WEST VIRGINIA BOARD OF OSTEOPATHIC MEDICINE
Legislative Committee Emergency Meeting Minutes
February 11, 2021

The Legislative Committee of the West Virginia Board of Osteopathic Medicine met on Thursday, February 11, 2021, at 405 Capitol Street, Suite 402 with some Members appearing virtually.

Legislative Committee Chair, Sharon Rowe, called the business meeting to order at 8:38 AM.

Members Present:

Sharon Rowe, Secretary and Committee Chair
Andy Tanner, D.O. – Physician Member
Tiffany Thymius, D.O. – Physician Member

Staff Members Present:

Jonathan Osborne – Executive Director
Chase Holcomb – Board Counsel

The Legislative Committee discussed the following legislation introduced during the 2021 Regular Session:

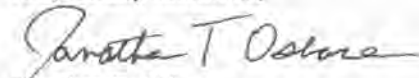

- 1) HB2004 – This bill would allow individuals licensed in another state to practice telemedicine upon registering with the appropriate board in West Virginia. The Committee noted it was unclear what the requirements would be for registration, as the bill does not define them. Board staff noted that Minnesota has a telemedicine registration statute that specifically outlines requirements and restrictions, including that the individual must be licensed in good standing in all other states and cannot establish a physical practice location in Minnesota pursuant to the registration.
- 2) SB1 – This bill would create a telemedicine registration process whereby practitioners licensed in another state would be entitled to practice telemedicine in West Virginia as long as they registered with the appropriate board. The bill would also allow a physician-patient relationship to be established via audio-only means. The bill would limit a patient to three telemedicine visits in a year without having an in-person encounter. The Committee questioned how that limit would be enforced.
- 3) HB2007 – This bill would allow individuals licensed in another state to obtain automatic licensure in West Virginia.

The Legislative Committee directed Board staff to monitor any developments and to report those developments, as necessary.

The Legislative Committee discussed the following legislative rules:

- 1) Telehealth Practice and Interstate Telehealth Registration for Osteopathic Physicians and Physician Assistants (24CSR10) – The Board previously filed the agency approved version of this rule. The Legislature has scheduled a stakeholder meeting on October 6, 2021, at 2:00 p.m. to discuss a comment made on the Board of Medicine’s rule by the American Telemedicine Association regarding the standard of care for certain patients seen via telemedicine. Specifically, the Association argues that certain patients should be exempt from the requirement that a patient have an in-person encounter within 12 months after an initial telemedicine encounter. The Committee opposed the Association’s view.

- 1) HB 4324 To update collaborative pharmacy practice agreements. The Board scheduled this meeting after receiving notice that the House Health & Human Resources Committee would send the Board a revised version of this bill to be considered on January 25. The Board questioned what types of evaluations pharmacists may perform under the proposed revisions to collaborative pharmacy practice.
- 2) SB 375 Board of Osteopathic Medicine rule relating to telehealth practice and interstate telehealth registration for osteopathic physicians and physician assistants. The Board also scheduled this meeting to discuss SB 375, which was scheduled to be considered by the Senate Judiciary Committee on January 19. The bill was pulled from the agenda to consider revisions regarding the requirement that a patient be seen in-person every 12 months in order to continue utilizing telehealth services, with some exceptions. The Board reiterated its stance that the requirement should apply to all patients, not just “established patients,” so that two separate standards of care would not be created.
