks, and the Kanawha Valley Power Company has a hydroelectric plant at each site. The two upstream dams, London and Marmet, were completed in 1934, Winfield Dam in 1937, and Gallipolis Dam on the Ohio River in 1937.

Monongahela River, West Virginia and Pennsylvania: The existing Monongahela navigation system comprises nine locks and dams, affording slack-water navigation from Pittsburgh to above Fairmont, West Virginia, a distance of 128.7 miles. The controlling depth is nine feet and the navigable width varies from 250 feet in the upper reach to practically the full width at the mouth of the River.

Modernization of the Monongahela River navigation structures in the upper reaches of the waterway is completed with the construction of the Morgantown, Hildebrand, and Opekiska Locks and Dams and modification of Point Marion Dam (Dam No. 8). In the middle portion of the river, the Maxwell Locks and Dam and the reconstruction of Dam No. 4 combined eliminate Locks and Dams Nos. 5 and 6. Replacement of Lock and Dam No. 7 and Point Marion Lock (Lock No. 8), now being studied, will complete the modernization program in the upper two thirds of the river. The lower section, including Locks and Dams Nos. 2, 3 and 4, is currently under study for possible rehabilitation and/or replacement needs.

MULTIPLE-PURPOSE LAKES—FEDERAL

(Data furnished by the Department of the Army)

Completed Projects:

Beech Fork Lake: Creation of a lake on Beech Fork of Twelvepole Creek, near Huntington, was authorized by Congress in the Flood Control Act of 1962. Construction of the dam was completed in February 1977. Additional public use development, some in conjunction with a proposed State lodge complex, remains to be accomplished. The dam is an earth fill, with a maximum height of 86 feet and a top length of 1,000 feet. The lake has a maximum capacity of 37,540 acre-feet and controls the runoff from a drainage area of 78 square miles. A minimum pool of 4,200 acre-feet with a surface area of 450 acres is maintained during the winter. A seasonal pool of 9,180 acre-feet with surface area of 720 acres is maintained during the summer season for recreation purposes. The remaining capacity is utilized for flood control.

Bloomington Lake: The Bloomington Lake project was authorized by Congress in 1962 as a unit of the comprehensive water resource development plan for the Potomac River basin. The damsite is in Mineral County, West Virginia, and Garrett County, Maryland, on North Branch Potomac River about eight miles upstream from the mouth of Savage River. The dam is a rolled earth and rockfill structure with a maximum height of 296 feet and a top length of 2,130 feet. The reservoir has a capacity of 130,900 acre-feet and will control runoff from a drainage area of 263 square miles. The project will provide low-flow augmentation, flood control, and recreation. Construction was begun in 1971 and was completed in 1981.

Bluestone Lake: Bluestone Lake, located on New River near Hinton, was authorized by Presidential executive order in 1935 and approved by Congress in the Flood Control Acts of 1936 and 1938. Construction of the project was begun early in 1942, suspended in 1944 because of the war emergency, resumed in 1946, and completed for operational purposes in 1949. The dam, of concrete construction, is 165 feet high and 2,048 feet long. The lake regulates the runoff of a drainage area of 4,565 square miles and has a total storage capacity of 631,000 acre-feet. During periods of low and normal flows in New River, the elevation of the lake varies about four feet, with a minimum pool 9.5 miles in length and an area of 1,800 acres that accounts for about 30,900 acre-feet of the total storage capacity. The remaining capacity is reserved for the impoundment of floodflows, as required for flood control.

Burnsville Lake: Construction of the Burnsville Lake project was begun in the summer of 1972 and the dam was completed in September 1976. The project controls the runoff from a drainage area of 165 square miles. The dam is a rockfill embankment rising 84.5 feet above the streambed. Top elevation is 839 feet above sea level, and the crest length 1,400 feet. A perched gated spillway with a crest width of 142 feet and a crest elevation of 792 feet is located in the left abutment. The outlet works are located in the spillway section. The minimum pool is maintained at elevation 776 with a surface area of 550 acres. The seasonal (water quality control) pool is at elevation 789 and has a surface area of 968 acres. The flood control pool is at elevation 825 and has a capacity ranging from 51,200 acre-feet in summer to 61,300 acre-feet in winter, with a surface area of 1,900 acres.

East Lynn Lake: East Lynn Lake, located on East Fork at Twelvepole Creek, was authorized by Congress in the 1938 Flood Control Act. Construction of the dam was completed in 1972. The dam is an earthfill structure with a maximum height of 113 feet and a crest length of 652 feet. The lake provides a maximum capacity of 82,500 acre-feet and controls the runoff from a drainage area of 133 square miles. A minimum pool with a surface area of 823 acres and a capacity of 11,705 acre-feet is maintained during the winter, while a seasonal pool with a surface area of 1,005 acres and a capacity of 17,100 acre-feet is maintained during the summer. The remaining storage is for flood control.

R. D. Bailey Lake: The R. D. Bailey Lake is located on Guyandotte River in Wyoming County. The dam is complete and was dedicated in August 1980. The dam is 310 feet high and with a top length of 1,370 feet. The lake has total capacity of 203,700 acre-feet. A minimum pool of 22,000 acre-feet with a surface area of 440 acres is maintained in the winter months. A seasonal pool for recreation and water quality control having a capacity of 34,000 acre-feet and a surface area of 630 acres is maintained during the summer. The remaining storage capacity is for flood control.

Summersville Lake: Built between 1960 and 1966, Summersville Lake is situated on Gauley River near Summersville. The dam is a rockfill type, with a maximum height of 390 feet and a top length of 2,280 feet. The drainage area above the dam is 803 square miles. It provides a maximum capacity of 390,800 acre-feet of storage for flood water, of which 163,400 acre-feet may be used for low-flow augmentation in the Kanawha River in summer. The summer recreation pool is 13.7 miles long and 2,723 acres in area.

Sutton Lake: Sutton Lake, located on the Elk River near Sutton, was authorized by Congress in the Flood Control Act of 1938. Sealing of mine workings at the site was begun in 1949, but work on the dam was not started until 1956. Construction of the project was completed in 1961. The dam is of concrete, 210 feet high and 1,178 feet long. The lake has a total capacity of 265,300 acre-feet and controls the runoff from a drainage area of 537 square miles. A minimum pool 5.9 miles in length, with a surface area of 270 acres and a capacity of 4,100 acre-feet, is maintained during the winter. A seasonal pool with a maximum length of 14.5 miles, surface area of 1,520 acres, and storage capacity of 60,100 acre-feet is maintained for low-flow augmentation and recreation. The remaining capacity is utilized for flood control storage.

Tygart Lake: Tygart Dam, on Tygart Valley River 2.25 miles upstream from Grafton, was authorized by the Public Works Administration in 1934 and approved by Congress in the River and Harbor Act of 1935. The concrete gravity dam is 1,921 feet in length at the top and rises 230 feet above the riverbed. The structure provides for the gross controlled storage of 287,700 acre-feet of water. It is operated as a unit in the reservoir system for the protection of Pittsburgh and the Ohio River valley. In addition to flood control, Tygart Lake provides for low-water discharge regulation by the gradual release of stored spring flood waters during the summer-fall period to assure a river flow of 340 cubic feet per second at Lock and Dam No. 8 on Monongahela River. Storage of about 100,000 acre-feet of water is allotted for this purpose.

Projects Under Construction:

Stonewall Jackson Lake: The Stonewall Jackson Lake project was authorized by the Flood Control Act of 1966 for the purposes of flood control, water quality control, water supply, and

recreation. The project, although benefiting primarily the West Fork and upper Monongahela River valleys, will be operated as a unit in the comprehensive plan for flood control in the Ohio River basin; to improve water quality in the West Fork, Monongahela, and Ohio Rivers; to provide storage for water supply; and for general and fish and wildlife recreation. Land acquisition and initial relocation activities have been started.

