Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

The Honorable Earl Ray Tomblin, Governor of the State of West Virginia

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the State of West Virginia as of and for the year ended June 30, 2010, and have issued our report thereon dated February 28, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Other auditors audited the financial statements of certain entities within the governmental activities, the business-type activities, the aggregate discretely presented component units, the major funds and the aggregate remaining fund information, which represent 61% of total assets, 75% of net assets and 15% of total revenues for the governmental activities; 84% of total assets, 87% of net assets and 79% of total revenues for the business-type activities; 100% of total assets, 100% net assets and 100% of revenues for the aggregate discretely presented component units; 100% of total assets, 100% net assets and 100% of revenues of the following major funds-Transportation, Tobacco Settlement Finance Authority, West Virginia Lottery, Water Pollution Control, Workers' Compensation, Unemployment Compensation and West Virginia Infrastructure and Jobs Development Council; and 87% of total assets, 89% of net assets/fund balance and 67% of the total revenues/additions for the aggregate remaining fund information, respectively, as described in our report on the State of West Virginia's basic financial statements. The financial statements of the West Virginia Investment Management Board were audited by other auditors in accordance with auditing standards generally accepted in the United States, but were not audited in accordance with Government Auditing Standards. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the State of West Virginia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State of West Virginia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the State of West Virginia's internal control over financial control over financial reporting.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies or material weaknesses have been identified. However, as described in the accompanying

schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and other deficiencies that we consider to be significant deficiencies.

> A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency or combination of deficiencies in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items 2010-1 to 2010-2, 2010-4 and 2010-43 to be material weaknesses.

> A significant deficiency, is a deficiency or a combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as item 2010–3 to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the State of West Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

The State of West Virginia's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the State of West Virginia's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the management of the State of West Virginia, the State's cognizant agency, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Report on Compliance With Requirements That Could Have a Direct and Material Effect on Each Major Program and on Internal Control Over Compliance in Accordance With OMB Circular A–133

The Honorable Earl Ray Tomblin, Governor of the State of West Virginia

Compliance

We have audited the State of West Virginia's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that could have a direct and material effect on each of the State of West Virginia's major federal programs for the year ended June 30, 2010. The State of West Virginia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. We did not audit the State of West Virginia's compliance with the compliance requirements referred to above that are applicable to the Highway Planning and Construction Cluster, the Capitalization Grant for Clean Water State Revolving Fund, \$15.4 million in expenditures of the Capitalization Grants for Drinking Water State Revolving Fund, \$2.4 million in expenditures of the State Fiscal Stabilization Fund Cluster and \$9.8 million in expenditures of the Disaster Grants-Public Assistance (Presidentially Declared Disasters) major programs. These compliance requirements were audited by other auditors whose reports thereon have been furnished to us. Our opinion on compliance, insofar as it relates to compliance referred to above that are applicable to the aforementioned major federal programs, is based solely upon the reports of other auditors. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the State of West Virginia's management. Our responsibility is to express an opinion on the State of West Virginia's compliance based on our audit and the reports of other auditors.

The State of West Virginia's basic financial statements include the operations of the Housing Development Fund, the West Virginia University Research Corporation, Marshall University Research Corporation, Shepherd University Research Corporation and West Virginia State Research Corporation, which are not included in the Schedule of Expenditures of Federal Awards for the year ended June 30, 2010. Our audit, described below, did not include the operations of these discretely presented component units, because these entities engaged other auditors to perform an audit in accordance with OMB Circular A-133.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A–133, *Audits of States, Local Governments and Non-Profit Organizations*. Those standards and OMB Circular A–133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of

compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the State of West Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the State of West Virginia's compliance with those requirements.

As described in items 2010–11, 2010–12, 2010–15, 2010–17, 2010–20, 2010–34, 2010–36, 2010–42, 2010–48, 2010–49, 2010–51, 2010–54 and 2010–55 in the accompanying schedule of findings and questioned costs, the State of West Virginia did not comply with requirements regarding allowable costs/cost principles applicable to the Foster Care—Title IV–E program; cash management applicable to the Title I, Part A Cluster, Special Education Cluster (IDEA), Improving Teacher Quality State Grants and Disaster Grants – Public Assistance (Presidentially Declared Disasters) programs; eligibility applicable to the Foster Care—Title IV–E and Adoption Assistance program; reporting applicable to the Vocational Rehabilitation Cluster program; reporting applicable to the CDBG – State Administered Small Cities Program Cluster, Abandoned Mine Land Reclamation (AMLR) Program, WIA Cluster, Weatherization Assistance for Low-Income Persons, Low-Income Home Energy Assistance and Disaster Grants – Public Assistance for Low-Income Persons, Compliance with such requirements is necessary, in our opinion, for the State of West Virginia to comply with requirements applicable to these programs.

In our opinion, based on our audit and the reports of other auditors, except for the noncompliance described in the preceding paragraph, the State of West Virginia complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of it's major federal programs for the year ended June 30, 2010. The results of our auditing procedures also disclosed other instances of noncompliance with those requirements that are required to be reported in accordance with OMB Circular A–133 and which are described in the accompanying schedule of findings and questioned costs as items 2010–7 to 2010–10, 2010–13, 2010–18, 2010–19, 2010–21 to 2010–33, 2010–35, 2010–37 to 2010–40, 2010–45, 2010–46, 2010–50, 2010–52, and 2010–53.

Internal Control Over Compliance

The management of the State of West Virginia is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we and other auditors considered the State of West Virginia's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, and to test and report on internal control over compliance in accordance with OMB Circular A–133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the State of West Virginia's internal control over compliance. Our consideration of internal control did not include the aforementioned major federal programs, which were audited by other auditors, whose reports have been provided to us. Our report on internal control over compliance, insofar as it relates to the aforementioned major federal programs, is based solely on the reports of the other auditors.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses and other deficiencies that we consider to be significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of control deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2010–7, 2010–11 to 2010–15, 2010–17, 2010–19, 2010–20, 2010–34 to 2010–37, 2010–40, 2010–42, 2010–43, 2010–47 to 2010–49, 2010–51, 2010–54 and 2010–55 to be material weaknesses.

A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs, as items 2010–5, 2010–6, 2010–8 to 2010–10, 2010–16, 2010–18, 2010–21 to 2010–33, 2010–38, 2010–39, 2010–41, 2010–44 to 2010–46, 2010–50, 2010–52 and 2010–53 to be significant deficiencies.

The State of West Virginia's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the State of West Virginia's responses and, accordingly, we express no opinion on the responses.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the State of West Virginia, as of and for the year ended June 30, 2010, and have issued our report thereon dated February 28, 2011, which expressed reliance on other auditors. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the State's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for the purpose of additional analysis as required by OMB Circular A–133 and is not a required part of the basic financial statements. This schedule is the responsibility of the management of the State of West Virginia. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, based on our audit and the reports of other auditors, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of management of the State of West Virginia, the State's cognizant agency, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

NOTE 1. BASIS OF ACCOUNTING

The Schedule of Expenditures of Federal Awards (the Schedule) has been prepared on the cash basis of accounting except for the federal awards expended from the U.S. Department of Transportation, which are presented on the accrual basis. The federal awards are listed in the schedule under the federal agency supplying the award. The individual Catalog of Federal Domestic Assistance (CFDA) numbers are listed first, then clusters, then federal contract numbers, and then state assigned numbers. Federal contract numbers are used if the CFDA number is not available. Numbers were assigned to awards that had no identifying numbers as listed in Note 7.

The Schedule includes noncash items such as Food Stamps (CFDA number 10.551), State Administrative Expense for Child Nutrition (CFDA number 10.560), and Donation of Federal Surplus Personal Property (CFDA number 39.003). All items are valued based on amounts as established by the federal grantor agency. The Schedule also includes Federal Family Education Loans (CFDA number 84.032) and Federal Direct Student Loans (Direct Loan) (CFDA number 84.268) that are made directly to individual students.

NOTE 2. REPORTING ENTITY

The Schedule includes various departments, agencies, boards and commissions governed by the legislature, judiciary and/or constitutional officers of the State of West Virginia (the State). The reporting entity also includes the State's institutions of public higher education. Certain institutions of higher education within the State maintain separate research corporations. These corporations receive various federal awards for research and development and other programs. Each of the research corporations has a

NOTE 2. REPORTING ENTITY (Continued)

separate audit performed in accordance with OMB Circular A-133, and accordingly, a separate A-133 submission has been made (see Note 6).

The Schedule does not include federal funds received and expended by independent authorities and other organizations included in the reporting entity under the criteria of the Governmental Accounting Standards Board, as described in Note 1 to the State's basic financial statements published in the Comprehensive Annual Financial Report for the fiscal year ended June 30, 2010. The West Virginia Housing Development Fund is a discretely presented component unit which elects to have their own single audit; therefore, their expenditures of federal awards are excluded from the State's schedule of expenditures of federal awards. The component unit is required to submit their own single audit report to the federal audit clearinghouse.

The reported expenditures for benefits under the Supplemental Nutrition Assistance Program (SNAP) (CFDA number 10.551) are supported by both regularly appropriated funds and incremental funding made available under Section 101 of the American Recovery and Reinvestment Act of 2009. The portion of total expenditures for SNAP benefits that is supported by Recovery Act funds varies according to fluctuations in the cost of the Thrify Food Plan, and to changes in participating households' income, deductions, and assets. This condition prevents USDA from obtaining the regular and Recovery Act components of SNAP benefits expenditures through normal program reporting processes.

NOTE 2. REPORTING ENTITY (Continued)

As an alternative, USDA has computed a weighted average percentage to be applied to the national aggregate SNAP benefits provided to households in order to allocate an appropriate portion thereof to Recovery Act funds. This methodology generates valid results at the national aggregate level but not at the individual State level. Therefore, we cannot validly disaggregate the regular and Recovery Act components of our reported expenditures for SNAP benefits. At the national aggregate level, however, Recovery Act funds account for approximately 16.38% of USDA's total expenditures for SNAP benefits in the federal fiscal year ended September 30, 2010.

NOTE 3. INDIRECT/PASS-THROUGH FEDERAL FUNDS

The United States Office of Drug Control Policy provides funds to the Laurel County Fiscal Court of London, Kentucky. A portion of these funds are passed through from the Fiscal Court to the State.

The West Virginia Research Corporation passed funds to the West Virginia Department of Health and Human Services for CFDA Number 93.926, and the West Virginia School of Osteopathic Medicine for CFDA Numbers 93.824, and 93.969. Marshall University Research Corporation passed funds to Fairmont State University for CFDA Number 93.389.

NOTE 4. UNEMPLOYMENT INSURANCE PROGRAM (UI) (CFDA NUMBER 17.225)

The U.S. Department of Labor, in consultation with the Office of Management and Budget officials, has determined that for the purpose of audits and reporting under OMB Circular A-133,

NOTE 4. UNEMPLOYMENT INSURANCE PROGRAM (UI) (CFDA NUMBER 17.225) (Continued)

state UI funds as well as federal funds should be considered federal awards for determining Type A programs. The State receives federal funds for administrative purposes. State unemployment taxes must be deposited to a state account in the Federal Unemployment Trust Fund, used only to pay benefits under the federally approved state law. State UI funds as well as federal funds are included on the Schedule. The following schedule provides a breakdown of the state and federal portions of the total expended under CFDA number 17.225:

	Beginning Balanc July 1, 2009, <u>as Restated</u>	e <u>Receipts</u>	<u>Expenditures</u>	Ending Balance June 30, 2010
State UI Funds Federal UI Funds	(670,414) <u>1,169,594</u>	\$494,833,785 <u>296,598,024</u>	\$494,227,070 _296,101,216	\$ (63,699) <u>1,666,402</u>
Total	\$ 499,180	\$791,431,809	\$790,328,286	\$1,602,703

NOTE 5. PROGRAM CLUSTERS

The following tables detail program clusters referred to in the Schedule. As noted below, the Highway Planning and Construction, Student Financial Assistance, and Research and Development clusters have CFDA's involving awards from multiple federal agencies. The respective federal agency amount by CFDA for these clusters is disclosed in this note. For presentation purposes in the Schedule, these multiple federal agency clusters are presented at the end of the Schedule.

NOTE 6. COMPONENT UNITS

The following is a summary of federal awards at the various component units that had separate OMB Circular A-133 audits and submissions. These awards have been excluded from the State's Schedule.

West Virginia University Research Corporation	\$108,764,333
(Issued by Deloitte & Touche LLP dated October 12, 2010)	
Marshall University Research Corporation	\$ 32,446,102
(Issued by Deloitte & Touche LLP dated October 14, 2010)	
West Virginia State Research Corporation	\$ 8,356,455
(Issued by Deloitte & Touche LLP dated December 20, 2010)	
Shepherd University Research Corporation	\$ 1,138,815
(Issued by Deloitte & touche LLP dated October 25, 2010)	
West Virginia Housing Development Fund	\$ 62,832,045
(Issued by Gibbons & Kawash dated August 27, 2010)	

NOTE 7. MISCELLANEOUS PROGRAMS

The following numeric references indicate that no CFDA number was available for publication. These expenditure amounts consist of numerous small grants. The individual grant information is not readily available. Therefore, a reference WV plus sequenced numbering is assigned for identification purposes.

