Performance Audits**

LOCEA REPORT

**Report on the Impact and
Effectiveness of the
Accreditation System
2014-2015/2015-2016**

**Year One and Year Two
Baseline Data**

Legislative Oversight Commission on Education Accountability (LOCEA)

(Information)

West Virginia Code §518-2E-5(j)(5)(C),(D) states the Office of Education Performance Audits will, "Determine, in accordance with the assessment and accountability processes, what capacity may be needed by schools and school systems to meet the standards established by the state board and recommend to the state board plans to establish those needed capacities; Determine, in conjunction with the assessment and accountability processes, whether statewide system deficiencies exist in the capacity of schools and school systems to meet the standards established by the state board, including the identification of trends and the need for continuous improvements in education, and report those deficiencies and trends to the state board."

West Virginia Code §18-2E-5(e). *State annual performance measures for school and school system accreditation* states:

The state board shall promulgate a rule in accordance with the provisions of article three-b, chapter twenty-nine-a of this code that establishes a system to assess and weigh performance measures for state accreditation of schools and school systems. The state board also may establish performance incentives for schools and school systems as part of the state accreditation system. On or before December 1, 2013, the state board shall report to the Governor and to the Legislative Oversight Commission on Education Accountability the proposed rule for establishing the measures and incentives of the accreditation and the estimated cost therefore, if any. Thereafter, the state board shall provide an annual report to the Governor and to the Legislative Oversight Commission on Education Accountability on the impact and effectiveness of the accreditation system. The rule for school and school system accreditation proposed by the board may include, but is not limited to, the following measures:

- 1) Student proficiency in English and language arts, math, science and other subjects determined by the board;
- 2) Graduation and attendance rate;
- 3) Students taking and passing AP tests;
- 4) Students completing a career and technical education class;
- 5) Closing achievement gaps within subgroups of a school's student population and;
- 6) Students scoring at or above average attainment on SAT or ACT tests.

The following data report indicates the capacity needs for schools and school systems during the baseline data collection years 2014 – 2015 and 2015 – 2016 and the impact and effectiveness of the state annual performance measures.

This report provides an evidence based overview of the status of West Virginia schools' rating outcomes from the baseline reviews and data collection conducted School Years 2014-2015 and 2015-2016. Included in the analysis is consolidated data from 702 schools with a focus on factors affecting student achievement, in particular:

- ❖ Principal Leadership
- ❖ Teacher Leadership
- ❖ Classroom Learning Environment
- ❖ Standards-Focused Curriculum
- ❖ Instructional Planning
- ❖ Instructional Delivery
- ❖ Teacher Collaboration
- ❖ Focused and Cohesive Plan
- ❖ Processes and Structures
- ❖ Monitoring for Results

As a gauge metric, the rating of "Accomplished" is applied in the baseline analysis as defined by key words, such as "present but not pervasive" and "broadly applied". The "Accomplished" rating serves as an acceptable, although not statistically derived, rating norm.

Student Achievement Factors Defined

| |
|---|
| <p>Principal Leadership—The principal exhibits the professional knowledge, skills and dispositions that reflect strong leadership and effective management.</p> |
| <p>Teacher Leadership—Teachers assume responsibility for school and classroom improvement, are provided authentic opportunities, and resources to lead and influence professional practice.</p> |
| <p>Classroom Learning Environment—Teachers create and manage an inviting classroom that is student-centered and fosters student reflection, intellectual inquiry, and self-direction.</p> |
| <p>Standards-Focused Curriculum—Teachers implement a standards-focused curriculum aligned with state standards and objectives for West Virginia schools and the Next Generation Learning Skills and Technology Tools.</p> |
| <p>Instructional Planning—Teachers design long and short term instructional plans for guiding student mastery of the state standards and objectives based on the needs, interests, and performance levels of their students.</p> |

Instructional Delivery—Teachers facilitate engaging instructional experiences that enhance individual student progress in mastery of the curriculum using multiple strategies, appropriate assessments, learning resources, digital tools, and processes aligned with instructional targets.

Teacher Collaboration—The teachers participate in high functioning professional learning communities to collaborate on the improvement of student learning through the study of relevant data, problem analysis, and the implementation of strategies that improve instructional practice.

Focused and Cohesive Plan—The staff establishes a coherent approach for improving the performance of students based on the mission and goals outlined in the strategic plan.

Processes and Structures—The staff has well-defined structures for building professional relationships and processes necessary to collaboratively engage all stakeholders in actions to increase student learning.

Monitoring for Results—The staff monitors changes in practice, implements adjustments, evaluates the results of student learning, and communicates the progress to all stakeholders.

School Leadership – Standard 2 % Accomplished Rating

| Function | % Accomplished Rating |
|-----------|-----------------------|
| Principal | 68% |
| Teacher | 72% |

Standards-Focused Curriculum, Instruction, and Assessments – Standard 3

% Accomplished Rating

Continuous Improvement – Standard 7