The dam will be located on the West Fork River at Brownsville in Lewis County, with the full pool extending upstream to Walkersville and Crawford, also in Lewis County. The dam will be a concrete gravity structure, 620 feet long and rising 95 feet above the streambed.

The maximum summer pool for water quality control, water supply, and recreation will be at elevation 1,072 feet above sea level, with a surface area of 2,650 acres. At the full pool elevation of 1,082, the project will provide for the gross storage of 74,700 acre-feet of water.

Local Flood Protection Projects:

All completed major flood protection projects in West Virginia, except at Ridgeley, are units in the comprehensive plan for flood control and allied purposes in the Ohio River basin. The local protection projects have been constructed so that, acting alone, they provide a degree of flood protection which in most places is equal to protection against the maximum flood of record in the project localities. Each locality along the Ohio River which has local protective works also receives additional protection from a coordinated system of upstream multiple-purpose reservoirs designed to reduce flood flows on the Ohio River and to contribute to the reduction of floods on the lower Mississippi River.

Completed reservoir and local flood protection projects in West Virginia have already made a major contribution toward reduction of flood damages; flood control benefits from their operation through September 1980 have aggregated a total estimated amount of more than \$1.4 billion.

Ohio River Projects: Local protective works have been completed for Ceredo-Kenova, Huntington, Parkersburg, and Point Pleasant. The projects consist of concrete walls and earth levees to prevent entrance of flood waters, pumping stations to discharge sewage and internal drainage during flood periods, and gated openings through the works to permit unobstructed movement of traffic during normal (nonflood) river conditions. Operation and maintenance are local responsibilities.

Buckhannon LPP: A project in the vicinity of Buckhannon completed in 1969 provided channel improvement along Buckhannon River for 4.6 miles.

Elkins LPP: The principal elements are a cutoff channel and dikes, located about 1.5 miles above the city, which divert floodflows from the loop of Tygart Valley River on which Elkins is located. The project was completed in 1949.

Princeton LPP: Principal features of the protection works are 3.9 miles of channel improvement along Brush Creek. The project was completed in 1961.

East Rainelle LPP: The project consists of 4.3 miles of channel improvement on Meadow River and Sewell and Boggs Creeks. The project was completed in 1962.

Ridgeley, West Virginia, and Cumberland, Maryland: Ridgeley, in Mineral County, is located on the south bank of North Branch Potomac River, opposite Cumberland, Maryland. Protective works for these communities include about 3.3 miles of channel improvements on North Branch and its tributary, Wills Creek, supplemented by a system of earth levees and concrete floodwalls. The project includes three pumping stations with related interior drainage facilities and eight pressure conduits totaling 11,800 feet in length. An industrial watersupply dam, three highway bridges, and a railroad bridge were reconstructed. The project was completed in 1959. Additional channel improvement on North Branch Potomac River was completed in 1964.

Williamson LPP: The business section of Williamson is protected by a project consisting of 2,135 feet of concrete wall along Tug Fork of Big Sandy River, a pump station, and 16 gated openings. The project was completed in 1963.

Barboursville Bank Protection Project: The project consisted of repairing and restoring a bank of Guyandotte River in the vicinity of Water Street in Barboursville. The work consisted of placing dumped rockfill on the right bank of the river for the prevention of erosion, and channel excavation on the opposite bank. Construction was completed in 1965.

Tug Fork of Big Sandy River: Under authority of Section 202 of the Energy and Water Development Appropriation Act of 1981 (PL 96-367), the Corps was directed to provide flood protection measures to communities along the Tug Fork of the Big Sandy River. Construction of a Pump Station for West Williamson was initiated in May 1983. Preconstruction efforts are underway for additional protective works at West Williamson and for the Williamson Commercial Business District.

Local Protection Work Under Special Continuing Authority: Small flood control projects under authority provided to the Corps of Engineers by Section 205 of the Flood Control Act of 1948, as amended, include channel improvement work completed along North Branch Potomac River at Blaine and Bayard and along Middle Fork Mud River in the Griffithsville-Yawkey area.

Projects under the authority provided to the Corps of Engineers to snag and clear streams in the interest of flood control by Section 208 of the Flood Control Act of 1954 include projects completed at Berwind on Dry Fork, a tributary of Tug Fork of Big Sandy River; Bramwell and Montcalm on Bluestone River; Cairo on North Fork Hughes River; Colliers on Harmon Creek; Huntington on Fourpole Creek; Pine Grove on Fishing Creek; Jacksonburg, and Smithfield on South Fork Fishing Creek; Richwood on Cherry River; Stonewood and Nutter Fort on Elk Creek; West Union on Middle Island Creek; Weston on Polk Creek and Stonewood Creek; Wyatt on Bingamon Creek; Pax on Paint Creek and Ripley on Mill Creek.

Projects under authority provided for the Corps of Engineers by Section 32 of the Water Resources Development Act for Streambank Erosion Control Evaluation and Demonstration include projects completed at Sistersville, Warwood, Ravenswood and St. Marys along the Ohio River, and South Charleston on the Kanawha River.

DRIVER IMPROVEMENT PROGRAM

(Point System)

West Virginia's Driver Improvement Program, as administered by the Department of Motor Vehicles, is designed to eliminate the chronically careless driver from the state's highway system.

Under the program "points" are assigned to those convicted of various moving traffic violations. Conviction notices are forwarded to the Department of Motor Vehicles, which maintains each individual's driving record and statistics.

An operator receiving a total of 6 points is sent a warning letter by the Department outlining the need for more careful driving. Individuals accumulating 9 or more points are required to appear before a Department Reviewing Officer, at which time the most serious cases are subject to suspension of driving privileges.

NATURAL RESOURCES

WEST VIRGINIA'S RECREATION PARADISE

West Virginia's State Park and Forest System is a living legacy of recreation, cultural, and vacation opportunities for all citizens, and for growing numbers of vacationers from other states. For the past 50 years, the system has been maintained and expanded to provide quality recreation that our citizens appreciate as a major ingredient of the "good life."

The system began in 1929 with the establishment of the site of a major state Civil War engagement, Droop Mountain, as the first state park area. Shortly afterwards, during the years of the Great Depression, major emphasis was placed on creation of a system of parks and vacation lands in the Mountain State. By the mid-1930's parks such as Cacapon, Lost River, Babcock, Holly River, and Watoga were begun. The development of vacation cabins, roads, trails, lakes and swimming pools was undertaken by the State, in cooperation with the old Civilian Conservation Corps (CCC), and the National Park Service. It was the beginning of the fine system that has continued to rank right at the top nationally among state park facilities.

Vacation cabins became one of the most popular attractions right from the first. To this day, most park and forest cabins are booked to capacity months before the traditional summer vacation season. Now, with the expansion of winter sports facilities, longer vacation periods, and public awareness of a four-season concept of recreation, cabins are filled at many parks year-round. Cabins, whether the old-time log style, or of modern construction, provide quality family outdoor lodging as well as the perfect choice for those persons on a budget.

The greatest period of demand for recreational facilities followed World War II. While most states had the opportunity of developing a basic park system in the 1930's, only a very few, among them West Virginia, chose to expand and develop to meet the growing demand for more parks, more acres, and more facilities for their accommodation.

By the mid-1950's the parks boasted of year-round public facilities, with the completion of dozens of heated "deluxe" cabins, and rustic (yet modern) lodges at Blackwater Falls, Cacapon and Mont Chateau State Parks. Funds to build these facilities came from the State's first revenue bond program, whereby money was borrowed for construction and repaid over a score of years from earnings through public rental.

