11 1931, as amended, relating to funding of the Industrial Access  
12 Road Fund.

13 *Be it enacted by the Legislature of West Virginia:*

14 That §17-3A-1 of the Code of West Virginia, 1931, as amended,  
15 be amended and reenacted to read as follows:

16 **ARTICLE 3A. INDUSTRIAL ACCESS ROAD FUND.**

17 **§17-3A-1. Industrial Access Road Fund created; construction**  
18 **guarantees by municipalities and counties.**

19 (a) Any other provision of this code notwithstanding, there is  
20 hereby continued in the State Treasury the Industrial Access Road  
21 Fund, referred to in this article as "the fund". There shall be  
22 deposited into the fund three fourths of one percent of all state  
23 tax collections which are otherwise specifically dedicated by the

1 provisions of this code to the State Road Fund or the percentage of  
2 those tax collections that will produce \$3 million for each fiscal  
3 year. At the end of each fiscal year, all unobligated moneys in  
4 the fund revert to the State Road Fund.

5 (b) The moneys in the fund shall be expended by the Division  
6 of Highways for constructing and maintaining industrial access  
7 roads within counties and municipalities to industrial sites on  
8 which manufacturing, distribution, processing or other economic  
9 development activities, including publicly owned airports, are  
10 already constructed or are under firm contract to be constructed.  
11 In the event there is no industrial site already constructed or for  
12 which the construction is under firm contract, a county or  
13 municipality may guarantee to the Division of Highways an  
14 acceptable surety or a device in an amount equal to the estimated  
15 cost of the access road or that portion provided by the Division of  
16 Highways, that an industrial site will be constructed and if no  
17 industrial site acceptable to the Division of Highways is  
18 constructed within the time limits of the surety or device, the  
19 surety or device shall be forfeited.
