HB 4265

WEST VIRGINIA LEGISLATURE

2016 REGULAR SESSION

ENROLLED

Committee Substitute

for

House Bill 4265

(BY DELEGATES WALTERS, FRICH, CANTERBURY,

MCCUSKEY, HANSHAW, SKINNER, MARCUM AND PERRY)

[Passed March 11, 2016; in effect ninety days from passage.]

1 AN ACT to amend and reenact §7-3-9 of the Code of West Virginia, 1931, as amended; to amend
2 and reenact §8-16-17 of said code; to amend and reenact §8-27-16 of said code; to amend
3 and reenact §10-2A-16 of said code; and to amend and reenact §17-17-22 and §17-17-
4 34 of said code; all relating to direct payments of principal and interest on certain bonds
5 owned by the United States or any governmental agency or department of the United
6 States.

Be it enacted by the Legislature of West Virginia:

1 That §7-3-9 of the Code of West Virginia, 1931, as amended be amended and reenacted;
2 that §8-16-17 of said code be amended and reenacted; that §8-27-16 of said code be amended
3 and reenacted; that §10-2A-16 of said code be amended and reenacted; and that §17-17-22 and
4 §17-17-34 of said code be amended and reenacted, all to read as follows:

CHAPTER 7. COUNTY COMMISSIONS AND OFFICERS.

ARTICLE 3. COUNTY PROPERTY.

§7-3-9. Form and payment of bonds; use of proceeds of bonds.

1 Any county commission issuing revenue bonds under the provisions of this article shall
2 thereafter, so long as any such bonds remain outstanding, operate and maintain said courthouse,
3 hospital, other public buildings, jail or regional correctional center, to provide revenues sufficient
4 to pay all operating costs, provide a sinking fund for, and to retire such bonds and pay the interest
5 thereon as the same may become due. The amounts, as and when so set apart by said county
6 commission, shall be remitted to the West Virginia Municipal Bond Commission at least thirty days
7 previous to the time interest or principal payments become due, to be retained and paid out by
8 said commission consistent with the provisions of this article and with the order pursuant to which
9 the bonds have been issued. The West Virginia Municipal Bond Commission is hereby authorized
10 to act as fiscal agent for the administration of such sinking fund under any order passed pursuant
11 to the provisions of this article, and shall invest all sinking funds, as provided by general law.

12 Notwithstanding the foregoing, payments of principal and interest on any bonds owned by the
13 United States or any governmental agency or department thereof may be made by the county
14 commission directly thereto. Revenue bonds issued under the provisions of this article are hereby
15 declared to be and to have all the qualities of negotiable instruments. Such bonds shall bear
16 interest at the rate or rates set by the county commission, not to exceed twelve percent per
17 annum, payable semiannually, and shall mature at any time fixed by the county commission, in
18 not more than thirty years from their date. Such bonds shall be sold at a price not lower than a
19 price which, when computed upon standard tables of bond values, will show a net return of not
20 more than thirteen percent per annum to the purchaser upon the amount paid therefor. Such
21 bonds may be made redeemable at the option of the county commission at such price and under
22 terms and conditions as said county commission may fix, by its order, prior to the issuance of
23 such bonds. Revenue bonds issued hereunder shall be payable at the office of the State
24 Treasurer, or a designated bank or trust company within or without the State of West Virginia.

25 In case any of the officers whose signatures appear on such bonds or coupons shall cease
26 to be such officers before the delivery of such bonds, such signatures shall, nevertheless, be valid
27 and sufficient for all purposes the same as if they had remained in office until such delivery. The
28 county commission shall by order entered prior to the issuance of said bonds, fix the
29 denominations, times and places of payment of such bonds, the principal and interest of which
30 shall be payable in lawful money of the United States of America. The proceeds of such bonds
31 shall be used solely for the payment of the cost of land, buildings, furniture and equipment
32 thereon, and shall be checked out by the county commission under such restrictions as are
33 contained in the order providing for the issuance of said bonds. If the proceeds of such bonds
34 issued for any courthouse, hospital, other public buildings, jail or regional correctional center, shall
35 exceed the cost thereof, the surplus shall be paid into the fund herein provided for the payment
36 of principal and interest upon such bonds. Such fund may be used for the purchase or redemption
37 of any of the outstanding bonds payable from such fund at the market price, but at not exceeding

38 the price at which any of such bonds shall in the same year be redeemable, as fixed by the
39 commission in its said order, and all bonds redeemed or purchased shall forthwith be canceled,
40 and shall not again be issued.