Blackwater Falls State Park is a typical example. The region was ravaged in the early 1900's by logging, then by a series of disastrous forest fires, and further by exploitation and strip mining which occurred during the unregulated demand for coal during World War II. The new lodge and 25 deluxe cabins formed the nucleus of a major state park, which preserved for all time the rich natural beauty of the deep gorge of Blackwater River, the famous falls of which are a natural landmark in West Virginia, and provided miles of trails for hiking and riding. By 1970, the park was one of the leading year-round facilities in the entire park system.

In the early 1960's the older, but highly popular, log vacation cabins which were largely constructed by hand as the final example of mountain skill at stonemasonry and log home building were totally remodeled. The biggest addition at this time was the construction of modern kitchens. Many state forest cabins were also upgraded in a similar manner, but at two forests—Kumbrabow and Seneca—the older facilities were left intact for those family visitors who wanted to share the traditional mountain heritage of kerosene lighting and water pumped from a well.

By 1963 it was evident that the emergence of the Appalachian region as a vacationland was only a matter of time. Demands on the public and private sector of recreation were unprecedented, but development had not occurred. Accordingly, an agreement was reached

between the Federal and State governments for a demonstration program. The multi-million dollar program was designed, in part, to demonstrate to the private sector that recreation was a major future source of jobs, and that this industry would eventually emerge as a major factor in the State's highlands region. The "State Parks for the 1970's" program, as it was termed, eventually added three new state parks to the system, and provided for major expansion to three others.

At Grandview, near Beckley, site of the outdoor dramatic productions of "Honey In The Rock," and "Hatfields and McCoys," parking and picnic areas were greatly expanded and nature trails improved to accommodate the growing crowds at this scenic park which overlooks the famed New River Gorge.

By 1968, a major expansion program was completed at the Cass Scenic Railroad. This old logging line, remnant of thousands of miles of such railway which crisscrossed the mountains, became a state park facility in 1961. From 1963 through 1967 it operated only on a four mile segment. Beginning in 1968, as a result of this renovation of trackage, the full eleven mile line to the area of Bald Knob (West Virginia's second highest mountain) was opened to public use. Additional public facilities included a 300-car parking lot. Funds to accomplish this project were borrowed and will be repaid through income from the sale of tickets to ride the old logging trains.

Hawks Nest, a spectacular overlook high atop the famed New River Gorge, has long been one of the Mountain State's most popular park attractions. Under the "State Parks for the 1970's" program this park was greatly expanded. New facilities include a 30-room lodge overlooking the canyon, new overlook at Lovers' Leap, a marina and boat dock on the lake at the bottom of the deep chasm, and a unique aerial cable tramway to carry visitors from the rim to the bottom of the gorge.

Pipestem State Park Resort has become one of the leading state park recreational attractions in eastern America. Breath-taking in almost every dimension, Pipestem is set along a rolling plateau overlooking the rugged and undeveloped Bluestone River Gorge, near Hinton and Princeton.

The park features two comfortable lodges, the 113-room Pipestem Lodge perched on the edge of the river canyon; and Mountain Creek Lodge, a secluded 30-room facility at the bottom of the deep gorge. The Mountain Creek facility is accessible *only* via the park's canyon aerial tramway system which sweeps over a thousand feet down into the valley from the visitor center.

Other recreational facilities include a challenging 18-hole championship golf course and an enjoyable par-3 "executive golf layout." Clubhouse facilities rank second to none and highlight golf as a major new attraction of state parks.

The visitor center, headquarters for the year-round nature and recreation program, also features a native West Virginia Arts and Crafts demonstration and sales center which is coming into its own as a major outlet for Appalachian crafts. Nearby is a 550-seat outdoor amphitheater where outdoor drama and music concerts are performed regularly, the recreation center with its 200-seat cafeteria, olympic-size swimming pool and indoor recreation rooms, and an ice skating rink.

Remaining major facilities include an overlook atop Pipestem Knob, highest peak of the region, a 50-unit, completely equipped campground, archery range, nature center, riding stable with both horses and bicycles featured, and the park information and headquarters building.

Twin Falls, near Mullens and Pineville, provides year-round recreation in the State's southern highlands for the first time. The park features a 20-room guest lodge and 13 comfortable, heated guest cabins for year-round occupancy. Other highlights are a 9-hole regulation golf course, archery, and a recreation center building that includes a large swimming pool and indoor recreation.

Canaan Valley, located in a deep, high mountain valley near Blackwater Falls State Park, is blossoming as one of the premier winter sports centers in the East. The valley, which exceeds 3000 feet in average elevation, is surrounded, by 4000 - 4500 foot high mountain peaks.

Accommodations available at Canaan Valley include a new 250-room lodge with deluxe conference center which offers a wide range of audiovisual equipment, restaurant with a seating capacity of 500, and gift shop; 15 deluxe cabins and 34 deluxe campsites, with a country store nearby. The lodge overlooks the scenic valley and the park's 18-hole championship golf course.

The park's winter sports center includes miles of ski trails, most serviced by full artificial supplemental snow-making equipment. Two double-chair ski lifts are operated all winter, and also in summertime as a scenic tourist attraction. The ski center includes a pro shop, restaurant, skiers' pub, lounge, and other public facilities.

As planned recreational development continues, many additional features are being created. The Cacapon State Park 18-hole championship golf course is attracting thousand of golfers to this fine year-round eastern panhandle attraction. Eight year round guest cabins, more campsites and handicapped hiking trails have been completed at North Bend, the State's major Ohio Valley parkland.

Of historical interest is the reconstruction of a grist mill on Glade Creek at Babcock State Park. The mill, completed in 1976, was created by combining parts and pieces from several old mills which once dotted the state. The basic structure of the mill, originally the Stoney Creek Grist Mill, was moved to Babcock from a spot near Campbelltown, Pocahontas County. From the Spring Run Grist Mill near Petersburg, Grant County, the overshot water wheel was acquired; several other parts came from the Roaring Creek Grist Mill near Onego, Pendleton County. Cornmeal and buckwheat flour are ground at the Glade Creek Mill and may be purchased there.

West Virginia frontier life of the late 1700's is the main attraction at Prickett's Fort State Park. The fort was recently reconstructed to look as it was believed to have looked in 1774, the date of its original completion. There are 16 one-room cabins, a meeting hall and storehouse within the fort, demonstrating the lifestyle of the settlers who relied upon the security of its sturdy walls to protect them from the Indians. Visitors can view demonstrations of 18th Century crafts including open hearth cookery and baking; carding, spinning and weaving of wool; basket making, candle dipping and wood lye soap making; horn and leatherworking; gunsmithing, blacksmithing and coopering.

West Virginia's newest park is Beech Fork State Park, consisting of 3,860 acres; facilities: 276 campsites. When fully developed, Beech Fork will include day use facilities such as swimming, tennis, game courts, picnicking, hiking trails and an 18-hole championship golf course. Overnight accommodations will include a lodge and cabins.

Another unique addition to the park system is the Greenbrier River Trail. Though not actually referred to as a state park, the 1980 session of the West Virginia Legislature designated an abandoned rail-line of the Chesapeake and Ohio System, The Greenbrier River Trail, and allowed the Division of Parks and Recreation to acquire the land for the purpose of developing a hiking-biking trail. The rails and ties have been removed, and 76 miles of the trail will be resurfaced with finely crushed limestone. As well as backpacking and biking, the trail may be used as access to the Greenbrier River by fishermen and canoers, and as a cross-country ski trail in the winter. Motorized vehicles are not allowed on the trail. Camping areas, lean-to shelters, water and sanitary facilities, and interpretive signing are among the proposed future developments for the trail.

