

# Juror Qualification Report 2018

Supreme Court of Appeals of West Virginia  
Administrative Office  
Building 1, Room E-100, State Capitol  
1900 Kanawha Blvd. East  
Charleston, WV 25305-0830

March 30, 2019

## Background

In accordance with §52-1-16 of the West Virginia State Code, circuit clerks provide an annual report of juror qualification questionnaires to the Administrative Office of the Courts. West Virginia Code specifies that “the clerk shall make an annual report no later than the first day of March of each year...with the following information: whether the clerk employed a jury box or jury wheel for the year reported, and the age, race and gender of each person for whom a juror qualification questionnaire has been received.” Staff at the Administrative Office compile summaries of the questionnaires provided by the circuit clerks and generate an annual report. Pursuant to the code, the Administrative Office “provide[s] this information to the president of the Senate and the speaker of the House of Delegates on an annual basis, no later than the first day of April of each year.”

This report summarizes annual reports received for activity in 2018. The following sections describe the level of reporting; the number of jurors; the gender, race and age of the jurors; and the method used to select jurors.

## Highlights

- All counties except Greenbrier County, submitted an annual report on juror qualification to the Administrative Office.
- A total of 37,986 juror qualification questionnaires were completed. Berkeley County (3,338) and Ohio County (3,481) reported the largest number of questionnaires.
- Males completed 47.6% of the questionnaires and females completed 50.6%. The remaining 1.8 % of jurors did not report gender.
- Whites completed 90.4% of the questionnaires, Blacks completed over 2%, and other reported races combined completed less than 1%. Race was not reported or indicated on 6 % of questionnaires.
- There were more jurors (4,339) in the “56-60” age category than any other age category.
- 51% of the counties used the computer to select jurors, 13% used the jury box, and 36% used a computer selection method.

## Results

### Counties Reporting

All counties, except Greenbrier, submitted juror qualification reports for activity between January 1 and December 31, 2018.

### Total Jurors Qualified

A total of 37,986 individuals (2% of the state population) completed a juror qualification questionnaire in 2018. This represents an increase of 3% from 2017. The number of individuals completing the questionnaire ranged from a low of 147 in Pendleton County to a high of 3,481 in Ohio County. On average, 703 individuals completed questionnaires per county.

## Race/Ethnicity

Of the 37,986 jurors who completed a juror qualification questionnaire, 34,370 (90.4 %) reported their race as White. There were 901 Black jurors (2.37%), 189 Asian jurors (0.49%), 90 Native American jurors (0.27%) and 38 (.01%) Hispanic jurors. Race was marked as “other/unknown” for 2,369 jurors (6.23%). This includes questionnaires without a race option selected. According to the United States Census Bureau’s<sup>1</sup> website, in 2017, 93.3% of the West Virginia population was White, 3.6% were Black, 1.5% were Hispanic, 0.8% were Asian, 0.2% were American Indian or Alaska Native, and 1.7% were another race. The population demographics for 2018 are not available on their website.

Graph 2: Percent of Jurors and Population by Race/Ethnicity \*

\*Please note when summing the distribution of race calculated from the census it will not total 100 percent. Race and ethnicity are reported separately in census reporting. Thus in census comparison data, in addition to race, all respondents are categorized by membership in one of two ethnicities, which are "Hispanic or Latino" and "Not Hispanic or Latino". However, in WV Juror Questionnaires, Hispanic is included as a selection within the race category. So, while on census reporting an individual may choose a race such as Black or White and Hispanic as their ethnicity, on juror reporting they would only choose the one of these with which they most identify (i.e. Black or Hispanic).

## Age

The number of individuals in each age increment ranged from a high of 4,339 individuals (11.4%) in the “56-60” category to a low of 1,986 individuals (5.2%) in the “over 70” category. A table listing totals for all age categories by county is provided in Table 5 of the Appendix.

*Graph 3: Count of Jurors by Age Category*

## Jury Selection Method

In 2018, 19 counties (35%) used the jury wheel and 7 counties (13%) used the jury box to select potential jurors. A computer selection method was used in 28 counties (52%).
