Prospective Employable Personnel W.Va. Code §18A-2-3(d)(1)

Annual Report 2013-2014

Each year a county superintendent may employ prospective employable professional personnel (PEPP) on a reserve list at the county level subject to the following conditions:

- The county board must adopt a policy authorizing employment of prospective employable personnel to address areas of critical need and shortage;
- The county board must post notice of the areas of critical need and shortage in the county for at least ten working days and no potentially qualified applicants are available or willing to fill the position;
- PEPP may only be employed from candidates at a job fair who have or will graduate from college in the current school year *or* whose employment contract with a county board has or will be terminated due to a reduction in force in the current fiscal year.
- The County is limited to three (3) full-time PEPP per one hundred (100) professional personnel employed in a county but no more than twenty-five (25) full-time PEPP in a county, whichever is less.

For the academic year 2013-2014, all 55 counties were surveyed as to the use of this provision. Berkeley County is the only county that utilized and hired using the §18A-2-3(d)(1) provision (see page 3).

Although only one county utilized this option for 2013-2014, its availability allowed seven positions to be filled with fully certified, highly qualified candidates. The WV Board of Education recommends the continued use of this provision in order that counties continue to have the ability to recruit and hire teachers to fill critical needs areas.
