December 20, 2023

The Honorable James C. Justice
Governor of West Virginia
State Capitol, Building 1
Charleston, WV 25305

Dear Governor Justice,

The West Virginia Board of Physical Therapy is pleased to provide you with our report of the biennium covering activities during the period between July 1, 2021, and June 30, 2023

The mission of our board is to promote and protect the public health, safety, and welfare through the examination, licensure, and regulation of physical therapists, physical therapist assistants and athletic trainers.

Physical therapist and physical therapist assistant applicants are licensed by endorsement or by exam (NPTE). Athletic trainer applicants are licensed by endorsement or by exam via BOC certified. License renewals are biennial. Physical therapist, physical therapist assistants and athletic trainers can renew online.

In August 2021, the Board contracted with Thentia USA Inc. to implement a cloud-based software licensing system. The Board went live with the new licensure database system in March 2023. This new system allows for online applications, online renewals, online payments/invoicing, online license verification requests, online complaints, as well as many other requests pertaining to licensure.

On July 14, 2022, the West Virginia Performance and Research Division conducted a regulatory board review. The Board completed this review process, and the report was presented to the Legislature on September 11, 2023. PERD determined that the public could be harmed if the practice of physical therapy and athletic training were unregulated. Therefore, the legislative auditor recommended that regulation by the Board be continued. The members of the Performance Evaluation and Review Division were professional and courteous during the entire audit process. The Board found the process very helpful with clear objectives and goals.

FSBPT

The Federation of State Boards of Physical Therapy develops and administers the National Physical Therapy Examination (NPTE) for both physical therapists and physical therapist assistants in 53 jurisdictions (the 50 states, the District of Columbia, Puerto Rico, and the Virgin Islands.) These exams assess the basic entry-level competence for first time licensure or registration as a PT or PTA within the 53 jurisdictions.

BOC

The Board of Certification (BOC) develops and administers the National Board of Certification exam for Athletic Trainers. The BOC is a credentialing agency that provides a certification program for the entry-level athletic training profession.

CE REQUIREMENTS

The Board monitors licensed physical therapist and physical therapist assistant's compliance with continuing education requirements. Licensee are required to have 24 WV board approved CE hours per licensing period. The Board conducts a random 10% annual audit each year.

The Board monitors licensed athletic trainer's compliance with continuing education requirements. Licensees are required to have 50 WV board approved CE hours per licensing period. The Board conducts a random 10% annual audit each year.

PHYSICAL THERAPY LICENSURE COMPACT

The purpose of the physical therapy compact is to facilitate interstate practice of physical therapy with the goal of improving public access to physical therapy services.

There are many benefits to the public with the Physical Therapy Licensure Compact which include: improves continuity of care, improves portability for military spouses, improves access to physical therapy providers, increases choice of physical therapy providers and facilitates alternate delivery methods (telehealth).
