INDEPENDENT AUDITOR'S REPORT

To the Members of the
West Virginia Alcohol Beverage Control Administration
Charleston, West Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the West Virginia Alcohol Beverage Control Administration (the Administration), as of and for the years ended June 30, 2015 and 2014, and the related notes to the financial statements, which collectively comprise the Administration's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the West Virginia Alcohol Beverage Control Administration as of June 30, 2015 and 2014, and the changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the financial statements present only the Administration and do not purport to, and do not, present fairly the financial position of the State of West Virginia as of June 30, 2015 and 2014, the changes in its financial position, or, where applicable, its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 3 through 7, and the Schedule of Proportionate Share of the Net Pension Liability and Schedule of Contributions to the PERS on pages 20 through 22 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Administration's basic financial statements. The accompanying schedules on pages 23 through 27 are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying schedules on pages 23 through 27 are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 29, 2015, on our consideration of the Administration's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Administration's internal control over financial reporting and compliance.

Charleston, West Virginia

West Virginia Alcohol Beverage Control Administration
Management's Discussion and Analysis (Unaudited)
Years Ended June 30, 2015 and 2014

The West Virginia Alcohol Beverage Control Administration (the Administration) was created by the West Virginia Legislature in 1935 to give effect to the mandate of the people expressed in the repeal of the state prohibition amendment, and to assure the greatest degree of personal freedom that is consistent with the health, safety, and good morals of the people of West Virginia.

During the first fifty-six (56) years of its existence, the Administration functioned as the exclusive wholesaler and retailer of liquor in West Virginia. On February 27, 1990, with the passage of senate bill 337, legislative action was taken to discontinue the retail sale of alcoholic beverages by the State of West Virginia. During the fiscal year ended 1991, public bids were held in August 1990, January 1991, and May 1991. The bids resulted in the sale of all 98 zones offered and the possibility of 214 privately owned liquor stores being opened in West Virginia. The sale of State owned liquor stores and the conversion of State owned liquor inventories enabled the Administration to transfer profits of \$26,500,000 to the West Virginia General Revenue Fund.

On March 13, 1999, House Bill 3023 was passed. All Licenses within the 98 zones were re-bid starting on March 3, 2000. The Administration sold licenses to 164 stores providing revenues to the state of \$22,227,651. An additional eighteen (18) Class B retail licenses were bid on April 17, 2002. The Retail Liquor Licensing Board ("RLLB") directed the bid, which offered the remaining licenses for eight years ending on June 30, 2010. Five (5) of the remaining licenses were sold, providing revenues of \$215,903.

On June 2, 2009, House Bill 105 was passed. House Bill 105 mandated that the RLLB re-bid all Class A and Class B liquor licenses for an additional ten (10) years beginning July 1, 2010. All Licensees within the 98 zones were given the opportunity to elect the Purchase Option on their existing retail outlet(s) provided they met the requirements to operate a Class A freestanding liquor retail outlet pursuant to the Rules and the Code. During Phase I, 46 stores took the Purchase Option which ended on February 17, 2010. An additional 119 licenses were sold during Phase II, the License Bidding Process, which ended on April 30, 2010. An additional ten (10) licenses were sold during Phase III, the Subsequent License Bidding Process, which ended on June 25, 2010.

Moving forward into fiscal year 2011, an additional license was sold during an extended Phase III License Bidding Process, which ended on August 6, 2010. The three phases provided revenues totaling \$37,660,998 for 175 retail outlets. Two (2) additional licenses were sold during a continuation of extended Phase III License Bidding Process, which ended November 4, 2010. The continuation of extended Phase III provided revenues totaling \$244,681 for the three (3) additional retail outlets added. Three (3) additional retail outlets still remain available for bid at the RLLB's discretion. The RLLB is evaluating the results of a consultant provided statewide analysis and recommendation of "need areas" in the State as the Board considers reallocating the three (3) available licenses.

During the 2012 fiscal year, sales dollars increased 4.8% and case volume sales increased 3.4%. The Administration purchased a generator for the Distribution Center, located in Nitro, West Virginia, during the year to provide continued operations of the liquor warehouse during power outages. The Administration made numerous technology purchases (i.e., IP phone system, desktop scanners, iPhones, etc.) on behalf of its Administrative and Enforcement Divisions during the year to increase the efficiency of the operations. The Administration also moved Administrative Offices from the Kanawha City, West Virginia, location to the new Lottery Building on Pennsylvania Avenue in Charleston, West Virginia.