West Virginia's recreation system is a source of pride and enjoyment to West Virginians and other visitors. More than seven and one-half million tourists visit West Virginia parks and forests each year for quality family recreation in the scenic outdoors.

Monongahela National Forest

Headquarters: Elkins

The Monongahela National Forest was proclaimed by President Woodrow Wilson on April 28, 1920, under the Weeks Law. This law of 1911 provides for the cooperation by states with the United States, and the protection of watersheds of navigable streams. In West Virginia, the National Forest was established for flood protection in the Ohio and Potomac River valleys. It is one of a system of 155 National Forests and the only National Forest wholly in West Virginia. The Clark-McNary Act of June 7, 1924, broadened the objectives to provide for reforestation and production of timber. The Multiple Use Act of June 12, 1960, provides that National Forests shall be managed for outdoor recreation, range, timber, watershed, hunting, and fishing. The Spruce Knob-Seneca Rocks National Recreation Area Act of September 28, 1965, established the 100,000 acre National Recreation Area on the Forest and authorized land acquisition and an accelerated program of outdoor recreation facilities. On January 3, 1975, Public Law 93-622 made Dolly Sods and Otter Creek parts of the National Wilderness Preservation System and the Monongahela National Forest became responsible for the management of these Wilderness Areas. On January 13, 1983, Public Law 97-466 added the Cranberry and Laurel Fork Wilderness Areas to the National Wilderness Preservation System.

The Forest and Rangeland Renewable Resources Planning Act of 1974 (the Resources Planning Act) authorized a national assessment of Forest resources and set up a system of long range plans to assure that the American people enjoy adequate supplies of water, recreation, forage, timber, and wildlife in the decades ahead. The National Forest Management Act of 1976 strengthened the planning process and updated the authorization for resource management. Planning on the Monongahela National Forest is an interdisciplinary process that includes involvement of the public.

This public forest is dedicated to the protection, development, and management of all its resources for the greatest good to the greatest number over the long run.

Within the proclaimed boundary and authorized purchase units there are 1,673,590 acres of which 849,734 are owned by the United States. Directly in charge of the National Forest is the Forest Supervisor. In the National Forest are six Ranger Districts, each administered by a District Ranger.

National Forest acreage, by county, and the payments made to each by the Forest Service during Fiscal Year 1982 were:

RECREATION ATTRACTIONS**

Special areas of interest include *Seneca Rocks*, a 1,000 foot quartzite formation which rises above the North Fork Valley near the community of Seneca Rocks. Besides its appeal to sightseers, Seneca Rocks is considered by many climbers to be the best rock climb in the East. The Seneca Rocks Visitor Center is located in the area along with picnic facilities. Exhibits and programs are provided for public enjoyment at the Visitor Center.

Spruce Knob, the highest point in West Virginia rises to over 4,800 feet above sea level. It is an area of windblown red spruce and rock outcrops and is accessible by road. It affords excellent views to the east and west. Visitors will enjoy the Spruce Knob Observation Tower and interpretive trail.

The *Smoke Hole* is a rugged scenic canyon through which the South Branch of the Potomac River flows for about 20 miles. Over half of the distance is flanked by a narrow scenic road. In the Smoke Hole is located the Big Bend Campground and Smoke Hole Campground and Picnic Area.

The *Dolly Sods* Wilderness containing 10,215 acres appears like a bit of Canada transplanted on top of Allegheny Mountain. It is located in the northeastern portion of the Forest.

The *Otter Creek* Wilderness comprises 20,000 acres and is located in the northwestern section of the Forest. It includes almost the entire drainage of Otter Creek and contains rich hardwood stands intermingled with patches of red spruce and eastern hemlock. A large bog is also situated within the area.

The *Laurel Fork* Wilderness contains 12,200 acres in two sections north and south of the Laurel Fork Campground on the Greenbrier Ranger District. It includes the upper drainage area of the Laurel Fork and a rich northern hardwood forest.

The *Cranberry* Wilderness contains 35,600 acres and is located on the Gauley Ranger District. It is the largest Wilderness on the Monongahela National Forest and contains a rich mixture of hardwood trees interspersed with red spruce on the higher elevations.

The *Cranberry Glades Botanical Area* contains four bogs whose plant and animal life is similar to that found in the Canadian bogs or "muskegs" of the North. A boardwalk trail with interpretive signs has been constructed for visitor enjoyment and to protect the fragile ecology.

The *Cranberry Mountain Visitor Center* is located a few miles from Cranberry Glades along the Highland Scenic Highway. Exhibits and programs are provided for the visitors' benefit.

The *Falls of Hills Creek Scenic Area* contain three waterfalls, the most spectacular of which is 65 feet high. There is a scenic forest trail leading down the gorge to the falls.

The *Gaudineer Scenic Area* is a remnant of a vast virgin spruce forest. These spruce trees attain a height of 100 feet and grow to 35 inches in diameter. This 140 acre primeval stand is over 250 years old.

The *Lake Sherwood Recreation Area* contains a man-made lake containing 164 acres. In addition to camping and picnicking facilities, there is a boating site and rental boats, swim site with beach and bath house, and a network of hiking trails near the campground.

The Highland Scenic Highway runs from the outskirts of Richwood to U. S. Highway 219 at the top of Elk Mountain for a distance of about 45 miles. This route takes the visitor through a remote section of the high Allegheny Mountains and offers a variety of scenic views.

Located on 3 acre tract, adjacent to West Virginia University's Evansdale Campus. The Assistant Station Director administers research in reclamation of surface-mined areas, hardwood timber harvesting, water resources, silviculture, supply, markets, utilization, and productivity improvement. Engineering research of timber harvesting systems for the Appalachian area involves improvement of transporting and handling of timber and improvement of logging methods to protect the forest environment. Gypsy moth research is focused on silvicultural impacts of this insect on forest stands and on management control options. State and private forestry works in cooperation with state forestry agencies, private landowners and researchers in improving the planning, management and use of forests and forest products, flood prevention, watersheds, riverbasins projects, and forest pest management.

OIL AND GAS DEVELOPMENTS IN WEST VIRGINIA, 1982

Katharine Lee Avary, West Virginia Geological and Economic Survey

Total well completions reported in West Virginia during 1982 increased 4.6 percent over 1981. Exploratory completions dropped slightly (4.8 percent) from last year. Of the 180 exploratory wells reported, 38 were new field wildcats (19 successful), 15 were new-pool tests (11 successful, 2 extended shallow pools), 80 were deeper-pool tests (51 successful, 18 plugged back for development completions), 10 were shallow-pool tests (9 successful), and 37 were outposts (28 successful). In addition, 20 shallow pools were discovered in development wells and 1 in a deeper-pool test. Thus, 19 new fields and 92 new pools were discovered. The success rate for exploratory wells was 67.2 percent, whereas development wells were completed successfully 94.4 percent of the time.

Wells were officially reported as completed in 43 counties in the State (Table 1). Total completions reported (including workovers) numbered 2,093. Of these, 1,587 were gas, 48 were oil, 247 were combination oil and gas, 144 were dry, and 67 were miscellaneous wells completed for gas storage (4), water injection (49), CO₂ injection (9), observation (4), and as a stratigraphic tests (1). Elk-Poca was the most active gas field (Table II) and St. Marys the most active oil field. Counties with the most active drilling reported included Ritchie (244 wells), Upshur (159 wells), Randolph (140 wells), and Jackson (129 wells). Ritchie (25), Fayette (12), Randolph (11), and Wood (11) had the most exploratory drilling.

