4 prevent it from becoming a public nuisance or risk to public health or safety or the environment.

5           (b) (c) Any such ordinance, rule or regulation may require each owner to provide for each  
6 of his or her animals:

7           (1) Adequate food which provides sufficient quantity and nutritive value to maintain each

## **ARTICLE 10. HUMANE OFFICERS.**

### **§7-10-1a. Definitions.**

1 As used in this article,

2 (a) "Animal shelter" means a public or private facility which includes a physical structure  
3 that provides housing for stray, abandoned, abused, or owner-surrendered dogs or cats and that  
4 is operated, owned, or maintained by a county or municipality for animal control purposes or by a  
5 duly incorporated humane society, animal welfare society, or other nonprofit organization.

6 (b) "Humane officer" means a person designated pursuant to §7-10-1 of this code to  
7 investigate complaints of cruel or inhumane treatment of animals and enforce laws related to the  
8 prevention of cruelty to animals.

9 (c) "Primary Enclosure" means structure or device used to restrict an animal to a limited  
10 amount of space, such as a room, pen, run, cage, compartment, kennel, or hutch, where an  
11 animal will sleep, eat, and spend the majority of its time.

12           (d) “Temporary Enclosure” means a cage or crate designed for short-term, temporary  
13 confinement or travel (e.g., airline crates, transport carriers, etc.); dogs and cats may be housed  
14 in temporary enclosures for no longer than 48 hours after being taken into custody by an animal  
15 shelter.

**§7-10-2. Duty of humane officers; reporting requirement when abuse or neglect of individuals suspected; prohibition against interference with humane officers; penalties.**

1           (a) Humane officers shall prevent the perpetration or continuance of any act of cruelty  
2 upon any animal and investigate and, upon probable cause, cause the arrest and assist in the  
3 prosecution of any person engaging in such cruel and forbidden practices. Upon reasonable  
4 cause, and, as provided by law, such officers have the right to access and inspect records and  
5 property reasonably necessary to any investigation. Humane officers also have the duty to  
6 enforce the provisions of §7-10-6 of this code, including the investigation of complaints against,  
7 and inspection of, animal shelters.

8           (b) Whenever a humane officer, pursuant to an investigation of animal cruelty, forms a  
9 reasonable suspicion that a minor child, or incapacitated or elderly person, is the victim of abuse  
10 or neglect or has a suspicion of domestic violence, he or she shall report the suspicion and the  
11 grounds for the suspicion. In the event of suspected child abuse or neglect, the humane officer  
12 shall report to the local child protective services agency of the Department of Health and Human  
13 Resources in accordance with the provisions of §49-2-809 of this code. In the event of suspected  
14 abuse or neglect of an incapacitated or elderly person, he or she shall report to the department’s  
15 local adult protective services agency in accordance with the provisions of §9-6-11 of this code.  
16 In the event of suspected domestic violence, he or she shall report to the State Police in  
17 accordance with the provisions of §48-27-101 *et seq.* of this code.

18           (c) Any person who interferes with, obstructs or resists any humane officer in the discharge  
19 of his or her duty is guilty of a misdemeanor and, upon conviction thereof, shall be fined not less

20 than \$100 nor more than \$500 or confined in jail not more than 30 days, or both fined and confined.  
21 Any penalties imposed for a violation of this subsection shall be imposed in addition to any  
22 penalties the person incurs for cruel or inhumane treatment of any animal.

**§7-10-4. Custody and care of animals abandoned, neglected or cruelly treated; hearing;  
bonds; liability for costs; liens; exclusions.**

1 (a) Subject to the provisions of subsection (h) of this section, a humane officer shall take  
2 possession of any animal, including birds or wildlife in captivity, known or believed to be  
3 abandoned, neglected, deprived of necessary sustenance, shelter, medical care or reasonable  
4 protection from fatal freezing or heat exhaustion or cruelly treated or used as defined in §61-8-19  
5 and §61-8-19a of this code.

