## **West Virginia Nursing Home Administrator's Licensing Board History**

The first meeting of the West Virginia Nursing Home Administrator's Licensing Board (WVNHALB) was held on March 22, 1978. Earl L. Fisher, M.D. was elected the first Chairman of the Board.

The newly created Board carried out many of the functions of the current Licensing Board; assuring candidates meet the criteria for licensing, assuring continuing education requirements are met, and approving administrator-in-training applicants and preceptors.

The Board has continued to evolve over the decades due to changes in both federal and state regulations. We have developed close alliances with the National Association of Examiners of Nursing Home Administrators and the American College of Health Care Administrators.

One of the major changes occurred due to federal law that required the Office of Health Facilities Licensure and Certification to report administrators with nursing homes under their direction that receive substandard quality deficiencies during surveys. The Board is responsible for investigating these reports to assure the administrator did not violate any State regulation or any violation of the American College of Health Care Administrator's Code of Ethics. Also, the WVNHALB receives complaints against nursing home administrators received by the public and investigates for violations by the administrator's.

Over the years the Board has developed and enforced regulations that govern the practice of nursing home administration in West Virginia to protect the public good.

The Nursing Home Administrator's Licensing Board may consist of five nursing home administrators, two citizen members, and the Commissioner of the Bureau for Public Health or his/her designee as ex-officio, non-voting member.

The Board meets four times per year to determine candidate eligibility, establish policies, promulgate rules and regulations, develop, impose and enforce standards, investigate complaints and see to disciplinary matters.

**MISSION STATEMENT:** The primary purpose of the Board grounded on law (federal and state) is to protect the public good by developing and enforcing regulations to govern the practice of nursing home administration in West Virginia.

A summary was given for each agency that had been audited for fiscal year 2021. Copies of the audit are available upon request and are on the website of the Legislature. After the audit summary was given, there were no specific questions asked of Denise Campbell or Veronica Cummings by the Committee or those in attendance.

It was determined by Veronica Cummings, ED, that due to the cost factor for purchasing and maintaining the database through Certemy to verify a license that would allow the public to verify a license, the Treasurer's Office could offer this service free of charge. Further information will be available at a later date.

The Treasurer's Office will be handing all deposits for the Board that will allow for fraud control and ease of payment for all licensees and applicants. The Lockbox process is encouraged by the State Auditor's Office for all agencies.

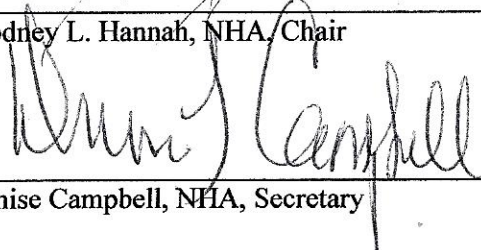

Adjournment: With no further business, Rodney L. Hannah adjourned the meeting at 12:27 p.m.

The next meeting is scheduled for November 4, 2021 at 11 a.m. within the Blessed John Pastoral Center.

**FY2022**

## **NURSING HOME ADMINISTRATORS LICENSING BOARD**

### **Annual Report**

### **Fiscal Year 2022**

The Nursing Home Administrators Licensing Board received six Substandard Quality of Care Notices by the Office of Health Facility Licensure and Certification Office (OHFLAC).

#### **POLICY-Substandard Care Deficiencies (Amended)**

As a result of sections 1819(a), (b), (c), (d), and 1919(a), (b), (c), and (d) of The Social Security Act, state survey agencies like the West Virginia Department of Health and Human Resources (DHHR), Office of Health Facility Licensure and Certification (OHFLAC)- are required to advise state boards responsible for licensing nursing home administrators when a Medicare/ Medicaid certified nursing facility is cited for deficiencies which constitute substandard quality of care. Inasmuch as there are no further directives for interpretation as to how state licensing boards will manage such notifications, it is the prerogative of each state's board to define its policy.

In view of the aforementioned circumstance, effective September 8, 2005, it will be the policy of the West Virginia Nursing Home Administrators Licensing Board to pursue the following plan in discharging its duties:

1. Upon notification from OHFLAC, a certified letter will be sent to the administrator of record\* for the facility alleged to have offered substandard quality of care indicating same and requesting a response from the administrator to each of the allegations. The administrators reply must be post marked no later than thirty (30) days after receipt of the board's letter.
2. Upon receipt of the response from the administrator and within ninety (90) days of the day the board receives notification from OHFLAC, under the direction of the chair of the West Virginia Nursing Home Administrators Licensing Board, an assessment by staff, members of the board, a hearing officer, and/or a representative from the Attorney General's Office will be made of all documents received (i.e., HCFA-2567 Statements of Deficiency and Plans of Correction, and the administrators response, etc.). From that point a brief written assessment of the facts will be made and filed with the chairman of the board indicating whether or not it is believed nursing home administrator licensing regulations were violated. If the written assessment establishes that the nursing home administrators licensing regulations were violated, the chair of the board will be responsible for seeing that an interview is scheduled with the administrator to assess his/her knowledge and soundness of judgement in being able to adequately discharge the functions of a nursing home administrator (NHA). If it is shown by a preponderance of the evidence that nursing home administrator licensure rules were violated, a written order with findings of fact and conclusions of law will be sent to the administrator with a copy filed in the person's record defining the course of action that will follow. Likewise, if it is shown by a

preponderance of the evidence that there were no violations of nursing home administrator licensure rules, a letter will be sent to the administrator so advising with a copy of the correspondence to be retained in the licensee's file.

3. Related to the aforementioned point and establishment of grounds for potential action against a nursing home administrator for violation of nursing home administrators licensure rules, with legal guidance, ie., the West Virginia Attorney General's Office, private counsel, etc., section 6.1 of Title 212 legislative rule effective July 3, 2003 will be implemented pertinent to suspension, revocation, hearing, and judicial review. Final disposition of the review will be completed as quickly as possible but not to exceed 150 days from date of the first notification of substandard quality of care by the OHFLC. Proceedings in regard to final disposition will be made in the record and retained in the board's file for the NHA under review.

If within twenty-four months of first being advised by the OHFLAC a second notice is received by the Nursing Home Administrators Licensing Board alleging substandard quality of care in a facility under the direction of the same licensed nursing home administrator, within the same time lines as previously described, at the direction of the chair of the board; the board will conduct a second interview on the issue of substandard quality of care. Facts from the first review will be revisited along with all new allegations of repeat deficiencies. The process identified in previous points 2 and 3 will be replicated relative to section 6.1. Final disposition of the board's action will be recorded and retained in appropriate INHA and/ or board files.

From the time the West Virginia Nursing Home Administrators Licensing Board is first advised by OHFLAC of alleged substandard quality of care in a West Virginia licensed nursing facility, all correspondence and records pertinent to the administrator and/or administrators in question will be retained for thirty months. During this period, if follow up reviews by OHFLAC do not result in subsequent referrals to the Nursing Home Administrators Licensing Board for matters of substandard quality of care, the board at its discretion may order cases closed with files destroyed, If this occurs, such action will be considered at a duly called board meeting with the decision recorded in board minutes.

- If the administrator of record has been at the facility for less than one year, the previous administrator of record will also be contacted to address in writing each allegation of substandard quality of care.
