Re: Broadband Loan Insurance report for the quarter ending
June 30, 2022

In accordance with West Virginia Code § 31-15-8a(g), the West Virginia Economic Development Authority (the "WVEDA") is required to submit quarterly reports on the 30th day of each January, April, July and October to the Joint Committee on Government and Finance, the Governor and the Board of Treasury Investments containing information about the WVEDA's Broadband Loan Insurance Program, as defined in West Virginia Code § 31-15-8a(a)(2) ("BLINS"). This quarterly report is being provided pursuant to West Virginia Code § 31-15-8a(g).

The WVEDA executed an Amended Broadband Loan Insurance Promissory Note in July of 2021 increasing the principal amount from \$50 million to \$80 million. The WVEDA has committed \$9,467,367.68 for traditional BLINS and \$31,364,108.98 for RDOF BLINS. The WVEDA has \$39,168,523.34 available to commit to eligible broadband projects.

To date, the WVEDA has received \$121,067.96 in application and origination fees. The WVEDA charges a one-time \$1,000 application fee and a one-time

origination fee (one-half of one percent) to cover the costs associated with administering the program. There are no ongoing revenue streams for this program.

The WVEDA has earned \$84,900.70 in interest on disbursed BTI funds and has paid the WV Board of Treasury Investments ("BTI") \$82,168.45 in interest on disbursed loan funds. The WVEDA is concerned that the interest expense on loan disbursements (required by BTI) will at times exceed interest earnings on the same funds.

To summarize the program, the WVEDA issues BLINS commitments to insure financial institutions loans or letters of credit to internet service providers for qualified projects. The respective financial institution funds the loan to the provider or issues a letter of credit on behalf of the provider. The WVEDA essentially commits to fund a valid claim in the event a loan defaults or letter of credit is presented. If a financial institution presents a valid claim the WVEDA must remit the funds to the financial institution.

It is BTI's position that the WVEDA must draw down BTI loan funds for a BLINS commitment upon the execution of the Standard BLINS Agreement as it is a liability of the WVEDA. The WVEDA's position is that the commitment represents a contingent liability (as certain events must occur before funds are required) and that the WVEDA should draw down BTI loan funds when a financial institution presents a valid claim. As a result, the WVEDA is incurring interest expense (payable to BTI) for loan disbursements that are not needed unless a claim is presented.

The WVEDA invests all loan disbursements in the WV Money Market Pool fund, but the earnings are nominal and often less than the interest expense paid to BTI. To date the WVEDA has paid \$82,168.45 to BTI in interest expense and earned \$84,900.70 in interest on disbursed funds. The WVEDA has received \$2,735.25 over and above interest expense however, interest expense was greater than interest earnings in the quarter ending March 30, 2022.

To resolve this issue the WVEDA recommends that BTI perform a liquidity calculation on the full amount of the \$80,000,000 BLINS note to WVEDA. Further, it is recommended that the WVEDA draw funds from the BTI loan when a valid claim is presented. This recommendation streamlines the funding process and eliminates the WVEDA's interest carrying cost.