6 (b) The owner or persons in possession, if his or her identity and residence are known, of  
7 any animal seized pursuant to subsection (a) of this section shall be provided written notice of the  
8 seizure, his or her liability for the cost and care of the animal seized as provided in this section  
9 and the right to request a hearing in writing before a magistrate in the county where the animal  
10 was seized. The magistrate court shall schedule any hearing requested within 10 working days  
11 of the receipt of the request. The failure of an owner or person in possession to request a hearing  
12 within five working days of the seizure is prima facie evidence of the abandonment of the animal.  
13 At the hearing, if requested, the magistrate shall determine by a preponderance of the evidence  
14 if the animal was abandoned, neglected or deprived of necessary sustenance, shelter, medical  
15 care or reasonable protection from fatal freezing or heat exhaustion or otherwise treated or used  
16 cruelly as set forth in this section.

17 (c) (1) If a hearing is requested and the magistrate finds by a preponderance of the  
18 evidence that the owner did abandon, neglect or cruelly treat the animal, or if no hearing is  
19 requested and the magistrate finds by a preponderance of the evidence, based upon the affidavit  
20 of the humane officer, that the owner did abandon, neglect or cruelly treat the animal, the  
21 magistrate shall enter an order awarding custody of the animal to any humane officer for further

22 disposition in accordance with reasonable practices for the humane treatment of animals. After  
23 hearing the evidence, if the magistrate is not convinced the animal was neglected or cruelly  
24 treated, he or she may dismiss the action and order the animal be returned to the owner. If the  
25 magistrate finds in favor of the humane officer, the owner of the animal shall post a bond with the  
26 court in an amount sufficient to provide for the reasonable costs of care, medical treatment and  
27 provisions for the animal for at least 30 days. The bond shall be filed with the court within five  
28 days following the court's finding against the owner. At the end of the time for which expenses  
29 are covered by the original bond if the animal remains in the care of the humane officer and the  
30 owner desires to prevent disposition of the animal by the humane officer, the owner shall post an  
31 additional bond with the court within five days of the expiration of the original bond. During this  
32 period the humane officer is authorized to place the animal in a safe private home or other safe  
33 private setting in lieu of retaining the animal in an animal shelter. The person whose animal is  
34 seized is liable for all costs of the care of the seized animal.

35 (2) If a bond has been posted in accordance with subdivision (1) of this subsection, the  
36 custodial animal care agency may draw from the bond the actual reasonable costs incurred by  
37 the agency in providing care, medical treatment and provisions to the impounded animal from the  
38 date of the initial impoundment to the date of the final disposition of the animal.

39 (d) Any person whose animal is seized and against whom the magistrate enters a finding  
40 pursuant to this section is liable during any period it remains in the possession of the humane  
41 officer for the reasonable costs of care, medical treatment and provisions for the animal not  
42 covered by the posting of the bond as provided in subdivision (1), subsection (c) of this section.  
43 The magistrate shall require the person liable for these costs to post bond to provide for the  
44 maintenance of the seized animal. This expense, if any, becomes a lien on the animal and must  
45 be discharged before the animal is released to the owner. Upon dismissal or withdrawal of the  
46 complaint, any unused portion of posted bonds shall be returned to the owner. Upon a finding in  
47 favor of the humane officer, all interest in the impounded animal shall transfer to the humane

48 officer for disposition in accordance with reasonable practices for the humane treatment of  
49 animals. Any additional expense above the value of the animal may be recovered by the humane  
50 officer or custodial agency.

51 (e) After the humane officer takes possession of the animal pursuant to a finding by a  
52 magistrate that the animal has been abandoned, neglected or cruelly treated and a licensed  
53 veterinarian determines that the animal should be humanely destroyed to end its suffering, the  
54 veterinarian may order the animal to be humanely destroyed and neither the humane officer,  
55 animal euthanasia technician nor the veterinarian is subject to any civil or criminal liability as a  
56 result of the action.

57 (f) (1) The term “humanely destroyed” as used in this section means:

58 (A) Humane euthanasia of an animal by hypodermic injection by a licensed veterinarian  
59 or by an animal euthanasia technician certified in accordance with the provisions of §30-10A-1 *et*  
60 *seq.* of this code; or

61 (B) Any other humane euthanasia procedure approved by the American Veterinary  
62 Medical Association, the Humane Society of the United States or the American Humane  
63 Association.