41 Prior to the preparation of definitive bonds, the county commission may, under like
42 restrictions, issue temporary bonds, or interim certificates, with or without coupons, exchangeable
43 for definitive bonds upon the issuance of the latter. Such bonds may be issued without any other
44 proceedings or the happening of any other conditions or things than those proceedings, conditions
45 and things which are specified and required by this article.

CHAPTER 8. MUNICIPAL CORPORATIONS.

ARTICLE 16. MUNICIPAL PUBLIC WORKS; REVENUE BOND FINANCING.

§8-16-17. Sinking fund; West Virginia Municipal Bond Commission; transfer of funds; purchase of outstanding bonds.

1 Before the issuance of any such bonds, the governing body or bodies shall, by ordinance
2 or ordinances, provide for a sinking fund for the payment of the bonds and the interest thereon,
3 and the payment of the charges of banking institutions or trust companies for making payment of
4 such bonds and interest, out of the net revenues of said works, and shall set aside and pledge a
5 sufficient amount of the net revenues of the works hereby defined to mean the revenues of the
6 works remaining after the payment of the reasonable expenses of repair (including replacements),
7 maintenance and operation, such amount to be paid by the board into the sinking fund at intervals,
8 to be determined by ordinance or ordinances adopted prior to the issuance of the bonds, for: (a)
9 The interest upon such bonds as such interest shall fall due; (b) the necessary fiscal agency
10 charges for paying bonds and interest; (c) the payment of the bonds as they fall due, or if all bonds
11 mature at one time, the proper maintenance of a sinking fund sufficient for the payment thereof
12 at such time; and (d) a margin for safety and for the payment of premium upon bonds retired by
13 call or purchase as herein provided, which margin, together with unused surplus of such margin

14 carried forward from the preceding year and the amounts set aside as reserves out of the
15 proceeds from the sale of the bonds, or from the revenues of said works, or from both, shall equal
16 ten percent of all other amounts so required to be paid into the sinking fund. Such required
17 payments shall constitute a first charge upon all the net revenues of the works. Prior to the
18 issuance of the bonds, the board may, by ordinance or ordinances, be given the right to use or
19 direct the trustee or the West Virginia Municipal Bond Commission to use such sinking fund, or
20 any part thereof, in the purchase of any of the outstanding bonds payable therefrom, at the market
21 prices thereof, but not exceeding the price, if any, at which the same shall in the same year be
22 payable or redeemable, and all bonds redeemed or purchased shall forthwith be cancelled, and
23 shall not again be issued. After the payments into the sinking fund as herein required and after
24 reserving an amount deemed by the board sufficient for repair (including replacements),
25 maintenance and operation for an ensuing period of not less than twelve months and for
26 depreciation, the board may at any time in its discretion transfer all or any part of the balance of
27 the net revenues into the sinking fund or into a fund for improvement, renovation, extension,
28 enlargement, increase or equipment for or to the works, or the governing body or bodies may,
29 notwithstanding the provisions of section twenty, article thirteen of this chapter, transfer all or any
30 part of the balance of the net revenues to the general or any special fund of the municipality or
31 municipalities and use such revenues for any purpose for which such general or special fund may
32 be expended.

