The Honorable Earl Ray Tomblin
Governor of West Virginia
State Capitol, Building 1
Charleston, West Virginia 25305

Dear Governor Tomblin:

The West Virginia State Board of Examiners for Licensed Practical Nurses is pleased to provide you with our report of the biennium covering activities during the period between July 1, 2013 and June 30, 2015.

The goal of this agency is to provide competent, professionally prepared licensed practical nurses to provide safe, quality nursing care to the citizens of West Virginia. This goal is shared by other health care licensing boards and state agencies, and is demonstrated by the prevailing spirit of cooperation that exists between this Board and those other agencies. Staff and members of this Board continue to be active in nursing regulation on a national as well as state level. A cooperative spirit is also evident in health care agencies that offer their facilities for educational purposes, and then employ licensed practical nurses as a part of their health care work force.

Please feel free to contact our office with questions or comments concerning information contained in this report.

For the Board,

A handwritten signature in cursive script that reads "Lanette L. Anderson".

**WEST VIRGINIA STATE BOARD OF EXAMINERS
FOR LICENSED PRACTICAL NURSES**

OVERVIEW OF ACTIVITIES FOR FISCAL YEAR 2014 AND 2015

Members and staff of the West Virginia State Board of Examiners for Licensed Practical Nurses are active participants in meetings and activities across the country on matters of licensing, professional regulation and changing health care delivery systems. Members and staff continue, as has historically been the case, to serve on committees at the national level with agencies involved in licensing nurses from other states as well as agencies relating to health care and other professions within our own state. This involvement assures that members are aware of the many issues surrounding not only practical nursing, but the entire health care system, as the industry continues its attempts to organize and reorganize delivery of health care to achieve acceptable quality care with fewer health care practitioners and fewer health care dollars. Changes in the patterns of delivery and mix of competent providers have resulted in fluctuations in demand for licensed practical nurses. Over time the demand in one area increases while the demand in another area may decrease. Summaries of annual reports from the state's licensed practical nursing schools demonstrate over the past few years that the number of graduates of nursing programs has remained fairly stable, and that graduates are obtaining employment in the health care field. Licensed practical nurses particularly continue to be steadily employed in long term care, and are important parts of the health care team in that setting. Numbers of actively licensed LPNs in West Virginia have risen gradually over the past ten (10) years and continue to do so.

The number of LPN schools in West Virginia was twenty-six in 2015. A program at West Virginia Junior College in Bridgeport, began operation in early 2015 and currently has tentative state accreditation by the Board. Of the other existing twenty-five programs, twenty-one programs

are within the vocational education system. One program, the B.M. Spurr School of Practical Nursing, is privately sponsored by Reynolds Memorial Hospital, one program is located at New River Community and Technical College, one is at Salem International University, and one is located at Pierpont Community and Technical College.

The Board utilizes the National Council Licensure Examination for Practical Nurses, through contract with the National Council of State Boards of Nursing, Inc. This examination provides for interstate endorsement of licensees without further testing. With computer adaptive testing technology candidates are permitted to contact the testing center and test six days a week, year round rather than twice per year. They are also permitted to test in any of over 100 testing locations across the country, rather than in West Virginia alone to get a West Virginia license. Results are transmitted to the Board via internet technology from the national testing service. Candidates are forwarded their results and licensure information for new licensees is posted on the Board's website as early as the same day as the candidate completes the exam. Retesting of failing candidates is available every forty-five (45) days.

The Board monitors licensee compliance with continuing competence requirements of twenty four contact hours of continuing education and four hundred (400) clock hours of practical nurse employment in each designated two year reporting period. A reporting cycle was completed with the renewal period ending June 30, 2014. The next reporting period will end on June 30, 2016. Random continuing education audits are conducted on 7 to 10% of licensees per reporting cycle.

The Board continues to receive complaints against licensees for professional misconduct. In FY 2013 the Board received one hundred twenty-seven complaints, and in FY 2014 one hundred

seventy-five disciplinary cases were logged. In FY 2015 this number was one hundred eighty-two cases. Increases in numbers of disciplinary cases continue to be observed in all licensed professions in all states across the country. Continuing efforts to refine the process and procedures for complaint management have resulted in effective and timely resolution in most cases. The average complaint takes approximately seventy calendar days from receipt of the complaint to execution of board action either imposing disciplinary measures or dismissing charges as unsubstantiated or outside the jurisdiction of the Board. Board staff addresses groups of nurses, nursing employers, and students upon request to discuss the disciplinary process, the importance of accurate documentation when providing patient care, etc.

The Board has evaluated both procedures and processes regarding effectiveness of functioning of the agency as a comparison to map progress toward achievement of strategic initiatives and outcomes approved by the Board. The Board implemented a paperless licensure system in 2010 during the license renewal period. Information on the Board's website regarding licensure status is updated each business day at 3:00 pm, and employers and nurses can verify any needed information on that website.