64 (2) The term “humanely destroyed” does not include euthanizing an animal by means of  
65 a gas chamber. ~~Provided, That any county which has a gas chamber in operation as of the~~  
66 ~~effective date of this section may continue to operate the gas chamber subject to the following:~~

67 ~~(1) The gas chamber shall be operated by an animal euthanasia technician certified pursuant to~~  
68 ~~article ten-a, chapter thirty of this code; and (2) the gas chamber shall have been manufactured~~  
69 ~~and installed by a person who regularly manufactures and installs gas chambers. The Board of~~  
70 ~~Veterinary Medicine shall promulgate emergency rules regarding the inspection of gas chambers,~~  
71 ~~pursuant to section fifteen, article three, chapter twenty-nine-a of this code~~

72 (g) In case of an emergency in which an animal cannot be humanely destroyed in an  
73 expeditious manner, an animal may be destroyed by shooting if:

74 (1) The shooting is performed by someone trained in the use of firearms with a weapon  
75 and ammunition of suitable caliber and other characteristics designed to produce instantaneous  
76 death by a single shot; and

77 (2) Maximum precaution is taken to minimize the animal's suffering and to protect other  
78 persons and animals.

79 (h) The provisions of this section do not apply to farm livestock, as defined in §19-10B-  
80 2(d) of this code; poultry, gaming fowl or wildlife kept in private or licensed game farms if kept and  
81 maintained according to usual and accepted standards of livestock; poultry, gaming fowl, wildlife  
82 or game farm production and management; nor to the humane use of animals or activities  
83 regulated under and in conformity with the provisions of 7 U.S.C. § 2131, *et seq.*, and the  
84 regulations promulgated thereunder.

85 (i) All persons or entities in the state performing euthanasia under this article shall register  
86 with the board of Veterinary Medicine by December 31, 2009, in a manner to be prescribed by  
87 the board. The Board of Veterinary Medicine shall ~~promulgate emergency rules~~ propose rules for  
88 legislative approval relating to the registration of those performing animal euthanasia, pursuant to  
89 §29A-3-15 of this code.

**§7-10-6. Inspection of animal shelters; standards; penalties.**

1 (a)(1) Humane officers shall inspect all animal shelters within the county and shall  
2 investigate all complaints about the care and welfare of animals in such facilities. Such inspections  
3 shall be unannounced and shall occur within the normal business hours of the animal shelter.  
4 Inspections shall be performed at least annually, and up to two routine inspections may be  
5 conducted per year. Additional inspections may be performed based on probable cause to believe  
6 a shelter might be in violation of these and other applicable standards, pursuant to a proper search  
7 warrant. The humane officer shall document the inspection or investigation, or both, and present  
8 copies of the report to the animal shelter and to the county commissioners.

9           (2) If the humane officer operates, is employed by, or is otherwise affiliated with an animal  
10 shelter in the county, any inspection or investigation of that facility shall be done by a veterinarian  
11 licensed in this state, accompanied by the sheriff or a deputy not appointed as a humane officer.  
12 Such veterinarian shall document the inspection or investigation, or both, and present copies of  
13 the report to the animal shelter and to the sheriff's department.

14           (b) All animal shelters shall:

15           (1) Separate animals by species in primary enclosures, separate unaltered male and  
16 female animals of the same species at all times, and ensure that all animals in the same enclosure  
17 at the same time are compatible;

18           (2) Provide adequate housing, including:

19           (A) Isolation of sick or injured animals sufficient to protect the health or safety of other  
20 animals; ~~animals diagnosed with or suspected of communicable illness must be physically~~  
21 ~~isolated from healthy animals either by permanent or temporary barriers sufficient to prevent the~~  
22 ~~transmission of airborne and physical contaminants, and all appropriate steps must be taken to~~  
23 ~~minimize transmission of disease.~~

24           (B) Indoor housing facilities with protection from extreme temperatures and weather  
25 conditions that may be hazardous to the animals, ~~including heated quarters during cold weather;~~  
26 ~~whenever possible, animals' primary housing should be indoors.~~

27           (C) Indoor housing facilities which are: Sanitary and in good repair; free of standing water;  
28 ~~constructed of fully disinfectable materials (no wood or other porous surfaces); constructed of~~  
29 ~~solid flooring (no mesh, wire, or slatted floors); and sufficiently climate-controlled and ventilated~~  
30 ~~to provide for the animals' health and well-being and to minimize odors, drafts, ammonia levels,~~  
31 ~~and moisture condensation. Ambient temperature must not fall below 50° F (10° C), or rise above~~  
32 ~~85° F (29.5° C) when animals are present unless expressly authorized by a veterinarian;~~

