Report of Transactions **Fiscal Years 2006 and 2007**

During the period from fiscal years 2006 to the present, the Board fulfilled its number one priority, which is to protect the public from professional misconduct by psychologists. There were 40 ethical inquiries lodged and/or worked on during this period, 28 of which have been closed and are listed in later pages.

20 Board meetings were held during that same time period, copies of all approved minutes are attached. During meetings, oral examinations were conducted, which include an emphasis on the ethical code. For this time period the Board issued licenses to 56 psychologists, 2 school psychologists, 2 school psychologist independent practitioners, which is a total of 60 licenses for this time period. Also during this period, applications were approved for 97 supervised psychologists to enter into the supervision for licensure program. In addition, the Board continues to review its rules, Title 17, for future revisions to be submitted to the Legislature.

Ongoing business of the Board included processing of quarterly license renewals, annual supervision card renewals for supervised psychologists, quarterly supervision forms, monitoring continuing education for licensees, and continuing education requests. Business also included conducting the national written examination for the professional practice of psychology, evaluating applications for licensure, and assessing reciprocity applications.