During the 2013 fiscal year, sales dollars increased 2.4% and case volume sales increased 0.5%. The Administration made numerous improvements to the Distribution Center in Nitro, West Virginia such as updating the interior lighting, painting the exterior, and several smaller projects. The Administration made several technology purchases (i.e., iPads, servers, UHF two-way radios, etc.) on behalf of the Administrative and Enforcement Divisions in an effort to increase the efficiency of the operations.

West Virginia Alcohol Beverage Control Administration
Management's Discussion and Analysis (Unaudited)
Years Ended June 30, 2015 and 2014
(Continued)

During the 2014 fiscal year, sales dollars increased 1.1% and case volume sales increased 0.5%. The Administration has updated to an e-Licensing system. The goal of the WVABCA e-Licensing project was to replace multiple legacy systems with one flexible integrated web-based solution. This new system is called GL Suite by GL Solutions, Inc. from Bend, Oregon. GL Suite has three parts that address the Administration's needs. Most licensing and enforcement functionality is provided in the GL Suite back-office. There is also an iPad/iPhone app that allows the Enforcement field inspectors to collect information across the state. The third piece of the solution is a set of websites that allows varying levels of self-service to the licensees and the public.

During the 2015 fiscal year, sales dollar increased 2.2% and case volume sales increased 1.2%. The Administration implemented a modern web-based liquor distribution system that retired the last of the agency's legacy systems in the last quarter of FY 2015. The Administration made several technology purchases (desktop computers, driver simulator upgrade, etc.) on behalf of the Administrative and Enforcement Divisions. The Administration made numerous purchases for the Distribution Center in Nitro, West Virginia such as new skylights, two pallet jacks, two fork trucks and two AEDs to improve safety and efficiency of operations. The Administration implemented Governmental Accounting Standards Board (GASB) Statement No. 68. GASB 68 requires governmental employers to recognize a net pension liability and/or a net pension asset as employees earn pension benefits. As a government agency participating in the West Virginia Public Employees' Retirement System, the Administration has recognized their proportionate share of the net pension liability, pension expense, deferred inflows of resources and deferred outflows of resources.

As management of the Administration, we offer readers of the Administration's financial statements this narrative overview and analysis of its financial activities for the fiscal year ended June 30, 2015. Please read it in conjunction with the Administration's financial statements, which begin on page 8.

USING THIS ANNUAL REPORT

This report consists of a series of financial statements: the Statements of Net Position, the Statements of Revenues, Expenses, and Changes in Fund Net Position, and the Statements of Cash Flows. These statements provide information about the activities of the Administration. Following is an additional discussion of the significant financial statement items and the changes in those items from the prior year due to recent events and activities of the Administration, current economic factors, and other factors affecting the Administration's financial activities.

The Statements of Net Position represent the difference between the assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the Administration and includes all assets, deferred outflows of resources, liabilities, and deferred inflows of resources using the accrual basis of accounting, which is similar to the accounting used by most private - sector companies. Over time, increases or decreases in the Administration's net position are one indicator of whether its financial health is improving, stable or deteriorating. The Statements of Revenues, Expenses, and Changes in Fund Net Position reflect the Administration's revenues, such as proceeds from the sales of alcoholic beverages as the exclusive wholesaler of liquor in the State, and related fees from licenses, permits and administrative hearing fines, and its expenses, such as costs of sales, general and administrative costs and depreciation. The notes to the financial statements provide information that is essential to the full understanding of the data provided in the financial statements. The financial statements of the Administration are prepared in conformity with accounting principles generally accepted in the United States of America.

STATEMENTS OF NET POSITION

Total assets increased \$931,896 from \$21,529,826 at June 30, 2014, to \$22,461,722 at June 30, 2015, as a result of increased operating income. Total assets increased \$4,393,379 from \$17,136,447 at June 30, 2013, to \$21,529,826 at June 30, 2014, as a result of the increased operating income in fiscal year 2014. Total liabilities increased \$823,867 from \$6,103,171 at June 30, 2014, to \$6,927,038 at June 30, 2015, due to the timing of cash payments and the recognition of the net pension liability of \$685,838 from the implementation of GASB 68. Total liabilities increased \$773,280 from \$5,329,891 at June 30, 2013, to \$6,103,171 at June 30, 2014, due to the timing of cash payments.

