

## EXECUTIVE SUMMARY

All data contained in this report is as of June 30, 2019. Revenue bonds are the most notable issuances of debt in the 2019 fiscal year. Three of these revenue bonds were issued by the Hospital Finance Authority for the following organizations: West Virginia University Health System (Morgantown, West Virginia) for \$567,870,000, Cabell Huntington Hospital (Huntington, West Virginia) for \$271,575,000, and Charleston Area Medical Center (Charleston, West Virginia) for \$104,016,818. Other notable issuances includes two revenue bonds as part of the Roads to Prosperity initiative by the West Virginia Parkways Authority for \$166,370,000 and the Division of Highways GARVEE 2018 for \$78,810,000. Additional issuances of revenue bonds were completed by the West Virginia Economic Development Authority, including \$911,959,424 in conjunction with Proctor and Gamble and \$55,195,000 in Lottery Revenue Bonds for improvements to West Virginia State Parks.

This Debt Capacity Report is one tool to monitor the fiscal prudence in managing the proceeds along with the state's economy. Pursuant to West Virginia Code §12-6A-6(e), the West Virginia State Treasurer is required to annually submit this Debt Capacity Report to the Governor, the President of the Senate, the Speaker of the House of Delegates, the members of the Joint Committee on Government and Finance, and the Legislative Auditor, as well as upon request to any other legislative committee and any other member of the Legislature. Additionally, the Debt Capacity Report is posted on the West Virginia State Treasurer's Office website located at <https://www.wvsto.com/> for inspection by any citizen of the state. West Virginia Code requires this Debt Capacity Report to examine the following:

- the amount of net tax-supported debt outstanding and debt authorized but not issued during the current and next fiscal year and annually for the following ten fiscal years;
- debt service requirements during the current and next fiscal year and annually for the following ten fiscal years based upon existing outstanding debt, previously authorized but unissued debt and projected bond authorizations;
- any information available from the budget office of the department of revenue in connection with projected revenues and anticipated capital expenditures projected for at least the next five fiscal years;
- the amount of debt the state and its spending units may prudently issue;
- what is needed to keep West Virginia within an average to low range of nationally recognized debt limits;
- the debt ratios rating agencies and analysts use; and
- the effect of authorizations of new tax supported debt on each of the considerations in this subsection.

**Net tax-supported debt outstanding** – To assist in analyzing the amount of the state’s debt capacity, *Table 1 - West Virginia Net Tax-Supported Debt Outstanding as of June 30, 2019* is included on page 3. Table 1 shows the breakdown of the state’s \$2.20 billion in outstanding net tax-supported debt as of June 30, 2019. Net tax-supported debt outstanding includes:

- general obligation (GO) bonds;
- lottery revenue bonds; and
- lease and note payable obligations.

**DISCLAIMER**

Pursuant to W.Va. Code §12-6A-6, every state spending unit is required to report quarterly on its debt to the West Virginia State Treasurer’s Office. The Treasurer’s Office prepares this Report using information provided by the spending units and information from other sources considered reliable. This report is unaudited and may be amended when updated information is provided to the Treasurer’s Office.

**Table 1 - West Virginia Net Tax-Supported Debt Outstanding  
as of June 30, 2019**

Type of Debt		Principal Outstanding June 30, 2019
<b>GENERAL OBLIGATION BONDS</b>		
Safe Road Bonds	\$ 118,390,000	
Roads to Prosperity Bonds	782,305,000	
Infrastructure Improvement Bonds	<u>108,002,634</u>	
<b>Total General Obligation Bonds</b>		\$ 1,008,697,634
<b>REVENUE BONDS</b>		
School Building Authority Capital Improvement Bonds	61,921,250	
Economic Development Authority, Lottery Revenue Bonds	277,500,000	
Economic Development Authority, Excess Lottery Revenue Bonds	190,165,000	
Higher Education Policy Commission, Excess Lottery Revenue Bonds	265,270,000	
Higher Education Policy Commission, Excess Lottery Revenue Bonds (BABs)	50,265,000	
School Building Authority, Lottery Revenue Bonds	129,105,000	
School Building Authority, Excess Lottery Revenue Bonds	77,760,000	
School Building Authority, Excess Lottery Revenue Bonds(QSCBs)	150,480,000	
West Virginia Infrastructure & Jobs Development Council, Excess Lottery Revenue Bonds	<u>64,995,000</u>	
<b>Total Revenue Bonds</b>		1,267,461,250
<b>TOTAL LEASE / NOTE OBLIGATIONS</b>		<u>312,776,327</u>
<b>GROSS TAX SUPPORTED DEBT</b>		2,588,935,211
<b>DEDUCTIONS FOR ESCROW/SINKING FUND/RESERVE FUNDS</b>		
Economic Development Authority, Excess Lottery Revenue Bonds	(25,012,690)	
Economic Development Authority, Lottery Revenue Bonds	(135,940,000)	
Higher Education Policy Commission Excess Lottery Revenue Bonds	(79,220,000)	
School Building Authority, Capital Improvement Bonds	(61,921,250)	
School Building Authority, Excess Lottery Revenue Bonds(QSCBs)	<u>(86,047,575)</u>	
<b>Total Deductions</b>		<u>(388,141,515)</u>
<b>NET TAX-SUPPORTED DEBT</b>		<u>\$ 2,200,793,696</u>

The debt service for the \$2.20 billion in net tax-supported debt represents 5.72% of the state’s General Revenue Fund receipts and 4.43% of specified revenue sources for Fiscal Year 2019. This debt service includes both principal and interest payments. The specified revenue sources include the State Road Fund, lottery funds and certain dedicated severance taxes (see *Appendix B - Revenue Information* for more information on the revenues included in this calculation). Both of these ratios are below the recommended caps.