Of the 121 exploratory successes reported, 113 were in shallow formations. However, 3 of these produced at depths below 6,000 feet, making them deep wells according to the legal definition in West Virginia. Of the 180 exploratory wells, 102 tested either Brallier or lower Chemung sands below the Benson, or Devonian shale units in counties west of the main Benson trend. As a result, 18 exploratory successes were reported in Upper Devonian sands below the Benson (Alexander, Elk, Sycamore, Haverty, Fox), and 61 were reported in Devonian shales ranging from gray shales above the Huron down to the Marcellus.

The Devonian shale oil and gas play was expanded southward from Ritchie and Pleasants Counties into Wirt and Roane Counties. Reported shale tests in Wirt and Roane Counties increased from 19 to 86 from 1981 to 1982, and the trend toward drilling to the older shales (Rhinstreet to Marcellus) continued.

Exploration in southern West Virginia continued to be scattered. Ashland completed several wells below and near the Burnwell field. Devonian shales were the target for much of this exploration.

Deep drilling increased significantly (63.1 percent) after a 3-year decline. Of the 106 wells reported (compared to 65 a year ago), 90 were to the Onondaga, Huntersville, or Oriskany, with nearly half of these (42) in Jackson County. Ten additional Oriskany wells were drilled to the southwest in Mason and Putnam Counties. Overall, only 35 of the 106 wells reported were productive in the Onondaga, Oriskany, or Huntersville.

In the deeper formations, 10 Tuscarora tests, as well as 5 to Newburg, and 1 to Keefer were reported. Only 5 were successful; 3 Tuscarora completions in the high-CO₂ Indian Creek pool in Kanawha County, and 2 low-volume Keefer producers in Mineral County. Deep exploration included 4 deeper-pool Huntersville/Oriskany discoveries; 2 Huntersville/Oriskany extensions; 1 Oriskany new pool; and 1 Keefer deeper-pool success.

Shallow wells, both exploratory and development, accounted for 94.9 percent of all wells reported during 1982. Again in 1982, the trend toward drilling wells in the 5,000 to 5,999 foot range continued. The most active county continued to be Ritchie, where 244 completions were reported. Total footage drilled in Ritchie County alone was more than 1,000,000 feet as most wells (206 of 244) tested the deeper Devonian shales. A total of 1,111 wells in 9 contiguous counties across northern West Virginia were reported as completed in Upper Devonian sandstones and siltstones or laterally equivalent shales. Chemung and Brallier sandstones (Bayard through Elk) were the lowest units tested in 735 wells, down 19.2 percent from 1981. In spite of the decrease, these sands were still the principal targets in 1982. Exploratory successes numbered 36, down from 57 a year ago. These sands were the deepest pays in 698 wells, of which 248 were Brallier pays, and 232 were in the Benson. In addition, these sands were completed 814 times as shallower pays in wells with 2 to 4 pay zones. The Devonian shales were the lowest unit tested in 611 wells reported in 1982, up 120.6 percent from the previous year. These shales were the lowest zones completed in 616 wells (many of which were Oriskany tests), and were completed 200 times as shallower pays. Four Dev-

onian shale fields were among the 10 most active fields in the State during 1982 (Table II).

The Big Injun sandstone was the lowest unit tested in 246 wells and the deepest zone completed in 242. Also, the Big Injun was a shallower pay in 75 deeper wells. Pocono completions ranked fourth, with 185, down from 244 in 1981. These sands (Squaw, Weir, and Berea) were the deepest pays in 108 wells, and were completed 70 times as shallower pays. Tests of the various Catskill sandstones (Gantz through Fifth) totaled 161, down 9 from 1981. These sandstones were the deepest zones completed in 113 wells, and were completed 213 times as shallower pays.

Oil production increased 2.9 percent in 1982 (from the revised 1981 figure), but gas production decreased 6.9 percent (Table III). Average IP figures for wells reported in 1982 are: oil wells, 9 barrels per day; gas wells, 604 Mcf per day; and combination wells, 23 barrels and 307 Mcf per day. Oil prices dropped during the year, from \$34.00 per barrel to \$29.00 by the end of the year. Gas prices reflected the continuing oversupply situation. The average wellhead price paid in West Virginia was approximately \$3.20/Mcf, a slight increase from 1981.

TAX DEPARTMENT
COLLECTION OF REVENUE
COLLECTION BUSINESS AND OCCUPATION TAX
CARRIER INCOME TAX, CORPORATE NET INCOME TAX,
CONSUMERS SALES AND SERVICE TAX, USE TAX,
AND INHERITANCE AND TRANSFER TAX

The Business and Occupation Tax, Chapter 11, Article 13, West Virginia Code of 1931, as amended, is a tax levied for the privilege of engaging in business in West Virginia. The tax is measured by the application of rates against values of products, gross proceeds of sales, or gross income according to the classification of the business activity in which the taxpayer is engaged. Despite the commonly supplied erroneous name, "Gross Sales Tax", it is not a sales tax. Neither is it a transaction tax in the sense that once it is paid on a particular article or service or activity it need not again be paid. It is not, strictly speaking, an income tax, although in most instances the gross income is the measure of the tax. Under the production and manufacturing classifications the measure of the tax is the value of the article produced or manufactured as shown by the gross proceeds derived from the sale thereof, provided the proceeds of sale are indicative of the true value of the article. If more than one person engages in a single activity or transaction, as in the case of the contractor and sub-contractor, each must pay a tax measured by his entire income regardless of the tax paid by the other.

The business classifications under the Business and Occupation Tax Law are as follows:

A. Production of Coal and Other Natural Resource Products. The tax is measured by the value of the articles mined or reported as shown by the gross proceeds derived from the sale thereof by the producer. The rates being applied against the value of the entire production in West Virginia, regardless of the place of sale or the fact that deliveries are made to points outside the State.

Coal	\$3.85 per \$100.00
Sand, gravel, or other mineral products not quarried or mined; oil, blast furnace slag	\$4.34 per \$100.00
Natural gas (exemptions include deduction of \$5,000 annually)	\$8.63 per \$100.00
Limestone or sandstone quarried or mined	\$2.20 per \$100.00
Timber (on or after April 1, 1982)	\$2.50 per \$100.00
Other natural resource products	\$2.86 per \$100.00

B. Manufacturing, Compounding or Preparing for Sale. The tax is measured by the value of the articles manufactured, compounded or prepared for sale in West Virginia, as shown by the gross proceeds derived from the sale thereof by the manufacturer or person compounding or preparing the same. The rate, 88 cents on each \$100.00 value, applies against the value of the entire production in West Virginia, regardless of the place of the sale or the fact that deliveries are made to points outside the State.

C. (1) Business of Selling Tangible Property at Retail. There is levied a tax of 55 cents on each \$100.00 of gross income, as defined by the statute, for this type of business.

(2) Business of Selling Tangible Property at Wholesale. There is levied a tax of 27 cents on each \$100.00 of gross income, as defined by the statute, for this type of business.

D. Public Service or Utility Business. The tax rates set forth hereinbelow are levied on the gross income of the following businesses:

Water Companies	\$4.40 per \$100.00
Sales and demand charges for all domestic purposes and commercial lighting: Producer	\$4.00 per \$100.00
Sales and demand charges exceeding two hundred thousand kilowatts per hour per year per customer	\$2.46 per \$100.00

Sales and demand charges for domestic purposes and commercial lighting: Distributor	\$3.00 per \$100.00
Natural Gas Companies: Toll Bridges	\$4.29 per \$100.00
Other Public Utilities (Except telegraph and telephone companies, railway, and other transportation companies)	\$2.86 per \$100.00

E. Contracting. There is levied a tax of \$2.20 on each \$100.00 of gross income, as defined by the statute, for this type of business.

