The Honorable Joe Manchin, III  
Governor of the State of West Virginia  
State Capitol Building  
Charleston, West Virginia 25305

Dear Governor Manchin:

In accordance with the provisions of Chapter 22A, Article 1A, Section 4 of the Code of West Virginia, I am pleased to submit the 2006 Annual Statistical Report and Directory of Mines for the West Virginia Office of Miners' Health, Safety and Training.

Sincerely,

  
Ronald L. Wooten  
Director

## **FORWARD**

---

It is important to note that within this 2006 Annual Statistical Report and Directory of Mines for the State of West Virginia is embedded documentation of the most tragic year in West Virginia's recent coal mining history. Twenty five (25) miners were killed in West Virginia coal mines during 2006. This follows a year (2005) in which four miners were killed, an all time low. As we review this year past, and as we think of the year's record, as well as the record of all previous years, we must remember that coal miners are real people, real West Virginians. They must not and cannot be relegated to a numerical statistic. We must remember them as their loved ones do—hard working and loving family members.

As we look to the future we must improve the safety performance of our state's coal mining industry. The lion's share of this work must be accomplished by the West Virginia coal industry and by West Virginia coal miners. The entire West Virginia coal mining community must use the dismal reality of our 2006 performance as a motivational force to improve our performance in the years to come.

The goal of the West Virginia Office of Miners' Health, Safety and Training will continue to be to make West Virginia the safest state in the country in which to mine coal.

*The 2006 Annual Report and Directory of Mines is dedicated...*

***IN MEMORY***

*Of*

***John Ashcraft***, former Director,  
West Virginia Department of Mines

## West Virginia Office of Miners' Health Safety and Training Regions and Office Locations

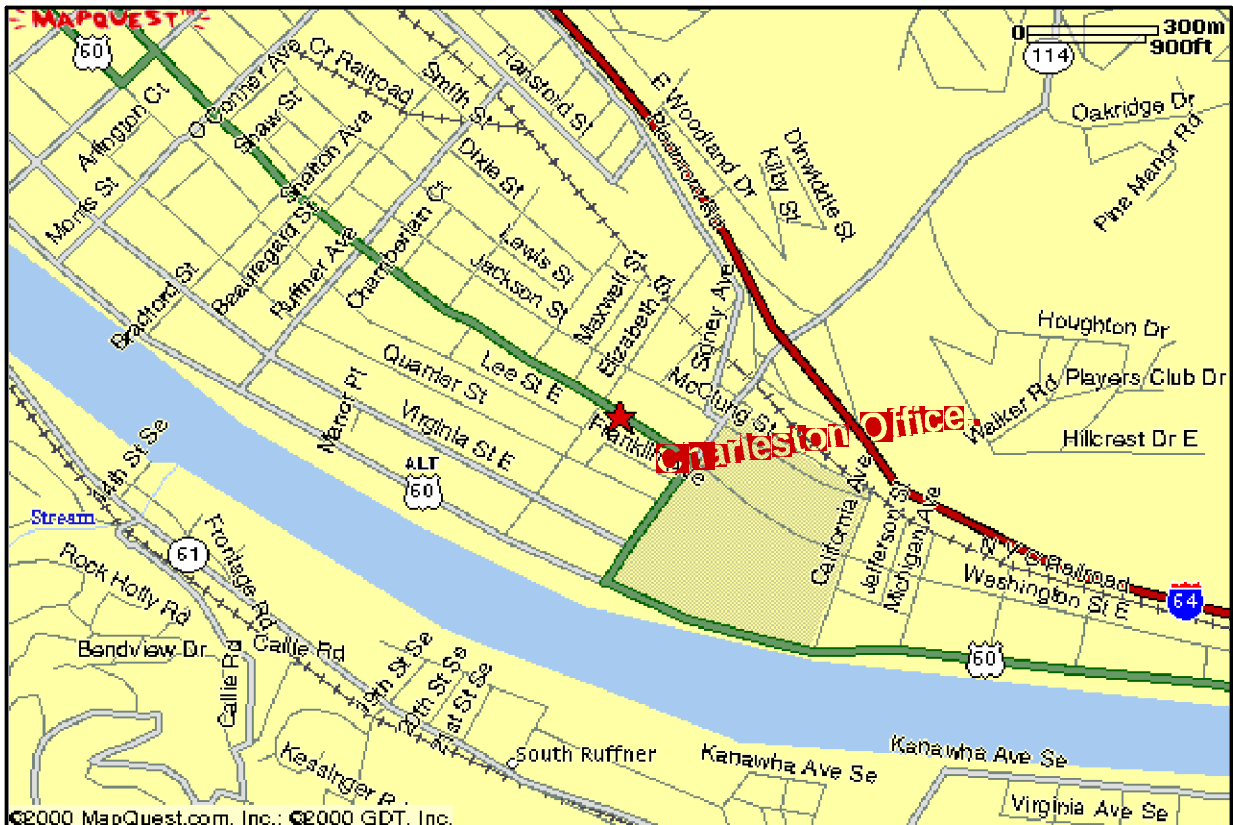

West Virginia Office of Miners' Health Safety and Training  
Office Location Maps