Another important factor when determining debt capacity and the health of the state’s debt is amortization, or how rapidly the state’s debt is maturing. With all scenarios remaining constant, a 4.70% decrease in net tax-supported debt outstanding could occur within the next year. This analysis does not include the authorized \$800 million to be issued over the next four (4) years for the Roads to Prosperity initiative. Please see pages 6-7 of this report for further explanation. The recommended caps noted in the chart below are for the following year for various debt ratios:

Table 2 - Recommended Ratio Caps as of June 30, 2019

Ratio	Recommended Cap	June 30, 2019 Level	Projected Highest Level (FY20-30)
Net tax-supported debt Service as a percentage of the General Revenue Fund	6.00%	5.72%	5.72% (June 30, 2019)
Net tax-supported debt Service as a percentage of Revenues	5.00%	4.43%	4.43% (June 30, 2019)
Net tax-supported debt as a percentage of Personal Income	3.00%	2.89%	2.67% (June 30, 2020)
Net tax-supported debt Per Capita	\$980	\$1,228	\$1,170 (June 30, 2020)
Net tax-supported debt as a Percentage of Assessed Valuation	2.0%	2.22%	2.01% (June 30, 2020)

## Conclusion

The most important indicators of debt capacity include ratios, which account for the state’s revenues, and how much of those revenues are dedicated for payments on the state’s debt burden. With the issuance of \$800 million in GO debt in fiscal year 2018, \$600 million issued in December 2019 (subsequent to the year-end data of this report), and an authorized \$200 million through fiscal year 2021 for the Roads to Prosperity initiative, state leaders must carefully monitor the state’s ratios and be ready to take action, if necessary, to keep the state within the recommended caps of debt capacity.

# Debt Capacity

The purpose of this report is to perform the following tasks:

1. determine the amount of net tax-supported debt outstanding;
2. calculate key ratios that are commonly used to examine debt; and
3. make recommendations which will attempt to keep the state within an average-to-low range of national recognized debt limits.

## 1. Determine the amount of net tax-supported debt outstanding

The calculation of net tax-supported debt is shown in *Table 1 - West Virginia Net Tax-Supported Debt Outstanding as of June 30, 2019*, page 3. This \$2.20 billion figure includes general obligation (GO) bonds, lottery revenue bonds and lease and notes payable obligations of state spending units, including state colleges and universities.

The highest quality bonds the state can issue are GO bonds because GO bonds pledge the full faith and credit of the state and are authorized only by a constitutional amendment. Currently, GO bonds constitute the largest portion of the state's net tax-supported debt outstanding at approximately 46% (see chart titled *West Virginia Net Tax-Supported Debt by Type as of June 30, 2019* below).

**West Virginia Net Tax-Supported Debt by Type as of June 30, 2019**

The second largest type of debt consists of bonds backed by various pledges of revenue generated from the West Virginia Lottery. Revenues from the West Virginia Lottery are anticipated to increase approximately \$25 million for fiscal year 2020 to 2021. Projections show the revenue decreases \$25 million for fiscal year 2021 to 2022, but revenues should remain consistent between fiscal years 2022 to 2030. See *Appendix B - Revenue Information* for revenue projections.

Several state spending units have outstanding revenue bonds at June 30, 2019 (see *Table 3 – Various Revenue Bonds Outstanding*, page 8). These revenue bonds are excluded from the calculation of net tax-supported debt because these bonds are self-supporting revenue bonds. For example, the bonds issued by the Tobacco Settlement Financing Authority of West Virginia are excluded because the debt service is paid from tobacco settlement funds.

## **Comparison between Actual Debt Service Payments and Estimated Debt Service Payments Assuming the Issuance of the Additional Authorized \$800 million in GO Bonds**

While the current net tax-supported debt is \$2.20 billion, this does not include the \$800 million authorized to be issued as part of the Roads to Prosperity initiative. The authorized amounts are as follows:

- July 1, 2018, an amount not to exceed \$400 million;
- July 1, 2019, an amount not to exceed \$200 million; and
- July 1, 2020, an amount not to exceed \$200 million.

House Concurrent Resolution 104 passed both legislative chambers providing for the issuance of \$600 million during fiscal year 2020, allowing the unissued \$200 million to be carried forward to a future fiscal year. The issuance of the \$600 million in general obligation bonds was completed in fiscal year 2020 and dated December 17, 2019 (please note: this occurred after the effective date of this report). Currently, \$200 million remains authorized for fiscal year 2021. The GO bonds for Roads to Prosperity are being used for many projects spread across all 55 counties in the state, including new roads and bridges as well as repairs to existing roads and bridges. A list of specific projects can be found at the following website:

<https://transportation.wv.gov/driveforwardwv/projects/Pages/default.aspx>.

This report gives recommendations to maintain a “moderate-to-low” debt burden. Based on the data provided for this report, the issuance of this debt will most likely put the State of West Virginia outside the recommended ratios.

Since \$600 million has been issued as of December 2019 and assuming the issuance of \$200 million in fiscal year 2021, this Debt Capacity Report anticipates an additional \$13.7 million in interest payments in fiscal year 2020. In furtherance on the actual and assumed issuances noted above, this Debt Capacity Report anticipates an additional \$30 million in interest payments in fiscal year 2021. For fiscal year 2022, assuming the issuances as stated above, this Debt Capacity Report projects an additional \$33.1 million in interest payments. These assumptions are based on a projected True Interest Cost (TIC) in the range of 3.00% to 4.17%. The total projected debt service payments for fiscal year 2023 to 2030 would remain at \$59.6 million per year.

The next two graphs, *Actual Debt Service on General Obligation Bonds with Currently Issued Debt (in thousands)* and *Estimated Debt Service on General Obligation Bonds Issued \$600 million in December 2019 and Assuming Additional \$200 million is Issued in FY 2021 (in thousands)*, depict the current debt service requirements as well as the projected debt service requirements assuming the issuance of the entire \$800 million authorized.

**Actual Debt Service on General Obligation Bonds  
with Currently Issued Debt (in thousands)**

**Estimated Debt Service on General Obligation Bonds  
Issued \$600 million in December 2019 and Assuming  
Additional \$200 million is Issued in FY 2021 (in thousands)**

Although certain bonds of the West Virginia Water Development Authority and the West Virginia Housing Development Fund are considered moral obligations of the state, these bonds are currently self-supporting and are excluded from the calculation of net tax-supported debt.

<b>Table 3 – Various Revenue Bonds Outstanding June 30, 2019</b>	
Entity	Principal Outstanding
Concord University	\$ 15,445,000
Economic Development Authority	2,983,800,339
Fairmont State University	68,661,016

<b>NON TAX-SUPPORTED DEBT</b>	<b><u>\$8,378,093,753</u></b>

\* - does not include lease-backed bonds issued by the Economic Development Authority. The lease-backed bonds are included in net tax-supported debt as lease obligations.

Calculations of the net tax-supported debt and debt service of the State of West Virginia for fiscal years 2014 through 2030 are contained in Table 4 and Table 5 (*Table 4 – Net Tax-Supported Debt Outstanding for Fiscal Years 2014-2030* and *Table 5 - Net Tax-Supported Debt Services for Fiscal Years 2014-2030*, pages 10 – 13). Fiscal years 2014 through 2019 are included to show the historical perspective of the actual debt issued and the debt service requirements for those obligations. The most recent and next ten fiscal years, 2020 through 2030, are included to show expected debt levels as existing obligations mature.