G. Amusement. There is levied a tax of 71 cents on each \$100.00 of gross income, as defined by the statute, for this type of business.

H. Service Business or Calling Not Otherwise Specifically Taxed. There is levied a tax of \$1.15 on each \$100.00 of gross income, as defined by the statute, for this type of business.

I. Business of Furnishing Property for Hire. There is levied a tax of \$1.15 on each \$100.00 of gross income, as defined by the statute, for this type of business.

K. Banking and other Financial Institutions. There is levied a tax of \$1.15 on each \$100.00 of gross income, as defined by the statute, for this type of business. Effective June 1, 1983 a fifteen percent (15%) temporary surtax is imposed on banking and other financial business. This surtax expires June 30, 1985.

M. Sales of Electric power not taxed as a public utility activity:

Domestic and Exported	\$4.00 per \$100.00
-----------------------------	---------------------

An annual exemption of \$50.00 is provided under the Business and Occupation Tax Law for each person, as defined by the statute, engaged in business in the State. The annual exemption is increased to \$300.00 effective July 1, 1983 (\$25.00 per month). Effective July 1, 1984 the exemption rises to \$400.00 (\$33.00 per month). Effective July 1, 1985 the exemption becomes \$500.00 (\$41.67 a month). Note: If reporting on a calendar year basis the maximum exemption that can be claimed is \$175.00 for 1983, \$350.00 for 1984, and \$450.00 for 1985. Fiscal year taxpayers shall compute their annual exemption by using the applicable monthly exemption for each month in the fiscal year. The current exemption is \$50.00 (\$4.16 per month).

The West Virginia Corporate Net Income Tax Ch. 11, Art. 24, West Virginia Code of 1931, as amended, is a conformity statute which imposes a tax on the net income of corporations and similar business organizations at the rate of six percentum. This being a statute, correlated to the Federal Internal Revenue Code, as amended in 1967, it will simplify preparation of state corporation net income tax returns by taxpayers, improve enforcement and aid interpretation of the law through increased use of federal judicial and administrative determinations and precedents.

The tax is paid in four equal installments, the taxpayer preparing an annual declaration of estimated tax and reconciling the same through the filing of an annual return. The due date of the declaration is the fifteenth day of the fourth month of the tax year. The following quarterly payments are due on the fifteenth day of the sixth, ninth and twelfth months of the taxable year. The annual return is due on the fifteenth day of the third month following the close of the taxable year.

The Consumers Sales and Service Tax, Chapter 11, Article 15, West Virginia Code of 1931, as amended, is a general sales tax that applies to all sales of tangible personal property or

services consummated within West Virginia for use, consumption, or any other purpose, except, (1) sales for resale, (2) sales of certain exempt commodities, (3) sales to certain exempt persons, (4) interstate sales, (5) sales of professional or personal services, and (6) services provided by persons subject to the control of the West Virginia Public Service Commission. The measure of the tax is based upon the total sales price of all articles purchased during a particular buying episode, with the rate of tax being derived from a sales bracket system as follows:

- (1) on each sale, where the monetary consideration is from six cents to twenty cents, both inclusive, one cent;
- (2) on each sale, where the monetary consideration is from twenty-one cents to forty cents, both inclusive, two cents;
- (3) on each sale, where the monetary consideration is from forty-one cents to sixty cents, both inclusive, three cents;
- (4) on each sale, where the monetary consideration is from sixty-one cents to eighty cents, both inclusive, four cents;
- (5) on each sale, where the monetary consideration is from eighty-one cents to one dollar, both inclusive, five cents;
- (6) if the sale price is in excess of one dollar, five cents on each whole dollar of sale price, and upon any fractional part of a dollar in excess of whole dollars, as follows: One cent on the fractional part of the dollar if less than twenty-one cents; two cents on the fractional part of the dollar if in excess of twenty cents but less than forty-one cents; three cents on the fractional part of the dollar if in excess of forty cents but less than sixty-one cents; four cents on the fractional part of the dollar if in excess of sixty cents but less than eighty-one cents; and five cents on the fractional part of the dollar if in excess of eighty cents. For example, the tax on sales from one dollar and one cent to one dollar and twenty cents, both inclusive, six cents; on sales from one dollar and twenty-one cents to one dollar and forty cents; both inclusive, seven cents; on sales from one dollar and forty-one cents to one dollar and sixty cents, both inclusive, eight cents; on sales from one dollar and sixty-one cents to one dollar and eighty cents, both inclusive, nine cents; on sales from one dollar and eighty-one cents to two dollars, both inclusive, ten cents.

Separate sales, such as daily or weekly deliveries, shall not be aggregated for the purpose of computation of the tax even though such sales are aggregated in the billing or payment therefor. Notwithstanding any other provision, coin-operated amusement and vending machine sales shall be aggregated for the purpose of computation of this tax.

Individual sales of five cents or less are exempt from tax; however, the purchase of two five cent articles at the same time is a taxable transaction.

The law provides that the vendor shall collect the tax due from the purchaser at the time of sale and that the purchaser shall pay such tax unless he can present to the vendor a properly executed certificate or exemption. Should either party fail to comply with the law in this regard, the liability becomes a personal debt due the State, and if the taxpayer is a corporation, its officers are personally liable jointly and severally in case of default.

Consumers Sales Tax is to be paid by ultimate consumers; sellers collect the tax and remit their collections to the Tax Department. Only one collection of Consumers Sales Tax should occur in the channel from production to ultimate consumption for any consumer good or service. Any seller who fails to collect the Consumers Sales Tax must pay the tax himself unless the sale was exempt. Exemptions from Consumers Sales Tax are:

- (1) Sales of gasoline, taxable under article 14, chapter 11 of the Code of 1931;
- (2) Sales of gas, steam and water delivered to consumers through mains or pipes, and sales of electricity;

PERSONAL INCOME TAX

The West Virginia Personal Income Tax Act (West Virginia Code, Chapter 11, Article 21) was enacted by the 1961 Regular Session of the Legislature on February 10, 1961, and signed by the Governor on February 14, 1961. The provisions of the Act applied to all taxable years ending on or after December 31, 1961, including that part which elapsed prior to the effective date of the Act.

Description of Tax. The West Virginia Income Tax Act imposes a personal income tax on the taxable income of all resident individuals, and resident estates and trusts, irrespective of where such income is earned. Nonresident individuals, estates and trusts are taxed only upon income derived from West Virginia sources. Corporations and partnerships are not subject to the West Virginia Income Tax. A trust or other unincorporated organization which by reason of its activities is exempt from Federal Income Tax is also exempt from West Virginia Income Tax.

The nature of the Act was to adopt for West Virginia Personal Income Tax the provisions of the Federal Income Tax laws relating to the determination of income. As adopted, it can be stated that the West Virginia Income Tax Act is a conformity statute. The same general concepts of income, gain, loss and deduction are employed in the West Virginia Act as are employed in the Federal Income Tax Law. The method used to make reference to the federal law is general in scope. With the exception of several modifications generally described hereinbelow, West Virginia adjusted gross income is federal adjusted gross income. Amendments made to the Federal Income Tax Law which affect income, gain, loss and deduction are reflected in the West Virginia Income Tax Law by periodic legislative enactments. The conformity with the Federal Income Tax Law was adopted to simplify preparation of state income tax returns, to improve enforcement of the State Income Tax through better use of information obtained from federal income tax audits, and to aid interpretation of the state tax law through increased use of federal judicial and administrative determinations and precedents.

