Federal Programs

Consolidated Report

Federal funds are received directly from the federal government and may only be used for the specific purpose for which they are intended. Federal funds consist of any financial assistance made directly to any state department/bureau/commission/division by the United States government, whether a loan, grant, subsidy, augmentation, reimbursement or any other form of such assistance, including federal matching funds.

Federal funds have become a substantial part of the operation of state government, either as part of ongoing programs or structured to institute state action. In all cases, federal funds are a significant feature of state services and the budget process.

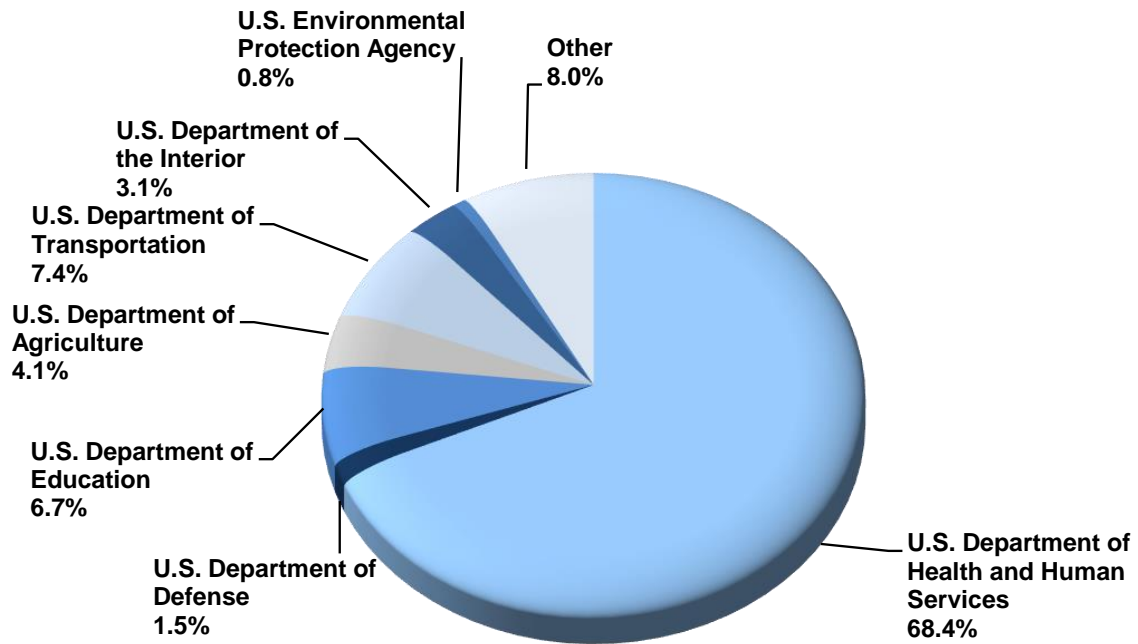

With the following exceptions, Federal Funds must be included in the Budget Act and appropriated by the Legislature (as required by W.Va. Code 4-11-4 and 4-11-6):

- Federal funds received by state institutions of higher education, by students, or by faculty members of such institutions for instructional or research purposes and federal funds received for student scholarships or grants-in-aid
- Federal nondiscretionary pass-through funds earmarked in specified amounts or appropriations for transmittal to local political subdivisions or to designated classes of organizations and individuals which do not require state-matching funds and do not permit discretion in their distribution by the receiving state spending unit
- Federal funds made available to the state for costs and damages resulting from natural disasters, civil disobedience, or an occurrence declared by the Governor as a state of emergency
- Federal funds received by the West Virginia Division of Highways or the West Virginia Commissioner of Highways

This report provides detailed information about federal programs, including a brief description, state fund in which the federal funding was received, the federal grantor and matching formula, federal catalog number, and actual and estimated receipts.

STATE & LOCAL IMPLEMENTATION GRANT PROGRAM

Description:

The State and Local Implementation Grant Program (SLIGP) is designed as a formula-based, matching grant program to assist states in collaboration with regional, tribal, and local jurisdictions to perform activities related to planning for the establishment of a nationwide public safety broadband network. The West Virginia Statewide Interoperable Radio Network (also known as the SIRN) is a collaborative effort by state, county, and municipal public safety entities to establish and maintain a statewide interoperable radio network. This radio network is comprised of a UHF digital P25 compliant trunked radio system that utilizes some of the latest technologies in the radio industry. Currently the SIRN has over 70 sites operational and provides coverage throughout most of West Virginia.