33 All amounts for the sinking fund and interest, as and when set apart for the payment of
34 same, shall be remitted to the West Virginia Municipal Bond Commission at such periods as shall
35 be designated in the ordinance or ordinances, but in any event at least thirty days previous to the
36 time interest or principal payments become due, to be retained and paid out by said commission
37 consistent with the provisions of this article and the ordinance or ordinances pursuant to which
38 such bonds have been issued. The West Virginia Municipal Bond Commission is hereby
39 authorized to act as fiscal agent for the administration of such sinking fund under any ordinance

40 or ordinances passed or adopted pursuant to the provisions of this article and shall invest all
41 sinking funds as provided by general law. Notwithstanding the foregoing, payments of principal
42 and interest on any bonds owned by the United States or any governmental agency or department
43 thereof may be made by the governing body directly thereto.

**ARTICLE 27. INTERGOVERNMENTAL RELATIONS – URBAN MASS
TRANSPORTATION SYSTEMS.**

**§8-27-16. Sinking fund; West Virginia Municipal Bond Commission; purchase of
outstanding bonds.**

1 Before the issuance of any bonds under the provisions of this article, the authority shall,
2 by resolution, provide for a sinking fund for the payment of the bonds and the interest thereon,
3 and the payment of the charges of banking institutions or trust companies for making payment of
4 such bonds and interest, out of the net revenues of said system, and, in this connection, shall set
5 aside and pledge a sufficient amount of the net revenues of the system for such purpose, such
6 net revenues being hereby defined to mean the revenues of the system remaining after the
7 payment of the reasonable expense of administration, maintenance, repair and operation, such
8 amount to be paid by such authority into the sinking fund at intervals, to be determined by
9 resolution adopted prior to the issuance of the bonds, for: (a) The interest upon such bonds as
10 such interest shall fall due; (b) the necessary fiscal agency charges for paying bonds and interest;
11 (c) the payment of the bonds as they fall due, or, if all the bonds mature at one time, the proper
12 maintenance of a sinking fund sufficient for the payment thereof at such time; and (d) a margin
13 for safety and for the payment of premium upon bonds retired by call or purchase as provided in
14 this article. Such required payments shall constitute a first charge upon all the net revenues of
15 such authority. Prior to the issuance of any bonds, the authority may, by resolution, be given the
16 right to use or direct the West Virginia Municipal Bond Commission to use such sinking fund, or
17 any part thereof, in the purchase of any of the outstanding bonds payable therefrom, at the market

18 prices thereof, but not exceeding the price, if any, at which the same shall in the same year be
19 payable or redeemable, and all bonds redeemed or purchased shall forthwith be cancelled, and
20 shall not again be issued. In addition to the payments into the sinking fund provided for above,
21 the authority may at any time in its discretion transfer all or any part of the balance of the net
22 revenues, after reserving an amount deemed by such authority sufficient for maintenance, repair
23 and operation for an ensuing period of not less than twelve months and for depreciation, into the
24 sinking fund.

25 The amounts of the balance of the net revenues as and when so set apart shall be remitted
26 to the West Virginia Municipal Bond Commission at such periods as shall be designated in the
27 resolution, but in any event at least thirty days previous to the time interest or principal payments
28 become due, to be retained and paid out by said commission consistent with the provisions of
29 this article and the resolution pursuant to which such bonds have been issued. The West Virginia
30 Municipal Bond Commission is hereby authorized to act as fiscal agent for the administration of
31 such sinking fund under any resolution adopted pursuant to the provisions of this article and shall
32 invest all sinking funds as provided by general law. Notwithstanding the foregoing, payments of
33 principal and interest on any bonds owned by the United States or any governmental agency or
34 department thereof may be made by the authority directly thereto.

**CHAPTER 10. PUBLIC LIBRARIES; PUBLIC RECREATION; ATHLETIC
ESTABLISHMENTS; MONUMENTS AND MEMORIALS; ROSTER OF
SERVICEMEN; EDUCATIONAL BROADCASTING AUTHORITY.**

ARTICLE 2A. ATHLETIC ESTABLISHMENTS.

§10-2A-16. Sinking fund.