33           (D) Outdoor housing facilities, if used to house animals, that are ~~must be~~ large enough to  
34 accommodate all animals in the enclosure simultaneously and allow the animals to remain dry

35 and protected from extreme temperature or weather conditions that may be hazardous to the  
36 animals. ~~Outdoor housing should not be considered suitable primary enclosures for cats and dogs~~  
37 ~~unless no reasonable indoor option is available.~~

38 (E) Primary enclosures for dogs must be at least six inches higher than the head of the  
39 tallest dog in the enclosure when the dog is in a normal standing position and must allow sufficient  
40 space for sleeping, eating, and elimination, ~~and must ensure that each animal has sufficient room~~  
41 ~~to engage in normal behaviors.~~

42 (F) Primary enclosures for cats must allow each animal to fully extend its limbs, including  
43 its tail, and must allow for sleeping, eating, and elimination areas; ~~enclosures ideally should~~  
44 ~~provide two feet of triangulated distance between bedding, litterbox, and food/water bowls; and~~

45 (G) Primary enclosures for all animals must be large enough for each animal to turn about  
46 freely, stand erect, lie down in a natural position, and fully extend their limbs. Primary enclosures  
47 must contain a rest board, floormat, or similar device that can be maintained in a sanitary  
48 condition.

49 (3) Clean primary enclosures and housing facilities to remove urine, feces, hair, dirt,  
50 debris, and food waste at least daily, or more often if necessary, to prevent accumulation and to  
51 reduce disease hazards, insects, pests, and odors. While animals need not necessarily be  
52 removed from housing areas during cleaning, they may not be permitted to come into direct  
53 contact with disinfectants, cleaning solutions, or other potentially harmful products, nor may they  
54 be permitted to become wet during the cleaning process, either directly or indirectly; in no case  
55 may high-pressure water systems be used to clean kennels with animals still inside them;

56 (4) Provide adequate veterinary care for sick or injured animals, ~~such that animals~~  
57 ~~suspected of illness or injury receive veterinary care within 24 hours and are provided medication~~  
58 ~~necessary to alleviate pain.~~

59 (5) Provide continuous access to potable, uncontaminated water that is not frozen and is  
60 readily accessible to all animals in the enclosure, unless otherwise directed by a veterinarian for  
61 the health of the animal;

62 (6) Provide palatable, uncontaminated food at least once daily, unless otherwise directed  
63 by a veterinarian for the health of the animal;

64 ~~(7) Ensure each animal is individually observed at least twice in every 24-hour period by~~  
65 ~~an animal shelter supervisor tasked with overseeing the welfare and care of the animals;~~

66 ~~(8) (7) Provide all animals with daily enrichment to ensure adequate mental and physical~~  
67 ~~stimulation, either outside or inside the animals' primary enclosure. Dogs should be removed from~~  
68 ~~their primary enclosures for exercise (walks, playgroup sessions, etc.) at least once per day,~~  
69 ~~unless inclement weather, isolation/quarantine/health restrictions, or staffing limitations prevent~~  
70 ~~their removal; in such cases, shelters must document daily in-kennel enrichment provided to~~  
71 ~~maintain the physical and psychological well-being of dogs not afforded outdoor exercise; and~~

72 (9) Keep written records of the care of each animal, including, but not limited to,  
73 documentation of daily cleanings, individual observation of each animal, and outdoor access, as  
74 well as veterinary treatment, and provide these records to the humane officer or other inspector  
75 authorized by subsection (a) of this section upon request.

76 (c) Humane officers or other inspectors authorized by subsection (a) of this section may  
77 issue orders to address violations of this section, including, but not limited to, ordering suspension  
78 of intake of animals until violations are corrected and permanent closure of the facility.

79 (d) If the humane officer or other inspector authorized by subsection (a) of this section  
80 finds that the animal shelter is not in compliance with the standards established in this section,  
81 the humane officer or other authorized inspector shall issue orders as follows:

82 (1) For the first non-compliant inspection, the animal shelter shall be issued a warning and  
83 shall be reinspected 30 days after the date of the first inspection.