Revenue information included in Table 4 and Table 5 (*Table 4 – Net Tax-Supported Debt Outstanding for Fiscal Years 2014-2030* and *Table 5 - Net Tax-Supported Debt Services for Fiscal Years 2020-2030*, pages 10 – 13) was compiled and provided by the West Virginia Department of Revenue and is included in *Appendix B - Revenue Information*. The projected values of personal income were obtained from IHS Markit (“WV Annual Long-Term Forecast” December 2019).

This page is intentionally blank.

Income and Assessed value information and projections provided by the West Virginia Department of Revenue  
Population information obtained from the U.S. Census Bureau

- (1) - Cash basis and net of escrowed bonds
- (2) - Reported as paid from the School Building Authority to the Trustee
- (3) - FY17 & FY18 are reported as "net" outstanding due to an advance refunding.
- (4) - Compiled by the Division of Debt Management. Does not match the State's CAFR due to differences in the leases that are included
- (5) - The Higher Education Excess Lottery Revenue Bonds, Series 2004B were incorrectly reported in the 2014 Annual Debt Position Report. The FY2014 amount outstanding has been properly updated.
- (6) - Balances for lease and notes payables beginning in fiscal year 2020 are projections and do not include the implementation of GASB 87. Balances are expected to increase.

  - Principal due: \$27,215,000
  - Interest due: \$28,210,281
  - Principal Outstanding: \$561,335,000
- FY 2030
  - Principal due: \$28,590,000
  - Interest due: \$26,832,531
  - Principal Outstanding: \$532,745,000

## Components of Net Tax-Supported Debt as of June 30, 2019 General Obligation Bonds

### Safe Road Amendment of 1996 and Roads to Prosperity

#### Amendment of 2017 – The Safe Road Amendment of 1996

authorized bonds to be issued in an amount not to exceed \$550 million. All of these bonds will be retired completely by June 1, 2025. The Roads to Prosperity Amendment of 2017 authorized bonds to be issued in an amount not to exceed \$1.6 billion. All of the issued bonds at June 30, 2109, will be retired completely by June 1, 2043.

The Safe Road and Roads to Prosperity bonds are paid from the state's Road Fund. The following table shows the debt service burden on the Road Fund, which will peak during fiscal year 2023. After 2023, the debt service burden is expected to drop from 9.27% in fiscal year 2024 through maturity in fiscal year 2043. This calculation does not include the authorized \$800 million to be issued over the next four (4) years. Please see pages 6-7 for further explanation.

**Table 6 – Debt Service Burden, State Road Fund as of June 30, 2019**

Fiscal Year	Debt Service	Road Fund Revenue	Debt Service as % of
			Road Fund
2014	36,756,900	734,717,000	5.00%
2015 *	6,040,150	742,998,000	0.81%
2016 *	11,163,738	691,481,000	1.61%
2017	23,192,900	691,645,000	3.35%
2018	23,191,650	797,088,000	2.91%
2019	78,611,552	868,485,000	9.05%
2020	78,618,031	881,035,000	8.92%
2021	78,615,331	871,217,000	9.02%
2022	78,619,206	841,556,000	9.34%
2023	78,619,456	848,366,000	9.27%
2024	78,617,631	870,000,000	9.04%
2025	78,612,031	870,000,000	9.04%
2026	55,421,281	870,000,000	6.37%
2027	55,424,656	870,000,000	6.37%
2028	55,421,531	880,000,000	6.30%
2029	55,425,281	882,000,000	6.28%
2030	55,422,531	882,000,000	6.28%

\*Does not include amounts paid through refunding.

**Infrastructure Improvement Amendment of 1994** – The Infrastructure Improvement Amendment of 1994 authorized bonds to be issued in an amount not to exceed \$300 million for water supply and sewage treatment systems as well as economic development sites. The bonds are secured by the first collections of severance taxes. Beginning in April 2016, the annual dedication of collections are based on an amortization schedule published by the West Virginia State Treasurer’s Office, not to exceed \$22.25 million per year. All of the bonds issued will be retired by November 1, 2026. Table 7 (*Table 7 – Debt Service Infrastructure GO Bonds as of June 30, 2019*) shows the debt service on all Infrastructure GO bonds and the appropriation of dedicated severance tax collections as of June 30, 2019.

**Table 7 – Debt Service Infrastructure GO Bonds as of June 30, 2019**

Fiscal Year	Debt Service	Annual Appropriation
2016	22,068,153	22,500,000
2017	21,656,353	21,656,000
2018	19,377,313	19,377,000
2019	20,556,969	20,557,000
2020	21,947,475	21,947,000
2021	21,935,925	21,936,000
2022	21,954,900	21,955,000
2023	21,937,975	21,938,000
2024	22,201,225	22,201,000
2025	22,210,175	22,210,000
2026	22,201,375	22,201,000
2027	22,201,000	22,201,000

**Authorized but unissued** – The Vietnam Veterans Bonus Amendment of 1973, the Veterans Bonus Amendment of 1992 and the Veterans Bonus Amendment of 2004 authorized the sale of bonds of not more than \$40 million, \$4 million and \$8 million, respectively, for the purpose of paying a bonus to the veterans serving in foreign conflicts. General Revenue funds have been used to pay all of these bonuses and no bonds were issued.

**Qualified Veterans Housing Bonds Amendment of 1984** – The Qualified Veterans Housing Bonds Amendment of 1984 authorized the sale of bonds to provide financing for owner-occupied residences for persons determined by the Legislature to be qualified veterans. The amount of bonds issued is limited to bonds in which the annual principal and interest do not exceed a total of \$35 million in any fiscal year.

## Revenue Bonds

### Revenue Bonds

The remaining authorization for all bonds is dependent upon legislation and available revenues.

[Lottery and Excess Lottery Revenue Bonds – Economic Development Authority of West Virginia](#)

Principal outstanding (net):  
\$306,712,310

[Lottery and Excess Lottery Revenue Bonds – West Virginia Higher Education Policy Commission](#)

Principal outstanding (net):  
\$236,315,000

[Lottery and Excess Lottery Revenue Bonds – School Building Authority of West Virginia](#)

Principal outstanding (net):  
\$271,297,425

[Excess Lottery Revenue Bonds – West Virginia Infrastructure & Jobs Development Council](#)

Principal outstanding (net):  
\$64,995,000

**Lottery Revenue Bonds** – Revenue bonds backed by certain funds of the West Virginia Lottery have been issued for various reasons, such as economic development grants and “brick & mortar” projects at various primary, secondary schools, colleges and universities throughout West Virginia. Lottery revenue bonds account for approximately 40% of the state’s net tax-supported debt outstanding. The following table shows the debt service burden lottery revenue bonds place on lottery funds. Lottery Fund numbers are provided by the Department of Revenue and are net of transfers to the state’s General Revenue Fund.

**Table 8 - Debt Service Burden, Lottery Fund as of June 30, 2019**

Fiscal Year	Debt Service	Lottery Fund Revenue	Debt Service as % of
			Lottery Fund
2014	88,602,001	337,209,000	26.28%
2015	78,664,521	405,400,000	19.40%
2016	83,817,727	403,645,000	20.77%
2017	84,472,638	386,612,000	21.85%
2018	82,069,901	398,512,000	20.59%
2019	92,017,867	488,132,000	18.85%
2020	96,352,782	411,555,000	23.41%
2021	96,301,200	436,555,000	22.06%
2022	96,197,780	411,555,000	23.37%
2023	96,147,623	411,555,000	23.36%
2024	95,935,111	411,555,000	23.31%
2025	94,092,896	411,555,000	22.86%
2026	94,042,851	411,555,000	22.85%
2027	82,038,174	411,555,000	19.93%
2028	68,271,723	411,555,000	16.59%
2029	57,538,995	411,555,000	13.98%
2030	54,960,500	411,555,000	13.35%

## ***Lease and Note Payable Obligations***

### *Various Lease and Note Payable Obligations*

Principal outstanding: \$312,776,327

Remaining authorization is dependent upon legislation and available revenues.

### *Top 10 Spending Units with Leases and or Notes Outstanding (dollar value outstanding) as of June 30, 2019*

1. Secretary of Administration: \$115.3 million
2. State Building Commission of West Virginia: \$81.0 million
3. Shepherd University: \$22.0 million
4. West Virginia University: \$16.7 million
5. Department of Administration, Travel Management: \$15.8 million
6. West Virginia Department of Environmental Protection: \$15.2 million
7. West Virginia Division of Corrections: \$10.7 million
8. Department of Health & Human Resources: \$9.8 million
9. West Virginia Department of Veterans Assistance: \$6.8 million
10. Division of Natural Resources: \$5.1 million

## **Components of Net Tax- Supported Debt as of June 30, 2019 Leases and Notes Payable**

Approximately \$23.0 million of new leases were entered into during fiscal year 2019. This reflects a decrease from fiscal year 2018, which had a total of \$61.3 million.<sup>1</sup>

---

<sup>1</sup> The total amount of leases outstanding in this report is \$312.8 million and will differ from the figure reported in the state's Comprehensive Annual Financial Report (CAFR). This is due to several factors, including the materiality levels used.

## Components of Net Tax-Supported Debt as of June 30, 2019 Debt Service Reserve & Other Funds

The table below (*Table 9 – Escrow/Sinking Funds/Debt Service Reserve Accounts as of June 30, 2020*) shows debt service reserve, escrow and sinking funds available to pay debt service on various issues part of the state’s net tax-supported debt. These amounts are deducted from the gross tax supported debt to calculate the net figure detailed in Table 1 (*Table 1 – West Virginia Net Tax-Supported Debt Outstanding as of June 30, 2019*, page three). All figures are as of June 30, 2019.

Table 9 - Escrow/Sinking Funds/  
Debt Service Reserve Accounts  
as of June 30, 2019

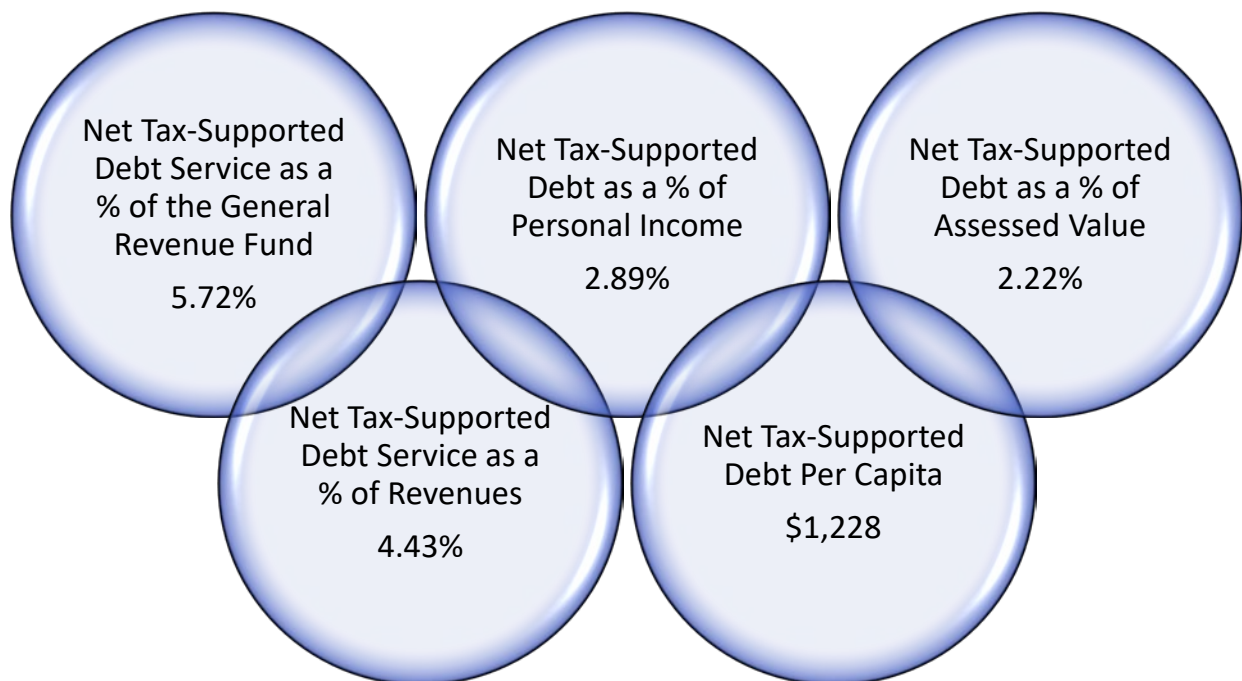

Issue / Spending Unit / Authority	Type of fund	Value at June 30, 2019
West Virginia Economic Development Authority Excess Lottery Revenue	Reserve	\$25,012,690
School Building Authority of West Virginia, Capital Improvement Bonds	Reserve	\$61,921,250
School Building Authority of West Virginia, Excess Lottery Revenue (QSCBs)	Sinking Fund	\$86,047,575
West Virginia Economic Development Authority, Lottery Revenue Bonds	Escrow	\$135,940,000
West Virginia Higher Education Policy Commission, Excess Lottery Revenue Bonds	Escrow	\$79,220,000

## 2. Calculate key ratios that are common used to examine debt

Key ratios establish benchmarks the municipal bond industry and other entities use to provide a measurement of a state's outstanding debt and the servicing (principal and interest payments) of that debt. Ratios are useful tools because they provide quantifiable measurements used when analyzing a state's fiscal position. Ratios can also provide insight into economic trends and a state's reliance on debt financing.

According to calculations based on net tax-supported debt, revenue projections, personal income projections and population estimates, the ratios as of June 30, 2019, are shown below:

### Various Debt Ratios as of June 30, 2019

### State of West Virginia Credit Ratings:

The ratings remain the same from the June 2018 General Obligation 2018 A&B Bond issuance to the December 2019 General Obligation 2019 A Bond issuance.

Moody's: Aa2; Standard and Poor's: AA-; and Fitch: AA

With the 2018 issuance of \$800 million in GO debt, the ratios reached their peak in fiscal year 2019. In the following years, there is a decrease as the debt service payments are made. This does not account for additional issuance of \$600 million in December 2019 and the authorized \$200 million in GO bonds or revenue bond debt, and also assumes lease obligations outstanding for fiscal years 2020 to 2030 remaining constant. See pages 6-7 for further explanation. The following charts show the historical and future projections of these ratios.

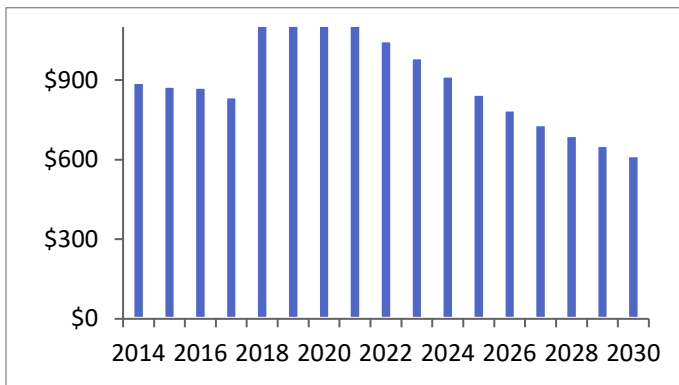

**Net Tax-Supported Debt Service as a Percentage of General Revenue Fund**  
Current Percentage: 5.72%

**Net Tax-Supported Debt Service as a Percentage of Revenues**  
Current Percentage: 4.43%

**Net Tax-Supported Debt as a Percentage of Personal Income**  
Current Percentage: 2.89%

**Net Tax-Supported Debt Per Capita**  
Current Level: \$1,228

### 3. Make recommendations which will attempt to keep the state within an average to low range of nationally recognized debt limits.

The final step in this analysis is making recommendations based on keeping the state within a certain range of debt ratios. Most ratios are easily accessible; therefore, making comparisons to other states and making recommendations of keeping the state in the average to low range is relatively easy. There are also certain industry practices recognized as prudent fiscal management. For example, many states have constitutional or statutory caps on how much of their General Fund can be obligated toward debt repayment; other states use a combination of ratios with various parameters.

Each year, Moody’s Investors Service produces a report ranking states according to various debt ratios. The 2019 report, titled *States – US – Medians – State Debt Continues Slow Growth Trend*, shows the average (or “mean”), the high and the low for two of the ratios examined in this report. This comparison is made to West Virginia ratios to carry out the legislative intent of this report, which is to make recommendations with the aim of keeping the state in the “average to low range of national recognized debt limits.” The average debt per capita of the 50 states for 2019 was \$1,493. The average debt as a percentage of personal income was 2.8%.

*Table 10 – Various Statistics from Moody’s 2019 Publication, States – US - Medians – State Debt Continues Slow Growth Trend*

Ratio	Average	Highest	Lowest	West Virginia Ranking*
Net-Tax Supported Debt (NTSD) per capita	\$1,493	\$6,802	\$23	\$1,437
		Connecticut	Nebraska	#21
NTSD as a % of Personal Income	2.8%	10.3%	0.0%	3.7%
		Hawaii	Nebraska	#14
Total NTSD	\$10.5billion	\$86.8 billion	\$19.2 million	\$2.6 billion
		California	Wyoming	#30

*\* As reported by Moody’s in June 2019. These figures do not necessarily match the amounts stated in this report by the West Virginia State Treasurer’s Office, generally due to timing and the inclusion of certain obligations. For specific calculations of the West Virginia State Treasurer’s Office, see tables 4 and 5, pages 10 through 13.*

## Net Tax-Supported Debt Service as a Percentage of the General Revenue Fund

### Recommended Caps:

At June 30, 2019, the net tax-supported debt service as a percentage of the General Revenue Fund was 5.72%, which is below the recommended cap of 6.00%. This report recommends a cap on this particular ratio each year. The following are the recommended caps in past reports and actual levels at the time the report was issued:

2014  
Recommended cap: 6.00%  
Actual Ratio: 5.23%

2015  
Recommended cap: 6.00%  
Actual ratio: 4.02%

2016  
Recommended cap: 6.00%  
Actual ratio: 4.43%

2017  
Recommended cap: 6.00%  
Actual ratio: 4.87%

2018  
Recommended cap: 6.00%  
Actual Ratio: 5.21%

2019  
Recommended cap: 6.00%  
Actual Ratio: 5.72%

## Net Tax-Supported Debt Service as a Percentage of the General Revenue Fund

The net tax-supported debt service as a percentage of the General Revenue Fund is perhaps the most important ratio measurement since it shows the potential strain on the General Revenue Fund if, for some reason, all other funds are insufficient to pay debt service.

As of the publication of this report, the General Revenue Fund is ahead of current revenue projections for fiscal year 2020.

Keeping the potential debt service burden on the state's General Revenue Fund below 6.00% is prudent fiscal management.

This does not include the authorized additional \$800 million to be issued over the next four (4) years. Please see pages 6-7 for further explanation.

Net Tax-Supported Debt Service as a Percentage of the General Revenue Fund Fiscal Years 2014-2019 (actual), 2020-2030 (projected) as of June 30, 2019

### Net Tax-Supported Debt Service as a Percentage of Revenues

The definition of revenues includes not only the General Revenue Fund, but also the state’s Road Fund, Lottery Fund and the dedicated stream of the state’s coal severance tax collections. The annual dedication of collections for the Infrastructure General Obligation bonds is based on an amortization schedule published by the West Virginia State Treasurer’s Office, not to exceed \$22.25 million per year. The current and projected revenues are contained in *Table 5 - Net Tax-Supported Debt Services for Fiscal Years 2020-2030*, pages twelve and thirteen, and also in *Appendix B - Revenue Information*.

The recommended level for this year’s report remains at 5.00%. As mentioned in previous reports, the amount of bonds backed by a pledge of lottery revenue remains at a high level. As mentioned on page 5 of this report, the Legislature approved statutory changes addressing adequate debt service coverage ratio limits on the Excess Lottery Fund and provided a cross-collateral mechanism for Lottery Revenue Bonds.

The debt service on existing Lottery Revenue Bonds will peak at \$96 million during fiscal year 2020 and will remain constant for fiscal years 2021 through 2024.

Net Tax-Supported Debt Service as a Percentage of Revenues  
Fiscal Years 2013-2019 (actual), 2020-2030 (projected)  
as of June 30, 2019

### Net Tax-Supported Debt Service as a Percentage of Revenues

#### Recommended Caps:

At June 30, 2019, the net tax-supported debt service as a percentage of Revenues was 4.43%, which is below the recommended cap of 5.00%. This report recommends a cap on this particular ratio each year. The following are the recommended caps in past reports and actual levels at the time the report was issued:

2014  
Recommended cap: 5.00%  
Actual Ratio: 4.13%

2015  
Recommended cap: 5.00%  
Actual Ratio: 3.14%

2016  
Recommended cap: 5.00%  
Actual Ratio: 3.48%

2017  
Recommended cap: 5.00%  
Actual Ratio: 3.86%

2018  
Recommended cap: 5.00%  
Actual Ratio: 4.05%

2019  
Recommended cap: 5.00%  
Actual Ratio: 4.43%

## Net Tax-Supported Debt as a Percentage of Personal Income

### Recommended Caps:

At June 30, 2019, the net tax-supported debt as a percentage of Personal Income was 2.89% which is below the recommended cap of 3.00%. This report recommends a cap on this particular ratio each year. The following are the recommended caps in past reports and actual levels at the time the report was issued:

2014 (personal income figures revised)  
Recommended cap: 3.10%  
Actual Ratio: 2.47%

2015 (personal income figures revised)  
Recommended cap: 3.10%  
Actual Ratio: 2.38%

2016 (personal income figures revised)  
Recommended cap: 3.00%  
Actual Ratio: 2.37%

2017 (personal income figures revised)  
Recommended cap: 3.00%  
Actual Ratio: 2.17%

2018 (personal income figures revised)  
Recommended cap: 3.00%  
Actual Ratio: 3.10%

2019 (personal income figures revised)  
Recommended cap: 3.00%  
Actual Ratio: 2.89%

## Net Tax-Supported Debt as a Percentage of Personal Income

This ratio has historically plagued the State of West Virginia because the measurement of personal income of West Virginia residents has been below the national average. According to figures supplied from the West Virginia State Budget Office, with further reference to an IHS Markit report, West Virginia's personal income is forecasted to increase approximately 3.02% from 2019 to 2020, 3.61% from 2020 to 2021, and 3.68% from 2021 to 2022.

According to a Moody's Investors Service report, the average of this particular ratio is 2.8%, with the median being 2.2%. Comparing states that have a similar Moody's rating to that of West Virginia (Aa2), West Virginia was the seventh highest within the average range of this particular ratio as detailed in Table 11 *Debt as a Percentage of Personal Income (similarly rated states) as Presented in a 2019 report by Moody's Investors Service on page 26.*

Historically, this report has recommended a cap of 3.00% for this particular ratio. It is recommended the cap for this year remain at 3.0%. Until the State of West Virginia is able to realize a greater increase in its personal income, careful attention should be paid to this important economic indicator.

Table 11 - Debt as a Percentage of Personal Income (Similarly Rated States) as Presented in a 2019 Report by Moody's Investors Service

State	Debt as a % of Personal Income*
Oklahoma	0.7 <sup>0</sup> %
Arizona	1.4 <sup>0</sup> %
Nevada	1.4 <sup>0</sup> %
Maine	1.8 <sup>0</sup> %
New Mexico	3.0 <sup>0</sup> %
Kansas	3.1 <sup>0</sup> %
West Virginia	3.7 <sup>0</sup> %
Rhode Island	4.2 <sup>0</sup> %
Mississippi	4.9 <sup>0</sup> %

\* As reported by Moody's in June 2019. These figures do not necessarily match with the amounts stated in this report by the West Virginia State Treasurer's Office, generally due to timing and the inclusion of certain obligations. For the specific calculations of the West Virginia State Treasurer's Office, see Table 4 and Table 5, pages 10 through 13.

**West Virginia Debt as a Percentage of Personal income  
Fiscal Years 2014-2019 (Actual), 2020-2030 (Projected)  
as of June 30, 2019**

## ***Net Tax-Supported Debt Per Capita***

### *Recommended Caps:*

At June 30, 2019, the net tax-supported debt per capita was \$1,228, which is above the recommended cap of \$980. This report recommends a cap on this particular ratio each year. The following are the recommended caps in past reports and actual levels at the time the report was issued:

2014
Recommended cap: \$1,100
Actual Ratio: \$893
2015
Recommended cap: \$1,100
Actual Ratio: \$878
2016
Recommended cap: \$1,100
Actual Ratio: \$875
2017
Recommended cap: \$1,100
Actual Ratio: \$838
2018
Recommended cap: \$980
Actual Ratio: \$1,265
2019
Recommended cap: \$980
Actual Ratio: \$1,228

### **Net Tax-Supported Debt Per Capita**

West Virginia's net tax-supported debt per capita as calculated by the West Virginia State Treasurer's Office is \$1,228. This figure is well below the national average of \$1,493 listed in the Moody's Investors Service report.