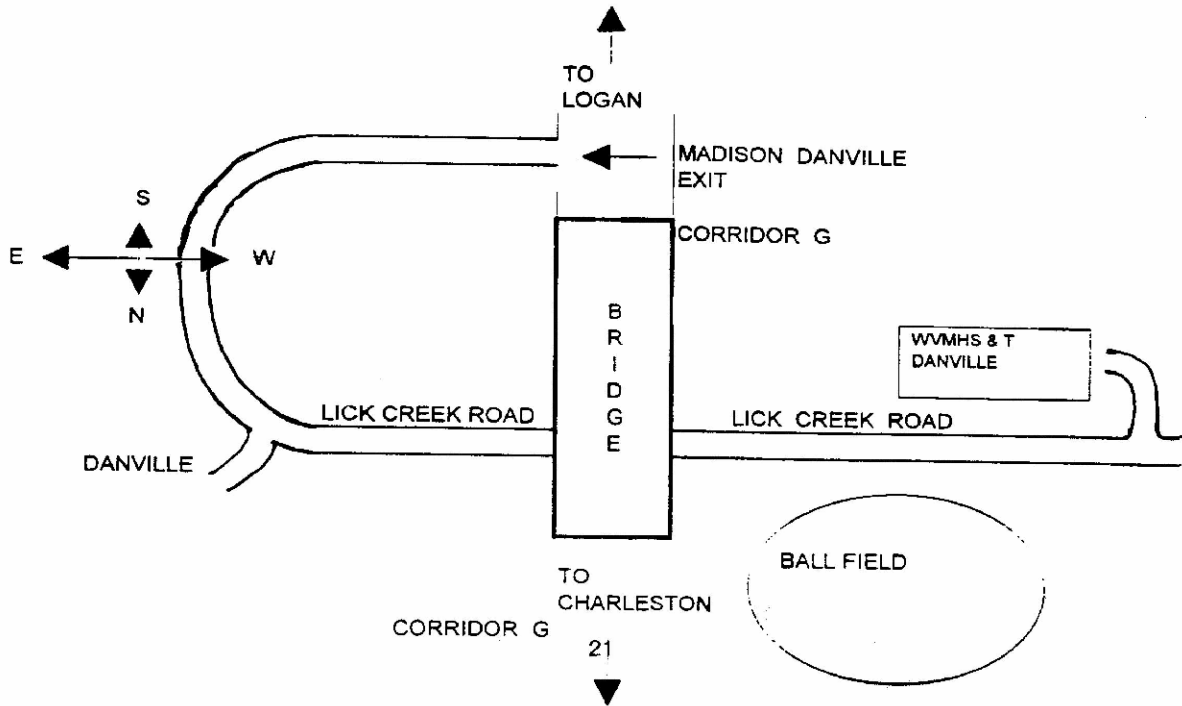

Charleston Headquarters

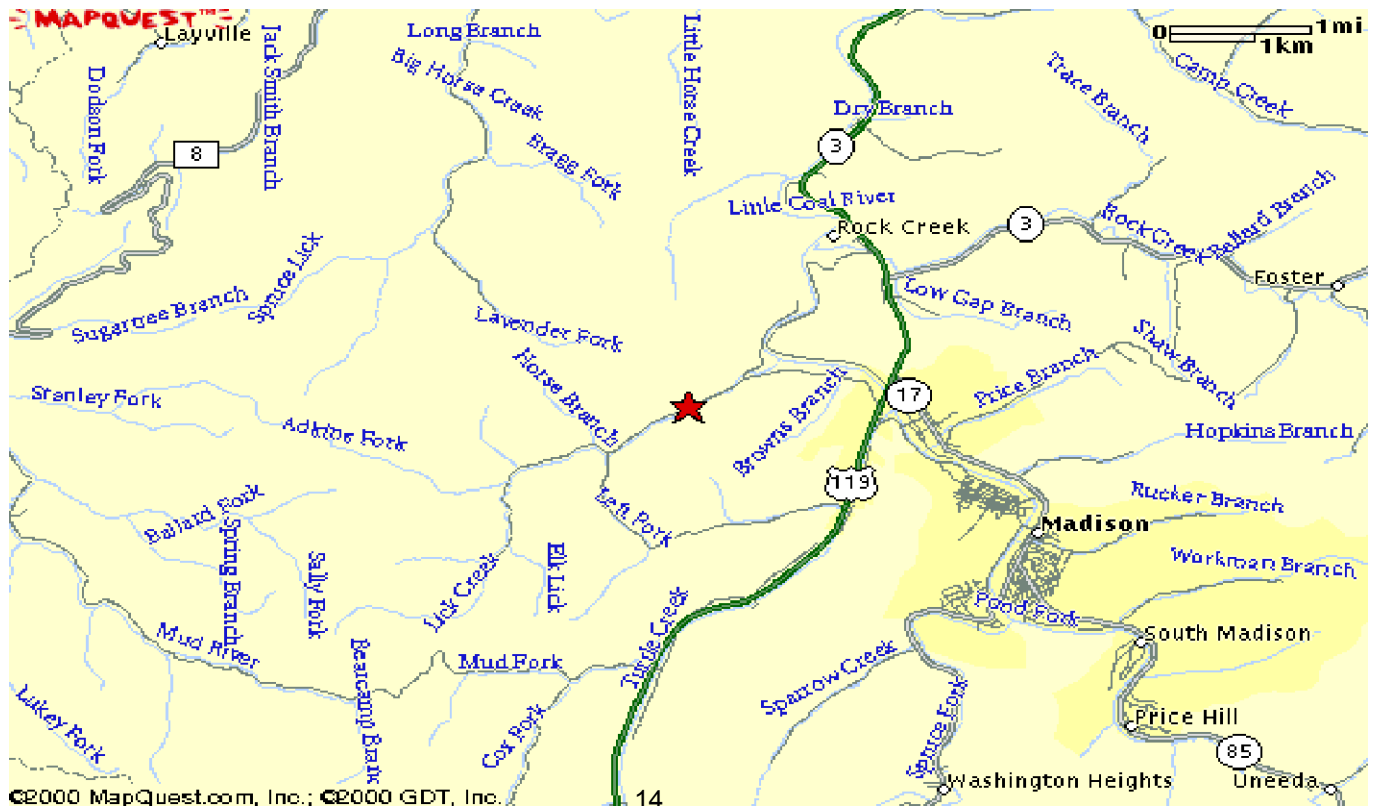

The WVMHST Charleston Office is located off I-64  
Greenbrier St. Exit (Exit 99). Exit I-64 to Washington  
St. E., turn right on Washington St. The office is located  
in the office building (brick front double glass doors)  
next door to Wendy's.