Reference <u>Number</u>	Program Name	State Agency	Federal Agency
WV-1	Purdue Pharma Settlement	Division of Criminal Justice and Division of Public Safety	Department of Justice
WV-2	Equitable Sharing Program	Division of Public Safety	Department of Justice
WV-3	Equitable Sharing Program-Treasury	Division of Public Safety	Department of the Treasury
WV-4	Miscellaneous Federal Award Programs	Department of Environmental Protection	Environmental Protection Agency
WV-5	Petroleum Violation Escrow Funds	Department of Energy and Higher Education	Department of Energy

FINDINGS, QUESTIONED COSTS, AND MANAGEMENT RESPONSES

Part I. Summary of Auditor's Results

Financial statements section:

Type of auditors' report issued (unqualified, qualified, adverse or disclaimer):	Unqualified, with reliance on other auditors	
Internal control over financial reporting:		
Material weakness(es) identified?	X Yes No None	
Significant deficiency(ies) identified?	X Yes Reported	
Noncompliance material to financial statements noted?	Yes X No	
Federal awards section:		
Internal control over major programs:		
Material weakness(es) identified?	X Yes No	
Significant deficiency(ies) identified?	None X Yes Reported	
Type of auditors' report issued on compliance for major programs (unqualified, qualified, adverse or disclaimer):	X Yes Reported Unqualified for all major programs except for the Foster Care— Title IV–E, Title I, Part A Cluster, Special Education Cluster, (IDEA). Improving Teacher Quality State Grants, \$9.8 million of the Disaster Grants – Public Assistance (Presidentially Declared Disasters). Adoption Assistance, TANF Cluster, Vocational Rehabilitation Cluster, Weatherization Assistance for Low-Income Persons, CDBG – State Administered Small Cities Program Cluster, Abandoned Mine	

Land Reclamation (AMLR) Program, WIA Cluster and Low-Income Home Energy Assistance programs, which were qualified.

Any audit findings disclosed that are required to be reported in accordance with Section .510(a) of OMB Circular A–133?

X Yes No

2010–1 TAX REVENUE IT CONTROLS AND RELATED RECEIVABLES (Prior Year Finding 2009–2)

State Agency

Department of Revenue (Revenue) and Financial Accounting and Reporting Section (FARS)

Criteria: Revenue and FARS are responsible for establishing and maintaining adequate controls over the recording and collection of tax revenues and related receivables, including its information systems and processes. They are also responsible for the estimation process to estimate tax refunds payable at year-end.

Condition: During 2010, Revenue completed the conversion of the remaining tax types to the GenTax system. During our procedures, we noted the following deficiencies:

- During our testing of 2010 revenues including taxes receivable as of June 30, 2010, we noted that Revenue has not established formal policies and procedures to reconcile cash receipts reported in GenTax to the West Virginia Financial Information Management System (WVFIMS).
- To estimate taxes receivable as of June 30, 2010, Revenue provided cash reports generated from GenTax to FARS. During our testing, one data capture error was noted, which resulted in an adjustment to decrease taxes receivable by \$1.1 million.
- During our tax refunds payable testing, we concluded that the estimated liability for corporate income taxes and consumer sales and use taxes was understated. Thus, several adjustments were proposed and overall tax refunds payable were increased by \$17 million at the general fund level.

Questioned Costs: N/A

Context: The total tax revenue for the year ended June 30, 2010, is approximately \$4.5 billion. Taxes receivable and tax refunds payable approximated \$416.8 million and \$226.5 million, respectively, at June 30, 2010.

Cause: Management indicated that the deficiencies noted above are due to the following reasons:

- Due to limited staffing at Revenue and the retirement of key personnel, management was unable to reconcile cash reports provided from GenTax to WVFIMS in a timely manner.
- The tax refund estimate is fairly complex due to the complexity of the State Code related to the various taxes.

2010–1 TAX REVENUE IT CONTROLS AND RELATED RECEIVABLES (Prior Year Finding 2009–2) (continued)

State Agency

Department of Revenue (Revenue) and Financial Accounting and Reporting Section (FARS)

- **Effect:** The conditions outlined above could cause tax revenue and the related receivables and refunds payable to not be properly recorded in the financial statements and provide the opportunity for errors and irregularities.
- **Recommendation:** We recommend that FARS and Revenue collaborate and finalize the tax receivable and refund reporting and estimation process. While developing historical trends, FARS and Revenue should consider the State Code and the implications on the refund estimation process. This will enable management to better estimate taxes receivable, the allowance for uncollectible taxes receivable and tax refunds as of the fiscal year-end so that the information for the financial statements can be provided to the FARS in a timely manner.

We also recommend a comprehensive review of the overall process for assessing, tracking, recording and collecting taxes throughout the various taxpayer phases. Such a comprehensive review should include items such as:

- A formal process should be developed for recording the receivables, estimating the related allowance for uncollectible accounts and writing off bad debts. In developing the methodology, consideration should be given to compiling reliable historical collection information to utilize in establishing appropriate reserve percentages by aging category and tax type.
- Management should enhance its preventive controls over the data capture process to significantly reduce the data input error rate.
- Management should establish formal policies and procedures to perform the reconciliation between GenTax and WVFIMS at least monthly in order to resolve unreconciled differences in a timely manner. When developing the reconciliation process, Revenue should consider segregation of duties, review and approval policies and procedures.

2010–1 TAX REVENUE IT CONTROLS AND RELATED RECEIVABLES (Prior Year Finding 2009–2) (continued)

State Agency

Department of Revenue (Revenue) and Financial Accounting and Reporting Section (FARS)

Views of Responsible Officials and Planned Corrective Actions:

The State Tax Department has worked continuously over the last four years to implement a new integrated tax system, called GenTax, and establish procedures that will allow the Tax Department to support the data needs of the Financial Accounting and Reporting Section. The Tax Department has conducted a review of all outstanding tax liabilities to ensure their accuracy. In addition, the Tax Department will continue to work with FARS to establish improved methodologies, formal policies and procedures for estimating uncollectible receivables, an allowance for doubtful accounts and the reporting process for tax receivables and refunds.

Following system conversion, the Tax Department can now generate historical trend data. In order to rely on this historical trend data, however, the Tax Department will need three years or more of historical data on which to rely. For taxes that were converted in 2007, we are essentially able to rely on the historical data for those tax types, including sales and use tax and withholding tax. It will require more time to develop this historical data for other tax types, including business franchise tax, corporate net income tax and personal income tax which became fully integrated in 2008. As this historical data becomes more complete, the Tax Department's ability to forecast and estimate receivables, allowances for uncollectible accounts, and bad debt write offs will increasingly improve.

Policies and procedures to reconcile cash receipts recorded in GenTax to the West Virginia Financial Information System (WFIMS) will be established so that a GenTax to WVFIMS reconciliation can be performed on a monthly basis.

The data capture error that was noted in the finding was corrected by the vendor programmer on April 12, 2010.

2010-2 CAPITAL ASSETS (Prior Year Finding 2009–3)

State Agency Various

Criteria: As stated in the Capital Asset Policies Manual, "Agencies are required to complete an annual Inventory Certification Cover Sheet and submit to the Purchasing Division by July 15 of every year." This control procedure is designed to ensure the existence of assets purchased and the accuracy of the State's capital assets that are reported in the Comprehensive Annual Financial Report (CAFR).

Also, the West Virginia Purchasing Division guidelines state, in part:

- "... any item which has an original acquisition cost of \$1,000 or more and useful life of one year or more is required to be entered into the West Virginia Financial Information Management System (WVFIMS) Fixed Asset System.
- All equipment over \$1,000 will have a numbered equipment identification tag ... tags are to be placed on all items of property/equipment in such a manner that it can easily be seen and read.
- All fields are required in WVFIMS as it applies to the equipment ... tag number, item description, serial number"Agencies are responsible for maintaining equipment from date of purchase to date of retirement, such as keeping equipment secure, entering assets into WVFIMS, conducting physical inventories, submitting annual certification, retiring assets properly, etc., all in accordance with policies and procedures.
- **Condition:** Based on our procedures, we noted the following instances of noncompliance with State equipment policies and procedures:
 - In our sample test of 25, 10 capital asset certification letters were not received in a timely manner and 2 certification letters were not received as of our testing date.
 - During our testing, we identified several construction-in-progress items that were completed and in use in current year, but were not reclassified to depreciable capital assets.
 - In our capital asset addition testing, we noted several significant capital asset additions recorded in 2010 that were prior year additions should have been recorded in 2009..
- Capital assets recorded in governmental activities of the primary government were **Context:** \$8.6 billion at June 30, 2010.
- Cause: Management indicated that capital asset guideline noncompliance was due to staffing limitations and lack of training and knowledge related to compliance requirements. Because of decentralization of the capital asset management process, any addition or deletion might not be reported in WVFIMS Fixed Asset System and ultimately not reported in CAFR timely.

2010–2 CAPITAL ASSETS (Prior Year Finding 2009–3) (continued)

State Agency Various

- **Effect:** The deficiencies noted in the controls over capital assets could result in capital assets not being completely recorded and correctly reported in the financial statements consistent with management's assertions. Additionally, deficient controls could result in increased risk of theft, especially for portable electronic items (i.e., computers, cameras).
- **Recommendation:** In order to safeguard assets from unauthorized use or disposition and enhance the reliability of the capital asset amounts reflected in the financial statements, we recommend that procedures be implemented to ensure that the capital assets policies and guidelines are adhered to by state agencies. Periodic training covering general procedures as well as focused training in deficient areas should be considered to enhance compliance. Further, consideration should be given to adding more controls to maintain accountability for items more susceptible to theft, like computer equipment.

Views of Responsible Officials and Planned Corrective Actions: Capital asset policies and procedures are included in GAAP training every spring. The Purchasing Division conducts two training seminars at the Purchasing Conference each year. An additional class has also been added to the agenda for the State Auditor's Office annual training. The Purchasing Division requires computers with an original cost of \$500 or more and all firearms, regardless of cost, be added to the fixed asset system, since these types of assets are more susceptible to theft. The Purchasing Division has implemented additional procedures to ensure that agencies are complying with asset certification regulations.

2010–3 ACCOUNTS PAYABLE CUTOFF (Prior Year Finding 2009–8)

State Agency Various

Criteria:	In accordance with accounting principles generally accepted in the United States of
	America, accounts payable reported in the financial statements should include all
	expenditures incurred and unpaid by the government as of the balance sheet date.

Condition: During our testing of cash disbursements subsequent to June 30, 2010, we noted items that were incurred, but not paid as of June 30, 2010, were not included in the accounts payable balances at year-end. In total, accounts payable was understated by \$6 million.

Questioned Costs: N/A

- **Context:** The total amount of accounts payable balances for the governmental activities of the primary government was \$228.1 million at June 30, 2010.
- Cause: When the invoices were paid, individual agencies did not report the proper goods/service received date in the West Virginia Financial Information Management System (WVFIMS). When the Financial Accounting and Reporting Section (FARS) extracted accounts payable data from WVFIMS based on the goods/service received date, a significant amount of accounts payable was not included in FARS' data.
- **Effect:** Several audit adjustments had to be made to include additional significant expenditures and associated liabilities incurred by the State as of June 30, 2010.
- **Recommendation:** Proper training should be provided to all agencies to emphasize the importance of the accuracy of information being entered in WVFIMS. In addition, management should establish proper procedures to ensure all significant expenditures that have been incurred but not paid as of the balance sheet date are recorded as a liability in accordance with accounting principles generally accepted in the United States.

Views of Responsible WVFIMS Administrative Policy Statement number 36 covers receipt of goods and other invoice detail required in WVFIMS. This policy and the related issues will again be specifically covered in the FARS year end training with agency personnel. A notice will continue to be added to the WVFIMS morning message board, periodically and especially at year end, reminding all users to adhere to Policy Statement 36. A new class is being conducted by FARS at the Auditor's Office training seminar, which will include this topic and its importance.

2010-4 COMMITMENTS AND CONTINGENCIES

State Agency Various

- **Criteria:** The Department of Administration, including the Financial Accounting and Reporting Section (FARS), is responsible for the preparation of the State's Comprehensive Annual Financial Report (CAFR) including reporting commitments and contingencies (both gains and losses) from the information provided by both audited and unaudited agencies. Process and control over the information gathering process should be suitably designed and effectively implemented to ensure all significant commitments and contingencies, including gains and losses, are completely captured and reasonably estimated.
- **Condition:** During our review of commitments and contingencies, we noted that all State agencies had not provided FARS timely, updated information so that FARS could identify, analyze, and record all commitments and contingencies, including gains and losses in the CAFR. Ultimately one significant contingent liability was not estimated and an audit adjustment to increase commitment and contingent liabilities by \$53.5 million was recorded. We also identified the settlement of a gain contingency that was recorded in the incorrect period.

Questioned Costs: N/A

- **Context:** The total amount of commitment and contingent liabilities for the governmental activities of the primary government was \$366.9 million at June 30, 2010.
- Cause: Policies and procedures are not being followed by all State agencies so that FARS can identify, analyze, and record all commitments and contingencies, including gains and losses in the CAFR.
- **Effect:** Several audit adjustments had to be made to include additional significant expenditures and associated liabilities incurred by the State as of June 30, 2010.
- **Recommendation:** Proper training should be provided to all State agencies to emphasize the importance of providing timely, updated information related to commitments and contingencies. FARS should continue to address the importance of properly completing the closing book forms and should also require agencies to timely inform FARS when any new updates or information becomes available. These communications should include both potential gain and loss contingencies.

Views of
ResponsibleFARS will continue to emphasize at closing process training the importance of reporting
timely and accurate information related to commitments and contingencies, including gains
and losses. FARS will also emphasize that as more current information becomes available
to agencies that this information must be shared with FARS as soon as it becomes available.
Additionally, to address gains FARS will run reports from WVFIMS for all unaudited
agencies and review cash receipts received after year end. FARS will record receipts that
are determined to be earned prior to June 30.

2010–5 SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS (Prior Year Finding 2009–11)

- **Criteria:** In accordance with OMB Circular A–133 Subpart C §_.300(b) the auditee shall: Maintain internal control over Federal programs that provides reasonable assurance that the auditee is managing Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its Federal programs.
- **Condition:** State Agencies that receive and spend ARRA funds are required to complete a Section 1512 report on a quarterly basis. There are certain programs that are exempt from this requirement as noted within the applicable guidance. During our testing of the March 31, 2010 Section 1512 reports for the major programs which were required to file a Section 1512 report, it was determined that the required information was completed and sent to the Governor's Office for batch submission. However, during our review of the Section 1512 reports for the respective major programs it was determined that there were not adequate internal controls in place at all agencies surrounding the preparation and review of the Section 1512 report for accuracy and completeness prior to submission to the Governor's Office. In addition, the Governor's Office has a reporting process in place which includes a listing of key dates as part of the submission process and the reviews that are completed as part of the process. While the process which is completed is documented, evidence for each of the levels of review is not maintained.