The LPN Board continues to participate in self-evaluation activities through its participation in the Commitment to Ongoing Regulatory Excellence Project sponsored by the National Council of State Boards of Nursing. This project involves data collection on areas including licensure, governance, nursing education, discipline, fiscal information, practice, and information technology utilized by the Board. Data is collected from Board staff, Board members, and stakeholders of the Board including licensees, nurses complained against, individuals who had filed a complaint, nursing schools, professional associations, and health care facilities. Data is

compiled and results are provided at three year intervals. As the purpose of the project is to collect performance data from boards of nursing in order to identify best practices, those procedures or processes that make up the best, most effective practices are then to be identified and shared with other boards of nursing. Preparation of a strategic plan, reviewed by the Board each year during its June Meeting, incorporates specific activities to guide members and staff of the Board in achieving the strategic initiatives and outcomes related to the mission of the board.

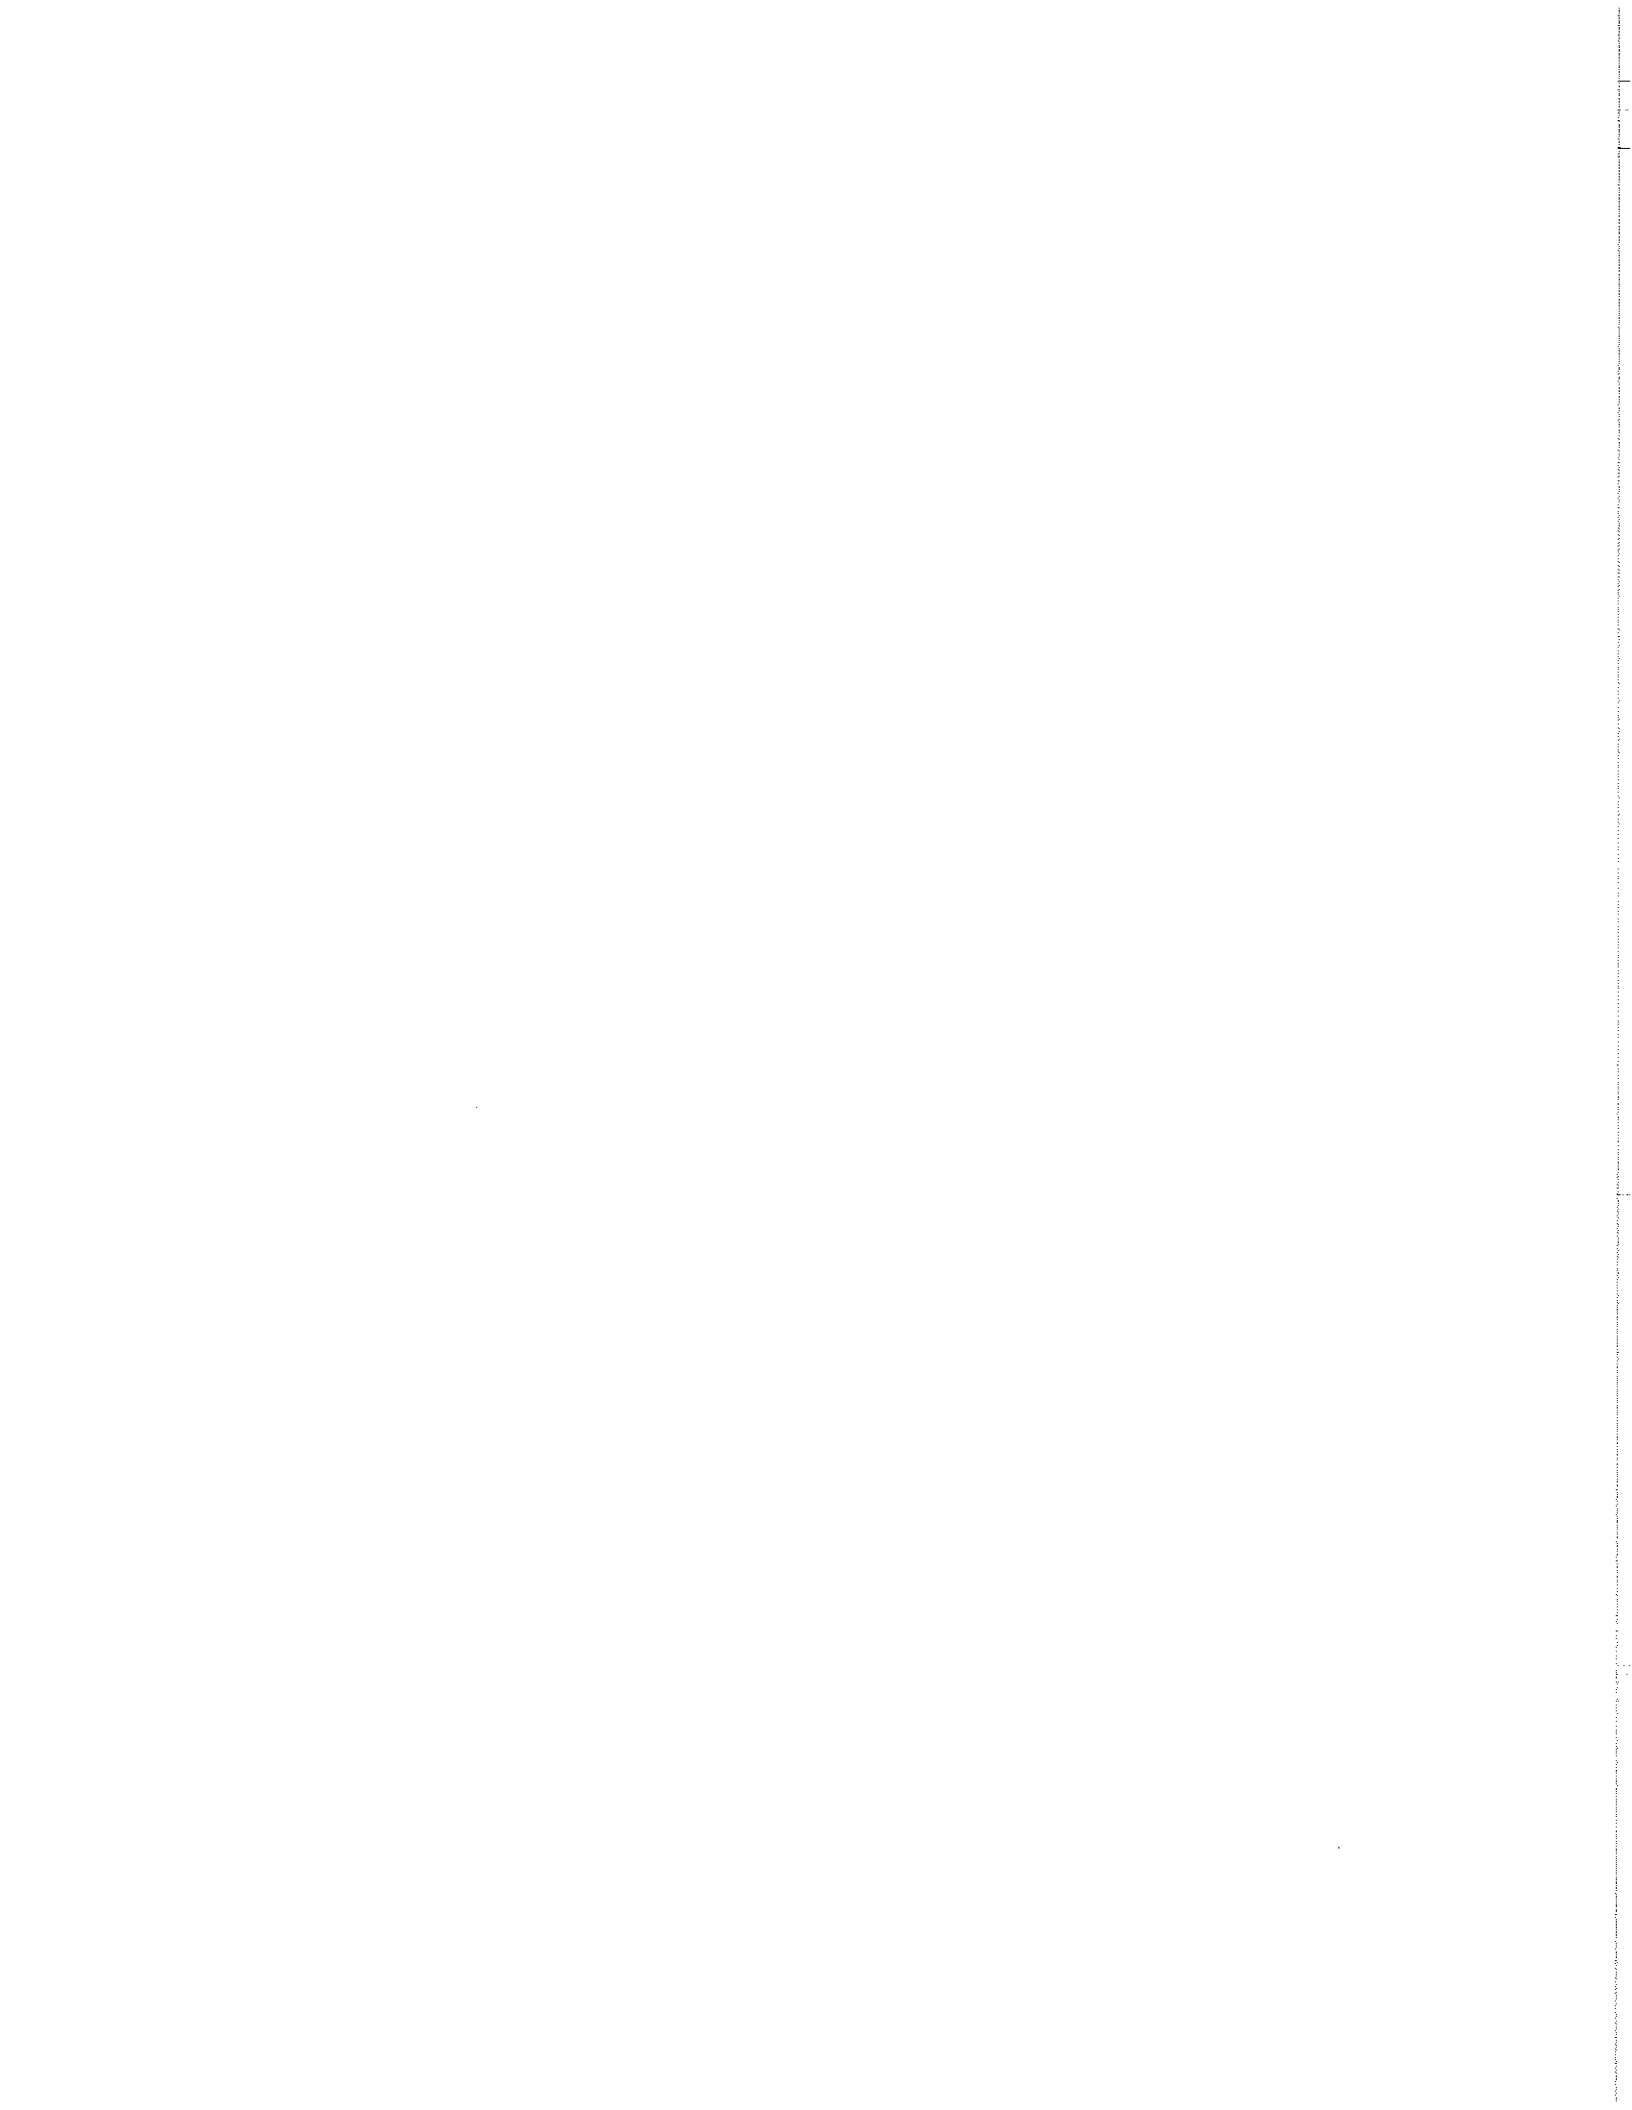