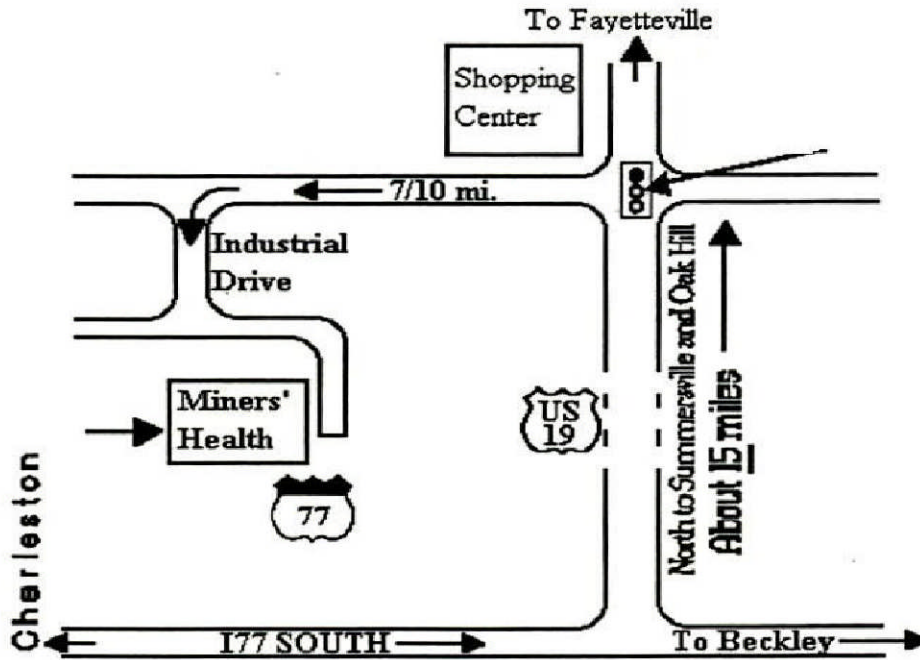

# DANVILLE REGIONAL OFFICE

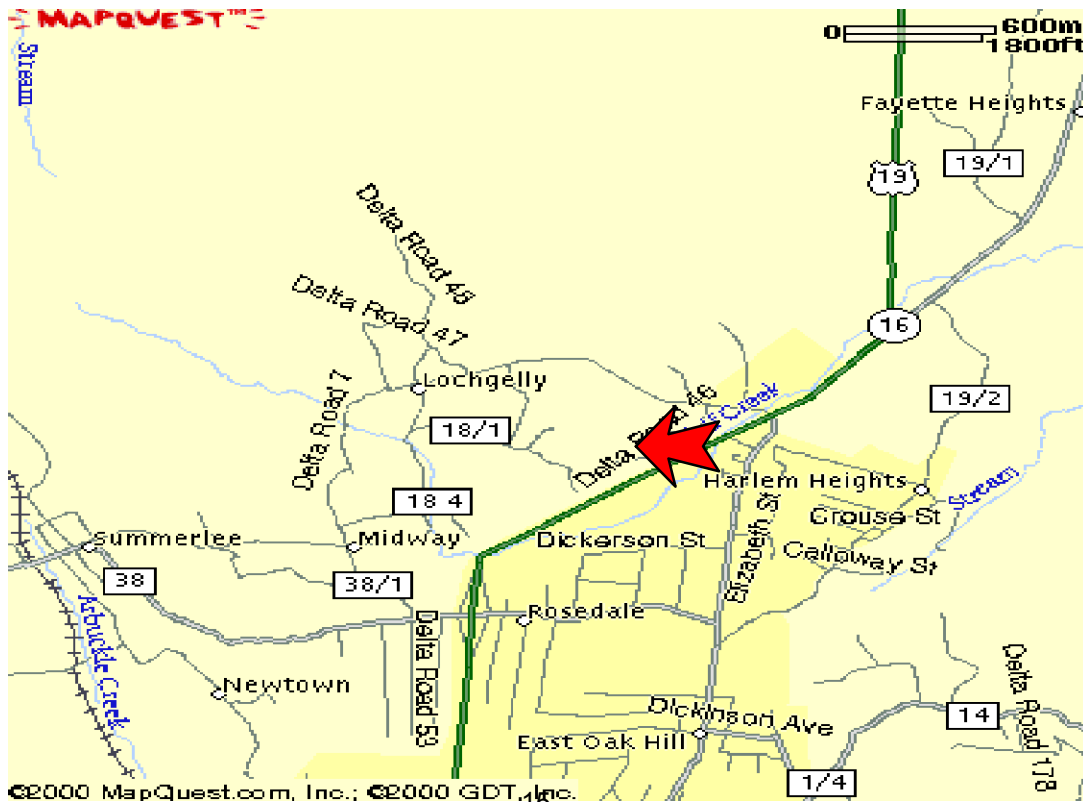

The Danville Office is located in the Lick Creek Professional building at 137 Peach Court, Suite 2. From the South on Rt. 119 take the Danville exit on the right, then first left on Lick Creek Rd. The Office is 6/10ths of a mile on the left. From the North, take the second Danville exit, (left turn.) then use the same directions as above.

OAK HILL REGIONAL OFFICE

The Oak Hill Office is located off US 19 at the Lochgelly Rd. Exit. Take the Lochgelly Rd. exit and go to the top of the hill and turn left on Industrial Drive. At the next intersection, turn left, the office is the last building on the right.