84 (2) If, after the second inspection, the animal shelter remains noncompliant, the animal  
85 shelter shall be subject to a fine of not less than \$100 nor more than \$500 and/or the humane  
86 officer or other authorized inspector shall issue an order requiring the animal shelter to suspend  
87 intake of animals for a period of 15-30 days, as needed to address the noncompliance. After such  
88 period, the animal shelter shall be reinspected.

89 (3) If, after the third inspection, the animal shelter remains noncompliant, the humane  
90 officer or other authorized inspector shall issue an order permanently closing the facility. Such  
91 order shall grant the animal shelter a period of 30-90 days, as needed, to transfer all animals in  
92 the facility to other animal shelters, organizations, or individuals within the state. Animals from  
93 animal shelters subject to a closure order may be transferred out of the state as long as the  
94 transfer does not violate laws of this state or of the importing state.

95 (e) Nothing in this section prevents any local, state, or federal law-enforcement agency  
96 from investigating animal cruelty in animal shelters.

## CHAPTER 19. AGRICULTURE.

### ARTICLE 20. DOGS AND CATS.

#### **§19-20-12a. Owner's duty of care of companion animals.**

1 (a) As used in this section:

2 (1) "Adequate care" or "care" means the responsible practice of good animal husbandry,  
3 handling, management, confinement, feeding, watering, protection, shelter, transportation,  
4 treatment, and when necessary, euthanasia, appropriate for the age, species, condition, size, and  
5 type of the animal and the provision of veterinary care when needed to prevent suffering or  
6 impairment of health;

7 (2) "Adequate exercise" or "exercise" means the opportunity for the animal to move  
8 sufficiently to maintain normal muscle tone and mass for the age, species, size, and condition of  
9 the animal, in order to promote good physical and psychological health;

10           (3) “Adequate feed” means access to and the provision of food that is of sufficient quantity  
11 and nutritive value to maintain each animal in good health; is accessible to each animal; is  
12 prepared so as to permit ease of consumption for the age, species, condition, size and type of  
13 each animal, is provided in a clean and sanitary manner; is placed so as to minimize  
14 contamination from excrement and pests; and is provided at suitable levels for the species, age  
15 and condition of the animal, at least once daily, except as otherwise prescribed by a veterinarian  
16 or as dictated by naturally occurring states of hibernation or fasting for that species;

17           (4) “Adequate shelter” means provision of and access to shelter that is suitable for the  
18 species, age, condition, and age of each animal; provides adequate space for each animal, is  
19 safe and protects each animal from injury, rain, sleet, snow, hail, direct sunlight, adverse effect of  
20 heat or cold, physical suffering, and impairment of health; is properly lighted to provide a regular  
21 diurnal cycle and to allow observation of the physical condition of the animal; is properly cleaned  
22 by regular removal of excreta and food waste; enables each animal to be clean and dry, except  
23 when detrimental to the species; is properly shaded during hot weather and does not readily  
24 conduct heat; has a windbreak at its entrance during cold weather and provides a sufficient  
25 quantity of bedding material to protect the animal from cold and to promote the retention of body  
26 heat; and for dogs and cats, provides a solid surface, resting platform, pad, floormat, or similar  
27 device that is large enough for the animal to lie upon in a normal manner and can be maintained  
28 in a sanitary condition;

29           (5) “Adequate space” means sufficient space to allow each animal to: (1) Easily stand, sit,  
30 lie, turn around, and make all other normal body movements in a comfortable, normal position for  
31 the animal; and (2) interact safely with other animals in the enclosure. When freedom of  
32 movement would endanger the animal, then temporary, appropriate restraints or confinement are  
33 permitted within the meaning of “adequate space” according to professionally accepted standard  
34 of care and treatment; and

35 (6) "Adequate water" means provision of and access to clean, fresh, potable water of a  
36 drinkable temperature, accessible at all times, and provided in an appropriate manner and amount  
37 sufficient to the animal's needs.

38 (7) "Companion animal" means an animal that is kept as a pet, and is kept for primarily  
39 companionship and enjoyment. The term "companion animal" specifically excludes animals that  
40 are kept for other purposes, such as those related to agriculture.