Modifications to Income. West Virginia adjusted gross income is determined by applicable modifications increasing or decreasing Federal adjusted gross income. Among the modifications which reduce Federal adjusted gross income are items that benefit military personnel, persons who are sixty-five years of age or older and individuals receiving benefits under certain retirement systems. Some of the modifications that increase Federal adjusted gross income are interest from all saver certificates, the deduction for two-wage earners and varying percentages of accelerated cost recovery depreciation.

Deductions. An individual, resident or nonresident, may use the West Virginia standard deduction on his state return, regardless of whether he used the standard deduction or claimed itemized deductions on his federal return. The West Virginia standard deduction of an individual is ten (10) percent of his West Virginia adjusted gross income or \$1,000, whichever is less. A resident or non-resident individual may elect to use itemized deductions in computing his West Virginia taxable income only if he claimed itemized deductions for the same year on his federal return. Itemized deductions for residents are the same as federal deductions, with the exception of two modifications; nonresidents' deductions must be attributed to or connected with West Virginia sources.

Personal Exemptions. An individual, resident or nonresident, is allowed an exemption of \$600 for each exemption to which he is entitled for the taxable year for federal income tax purposes. For tax year 1983 (January 1, 1983-December 31, 1983), the exemption is \$700. For years beginning on or after January 1, 1984, the exemption will be \$800. A husband and wife who file joint federal but separate West Virginia returns may each claim only the exemptions to which he or she would have been entitled if separate federal returns had been filed. The exemption for an estate or trust is \$600.

Rate of Tax. For all taxable years or portions thereof ending prior to January 1, 1963, the West Virginia Income Tax rate was six (6) per centum of the Federal Income Tax which would have been imposed on an identical amount of federal taxable income. For the taxable years or portions thereof beginning on or after January 1, 1963, ending on or before December 31, 1969, the West Virginia Income Tax rate, which is equally applicable to individuals, estates and trusts, was a rate graduated from 1.2% to 5.5% of the West Virginia taxable income. For the taxable years beginning on or after January 1, 1970, ending on or before December 31, 1970, the West Virginia Income Tax is a rate graduated from 1.65% to 7.6% of the West Virginia taxable income. For the taxable years beginning on or after January 1, 1971, the West Virginia Income Tax rate will be a rate graduated from 2.1% to 9.6% of the West Virginia taxable income. Effective April 1, 1983, the rates were changed to graduate from 2.1% to 13.0% of taxable income. Beginning April 1, 1983 and ending June 30, 1985, a 12% surtax is imposed on estates and trusts, single individuals and heads of households with taxable incomes over \$10,000 and joint returns with taxable incomes over \$20,000. The West Virginia Income Tax Act provides only two rates schedules; one for joint returns and surviving spouses, and one for individuals and heads of households. For tax years beginning on or after January

1, 1983, the law provides for three rate schedules: single, head of household, joint return and/or surviving spouse.

Credits Against Tax. The West Virginia Income Tax Act provides credits against the personal income tax for: (1) Business and Occupation Tax imposed against the taxpayer; (2) Carrier Income Tax imposed against the taxpayer; (3) West Virginia Income Tax withheld from the individual's wages or salary; (4) estimated income tax payments made by the individual; (5) income taxes paid by residents to other states; and income taxes paid by nonresidents to their state of residence, except for certain states with which West Virginia has a reciprocal agreement or practices reciprocity.

EXCISE AND LICENSE TAXES DIVISION

The Division of Excise & License Taxes is responsible for the administration of excise and license taxes of the Tax Department. The Division has six sections and all deal directly with the taxpayer.

Taxes administered are: Gasoline and Special Fuels Excise Tax, Motor Carrier Road Tax, Soft Drink Tax, Cigarette Tax, Business Franchise Registration, Collection Agency, Consumer Protection File, Bingo and Drug Paraphernalia.

GASOLINE AND SPECIAL FUELS EXCISE TAX

The gasoline and special fuels excise tax (Code 11-14) has been a part of the revenue laws of West Virginia since 1923. This statute has been amended and reenacted several times, but its overall features are generally similar. The basic elements of the statute are:

- (1) an excise tax of 10.5 cents per gallon is levied on each gallon of gasoline or special fuel.
- (2) the tax is computed in accordance with the appropriate measure of tax as specifically prescribed by statute. Generally, who is liable for payment of the tax depends upon the facts in each case. Distributors and producers use as the measure of tax all actual metered gallons of gasoline or special fuel withdrawn from storage within this State. Retail dealers, importers and users use as the measure of tax all actual metered gallons of gasoline and special fuel, not previously included in the measure of tax, received into their storage or for their use. A person not a distributor or producer, retail dealer, importer, or user employs as the measure of tax all actual metered gallons of gasoline or special fuels subject to tax which were not previously included in the measure of tax by him or any other person, and
- (3) sales for certain uses and sales to certain persons are exempt from tax under section 11-14-5 of the Code of West Virginia of 1931, as amended.
- (4) as set out under West Virginia Code section 11-14-10 and 11-14-11 refunds of Gasoline and Special Fuel Excise Tax can be made because of
 - (a) certain non-highway uses
 - (b) casualty losses of gasoline
 - (c) certain exportation
 - (d) evaporation losses

- (e) changes in the value of inventory which result from changes in the rate of the tax
- (f) erroneous or illegal collection of the tax.

Partial refunds are granted to operators of urban and suburban bus lines when certain conditions are met. Neither refunds nor partial refunds can be made unless all statutory and administrative requirements with regard to such conditions as form and timeliness of petition are met.

Gasoline, for tax purposes, is defined as any product commonly or commercially known as gasoline, regardless of classification, suitable for use as fuel in an internal combustion engine, except special fuel.

The term special fuel means any gas or liquid, other than gasoline, used or suitable for use as fuel in an internal combustion engine. The term includes products commonly known as natural or casinghead gasoline, but does not include any petroleum product or chemical compound such as alcohol, industrial solvent, heavy furnace oil, lubricant, etc., not commonly used nor practicably suited for use as fuel in an internal combustion engine.

MOTOR CARRIER ROAD TAX

The Motor Carrier Road Tax Law (Code 11-14A) was enacted in 1959. The tax is imposed at the rate of 10.5 cents on each gallon of fuel used on West Virginia highways; however, if all the fuel consumed by the user of the State was purchased in the State, the user is entitled to a credit offsetting the imposed tax per gallon. The total cost in fiscal year 1982-83 of registering a motor carrier vehicle is \$10.00 per vehicle due to an increase in the registration fee from \$1.00 to \$5.00, plus a surtax of \$5.00 per vehicle. Recreational and farm vehicles are exempt from the surtax provisions; credits accrued in previous quarters cannot be applied against the surtax.

A "motor carrier" is defined as every person, firm or corporation who operates or causes to be operated on any highway in this State any passenger vehicle that has seats for more than nine passengers in addition to the driver, or any road tractor, or any tractor truck or any truck having more than two axles.

CONSUMERS SALES AND USE TAX ON GASOLINE AND SPECIAL FUELS

The Consumers Sales and Use Tax Laws (Code 11-15 and 11-15A) were amended effective April 1, 1983 to impose a Consumers Sales and Service tax on the sale of gasoline and special fuel, generally at the wholesale level by distributors and importers and an Excise tax on use or consumption within West Virginia on gasoline and special fuel purchased outside West Virginia.

The Tax Commissioner will determine annually the average wholesale price of gasoline and special fuel on the basis of sales data supplied by distributors and from other information. The average wholesale price will be the single state-wide average wholesale price per gallon rounded to the third decimal, exclusive of State and Federal excise taxes, but not less

than \$0.97 per gallon, times the rate of 5%. The price per gallon will be published in the State Register and will be printed on all applicable tax returns. The Sales and Use tax has been determined to be .0485¢ per gallon (\$0.97 x 5%) for the period April 1, 1983 through December 31, 1983.