# FAIRMONT REGIONAL OFFICE

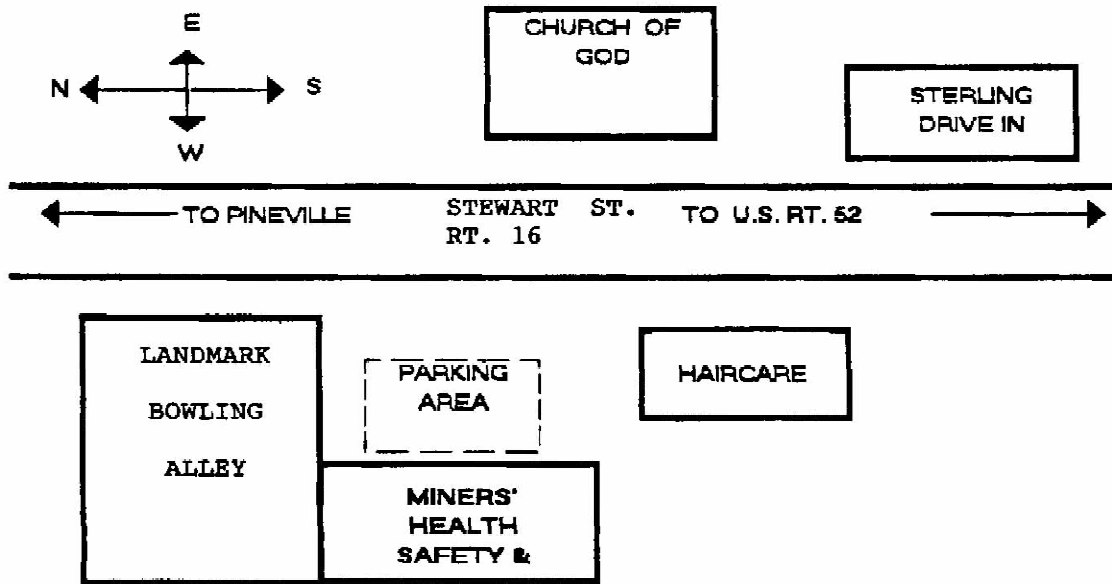

The Fairmont Regional Office is located in the Marion Square Shopping Center (Number 205). The most direct route is to take the Interstate (I-79) to the South Fairmont exit (132) proceed north on US route 250 to the Country Club Road intersection (this will be the first stoplight past the bridge). Turn left on Country Club and proceed to the intersection with US Rt. 19. Marion Square is located just past the intersection on a hill to the right. The office is to the right, toward the end of the shopping center.

