## **CHAPTER 11. TAXATION.**

### **ARTICLE 21. PERSONAL INCOME TAX.**

#### **§11-21-25. Stay in State Tax Credit.**

1 (a) Credit allowed.-- To promote the retention of recent in-state college graduates, there  
 2 is hereby created a tax credit for repayment of student loans against West Virginia personal  
 3 income tax, available to those individuals that remain in West Virginia following graduation from  
 4 an accredited West Virginia community college, college or university. A qualified individual or an  
 5 employer of a qualified individual is allowed a credit against the tax imposed by this article in  
 6 accordance with the provisions of this section.

7 (b) A taxpayer entitled to the credit for any taxable year may carry over and apply to the  
 8 tax liability for any one or more of the next succeeding 10 years the portion, as reduced from year  
 9 to year, of any unused credits.

10 (c) A taxpayer may claim a credit based on loan payments actually made to a relevant

11 lender or lenders under this section only with respect to loans that are part of the qualified  
12 individual's financial aid package and, for tax years beginning on or after January 1, 2020, only  
13 with respect to loan payment amounts paid by the taxpayer during that part of the taxable year  
14 that the qualified individual worked in this state. Payment of loan amounts in excess of the  
15 amounts due during the taxable year does not qualify for the credit. Refinanced loans that are  
16 part of the qualified individual's financial aid package are eligible for the credit under this section  
17 if the refinanced loans remain separate from other debt, including debt incurred in an educational  
18 program other than the degree program for which a credit is claimed under this section.  
19 Forbearance or deferment of loan payments does not affect eligibility for the credit under this  
20 section.

21 (d) Except as provided in §11-21-25(g) of this code, the credit under this section may not  
22 reduce the tax otherwise due under this part to less than zero.

23 (e) Calculation of the credit.-- The credit with respect to a qualified individual is equal to  
24 the amount determined under §11-21-25(e)(1) or §11-21-25(e)(2) of this code, whichever is less,  
25 multiplied by the proration factor:

26 (1) The benchmark loan payment multiplied by the number of months during the taxable  
27 year in which the taxpayer made loan payments; or

28 (2) The monthly loan payment amount multiplied by the number of months during the  
29 taxable year in which the taxpayer made loan payments.

30 (f) The credit under §11-21-25(e) of this code for an individual who transferred to an  
31 accredited West Virginia community college, college or university from an accredited non West  
32 Virginia community college, college or university on or after January 1, 2020, and who earned no  
33 more than 30 credit hours of course work toward the degree at an accredited non West Virginia  
34 community college, college or university is equal to 50 percent of the amount otherwise  
35 determined under this section in the case of an associate degree and equal to 75 percent of the  
36 amount otherwise determined under this section in the case of a bachelor's degree.

37 (g) Notwithstanding §11-21-25(d) of this code, the credit under this subsection is  
38 refundable to the extent the credit is based on loans included in the financial aid package acquired  
39 to obtain a bachelor's degree or associate degree in science, technology, engineering or  
40 mathematics. For purposes of this subsection, the proration factor is the amount derived by  
41 dividing the total number of academic credit hours earned for a bachelor's or associate degree on  
42 or after January 1, 2015, by the total number of academic credit hours earned for the bachelor's  
43 or associate degree.

44 (h) Employer eligible to the credit.-- An employer may qualify for the credit for a qualified  
45 employee. A taxpayer constituting an employer making loan payments directly to a lender during  
46 the taxable year on loans included in a qualified employee's financial aid package may claim a  
47 credit equal to the benchmark loan payment or the actual monthly loan payment made by the  
48 employer on the loans, whichever is less, multiplied by the number of months during the taxable  
49 year the employer made loan payments on behalf of the qualified employee during the term of  
50 employment. The credit under this subsection may not be claimed with respect to months of the  
51 taxable year during which the employee was not a qualified employee. If the qualified employee  
52 is employed on a part-time basis during the taxable year, the credit with respect to that employee  
53 is limited to 50 percent of the credit otherwise determined under this subsection.

55 colleges and universities with their participation in the "Stay in State Tax Credit" as provided in