The RN and LPN Boards meet annually to discuss matters of common interest. In the joint meeting held June 10, 2015, the Boards reviewed information regarding the West Virginia Center for Nursing, scope of practice, and other issues affecting nursing regulation.

The Board is committed to collaboration with other health related or licensing agencies and organizations to improve public access to and information about education, licensure, practice, discipline and accountability for LPNs. The board maintains a web site, a toll free telephone line, and publishes two newsletters a year. Information from the licensee data base is available on the web site. It is therefore possible for anyone with internet access to check the status of a license of an LPN from the Board's home page. This information is updated on a daily basis each business day.

The Board has collaborated with the West Virginia State Treasurer's Office to implement the availability of online renewals and online endorsement applications, both of which have been successful. Also, the Board participates in the process of the submission of licensure information to the National Council of State Boards of Nursing's NURSYS Data Base. The purpose of this data base is to create an unduplicated list of all licensed nurses in the United States, which can be accessed for license verification purposes by other state boards of nursing and other interested

parties. The Board has also implemented a new Regulatory Office Management System developed by the National Council of State Boards of Nursing as a service to its Member Boards. The goal of this system is to increase efficiency of work for staff and improve Board access by LPNs, employers, and the public at large. The first phase of this system was utilized during the 2015 renewal cycle with success.

The Executive Director of the Board was elected in August 2011 to serve a two year term on the Board of Directors for the National Council of State Boards of Nursing and won reelection at the August 2013 National Council Annual Meeting for an additional two year term. Members and staff continue to be active in National Council activities including attendance of meetings and service on committees.

FROM THE PRESIDENT

Francine Kirby-Chittum, MSN, RN

The warm weather of summer has been quickly replaced with cold and blustery wind and snow ushering in the holiday season and as the seasons change so do the practices in education of nursing students. The 21st century has created many changes in health care and along with that the need for nursing education to evolve with newer and more innovative ideas for safe and knowledgeable practice. This century has provided us with many opportunities for change and challenge defining in nursing education not only what we shall teach but also how we shall teach our nursing students.