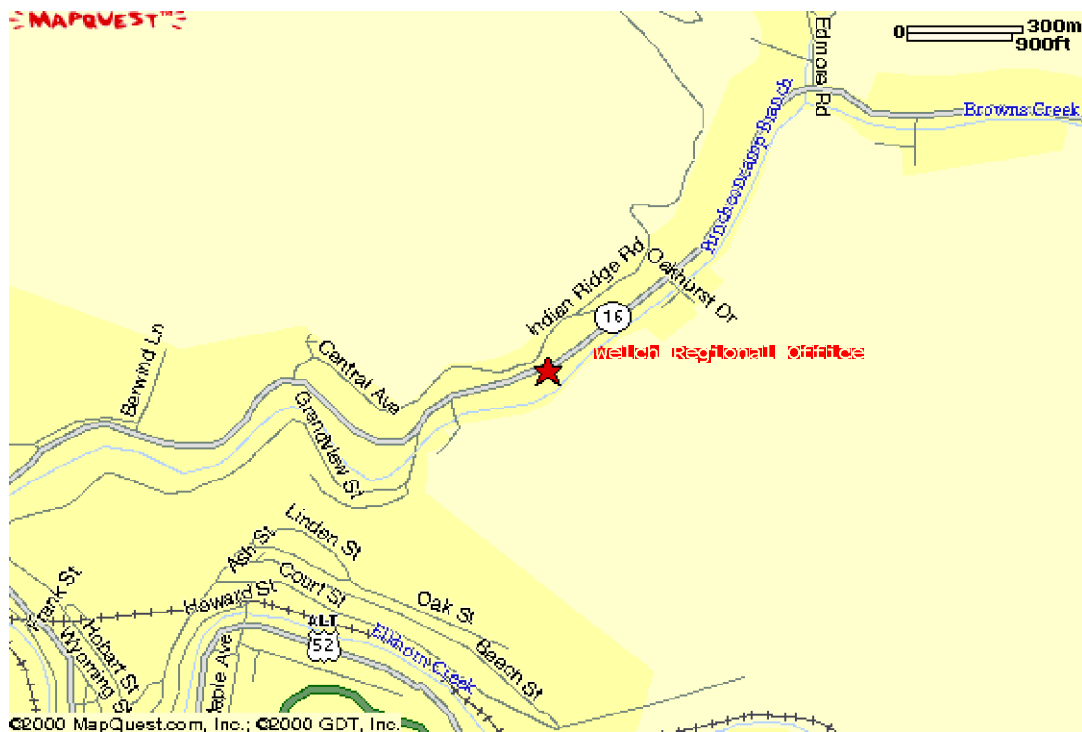

WELCH REGIONAL OFFICE

The Welch Regional Office is located on Rt. 16 (891 Stewart St.) to the North of Welch.

**Web Site**  
[www.wvminesafety.org](http://www.wvminesafety.org)

Additions and revisions are constantly being made to our web site. The number of visits to our site and the number of downloads greatly increased in 2006 largely due to the tragedies at the Sago and Aracoma mines and the subsequent interest in mine safety issues. In 2006 our site hosted nearly 400,000 sessions, with over 2 million hits. The most popular pages were those dealing with forms, coal statistics, publication information, mine maps and mine accident information. The most popular downloads were 80 and 40 hour study guides, permit lists, various testimonies and reports from the Sago disaster and files on laws and regulations. Use of our online e-payment system also increased in 2006. During the year we had nearly 600 transactions totaling approximately \$57,000. For information on West Virginia Mining, visit our web site at: [www.wvminesafety.org](http://www.wvminesafety.org).

## **West Virginia Office of Miners' Health, Safety and Training Boards and Commissions**

**Board of Coal Mine Health and Safety:** is responsible for reviewing and revising existing health and safety standards for coal mines, and issuing new regulation when appropriate to improve or enhance mine safety. The Board was restructured by the Legislature at the Governor's request in 1982. Since its creation in 1977, the Board has issued regulations covering various mine safety issues.

Members: Ronald L. Wooten, Chairman, Chris Hamilton, Gary Trout, Charles Russell, Dave Ashby, Carl Egnor, Ted Hapney, and Jim Bennett, Administrator.

**Technical Review Committee:** is responsible for reviewing petitions for modifications relating to site specific regulations submitted by mine operators or miners recommending appropriate action to the Board of Coal Mine Health and Safety. The TRC, which was created by the Legislature during the 1986 session, may also recommend regulations with industry-wide application and pursue other matters relating to mine safety and technology.

The members of the committee are Chris Hamilton and Fred Tucker.

**WV Diesel Commission:** Is responsible for reviewing and approving each piece of diesel equipment to be used in underground mines.

Members: - Joe Sparks, Terry Hudson, Gary Trout, Chris Hamilton, Terry Osborne, and Dr. Pramod Thakur.

**Board of Miner Training, Education and Certification:** is responsible for establishing training and education requirements for all prospective mines and miners certified by the State; To direct the Director of the Office of Miners' Health, Safety and Training to apply and implement the standards set by the Board; and provide a program of continuing miner education for all categories of certified mines. Since its creation in 1974, the board has established requirements for mine electrician certifications, mine rescue team training, and surface mine foreman certification; revised requirements for underground mine foreman certification and the apprentice miner training programs and assisted in development of the underground mine foreman study guide and established a surface blasters certification program.

Current members include: Ronald L. Wooten, Chairman, Joe Campbell, Ken Perdue, Chris Hamilton, Steve Webber, Chris Presley, and Gary Trout.

**Coal Mine Safety Board of Appeals:** is responsible for hearing appeals of notices of violations and making determinations on questions of discrimination against miners and of suspension and revocation of state-issued certifications.

Current members include: Clinton Smith, Chairman, Rick Glover, and Rick Dillon.

**Mine Inspectors' Examining Board:** is responsible for administering examinations for candidates for appointment as mine inspector; to maintain a register of such candidates; to hear and determine appeals of mine inspectors from suspension orders made by the Director of the Office of Miners' Health, Safety and Training.

Current Members include: Dr. Christopher J. Bise, Chairman, Rick Glover, Charles Justice, Hoya Clemons, and William "Bill" Wooten, III.

