EARL RAY TOMBLIN
GOVERNOR

JOSEPH C. THORNTON
CABINET SECRETARY

I welcome the opportunity to present this Annual Report as the Regional Jail and Correctional Facility Authority continues to accomplish a public safety mission that is as vital as it is challenging.

From the dedicated correctional officers and staff to Executive Director David Farmer and his top-notch leadership team, the men and women of RJA have earned the confidence of their West Virginians. Their unflinching service over the past year is a positive reflection on David and his efforts to move the agency forward. I am proud to work with him.

RJA's recent successes include the establishment of Residential Substance Abuse Treatment units at the Southwestern Regional Jail. Now both male and female Division of Corrections-sentenced inmates at that facility can receive crucial services that promise to reduce crime and recidivism. Under David's leadership, RJA has been an enthusiastic partner with DOC and is poised to expand this initiative further.

Thanks also to David and his team, RJA remains a careful steward of precious public funds. As a result, the regional jail system is keeping the per diem rate for housing inmates unchanged for a fourth consecutive year. That rate remains lower than where it was a decade ago. It is worth noting that the West Virginia Supreme Court of Appeals has again unanimously affirmed that per diems must be paid. Mindful of the state's fragile economic situation, RJA continues to work with the counties to address this obligation.

RJA has also maintained its role as a major participant in Gov. Tomblin's Justice Reinvestment reforms. The DOC-sentenced backlog has been reduced by hundreds of inmates, and the regional jails' overall population is below its total at the time Justice Reinvestment became law. Reducing the backlog further, while ensuring the safety and security of staff, inmates and the public, remains a top priority of RJA. I look forward to assisting Executive Director Farmer and the agency with this in the coming year.

Joseph C. Thornton

HISTORY OF THE WEST VIRGINIA REGIONAL JAIL AND CORRECTIONAL FACILITY AUTHORITY

The factors that influenced the closing of county operated jails and the realization of a regional jail system date back as far as 1946 when the Bureau of Prisons, in a study authorized by the West Virginia Legislature, found the State’s county jails to be “anachronisms and totally unfit for human habitation.” The study went on to recommend that the county jails be consolidated into regional jails with adequate numbers of appropriately trained staff.

The ongoing deterioration of physical plants and apparent living conditions in the 1960’s and 70’s resulted in an increased exposure to the liabilities attendant to inmate-initiated litigation, resulting in the use of Law Enforcement Assistance Act funding to make improvements in many county jails. However, the continuing deterioration of physical plants, many of which were built around the turn of the century, made it evident that mere repairs would be insufficient to deal with the severity of the situation.

In 1982 the Governor’s Committee on Crime, Delinquency, and Corrections commissioned a study of county jails resulting in the recommendation of the consolidation of county jails and the creation of a state operated facility for sentenced misdemeanor offenders.

An additional study included involvement of county sheriffs and state level administrators and resulted in the Legislature establishing the West Virginia Regional Jail and Prison Authority in 1985. The original Authority consisted of 21 members. This Authority was empowered to issue revenue bonds to be repaid by special fees attached to criminal convictions and civil cases, establish regions, construct regional jails with bond funds and operate regional jails with operating funds provided by the payment of per diem rate by the counties to be served by regional jails. The Authority developed a master plan for the construction of 12 regional jails. The Authority was to address the needs of the county jails before beginning to consider the needs of the state’s correctional system.

In May of 1989, the Eastern Regional Jail (ERJ) opened in Martinsburg initially serving the Eastern Panhandle counties of Jefferson, Berkeley, and Morgan, along with Mineral, Hardy and Hampshire. The latter counties would eventually remove their inmates from ERJ with the opening of the Potomac Highlands Regional Jail in Augusta, WV.

During the 1989 Legislative session the Authority’s responsibilities were increased by requiring the Authority to focus both upon regional jails and state correctional facilities. This “change in focus” was brought about in response to the West Virginia Supreme Court of Appeals decision in the case of *Crain vs. Bordenkircher* requiring the replacement of the

HISTORY OF THE WEST VIRGINIA REGIONAL JAIL AND CORRECTIONAL FACILITY AUTHORITY

West Virginia Penitentiary at Moundsville. The reconstituted Authority, with seven voting and two non-voting members, now known as the West Virginia Regional Jail and Correctional Facility Authority, revisited the “master plan” and concluded that ten regional jails of two, three, and four hundred bed capacity, built of a prototypical design, could serve the counties and allow for improved efficiency of construction, familiarity of operation, and standardization of training.

The Authority shall be governed by a board of nine members, seven of whom are entitled to vote on matters coming before the Authority. The complete governing board shall consist of the Commissioner of the Division of Corrections; the Director of the Division of Juvenile Services; the Secretary of the Department of Military Affairs and Public Safety; the Secretary of the Department of Administration, or his or her designated representative; three county officials appointed by the Governor, no more than two of which may be of the same political party; and two citizens appointed by the Governor to represent the areas of law and medicine. The Commissioner of the Division of Corrections and the Director of the Division of Juvenile Services shall serve in an advisory capacity and are not entitled to vote on matters coming before the authority. Members of the Legislature are not eligible to serve on the board.

All regional jails are of prototypical design. Within the system there are:

- 2 – 400 bed facilities – NCRJ and WRJ (this number includes available beds in the medical unit and inmate processing area)
- 3 – 200 bed facilities – CRJ, PHRJ, and NRJ. *Note that NRJ is contained in the same physical plant as the Northern Correctional Facility in Moundsville, WV. As both RJA and DOC inhabit the same building, this often presents operational requirements that are unique to that facility.*

The remaining five facilities are classified as 300 bed facilities.

200 = 192 + medical and holding

300 = 288 + medical and holding

400 = 384 + medical and holding

The West Virginia Regional Jail and Correctional Facility Authority is a special revenue agency. It is designed to act as both a corporate and a government instrumentality. Current outstanding bond debts are retired through fees attached to criminal cases. Operating costs are obtained through per diem charges to the entities who utilize the system.

THE HISTORY & ROLE OF THE WV REGIONAL JAIL & CORRECTIONAL FACILITY AUTHORITY

The WV Regional Jail and Correctional Facility Authority was created by the West Virginia Legislature in 1985. The purpose of the Authority is to provide safe, secure and humane care for persons ordered to be incarcerated by the courts. Generally, regional jails serve both pre-trial defendants and persons sentenced to terms of one year or less. However, offenders sentenced to serve terms of confinement in the custody of the Division of Corrections may also be held in regional jails while awaiting transfer to the state correctional system. The inmate population consists of county, state, and federal inmates, both male and female.