Due to the federal requirement to track and account for ARRA funds separately, the DHHR (for example) chose to obligate incremental ARRA funds to subrecipients separately from regular (non-ARRA) funds, and to utilize separate grant agreements for incremental ARRA awards versus regular (non-ARRA) awards. When awarding ARRA funds to a subrecipient, the DHHR utilizes an Addendum (formally titled Addendum - Federal Funding Accountability and Transparency Act / American Recovery and Reinvestment Act) within the grant agreement for identifying information and distinguishing the additional terms and conditions applicable to ARRA. Also within the subrecipient grant agreement for ARRA is a "Source of Funds Schedule" that identifies to each subrecipient, the Federal award number, CFDA number and amount of ARRA funds. When the subrecipient draws funding against a specific ARRA grant, the subrecipient is required to submit a signed invoice to the DHHR programmatic bureau as part of the request for funds. In addition to other identifying information on the invoice, the subrecipient inserts a control number that the DHHR previously assigned to the grant and related grant agreement (e.g. Gxxxxxx). The DHHR programmatic bureau reviews and submits the invoice with supporting documentation to the DHHR Division of Accounts Payable for further processing. The Division of Accounts Payable submits the invoice and supporting documentation (including the grant agreement for first payment) to the West Virginia State Auditor's Office for final processing and payment to the subrecipient in question.

Similar procedures are used at other agencies distributing ARRA funds.

The grant agreements and the invoices submitted by subrecipients are legally binding documents that are on file, not only at the subrecipient organization, but also at the State agency and the West Virginia State Auditor's Office.

The State will try to determine how to, if possible, include/identify the Federal award number, CFDA number, and amount of ARRA funds with each individual disbursement (bank check or electronic transfer) of funds.

2010–9 FNS REVIE (continued)			
Federal Program Information:		Federal Agency and Program Name U.S. Department of Agriculture Special Supplemental Nutrition Program for Women Infants and Children Grant Award WV700701	CFDA# 10.557
Questioned Cost:	Unknown		
Context:	Total federal expenditures for the Special Supplemental Nutrition Program for Women Infants and Children (WIC) program were \$38,191,914 for the year ended June 30, 2010. Total food expenditures for the Special Supplemental Nutrition Program for Women Infants and Children program were \$26,502,658 for the year ended June 30, 2010.		
Cause:	The WIC program has not established proper policies and procedures to manage vendor compliance.		
Effect:	The WIC program is not in compliance with compliance requirements related to vendor management.		
Recommendation:	The WIC program should implement the recommended corrective action indicated in the review by the U.S. Department of Agriculture.		
Views of Responsible Officials and Planned Corrective Actions:	States Depa and the US	program provided a response and related corrective action artment of Agriculture (USDA) for the findings noted on the DA determined via a letter dated October 13, 2010, that the nagement can now be considered closed.	he 2009 STAR review

2010–10 VENDOR INVESTIGATIONS

Federal Program Inf	formation:	Federal Agency and Program Name U.S. Department of Agriculture Special Supplemental Nutrition Program for Women, Infants and Children Grant Award WV700701	CFDA# 10.557
Criteria:	Federal Regulation 246.2 states that "a State agency operating a retail food delivery system must conduct compliance investigations, which consist of inventory audits and/or compliance buys, on a minimum of 5 percent of the vendors authorized as of October 1 of each year."		
Condition:	There were 365 authorized vendors for the WIC program as of October 1, 2009. The five percent minimum would require 18 vendors to receive compliance investigations; however only 17 vendor investigations were performed during the period of October 1, 2009 through September 30, 2010.		
Questioned Cost:	Unknown		
Context:	Total federal expenditures for the Special Supplemental Nutrition Program for Women Infants and Children program were \$38,191,914 for the year ended June 30, 2010. Total food expenditures for the Special Supplemental Nutrition Program for Women Infants and Children program were \$26,502,658 for the year ended June 30, 2010.		
Cause:	The WIC program has established proper policies and procedures to ensure that the correct amount of vendor compliance investigations are performed during the year, however it appears that these procedures have not been consistently followed.		
Effect:	The WIC program is not in compliance with federal requirements regarding vendor compliance investigations.		
Recommendation:	Management of the WIC program should review current policies and procedures surrounding vendor compliance investigations and take steps to ensure that they are consistently followed.		
Views of Responsible Officials and Planned Corrective Actions:	investigation the required Federal regu with an opp providing a	rogram has solicited bids for an outside contractor to cond as and related compliance buys, which will help ensure the d minimum percentage of investigations and thus com- alations. The hiring of an outside contractor will also prov- portunity to visit vendors with questionable practices re- greater ability to either close investigations or develop s- sanction assessments, terminations, etc. The opening date a	hat WV WIC exceeds nply with applicable ide the WIC Program nore frequently, thus stronger cases for the

-133 leted o the cally address their responsibility of providing a final copy of their single audit to the Federal Clearinghouse and to this office. We have also implemented a database to assist in tracking the status of the audits for the grantees/subrecipients that have been identified by the State Auditor - Chief Inspector Division as requiring a Single Audit. As a result of the FY 2010 audit, it has been brought to our attention that if the State Auditor's Office does not approve a request from the grantee/subrecipient for an extension to the nine month deadline to complete their single audit, it is our responsibility to enforce sanctions for noncompliance. From this day forward, we will ensure that grantees/subrecipients are sanctioned for noncompliance due to a late audit report. The system in place will enable us to determine in a timely manner, the existence of material noncompliance or internal control issues that may be identified in relation to the federal award. We will continue to work with the State Auditor's Office to expedite the receipt of completed audit reports.

The Fiscal and Administrative Management (FAM) Section has implemented an additional step in the review and approval process. The Assistant Director of FAM reviews the computer report ESK256DP1 and the ETA-191 Report to verify the expenditures are entered correctly, then signs the hard copy of the ETA-191 Report to be kept on file. However, the USDOL SUN System does not provide a certification process. The numbers are keyed and submitted without the option of another individual certifying that the numbers are correct. In addition, there are no controls built into the system to prevent the numbers from being changed. However, WorkForce West Virginia's position is that there is a low risk for fraudulent activity since no funds are being transferred or any personal advantage for changing the submitted numbers. With the additional step of the Assistant Director's review and signature, and the low risk involved, we feel the internal controls are sufficient for the ETA-191 Report.

In addition, WorkForce West Virginia is contacting the USDOL to request a separate certification within the Sun System so that one employee can enter the data and a supervisor can certify the reports.

2010–16 INFORMATION TECHNOLOGY SYSTEMS CONTROLS (Prior Year Finding 2009–21)

Federal Program In	formation:Federal Agency and Program NameCFDA#U.S. Department of Transportation, U.S. Appalachian Regional CommissionCFDA#Highway Planning and Construction Cluster Highway Planning and Construction20.205 20.219 20.219 23.003		
Criteria:	The management of the Department is responsible for establishing and maintaining effective internal controls over financial reporting. Additionally, a fundamental concept of internal control is adequate segregation of incompatible duties, the premise being that responsibilities for authorizing transactions, recording transactions, and maintaining custody of assets are assigned to different employees.		
Condition:	 The Department operates several information technology systems that affect the information that is reported in the Department's financial statements. During our review of the information technology systems, we noted: The process for system change management for the contract management system (PRS) is informal, and the key authorizations (initial system change request, testing of the change, and migration to production) are not documented. The process for system change management in the Department's primary accounting system (REMIS) lacks adequate segregation of duties. Specifically, two Information Services Managers have the ability to make changes in the development environment and migrate those changes to the production environment. Additionally, we noted that an independent review of the system change reports is not performed to determine if any unauthorized changes have occurred. The process to grant, modify, or revoke rights within PRS is not formally 		
Questioned Costs:	N/A		
Context:	All financial transactions of the Department are processed through these information technology systems.		
Cause:	The Department has not established or monitored the existing information technology systems policies and procedures over change management and certain system access controls.		
Effect:	Changes to the information technology systems programming can be placed in production without appropriate supervisory review and approval. Additionally, unauthorized access to these information technology systems may occur and go undetected.		

2010–16 INFORMATION TECHNOLOGY SYSTEMS CONTROLS (Prior Year Finding 2009–21) (continued)

Federal Program Inf	Federal Agency and Program Name U.S. Department of Transportation, U.S. Appalachian Regional Commission Highway Planning and Construction Cluster	CFDA#
	Highway Planning and Construction	20.205
	Recreational Trails Program	20.219
	Appalachian Development Highway System	23.003
Recommendation:	The Department should implement procedures to:	
	• Document the change management process for PRS. This docu include the change requested, individual making the request, a supervisory review and approval, which must occur prior to the migrated to production.	nd appropriate
	• Segregate the incompatible duties over change management to implement a process for independent review of system change unauthorized changes.	
	• Document the process for changing existing user rights within documentation should include the change requested, individua and appropriate supervisory review and approval of the change	l making the request,
Views of Responsible Officials and Planned Corrective Actions:	Information Services has developed a program to document and track PRS and all other programs which may be applicable. The Informat agrees that management should be periodically reviewing the change limited programming staff available, there is not sufficient time ff programmers to review the changes in a comprehensive detailed mar the additional programmers be employed, more compliance with the expected. The process to add or delete a user to the SQL tables has be the rules for adding and deleting to the PRS domain user group. Recommendation:		should ensure that the Weatherization program creates locate indirect costs on a consistent basis in accordar	

2010–18 INDIRECT COST ALLOCATION (Prior Year Finding 2009–24) (continued)

Federal Program Information:	Federal Agency and Program Name	CFDA#
	U.S. Department of Energy	
	Weatherization Assistance for Low-Income Persons	81.042
	Grant Award 2009 Regular DE-EE0000085	
	Grant Award 2009 ARRA DE-EE0000101	

Views of GOEO has not traditionally distinguished between direct costs that must be paid from the allowable administrative portion of a grant and the indirect costs that must be paid from the same source. This has required some staff training on the difference between direct and indirect costs. GOEO is in the process of implementing a comprehensive cost allocation plan. The position of chief financial officer for the agency has been approved by the Governor's Office, and GOEO hopes to fill the position soon. Once FY 2011 accounts are closed, GOEO anticipates submitting an indirect cost rate proposal to the cost allocation division of the U.S. Department of Health and Human Services.

2010–19 FINANCIAL REPORTING (Prior Year Finding 2009–27)

Federal Program Inf	formation:	Federal Agency and Program Name	CFDA#
		U.S. Department of Energy Weatherization Assistance for Low-Income Persons Grant Award 2008 DE-FG26-04R340653 Grant Award 2009 DE-EE0000085 Grant Award 2009 ARRA DE-EE0000101	81.042
Criteria:	The Weatherization program is required to file the <i>Federal Financial Report (SF-425)</i> . Recipients use the FFR as a standardized format to report the financial status of their Federal awards, as well as, when applicable, cash status (Lines 10.a, 10.b, and 10c).		
Condition:	We tested a sample of two out of a population of four reports for SF-425 reports as part of our major program audit procedures. As such, we noted that one of the SF-425 reports was not submitted by the required due date. Additionally, we noted that for both of the SF-425 reports there was no indication of review and approval noted on the reports prior to submission.		
Questioned Costs:	N/A		
Context:	The SF-425 report for the period from October 1 to December 31, 2009, was not submitted until July 27, 2010, thus not within the thirty days after reporting period end date. Also, for both the SF-425 report for the period from October 1 to December 31, 2009, as well as for the SF-425 report for the period from April 1 to June 30, 2010, there was no indication of review and approval documented prior to submission of these reports.		
Cause:	through Ma include up to Virginia's f grant increa online report system, wo GOEO from their comm reports cou	ment of Energy grant period for the Weatherization g arch 31. However, the GOEO obtained approval to ex- through June 30 in order to align the federal grant awar fiscal year. Additionally, an approved carryover amount ased the current year grant. As a result of the various rting system developed a condition that, based upon gra- buld reject any report which did not meet the criteria in submitting the quarterly report in a timely manner. 2010–20 SUBRECIPIENT MONITORING (Prior Year Findings 2009–28 and 2009–49)

Federal Program Information:	Federal Agency and Program Name U.S. Department of Energy	CFDA#
	Weatherization Assistance for Low-Income Persons Grant Award 2009 Regular DE-EE0000085 Grant Award 2009 ARRA DE-EE00001013 U.S. Department of Health and Human Services	81.042
	Low-Income Home Energy Assistance Grant Award G-07B1WVLIEA	93.568

Criteria: Each state department and agency that receives and disburses federal awards is required by OMB Circular A–133 Sec .300(b) to "maintain internal control over Federal programs that provides reasonable assurance that the auditee is managing Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its Federal programs."

OMB Circular No. A–133, Subpart D §400 requires a pass-through entity to "monitor the activities of subrecipients as necessary to ensure that federal awards are used for authorized purposes in compliance with laws, regulations, and the provisions of contracts or grant agreements and that performance goals are achieved." Pass-through entities are required to develop monitoring procedures including programmatic and financial monitoring to ensure subrecipients have used federal funds for authorized purposes.

OMB Circular A–133 Subpart D §400 requires that a pass-through entity "ensure that subrecipients expending \$500,000 or more in Federal awards during the subrecipient's fiscal year have met the audit requirements of this part for that fiscal year." Subrecipients must have required audits completed within nine months of their fiscal year end, and must provide copies of their audit reports to the primary recipient. Subpart D §400 also requires that a pass-through entity "issue a management decision on audit findings within six months after receipt of the subrecipient's audit report and ensure that the subrecipient takes appropriate and timely corrective action."

