10  
11 AN ACT to amend and reenact §22-14-3 of the Code of West Virginia, 1931, as amended, relating  
12 to dams; and clarifying definition of “owner” of dam.

13 *Be it enacted by the Legislature of West Virginia:*

14 That §22-14-3 of the Code of West Virginia, 1931, as amended, be amended and reenacted  
15 to read as follows:

16 **ARTICLE 14. DAM CONTROL ACT.**

17 **§22-14-3. Definition of terms used in article.**

18 As used in this article, unless used in a context that clearly requires a different meaning, the  
19 term:

20 (a) "Alterations" or "repairs" means only those changes in the structure or integrity of a dam  
21 that may affect its safety to be determined by the secretary.

22 (b) "Application for a certificate of approval" means the written application provided to the  
23 secretary requesting that a person be issued a certificate of approval.

1 (c) "Appurtenant works" means any structure or facility that is an adjunct of, or connected,  
2 appended or annexed to, a dam, including, but not limited to, spillways, a reservoir and its rim,  
3 low-level outlet works or water conduits such as tunnels, pipelines and penstocks either through the  
4 dam or its abutments.

5 (d) "Authority" means the Water Development Authority provided in section four, article one,  
6 chapter twenty-two-c of this code.

7 (e) "Certificate of approval" means the written approval issued by the secretary to a person  
8 who has applied to the secretary for a certificate of approval that authorizes the person to place,  
9 construct, enlarge, alter, repair or remove a dam and specifies the conditions or limitations under  
10 which the work is to be performed by that person.

11 (f)(1) "Dam" means an artificial barrier or obstruction, including any works appurtenant to  
12 it and any reservoir created by it, which is or will be placed, constructed, enlarged, altered or repaired  
13 so that it does or will impound or divert water and:

14 (A) Is or will be twenty-five feet or more in height from the natural bed of the stream or  
15 watercourse measured at the downstream toe of the barrier and which does or can impound fifteen  
16 acre-feet or more of water; or

17 (B) Is or will be six feet or more in height from the natural bed of the stream or watercourse  
18 measured at the downstream toe of the barrier and which does or can impound fifty acre-feet or more  
19 of water;

20 (2) "Dam" does not mean:

21 (A) Any dam owned by the federal government;

22 (B) Any dam for which the operation and maintenance of the dam is the responsibility of the  
23 federal government;

1 (C) Farm ponds constructed and used primarily for agricultural purposes, including, but not  
2 limited to, livestock watering, irrigation, retention of animal wastes and fish culture and that have  
3 no potential to cause loss of human life in the event of embankment failure; or

4 (D) Road fill or other transportation structures that do not or will not impound water under  
5 normal conditions and that have a designed culvert or similar conveyance or capacity that would be  
6 used under a state-designed highway at the same location: *Provided*, That the secretary may apply  
7 the provisions of section ten of this article for road fill or other transportation structures that become  
8 a hazard to human life or property through the frequent or continuous impoundment of water.

9 (g) "Deficient dam" means a noncoal-related dam that exhibits one or more design,  
10 maintenance or operational problems that may adversely affect the performance of the dam over a  
11 period of time or during a major storm or other inclement weather that may cause loss of life or  
12 property; or a noncoal-related dam that otherwise fails to meet the requirements of this article.

13 (h) "Department" means the Department of Environmental Protection.

14 (i) "Enlargement" means any change in or addition to an existing dam which: (1) Raises the  
15 height of the dam; (2) raises or may raise the water storage elevation of the water impounded by the  
16 dam; (3) increases or may increase the amount of water impounded by the dam; or (4) increases or  
17 may increase the watershed area from which water is impounded by the dam.

18 (j) "Noncompliant dam owner" means an owner who has received two or more orders to  
19 repair or remove a deficient dam without completion of the repairs or removal within time frames  
20 established by the secretary.

21 (k) "Owner" means any person who:

22 (1) Holds legal possession, ownership or partial ownership of an interest in a dam, its  
23 appurtenant works or the real property the dam is situated upon;

1           (2) Has a lease, easement or right-of-way to construct, operate or maintain a dam; or  
2           (3) Is a sponsoring organization with existing or prior agreement with the Natural Resources  
3 Conservation Service for a dam or its appurtenant works constructed with assistance from Public  
4 Law 78-534, Section 13 of the Flood Control Act of 1944; Public Law 83-566, the Watershed  
5 Protection and Flood Prevention Act of 1954; the pilot watershed program authorized under the  
6 heading "Flood Prevention" of the Department of Agriculture Appropriation Act of 1954, Public  
7 Law 156, 67 Stat. 214; or Subtitle H of Title XV of the Agriculture and Flood Act of 1981,  
8 commonly known as the Resource Conservation and Development Program, 16 U. S. C. §3451:  
9 *Provided*, That the owner of the land upon which a dam is owned, maintained or operated by a  
10 sponsoring agency, such as a conservation district or other political subdivision of the state, is not  
11 responsible for or liable for repairs, maintenance or damage arising from the regular operation,  
12 maintenance, deficiencies or ownership of the dam. The owner of the land shall not be cited as a  
13 noncompliant dam owner for any deficiencies of the dam, so long as the owner of the land does not  
14 intentionally damage or interfere with the regular operation and maintenance of the dam.

15           (1) "Person" means any public or private corporation, institution, association, society, firm,  
16 organization or company organized or existing under the laws of this or any other state or country;  
17 the State of West Virginia; any state governmental agency; any political subdivision of the state or  
18 of its counties or municipalities; a sanitary district; a public service district; a drainage district; a  
19 conservation district; a watershed improvement district; a partnership, trust or estate; a person or  
20 individual; a group of persons or individuals acting individually or as a group; or any other legal  
21 entity. The term "person", when used in this article, includes and refers to any authorized agent,  
22 lessee or trustee of any of the foregoing or receiver or trustee appointed by any court for any of the  
23 foregoing.

1 (m) "Reservoir" means any basin which contains or will contain impounded water.

2 (n) "Secretary" means the Secretary of the Department of Environmental Protection.

3 (o) "Natural Resources Conservation Service" means the Natural Resources Conservation  
4 Service of the United States Department of Agriculture or any successor or predecessor agency,  
5 including the Soil Conservation Service.

6 (p) "Water" means any liquid, including any solids or other matter that may be contained in  
7 the liquid, which is or may be impounded by a dam.

8 (q) "Water storage elevation" means the maximum elevation that water can reach behind a  
9 dam without encroaching on the freeboard approved for the dam under flood conditions.
