CHAPTER 18. EDUCATION.

ARTICLE 2L. KATHERINE JOHNSON ACADEMY.

§18-2L-1. Katherine Johnson Academy established.

1 There is hereby established the Katherine Johnson Academy in recognition of one of West
2 Virginia's most outstanding and distinguished citizens whose contributions as a pioneer in the
3 advancement of science, mathematics, and space travel have been recognized through
4 numerous honors including the nation's highest civilian award, the Presidential Medal of Freedom.

§18-2L-2. Legislative findings; purpose; intent.

1 The Legislature hereby finds and declares that:

2 (1) A student's time engaged in learning is maximized when the student is allowed to
3 progress and acquire competency at a pace that challenges his or her own interest and intellect.

4 (2) Post-secondary option programs, such as magnet or STEM schools, allow students to
5 take college courses for which they can receive both college credit and credit toward their high
6 school diploma and that such programs provide high-achieving students the opportunity to
7 advance, academically, at a pace commensurate with their abilities and ambition.

8 (3) Currently, there are over 4,000 magnet schools in the United States serving over 3.5
9 million students. Each day, these students are gaining a competitive advantage over students in
10 West Virginia who have little or no access to such programs.

11 (4) Post-secondary option programs, such as magnet schools, can provide the families of
12 high-achieving secondary school students the opportunity to save thousands of dollars in future
13 college costs.

14 (5) In 2017, more than 52,000 Ohio students, including 15 percent of all high school juniors
15 and seniors, earned college credit through the state’s post-secondary option program, saving their
16 families more than \$120 million in future college costs.

17 (6) The purpose of the establishment of the Katherine Johnson Academy is to provide
18 high-achieving high school students in West Virginia the opportunity to engage in an accelerated
19 and exceptionally challenging academic experience in their senior year through the establishment
20 of magnet school programs at four-year colleges and universities throughout West Virginia.

21 (7) It is the Legislature’s intent that the academy’s magnet school programs established
22 under this article be both specialized and generalized and be both resident- and commuter-based
23 in order to provide students and parents with greater choice and colleges and universities greater
24 flexibility in establishing the programs they host.

25 (8) The creation of the Katherine Johnson Academy is not intended to limit or reduce other
26 dual enrollment classes or programs that are currently being offered in the State.