- **Condition:** Although the GOEO has developed monitoring procedures for Weatherization subrecipients, we noted the following:
 - Per review of the financial monitoring log, there was one (1) subrecipient who did not submit their A–133 Audit within the nine-month timeframe without obtaining an approved extension;
 - We noted one subrecipient within the financial monitoring log testing where the documentation reviewed by Program personnel was not completed in a timely manner.
 - We noted one subrecipient within the financial monitoring log testing where a management letter was mentioned in Report on Compliance and IC over Financial Reporting, however, the letter was not provided for review.
 - We noted one subrecipient within the financial monitoring log testing where no checklist for financial review was provided, however we reviewed notes made by GOEO personnel on the face of the financial statements.

2010–20 SUBRECIPIENT MONITORING (Prior Year Findings 2009–28 and 2009–49) (continued)

	Communication between the subrecipient agency and the GOEO extended due date for submission of the agency's audited fit documented, however, the audit report(s) were not submitted by the	inancial statements was	

2010-20 SUBRECIPIENT MONITORING (Prior Year Findings 2009–28 and 2009–49) (continued) Federal Program Information: **Federal Agency and Program Name** CFDA# U.S. Department of Energy Weatherization Assistance for Low-Income Persons 81.042 Grant Award 2009 Regular DE-EE0000085 Grant Award 2009 ARRA DE-EE00001013 U.S. Department of Health and Human Services Low-Income Home Energy Assistance 93.568 Grant Award G-07B1WVLIEA **Effect:** The inability of the GOEO to obtain the required audit(s) from the subrecipient agencies could result in the GOEO being unable to determine, in a timely manner, the existence of material noncompliance or control deficiencies with subrecipients that may be identified through the monitoring process. Also, the inability of the GOEO to maintain the review documentation related to audit finding(s) and subsequent followup with subrecipients results in noncompliance with applicable requirements. **Recommendation:** The GOEO should take the necessary steps to obtain the required audits. The GOEO should continue to follow up with subrecipients subject to OMB Circular A-133 requirements to ensure that required audits are completed in a timely manner, submitted to the Federal Clearinghouse, and that all identified audit findings are resolved in a timely manner. Views of GOEO is in the process of reviewing and, as necessary, reworking subgrantee monitoring Responsible policies and procedures to create a comprehensive and integrated monitoring plan that can Officials and be adjusted to the federal requirements of all GOEO funded programs. Documentation of **Planned Corrective** processes has improved in FY 2011, but continued staff turnover in FY 2010 and 2011 has slowed GOEO efforts to fully implement plans. Actions: GOEO has formed several work groups consisting of Program and Financial personnel to develop and streamline processes. GOEO is implementing new processes to insure that all documents related to subgrantees are maintained in one place and are tracked and logged. A uniform, central filing system for all grants will be implemented next month when the office moves. That system will then be mirrored on the agency's shared drive on the server. New monitoring policies and procedures are being implemented for tracking all areas of monitoring. The policy addresses each monitoring step in detail and explains the monitoring reports as well as the tools utilized during a monitoring. A new process for A-133 Audit review will include training both program and financial staff on all aspects of subrecipient A 133 Single Audits, and development of GOEO-related responsibilities, protocols and procedures. This effort has produced a GOEO monitoring tool for A-133 Audit Review, and an expanded tracking tool, Annual Audits Chart PY 20XX due in 20XX, including Summary Schedule of Annual Audits due to GOEO each year and GOEO Notification and Management Decision.

2010–21 SPECIAL TESTS AND PROVISIONS – LOAN REPAYMENTS AND STUDENT DEFERMENTS (Prior Year Finding 2009–35)

Federal Program Information:	Federal Agency and Program Name U.S. Department of Education Office of Student Financial Assistance Office of Post Secondary Education U.S. Department of Health and Human Services Health Resources and Services Administration Student Financial Assistance Cluster	CFDA# 84.007/84.032/ 84.033/84.038/ 84.063/84.268/ 84.375/84.376/ 84.379/93.342/ 93.364/93.925
------------------------------	--	--

Criteria: In accordance with 34 CFR 674.42 (b)(1), "The institution must conduct exit counseling with borrowers either in person, by audiovisual presentation, or by interactive electronic means. The institution must ensure that exit counseling is conducted shortly before the borrower ceases at least half-time study at the institution. If a borrower withdraws from the institution without the institution's prior knowledge or fails to complete an exit counseling session as required, the institution must ensure that exit counseling is provided through either interactive electronic means or by mailing counseling materials to the borrower at the borrower's last known address within 30 days after learning that the borrower has withdrawn from the institution or failed to complete exit counseling as required."

Condition: During our testing of student loan files for Bluefield State College, we noted the following:

• For one student tested, out of a sample of three, who entered into repayment and left prior to an exit interview being conducted, there was no evidence that management had prepared and mailed the interview package to the student.

Questioned Costs:	N/A
Context:	Total federal expenditures for Bluefield State College were \$13,984,075 for the year ended June 30, 2010.
Cause:	Management failed to prepare and mail the exit interview package within the required time frame to demonstrate compliance with the federal regulations.
Effect:	The lack of timely mailing for the student's exit interview is a noncompliance issue with 34 CFR Section 674.42.
Recommendation:	The institution should implement policies and procedures to ensure that exit interview packages are mailed to all students that leave prior to an exit interview being conducted

within the required 30-day time frame.

2010–21 SPECIAL TESTS AND PROVISIONS – LOAN REPAYMENTS AND STUDENT DEFERMENTS (Prior Year Finding 2009–35) (continued)

Federal Program Information:	Federal Agency and Program Name U.S. Department of Education Office of Student Financial Assistance Office of Post Secondary Education U.S. Department of Health and Human Services Health Resources and Services Administration Student Financial Assistance Cluster	CFDA# 84.007/84.032/ 84.033/84.038/ 84.063/84.268/ 84.375/84.376/ 84.379/93.342/ 93.364/93.925

Views of Responsible Officials and Planned Corrective Actions: Effective October 1, 2009, Bluefield State College has changed its procedures to identify students needing exit interview based on the reports to the National Student Loan Clearinghouse. The new procedure will include an entry on the "RUAMAIL" screen in Banner which will indicate when the exit interview was processed. In 2008–2009 award year, the Financial Aid Office changed the exit interview form to include the date mailed for subsequent students.

2010-22 SPECIAL TESTS AND PROVISIONS - FEDERAL WORK STUDY

Federal Program Information:	Federal Agency and Program Name U.S. Department of Education Office of Student Financial Assistance Office of Post Secondary Education U.S. Department of Health and Human Services Health Resources and Services Administration	CFDA#

Planned CorrectiveThe University had on file an agreement between Marshall University and the off-campus
organization; however, the agreement had expired. This error was corrected by executing an
agreement after the fact.Actions:To prevent this from occurring again, University procedures have been changed.
Previously, the Offices of Career Services and the College of Education had responsibility
to execute written agreements with off-campus organizations that employed Federal Work-
study students in community service positions. The responsibility has now shifted to the
Office of Student Financial Assistance. And, in addition, procedures have been
strengthened so that the processing of community service, which will ensure a review of the

agreement on file before approving the student to work.

2010-23 SPECIAL TESTS AND PROVISIONS - VERIFICATION

Federal Program Information:	Federal Agency and Program Name U.S. Department of Education Office of Student Financial Assistance Office of Post Secondary Education U.S. Department of Health and Human Services Health Resources and Services Administration Student Financial Assistance Cluster	CFDA# 84.007/84.032/ 84.033/84.038/ 84.063/84.268/ 84.375/84.376/ 84.379/93.342/ 93.364/93.925
------------------------------	--	--

- **Criteria:** In accordance with 34 CFR Section 668.57, acceptable documentation for verification is stated as "An institution shall require an applicant selected for verification to verify AGI and U.S. income tax paid by submitting to it, if relevant (i) A copy of the income tax return of the applicant, his or her spouse, and his or her parents. The copy of the return must be signed by the filer of the return or by one of the filers of a joint return; (ii) For a dependent student, a copy of each Internal Revenue Service (IRS) Form W–2 received by the parent whose income is being taken into account if (A) The parents filed a joint return; and (B) The parents are divorced or separated or one of the parents has died; and (iii) For an independent student, a copy of each IRS Form W–2 he or she received if the independent student (A) Filed a joint return; and (B) Is a widow or widower, or is divorced or separated. (2) If an individual who filed a U.S. tax return and who is required by paragraph (a)(1) of this section to provide a copy of his or her tax return does not have a copy of that return, the institution may require that individual to submit, in lieu of a copy of the tax return, a copy of an IRS form which lists tax account information."
- **Condition:** For 1 of the 25 students selected for verification during the 2009–2010 school year, the documentation that was obtained from the student and reviewed for verification included tax returns that were not properly signed or did not indicate that they had been submitted electronically.
- **Questioned Costs:** N/A
- **Context:** We tested a total of 25 students out of 3,311 total students who had been selected for verification by the Marshall University during the year ended June 30, 2010.
- **Cause:** Management indicated that the Financial Aid Office verifies the tax return is supplied by the student but sometimes fails to verify that the tax return has been signed by the student and/or parent.
- **Effect:** The lack of acceptable documentation for student verification is a noncompliance issue with 34 CFR Section 668.57.

2010–23 SPECIAL TESTS AND PROVISIONS – VERIFICATION (continued)

Federal Program Information:	Federal Agency and Program Name U.S. Department of Education Office of Student Financial Assistance Office of Post Secondary Education U.S. Department of Health and Human Services Health Resources and Services Administration Student Financial Assistance Cluster	CFDA# 84.007/84.032/ 84.033/84.038/ 84.063/84.268/ 84.375/84.376/ 84.379/93.342/ 93.364/93.925
		95.504/95.925

Recommendation: The institution should implement policies and procedures to ensure that the acceptable documentation is obtained from students during the verification process.

Views of
ResponsibleThe Marshall University Office of Student Financial Assistance (SFA) routinely checks that
any required signatures, such as signatures on verification worksheets or on copies of tax
returns are collected at the time of verification. However, in the instance cited above, the
Office of SFA failed to notice that the signature on the parent's federal income tax return
was not that of the preparer, but rather the student's. This was an isolated case in which the
Office of SFA overlooked the fact that the signature wasn't that of the preparers (although
the last name was the same).

When this oversight was brought to the attention of SFA, the Office of SFA resolved the issue immediately by collecting a "properly" signed federal income tax return. There was no change to the previously verified data elements of the student's processed FAFSA; thus, there was not a change in the student's eligibility for financial aid.

To avoid this verification error in the future, the Office of SFA strengthened its verification procedures by adding two additional steps on the Office Verification Form. The steps require a review and check off box, ensuring that the student and parents' tax returns and other verification have required signatures and that they are valid.

2010-24 EARMARKING

Federal Program Information:	Federal Agency and Program Name U.S. Department of Education Office of Student Financial Assistance Office of Post Secondary Education U.S. Department of Health and Human Services Health Resources and Services Administration	CFDA#
	Student Financial Assistance Cluster	84.007/84.032/ 84.033/84.038/ 84.063/84.268/ 84.375/84.376/ 84.379/93.342/ 93.364/93.925

In accordance with 34 CFR 675.18, "(1) For the 2000-2001 award year and subsequent **Criteria:** award years, an institution must use at least seven percent of the sum of its initial and supplemental FWS allocations for an award year to compensate students employed in community service activities. In meeting this community service requirement, an institution must include at least one-(i) Reading tutoring project that employs one or more FWS students as reading tutors for children who are preschool age or are in elementary school; or (ii) Family literacy project that employs one or more FWS students in family literacy activities. (2) The Secretary may waive the requirements in paragraph (g)(1) of this section if the Secretary determines that an institution has demonstrated that enforcing the requirements in paragraph (g)(1) of this section would cause a hardship for students at the institution. (3) To the extent practicable, in providing reading tutors for children under paragraph (g)(1)(i), an institution must— (i) Give priority to the employment of students to tutor in reading in schools that are participating in a reading reform project that— (A) Is designed to train teachers how to teach reading on the basis of scientifically-based research on reading; and (B) Is funded under the Elementary and Secondary Education Act of 1965; and (ii) Ensure that any student who is employed in a school participating in a reading reform project described in paragraph (g)(3)(i) of this section receives training from the employing school in the instructional practices used by the school. (4)(i) In meeting the seven percent community service expenditure requirement in paragraph (g)(1) of this section, students may be employed to perform civic education and participation activities in projects that— (A) Teach civics in schools; (B) Raise awareness of government functions or resources; or (C) Increase civic participation. (ii) To the extent practicable, in providing civic education and participation activities under paragraph (g)(4)(i) of this section, an institution must— (A) Give priority to the employment of students in projects that educate or train the public about evacuation, emergency response, and injury prevention strategies relating to natural disasters, acts of terrorism, and other emergency situations; and (B) Ensure that the students receive appropriate training to carry out the educational services required.

Federal Program Information:	Federal Agency and Program Name U.S. Department of Education Office of Student Financial Assistance Office of Post Secondary Education U.S. Department of Health and Human Services Health Resources and Services Administration Student Financial Assistance Cluster	CFDA# 84.007/84.032/ 84.033/84.038/ 84.063/84.268/ 84.375/84.376/ 84.379/93.342/ 93.364/93.925

Views of
Responsible
Officials and
Planned Corrective
Actions:Mountwest Community and Technical College did not receive full control of the shared
database from Marshall University until July 2009. Previously Marshall University
administered all Title IV aid programs at Mountwest Community and Technical College,
including the Federal Work Study program. As such, the Federal Work Study Program was
not fully implemented until November 2009. Due to the late start with the database set up,
Mountwest Community and Technical College was unable to fully expend the Federal
Capital Contribution for the Work Study program nor were we able to expend the required
7% of the Federal Capital Contribution in community service positions in 2009–2010.The Federal Work Study Program for 2010-2011 at Mountwest Community and Technical
college is being monitored on a bi-monthly basis for total expenditures and the earmark for
the 2010 program is provided as a provid

the 7% community service is being monitored as well. As of December 30, 2010, we have expended \$46,995.26 in both federal and institutional share. The FCC expended through December 30, 2010, is 35,246.25. The amount of the federal share expended as community service is \$3,655.50 well above the required 7%.

Conclusion: Management noted in their planned corrective actions that the Federal Work Study Program for 2010–2011 is being monitored on a bi-monthly basis. This time period is outside of audit period and therefore we have not audited this bi-monthly process.

2010–25 SPECIAL TESTS AND PROVISIONS – BORROWER DATA TRANSMISSION AND RECONCILIATION

Federal Program Information:	Federal Agency and Program Name U.S. Department of Education Office of Student Financial Assistance Office of Post Secondary Education U.S. Department of Health and Human Services Health Resources and Services Administration	CFDA#
	Student Financial Assistance Cluster	84.007/84.032/ 84.033/84.038/ 84.063/84.268/ 84.375/84.376/ 84.379/93.342/ 93.364/93.925

- Criteria: Institutions must report all loan disbursements and submit required records to the Direct Loan Servicing System (DLSS) via the Common Origination and Disbursement (COD) within 30 days of disbursement (OMB No. 1845-0021). Each month, the COD provides institutions with a School Account Statement (SAS) data file which consists of a Cash Summary, Cash Detail, and (optional at the request of the school) Loan Detail records. The school is required to reconcile these files to the institution's financial records. Since up to three Direct Loan program years may be open at any given time, schools may receive three SAS data files each month (34 CFR Sections 685.102(b), 685.301, and 303).
- **Condition:** During our testing of Direct Loan School Account Statement (DLSAS) reconciliations for Mountwest Community and Technical College, we noted the following:
 - No reconciliations were performed monthly during FY 2010.

Questioned Costs: N/A

Context: Total Direct Loan expenditures were \$8,147,271 for the year ended June 30, 2010.

Cause: Written procedures detailing the process to reconcile loans from COD to BANNER exist, as provided in narrative form during the audit. However, these procedures were not followed.

Effect: As a result of the aforementioned issues noted with the Borrower Data Transmission and Reconciliation procedure, we could not determine if all of the monthly required reconciliations necessary for proper loan disbursement reporting were completed. The absence of the reconciliations could result in the institutions' financial records for Direct Loan expenditures to be improperly stated.

2010–25 SPECIAL TESTS AND PROVISIONS – BORROWER DATA TRANSMISSION AND RECONCILIATION

(continued)

Federal Program Information:	Federal Agency and Program Name U.S. Department of Education Office of Student Financial Assistance Office of Post Secondary Education U.S. Department of Health and Human Services Health Resources and Services Administration Student Financial Assistance Cluster	CFDA# 84.007/84.032/ 84.033/84.038/ 84.063/84.268/ 84.375/84.376/ 84.379/93.342/ 93.364/93.925

Recommendation: Mountwest Community and Technical College should ensure that monthly reconciliations are performed and saved in electronic format, including documentation of supervisor review and approval, to a location on the server and labeled with the respective month's information for subsequent retrieval upon request. Proper records maintenance is necessary to adhere to program compliance requirements relative to Student Financial Assistance.

Views of
ResponsibleMountwest Community and Technical College assumed control of a shared database in July
2009 from Marshall University. The Title IV aid programs had previously been
administered by Marshall University. Due to some staff changes in the Financial Aid Office
at Mountwest Community and Technical College during the 2009–2010 aid year, the
DLSAS reports, which would include supervisor review and approval, were not stored in an
accessible location to all relevant staff.

Mountwest Community and Technical College is performing monthly reconciliations for Direct Loans disbursed in 2010–2011 using the DLSAS reports provided by the U.S. Department of Education. The reports are also being saved in electronic format, including documentation of supervisor review and approval, to a secure server which is accessible both locally and remotely and labeled with the respective month's information for subsequent retrieval upon request.

2010-26 SPECIAL TESTS AND PROVISIONS - WRITTEN ARRANGEMENTS

Federal Program Information:	Federal Agency and Program Name U.S. Department of Education Office of Student Financial Assistance Office of Post Secondary Education U.S. Department of Health and Human Services Health Resources and Services Administration Student Financial Assistance Cluster	CFDA# 84.007/84.032/ 84.033/84.038/ 84.063/84.268/ 84.375/84.376/ 84.379/93.342/ 93.364/93.925

- **Criteria:** In accordance with 34 CFR Section 668.5(a), a written arrangement is needed to satisfy the Department of Education requirements, "Written arrangements between eligible institutions. If an eligible institution enters into a written arrangement with another eligible institution, or with a consortium of eligible institutions, under which the other eligible institution or consortium provides all or part of the educational program of students enrolled in the former institution, the Secretary considers that educational program to be an eligible program if it otherwise satisfies the requirements of 668.8".
- **Condition:** For one of the five students tested to determine if the West Virginia State University has entered into an agreement for its students to complete part of their educational program at another institution, consortium, or organization. During the 2009–2010 school year the section of the consortium that was to be completed by the host school was not completed or signed.
- **Questioned Costs:** N/A
- **Context:** We tested a total of 5 students out of 43 total students who were taking classes at other institutions as transient students during the year ended June 30, 2010.
- **Cause:** Management indicated that the Financial Aid Office may not always complete the required paper work if they have dealt with that institution in the past in order to expedite the process.
- **Effect:** The lack of acceptable documentation for maintaining written arrangements with another institution, consortium, or organization is a noncompliance issue with 34 CFR Section 668.5(a).
- **Recommendation:** The institution should implement policies and procedures to ensure that the acceptable documentation is obtained from the host institution.

2010–26 SPECIAL TESTS AND PROVISIONS – WRITTEN ARRANGEMENTS (continued)

2010-27 PRIMARY CARE LOANS

Federal Program Information:	Federal Agency and Program Name U.S. Department of Education Office of Student Financial Assistance Office of Post Secondary Education U.S. Department of Health and Human Services Health Resources and Services Administration	CFDA#
	Student Financial Assistance Cluster	84.007/84.032/ 84.033/84.038/ 84.063/84.268/ 84.375/84.376/ 84.379/93.342/ 93.364/93.925

Criteria: In accordance with Section 723(b) of the Public Health Service Act, schools of medicine and osteopathic medicine participating in the Primary Care Loan program are required to meet annually at least one of the following conditions with respect to graduates of the school whose date of graduation from the school occurred approximately four years before the end of the one-year period:

- Not less than 50 percent of the school's designated graduates meet the criterion of either being in a primary health care residency training program, or being engaged in the practice of primary health care;
- Not less than 25 percent of the school's designated graduates meet the above criterion, and this percentage is not less than 5 percentage points above the percentage of such graduates meeting such criterion for the preceding one-year period;
- The school is in the top 25th percentile of participating HPSL schools relative to the proportion of designated graduates who meet the above criterion.
- **Condition:** Based on data submitted on the June 30, 2009 Annual Operating Report, WVSOM Primary Care program has not met any of the above criteria and must return 30 percent of the income received for the period ending June 30, 2009.

 Questioned Costs:
 \$10,601

 Context:
 Total Primary Care Loan income for West Virginia School of Osteopathic Medicine was \$35,338 for the year ended June 30, 2009.

Cause: Policies and procedures related to the administration of Primary Care Loans were not in place.

Effect: West Virginia School of Osteopathic Medicine has failed to maintain compliance with the Primary Care Loan program requirements, which resulted in the refund of 30 percent of the income received from the program for the period ending June 30, 2009.

2010–27 PRIMARY CARE LOANS (continued)

2010-28 FISCAL OPERATIONS REPORT AND APPLICATION TO PARTICIPATE

Federal Program Information:	Federal Agency and Program Name U.S. Department of Education Office of Student Financial Assistance Office of Post Secondary Education U.S. Department of Health and Human Services Health Resources and Services Administration Student Financial Assistance Cluster	CFDA# 84.007/84.032/
		84.033/84.038/ 84.063/84.268/ 84.375/84.376/ 84.379/93.342/ 93.364/93.925

Criteria: ED Form 646-1, *Fiscal Operations Report and Application to Participate* (FISAP) (OMB No. 1845-0030) – This electronic report is submitted annually to receive funds for the campus-based programs. The College uses the *Fiscal Operations Report* portion to report its expenditures in the previous award year and the *Application to Participate* portion to apply for the following year. FISAPs are required to be submitted by October 1 following the end of the award year (which is always June 30). For example, by October 1, 2010, the institution should submit its FISAP that includes the *Fiscal Operations Report* for the award year ended June 30, 2010, and the *Application to Participate* for the 2011–2012 award year (FPL, FWS, FSEOG 34 CFR Section 673.3; *Instruction Booklet for Fiscal Operations Report and Application to Participate*).

As noted on page V of the instructions for the Fiscal Operations Report for 2009–2010 and the Application to Participate for 2011-2012, all corrections to FISAP data and correction of edit errors must be submitted to the U.S. Department of Education (the Department) by December 15, 2010. If there is a need to make a correction after December 15, 2010, the College must access the eCB website and make the necessary correction. This data will be saved in a Working Copy of the FISAP. The College then must justify the need to make the correction on the Additional Information page in the system. However the College will not be able to submit the correction at this stage in the process. The request must be reviewed by the Department, and the College will be notified if the correction is allowed.

Condition: The following amounts reported on the June 30, 2010 FISAP for Concord University required revision and did not reconcile to supporting documentation:

- Total number of students, 2009-2010 under Part II, Section D, *Information on Enrollment*
- The number of applicants within various taxable and untaxed income categories reported under Part II, Section F, *Information on Eligible Aid Applicants Enrolled in Your School for Award Year 2009-2010*

2010-32 SHORT TERM PROGRAMS AT POST-SECONDARY VOCATIONAL INSTITUTION

Federal Program Information:	Federal Agency and Program Name U.S. Department of Education Office of Student Financial Assistance Office of Post Secondary Education U.S. Department of Health and Human Services Health Resources and Services Administration Student Financial Assistance Cluster	CFDA# 84.007/84.032/
	Student i manena Assistance cluster	84.033/84.038/ 84.063/84.268/ 84.375/84.376/ 84.379/93.342/ 93.364/93.925

- **Criteria:** In accordance with 34 CFR 668.8, "For FFEL and Direct Loan Programs, short-term eligible programs at a postsecondary vocational institution (as defined at 34 CFR Section 600.6(a)) must be between 300 599 clock hours. They must have been provided for at least one year and must have a substantiated completion and placement rate of at least 70 percent for the most recently completed award year (34 CFR Sections 668.8(d)(2)(ii), 668.8(d)(3)(ii), and 668.8(e)). Completion and placement rates must be calculated in accordance with 34 CFR Sections 668.8(f) and (g). An institution must have documentation supporting its placement rates for each student showing that the student obtained gainful employment in the recognized occupation for which he or she was trained or in a related comparable recognized occupation. Examples of satisfactory documentation of a student's gainful employment include, but are not limited to: (1) a written statement from the student's employer; (2) signed copies of State or Federal income tax forms; or (3) written evidence of payments of Social Security taxes (34 CFR Section 668.8(g)(2)).
- **Condition:** During our testing of Short Term Programs at PSVI for Pierpont Community and Technical College, we noted the following:
 - The institution did not provide the completion and placement rate calculations
 - The institution did not provide documentation of placement for the sample of 3 students selected for testing purposes out of a total population of 48 students who received Direct Loans while completing a short-term eligible program

Questioned Costs: N/A

- **Context:** Total Student Financial Assistance federal expenditures for Pierpont Community and Technical College were \$16,670,032 for the year ended June 30, 2010. Total Direct Loan expenditures were \$10,495,257 for the year ended June 30, 2010. Total federal expenditures of Direct Loans for students enrolled in short-term programs were \$163,820 for the year ended June 30, 2010.
- **Cause:** Management was under the impression that the only CFR which needed to be followed relating to the Short Term Programs at PSVI was 34 CFR Part 600 Gainful Employment which had an effective date of July 1, 2011. Therefore, institution personnel did not retain information to substantiate completion and placement rates, nor did they retain documentation supporting the placement of students in an occupation for which they were trained during the award year.

2010–32 SHORT TERM PROGRAMS AT POST-SECONDARY VOCATIONAL INSTITUTION (continued)

Federal Program Information:	Federal Agency and Program Name U.S. Department of Education Office of Student Financial Assistance Office of Post Secondary Education U.S. Department of Health and Human Services Health Resources and Services Administration	CFDA#
	Student Financial Assistance Cluster	84.007/84.032/ 84.033/84.038/ 84.063/84.268/ 84.375/84.376/ 84.379/93.342/ 93.364/93.925

- **Effect:** Management has failed to be in compliance with the Code of Federal Regulations for the requirements relating to Short Term Programs at PSVI during the year ended June 30, 2010.
- **Recommendation:** The institution should implement policies and procedures to ensure that completion and placement rate calculations are completed and that documentation supporting placement of students in the recognized occupation for which he or she was trained or in a related comparable recognized occupation are being met throughout the year.

Views of
ResponsibleIt is not clear whether the current management personnel in Pierpont Community &
Technical College were aware of placement and completion ratios for their short term
programs and where this information was kept. Both the President and the Vice President of
Academic Affairs started after the 2009-2010 aid year ended. The former Vice President
presided over the short term programs. The current Vice President did provide the
completion and placement information which could be gathered for the FY10 audit and is
still following up on collecting information from the completers.

The Financial Aid Director will meet in the future with Pierpont's President, Vice President of Academic Affairs, Senior Vice President of Enrollment Management, and Vice President of Finance to clarify regulations and to begin developing policies and procedures in order to substantiate the short term programs and meet federal compliance regulations for Gainful Employment. All parties will be provided with information on current regulations as well as the upcoming changes for July 1, 2011. Positions of responsibility will be identified and documentation will be maintained.

