INDEPENDENT AUDITOR'S REPORT

The Board of Directors
Marion County Senior Citizens, Inc.
Fairmont, West Virginia

We have audited the accompanying statement of financial position of Marion County Senior Citizens, Inc. (a nonprofit organization) as of September 30, 2009 and the related statements of activities, functional expenses, and cash flows for the year then ended. These financial statements are the responsibility of the Organization's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Marion County Senior Citizens, Inc. as of September 30, 2009, and the changes in its net assets and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 22, 2010, on our consideration of Marion County Senior Citizens, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements of Marion County Senior Citizens, Inc. taken as a whole. The schedule of federal awards and schedule of state awards and other assistance are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Accordingly, actual results could differ from these estimates.

No services received by the Organization met these requirements.

The accompanying independent auditor's report is an integral part of these notes.

Investment risk is categorized as follows:

Interest rate risk – The risk that changes in interest rates will adversely affect the fair value of an investment.

Credit risk – The risk that an issuer or other counterparty to an investment will not fulfill its obligations.

Custodial credit risk – The risk that, in the event of the failure of the counterparty to a transaction, the Organization will not be able to recover the value of investment or collateral securities that are in the possession of an outside party.

(h) Accounts Receivable and Grants Receivable

Uncollectible receivables are eliminated in the fiscal period that the receivables are actually determined to be uncollectible. Management has indicated that the accounts receivable and grants receivable, as shown in the accompanying financial statements, will be collected in full.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH
*GOVERNMENT AUDITING STANDARDS***

The Board of Directors
Marion County Senior Citizens, Inc.
Fairmont, West Virginia

We have audited the financial statements of Marion County Senior Citizens, Inc. (a nonprofit organization) as of and for the year ended September 30, 2009, and have issued our report thereon dated January 22, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Marion County Senior Citizens, Inc.'s internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Marion County Senior Citizens, Inc.'s internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Marion County Senior Citizens, Inc.'s internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control over financial reporting that we consider to be significant deficiencies.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects Marion County Senior Citizens, Inc.'s ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is no more than a remote likelihood that a misstatement of Marion County Senior Citizens, Inc.'s financial statements that is more than inconsequential will not be prevented or detected by Marion County Senior Citizens, Inc.'s internal control. We consider the following deficiencies to be significant deficiencies in internal control over financial reporting.

09-1 Segregation of Duties

Criteria: Analysis of the internal control system indicated a lack of segregation of duties.

Condition: Responsibility for approving executing, and recording transactions and custody of the resulting asset arising from the transaction is not assigned to separate individuals.

Cause: Responsibility for approval, execution, recording and custody are not distributed among the office staff to the best degree possible. However, complete segregation of duties is not economically feasible.

Effect: Because of the lack of segregated duties, internal control elements do not reduce to a relatively low level the risk that irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Recommendation: Responsibilities of approval, executing, recording and custody should be distributed among the accounting staff to the degree possible. However, we recognize that complete segregation of duties is not economically feasible.

Entity's Response: To the extent possible, the Organization has segregated its duties. Any further segregation of duties would not be economically feasible

09-2 Qualification and Knowledge

Criteria: Internal control should be implemented to the degree possible in recording the entity's financial transactions and the preparation of financial statements.

Condition: Analysis of the internal control system indicated a lack of skills, training, and knowledge in the recording of financial transactions or preparation of financial statements. More specifically, this should include all required financial statement presentations and all required financial statement note disclosures, as required by generally accepted accounting principles.

Cause: Individuals responsible for the accounting and reporting function lack the particular skills, training, and knowledge to apply generally accepted accounting principles in recording the entity's financial transactions or preparing its financial statements.

Effect: Because of the lack of skills, training, and knowledge, internal control elements do not reduce to a relatively low level the risk that irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Recommendation: Individuals responsible for the accounting and reporting function should be trained to apply generally accepted accounting principles in recording the entity's financial transactions or preparing its financial statements. However, we recognize that providing this training is not economically feasible.

Entity's Response: To the extent possible, the individuals responsible for the accounting reporting function have been trained to perform their assigned duties. It would not be economically feasible for Organization to train its employees to apply generally accepted accounting principles in recording the entity's financial transactions or preparing its financial statements.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by Marion County Senior Citizens, Inc.'s internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, of the significant deficiencies described above, we consider items 09-1 and 09-2 to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Marion County Senior Citizens, Inc.'s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The Marion County Senior Citizens, Inc.'s responses to the findings identified in our audit are described above. We did not audit the Marion County Senior Citizens, Inc.'s responses and accordingly, we express no opinion on them.

This report is intended solely for the information and use of management, the Board of Directors of the Marion County Senior Citizens, Inc., others within the entity, and federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