1 At or before the issuance of any such bonds, the board shall, by resolution, provide for a
2 sinking fund for the payment of the bonds and the interest thereon, and the payment of the
3 charges of banks or trust companies for making payment of such bonds, and interest, out of the

4 net revenues of said athletic establishment, and shall set aside and pledge a sufficient amount of
5 the net revenues of the athletic establishment to be paid by the board into such sinking fund at
6 intervals to be determined by resolution adopted prior to the issuance of the bonds, for: (a) The
7 interest upon such bonds as the same becomes due; (b) the necessary fiscal agency charges for
8 paying bonds and interest; (c) the payment of the bonds as they fall due, or if all bonds mature at
9 one time, the maintenance of a proper sinking fund for the payment thereof at such time; and (d)
10 a margin for safety and for the payment of premium upon bonds retired by call or purchase as
11 herein provided for, which margin, together with unused surplus of such margin carried forward
12 from the preceding year, shall equal ten per cent of all other amounts so required to be paid into
13 the sinking fund. Such required payments shall constitute a first charge upon all the net revenues
14 of the athletic establishment. Net revenues as used herein shall mean the revenues of the athletic
15 establishment remaining after the payment of reasonable expense of operation, repairs,
16 maintenance, insurance and all other reasonable costs of maintaining and operating the same
17 required to be paid from the revenues thereof. After the payment into the sinking fund as herein
18 required, the board may at any time in its discretion transfer all or any part of the balance of the
19 net revenues, after reserving an amount deemed by the board sufficient for operation, repairs,
20 maintenance and depreciation for an ensuing period of not less than twelve months, into the
21 sinking fund or into a fund for extensions, improvements and additions to such athletic
22 establishment. All amounts for sinking fund and interest, as and when set apart for the payment
23 of same, shall be remitted to the West Virginia Municipal Bond Commission at such periods as
24 shall be designated in the resolution, but in any event at least thirty days previous to the time
25 interest or principal payments become due, to be retained and paid out by said commission,
26 consistent with provisions of this article and the order pursuant to which such bonds have been
27 issued. The West Virginia Municipal Bond Commission is hereby authorized to act as fiscal agent
28 for the administration of such sinking fund under any resolution adopted pursuant to the provisions
29 of this article and shall invest all sinking funds as provided by general law. Notwithstanding the

30 foregoing, payments of principal and interest on any bonds owned by the United States or any
31 governmental agency or department thereof may be made by the board directly thereto.

CHAPTER 17. ROADS AND HIGHWAYS.

ARTICLE 17. TOLL BRIDGES.

§17-17-22. Tolls to be charged for bond payment; intrastate and interstate bridges included in one issue; purchase of existing bridges; disposition of tolls.

1 Tolls shall be fixed, charged and collected for transit over such bridges and shall be so
2 fixed and adjusted, in respect of the aggregate of tolls from the bridge or bridges for which a single
3 issue of bonds is issued, as to provide a fund sufficient to pay the principal and interest of such
4 issue of bonds and to provide an additional fund to pay the cost of maintaining, repairing and
5 operating such bridge or bridges, subject, however, to any applicable law or regulation of the
6 United States of America now in force or hereafter to be enacted or made. Two or more bridges
7 may be included in one issue of bonds, and intrastate and interstate bridges may be grouped in
8 the same issue: *Provided*, That no existing bridge or bridges shall be acquired by purchase,
9 eminent domain, or otherwise, unless the state road commissioner shall have determined that the
10 income therefrom, based upon the toll receipts for the next preceding fiscal or calendar year, will
11 be sufficient to pay all expenses of operating and maintaining such bridge, in addition to the
12 interest and sinking fund requirements of any bonds to be issued to pay the purchase price
13 thereof, or, if such existing bridge or bridges are to be combined with any other bridge or bridges,
14 either then existing or thereafter to be constructed or acquired by purchase, eminent domain, or
15 otherwise, as provided in section twenty-three-b following, unless the state road commissioner
16 shall have determined that the income from such combined bridges, based upon the toll receipts
17 for the next preceding fiscal or calendar year in the case of any existing bridge or bridges and
18 upon estimates of future toll receipts in the case of any bridge or bridges to be constructed, will
19 be sufficient to pay all expenses of operating and maintaining such combined bridges, in addition