2010-33 SPECIAL TESTS AND PROVISIONS - VERIFICATION

Federal Program Information:	Federal Agency and Program Name U.S. Department of Education Office of Student Financial Assistance Office of Post Secondary Education U.S. Department of Health and Human Services Health Resources and Services Administration Student Financial Assistance Cluster	CFDA# 84.007/84.032/ 84.033/84.038/ 84.063/84.268/ 84.375/84.376/ 84.379/93.342/
		84.379/93.342/ 93.364/93.925

- **Criteria:** In accordance with 34 CFR Section 668.57, acceptable documentation for verification is stated as "An institution shall require an applicant selected for verification to verify AGI and U.S. income tax paid by submitting to it, if relevant (i) A copy of the income tax return of the applicant, his or her spouse, and his or her parents. The copy of the return must be signed by the filer of the return or by one of the filers of a joint return; (ii) For a dependent student, a copy of each Internal Revenue Service (IRS) Form W-2 received by the parent whose income is being taken into account if (A) The parents filed a joint return; and (B) The parents are divorced or separated or one of the parents has died; and (iii) For an independent student, a copy of each IRS Form W-2 he or she received if the independent student (A) Filed a joint return; and (B) Is a widow or widower, or is divorced or separated. (2) If an individual who filed a U.S. tax return and who is required by paragraph (a)(1) of this section to provide a copy of his or her tax return does not have a copy of that return, the institution may require that individual to submit, in lieu of a copy of the tax return, a copy of an IRS form which lists tax account information."
- **Condition:** For 1 of the 25 students selected for verification during the 2009-2010 school year, the documentation that was obtained from the student and reviewed for verification included tax returns of the student and parent that did not contain signatures.
- **Questioned Costs:** N/A
- **Context:** We tested a total of 25 students out of 3,072 total students who had been selected for verification by the Fairmont State University during the year ended June 30, 2010.
- **Cause:** Management indicated that the Financial Aid Office verifies the tax return is supplied by the student, but sometimes fails to verify that the tax return has been signed by the student and/or parent.
- **Effect:** The lack of acceptable documentation for student verification is a noncompliance issue with 34 CFR Section 668.57.
- **Recommendation:** The institution should implement policies and procedures to ensure that the acceptable documentation is obtained from students during the verification process.

2010-33 SPECIAL TESTS AND PROVISIONS - VERIFICATION (continued)

Federal Program Information:	Federal Agency and Program Name U.S. Department of Education Office of Student Financial Assistance Office of Post Secondary Education U.S. Department of Health and Human Services Health Resources and Services Administration	CFDA#
	Student Financial Assistance Cluster	84.007/84.032/ 84.033/84.038/ 84.063/84.268/ 84.375/84.376/ 84.379/93.342/ 93.364/93.925

Views of Responsible Officials and Planned Corrective Actions: Verifications are performed by processors in the Enrollment Services area and by Financial Aid Counselors. The Financial Aid counselor who performed the verification is no longer here. However, all processors, supervisors and financial aid counselors are now provided training prior to processing any verifications for each new aid year. This training is taken directly from training provided from the Department of Education and our National Financial Aid Association and is very thorough and covers the signature requirement.

Training on verification will take place again this month for the 2011-2012 aid year prior to verification processing. Staff will be reminded of the requirement as well as all regulations related to verification. The processing area supervisor will be asked to review verifications and initial on a regular basis to ensure regulations are met. Verifications completed by Financial Aid Counselors will also be reviewed on a regular basis to insure compliance.

2010–34 SUBRECIPIENT CASH MANAGEMENT (Prior Year Finding 2009–39)

Federal Program Information:	Federal Agency and Program Name	CFDA#
	U.S. Department of Education	
	Title I, Part A Cluster	84.010/84.389
	Grant Award S389A090048A	
	Improving Teacher Quality State Grants	84.367
	Grant Award S367A090046A	
	Special Education Cluster (IDEA)	84.027/84.173/
		84.391/84.392
	Grant Award H173A090071	
	Grant Award H391A090075A	
	Grant Award H392A090071A	

- **Criteria:** OMB Circular A–102, Section 2(a) requires grantor agencies to establish "methods and procedures for transferring funds to minimize the time elapsing between the transfer to recipients of grants and cooperative agreements and the recipient's need for the funds". Furthermore, interest earned by subrecipients on federal cash draws are to be remitted to the appropriate agency in a timely manner.
- **Condition:** To monitor subrecipient cash management, the West Virginia Department of Education (WVDOE) implemented procedures in April 2008 to require management to maintain documentation supporting the review and approval of subrecipient cash needs. During our test of subrecipient cash management, we noted that for 29 of 40 transactions reviewed, management did not properly maintain the documentation supporting management review of cash needs at the subrecipient level. Seventeen of the thirty and three of the ten tested for the Special Education Cluster and Title I, respectively, were not appropriately supported. Furthermore, interest earned was not tracked and remitted to the appropriate federal program.
- Questioned Costs: Unknown
- Context: Total federal expenditures for the subrecipients of the Title I, Part A Cluster (CFDA# 84.010/84.389) were \$118,661,062 for the year ended June 30, 2010. Total federal expenditures for the subrecipients of the Improving Teacher Quality State Grants (CFDA# 84.367) program were \$21,881,562 for the year ended June 30, 2010. Total federal expenditures for the subrecipients of the Special Education Cluster (IDEA) (CFDA# 84.173, 84.391, 84.027, and 84.392) were \$104,033,401 for the year ended June 30, 2010.
- Cause: Management did not implement policies and procedures to ensure documentation was maintained to document proper subrecipient cash management.
- **Effect:** Subrecipients may have excess federal cash on hand and are not remitting interest earned on the excess federal cash to the WVDOE; therefore, the WVDOE is in noncompliance with the federal rules and regulations regarding cash management.
- **Recommendation:** WVDOE should continue to review the policies and procedures to ensure that adequate procedures are in place to monitor federal cash on hand with subrecipients and ensure that interest earned on excess federal cash on hand by subrecipients is remitted back to the WVDOE in a timely manner. Furthermore, management should ensure that interest earned is appropriately calculated and remitted to the federal grant program.

2010–34 SUBRECIPIENT CASH MANAGEMENT (Prior Year Finding 2009–39) (continued)

Federal Program Information:	Federal Agency and Program Name	CFDA#
	U.S. Department of Education

		84.391/84.392
	Grant Award H173A090071	
	Grant Award H391A090075A	
	Grant Award H392A090071A	

Views of
ResponsibleDraws and related disbursements are performed exclusively on a reimbursement basis in
order to preclude interest accruals. During mid-fiscal year 2010, the West Virginia
Department of Education strengthened procedures by including screen shots of the online
WVEIS module system that was implemented in April 2008 to include supporting
documentation of sub-recipient cash needs. After all documents are printed for each
request, an accountant in the Office of Internal Operations enters the request amounts into
the WVFIMS system for payment. Then a second accountant in the Office of Internal
Operations scans the document into the system for file storage. The documents are then
transferred to the Auditor's Office for payment.

2010-35 AMERICAN RECOVERY AND REINVESTMENT ACT REPORTING

Federal Program Inf	formation:	Federal Agency and Program Name U.S. Department of Education Vocational Rehabilitation Cluster Grant Award H390A090073A	CFDA# 84.126/84.390
Criteria:	Section 1512 of the Recovery Act requires reporting on the use of Recovery Act funding by recipients no later than the 10th day after the end of each calendar quarter (beginning the quarter ending September 30, 2009). Aimed at providing transparency into the use of these funds, the recipient reports are required to include the following detailed information:		
		al amount of funds received; and of that the amount spen vities;	t on projects and
	• A l	ist of those projects and activities funded by name to incl	ude:
	•	Description	
	•	Completion status	
	•	Estimates on jobs created or retained; and

Views of Responsible Officials and Planned Corrective Actions:	information	on concurs with the above finding and has put procedure reported to the Governor's Office for filing the ARR owed by the Governor's Office for compiling data eleme	A 1512 will match the

2010-36 PHYSICAL INVENTORY COUNT

Federal Program Inf	formation:	Federal Agency and Program Name U.S. Department of Education Vocational Rehabilitation Cluster Grant Award H126A100073C Grant Award H390A090073A	CFDA# 84.126/84.390
Criteria:	Title 34 CFR 80.32 d(2), Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments, states that a physical inventory of the property must be taken and the results reconciled with the property records at least once every two years.		
Condition:	Managemer	nt has not taken a physical inventory of equipment	in the past two years.
Questioned Costs:	Unknown		
Context:	Total equipment purchased with Vocational Rehabilitation Cluster Funds for the year ended June 30, 2010 was approximately \$2.2 million. Total federal expenditures for the Vocational Rehabilitation Grants to States for the year ended June 30, 2010 was \$31,783,825.		
Cause:	The procurement manager observed the State policies and procedures which requires physical counts of equipment inventory to be taken once every three years and failed to follow Federal guidelines which requires inventory counts once every two years. The procurement manager was not aware of the Federal inventory count requirement.		
Effect:	Amounts reported as fixed assets may not be correct and the West Virginia Division of Rehabilitation Services is not in compliance with OMB Circular A-102.		
Recommendation:	We recommend that the West Virginia Division of Rehabilitation Services ensure that a physical inventory is performed in accordance with the applicable Federal guidelines.		
Views of Responsible Officials and Planned Corrective Actions:		n concurs with the above finding and will begin p nventory bi-annually beginning in the spring of 20	

2010-37 CASH MANAGEMENT

Federal Program Inf	formation:	Federal Agency and Program Name U.S. Department of Education State Fiscal Stabilization Fund Cluster Grant Award 2009 Education S394A090049 Grant Award 2009 Government Services S397A090049	CFDA# 84.394/84.397
Criteria:	Per 31 CFR Section 205.12(b)(5), entities are required to maintain supporting documentation showing that the costs for which reimbursement was requested were paid prior to the date of the reimbursement request. OMB Circular A–102, Section 2(a) requires grantor agency to "establish methods and procedures for transferring funds to minimize the time elapsing between the transfer to recipients of grants and cooperative agreements and the recipient's need for the funds."		
Condition:	During our testing of three Cash Management drawdowns requested by the GOEO from the Dept. of ED, we noted that for one (1) of the three (3) drawdowns requested by the GOEO, the GOEO had requested reimbursement for 20 out of 55 Local Educational Authority's(LEA) ARRA Draw #1 prior to receiving the reimbursement requests from the respective LEA's.		
Questioned Costs:	Unknown		
Context:	GOEO reported Stabilization awards to subrecipients of \$101,477,629 for the Education CFDA# 84.394 for the year ended June 30, 2010. The one (1) ARRA drawdown requested by the GOEO on June 8, 2010 for the fifty-five (55) LEA's totaled \$80,588,344. For thirty-five (35) of the LEA's, the GOEO had received their ARRA drawdown requests prior to requesting the federal funds. However, for twenty (20) LEA's totaling \$21,992,603, the GOEO had requested the ARRA drawdowns prior to receiving the respective LEA reimbursement request forms.		
Cause:		nt did not implement policies and procedures to prove subrecipient cash need prior to requested fund	
Effect:	The GOEO had drawn down federal funds and held them from June 8, 2010 up through July 21, 2010 until the remainder of the LEA's had been reimbursed. This timeframe is in violation of the compliance requirement that the grantor agency is required to minimize the time elapsing between the transfer to recipients and the recipient's need for the federal funds.		
Recommendation:		nend that the GOEO implement procedures whereby to the reimbursement request received from the sub-

	Temporary Assistance for Needy Families (TANF)	93.558/93.714
	Cluster	
	Grant Award 75-9-1552	
	Grant Award 75-0-1552	
of househ Temporar consecutiv State may if a family number of has receiv the assista	y that includes an adult or minor child head of househo old who has received assistance under any State pro- y Assistance for Needy Families (TANF) funds for 60 (ve) is ineligible for additional federally funded TANF extend assistance to a family on the basis of hardship, a y member has been battered or subjected to extreme of f months for which the head of household or the spouse ed assistance, the State must not count any month during ince while living in Indian country or in an Alaskan Na ta available with respect to that month (or a period inclu-	ogram funded by federal) months (whether or not assistance. However, the as defined by the State, or ruelty. In determining the of the head of household g which the adult received tive Village and the most

the assistance while living in Indian country or in an Alaskan Native Village and the most reliable data available with respect to that month (or a period including that month) indicate at least 50% of the adults living in Indian country or in the village were not employed (42 USC 608(a)(7); 45 CFR Sections 264.1(a), (b), and (c)). Further, the average monthly number of families that include an adult or minor child head of household, or the spouse of the head of household, who has received assistance under any State program funded by Federal TANF funds for more than 60 countable months (whether or not consecutive) may not exceed 20 percent of the average monthly number of all families to which the State provided assistance during the fiscal year or the immediately preceding fiscal year (but not both), as the State may elect. (42 USC 608(a)(7)(C)(ii); 45 CFR Sections 264.1(c) and (e)).

- **Condition:** Due to the lack of a nationwide database, the West Virginia Department of Health and Human Resources (DHHR) does not have the ability to fully comply with the TANF federal 60-month eligibility limitation requirement.
- Questioned Costs: Unknown
- **Context:** The fiscal year ended June 30, 2002, was the first year in which the federal 60-month requirement became effective. Total federal expenditures for the TANF Cluster for the fiscal year ended June 30, 2010, were \$114,813,235.
- **Cause:** The U.S. Department of Health and Human Services (USDHHS) have not developed a method for tracking claimants who may have received benefits from multiple states.
- **Effect:** Ineligible or potentially ineligible claims may have been reimbursed using federal funds.
- **Recommendation:** DHHR has developed policies and procedures in accordance with USDHHS guidance regarding surrounding states; however, procedures to ensure claimants are not from other States cannot be developed without a centralized database and the assistance of the USDHHS. On January 15, 2010, the USDHHS Administration for Children and Families (ACF) issued a response letter regarding a prior year finding and recommendation #306908100 for this same issue. The letter stated in part "No further action is required with respect to this recommendation." However, we recommend that DHHR continue to work with USDHHS to resolve the internal control weakness.

2010–38 ELIGIBILITY (Prior Year Finding 2009–40) (continued)

Views of
ResponsibleThe DHHR Bureau for Children and Families concurs, in part, that no written policy exists
for supervisors to review worker applied sanctions. However, many of these cases are
reviewed with the supervisor prior to sanctioning, especially in cases in which there are
circumstances that a sanction decision is not easily rendered.

Furthermore, we have a Performance Assessment Review process, which could result in revisions to process and procedures.

Policy does, however, require workers to allow the client to present good cause before any sanction is actually effective. In effect, clients who disagree with a sanction being placed on their case have the ability to present reasons that a sanction should not be levied.

Views of Th	e OFA-100 was a new report associated with the TANF Emerg	ency Contingency	

The OFA-100 was a new report associated with the TANF Emergency Contingency Fund, the main purpose of which was to request a certain level of funding based on estimated numbers. The federal agency approved a level of funding and the DHHR was then **Planned Corrective** responsible for reporting actual expenditures on the ACF-196 report, as with other TANF expenditures. Therefore, the OFA-100 is subsequently reconciled based on actual expenditures of the program; the report in question included the original estimates and the actual numbers were subsequently accounted for and reconciled as required. The one report in question was one of the first filed for OFA-100 and it did not go through the appropriate and established approval process within the DHHR. However, it is important to note that the OFA-100 was a new form and the DHHR worked very closely and had numerous discussions with the federal agency throughout the process to ensure it was following the process correctly.

> Regarding the ability to create and approve cases, an open case in the FACTS application does not automatically generate services, foster care placements, adoption subsidies or payment of any kind. No disbursement occurs solely because of an open case. Field supervisors need to have the ability to create and carry caseloads, as a normal part of business operations, and it would create an extreme hardship on them if the system no longer supported this normal business function. The system does not require supervisory approval to open most cases, but it does require supervisory approval to create service authorizations, foster care placements, medical card eligibilities and payment approvals.

An individual holding security level 15 alone will not permit the approval of payments. Only the designated unit supervisor is given access to the pending payment approvals and the presence of security level 15 enables the approval functionality. A unit supervisor belonging to their own unit has the capability of entering and approving their own payments but FACTS has a long-standing management reporting control that identifies (Report ID SSA-4990) any payment that was entered and approved by the same person. The report is generated after every two weeks and distributed to the Deputy Commissioner of Field Operations and the Deputy Commissioner of Operations. The system supports a personnel configuration that would allow the supervisor's payments to be directed to/ and approved only by their managers, the district Community Service Managers (CSMs) but this option has not been utilized by the Bureau for Children and Families (BCF). The system is in the process of modernizing to a browser-based application and we will be modifying the supervisory security to delink case approvals from payment approvals so that the assignment of level 15 does not grant the ability to approve payments.

A special circumstance exists within the central office financial staff. They have special securities and advanced access to allow them to set rates, manage providers, make and approve payments. They are monitored through the same reporting mechanism mentioned in the previous paragraph. The system securities that have been assigned to these staff have been at the direction of BCF management and are necessary to achieve the business needs of their current process. The process they utilize could be altered to segregate duties across different personnel but that is not possible given the current staffing levels within the BCF's Office of Finance and Administration.

Nearly all of the payments being processed through BCF/ OFA are in response to either a court order or invoicing. With respect to the invoicing, most of them are the results of services coming through our Administrative Service Organization (ASO). The ASO process requires a caseworker to request the service by linking the service request to a client and electronically sending the request to the ASO, who then authorizes a service provider, the duration of service, the timeframe for completion and the number of service units that can be billed. When the provider invoices the service, OFA staff members check the invoice against the authorization and payment history data making sure that the invoiced services and units are within authorization parameters. The system will not permit more units to be paid than are authorized and a running total of encumbered and expended units are kept by the system within the payment history, which cannot be overridden.

2010–44 TIME AND ATTENDANCE AUTHORIZATION PROCEDURES (Prior Year Finding 2009–44)

Federal Program Inf	formation:	Federal Agency and Program Name U.S. Department of Health and Human Services Child Support Enforcement Grant Award 75-X-1501	CFDA# 93.563

2010–44 TIME AND ATTENDANCE AUTHORIZATION PROCEDURES (Prior Year Finding 2009–44) (continued)

Federal Program Information: Federal Agency and Program Name CFDA# U.S. Department of Health and Human Services Child Support Enforcement 93.563 Grant Award 75-X-1501 Grant Award 75-X-1501 93.563

The signature dates on the form are secondary to the foremost control objective within the DHHR, which is to ensure that supervisors do not approve annual leave for employees that do not maintain a sufficient balance of leave. The supervisor must ensure that the employee has an adequate balance of leave prior to the "Period of Leave" as marked on the "Application for Leave with Pay" form and compliance with this objective is documented via the supervisor marking the "Approved" box on that form. If the employee requesting leave did not have an adequate balance of leave prior to the period of leave, the supervisor would mark the "Disapproved" box on the application form and would proceed with compensatory restitution from the employee as related to total hours worked. Please note that all of the employees within the perspective of this finding did in fact have a sufficient balance of annual leave prior to the period of leave in question and those employees were not in danger of using leave that they had not already earned. The Bureau for Child Support Enforcement has very specific procedures for time, attendance and the use of annual leave, and supervisors will *continue* to enforce and monitor those procedures in an effort to ensure overall compliance with the control objectives established within the DHHR.

2010–45 INTERSTATE CASE (Prior Year Finding 2009–46)

Federal Program Information:		Federal Agency and Program Name U.S. Department of Health and Human Services	CFDA#
		Child Support Enforcement Grant Award 75-X-1501	93.563

Questioned Costs:	Unknown		
Context:		al expenditures for the Child Support Enforcement pro- al year ended June 30, 2010.	gram were \$36,544,148
Cause:	The West Virginia Department of Health and Human Resources (DHHR) appears to have policies and procedures in place for interstate cases but has failed to actively enforce the procedures.		
Effect:	The DHHR is not in compliance with Federal regulations.		
Recommendation:	We recommend that the DHHR enforce and monitor existing interstate case procedures.		
Views of Responsible Officials and Planned Corrective Actions:	The DHHR Bureau for Child Support Enforcement has already implemented the proposed recommendation for corrective action and we will continue to enforce and monitor existing interstate case procedures. It is important to note that the one reported instance of noncompliance with the timeframe standard did not affect the collection and disbursement of support, nor did it subject the DHHR to Federal sanction, as our level of compliance still exceeds the level required by the HHS Office of Child Support Enforcement and as provided in 45 CFR 303.		

2010–46 ALLOWABILITY AND ELIGIBILITY (Prior Year Finding 2009–48)

Federal Program Inf		Federal Agency and Program Name U.S. Department of Health and Human Services Low-Income Home Energy Assistance (LIHEAP) Grant Award G–07B1WVLIEA	CFDA# 93.568
Criteria:	The eligibility compliance requirements of the Low-Income Home Energy Assistance Program (LIHEAP) require the West Virginia Department of Health and Human Resources (DHHR) to determine whether federal monies are spent in accordance with the eligibility guidelines promulgated by 42 USC 8624(b)(2).		h and Human Resources

	Grant Award 75-0-1546	

The fully automated IV-E determination and redetermination process has been in effect in the FACTS system since 2005. This automated process will render an initial determination and perform a continuous redetermination of the foster care case based upon information entered into the system by the field/Title IV-E staff. Statewide training is provided to all field staff to ensure adequate knowledge to enable them to enter the requisite information, and Title IV-E specialists review all documentation to ensure that the initial determination is accurate.

2010–49 ALLOWABILITY AND ELIGIBILITY (Prior Year Finding 2009–53)

Federal Program Informa	formation: Federal Agency and Program Name	CFDA#
-	U.S. Department of Health and Human Se	rvices
	Foster Care—Title IV–E	93.658
	Grant Award 75-0-1545	
	Grant Award 75-0-1546	
Critoria	Title 42 Chapter 7 Subchapter IV Part F section 675	states "(B) the status of each chil

- **Criteria:** Title 42, Chapter 7, Subchapter IV, Part E section 675 states, "(**B**) the status of each child is reviewed periodically but no less frequently than once every six months by either a court or by administrative review (as defined in paragraph (6)) in order to determine the safety of the child, the continuing necessity for and appropriateness of the placement, the extent of compliance with the case plan, and the extent of progress which has been made toward alleviating or mitigating the causes necessitating placement in foster care, and to project a likely date by which the child may be returned to and safely maintained in the home or placed for adoption or legal guardianship".
- **Condition:** Changes in the status of Foster Care clients are not always updated in the Family and Children Tracking System (FACTS) computer system prior to the automatic processing of foster care payments. Furthermore, changes in the status of foster care clients are not always updated and reviewed for appropriateness in the FACTS computer system prior to the automatic processing of foster care payments.

Questioned Costs: Unknown

- **Context:** Retroactive claims adjustments during the fiscal year ended June 30, 2010, amounted to increased claims of approximately \$6,694,064 for children found to be eligible and decreased claims of approximately \$2,611,733 for overpayments to children found to be ineligible. Total expenditures for benefit payments for the Foster Care program were \$26,231,006 for the year ended June 30, 2010.
- Cause: Payments are established in the FACTS computer system to automatically process when foster care payments are processed; however, the West Virginia Department of Health and Human Resources (DHHR) has been unable to ensure that all checks processed by the FACTS computer system are approved by a field staff worker prior to issuance of the check.
- **Effect:** Foster families could be overpaid or underpaid with federal monies for foster care services provided and such overpayments or underpayments may not be retroactively corrected in a timely manner.
- **Recommendation:** DHHR should review the current staffing and training programs of the Foster Care— Title IV–E Office to ensure sufficient staff levels are maintained and adequate technical training is provided. DHHR should establish policies and procedures to ensure that changes in the status of foster care clients are updated in a timely manner and checks to foster care families in the FACTS computer system are approved prior to issuance.

	Grant Award 75-9-1545	
	Grant Award 75-9-1546	

Views of Management within the DHHR Bureau for Children and Families instituted a review Responsible process whereby a report is generated in FACTS on the first of every month. This report Officials and shows all the automatic payments that will be made on the fifth working day of the month **Planned Corrective** that have not been reviewed and/or approved. The workers whose responsibility it is to review and/or approve the automatic payments have access to this report. They have until the fourth working day of the month to make any updates and/or changes to the placements before the automatic payment is made. After the automatic payment is made, the report is run again and sent to the Regional Directors (RD) for review. The RDs use this report to determine the workers who are not reviewing/approving the automatic payments. These workers are then reminded of policies and procedures. Since inception of this report, the size of the report has decreased greatly.

	Adoption Assistance	93.659
	Grant Award 75-9-1545	
	Grant Award 75-0-1545	
	Grant Award 75-9-1546	
	Grant Award 75-0-1546	

- **Criteria:** Section 473 of the Social Security Act states that the Adoption Assistance Agreement must be in effect prior to the adoptive parents' receipt of the Adoption Subsidy. Also, 45 CFR 1356.40, states the Adoption Assistance Agreement must be signed and in effect at the time of or prior to the final decree of adoption and a copy of the signed agreement must be given to each party. Further, the eligibility compliance requirements of the Adoption Assistance program require the West Virginia Department of Health and Human Resources (DHHR) to determine whether federal monies are spent in accordance with the eligibility guidelines promulgated by the Adoption Assistance and Child Welfare Act of 1980. West Virginia State Code §49-3-1 states that consent by an agency or department to adopt a child must be given and a statement of relinquishment and termination of parental rights must be obtained from the birth parents. The Adoption Assistance Policy Manual states that an Adoption Placement Agreement (SSADP48) must be completed and signatures obtained as part of the preliminary adoption procedures after the parental rights have been terminated if the child is not registered on the Adoption Resource Network (ARN). A Child Summary or Title IV Eligibility form must be completed as part of the preliminary adoption process as well.
- **Condition:** One of the 60 cases files reviewed could not be located for testing. Seven of the 60 cases reviewed for eligibility did not have a Final Adoption Decree. Eight of the 60 cases reviewed for eligibility did not have a signed Adoption Placement Agreement available in the case file. Two of the 60 also did not have the Adoption Assistance Agreement. Four of the 60 cases reviewed did not have a Consent Form. Four of the 60 cases reviewed, the order terminating parental rights could not be found. In two of the 60 cases reviewed, the Adoption Assistance Agreement was not signed by the adoptive parents or the Adoption Assistance Program's Regional Director.

Questioned Costs: \$10,068

- **Context:** The 8 instances (21 of 60 case files) represent \$10,068 out of a total of \$33,856 in total payments tested for eligibility. Total payments for individual payments (this is a subset of the program expenditures) for the Adoption Assistance program were \$16,394,652 for the year ended June 30, 2010.
- **Cause:** Management indicated that the lack of inclusion of the proper forms in the case files was an oversight by the caseworker.
- **Effect:** Documentation supporting the original eligibility claim could not be located. Ineligible or potentially ineligible claims may have been reimbursed using federal funds.

Funds that FEMA has de in Federal account until

The state is responsible for providing the State share of eligible costs and for notifying the applicant that funds are available. The method of payment to the applicant is dependent on whether the project is small or large.

funds more than three business days before the day it disburses them.

Small projects: payment is made on the basis of an estimate prepared at the time of project approval. The State makes payment of the Federal share to the applicant as soon as practicable after FEMA has obligated the Federal Share.

Large projects: the State makes payments to the applicant on the basis of actual incurred cost as the project proceeds. Once the project is completed, FEMA may adjust the amount initially obligated for the project depending on the accounting of final eligible costs submitted by the State to FEMA.

- 2007-42 Resolved

Corrective action taken in FY 2010.