The sales tax is levied on all gallons of gasoline and special fuel (including heating fuel) except sales to:

- Federal Government and agencies
- State Government and agencies
- County Government and agencies
- Municipal Government and agencies
- Exports to other states.
- By special act of Congress
- Sales to West Virginia licensed distributors
- Gallons previously taxed (tax paid purchases by this Statute)

BUSINESS FRANCHISE REGISTRATION CERTIFICATE TAX

The Business Franchise Registration Certificate Tax (Code 11-12) was adopted in 1970 in replacement of the General License Tax and the Store Tax and Fees. The tax was primarily designed and instituted to provide information on business activity in the State which would aid in the administration of all taxes administered by the Tax Department; the statute is administered by the Division of Excise and License Taxes.

Who Is Covered By The Act?

Anyone in business. "Business" shall mean any business, whether a person engaged expressly or impliedly holds himself out as engaged in business or supplying his products or a commodity or service to the public as a class or a limited portion of the public or sells any goods, wares, merchandise of any kind or provides a service of any kind.

Who Is Exempt From The Act?

That "business" shall not include sales of products of the farm, garden, or dairy by the producer or grower thereof; occasional sales by societies acting for charitable, religious or benevolent purposes; judicial sales directed by law or court order; or any business the gross income of which is less than four thousand dollars per license year. "Gross income" shall mean the gross receipts of the business received as compensation for personal services and from trade, commerce, or sales and the value accruing from the sale of tangible property (real or personal), or service, or both, without any deduction on account of the cost of property sold, materials used, labor costs, taxes or any other expense whatsoever.

Persons exempt are requested to register; however, they are not required to pay the fee of \$15.00.

What Is Required of Anyone Going Into Business Or In Business?

Every person is required to register prior to going into business, and renew the registration each fiscal year July 1 to June 30 thereafter, and pay a fee of \$15.00 for each business location a person holds himself out to engage in or transact business therefrom. Anyone doing business in West Virginia is presumed to have a business location for the purpose of this Act.

Penalty Or Fine

Anyone engaging in or prosecuting any business activity who fails to register with the State Tax Department may be penalized \$50.00 per month.

Does This Act Affect Other License Issued By the State?

No, in other words, registration or license required by the Banking Commission, Beer Commission, Insurance Commission, etc., are not affected by this Act.

SOFT DRINK TAX

The Soft Drink Tax Act (Code 11-19) has been a part of West Virginia Revenue laws since 1951. This provision imposes an excise tax upon the sale, use, handling or distribution of bottled soft drinks and soft drink syrups, including all powder bases prepared for mixing soft drinks.

The law has been amended several times, most significantly in 1958 when many items for domestic use were removed from taxation and a provision for the tax on commercial consumption at soda fountains and restaurants was reinstated. This statutory amendment also specifically provides for taxing soft drink powders such as kool aid, oh boy drinks, tip top, miracle aid and all other similar products both domestically and commercially consumed.

Effective July 1, 1980 the Tax Commissioner is authorized to refund soft drink tax to wholesalers when the tax stamps, crowns, soft drinks, powders or syrups upon which tax has been paid are destroyed by fire, lightning or flood and when the soft drinks, syrups or powders upon which tax has been paid are exported from this State. Refund or credit can only be for the amount of tax paid to the Tax Commissioner.

Application for the refund or credit must be filed within 180 days from the date the tax stamps or crowns were destroyed or the soft drink product upon which tax was paid were destroyed or exported from West Virginia.

This tax was imposed to be used solely for the construction, maintenance and operation of a four-year school of medicine, dentistry and nursing.

This statute, administered by the Division of Excise and License Taxes imposes a tax upon the sale of cigarettes at the rate of seventeen cents per package of twenty (20) cigarettes, with the intent that the tax be paid by the ultimate consumer. COLLECTION AGENCY ACT

The Collection Agency statute (Code 47-16) is enforced by the Division of Excise and License Taxes. The act requires that no persons, firm, corporation or association shall conduct within the State a collection agency without having first obtained a Business Franchise Certificate, nor shall any person, firm, corporation or association establish or operate a collection agency or the business of a collection agency, unless they maintain an office within the State of West Virginia. A license is required for each collection agency, including each principal office and all branch offices thereof. Each applicant shall file with the Tax Commissioner a continuing surety bond executed by a corporation licensed to transact business in West Virginia in the amount of \$5,000. A separate bond needs to be filed for each agency including the principal office and each branch office.

The term "collection agency" does not mean nor include:

- (1) regular employees of a single creditor or of a collection agency licensed hereunder;
- (2) banks;
- (3) trust companies;
- (4) savings and loan associations;
- (5) buildings and loan associations;
- (6) industrial loan companies;
- (7) abstract companies doing an escrow business;
- (8) duly licensed real estate brokers or agents when the claims or accounts being handled by such broker or agent are related to or in connection with such brokers' or agents' regular real estate business;
- (9) express and telegraph companies subject to public regulation and supervision;
- (10) attorneys at law handling claims and collections in their own names and not operating a collection agency under the management of a layman; or
- (11) any person, firm, corporation or association acting under the order of any court of competent jurisdiction.

CONSUMER PROTECTION ACT

The Consumer Protection Act, Article 7, Chapter 46A, became effective June 9, 1974. The Excise and License Division of the State Tax Department is charged with the responsibility of maintaining a file on those persons that designate that they issue consumer credit or consumer loans.

Generally speaking, all persons who make credit sales of real or personal property or services to private individuals and the amount financed is under \$25,000.00 must give notification to the Tax Department. This includes doctors and lawyers who impose a finance charge on their payment plans. It also includes government agencies and national banks.

DRUG PARAPHERNALIA

This law became effective June 11, 1982, and is administered by the State Tax Department, Division of Excise and License Taxes. The law (Code 47-19) requires a license fee of \$150.00 for any person selling any item, effect, paraphernalia, accessory or thing which is designed or marketed for use with controlled substances as defined in Chapter 60A of the West Virginia

Code. Applications must be accompanied by affidavit that each and every employee authorized to sell drug paraphernalia has never been convicted of a drug related offense. Institutions authorized by Chapter 60A to distribute controlled substances may also sell items, such as syringes, which are designed and marketed for lawful use, either with controlled substances or with over the counter medicine such as insulin. Even though these items may also facilitate the illegal use of controlled substances, authorized institutions are not required to obtain drug paraphernalia licenses so long as the institutions sell only the items designed and marketed for legal use with controlled substances.

INHERITANCE AND TRANSFER TAX

The Inheritance and Transfer Tax, Chapter 11, Article 13, West Virginia Code of 1931, as amended, is a tax levied for the privilege of acquiring property by inheritance or by succession from deceased persons or by transfers made in contemplation of death.

The tax imposed on the market value of property as of the date of the transferor's death. Although the tax is due and payable to the Tax Commissioner at the death of the transferor, a 3 percent discount is allowed if the liability is satisfied within ten months from the date of death. Interest and penalty accrue on any tax not paid within 11 months from date of death.

All transfers to the State, or to any county, a school district or municipal corporation of the State for public purposes are exempt from tax. All transfers from a decedent to a transferee which have a combined total value of \$200.00 or less are exempt.

Other exemptions are as follows:

Relationship to Decedent	Exempt Amount
Surviving spouse.....	\$30,000.00
Father or mother.....	10,000.00

Child or step-child	10,000.00
Grandchild	5,000.00
Brother or sister of an unmarried decedent	10,000.00

INHERITANCE AND TRANSFER TAX RATES

All exemptions are deducted from the \$0—\$50,000 tax bracket. Using the following chart the tax rate is then applied to determine the amount due:
