**Executive Summary of Lottery, Unemployment, General Revenue and State Road Fund Reports to Joint Committee**

**Lottery Commission as of February 28, 2010 :**

Appears to be in good condition. Gross profit for fiscal year 2010 was 9.51% lower than for fiscal year 2009.

**General Revenue Fund as of March 31, 2010:**

Collections were at 98.73% of the yearly estimate as of March 31, 2010. (FY 2009-2010)  
This lag in collections was anticipated in December and budgeted expenditures were reduced 3.4%.

**State Road Fund as of March 31, 2010**

Fund collections were at 97.64 % of the yearly estimate. (FY 2009-2010)

**Unemployment Compensation Trust as of February 28, 2010:**

Regular benefits paid in fiscal year 2010 were \$ 105.2 million more than in fiscal year 2009.  
Total revenues for 2010 were \$ 189.6 million more than in 2009. Trust fund ending balance on February 28, 2010 was \$85,875,210.76. \*

Note:

\*Senate Bill 246 passed on April 11, 2009 addressed this declining balance in the Unemployment Trust Fund. The bill authorized one time transfer of \$ 40 million dollars from Workers' Compensation Debt Reduction Fund to the Bureau of Employment Program's Commissioner for deposit to the Federal Unemployment Trust Fund. The bill also raised the wage threshold on which premiums are calculated from \$8,000.00 per year to \$ 12,000.00 per year when the balance of the Unemployment Trust Fund is below \$ 220 million on February 15, of each fiscal year. The balance continues to decline as unemployment rose to 11% in February 2010. Workforce WV continues surveillance on the balance; the status of the stability of the fund will be better forecast after the employers have made their first calendar quarter payments to the fund. At the end of the first calendar quarter the employer payments account for almost fifty percent of the yearly revenue. In case of insolvency unemployed workers will continue to receive benefits as benefits are legally mandated; the federal program will loan the money to the state program. It is not known at this time if West Virginia will need to borrow from the federal program.

Re: Review of West Virginia Lottery Financial Information  
As of February 28, 2010 (FY 2010)

We performed an analysis of the Statement of Revenues, Expenses and Retained Earnings for July - February of fiscal year 2009-2010 from monthly unaudited financial reports furnished to our office by the West Virginia Lottery Commission. The results are as follows:

**Lottery Revenues:**

Gross lottery revenues are receipts from on-line games, instant games, table games and video lottery. These gross receipts totaled \$ 887,221,000.00 for July - February of fiscal year 2010. Table games accounted for \$21 million of this total. Historic Resort Hotel video lottery and table games enacted in 2009 accounted for \$740 thousand of total gross receipts. These gross receipts were \$ 978,477,000.00 for the same months of the preceding fiscal year, 2008-2009. Gross lottery revenue is down by 9.33% from the preceding fiscal year. This number does not

include commission and prize deductions. Gross profit (Gross revenues minus commissions and prize costs) for July - February 2010 was \$388,781,000.00; for the previous fiscal year it was \$427,939,000.00. Expressed as a percentage, gross profit is 9.15% lower for fiscal year 2010 than for fiscal year 2009.

**Operating Income:**

Operating income was \$ 372,543,000.00 for July - February 2010. For the preceding July- February it was \$ 412,096,000.00. This was a decrease of 9.60%. After additions and subtractions of non-operating income and expenses, distributions to the state were \$362,632,000.00 for July- February 2010.

**Operating Transfers to the State of West Virginia:**

A total of \$362,632,000.00 has been accrued to the state of West Virginia for fiscal year 2009-2010. This is on an accrual basis and may not correspond to the actual cash transfers made during the same time period. ( Amounts owed to the different accounts according to the Lottery Act are calculated monthly and accrued to the state; actual cash transfers are often made based upon actual cash flow needs of the day-to-day operation of the lottery.)

RE: Monthly Report on Lottery Operations  
Month Ending February 28, 2010

DATE: March 19, 2010

This report of the Lottery operations is provided pursuant to the State Lottery Act.

Financial statements of the Lottery for the month ending February 28, 2010 are attached. Lottery revenue, which includes on-line, instant, video lottery sales and table games, was \$101,273,834 for the month of February.

Transfers of lottery revenue totaling \$43,260,848 made for the month of February to the designated state agencies per House Bill 2010, Veterans Instant Ticket Fund, Racetrack Video Lottery Act (§29-22A-10), and the Racetrack Table Games Act (§29-22C-27). The amount transferred to each agency is shown in Note 10 on pages 17 and 18 of the attached financial statements.

The number of traditional and limited retailers active as of February 28, 2010 was 1,581 and 1,638 respectively.

A listing of the names and amounts of prize winners has been provided to the Clerk of the Senate, the Clerk of the House and Legislative Services.

If any member of the Committee has questions concerning the Lottery, please call me. Also if any members of the Legislature wish to visit the Lottery offices, I would be pleased to show them our facilities and discuss the Lottery with them.