Due to the implementation of GASB 68 during the year ended June 30, 2015, there are now deferred outflows of resources from pension amounts of \$361,735 and deferred inflows of resources from pension amounts of \$851,379. These balances were not reported prior to the implementation of GASB 68. The implementation of GASB 68 also resulted in a cumulative effect adjustment as of July 1, 2014, as more fully described in the accompanying notes to financial statements.

The Administration's net position totaled \$15,045,040, \$15,426,655, and \$11,806,556 at June 30, 2015, 2014, and 2013, respectively. Net position represented 67%, 72%, and 69% of the Administration's total assets for each of the years ended June 30, 2015, 2014, and 2013, respectively.

OPERATING RESULTS

The Administration had operating income for the year ended June 30, 2015 of \$19,837,221 which was an increase of 4.1% over the year ended June 30, 2014, which was \$19,062,805. Operating income from the year ended June 30, 2014 increased 2.3% from the year ended June 30, 2013 which was \$18,636,433. Additionally, unit quantities of sales measured in cases were 706,872, 698,617, and 695,363 for the years ended June 30, 2015, 2014, and 2013, respectively. Operating income fluctuates in response to sales dollars and quantities on an annual basis.

NONOPERATING RESULTS

The Administration's non-operating expense, net for the years ended June 30, 2015, 2014, and 2013 were \$18,721,228, \$15,442,706, and \$16,409,235, respectively. The fluctuations noted in non-operating expense are predominately due to the amount of statutory distributions. Statutory distributions related to ongoing liquor sales are determined by the West Virginia Department of Administration each year to the extent that funds are available. The statutory distributions are paid to the State of West Virginia's General Revenue Fund.

CHANGES IN OPERATIONS

During the years ended June 30, 2015, 2014, and 2013, no major changes were made in the Administration's operations.

CONTACTING THE ADMINISTRATION'S FINANCIAL MANAGEMENT

The above financial highlights are designed to provide a general overview of the Administration's operations and insight into the following financial statements. Questions about this report or requests for additional information should be directed to the Administration's central office located at 900 Pennsylvania Avenue, 4th Floor, Charleston, West Virginia, 25302, (304) 356-5500.

WEST VIRGINIA ALCOHOL BEVERAGE CONTROL ADMINISTRATION

NOTES TO FINANCIAL STATEMENTS

1 - FINANCIAL REPORTING ENTITY

The West Virginia Alcohol Beverage Control Administration (the Administration) is a proprietary fund and governmental instrumentality of the State of West Virginia (the State), created under the provisions of Chapter 60, Article 1 of the West Virginia Code, as amended.

The Administration's mission is to give effect to the mandate of the people expressed in the repeal of the state prohibition amendment, and to assure the greatest degree of personal freedom that is consistent with the health, safety, and good morals of the people of West Virginia. This is accomplished by issuing licenses in accordance with Senate Bill 337 and acting as the wholesaler of liquor to retailers in the State.

The Administration's financial statements are included in the State of West Virginia's Comprehensive Annual Financial Report as a proprietary fund.

2 - SIGNIFICANT ACCOUNTING POLICIESBasis of Accounting

The Administration is accounted for as a special purpose government engaged in business type activities. In accordance with accounting principles generally accepted in the United States of America, the financial statements are prepared on the accrual basis of accounting, using the flow of economic resources measurement focus. Under this basis of accounting, revenues are recognized when earned and expenses are recognized when incurred.

Cash Equivalents

Cash and cash equivalents consist primarily of cash on deposit with the State Treasurer's Office and cash on hand. The State Treasurer has statutory responsibility for the daily cash management activities of the State's agencies, departments, boards and commissions in accordance with West Virginia Code. Cash and cash equivalents, are carried at amortized cost, which approximates fair value. All deposits are available with overnight notice.

Notes Receivable

Notes receivable consist of amounts due from licensees that elected to finance up to 50% of the ten-year license fee as permitted by West Virginia Code. The principal and interest on these notes are due in either monthly or quarterly installments as elected by the licensee over 60 months and bear interest at an annual rate of 2.25%. The notes are secured by potential revocation of the licensee's Class A retail license.

Inventories

Inventories are presented at the lower of cost (first-in, first-out method) or market.

Capital Assets

Capital assets are reported at historical cost. Capital assets are defined by the Administration as assets with an initial individual cost of more than \$1,000 and an estimated useful life in excess of one year. Depreciation is computed using the straight-line method over the following estimated economic useful lives of the assets; buildings (31- 40 years) and equipment (3-10 years).

WEST VIRGINIA ALCOHOL BEVERAGE CONTROL ADMINISTRATION

NOTES TO FINANCIAL STATEMENTS
(Continued)**2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)**Employee Benefits

Employees fully vest in all earned but unused vacation and the Administration accrues for obligations that may arise in connection with compensated absences for vacation at the current rate of employee pay. To the extent that accumulated sick leave is expected to be converted to benefits on retirement, the benefits are funded by the Administration's participation in The West Virginia Retiree Health Benefit Trust Fund.

Deferred Outflows of Resources / Deferred Inflows of Resources

The statement of net position reports a separate financial statement element called *deferred outflows of resources*. This financial statement element represents a consumption of net position that applies to a future period and so will *not* be recognized as an outflow of resources (expense) until that time. The Administration reports certain pension related amounts as deferred outflows of resources on the statement of net position.

The statement of net position reports a separate financial statement element called *deferred inflows of resources*. This financial statement element represents an acquisition of net position that applies to a future period and so will *not* be recognized as an inflow of resources (revenue) until that time. The Administration reports certain pension related amounts as deferred inflows of resources on the statement of net position.

Pension

For purposes of measuring the net pension liability, deferred outflows of resources and inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the West Virginia Public Employees Retirement System (PERS) and additions to/deductions from PERS fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Net Position

Net position is presented as unrestricted, restricted, or as investment in capital assets. Investment in capital assets consists of all capital assets, less accumulated depreciation. Net position restricted by enabling legislation consists of notes receivable on re-bid licenses in which all collections by the Administration are required by West Virginia Code to be distributed to the State of West Virginia. All remaining net position is considered unrestricted. When an expense is incurred for purposes for which both restricted and unrestricted net position is available, restricted resources are applied first.

Operating Revenues and Expenses

Operating revenues and expenses for the Administration are revenues and expenses that result from providing services and producing and delivering goods and/or services. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

WEST VIRGINIA ALCOHOL BEVERAGE CONTROL ADMINISTRATION

NOTES TO FINANCIAL STATEMENTS
(Continued)**2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)**Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

3 - CUMULATIVE EFFECT OF ADOPTION OF ACCOUNTING PRINCIPLE

Effective July 1, 2014, the Administration adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions-an amendment of GASB Statement No. 27*, and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date-an amendment of GASB Statement No. 68*. The Administration determined that it was not practical to restate all periods presented and has recorded the cumulative effect of the decrease to beginning net position of implementing this change of \$1,497,608 as of July 1, 2014, which is the net pension liability of \$1,858,437 less deferred outflows of resources related to pension plan contributions of \$360,829 as of that date. The Administration further determined that it was not practical to determine the amounts of all deferred inflows of resources and deferred outflows of resources related to pensions as of July 1, 2014 and these amounts are not reported.

4 - CAPITAL ASSETS

A summary of capital assets as of and for the year ended June 30, 2015 and 2014, follows:

5 - LEASE

The Administration has entered into an operating lease with the West Virginia Lottery Commission (Lessor) for its headquarters which expires in June 2016. Rent expense for the years ended June 30, 2015 and 2014 was \$183,413 and \$183,418, respectively. The lease contains a clause that allows the Administration to cancel the lease with 30 days written notice to the Lessor. The Administration's future minimum lease payments under the current terms of the lease are \$179,388 through the year ending June 30, 2016.

6 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONSPlan Description

The Administration participates in the West Virginia Other Postemployment Benefit Plan (OPEB Plan) of the West Virginia Retiree Health Benefit Trust Fund, a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the West Virginia Public Employees Insurance Agency (WVPEIA). The OPEB Plan provides retiree post-employment health care benefits for participating state and local government employers. The provisions of the Code of West Virginia, 1931, as amended (the Code), assigns the authority to establish and amend benefit plans to the WVPEIA Board of Trustees. The WVPEIA issues a publicly available financial report that includes financial statements and required supplementary information for the OPEB Plan. That report may be obtained by writing to Public Employees Insurance Agency, 601 57th Street, S.E., Suite 2, Charleston, West Virginia, 25304-2345, or by calling 1-888-680-7342.

WEST VIRGINIA ALCOHOL BEVERAGE CONTROL ADMINISTRATION

NOTES TO FINANCIAL STATEMENTS
(Continued)**6 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (Continued)**Funding Policy

The Code requires the OPEB Plan to bill the participating employers 100% of the Annual Required Contribution (ARC), an amount actuarially determined in accordance with GAAP. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. State of West Virginia plan employers are billed per active health policy per month.