### **Mine Safety Technology Taskforce**

Members: Dale Birchfield, Theodore Hapney, Terry Hudson, Todd Moore, Gary Trout and Stephen Webber

# West Virginia Office of Miners' Health Safety and Training

## 2006 Mountaineer Guardian Safety Awards

### Mountaineer Guardian History:

The West Virginia Office of Miners' Health, Safety and Training and the West Virginia Coal Association (Mining and Reclamation Association) established the Mountaineer Guardian Safety Awards Program in 1983 as a joint effort to promote safety in the coal fields of West Virginia. This special program gives recognition to mining workplaces where employees have accumulated qualifying amounts of production without experiencing a fatal accident. Mining Operations are divided into categories, based on the number of employees.

In 1997, the Mountaineer Guardian Safety program was extensively revised. The most important change was to include the West Virginia Office of Miners' Health Safety and Training inspection personnel in the selection process. Each inspector may nominate mines/facilities for consideration. Representatives of the sponsoring agencies review those regional nominations and selections for the awards are made from that list.

### Selection Criteria:

- Mine/facility must be fatal free for the award period.
- Safety Program (initiatives by the company)
- Co-operative efforts (company works with inspectors—abates violations—good faith)
- Violation History

One mining operation is singled out for each year for special recognition, and receives the [Barton B. Lay, Jr. Milestones of Safety Award](#).

The **2006 Mountaineer Guardian Awards** were presented at the 34th Annual West Virginia Mining Symposium (sponsored by the West Virginia Coal Association Inc.) on January 11, 2007 during a luncheon ceremony.

### Underground

Region	Company	Mine
1	Eastern Associated Coal Corp.	Federal No.2 Mine
2	XMV, Inc.	Mine No. 32
3	Rockhouse Creek Development	Rockhouse #7

**2006 Barton B. Lay, Jr. Milestones of Safety Award**

The foremost award in West Virginia mine safety for 2006 was presented to the employees of Fola Coal Company, Surface Mine No. 1. The Fola No. 1 Mine is located in Clay County. This facility employs approximately 147 salaried and hourly employees working three shifts.

Through the implementation an continual improvement of a very visible and highly successful safety program and, through the cooperative spirit displayed and practiced by all employees, the Fola Surface Mine No. 1 has achieved the balance of production coupled with safety to which all mining operations should aspire.

The working environment created and maintained by the entire work force at the Fola Surface Mine No. 1 represents the highest standards of the Mountaineer Guardian Awards Program and of the West Virginia Mining industry.

**Previous Recipients of the *Milestones of Safety Award***

1992	Tug Valley Processing Co	Preparation Plant
1993	Arch of West Virginia, Inc	Wylo Mine
1994	Eastern Associated Coal Corp	Federal No. 2
1995	Consolidation Coal Co.	Humphrey No. 7 Mine
1996	Patriot Mining Co., Inc	Osage Mine
1997	Arch of West Virginia	Ruffner Mine
1998	Evergreen Mining Company	Cowen Surface Mine & Complex
1999	Kingston Mining, Inc.	Glen Alum Mine
2000	Mingo Logan Coal Co.	Mountaineer Mine
2001	Simmons Fork Mining, Inc.	Simmons Fork Surface Mine
2002	Consolidation Coal Co.	Blacksville No. 2
2003	Consolidation Coal Co.	Robinson Run No. 95
2004	Fola Coal Co. Inc.	Peach Orchard Plant
2005	Eastern Associated Coal Corp	Federal No. 2

## 2006 WEST VIRGINIA STATE HOLMES SAFETY ASSOCIATION SAFETY AWARDS

### UNDERGROUND MINES

100,000 tons or less:

Marfork Coal Company, Inc.  
Coon Cedar Grove

100,001 – 300,000

Catenary Coal Company  
Laurel Fork Deep

300,001 – 500,000

Kingston Mining, Inc.  
Kingston No. 2

500,001 – 1,000,000

Kingston Mining, Inc.  
Glen Alum Mine

1,000,001 – 3,000,000

Eastern Associated Coal Corporation  
Harris Mine

3,000,001 +

McElroy Coal Company  
McElroy Mine

### SURFACE MINES

100,000 tons or less

Simmons Fork Mining  
Paynter Branch

100,001 – 300,000

Mid-Atlantic Minerals, Inc.  
Colony Bay Surface

300,001 – 500,000

Phoenix Coal-Mac Mining, Inc.  
Holden No. 22 Surface

500,001 – 1,000,000

Powellton Coal Co., LLC  
Bridge Fork No. 1

1,000,001 - 2,000,000

Legacy Resources  
Synergy Resources, LLC

2,000,001+

Fola Coal Company, Inc.  
Surface Mine No. 1

### PREPARATION PLANTS

Mingo Logan Coal Company  
Black Bear Prep Plant

Brooks Run Mining Company  
No. 1 Prep Plant

Coresco, Inc.  
Coresco Prep Plant

Consolidation Coal Company  
Amonate Prep Plant

### QUARRY MINE

U. S. Silica

### CONTRACTOR

Frontier Kemper

**COMPREHENSIVE MINE SAFETY PROGRAMS**

Comprehensive Mine Safety Programs are required by law for every active permitted facility as well as active independent contractors. The approved program is valid for a 12 month period from the date the initial program is approved. Programs may be required to be revised prior to their anniversary date if it is deemed necessary by West Virginia Office of Miners' Health Safety and Training safety personnel. Revisions may be required in situations where mining conditions have changed, or due to investigations by inspection staff. Also programs are reviewed routinely following a serious or fatal mining accident.