Many factors have influenced the change in nursing education such as the fact that we are living longer and with that come more acute and chronic illness and newer approaches to treatment that the nurse of the future must be able to respond. The rise of alternative medicine and therapies has brought about change in education going from what was once the routine to the now not so routine. And last there is the world of technology, always present and ever changing. Nurses have developed the skills of computer literacy and distance education but the new frontier is the highly sophisticated and very technical simulation laboratory. How exciting!!! Education in a technological environment with a simulator that can do almost anything helps our students develop their critical thinking skills. We have come a long way from the Annie manikin of my day!

Change is good and just as the seasons change for the benefit of nature, we in education need to change our ways of what we teach and how we teach in an effort to prepare nursing students for the challenges of the future.

Reinstatement of license from probation to full status
September 8, 2014

All disciplinary actions taken are public information and are therefore provided to any individual who may call to inquire about the status of a license. They are also reported to the NURSYS national nursing data base as maintained by the National Council of State Boards of Nursing, the HIPDB Data Bank as maintained by the federal government, and also to the Office of the Inspector General when a license has been surrendered, suspended, or revoked.

IMPORTANT INFORMATION – NEW CE REQUIREMENT!!!!

Senate Bill 437, passed during the 2012 WV Legislative Session, states that "...the West Virginia Board of Medicine, the West Virginia Board of Dental Examiners, the West Virginia Board of Optometry, the West Virginia Board of Pharmacy, the West Virginia Board of Examiners for Registered Professional Nurses, the West Virginia State Board of Examiners for Licensed Practical Nurses and the West Virginia Board of Osteopathy shall establish continuing education requirements and criteria appropriate to their respective discipline on the subject of drug diversion training and best practice prescribing of controlled substances training for each person issued a license or certificate by their respective board who prescribes, administers or dispenses a controlled substance..."

Therefore, all LPNs will be required to complete at least 3 contact hours in the area of chemical dependency/substance use disorders during each 2 year reporting period. You may access a partial list of approved CE providers on the Board's website under "NEWS."

EXCITING UPCOMING CHANGES TO BOARD OPERATIONS

Changes are coming with regards to how you will interact with the Board to apply for licensure, renew your license, change your name or address, maintain your CE records and utilize other services. The West Virginia LPN Board is the first Boards of Nursing in the US to begin using a new Operations Management System offered by the National Council of State Boards of Nursing. We anticipate that the system will be phased in during late 2014, and updates will continue to be provided in upcoming issues of the LPN News. **One significant change that will take place is that all actively licensed LPNs in West Virginia will be required to have a valid email address to utilize the many new online services which will be offered.** Please feel free to contact the Board with any questions during the implementation period.

INTRODUCING e-Notify! FREE OF CHARGE!

e-Notify is a new nurse licensure notification system developed by the National Council of State Boards of Nursing that delivers real-time notifications to employers about nurses who work for them. Once registered the employer will automatically receive changes to licensure status and available discipline data as the information is entered by boards of

FROM THE PRESIDENT

Vicki Jenkins, Vocational Director

I am proud to serve as the Board President this year and feel fortunate to work with such a professional and dedicated staff and board. These individuals live the mission of the LPN Board to "promote and protect the public health, safety, and welfare through licensure of practical nurses." To that end, it is important to renew your license before it expires and obtain your required continuing education credits. Remember, all LPNs are required to complete at least 3 contact hours in the area of chemical dependency/substance use disorders for renewal of their license during each CE reporting period. Random audits are conducted monthly of reported continuing education. Each time the board meets we review disciplinary actions for a number of individuals who fail to meet basic licensure requirements.

The West Virginia LPN Board is excited to be one of the first Boards of Nursing in the US to begin using a new Operations Management System offered by the National Council of State Boards of Nursing. This system will make renewing your license an easy and efficient process. West Virginia is proud to be a forerunner for this new management system. The system is up and running for renewals, and updates.

Information will continue to be provided in upcoming issues of the LPN News and on our website. It is important that each licensee have an email account to set up a portal as the Board continues to streamline the renewal process and move to a completely paperless system.

The board strives to provide support and information relevant to licensure. Please feel free to contact us should you require additional information.

All disciplinary actions taken are public information and are therefore provided to any individual who may call to inquire about the status of a license. They are also reported to the NURSIS national nursing data base as maintained by the National Council of State Boards of Nursing, the HIPDB Data Bank as maintained by the federal government, and also to the Office of the Inspector General when a license has been surrendered, suspended, or revoked.

INTRODUCING e-Notify! FREE OF CHARGE!

e-Notify is a new nurse licensure notification system developed by the National Council of State Boards of Nursing that delivers real-time notifications to employers about nurses who work for them. Once registered the employer will automatically receive changes to licensure status and available discipline data as the information is entered by boards of nursing. Registration by an employer is free for all nurses employed at the facility. Please see www.nursys.com or contact nursenotify@ncsbn.org for more information and registration. You can also enroll your own license to get updates about your expiration date and any other changes in your licensure status. You can enroll at www.nursys.com or via your Nurse Portal on the LPN Board website.