The Administration's ARC was \$234,837, \$167,932, and \$193,852 and the Administration paid premiums of \$131,364, \$135,520, and \$138,620, which represented 55.9%, 80.7%, and 71.5% of the ARC, respectively, for the years ending June 30, 2015, 2014, and 2013. As of June 30, 2015 and 2014 the Administration has recorded an OPEB liability of \$2,112,160 and \$2,008,687, respectively.

7 - PENSION PLAN*Plan Description*

The Administration contributes to the PERS, a cost-sharing multiple-employer defined benefit pension plan administered by the West Virginia Consolidated Public Retirement Board (CPRB). PERS covers substantially all employees of the State and its component units, as well as employees of participating non-state governmental entities who are not participants of another state or municipal system. Benefits under PERS include retirement, death and disability benefits, and have been established and may be amended by action of the State Legislature. The CPRB issues a publicly available financial report that includes financial statements for PERS that may be obtained at www.wvretirement.com.

Benefits Provided

PERS provides retirement benefits as well as death and disability benefits. Qualification for normal retirement is age 60 with five years of service or at least age 55 with age and service equal to 80 or greater. The straight-life annuity retirement benefit is equivalent to 2% of average salary multiplied by years of service. Average salary is the average of the highest annual compensation during any period of three consecutive years within the last fifteen years of earnings. Terminated members with at least five years of contributory service who do not withdraw their accumulated contributions may elect to receive their retirement annuity beginning at age 62.

Contributions

Although contributions are not actuarially determined, actuarial valuations are performed to assist the Legislature in establishing appropriate contribution rates. Current funding policy requires contributions, consisting of member contributions of 4.5% of covered payroll and employer contributions of 14.0%, 14.5%, and 14.0% for the years ended June 30, 2015, 2014, and 2013, respectively.

During the years ended June 30, 2015, 2014, and 2013, the Administration's contributions to PERS required and made were \$361,735, \$369,965, and \$381,890, respectively.

WEST VIRGINIA ALCOHOL BEVERAGE CONTROL ADMINISTRATION

NOTES TO FINANCIAL STATEMENTS
(Continued)**7 - PENSION PLAN (Continued)***Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions*

At June 30, 2015, the Administration reported a liability of \$685,838 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2013, rolled forward to the measurement date of June 30, 2014. The Administration's proportion of the net pension liability was based on the Administration's share of contributions to the pension plan relative to the contributions of all employers participating in PERS for the year ended June 30, 2014. At June 30, 2014, the Administration's proportion was 0.185831%, which was a decrease of 0.018028 from its proportion measured as of June 30, 2013.

For the year ended June 30, 2015, the Administration recognized pension expense of \$39,609. At June 30, 2015, the Administration reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Net difference between projected and actual earnings on pension plan investments	\$ -	\$ 725,522
Changes in proportion and differences between Administration contributions and proportionate share of contributions	-	125,857
Administration contributions made subsequent to the measurement date of June 30, 2014	<u>361,735</u>	<u>-</u>
Total	<u>\$ 361,735</u>	<u>\$ 851,379</u>

\$361,735 reported as deferred outflows of resources related to pensions resulting from Administration contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30,

2016	\$ (219,869)
2017	(219,869)
2018	(219,869)
2019	(191,772)

WEST VIRGINIA ALCOHOL BEVERAGE CONTROL ADMINISTRATION

NOTES TO FINANCIAL STATEMENTS
(Continued)**7 - PENSION PLAN (Continued)***Actuarial Assumptions*

The total pension liability in the June 30, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods in the measurement:

Inflation	2.2 percent
Salary increases	4.25 - 6.0 percent, average, including inflation
Investment rate of return	7.5 percent, net of pension plan investment expense

Mortality rates were based on the 1983 GAM for healthy males, 1971 GAM for healthy females, 1971 GAM for disabled males, and Revenue Ruling 96-7 for disabled females.

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2004 through June 30, 2009.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed income	15.0%	2.9 - 4.8%
Domestic equity	27.5%	7.6%
International equity	27.5%	8.5%
Real estate	10.0%	6.8%
Private equity	10.0%	9.9%
Hedge funds	10.0%	5.0%
Total	<u>100%</u>	

Discount Rate

The discount rate used to measure the total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions from employers will continue to be made at statutorily required rates, which are determined annually based on actuarial valuations. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. Although discount rates are subject to change between measurement dates, there were no changes in the discount rate in the current period.

WEST VIRGINIA ALCOHOL BEVERAGE CONTROL ADMINISTRATION

NOTES TO FINANCIAL STATEMENTS
(Continued)**7 - PENSION PLAN (Continued)***Sensitivity of the Administration's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate*

The following presents the Administration's proportionate share of the net pension liability calculated using the discount rate of 7.5 percent, as well as what the Administration's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower or one-percentage-point higher than the current rate:

	<u>1% Decrease</u> <u>(6.5%)</u>	<u>Current Discount</u> <u>Rate (7.5%)</u>	<u>1% Increase</u> <u>(8.5%)</u>
Administration's proportionate share of the net pension liability (asset) \$	1,937,945	\$ 685,838	\$ (381,071)

8 - RISK MANAGEMENT

The Administration is exposed to various risks of loss related to torts; theft of, or damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Administration participates in several risk management programs administered by the State of West Virginia and other providers. Each of these risk pools have issued separate audited financial reports on their operations. Complete financial statements of the individual insurance enterprise funds can be obtained directly from their respective administrative offices.

Public Employees' Insurance Agency (PEIA)

The PEIA risk pool retains all risks for the health and prescription features of its indemnity plan. PEIA has fully transferred the risks of coverage of the Managed Care Organization (MCO) Plan to the plan provider, and has transferred the risks of the life insurance coverage to a third party insurer. PEIA presently charges equivalent premiums for participants in either the indemnity plan or the MCO Plan. Altogether, PEIA insures approximately 205,000 individuals, including participants and dependents.

Board of Risk and Insurance Management (BRIM)

The Administration participates in the West Virginia Board of Risk and Insurance Management (BRIM), a common risk pool currently operating as a common risk management and insurance program for all State agencies, component units, and other local governmental agencies who wish to participate. The Administration pays an annual premium to BRIM for its general insurance coverage. Underwriting and rate setting policies are established by BRIM. The cost of all coverage as determined by BRIM shall be paid by the participants. The BRIM risk pool retains the risk of the first \$1 million per property event and purchases excess insurance on losses above that level. BRIM has \$1 million per occurrence coverage maximum on all third-party liability claims.

Workers Compensation Insurance

The Administration carries workers compensation insurance coverage through a commercial carrier. The carrier is paid a monthly premium to provide compensation for injuries sustained in the course of employment. In exchange for the payment of premiums, the Administration has transferred its risks for job-related injuries of employees.

WEST VIRGINIA ALCOHOL BEVERAGE CONTROL ADMINISTRATION

NOTES TO FINANCIAL STATEMENTS
(Continued)**9 - CONTINGENCIES**

The Administration is involved in certain claims and legal actions arising from the ordinary course of conducting business. Although the outcome of these claims and legal actions are presently indeterminable; it is the opinion of the Administration's management, after a review of legal activities, that no adjustments to the financial statements are warranted and that any resolution of outstanding claims or legal actions are not expected to have a material adverse effect on the accompanying financial statements.

10 - EFFECT OF NEW ACCOUNTING PRONOUNCEMENTS

The GASB has issued Statement No. 72, *Fair Value Measurement and Application*, which provides guidance for determining a fair value measurement for financial reporting purposes. This statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements. The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2015. Management has not determined the effect, if any, this statement will have on its financial statements.

The GASB has issued three statements relating to accounting and financial reporting for pension and postemployment benefit plans: Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*; Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*; and Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The provisions of Statements No. 73 and 74 are effective for financial statements for periods beginning after June 15, 2016, and the provisions of Statement No. 75 are effective for periods beginning after June 15, 2017. Management has not determined the effect, if any, this statement will have on its financial statements.

The GASB has issued Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, which identifies the hierarchy of generally accepted accounting principles used to prepare financial statements of state and local governments. This statement supersedes Statement No. 55, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2015. Management has not determined the effect, if any, this statement will have on its financial statements.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Members of the West Virginia Alcohol
Beverage Control Administration
Charleston, West Virginia

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the West Virginia Alcohol Beverage Control Administration (the Administration), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Administration's basic financial statements, and have issued our report thereon dated October 29, 2015.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Administration's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Administration's internal control. Accordingly, we do not express an opinion on the effectiveness of the Administration's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Administration's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in black ink that reads "Gibbons & Kawash, A.C.".