2009-23 SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS Governor's Office of Economic Opportunity Partially Resolved

GOEO began FY 2011 with a WVFIMS coding system that tracks all grant expenditures from the time that payment is initiated in WVFIMS. This will permit GOEO to rely on WVFIMS directly, by using Crystal Reports, to develop all financial reports. This reliance will substantially reduce the need for additional in-house ledgers. Monthly reconciliation will be simplified and any errors should be easier to identify and correct. See current year finding 2010-17.

	STATE OF WEST VIRGINIA SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS FOR THE FISCAL YEAR ENDED JUNE 30, 2010
2009-24	INDIRECT COST ALLOCATION Governor's Office of Economic Opportunity Partially Resolved
	GOEO is in the process of finalizing for state FY 2011 a consistent approach for identifying and assigning all direct costs to the appropriate cost center and fairly allocating indirect costs to all federal sources. After consultation with the Cost Allocation Office of the Department of Health and Human Services (DHHS), which is the designated cognizant agency, a determination will be made whether to submit an indirect cost rate proposal (ICRP) based on that system, or wait until it can be submitted with full documentation from FY 2011. See current year finding 2010-18.
2009-25	INVENTORY PROCESS AND PROCEDURES Governor's Office of Economic Opportunity Resolved
	Corrective action taken in FY 2010.
2009-26	EARMARKING REQUIREMENTS Governor's Office of Economic Opportunity Resolved
	Corrective action taken in FY 2010.
2009-27	FINANCIAL REPORTING Governor's Office of Economic Opportunity Partially Resolved
	GOEO has established an agency-wide calendar for submission of reports, both financial and programmatic, to assist in the timely submission of reports. The DOE now requires SF-425, which combines the reporting previously covered by SF-269 and SF-272, and reports must be submitted online through PAGE,

2009-27 FINANCIAL REPORTING (Continued)

the DOE reporting system. That change temporarily slowed the submission of reports. The staff was not originally trained on the system. Reports prepared and input into the system were not consistently completed which included electronic submission to DOE. Those late reports further complicated the process since the next report could not be approved on PAGE until the previous report had been reviewed and approved at the federal level. Reports for the regular DOE grants are up-to-date through the period ending June 30, 2010. DOE ARRA reports will be up-to-date in August. Now that GOEO staff have been trained on the new system, consistent monthly reconciliation of financial records will improve timely submission of accurate financial reports. See current year finding 2010-19.

2009-28 SUBRECIPIENT MONITORING Governor's Office of Economic Opportunity Partially Resolved

GOEO has developed new tools to track the monitoring of subgrantees, targeted feedback to subgrantees on compliance issues, and the status of corrective action. Once a subgrantee's audit is reviewed, a letter sent to the agency is now filed with any plans for corrective action. Some subgrantee issues cannot be resolved immediately. GOEO is exploring appropriate sanctions available to be used when subgrantees fail to respond to or meet compliance target dates. See current year finding 2010-20.

2009-29 MONITORING OF SUSPENDED SUBRECIPIENT Governor's Office of Economic Opportunity Resolved

2009-30 UNALLOWABLE CONSULTANT COSTS Governor's Office of Economic Opportunity Partially Resolved

GOEO is in the process of developing internal policies and procedures, accompanied by training for all staff, to ensure that costs incurred are allowable and allocable to the grant to which they are charged, and to reinforce the view that this is the responsibility of every state employee involved at any level in the procurement process. Knowledge of and rigorous adherence to the state's procurement policies is an excellent first step. In addition, staff training will provide a focus on determining if each expenditure is reasonable, necessary, allowable and allocable to the grant being charged.

GOEO will institute an internal purchase order process for expenditures not anticipated in the budget.

2009-31 PELL REPORTING Concord University Resolved

2009-42 FEDERAL REPORTING Department of Health and Human Resources Resolved

Corrective action taken in FY 2010.

2009-43DHHR INFORMATION SYSTEMS AND RELATED2008-55BUSINESS PROCESS CONTROLS2007-54Department of Health and Human Resources2006-37Partially Resolved2005-442005-602004-502003-632002-61The FACTS Application's security framework is structured to

The FACTS Application's security framework is structured to support and administer segregation of duties. However, some security assignments are made due to a business need and the DHHR is reviewing alternative solutions in an effort to reduce the level of concern with respect to segregation of duties.

DHHR IT has modified the database password profile to be configured to force passwords to expire every 40 days and require a password history of 10.

DHHR is performing periodic risk assessments on the systems and is performing risk assessments whenever significant changes to the systems occur. On a biennial basis, management is reviewing the security of the system to include, at a minimum, an evaluation of physical and data security operating procedures and personnel practices. Management is also maintaining reports on the results of the biennial reviews.

An open case in the FACTS application does not automatically generate services, foster care placements, adoption subsidies or payment of any kind. No disbursement occurs solely because a

2009-43 DHHR INFORMATION SYSTEMS AND RELATED BUSINESS PROCESS CONTROLS (Continued)

case is opened. Field supervisors need to have the ability to create and carry caseloads as a normal part of business operations. The system does require supervisory approval to create service authorizations, foster care placements, medical card eligibilities and payment approvals.

Only the designated unit supervisor is given access to the pending payment approvals. A unit supervisor belonging to their own unit has the capability of entering and approving their own payments but FACTS has a long-standing management reporting control that identifies (Report ID SSA-4990) any payment that was entered and approved by the same person. The system supports a personnel configuration that would allow the supervisor's payments to be directed to/and approved only by their managers, the district Community Service Managers (CSMs) but this option has not been utilized by BCF. The system is in the process of modernizing to a browser-based application and we will be modifying the supervisory security to delink case approvals from payment approvals.

A special circumstance exists within the central office financial staff. They have special securities and advanced access to allow them to set rates, manage providers, make and approve payments. They are also monitored through the ID SSA-4990 reporting mechanism.

Nearly all of the payments being processed through BCF/OFA are in response to either a court order or invoicing. In respect to the invoicing most of them are as a result of services coming through our Administrative Service Organization. The ASO process, requires a caseworker to request the service by linking the service request to a client and electronically sending the request to the ASO, who then authorizes the a service provider,

2009-43 DHHR INFORMATION SYSTEMS AND RELATED BUSINESS PROCESS CONTROLS (Continued)

duration of service, timeframe for completion and the number of service units that can be billed. When the provider invoices the service OFA staff check the invoice against the authorization and payment history data making sure that the invoiced services and units are within authorization parameters. The system will not permit more units to be paid than are authorized and a running total of encumbered and expended units are kept by the system within the payment history and cannot be overridden. See current year finding 2010-43.

2009-44 PAYROLL AUTHORIZATION PROCEDURES Department of Health and Human Resources Partially Resolved

The DHHR utilizes an "Application for Leave with Pay" form for documenting the number of "Hours Annual" and the "Period of Leave" taken by employees. While the application forms were not signed by the supervisor prior to the periods of annual leave noted on the forms, all of the annual leave was indeed approved by the supervisors prior to the periods of leave. The reasons vary as to why the signature date on an application form is sometimes subsequent to the period of leave, but it is usually the result of unexpected circumstances resulting in the supervisor providing verbal approval to the employee in advance of the leave, yet simply not signing the form until after the period of leave. Other factors for the differing dates include travel time and the varying locations of certain employees and their supervisors relative to the period of leave.

The signature dates on the form are secondary to the foremost control objective within the DHHR, which is to ensure that supervisors do not approve annual leave for employees that do

2009-44 PAYROLL AUTHORIZATION PROCEDURES (Continued)

not maintain a sufficient balance of leave. The supervisor must ensure that the employee has an adequate balance of leave prior to the "Period of Leave" as marked on the "Application for Leave with Pay" form and compliance with this objective is documented via the supervisor marking the "Approved" box on that form. If the employee requesting leave did not have an adequate balance of leave prior to the period of leave, the supervisor would mark the "Disapproved" box on the application form and would proceed with compensatory restitution from the employee as related to total hours worked. The BCSE has very specific procedures for time, attendance, and the use of annual leave, and supervisors will *continue* to enforce and monitor those procedures in an effort to ensure overall compliance with the control objectives established within the DHHR. See current year finding 2010-44.

2009-45 DATA RELIABILITY REPORT

- 2008-58 Department of Health and Human Resources
- 2007-58 Resolved

Corrective action taken in FY 2010.

2009-46 INTERSTATE CASE Department of Health and Human Resources Partially Resolved

The DHHR BCSE will continue to enforce and monitor existing interstate case procedures. It is important to note that the one reported instance of noncompliance with the timeframe standard did not affect the collection and disbursement of support, nor did it subject the DHHR to Federal sanction, as our level of compliance still exceeds the level required by the Office of Child Support Enforcement and as provided in 45CFR303. See current year finding-2010-45.

- 2007-64 Partially Resolved

2006-47

2005-53

2004-61

While not a requirement for compliance with the DHHR's subrecipient monitoring policy, the maintenance of monitoring logs is an available option and one that the BPH has chosen to utilize internally for tracking and documenting its monitoring efforts. While the monitoring log questioned within this finding may not have been 100% complete or otherwise consistently utilized, the Bureau for Public Health (BPH) does in fact have effective procedures in place to ensure that subrecipients have used federal funds for authorized purposes. Staff turnover in the monitoring area during FY 2009 caused delays in the

2009-52 ELIGIBILITY REQUIREMENTS (Continued)

implementation of some discretionary monitoring procedures previously developed within the BPH. Therefore, during FY 2009 the BPH combined the subrecipient grant and monitoring processes together to further enhance our abilities to monitor. BPH is also currently developing a plan to add an accountant/ auditor to primarily monitor and offer technical assistance to local county health departments. See current year finding 2010-48.

2009-53 ALLOWABILITY AND ELIGIBILITY Department of Health and Human Resources Not Resolved

Management within the DHHR Bureau for Children and Families instituted a review process whereby a report is generated in FACTS on the first of every month. This report shows all the automatic payments that will be made on the fifth working day of the month that have not been reviewed and/or approved. The workers whose responsibility it is to review and/ or approve the automatic payments have access to this report. They have until the fourth working day of the month to make any updates and/or changes to the placements before the automatic payment is made. After the automatic payment is made, the report is run again and sent to the Regional Directors (RD) for review. The RDs use this report to determine the workers who are not reviewing/approving the automatic payments. These workers are then reminded of policies and procedures. Since inception of this report, the size of the report has decreased greatly. See current year finding 2010-49.

2009-54 ELIGIBILITY DOCUMENTATION Department of Health and Human Resources Resolved

2006-49 2005-55

STATE OF WEST VIRGINIA SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS FOR THE FISCAL YEAR ENDED JUNE 30, 2010

2009-55 ELIGIBILITY DOCUMENTATION 2008-64 Department of Health and Human Resources 2007-66 Partially Resolved

The DHHR Bureau for Children and Families (BCF) implemented a check-off list for staff to use to ensure that all necessary forms and signatures have been obtained. When Adoption records are forwarded to the state office, the file is reviewed to ensure all information is included. The BCF also stressed to staff the importance of ensuring that all documents are included in the case file, with correct signatures and dates as applicable. The cases in the 2010 finding were cases from before the BCF implemented these enhanced procedures and the BCF is unable to correct deficiencies in case files that were completed before implementation of the new procedures. See current year finding 2010-51.

2009-56 ELIGIBILITY Department of Health and Human Resources Partially Resolved

This claim was manually processed and reviewed by one of TPA's claim examiners. This claim was paid due to human error. Since processing of this claim, TPA has expanded its batch claims adjudication process to include more claims. The batch adjudication process has edits in place to identify claims that were filed outside the six-month timely filing limit and deny payment. See current year finding 2010-52.

2009-57 ALLOWABLE COSTS

2007-69 Partially Resolved

2006-52

2005-57

2009-58 PROVIDER ELIGIBILITY DOCUMENTATION Department of Health and Human Resources Partially Resolved

A comprehensive re-enrollment of all providers was undertaken to resolve this finding, however the passage of Healthcare Reform legislation included requirements that impact enrollment processes. To avoid performing a re-enrollment during SFY 2010 and 2011 and having to subsequently subject providers to another re-enrollment immediately thereafter, the re-enrollment has been temporarily suspended pending identification of all such requirements. During the remainder of SFY 2011 the Bureau for Medical Services will be working to identify the changes to the enrollment process necessary to comply with the requirements of the Healthcare Reform legislation. The Bureau will then work with the third-party fiscal agent to coordinate and complete the provider re-enrollment process (anticipated to take 8 to 12 months to complete full enrollment). Any discrepancies or issues will be resolved with individual providers as needed through the re-enrollment process.

2009-59 ALLOWABILITY AND ELIGIBILITY Department of Health and Human Resources Resolved

Corrective action taken in FY 2010.

Corrective action taken in FY 2010.

2008-70 OBLIGATING FUNDS

- 2007-82 Division of Homeland Security
- 2006-59 Partially Resolved

United States Federal Emergency Management Agency (FEMA) officials are aware of extenuating circumstances that have contributed to the grant funds not being obligated in a timely manner, including the State's regionalization concept and need to overcome initial resistance to this concept; delaying the budget submission and review process. In addition, the State Administrative Agency (SAA) ensures that the required 80 percent of funding is obligated to locals per the guidelines and that projects are implemented effectively and efficiently. While the SAA is very cognizant of the 60-day requirement, the SAA operates in a mode that the primary concern is not obligating

2008-70 OBLIGATING FUNDS (Continued)

funding quickly, but obligating funding as effectively and efficiently as possible for allowable costs with detailed budgets which ensure the State is as safe as possible. The SAA involves local jurisdictions in the development of the detailed budgets which takes time in the organization and implementation and in addition there are local customary procedures that counties must follow in order to officially apply for and accept subgrant funding. Again, the SAA is very cognizant of this situation and will continue to work with FEMA and strive to obligate funding as quickly as possible without jeopardizing public safety as well as the meet the obligation timeframe.