TAKE A LOOK AT NCSBN.ORG!

The National Council of State Boards of Nursing is a not-for-profit organization through which boards of nursing act and counsel together on matters of common interest and concern affecting public health, safety and welfare. Each Board of Nursing in the US and its territories is a member of NCSBN, and members participate in the establishment of policy for the organization and for nursing regulation at an Annual Meeting and through other mechanisms throughout the year. NCSBN's website has a great deal of information regarding the nurse licensure examinations, links to all other Boards of Nursing, continuing education offerings, and many other resources. We encourage you to take a look!

HOW TO FIND US

The LPN Board office is located at 101 Dee Drive, Charleston, WV. From I-64, take Exit 99 (State Capitol Exit). Turn onto Greenbrier Street (towards the airport and away from the Capitol). Turn right onto Hillcrest Drive. Come to the top of Hillcrest and into Hillcrest Office Park. Take the first left onto Player's Club Drive, then the next left at the mailboxes onto Dee Drive. The office building is a one-story brown building, and the LPN Board is located inside the door where the visitor parking is located.

LPN SCHOOL INFORMATION

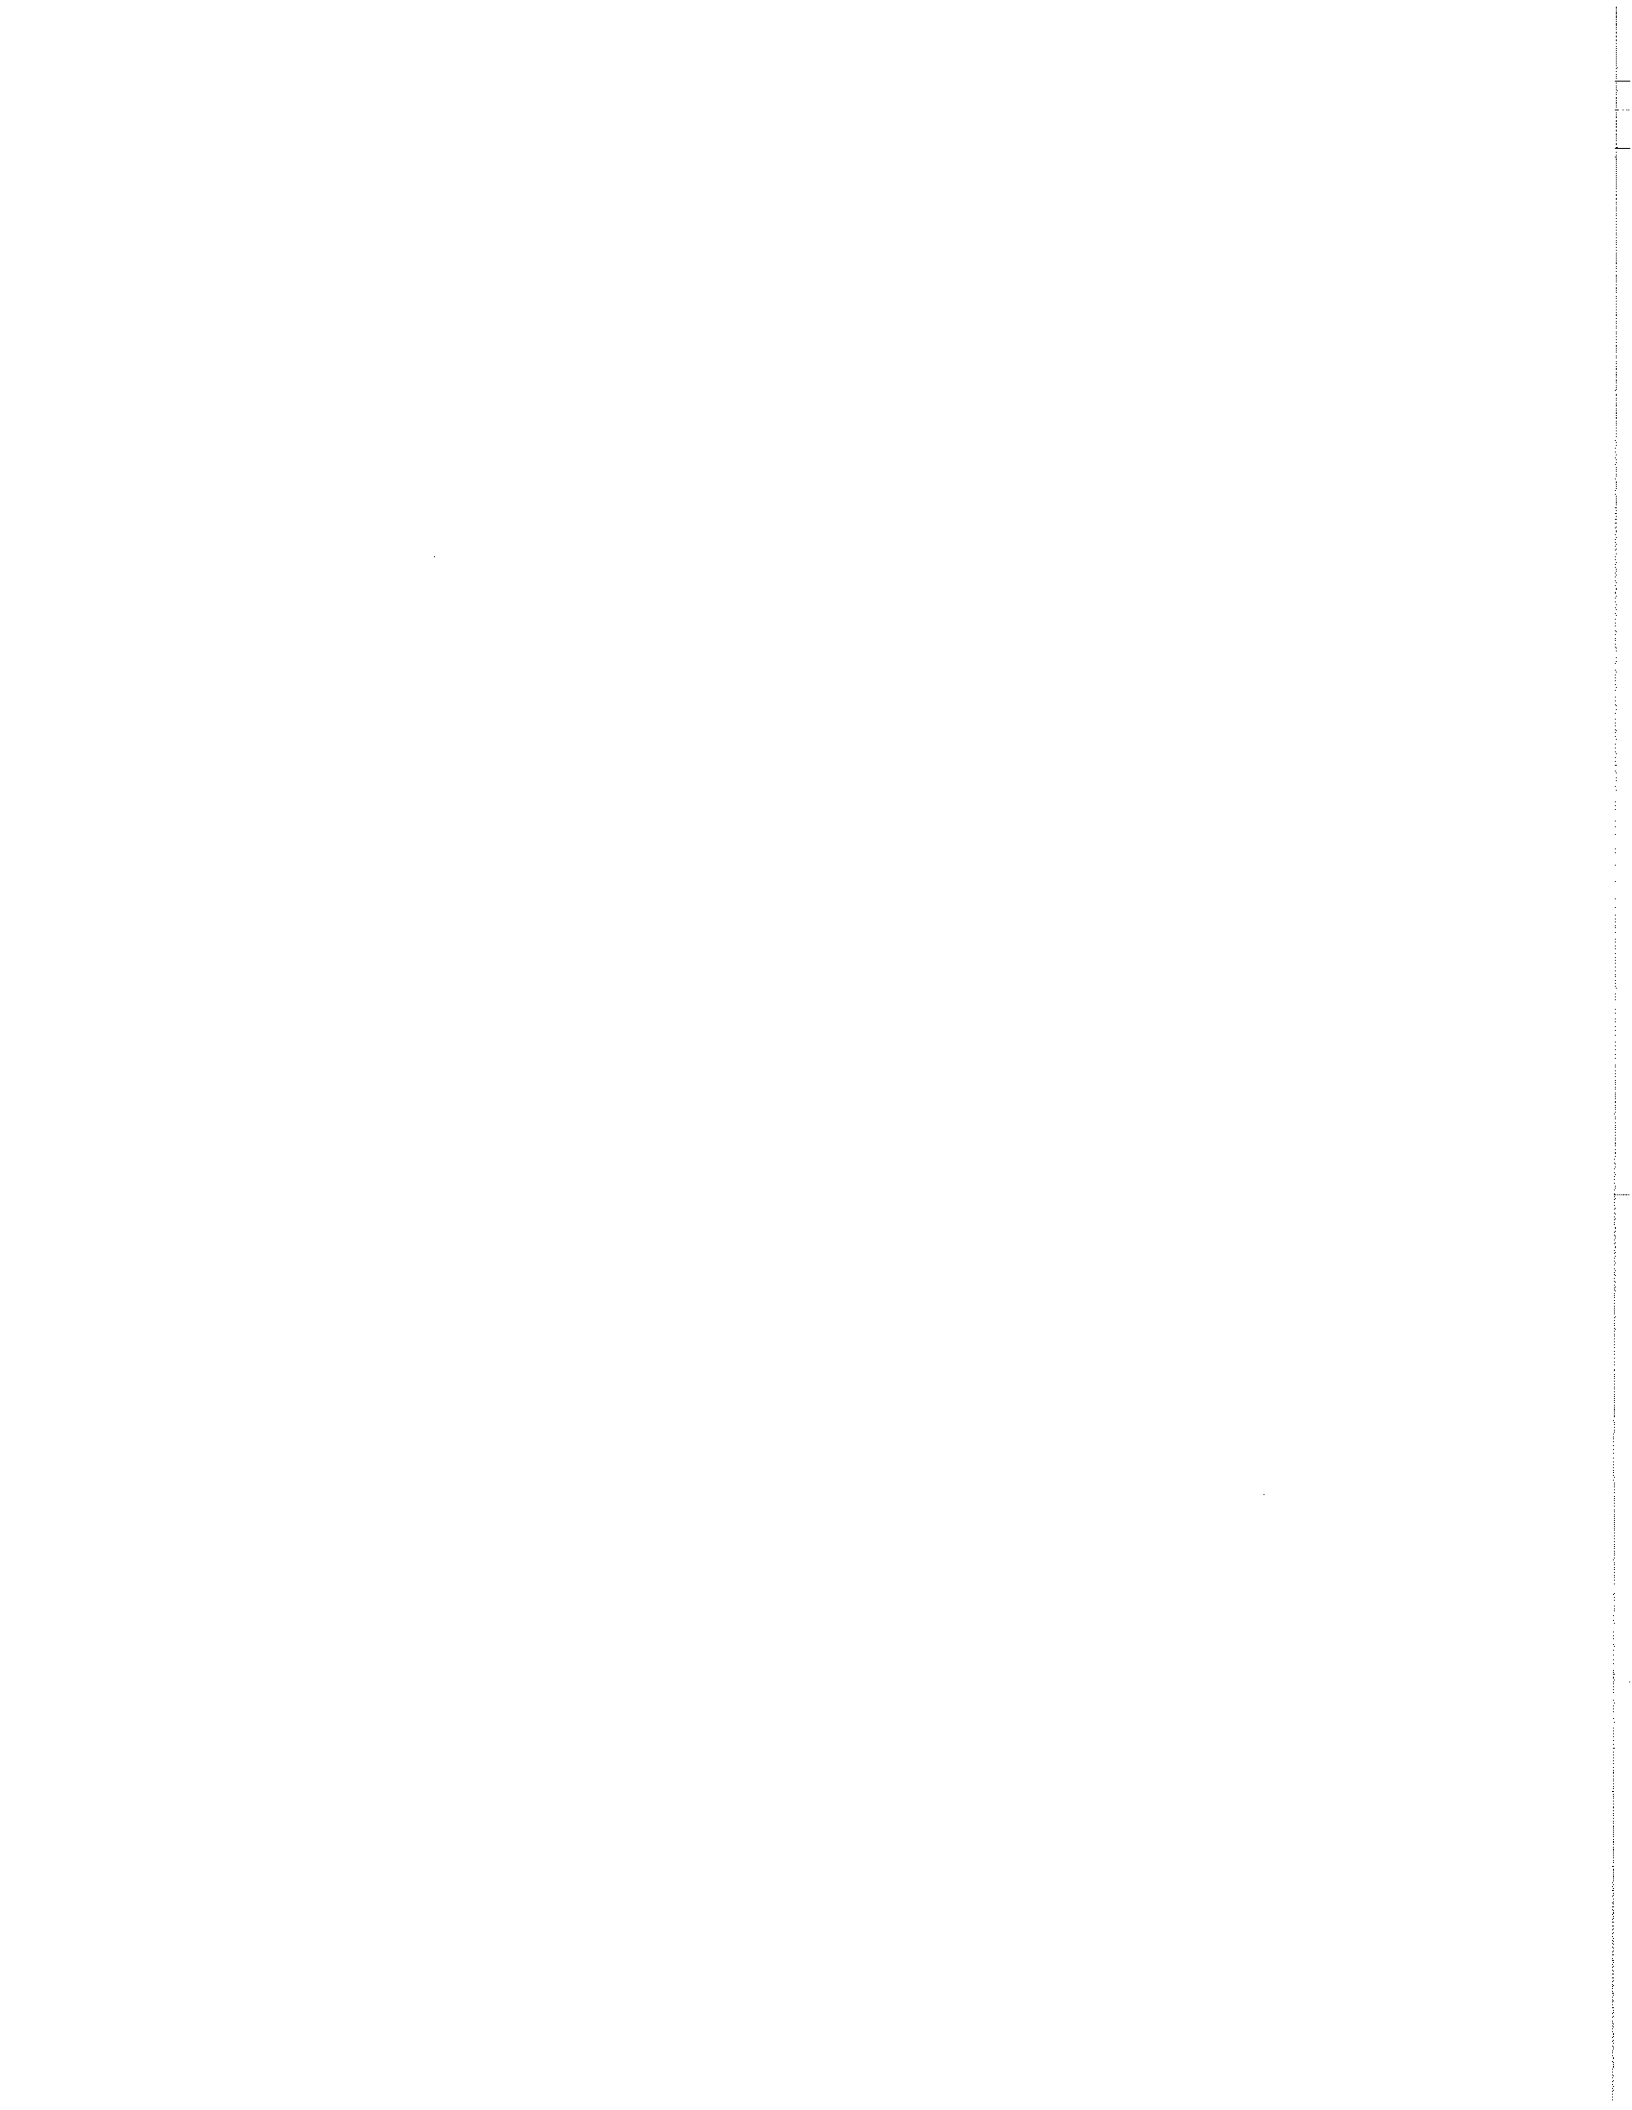

The Board granted Tentative State Accreditation to the new LPN Program at WV Junior College in Bridgeport, WV and they accepted their first class of students in January 2015. The Board will review this program for Full State Accreditation for a three year period when this class has graduated and taken the licensure examination. Best of luck to the faculty and students of this new LPN program!

A list of all West Virginia LPN Schools can be found on the Board's website at www.lpnboard.state.wv.us under "Our Goals and Services", "Education." Each school is accredited by the Board and therefore graduates from all West Virginia LPN schools which meet all other required criteria are eligible to take the NCLEX-PN licensure examination.

FUTURE BOARD MEETING DATES

*June 10, 2015 – Wednesday – Regular Meeting – 9:30 am; Joint RN/LPN Meeting 1:00 pm
October 15, 2015 – Thursday – Regular Meeting – 10:00 am*

LPN Board meetings are open to the public with the exception of executive sessions. If you wish to attend a meeting, please contact the Board office at least three days in advance so that adequate seating can be assured. Meeting dates are subject to change. The proposed agenda for each meeting is posted on the Board's website under NEWS at least 30 days prior to the meeting.

SCOPE &
DELEGATION
DOCUMENT

Executive Director reported that the Board previously reviewed and approved changes to the updates to this document in October 2014. Following the October RN Board meeting, the Board obtained feedback from some stakeholders including EMS and school nursing. Additional edits were made based upon that feedback. The AMAP rule in the document is the one currently in place. There is another rule going through this session therefore it is requested that the Board approve the document and also approve any needed update to the AMAP rule when it becomes effective. None of proposed revisions impact any of the document's content regarding LPNs. By acclamation members approved the document as presented and any changes subsequent to changes in the AMAP rule.

19C

HRSA FUTURE
OF NURSING
WORKFORCE

This report states that projected supply and demand for LPNs varies substantially by state, at the national level the supply is projected to outpace the demand.

ADJOURNMENT

A motion was made by Gregory Chiartas that the regular meeting of the Board be adjourned. Motion was seconded by Benjamin Vincent. Motion carried. Meeting was adjourned by President, Francine Kirby-Chittum at 11:00 a.m.