**WEST VIRGINIA LOTTERY  
NOTES TO FINANCIAL STATEMENTS**

**-Unaudited-**

**NOTE 1 - LEGISLATIVE ENACTMENT**

The West Virginia Lottery (Lottery) was established by the State Lottery Act (Act) passed April 13, 1985, which created a special fund in the State Treasury designated as the "State Lottery Fund." The purpose of the Act was to establish and implement a state-operated lottery under the supervision of a state lottery commission (Commission) and a director. The Commission, consisting of seven members and the Director are appointed by the Governor. Under the Act, the Commission has certain powers and the duty to establish rules for conducting games, to select the type and number of gaming systems or games and to enter into contracts and agreements, and to do all acts necessary or incidental to the performance of its duties and exercise of its power and duty to operate the Lottery in a highly efficient manner. The Act provides that a minimum annual average of 45% of the gross amount received from each lottery shall be allocated for prizes and also provides for certain limitations on expenses necessary for operation and administration of the Lottery. To the extent available, remaining net profits are to be distributed to the State of West Virginia. As the State is able to impose its will over the Lottery, the Lottery is considered a component unit of the State and its financial statements are presented in the comprehensive annual financial report of the State as a blended proprietary fund component unit.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

A summary of the significant accounting policies of the Lottery is presented below.

**BASIS OF PRESENTATION** – The West Virginia Lottery is a component unit of the State of West Virginia, and is accounted for as a proprietary fund special purpose government engaged in business type activities. In accordance with Governmental Accounting Standards Board (GASB) Statement No. 34, "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments," and with accounting principles generally accepted in the United States of America, the financial statements are prepared on the accrual basis of accounting which requires recognition of revenue when earned and expenses when incurred. As permitted by Governmental Accounting Standards Board (GASB) Statement No. 20, "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting," the Lottery has elected not to adopt Financial Accounting Standards Board (FASB) statements and interpretations issued after November 30, 1989 unless the GASB specifically adopts such FASB statements or interpretations.

The Lottery is included in the State's basic financial statements as a proprietary fund and business type activity using the accrual basic of accounting. Because of the Lottery's presentation in these financial statements as a special purpose government engaged in business type activities, there may be differences in presentation of amounts reported in these financial statements and the basic financial statements of the State as a result of major fund determination.

**USE OF ESTIMATES** – The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and develop assumptions that affect the amounts reported in the financial statements and related notes to financial statements. Actual results could differ from management's estimates.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**LOTTERY GAME OPERATIONS** – The West Virginia Lottery derives its revenues from four basic types of lottery games: instant, on-line, video type games, and table games. The Lottery develops multiple game themes and prize structures to comply with its enabling legislation, including aggregate annual minimum prize provisions. All bonded retailers and agents comprised principally of grocery and convenience stores serve as the primary distribution channel for instant and on-line lottery sales to the general public.

The Lottery has contracted with a private vendor to manufacture, distribute, and provide data processing support for instant and on-line games. Under the terms of the agreements, the Lottery pays a percentage of gross revenues or gross profits for the processing and manufacture of the games.

Revenue from instant games is recognized when game tickets are sold to the retailers, and the related prize expense is recorded based on the specific game prize structure. Instant ticket sales and related prizes do not include the value of free plays issued for the purpose of increasing the odds of winning a prize.

Sales of on-line lottery tickets are made by licensed agents to the public with the use of computerized terminals. On-line games include POWERBALL®, a multi-state "jackpot" game; HOT LOTTO®, a multi-state "lotto" game; Cash25 "lotto" game; Daily 3 and 4 "numbers" games; and Travel, a daily "keno" game. Revenue is recognized when the agent sells the tickets to the public. Prize expense is recognized on the basis of actual drawing results.

Commissions are paid to instant game retailers and on-line agents at the rate of seven percent of gross sales. A portion of the commission not to exceed one and one quarter percent of gross sales may be paid from unclaimed prize moneys. The amount paid from unclaimed prize moneys is credited against prize costs. In addition, retailers and agents are paid limited bonus incentives that include prize shares on winning tickets they sold and a ticket cashing bonus on winning tickets they cash. On a weekly basis, retailers and agents must remit amounts due to the Lottery. Retailers may not be able to order additional instant tickets if payment has not been made for the previous billing period, while an agent's on-line terminal may be rendered inactive if payment is not received each week. No one retailer or agent accounts for a significant amount of the Lottery's sales or accounts receivable. Historically credit losses have been nominal and no allowance for doubtful accounts receivable is considered necessary.

Racetrack video lottery is a self-activated video version of lottery games. The board-operated games allow a player to place bets for the chance to be awarded credits which can either be redeemed for cash or be replayed as additional bets. The coin operated games allow a player to use coins, currency, or tokens to place bets for the chance to receive coin or token awards which may be redeemed for cash or used for replay in the coin operated games. The racetrack video lottery games' prize structures are designed to award prizes, or credits, at a stipulated rate of total bets played, and prize expense is netted against total video credits played. The Lottery recognizes as racetrack video lottery revenue "gross terminal income" equivalent to all wagers, net of related prizes. Amounts required by statute to be paid to the private and local government entities are reported as commissions. Racetrack video lottery legislation has established specific requirements for racetrack video lottery and imposed certain restrictions limiting the licensing for operation of racetrack video lottery games to horse and dog racetracks in West Virginia, subject to local county elections permitting the same. The legislation further stipulates the distribution of revenues from racetrack video lottery games, and requires any licensed racetrack to be responsible for acquiring the necessary equipment and bearing the risk associated with the costs of operating and marketing the games.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

Limited video lottery is also a self-activated video version of lottery games, which were first placed in operation in December 2001, located in limited licensed retailer areas restricted for adult amusement. The games allow a player to use currency to place bets for the chance to receive free games or vouchers which may be redeemed for cash. The limited video lottery games' prize structures are designed to award prizes, at a stipulated rate of total bets played, and prize expense is netted against total video credits played. The Lottery recognizes as limited video lottery revenue "gross terminal income" equivalent to all wagers, net of related prizes. Amounts required by statute to be paid to private entities are reported as commissions. Limited video lottery permit holders are statutorily responsible for acquiring equipment and bearing the risk associated with the costs of operating the games.

Table games are lotteries as each game involves consideration, the possibility of a prize, and their outcome is determined predominantly by chance, which the common law of West Virginia has long held are the three essential elements of a lottery. Table games are the exclusive intangible intellectual property of the state of West Virginia. Table games legislation has established specific requirements for table games and imposed certain restrictions limiting the licensing for operation of table games to horse and dog racetracks in West Virginia, subject to local county elections permitting the same. Each racetrack licensed as an agent of the Lottery Commission to operate West Virginia table games shall have written rules of play for each table game it operates which must be approved by the Commission. All wagers and pay-offs of winning wagers shall be made according to those rules of play. For the privilege of holding a table games license, there is levied a privilege tax of thirty-five percent of each licensee's adjusted gross receipts for the operation of West Virginia Lottery table games. Amounts required by statute to be paid to private and local government entities are reported as commissions. The legislation further stipulates the distribution of revenues from West Virginia table games, and requires any licensed racetrack to be responsible for acquiring the necessary equipment and bearing the risk associated with the costs of operating and marketing the games.

Historic resort lottery games are a combination of self-activated video lottery games as well as table games which are located at a licensed historic resort hotel as defined by the WV Code. Video lotteries at the historic resort are board-operated games that allow a player to place bets for the chance to be awarded credits which can either be redeemed for cash or be replayed as additional bets. The coin operated games allow a player to use coins, currency, or tokens to place bets for the chance to receive coin or token awards which may be redeemed for cash or used for replay in the coin operated games.

The historic resort video lottery games' prize structures are designed to award prizes, or credits, at a stipulated rate of total bets played, and prize expense is netted against total video credits played. The Lottery recognizes as historic resort lottery revenues:

- Video lottery revenues consisting of "gross terminal income" equivalent to all wagers, net of related prizes; and,
- Historic resort table games revenues consisting of a privilege tax of thirty-five percent of each licensee's adjusted gross receipts for the operation of West Virginia Lottery table games.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

Amounts required by statute to be paid to the private and local government entities are reported as commissions. The Lottery Act as amended has established specific requirements for historic resort video and table games lotteries and imposed certain restrictions limiting the licensing for operation of historic resort lottery games in West Virginia, subject to local county elections permitting the same. The legislation further stipulates the distribution of revenues from historic resort lottery games, and requires any licensed historic resort to be responsible for acquiring the necessary equipment and bearing the risk associated with the costs of operating and marketing the games.

**CASH AND CASH EQUIVALENTS** – Cash and cash equivalents primarily consist of interest-earning deposits with the West Virginia Board of Treasury Investments (BTI) and are recorded at fair value.

**INVENTORY** – Inventory consists of instant game tickets available for sale to approved Lottery retailers and is carried at cost.

**OTHER ASSETS** – Other assets consist primarily of deposits restricted for payment of certain Multi-State Lottery Association activities.

**CAPITAL ASSETS** – The Lottery leases, under a cancelable operating lease, its office and warehouse facilities. The Lottery also leases various office equipment under agreements considered to be cancelable operating leases. Rental expense for the year-to-date ended February 28, 2010 and February 28, 2009 approximated \$453,949 and \$488,947, respectively.

The Lottery has adopted a policy of capitalizing assets with individual amounts exceeding \$25,000. These assets include leasehold improvements, contributed and purchased equipment, comprised principally of technology property, office furnishings and equipment necessary to administer lottery games, are carried at cost. Depreciation is computed by the straight-line method using three to ten year lives.

**COMPENSATED ABSENCES** – The Lottery has accrued \$467,815 and \$371,165 of at June 30, 2009 and 2008, respectively, for estimated obligations that may arise in connection with compensated absences for vacation at the current rate of employee pay. Employees fully vest in all earned but unused vacation. To the extent that accumulated sick leave is expected to be converted to benefits on termination or retirement, the Lottery participates in an other postemployment benefits plan (see Note 15).

**NET ASSETS** – Net assets are presented as restricted, unrestricted and invested in capital assets which represent the net book value of all property and equipment of the Lottery.

**OPERATING REVENUES AND EXPENSES** – Operating revenues and expenses for proprietary funds such as the Lottery are revenues and expenses that result from providing services and producing and delivering goods and/or services. Operating revenues for the Lottery are derived from providing various types of lottery games. Operating expenses include commissions, prize costs, other direct costs of providing lottery games, and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

**NOTE 3 - CASH AND CASH EQUIVALENTS**

At February 28, 2010 the carrying amounts of deposits (overdraft) with financial institutions were (\$42) thousand with a bank balance (overdraft) of \$21 thousand. Of this balance \$100 thousand was covered by federal depository insurance with the remaining balance collateralized with securities held by the State of West Virginia's agent in the State's name.

A summary of the amount on deposit with the West Virginia Board of Treasury Investments (BTI) is as follows (in thousands):

	February 28, 2010	June 30, 2009
Amount on deposit with the BTI	\$ 288,645	\$ 295,248

The deposits with the BTI are part of the State of West Virginia's consolidated investment cash liquidity pool and are not separately identifiable as to specific types of securities. Investment income is pro-rated to the Lottery at rates specified by the BTI based on the balance of the deposits maintained in relation to the total deposits of all state agencies participating in the pool. Such funds are available to the Lottery with overnight notice.

**NOTE 5 - PARTICIPATION IN THE MULTI-STATE LOTTERY**

The Lottery is a member of the Multi-State Lottery (MUSL), which operates the semi-weekly POWERBALL® jackpot lotto game and HOT LOTTO® game, on behalf of participating state lotteries. Each MUSL member sells game tickets through its agents and makes weekly wire transfers to the MUSL in an amount equivalent to the total prize pool less the amount of prizes won in each state. Lesser prizes are paid directly to the winners by each member lottery. The prize pool for POWERBALL®, and HOT LOTTO® is 50% of each drawing period's sales, with minimum jackpot levels. Revenues derived from the Lottery's participation in the MUSL POWERBALL® jackpot game for the month and year-to-date periods ended February 28, 2010 were \$3,057,069 and \$31,888,748 while related prize costs for the same periods were \$1,539,238 and \$16,022,821. Revenues derived from the Lottery's participation in the HOT LOTTO® game for the month and year-to-date periods ended February 28, 2010 were \$400,972 and \$4,464,200 while related prize costs for the same periods were \$200,184 and \$2,246,831. Revenues derived from the Lottery's participation in the MEGA MILLIONS® jackpot game for the month and year-to-date periods ended February 28, 2010 were \$440,603 and \$440,603 while related prize costs for the same periods were \$209,329 and \$209,329.

MUSL places 2% of each POWERBALL® drawing period's sales in separate prize reserve funds that serve as a contingency reserve to protect the respective MUSL Product Groups from unforeseen prize liabilities. Currently, the MUSL Board of Directors has placed a \$75,000,000 limit on the POWERBALL® Prize Reserve Fund and a \$25,000,000 limit on the Set Prize Reserve Fund. These funds can only be used at the discretion of the respective MUSL Product Group. Once the prize reserve funds exceed the designated limit, the excess becomes part of that particular prize pool. Prize reserve fund monies are refundable to MUSL Product Group members if the MUSL disbands or, after one year, if a member leaves the MUSL. At February 28, 2010 the POWERBALL® prize reserve fund had a balance of \$110,383,420 of which the Lottery's share was \$2,385,173. The Lottery has charged amounts placed into the prize reserve funds to prize costs as the related sales have occurred.

**NOTE 6 - RACETRACK VIDEO LOTTERY**

The Racetrack Video Lottery legislation stipulates the distribution of racetrack video lottery revenues. This legislation has been amended since inception to restate revenue distribution based on revenue benchmarks. Initially, four percent (4%) of gross terminal revenue is allocated for lottery administrative costs. Sixty-six percent (66%) of net terminal revenue (gross less 4%) is allocated in lieu of commissions to: the racetracks (47%); other private entities associated with the racing industry (17%); and the local county and municipal governments (2%). The remaining revenues (34%) of net terminal revenue is allocated for distribution to State as specified in the Racetrack Video Lottery Act or subsequent State budget, as described in the Note 10 titled "Nonoperating Distributions to the State of West Virginia."

The first benchmark occurs when the current year net terminal revenue meets the fiscal year 1999 net terminal revenue. The counties and incorporated municipalities split 50/50 the two percent (2%) net terminal revenue.

The second benchmark occurs when the current year gross terminal revenue meets the fiscal year 2001 gross terminal revenue. The four percent (4%) is no longer allocated for lottery administrative costs; instead the State receives this for distribution as specified by legislation or the State budget.

**WEST VIRGINIA LOTTERY**  
**NOTES TO FINANCIAL STATEMENTS**  
**-Unaudited-**

**NOTE 6 - RACETRACK VIDEO LOTTERY (continued)**

The final benchmark occurs when the current year net terminal revenue meets the fiscal year 2001 net terminal revenue. At this point a 10% surcharge is applied to net terminal revenue, with 58% of the surcharge allocated for distribution to the State as specified by legislation or the State budget, and 42% of the surcharge allocated to separate capital reinvestment funds for each licensed racetrack.

After deduction of the surcharge, 55% of net terminal revenue is allocated in lieu of commissions to: the racetracks (42%); other private entities associated with the racing industry (11%); and the local county and incorporated municipality governments (2%). The remaining net terminal revenue (45%) is allocated for distribution to the State as specified in the Racetrack Video Lottery Act or subsequent State budget, as described in Note 10. Amounts from the capital reinvestment fund may be distributed to each racetrack if qualifying expenditures are made within the statutory timeframe; otherwise amounts accumulated in the fund revert to the state excess lottery revenue fund.

The WV Lottery, along with the Rhode Island and Delaware lotteries, participate in Multi-Jurisdictional Wide Area Progressive (MWAP) video games. This allows each of the lotteries to offer a higher progressive jackpot than they could generate alone. MUSL manages the progressive games and charges each participant a MWAP contribution fee of 4% of the amount wagered. **NOTE 7 - LIMITED VIDEO LOTTERY**

Limited video lottery legislation passed in 2001 has established specific requirements imposing certain restrictions limiting the licensing for the operation of limited video lottery games to 9,000 terminals placed in licensed retailers. These licensed retailers must hold a qualifying permit for the sale and consumption on premises of alcohol or non-intoxicating beer. The Lottery has been charged with the administration, monitoring and regulation of these machines. The legislation further stipulates the distribution of revenues from the limited video lottery games, and requires any licensees to comply with all related rules and regulations of the Lottery in order to continue its retailer status. The Limited Video Lottery legislation stipulates that 2% of gross terminal income be deposited into the state lottery fund for administrative costs. Then, the state share percentage of gross profit is to be transferred to the State Excess Lottery Revenue Fund. Such percentage is between 30 and 50 percent and is subject to change on a quarterly basis. Two percent is distributed to counties and incorporated municipalities in the manner prescribed by the statute. The remaining amount of gross profit is paid to retailers and/or operators as prescribed in the Act, and is recorded as limited video lottery commissions in the financial statements. Municipal and county distributions are accounted for as nonoperating expenses. **NOTE 8 -- TABLE GAMES**

Table Games legislation passed in 2007 per House Bill 2718. Table games include blackjack, roulette, craps, and various types of poker. Each racetrack licensee is subject to a privilege tax of thirty five percent (35%) of adjusted gross receipts which will be deposited weekly into the Racetrack Table Games Fund.

From the gross amounts deposited into the Racetrack Table Games Fund, the Commission, on a monthly basis shall:

Retain 3% of the adjusted gross receipts for administrative expenses of which at least \$100,000 and not more than \$500,000 annually will be transferred to the Compulsive Gambling Treatment Fund. Transfer two and one-half percent of adjusted gross receipts from all thoroughbred racetracks with West Virginia Lottery table games to the special funds established by each thoroughbred racetrack table games licensee for the payment of regular racetrack purses to be divided equally among each licensee and transfer two and one-half percent of adjusted gross receipts from all greyhound racetracks with West Virginia Lottery table games to the special funds established by each greyhound racetrack table games licensee for the payment of regular racetrack purses to be divided equally among each licensee. Transfer two percent of the adjusted gross receipts from all licensed racetracks to the Thoroughbred Development Fund and the Greyhound Breeding Development Fund to be divided pro rata among the development funds. Transfer one percent of the adjusted gross receipts from each licensed racetrack to the county commissions of the counties where racetracks with West Virginia Lottery table games are located to be divided pro rata among the counties. Transfer two percent of the adjusted gross receipts from each licensed racetrack to the governing bodies of municipalities within counties where racetracks with West Virginia Lottery table games are located as prescribed by statute. And transfer one-half of one percent of the adjusted gross receipts to the governing bodies of municipalities in which a racetrack table games licensee is located to be divided equally among the municipalities. The Commission will distribute the remaining amounts, hereinafter referred to as the net amounts in the Racetrack Table Games Funds as follows:

**NOTE 10- NONOPERATING DISTRIBUTIONS TO THE STATE OF WEST VIRGINIA**

The Lottery periodically distributes surplus funds, exclusive of amounts incurred and derived from limited video lottery and a portion of racetrack video lottery funds, to the State of West Virginia in accordance with the legislation. For the year ending June 30, 2010 the State Legislature budgeted \$166,010,000 of estimated profits of the Lottery for distributions to designated special revenue accounts of the State of West Virginia. With regard to the State Lottery Fund, legislation stipulates that debt service payments be given a priority over all other transfers in instances where estimated profits are not sufficient to provide for payment of all appropriated distributions. Debt service payments of \$1,800,000 and \$1,000,000 per month for the first ten months of each fiscal year currently have such priority. Transfers made pursuant to the State Excess Lottery Revenue Fund have similar requirements; currently payments are \$3,920,843 per month for the first ten months of each fiscal year. In addition, Legislation provides that, if in any month, there is a shortage of funds in the State Excess Lottery Revenue Fund to make debt service payments, the necessary amount shall be transferred from the State Lottery Fund to cover such shortfall, after the State Lottery Fund debt service payments have been made. Repayments to the State Lottery Fund are required to be made in subsequent months as funds become available. During the month ended February 28, 2010 the Lottery made such distributions and accrued additional distributions of \$38,136,682. The Lottery is a non-appropriated state

agency and therefore does not have a budget adopted by the Legislature. Since the enactment of the Racetrack Video Lottery Act, the Lottery is also statutorily required to distribute income from racetrack video lottery operations as described in Note 6. As of February 28, 2010 the Lottery accrued additional distributions relating to racetrack video lottery operations of \$613,748.

Note 7 describes the Limited Video Lottery Act and the statutory distributions required to be made from limited video lottery operations. Note 8 describes the Table Games Act and the statutory distributions required to be made from table games operations. Note 9 describes the Historic Resort Hotel statutory distributions to be made from historic resort operations.

**NOTE 11 – RESTRICTED NET ASSETS**

On June 14, 2006, House Bill 106 was enacted by the West Virginia State Legislature to set aside unexpended administrative expenses of the Lottery up to the limits for such expenses established by the enabling legislation of traditional, racetrack video lottery, and limited video lottery games in an amount not to exceed \$20,000,000 beginning in fiscal year 2006 and each year through fiscal year 2012. These assets are to be set aside for the design and construction of a building for the use of the Lottery and certain other State of West Virginia governmental entities. The lottery contributed \$10,817,386 to the fund for fiscal year 2009 plus related interest of \$566,293.

**NOTE 12 – COMMITMENTS**

The Lottery Commission has set aside funds as unrestricted net assets for the acquisition of future assets. As of June 30, 2009, a balance of \$12,817,601 is available for this purpose.

**NOTE 13 - RETIREMENT BENEFITS**

All full-time Lottery employees are eligible to participate in the State of West Virginia Public Employees' Retirement System (PERS), a cost-sharing multiple-employer defined benefit public employee retirement system. The PERS is one of several plans administered by the West Virginia Consolidated Public Retirement (CPRB) under the direction of its Board of Trustees, which consists of the Governor, State Auditor, State Treasurer, Secretary of the Department of Administration, and nine members appointed by the Governor. CPRB prepares separately issued financial statements covering all retirement systems it administers, which can be obtained from Consolidated Public Retirement Board, Building 5, Room 1000, State Capitol Complex, Charleston, West Virginia 25305-0720.

Employees who retire at or after age sixty with five or more years of contributory service or who retire at or after age fifty-five and have completed twenty-five years of credited service with age and credited service equal to eighty or greater are eligible for retirement benefits as established by State statute. Retirement benefits are payable monthly for life, in the form of a straight-line annuity equal to two percent of the employee's average annual salary from the highest 36 consecutive months within the last 10 years of employment, multiplied by the number of years of the employee's credited service at the time of retirement. Covered employees are required to contribute 4.5% of their salary to the PERS. The Lottery is required to contribute 10.5% of covered employees' salaries to the PERS. The required employee and employer contribution percentages have been established and changed from time to time by action of the State Legislature. The required contributions are not actuarially determined; however, actuarial valuations are performed to assist the Legislature in determining appropriate contributions. The Lottery and employee contributions, for the period ending February 28, 2010 are as follows (in thousands):

	February 28, 2010	Year-to-Date
Lottery contributions	\$ 63	\$ 508
Employee contributions	26	208
Total contributions	\$ 89	\$ 716

**NOTE 14 - RISK MANAGEMENT**

The Lottery is exposed to various risks of loss related to torts; theft of, or damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Lottery participates in several risk management programs administered by the State of West Virginia. Each of these risk pools has issued separate audited financial reports on their operations. Those reports include the required supplementary information concerning the reconciliation of claims liabilities by type of contract and ten-year claim development information. Complete financial statements of the individual insurance enterprise funds can be obtained directly from their respective administrative offices.

**WEST VIRGINIA WORKERS' COMPENSATION COMMISSION (WCC)**

The State of West Virginia operated an exclusive state-managed workers' compensation insurance program (WCC) prior to December 31, 2005. A framework for the privatization of workers' compensation insurance in West Virginia was established with the passage of Senate Bill 1004 and the WCC trust fund was terminated effective December 31, 2005. A privatized business entity, BrickStreet Administrative Services (BAS), was established and became the administrator of the WCC Old Fund, beginning January 1, 2006, and thereafter for seven years, and will have all administrative and adjudicatory authority previously vested in the WCC trust fund in administering old law liabilities and otherwise processing and deciding old law claims. BAS will be paid a monthly administrative fee and rated premium to provide a prompt and equitable system for compensation for injury sustained in the course of and growing out of employment. The monthly administrative fee for the West Virginia Lottery has been set at a level consistent with prior year payments and the new rate or premium will be established on an experience rated basis. The West Virginia Lottery is required to participate in the new BrickStreet Administrative Services (BAS) experience rated pool, which is expected to be rate adjusted on a quarterly basis.

**PUBLIC EMPLOYEES' INSURANCE AGENCY (PEIA)**

The Lottery participates in the Public Employees' Insurance Agency which provides an employee benefit insurance program to employees. PEIA was established by the State of West Virginia for State agencies, institutions of higher education, Boards of Education and component units of the State. In addition, local governmental entities and certain charitable and public service organizations may request to be covered by PEIA. PEIA provides a base employee benefit insurance program which includes hospital, surgical, major medical, prescription drug and basic life and accidental death. Underwriting and rate setting policies are established by PEIA. The cost of all coverage as determined by PEIA shall be paid by the participants. Premiums are established by PEIA and are paid monthly, and are dependent upon, among other things, coverage required, number of dependents, state vs. non state employees and active employees vs. retired employees and level of compensation. Coverage under these programs is limited to \$1 million lifetime for health and \$10,000 of life insurance coverage.

The PEIA risk pool retains all risks for the health and prescription features of its indemnity plan. PEIA has fully transferred the risks of coverage to the Managed Care Organization (MCO) Plan to the plan provider, and has transferred the risks of the life insurance coverage to a third party insurer. PEIA presently charges equivalent premiums for participants in either the indemnity plan or the MCO Plan. Altogether, PEIA insures approximately 205,000 individuals, including participants and dependents.

**BOARD OF RISK AND INSURANCE MANAGEMENT (BRIM)**

The Lottery participates in the West Virginia Board of Risk and Insurance Management (BRIM), a common risk pool currently operating as a common risk management and insurance program for all State agencies, component units, and other local governmental agencies who wish to participate. The Lottery pays an annual premium to BRIM for its general insurance coverage. Fund underwriting and rate setting policies are established by BRIM. The cost of all coverage as determined by BRIM shall be paid by the participants. The BRIM risk pool retains the risk of the first \$1 million per property event and purchases excess insurance on losses above that level. Excess coverage, through an outside insurer under this program is limited to \$200 million per event, subject to limits on certain property. BRIM has \$1 million-per occurrence coverage maximum on all third-party liability claims.

**NOTE 15- OTHER POSTEMPLOYMENT BENEFITS (OPEB)**

The Lottery participates in the West Virginia Other Postemployment Benefits Plan (OPEB Plan) of the West Virginia Retiree Health Benefit Trust Fund (Trust), a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the West Virginia Public Employee Insurance Agency (WVPEIA). The OPEB Plan provides retiree post-employment health care benefits for participating state and local government employers. The provisions of the Code of West Virginia, 1931, as amended (the Code), assigns the authority to establish and amend benefit provisions to the WVPEIA board of trustees. The WVPEIA issues a publicly available financial report that includes financial statements and required supplementary information for the OPEB Plan. That report may be obtained by writing to Public Employees Insurance Agency, 601 57<sup>th</sup> Street, South East, Suite 2, Charleston, West Virginia, or by calling 1-888-680-7342.

Funding Policy

The Code requires the OPEB Plan bill the participating employers 100% of the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. State of West Virginia plan employers are billed per active health policy per month.

The ARC rate is \$388 and \$461 per employee per month for the years ending June 30, 2009 and 2008 respectively. Through June 30, 2009 and 2008, the Lottery has paid premiums of \$185,563 and \$98,625. For year ended June 30, 2008 (initial year of the Lottery's participation in the Trust), the State of West Virginia, on the Lottery's behalf, paid \$472,247 towards the Annual Required Contribution. As of June 30, 2009 and 2008, the Lottery has recorded a liability of \$251,867 and \$10,073 on its balance sheet for OPEB.

**NOTE 16-- NEW ACCOUNTING PRONOUNCEMENTS**

The Governmental Accounting Standards Board (GASB) issued Statement No. 50, Pension Disclosures, an amendment of GASB Statements No. 25 and No. 27, in 2007. This Statement more closely aligns the financial reporting requirements for pensions with those for other postemployment benefits (OPEB) and, in doing so, enhances information disclosed in notes to the financial statements or presented as required supplementary information (RSI) by pension plans and by employers that provide pension benefits. The reporting changes required by this Statement amend applicable note disclosure and RSI requirements of Statements No. 25, Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans, and No. 27, Accounting for Pensions by State and Local Governmental Employers, to conform with requirements of Statements No. 43, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, and No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. This Statement is effective for periods beginning after June 15, 2007, and management has not yet determined what impact, if any, it will have on the financial statements.

Re: West Virginia Unemployment Compensation Trust Fund

We have reviewed the February 2010 monthly report of the Unemployment Compensation Trust Fund we received from WorkForce West Virginia. February is the eighth month of fiscal year 2009-2010.

For the fiscal year 2009-2010, the trust fund cash flow was as follows:

Trust Fund Beginning Cash Balance 7-1-2009	\$193,165,088.22
Receipts July 1, 2009 thru June 30, 2010	\$302,270,473.87
Disbursements July 1, 2009 thru June 30, 2010	\$409,560,351.33
Balance February 28, 2010	\$85,875,210.76

ITEMS OF NOTE:

Regular benefits paid for July - February 2010 (fiscal year 2010) were \$105.2 million more than for July - February of fiscal year 2009.

*Joint Committee on Government and Finance*  
Unemployment

Federal emergency benefits totaled \$ 121 million for the fiscal year 2010; for last fiscal year federal emergency benefits totaled \$ 30 million during the same period.

Total disbursements were \$ 246 million more than the same months of the preceding fiscal year.

Receipts in July - February 2010 were \$ 189.6 million more than in July - February of fiscal year 2009. Overall ending trust fund balance was \$ 115 million less on February 28, 2010 than on February 28, 2009.

West Virginia's unemployment rate for the month of February 2010 was 11 percent. National unadjusted employment rate was 10.4 percent.

Seasonally adjusted unemployment rates were 9.5 percent for West Virginia and 9.7 percent nationally.

\* Three month total variance column is the difference between the sum of the previous year's three months data for each category and the current year's three months data. The purpose of the report is to show significant changes in receipts, disbursements, or balances.

\*\*The Assistance for Unemployed Workers and Struggling Families Act, Title II of Division B of Public Law No. 111-5, enacted February 17, 2009, provided a special administrative transfer to states' accounts of \$500 million to be used for certain administrative purposes. On February 27, 2009, the U.S. Treasury distributed West Virginia's amount of \$2,369,759 to the Unemployment Insurance Trust Fund. Attachment IV to the Unemployment Insurance Program Letter No. 14-09 issued by the U.S. Department of Labor on February 26, 2009 specifies the permissible uses of the administrative transfer. The special administrative transfer is not available for the payment of Unemployment Compensation (UC) benefits; therefore the Trust Fund Balance must be reduced by the Special Administrative Transfer on line 7 to obtain the balance available for UC benefits.

**Note 1:** The most recent estimate for all uninsured children statewide from the US Census Current Population Survey is 4.6%. It should be noted that even this five percent extrapolation to the county level could vary significantly from county to county depending on the availability of employee sponsored insurance. However, it remains our best gross estimate of the remaining uninsured children.

**Note 2:** It has been estimated that 7 of 10 uninsured children qualify or may have qualified for CHIP or Medicaid in the past, WVCHIP uses the 5% uninsured estimate as a target number for outreach.

February 2010 Data

WV DEPARTMENT OF HEALTH AND HUMAN RESOURCES  
 BUREAU FOR MEDICAL SERVICES  
 EXPENDITURES BY PROVIDER TYPE  
 SFY2010

Note: The Centers for Medicare and Medicaid Services (CMS) has mandated changes to reporting of Medicaid expenditures. The report below reflects the updated categorizations by provider type, which is the new format for future quarterly CMS 84 reports. The Department is in the process of re-coding the data and reports to comply with the mandated reporting changes. At the present time, we are only able to present provider type detail for the Current Month and Year-to-Date (YTD) Actuals. Prior year Actuals and Projected SFY 2010 Budget provider type detail will be updated when the coding changes are complete and data validation and quality assurance processes have been performed.