Numbers of approved programs change daily as new permits are added, or closed; or from revisions and or program renewals.

Prior to approval, a Comprehensive Mine Safety Program must meet certain program components relative to the type of operation of the applicant. Renewal of a program includes a review of the applicants' accident and violation history, and the accident frequency rate as it compares with the national average. New technology and or mining methods are incorporated and reviewed with mine personnel.

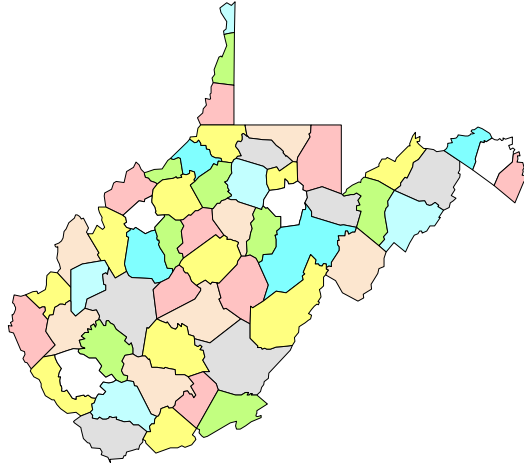

**COMPREHENSIVE MINE SAFETY PROGRAMS**

<b>TOTAL</b>	<b>343</b>

These Contractor injuries are included in the tables shown above.

Data reported as of April 25, 2007

**Note:** Injury totals shown on the tables in this report reflect only those injuries reported to the WV Office of Miners' Health, Safety and Training. Reporting requirements of other agencies such as WV Worker's Compensation are substantially different. Additionally, Contractor injuries are included within the mine-type classifications unless otherwise indicated.

**NOTE: INCLUDES ONLY THOSE ASSESSMENTS PAID IN A CALENDAR YEAR**

**ASSESSMENT STATUS DEFINITIONS**

**Paid:** Payment in full received. The total amount remitted may reflect a reduction from the original amount due as a result of conferences or hearings.

**Vacated:** Total amount of assessment was vacated by order of the inspector, assessment officer, assessment review officer, presiding officer or court.

**Delinquent:** Assessed company or individual has failed to pay-in-full or appeal the proposed assessment within 45 days. Included in this status are cases that may have been referred to a collection agency for collection.

**Uncollectible:** Assessment has been deemed uncollectible due to liquidation or lack of assets.

**Pending:** Assessed company or individual has appealed for a conference or hearing or the case is less than 45 days old.

**Part Pay:** Assessed company or individual has applied for and received approval to make monthly payments on outstanding assessments.

**NOTES:**

1883: FIRST STATE MINE INSPECTIONS

1887: FIGURES ARE ESTIMATED

1888: FIGURES BASED ON FISCAL YEAR

1905: DEPARTMENT OF MINES CREATED

1924: 18 MONTHS (END OF FISCAL YEAR DATA)

1985: D.O.E. CREATED

1991: WV OFFICE OF MINERS' HEALTH SAFETY & TRAINING CREATED

2003: INDEPENDENT CONTRACTORS REQUIRED TO REPORT MONTHLY

**\*\*Independent Contractor employment figures were first estimated beginning in 1996. However, previously released estimates may have been over-stated. In 2003 regulations were adopted which required contractors to report monthly activity including numbers of employees on each mine site. Numbers shown on this table are averages based on those reports. As more accurate data is provided, figures may be revised. The estimates for Coal Preparation facilities are based on WVOMHST Inspection Reports or information provided by the individual company on their permit application or renewal. Coal Preparation employment figures are based on WVOMHST Inspection Reports. Coal Preparation Facilities are not currently required to report to WVOMHST.**

# APPENDIX

## **TERMS AND DEFINITIONS**

**NUMBER OF MINES:** The WV Office of Miners' Health Safety and Training issues monthly and annual figures regarding the number of mines in West Virginia. The annual figure represents the total number of surface and deep mines which held valid permits during the year. Monthly figures reflect the total number of surface and deep mines with open permits (have not been permanently closed) during a month.

**NUMBER OF COMPANIES.** This figure represents the total number of mining companies with valid permits. This does not include sub-contractors or affiliated companies. For example: Mark Coal Company may have 6 permits in its own name and another 10 permits listed in various contractors names. In the statistics collected by Miners' Health Safety & Training, Mark would be counted as one company, and the contractors as 10 other companies.

**NUMBER OF TONS MINED, TONNAGE, or PRODUCTION.** All relate to the same thing, i.e. the amount of mineral resource extracted in the mining process. The monthly production report represents "the actual raw tonnage mined." (Code section revised 1994)

**DELINQUENT TONNAGE.** This is tonnage reported to Health Safety and Training late, in violation of 22A-2-77 of the WV mining laws.

**DISTRIBUTION OF TONNAGE.** This figure represents the method of shipment of coal from the mine. The reported distribution does not need to agree with reported tonnage figures, because coal may be stockpiled and shipped months after it was produced.

**ACCIDENT.** "The term accident shall mean any mine explosion, mine ignition, mine fire, or mine inundation, or injury to, or death of any person." [West Virginia Mining Laws 22A-1A-1] The following terms relate to accidents involving injuries:

- 1) Fatal Accident. An on-the-job accident resulting in death to the victim.
- 2) Non-fatal Accident. An on-the-job accident which does not result in death to the Victim. There are two classifications of non-fatal accidents:
  - a) Non-fatal Lost-time Accident. An injury which results in the injured person missing their next scheduled work shift.
  - b) No Lost-time Non-fatal Accident. The injured person remains on the job or reports for his or her next scheduled work shift.

**NUMBER OF DAYS MINE OPERATED, or NUMBER OF DAYS WORKED.** This figure indicates the number of days in the calendar month or year that the mine actually produced coal.

**TOTAL NUMBER OF EMPLOYEE HOURS.** This figure is the total number of hours worked by all employees on the bonded area of a permit.

**AVERAGE NUMBER OF DAYS WORKED.** This figure is the total number of days worked divided by the number of reports received showing days worked.

**NUMBER OF EMPLOYEE DAYS WORKED.** This figure is the total number of employee hours divided by 7.9 for underground miners, or 7.25 for surface miners. The average work day length is based on the UMWA-BCOA contract. For the Annual report, this figure is calculated for each mine; the mine totals are summed for county totals.

**NUMBER OF TONS MINED PER DAY.** This figure is the total tons produced divided by the total number of days worked. This is calculated for each mine, then summed for county totals.

**AVERAGE DAYS PER EMPLOYEE.** This figure is calculated for each company by dividing the total employee days worked by the total number of employees.

**NUMBER OF TONS MINED PER EMPLOYEE PER DAY.** This figure is calculated for each county by dividing the total number of tons mined per day by the total number of employees.

**NUMBER OF TONS MINED PER EMPLOYEE PER YEAR.** This figure is calculated for each county by dividing the total production by the total number of employees.

**NUMBER OF EMPLOYEES.** All mines are required to report employment figures monthly. This total includes all personnel on the bonded area of the permit. From these figures, the Office of Miners' Health & Safety prepares monthly and yearly statistics. The monthly figure is simply the total number of reported employees for a given month.

The yearly figure is the average number of reported employees for the year. The average is based on the number of months the mine had reported employment. For the Annual Report, the average number of employees per mine is totaled for each county, and subsequently for the State.

Annual Report figures are higher than the monthly figures because the annual figures include employment at mines which were idle during the year and mines which permanently closed. For example, a mine may have reported twelve employees in January, and either permanently or temporarily closed for the rest of the year. The average annual employment for that mine would be shown as twelve.

Comparisons of employment statistics should take into account the various methods and requirements concerning the collection of such statistics. In past years, certain employment figures were estimated rather than calculated, (1919 Annual Report). Also, for some years, various types of mines were exempt from the reporting requirements.

The historical differences in mine employment data compiled by the WV Office of Miners' Health Safety, and Training and that compiled by the Division of Employment Security figures can be attributed to reporting requirements. Employment Security figures represent more of an "industry" total while the Miners' Health, Safety & Training's statistics are primarily production-related. Under current mining laws, a mine is required to report only those employees working at the mine site. Employees other than those at the mine site are not required to be reported to the Miners' Health, Safety & Training; for example, mine companies with central shops, offices, and other facilities not located on a mine permit, would not include those employees in reports to the Miners' Health, Safety & Training. Another example would be tipples or prep plants or other coal handling facilities not associated directly with a mine site. At present, there are no laws requiring employees at these facilities to be reported to the Office of Miners' Health and Safety.

**NUMBER OF TONS MINED PER INJURY.** This is calculated for both deep and surface mines and for fatal and non-fatal injuries. The formula is the total number of tons mined divided by the total number of injuries.

**ACCIDENT FREQUENCY RATES.** This is calculated for both deep and surface mines for fatal and non-fatal injuries. The formula is injuries multiplied by two hundred thousand, divided by the total number of employee hours.

**WEST VIRGINIA COAL RESERVES.** These estimates are calculated for each county on an annual basis. The original reserve estimates were provided by the WV Geological Survey. The reported production figures for each county are updated annually, by adding current production to

the previously reported production. The estimated loss in mining is calculated for the following counties: Boone, Clay, Doddridge, Fayette, Grant, Kanawha, Lincoln, Logan, McDowell, Mercer, Mingo, Nicholas, Pleasants, Pocahontas, Putnam, Raleigh, Randolph, Summers, Wayne, Webster, and Wyoming. The formula for this calculation is  $\frac{2}{3}$  of the figure recorded for the reported production. For each of the remaining counties, the estimated loss is the same as the reported production. The estimated recoverable reserves are calculated as follows: For each of the counties listed above, add the reported production and the estimated loss in mining, and subtract the sum from the original reserve figure, then calculate 60% of the remainder. For the remainder of the counties, together the reported production and the estimated loss and subtract the sum from the original reserve, then calculate 50% of the remainder.

**MINER CERTIFICATION.** This is a license issued to individual miners to perform various tasks at a mine site.