20 to the interest and sinking fund requirements of any bonds issued to pay the purchase price of
21 such existing bridge or bridges and the interest and sinking fund requirements of any bonds issued
22 to pay the cost of construction, acquiring, modernizing, repairing, reconstructing or improving any
23 bridge or bridges and approaches thereto, with which such existing bridge or bridges are to be so
24 combined. The tolls from the bridge or bridges for which a single issue of bonds is issued, except
25 such part thereof, as may be necessary to pay such cost of maintaining, repairing and operating
26 during any period in which such cost is not otherwise provided for (during which period the tolls
27 may be reduced accordingly), shall be transmitted each month to the West Virginia Municipal
28 Bond Commission and by it placed in a special fund which is hereby pledged to and charged with
29 the payment of the principal of such bonds and the interest thereon, and to the redemption or
30 repurchase of such bonds, such special fund to be a fund for all such bonds without distinction or
31 priority of one over another. The moneys in such special fund, less a reserve for payment of
32 interest, if not used by the West Virginia Municipal Bond Commission within a reasonable time for
33 the purchase of bonds for cancellation at a price not exceeding the market price and not
34 exceeding the redemption price, shall be applied to the redemption of bonds by lot at the
35 redemption price then applicable. Notwithstanding the foregoing, payments of principal and
36 interest on any bonds owned by the United States or any governmental agency or department
37 thereof may be made by the governing body directly thereto.

38 Any bridge or bridges constructed or acquired by purchase, eminent domain, or otherwise,
39 or reconstructed, repaired or improved, under the provisions of this article and forming a
40 connecting link between two or more state highways, or providing a river crossing for a state
41 highway, are hereby adopted as a part of the state road system, but no such bridge or bridges
42 shall be constructed or acquired by purchase, eminent domain, or otherwise, or reconstructed,
43 repaired or improved, under the provisions of this article without the approval in writing of the state
44 road commissioner and the Governor. If there be in the funds of the West Virginia Municipal Bond
45 Commission an amount insufficient to pay the interest and sinking fund on any bonds issued for

46 the purpose of constructing or acquiring by purchase, eminent domain, or otherwise, or
47 reconstructing, repairing or improving, such bridge or bridges, the state road commissioner is
48 authorized and directed to allocate to said commission, from the state road fund, an amount
49 sufficient to pay the interest on said bonds and/or the principal thereof, as either may become due
50 and payable.

§17-17-34. Same — Retiring bonds; remittance to sinking fund.

1 Every municipality or county court issuing bonds, or other evidences of indebtedness,
2 under the provisions of this act, shall thereafter, so long as any such bonds or other evidences of
3 indebtedness remain outstanding, operate and maintain its bridge so as to provide, charge, collect
4 and account for revenues therefrom as will be sufficient to pay all operating costs, provide a
5 depreciation fund, retire the bonds or other evidences of indebtedness, and pay the interest
6 requirements as the same may become due. The ordinance or order pursuant to which any such
7 bonds or other evidences of indebtedness are issued shall pledge the revenues derived from the
8 bridge to the purposes aforesaid, and shall definitely fix and determine the amount of revenues
9 which shall be necessary and set apart in a special fund for the bond requirements. The amounts,
10 as and when so set apart into said special fund for the bond requirements, shall be remitted to
11 the West Virginia Municipal Bond Commission at least thirty days previous to the time interest or
12 principal payments become due, to be retained and paid out by said commission consistent with
13 the provisions of this act and the ordinance or order pursuant to which such bonds or other
14 evidences of indebtedness have been issued. Notwithstanding the foregoing, payments of
15 principal and interest on any bonds owned by the United States or any governmental agency or
16 department thereof may be made by the governing body directly thereto.

The Joint Committee on Enrolled Bills hereby certifies that the foregoing bill is correctly enrolled.