Population figures are good economic measurements in this analysis. For example, the ratio of net tax-supported debt per capita indicates the possible debt burden on each West Virginia citizen based on a population analysis. According to estimates from the United States Census Bureau, West Virginia's population in 2019 was 1.792 million, down by 0.8% (approximately 14,000) from 2018. The continued downward trend is not a positive indicator for the State of West Virginia because the potential debt burden increases on the remaining population. It is also important to note West Virginia's median age averages 42.2, making it the state with the oldest population in the United States.

The state's population may see positive growth as more jobs are anticipated with an influx of investment in infrastructure development. However, until this shift in declining population is realized, the recommended cap of net tax-supported debt per capita should be \$980 as of June 30, 2019. This recommendation is below the national average of \$1,493. According to Moody's, the net tax-supported debt per capita for West Virginia was \$1,437, the sixth highest ratio among other states with a Moody's rating of Aa2. This figure is different than the figure calculated by the West Virginia State Treasurer's Office (see note on page 28).

This analysis does not include the authorized additional \$800 million to be issued over the next four (4) years. Please see pages 6-7 for further explanation.

Table 12 - Debt Per Capita  
 (Similarly Rated States)  
 as Presented in a 2019 report by Moody's Investors Service

State	Debt Per Capita*
Oklahoma	\$320
Arizona	\$559
Nevada	\$630
Maine	\$842
New Mexico	\$1,192
West Virginia	\$1,437
Kansas	\$1,518
Mississippi	\$1,782
Rhode Island	\$2,216

*\* As reported by Moody's in June 2019. These figures do not necessarily match with the amounts stated in this report by the West Virginia State Treasurer's Office generally due to timing and the inclusion of certain obligations. For the West Virginia State Treasurer's Office specific calculations, see Table 4 and Table 5, pages 10 through 13.*

### West Virginia Debt Per Capita

Fiscal Years 2014-2019 (Actual), 2020-2030 (Projected) as of June 30, 2019

### ***Other Debt Ratios***

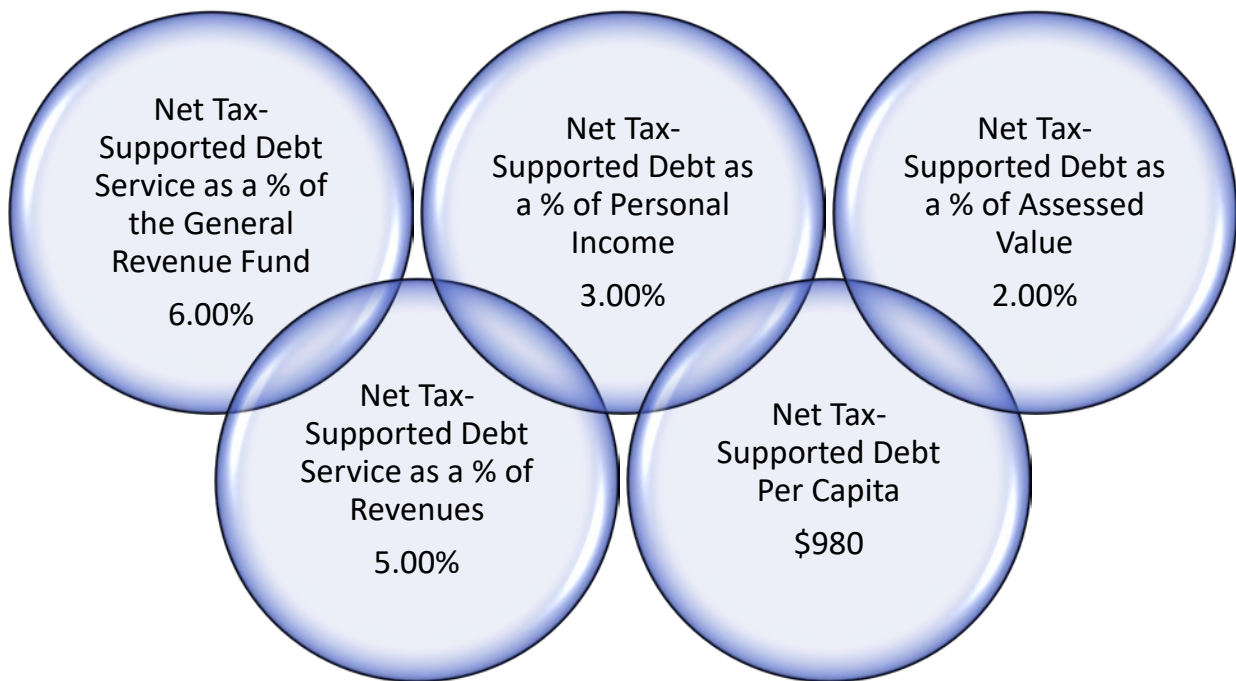

Net tax-supported debt as a Percentage of the Assessed Value of Taxable Property - Historically, the Debt Capacity Report has suggested a cap of 2.00% for this particular ratio. This recommendation has not been based on any particular research, but rather on the relationship to the other current debt ratios of the state. At June 30, 2019, the ratio was 2.22%.

### **Summary**

The goal of this report is to continue the State of West Virginia's practice of fiscal conservatism by making recommendations to help the state maintain a "moderate-to-low" debt burden. This burden does not take into account the state's "soft" debts, such as pension liabilities or other post-employment benefits, but it does consider those debt issuances the state's citizens and its lawmakers have authorized.

The State of West Virginia is below three of the five recommended caps on the ratios examined in this report. As previously discussed, the state has issued \$800 million in new GO bonds as of June 2019 and an additional \$600 million in GO bonds as of December 2019. Further, the State of West Virginia can issue an additional \$200 million in GO debt. This investment in the state's future must be carefully monitored to ensure it pays the expected dividends of long-term income and population growth for the State of West Virginia and its citizens. Maintaining a fiscally conservative approach will guide the State of West Virginia on the road to prosperity.

# Summary of Recommended Caps as of June 30, 2019

## **Appendix A**

**West Virginia State Code §12-6A-1, *et. seq.***

**The Debt Management Act**

## **ARTICLE 6A. THE DEBT MANAGEMENT ACT**

### **§12-6A-1. Short title.**

This article shall be known and may be cited as “The Debt Management Act”.

### **§12-6A-2. Legislative findings and declaration of public necessity.**

The Legislature hereby finds and declares that in order to maintain the strong financial management of the state, to meet the fiscal needs of state government and to facilitate financing essential capital projects at the lowest possible cost to the citizens of the state, the state must regularly monitor the amount of debt issued by the state and its spending units, ensure the state and its spending units meet all debt service requirements, monitor the credit rating of the state and analyze the acceptance of debt issued by the state and its spending units. The Legislature further finds that in order to meet these important goals, the Division of Debt Management needs to be continued.

