The Honorable Earl Ray Tomblin
Governor of West Virginia
State Capitol, Building 1
Charleston, West Virginia 25305

Dear Governor Tomblin:

The West Virginia State Board of Examiners for Licensed Practical Nurses is pleased to provide you with our report of the biennium covering activities during the period between July 1, 2009 and June 30, 2011.

The goal of this agency is to provide competent, professionally prepared licensed practical nurses to provide safe, quality nursing care to the citizens of West Virginia. This goal is shared by other health care licensing boards and state agencies, and is demonstrated by the prevailing spirit of cooperation that exists between this Board and those other agencies. Staff and members of this Board continue to be active in nursing regulation on a national as well as state level. A cooperative spirit is also evident in health care agencies that offer their facilities for educational purposes, and then employ licensed practical nurses as a part of their health care work force.

Please feel free to contact our office with questions or comments concerning information contained in this report.

For the Board,

A handwritten signature in cursive script that reads "Lanette L. Anderson".

**WEST VIRGINIA STATE BOARD OF EXAMINERS
FOR LICENSED PRACTICAL NURSES**

OVERVIEW OF ACTIVITIES FOR FISCAL YEAR 2010 AND 2011

Members and staff of the West Virginia State Board of Examiners for Licensed Practical Nurses are active participants in meetings and activities across the country on matters of licensing, professional regulation and changing health care delivery systems. Members and staff continue, as has historically been the case, to serve on committees at the national level with agencies involved in licensing nurses from other states as well as agencies relating to health care and other professions within our own state. This involvement assures that members are aware of the many issues surrounding not only practical nursing, but the entire health care system, as the industry continues its attempts to organize and reorganize delivery of health care to achieve acceptable quality care with fewer health care practitioners and fewer health care dollars. Changes in the patterns of delivery and mix of competent providers have resulted in fluctuations in demand for licensed practical nurses. Over time the demand in one area increases while the demand in another area may decrease. Summaries of annual reports from the state's licensed practical nursing schools demonstrate over the past few years that new graduates are employed in acute care settings at a higher rate than in previous years. With the current/impending shortage of registered professional nurses, this will likely continue to be the case. Licensed practical nurses also continue to be steadily employed in long term care, and are important parts of the health care team in that setting. Numbers of actively licensed LPNs have risen gradually over the past ten (10)

OVERVIEW OF ACTIVITIES FOR FISCAL YEAR 2010 AND 2011 PAGE 2

years, however those licensed as new graduates and experienced nurses are generally able to obtain employment in their areas.

The number of LPN schools in West Virginia remained at twenty-four in 2010 and 2010, however another school was given approval to plan a new program by the Board in June 2011. This new program will be located at Pierpont Community and Technical College. Of the existing twenty-four programs, twenty-one programs are within the vocational education system. One program, the B.M. Spurr School of Practical Nursing, is privately sponsored by Reynolds Memorial Hospital, one program is located at New River Community and Technical College, and the other is at Salem International University.

The Board utilizes the National Council Licensure Examination for Practical Nurses, through contract with the National Council of State Boards of Nursing, Inc. This examination provides for interstate endorsement of licensees without further testing. With computer adaptive testing technology candidates are permitted to contact the testing center and test six days a week, year round rather than twice per year. They are also permitted to test in any of over 100 testing locations across the country, rather than in West Virginia alone to get a West Virginia license. Results are transmitted to the Board via internet technology from the national testing service. Candidates are forwarded their results and licensure information for new licensees is posted on the Board's website as early as the same day as the candidate completes the exam. Retesting of failing candidates is available every forty-five (45) days.

The Board monitors licensee compliance with continuing competence requirements of twenty four contact hours of continuing education and four hundred (400) clock hours

of practical nurse employment in each designated two year reporting period. A reporting cycle was completed with the renewal period ending June 30, 2010. The next reporting period will end on June 30, 2012. Continuing education audits are conducted on 7 to 10% of licensees per reporting cycle.

The Board continues to receive complaints against licensees for professional misconduct. In FY 2010 we received one hundred nineteen complaints, and in FY 2011 one hundred seven complaints were received. That number has remained fairly stable over the past five years. Increases in numbers of disciplinary cases continue to be observed in all licensed professions in all states across the country. Continuing efforts to refine the process and procedures for complaint management have resulted in effective and timely resolution in most cases. The average complaint takes approximately seventy calendar days from receipt of the complaint to execution of board action either imposing disciplinary measures or dismissing charges as unsubstantiated or outside the jurisdiction of the Board. Board staff addresses groups of nurses, nursing employers, and students upon request to discuss the disciplinary process, the importance of accurate documentation when providing patient care, etc.

The Board has evaluated both procedures and processes regarding effectiveness of functioning of the agency as a comparison to map progress toward achievement of strategic initiatives and outcomes approved by the Board. The Board implemented a paperless licensure system in 2010 during the license renewal period. The renewal requirements and process remain the same, however no paper license is issued to licensees. Information on the Board's website regarding licensure status is updated each

business day at 3:00 pm, and employers and nurses can verify any needed information on that website.

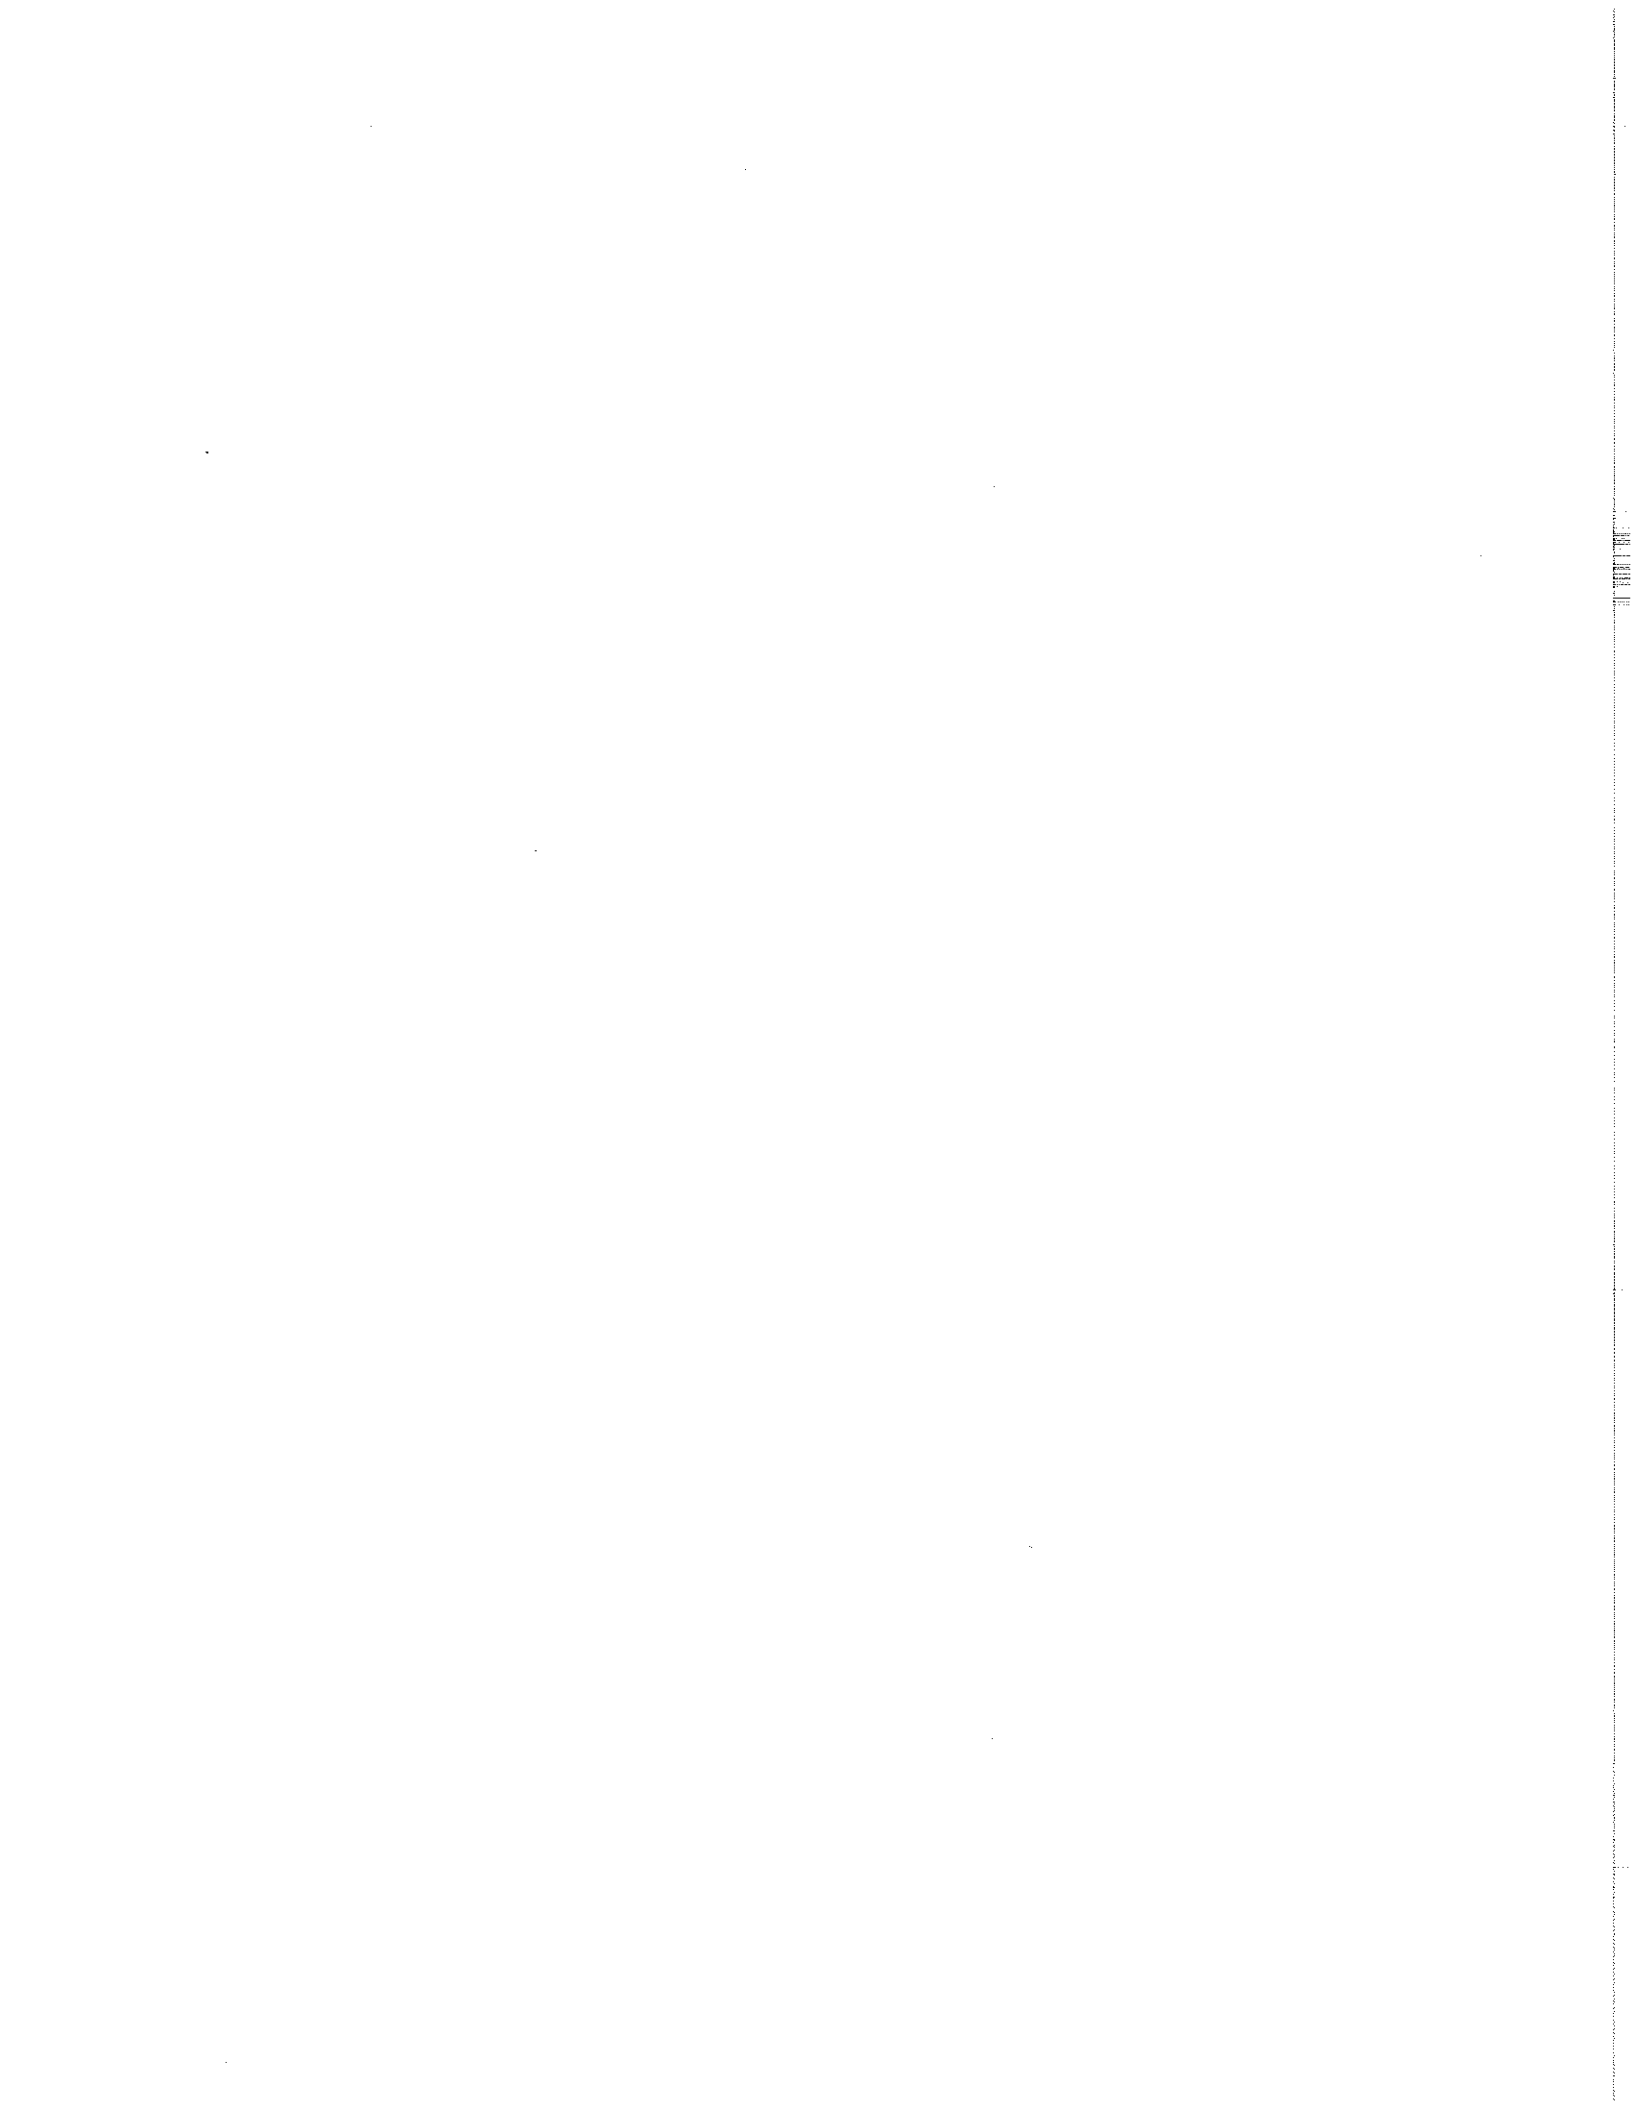

The LPN Board continues to participate in self-evaluation activities through its participation in the Commitment to Ongoing Regulatory Excellence Project sponsored by the National Council of State Boards of Nursing. This project involves data collection on areas including licensure, governance, nursing education, discipline, fiscal information, practice, and information technology utilized by the Board. Data is collected from Board staff, Board members, and stakeholders of the Board including licensees, nurses complained against, individuals who had filed a complaint, nursing schools, professional associations, and health care facilities. Data is compiled and results are provided at three year intervals. As the purpose of the project is to collect performance data from boards of nursing in order to identify best practices, those procedures or processes that make up the best, most effective practices are then to be identified and shared with other boards of nursing. Preparation of a strategic plan, reviewed by the Board each year during its June Meeting, incorporates specific activities to guide members and staff of the Board in achieving the strategic initiatives and outcomes related to the mission of the board.

The RN and LPN Boards meet annually to discuss matters of common interest. In the joint meeting held June 15, 2011, the Boards reviewed information regarding the West Virginia Center for Nursing as well as other issues affecting nursing regulation. Pursuant to legislation passed during the 2010 Legislative Session, the LPN Board will collaborate with the RN Board and West Virginia Health Care Association to develop a

OVERVIEW OF ACTIVITIES FOR FISCAL YEAR 2010 AND 2011 PAGE 6

pilot project for unlicensed personnel to administer medications in long term care settings.

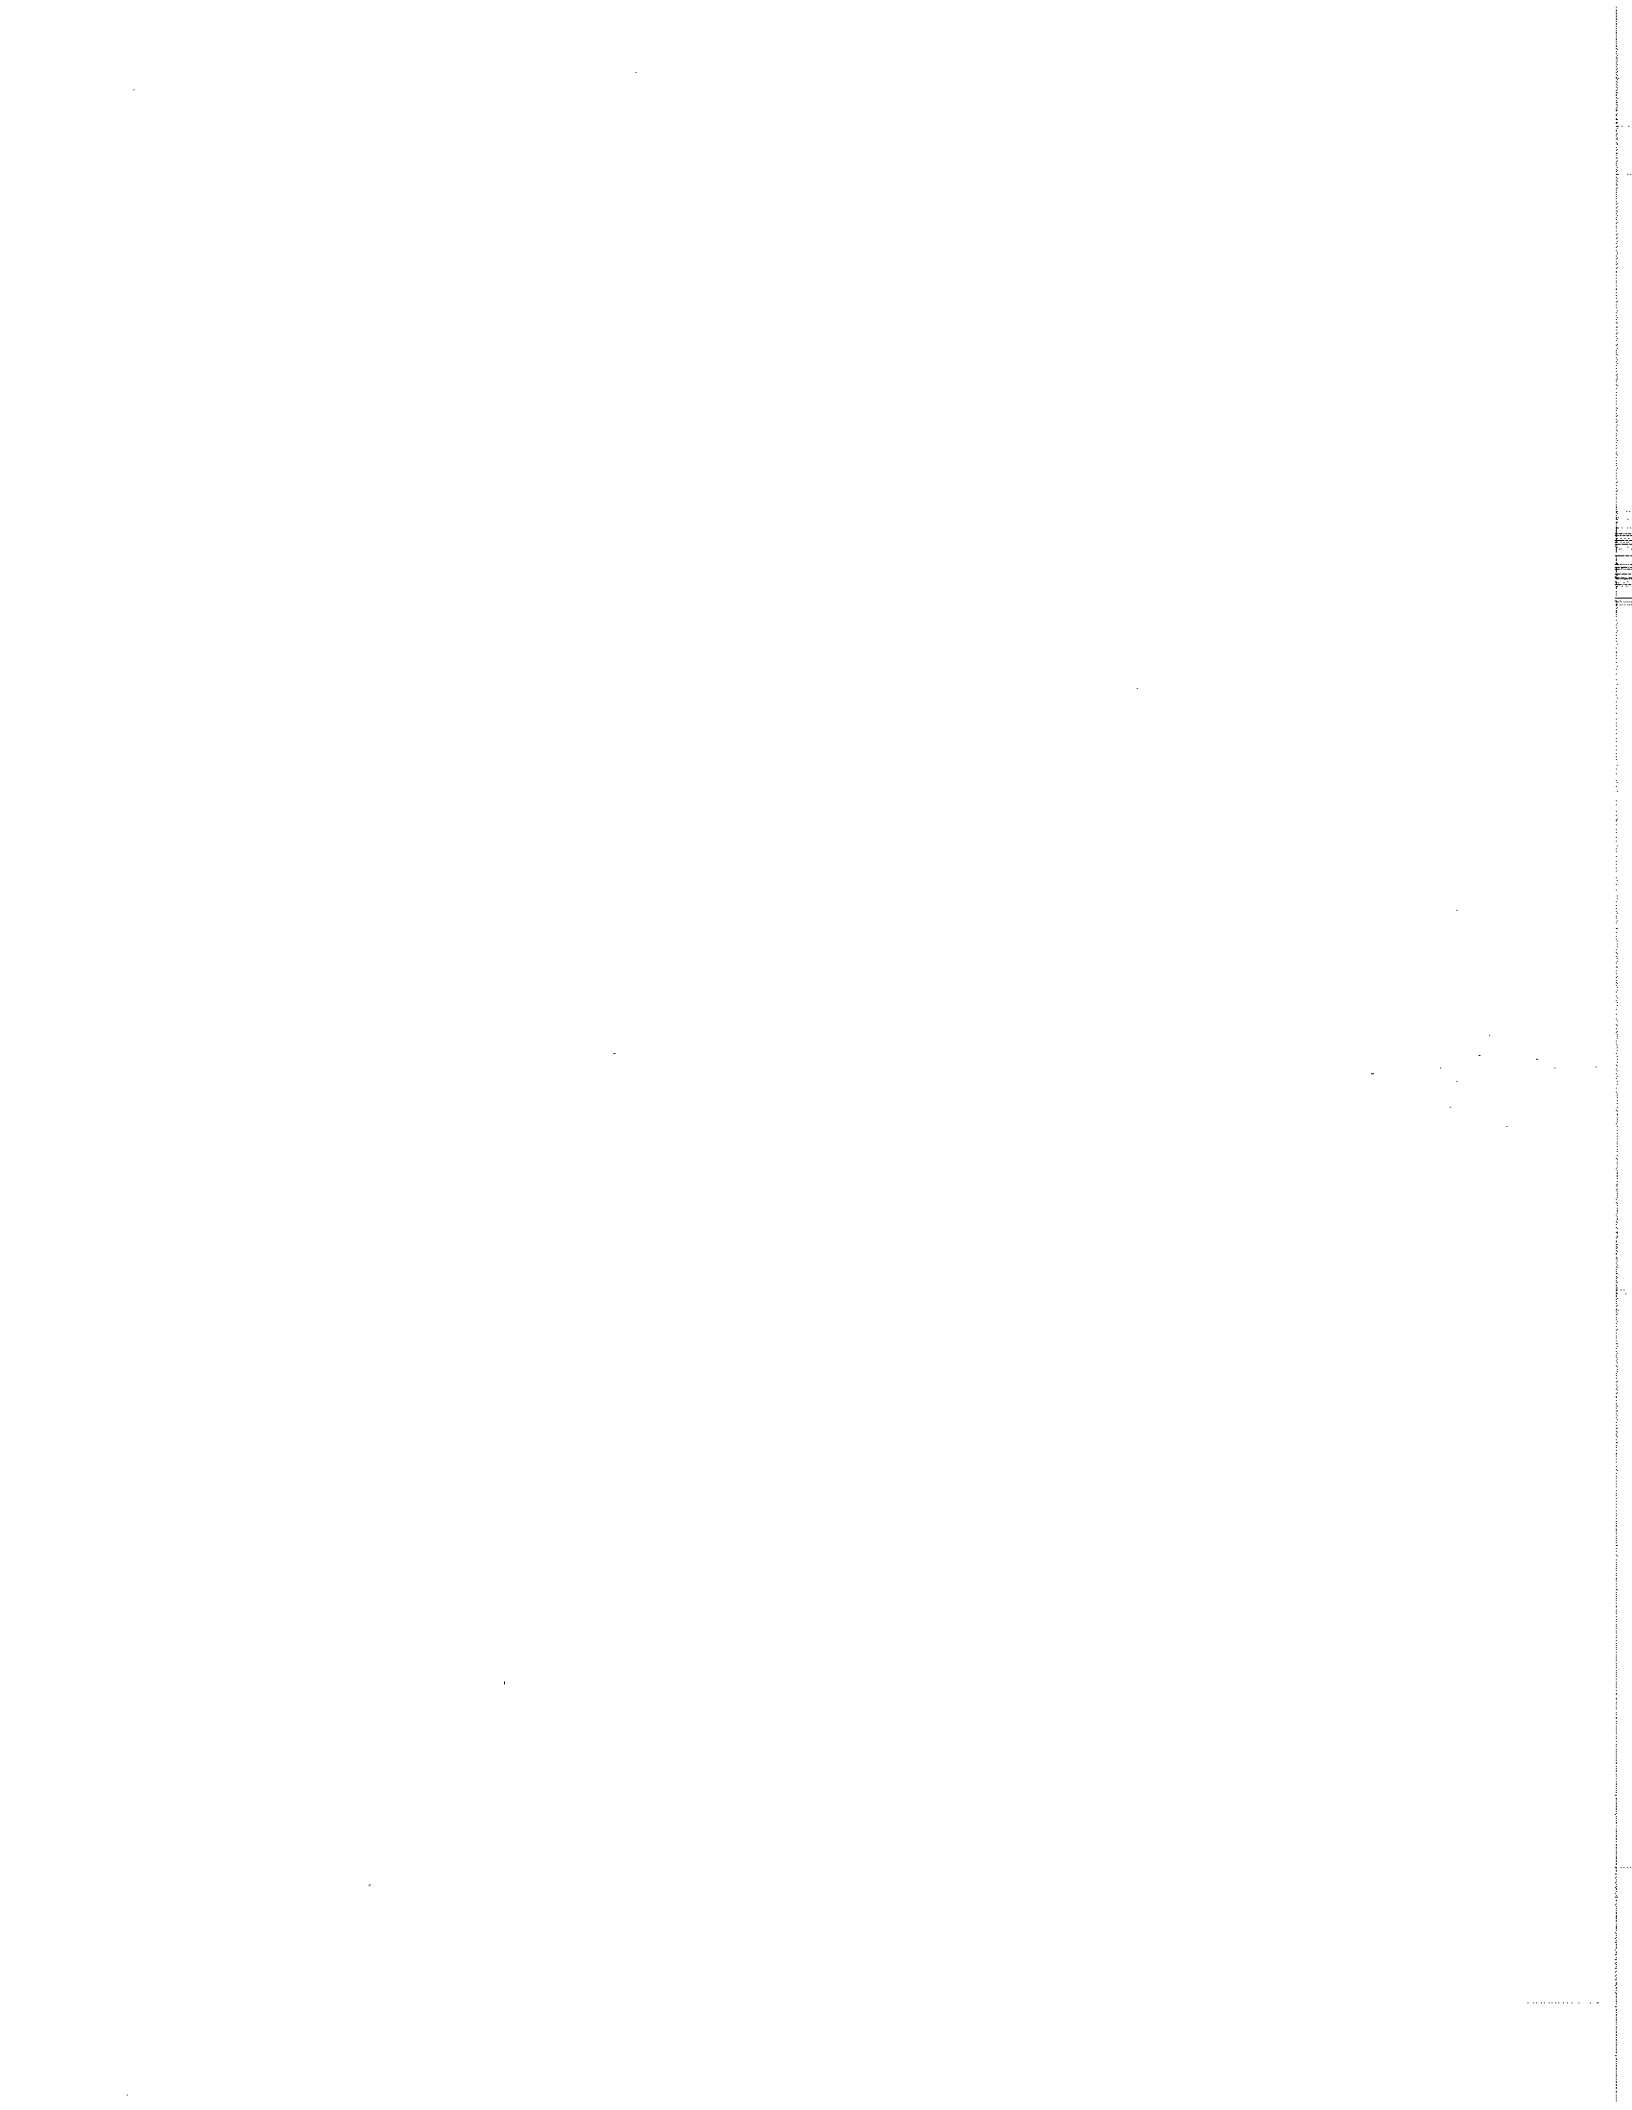

The Board is committed to collaboration with other health related or licensing agencies and organizations to improve public access to and information about education, licensure, practice, discipline and accountability for LPNs. The board maintains a web site, a toll free telephone line, and publishes two newsletters a year. Information from the licensee data base is available on the web site. It is therefore possible for anyone with internet access to check the status of a license of an LPN from the Board's home page. This information is updated on a daily basis each business day. The Board collaborated with the West Virginia State Treasurer's Office to implement the availability of online renewals and online endorsement applications, both of which have been successful. Also, the Board participates in the process of the submission of licensure information to the National Council of State Boards of Nursing's NURSIS Data Base. The purpose of this data base is to create an unduplicated list of all licensed nurses in the United States, which can be accessed for license verification purposes by other state boards of nursing and other interested parties.

FROM THE PRESIDENT

Vickie Bennett, RN

HAPPY SPRING to Everyone! My name is Vickie Bennett and I would like to introduce myself as your new LPN Board of Examiners President. I am an RN and currently am employed as the Health Service Administrator at a WV Correctional facility. I have also walked in your shoes as an LPN. Therefore, your daily trials are near and dear to my heart – but enough about me.

I want to congratulate those of you who recently graduated and those what will complete your training in the next few months. The next life trial will be to pass your NCLEX and then find the BIG JOB – what you have dreamed about, longed for and studied many long hours to achieve. You are finally there. You are a NURSE.

You have heard of the saying "It takes a village to raise a child." Rephrasing this thought to fit your new career, it might read as "It takes a medical TEAM to care for a patient." Your patient is the most important person on this team. Your "active" role on the TEAM is to be the liaison between your patient and the physician, the lab, radiology, housekeeping, other nurses, visitors, and so on.

You have chosen a profession that puts your "active TEAM membership" in the limelight wherever you take a step, both on and off duty. The attribute of listening is just as important to the patient as it is to your co-workers. The cooperation that you give to your patient is as significant as the collaboration that you show to the other TEAM members. These characteristics not only show your cherished pride in being a nurse, but also the dignity you have in being a member of a very elite professional TEAM.

Please endeavor not to tarnish your record or the reputation of the TEAM. Stand tall, be proud of what you have accomplished and what you will succeed in as your nursing future unfolds.

I have a saying at my facility: There is something "GREATER" at work here, our staff, our organization, the work we do, the care that we give and how we do it TOGETHER.

Good luck in your nursing careers.

LPN SCHOOL NEWS

The 16th annual WV Health Occupations Students of America (HOSA) State Leadership Conference was held on March 4 and 5th in Huntington, West Virginia. In cooperation with the West Virginia Department of Education, Division of Career and Technical Education, Health Science Education and Mountwest Community and Technical Colleges, the schools of practical nursing students took top honors in over 55 events. Attending were over approximately 680 competitors, advisors and over 150 industry personnel volunteering their time to make this a successful event. The Marshall Campus was extremely busy and hustling with students from all over the state competing in HOSA. At the State Leadership Conference (SLC), WV HOSA members had the opportunity to test their healthcare skills and knowledge in competitive events, participate in leadership development skills and recognition events, attend stimulating educational symposiums, and meet and network with healthcare professionals.

The Logan-Mingo School of Practical Nursing participated in the recent Health Occupations Students of America (HOSA) competition. Student Amber Tomblin won the 2011 Program Cover Contest and was awarded \$150.00 plus recognition during the competition. Congratulations!

The United Technical Center School of Practical Nursing recently obtained a clinical simulator mannequin, which they have used for mock clinical simulation/critical thinking exercises. The school also recently developed an online medical terminology course. Students participated in a handwashing education and demonstration activity with a local elementary school of approximately 600 students. United also has a new faculty member, Ms. Kendra Walton, who began her nursing career as a student in the program and now has a BSN. Welcome Ms. Walton!

FROM THE BOARD PRESIDENT

The Role of Mentors in Recruitment and Retention

by Gregory Chiartas, JD

More years ago than I would like to remember I was fresh out of law school and an associate at a large litigation firm. I went to work believing that because of my education, I knew my career goals and how to practice law. At first I went to work for a partner, who demanded litigation support from me immediately. I quickly learned that other than finding my way to the court house I really knew nothing about the everyday aspects of practicing law. During the next year, I became so discouraged and so frustrated I decided that I needed a career change and fast. Fortunately, before signing the final papers to join the Air Force, I was assigned to work for another partner. This attorney was a natural mentor and I was his protégé. In that environment I quickly thrived and after a few years had my own case load. Ultimately I became head of the general litigation section where I had the opportunity to mentor many other young lawyers. So what do mentors do? They teach, they nurture, they inspire.

The nursing profession is still suffering from a long severe shortage. Many states have reported declines in nursing school enrollments. This decline has many reasons. Among those include the opening of traditionally male dominated occupations to women, inadequate salary increases, increased work load and a dramatic increase in work-related stress. While in recent years a decline in our economy has caused an influx of those seeking a nursing education that rise may be short lived as the economy improves.

Many nurses feel that they are relatively uninformed about the realities of nursing including the changes in our current health care system, which directly impact what they do. Consequently, many nursing articles report that a new nurse has a 25% likelihood of leaving their first job or even the profession within 2 years.

Since hospitals and other care facilities spend enormous sums orienting each new nurse, this translates into huge losses for the health care facility as well as a threat to patient care.

Preceptors help new nurses deal with the uncertainty of the clinical setting in sort of an apprenticeship setting but mentors do more. A mentor not only helps the new nurse learn many clinical aspects of the profession, they provide nurturing feedback, advice and viewpoints that help the new nurse grow and advance in his/her career. A good mentor is not only a teacher and a coach but provides support in good times and in bad. Many help the new nurse develop new talents. Obviously, a mentor must be experienced enough to help the protégé achieve certain goals but the mentor should also be knowledgeable and "street smart" in the nursing arena.

A mentor can:

- 1) Reduce stress by providing transitional assistance
- 2) Offer career advice
- 3) Assist with personal development
- 4) Offer shadowing opportunities
- 5) Offer guidance in challenging professional situations

A new nurse however, must choose a mentor wisely. Consider your personality and find someone that compliments yours and is easy to be around. Look for someone who you admire, someone you can trust and confide in, and someone who is a good communicator. Make sure the mentor is available on a predetermined basis which is agreeable to both parties. Find someone who has the traits, professionalism and skills you want to develop.

So what does the preceptor/mentor get in return? They get what many in the teaching profession find intoxicating. They impart a piece of themselves in their protégé. They are examples, role models, and professionals to be admired. Mentors get to share themselves, their successes and challenges with someone else in their profession. Importantly, by setting a positive and constructive tone, mentors give back to nursing, helping to shape the health care system of tomorrow. Often while doing so mentors acquire valuable new perspectives in nursing. In short being a mentor is a gift that keeps on giving, hopefully one day leading the protégé to become the mentor.

Studies show that the influx of new nurses into the profession and the retention of new nurses are higher where mentoring/preceptor programs exist. By encouraging more experienced nurses and illustrating to administrators to the real dollar value in and increase in quality of care, mentoring programs can and should be developed within the health care facility or through nursing organizations.

WVNA OPENS MEMBERSHIP TO LPNS

The West Virginia Nurses Association is now accepting applications for membership from licensed practical nurses. The Mission of WVNA is "to ensure a unified and powerful voice for all nurses, to advocate for enhancement and access to quality, professional, healthcare services for all citizens of West Virginia, and to promote the professional development of nurses to ensure the forward progress of our profession" Additional information can be found at www.wvnurses.org or by calling 1-800-400-1226.

THE WV CENTER FOR NURSING AND WVNA CARE ABOUT YOU!

The West Virginia Center for Nursing and the West Virginia Nurses Association are pleased to announce plans for a Spring 2011 conference. Our focus is on the health and well-being of our nurses and healthcare workers throughout the State. We spend many hours a day planning and caring for others. Let's take a little time to think and learn about the health issues directly related to us, the healthcare worker. The conference was planned after review of national data identifying the nursing profession at the highest risk for injury, the largest percentage of smokers and the high degree of stress identified in the healthcare field. These are just a few of the topics that will be addressed during our one and one-half day conference.

A keynote speaker for the conference will include Dr. Francine Grodstein. She is an Associate Professor of Medicine at Harvard Medical School and Associate Epidemiologist for the Department of Medicine at Brigham and Women's Hospital. A research study called the Nurses' Health Studies began in 1976 with over 238,000 nurse participants. The primary focus was on prevention of cancer, but the study has produced landmark data on cardiovascular disease, diabetes and many other conditions. Dr Grodstein's research base is the Nurses' Health Study (NHS). Overall, her work encompasses a large variety of research topics, from identifying lifestyle and dietary factors that influence cognition to risk factors for incontinence. She will discuss the Nurses' Health Study and her most current research.

We will also hear from Dr David Feathers. Dr Feathers is an assistant professor at Cornell University with a background in engineering, anthropology, and rehabilitation technology. His research interests are in the areas of applied musculoskeletal anatomy, biomechanics, biometrics and applied anthropometry, digital human modeling, rehabilitation engineering, accessibility, and universal design for human health and well-being. He performs research in the following laboratories:

- Simulation and Human Engineering in Design (SHED) Lab (Director)
- Human Factors and Ergonomics Laboratory (Co-Director)

He will be sharing with us his Summer 2010 research findings regarding ergonomics and patient lifting.

Other session topics will include work place injury, stress management, safe patient handling, naturopathic medicine and alternative therapies, workplace wellness programs, and smoking cessation. A vendor area will include local health agencies, pharmaceutical companies, and medical supply companies.

The conference will be held at the Marriott Town Center in Charleston, WV on Thursday, April 7th, 2011 from 8:30 am - 3:30 pm and Friday, April 8th, 2011 from 8:30 am to 12 noon. Continuing education units will be assigned for the attendance of the entire conference. Registration is required by contacting the WV Center for Nursing by phone at 304-558-0838 or print the registration form at www.wvcenterfornursing.org and register by mail.

MISCELLANEOUS

23A

E-LICENSING

Executive Director attended a meeting on Friday, January 21, 2011 regarding the potential of the development of a web-based system which would permit licensees from a variety of agencies to apply for licensure, renew, and report CE. The goal is to have a system in place which would consist of a template which could be modified according to each Board's individual needs. The WV Governor's Office of Technology is working with individual Boards who have volunteered to participate in a pilot of this project.

23B

SAFETY COMMITTEE

No issues reported.

23C

NURSE HEALTH PROGRAM

Lanette Anderson has been invited to participate on the Advisory Board of the Nurse Health Program, which is a peer-assistance program for nurses and nursing students. The first meeting will be held on February 17, 2011 at 4:00 pm.

20D

SUPREME COURT

Executive Director reported that a January 2010 WV Supreme Court decision which held that matters discussed in executive session of meetings by agencies are subject to disclosure as a part of legitimate discovery in a civil action. To date this has not been an issue with the Board.

21

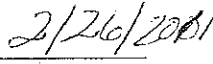

ADJOURNMENT

A motion was made by Orpha Swiger that the meeting be adjourned. Motion was seconded by Vickie Bennett. Motion carried. Gregory Chiartas, President, adjourned the meeting at 11:00 a.m.