41 (b) Each owner shall provide the following for each of his or her companion animals:

42 (1) Adequate feed;

43 (2) Adequate water;

44 (3) Adequate shelter that is clean;

45 (4) Adequate space in the primary enclosure for the particular animal depending upon its  
46 age, size, species, and weight;

47 (5) Adequate exercise;

48 (6) Adequate care, treatment, and transportation; and

49 (7) Veterinary care when needed to prevent suffering or disease transmission.

50 (c) Shelters with wire, grid, or slat floor must not permit the animals' feet to pass through  
51 the openings, sag under the animals' weight, or otherwise allow the animals' feet or toes to be  
52 injured. Shelters and animal enclosures must have sufficient drainage to remove standing water.

**§19-20-22. Confinement of female dogs Confinement of unspayed female dogs in estrus.**

1 Every person owning or harboring a female dog, whether licensed or unlicensed, which  
2 has not been spayed shall keep such dog confined in a building or secure enclosure for 25 days

4 written verification from a licensed veterinarian that this is due to an illness or disease that existed  
5 in the dog on or before delivery of the dog;

6           (2) Within one year after the purchaser has taken physical possession of the dog after the  
7 sale by a breeder, the purchaser discovers that the dog has a congenital or hereditary condition  
8 and the purchaser obtains written verification from a licensed veterinarian that the condition  
9 adversely affects the health of the dog or that it requires, or is likely in the future to require,  
10 hospitalization or nonelective surgical procedures and that such condition should have been  
11 known to the breeder at the time of purchase.

12           (b) There is a rebuttable presumption that an illness existed at the time of sale if the dog  
13 dies within 15 days of delivery to the purchaser.

14           (c) If a dog is deemed unfit for sale pursuant to the provisions of subsection (a) of this  
15 section, the purchaser shall be allowed, at the purchaser's election, any of the following remedies:

22 purchase price of the dog including sales tax;

23           (3) Reimbursement to the purchaser for veterinary fees for diagnosis and treatment of the  
24 dog in an amount not to exceed 150 percent of the original purchase price of the dog including  
25 sales tax; or

38 licensed veterinarian attesting that the dog died from an illness that existed on or before delivery  
39 of the dog to the purchaser.

40 (e) No refund, replacement, or reimbursement of veterinary fees shall be made if any of  
41 the following conditions exist:

43 an injury sustained, or an illness or condition contracted, subsequent to the delivery of the dog to  
44 the purchaser;

45 (2) The purchaser fails to carry out the treatment recommended by the examining

48 to the purchaser made pursuant to §19-20-26(c)(7) of this code.

49 (f) For purposes of this section, the value of veterinary services shall be deemed  
50 reasonable if the services rendered are appropriate for the presenting condition of the dog, and  
51 for the diagnosis and treatment of the identified illness, disease, or condition and the charges of  
52 the services are comparable to similar services rendered by other licensed veterinarians in the  
53 surrounding community.

54 (g) To receive reimbursement for reasonable veterinary expenses, the purchaser must  
55 submit an itemized statement of all veterinary services performed and medications provided to  
56 the dog.

57 (h) In the event that the breeder wishes to contest a demand for any of the remedies  
58 provided in this section, the breeder may, except in the case of the death of the dog, require the  
59 purchaser to produce the dog for examination by a licensed veterinarian selected by the breeder.  
60 This examination shall be conducted at the expense of the breeder.

61 (i) If the purchaser and the breeder are unable to reach resolution within 10 days following  
62 the breeder's receipt of the purchaser's demand and presentation of a veterinarian's statement,  
63 the purchaser may initiate a civil action in a court of competent jurisdiction to resolve the dispute.  
64 The prevailing party in the dispute may also claim and receive reasonable attorney's fees if the  
65 opposing party is found to have acted in bad faith in the purchase or in pursuit of or opposition to  
66 the remedies provided in this section.

67 (j) Nothing in this section shall, in any way, limit the rights or remedies that are otherwise  
68 available to a consumer under any other law. Nor shall this section limit the breeder and purchaser  
69 from agreeing between themselves upon terms and conditions that are not inconsistent with this  
70 section. However, any agreement or contract by a purchaser to waive any rights provided in this  
71 section shall be void and unenforceable.