### **§12-6A-3. Division of Debt Management continued; director.**

(a) The Division of Debt Management is continued in the office of the State Treasurer.

(b) The Division shall serve as a central information source concerning the incurrence, recording and reporting of debt issued by the state and its spending units, and shall prepare reports pertaining to the capacity of the state and its spending units to issue debt.

(c) The Treasurer shall appoint a director, qualified by reason of exceptional training and experience in the field of activities of his or her respective Division, and who shall serve at the will and pleasure of the Treasurer.

### **§12-6A-4. Definitions.**

For the purpose of this article:

“Debt” means bonds, notes, certificates of participation, certificate transactions, capital leases, debentures, lease purchases, mortgages, securitizations and all other forms of securities and indebtedness obligations evidencing specific amounts owed and payable on demand or on determinable dates.

“Debt impact report” means a report prepared by the division which includes information pertaining to a proposed issuance of debt by the state or its spending units.

“Division” means the Division of Debt Management.

“Moral obligation bond” means a debt obligation for which the state or a spending unit has made a nonbinding covenant to make up any deficiency in debt service.

“Net tax-supported debt” means the amount of tax supported debt less any applicable refundings, defeasances, escrow accounts, reserve requirements and sinking funds.

“State” means the State of West Virginia.

“Spending unit” means a state department, agency, board, commission, committee, authority or other entity of the state with the power to issue and secure debt. Spending unit does not include local political subdivisions.

“Tax-supported debt” means: (1) General obligation bonds of the state; (2) moral obligation bonds of the state or a spending unit; (3) capital leases, installment purchases, lease purchases, mortgages, certificates of participation and any other similar debt financing transaction extending beyond one year issued by the state or its spending units; and (4) any other debt issued by the state or a spending unit which is not self-supporting. Debt issued by the West Virginia housing development fund, economic development authority, hospital finance authority, parkway authority, public energy authority, solid waste management board and water development authority, with the exception of debt secured by lottery revenues or secured by a lease with the Secretary of Administration, is not tax-supported debt.

#### **§12-6A-5. Powers and duties.**

The Division of Debt Management shall perform the following functions and duties:

(1) Continuously evaluate the current and projected debt and debt service requirements of the State and its spending units.

(2) Evaluate cash flow projections relative to proposed and existing revenue bond issues.

(3) Issue a debt impact report if requested by the Governor, the President of the Senate or the Speaker of the House of Delegates. The Division may request any additional information needed to issue a debt impact report. A debt impact report shall in no way restrict the Governor, the Legislature or the spending unit.

(4) Act as liaison with the Legislature on all debt matters, including, but not limited to, new debt issues and the status of debt issued by the State and its spending units.

(5) Assist the State and its spending units regarding the issuance of debt if requested.

(6) Establish reporting requirements for the issuance of debt by the State and its spending units pursuant to the provisions of this article.

(7) Monitor continuing disclosure requirements and post-issuance compliance issues with federal and state tax and securities law, including, without limitation, arbitrage, rebate and remedial measures.

(8) Make and execute contracts and other instruments and pay the reasonable value of services or commodities rendered to the division pursuant to those contracts.

(9) Contract, cooperate or join with any one or more other governments or public agencies, with any political subdivision of the State, or with the United States, to perform any administrative service, activity or undertaking which the contracting party is authorized by law to perform, charge for providing services and expend any fees collected.

(10) Do all things necessary or convenient to effectuate the intent of this article and to carry out its powers and functions.

#### **§12-6A-6. Reporting.**

(a) Within fifteen days following the end of each calendar quarter, each state spending unit shall provide the division and the Legislative Auditor, in the manner provided by this article and in such form and detail as the State Treasurer may require, a report including, but not limited to, the name of the state spending unit, the amounts and types of debt incurred during the calendar quarter and outstanding at the end of the calendar quarter, the cost and expenses of incurring the debt, the maturity date of each debt, the terms and conditions of the debt, the current debt service on the debt, the interest rate on the debt, the source of the proceeds utilized for repayment of the debt, the amounts of repayment during the calendar quarter, the repayment schedule and the security for the debt. A state spending unit having no outstanding debt shall not be required to provide the quarterly report but shall file an annual report, on forms established by the Division of Debt Management: *Provided*, That the state spending unit shall immediately notify the Division of Debt Management of any change in the spending unit's outstanding debt or financial condition.

(b) Not less than thirty days prior to a proposed offering of debt by the state or a state spending unit, written notice of the proposed offering and the terms thereof shall be given to the Division by the state spending unit in the form as the Division may require.

(c) Within thirty days after closing on an offering, the responsible spending unit shall report to the division the information pertaining to the offering required by the division in the form the division may require.

(d) On or before January 31 and July 31 of each year, the division shall prepare and issue a report of all debt of the State and its spending units and of all proposed debt issuances of which the division has received notice and shall furnish a copy of the report to the Governor, the President of the Senate, the Speaker of the House of Delegates, the members

of the Joint Committee on Government and Finance, the Legislative Auditor and upon request to any other legislative committee and any member of the Legislature. The report shall be kept available for inspection by any citizen of the state. The division shall also prepare updated reports of all debt of the state and its spending units as of March 31 and September 30 each year, which shall be available for inspection at the office of the state Treasurer within thirty days of the end of the respective calendar quarter.

(e) On or before January 15 each year, the division shall report to the Governor and to the Legislature on the capacity of the state to issue additional debt. In preparing its annual review and estimate, the division shall, at a minimum, consider:

(1) The amount of net tax-supported debt outstanding and debt authorized but not issued during the current and next fiscal year and annually for the following ten fiscal years;

(2) Debt service requirements during the current and next fiscal year and annually for the following ten fiscal years based upon existing outstanding debt, previously authorized but unissued debt and projected bond authorizations;

(3) Any information available from the budget office of the department of revenue in connection with projected revenues and anticipated capital expenditures projected for at least the next five fiscal years;

(4) The amount of debt the state and its spending units may prudently issue;

(5) What is needed to keep West Virginia within an average to low range of nationally recognized debt limits;

(6) The debt ratios rating agencies and analysts use; and

(7) The effect of authorizations of new tax supported debt on each of the considerations in this subsection.

#### **§12-6A-7. Promulgation of rules.**

The Treasurer shall propose rules for legislative approval relating to the reporting requirements and duties under this article in accordance with the provisions of article three, chapter twenty-nine-a of this code.