## THE ECONOMIC STATE

### FEBRUARY 2010

---

### Data Shows Overall Improvement

#### *Economy Is Stabilizing*

The economic data that is released every month can be at times conflicting and confusing. But overall, they continue to reflect the fact that the U.S. economy is stabilizing. Even the most visible indicator, the unemployment rate, which remained at 9.7%, is showing signs of improvement. Non-farm payrolls fell 36,000 following a revised decline of 26,000 in January. With initial estimates calling for a decline of 75,000 jobs in February, the trend indicates moderation in job losses and even has some economists talking about job growth for the first time in nearly two years.

Other positives during the month of February were:

- The Index of Leading Indicators rose in January (data released in February) for the 10th consecutive month.
- Retail sales posted a surprising 0.3% increase in February despite major snowstorms and outpaced the expected drop of 0.2%.
- Home prices, as measured by the Case-Shiller Home Price Index, rose 0.3% in December (data released in February). Prices dropped by 11% for the six-months ending April 2009 before increasing by approximately 5% over the following six-months.

While the ISM manufacturing index fell to 55.5 in February, down from 58.4 in January, the index level has remained above 50, indicating expansion in the manufacturing sector for seven straight months.

Following three straight monthly increases, consumer confidence, as reported by the Conference Board, fell 10.5 to 46.0 marking its lowest level since April 2009. Assessments of current conditions, which had been showing signs of leveling off, dropped off to just 19.4, marking the lowest level since February 1983. Oddly, a University of Michigan survey did not confirm the plunge reported by the Conference Board. While it did reflect a pullback in confidence, it was modest at best, falling 0.8. Moreover, assessments of current conditions actually improved in the Michigan survey. Next month's Conference Board findings will be important and should reflect either a one month aberration or a trend.

Despite the Fed's February 18th decision to hike the discount rate by 25 basis points (bps), interest rates ended the month modestly lower (1-4 bps across the 2-10 year maturity range), while longer term rates ended the month 2-4 bps higher.

Hidden within the small changes in rates during February was a considerable amount of volatility. This increase in volatility was the result of upward pressure on rates stemming from record levels of debt issuance; however, this was offset by downward pressure on rates caused by a continued sluggish economy. The 2-10 year spread remained elevated at 280 bps while the 10-30 year spreads closed at 95 bps.

The Barclays Capital Aggregate Index returned 0.37% during February as spread sectors continued to outpace the same-duration Treasury securities. The CMBS sector again led the way during the month. The ABS sector held firm despite heavy profit taking from TALF investors in the secondary market. In the residential mortgage market, spreads came under pressure following the Fed's increase of the discount rate. The credit sector was relatively flat during the month as strong technicals and fundamental trends were offset by sovereign debt worries.

The Merrill Lynch 3-Month T-Bill Index returned 0.00% in February leading the 0.21% return of the Merrill Lynch 1-3 Year Government / Corporate A+ Index. The 3-Month T-Bills returned 0.20% for the year while the 1-3 Year Government / Corporate Index A+ returned 4.00%.

**WEST VIRGINIA UNIVERSITY BOARD OF GOVERNORS**  
**Meeting of February 5, 2010**

**ITEM:** Approval of Performance Contracting Phase III.

**INSTITUTION:** West Virginia University – Facilities Management

**COMMITTEE:** Full Board – Consent Agenda

**RECOMMENDATION:** Resolved: That the West Virginia University Board of Governors approve Performance Contracting Phase III at West Virginia University.

**STAFF SIGNOFF:** Narvel Weese  
Vice President for Administration and Finance

**BACKGROUND:** Since June 2006, West Virginia University has entered into performance-based contracts with Siemens Building Systems. This initiative has significantly reduced the amount of energy and water consumed on the campuses. WVU has executed two phases of a four phase plan with Siemens Building Technologies to implement energy savings.

**Performance Contracting Phase I**  
Phase I of the project included the following facilities:

- Mineral Resources Building (MRB)
- Engineering Sciences Building (ESB)
- Engineering Research Building (ERB)
- NRCCE
- Greenhouse
- Evansdale Library
- Agricultural Sciences Annex
- Chiller Plant
- Cultural Arts Center (CAC)
- Brooke Tower

Total cost of Phase 1: \$8 Million Dollars  
Guaranteed annual savings: \$745,000  
Phase 1 first-year savings of \$1.1 million dollars were verified in February 2009.

The environmental impact of Phase I is equal to eliminating the pollution from 878 cars per year or to planting 1820 trees per year. The Phase I environmental impact includes the following energy reductions:

- Generation fuel (natural gas and coal) equivalent to 11,297 barrels of crude oil
- Electricity savings of 6,276,460 kilowatt hours
- Water savings of 9,000,000 gallons/year

### **Performance Contracting Phase II**

Phase II of the project included the following facilities:

- Mylan Puskar Center
- Indoor Practice Facility
- Stadium Complex
- Agricultural Sciences
- Percival Hall
- Allen Hall
- Bennet Tower
- Lyon Tower
- Braxton Tower
- Summit Hall
- Student Recreation Center
- Medical Center Apartments J & K
- Fieldcrest Hall
- Coliseum
- Natatorium/Shell Building
- Women's Gymnastics Center
- Physical Plant
- Communications Building
- Law School
- Mountainlair
- WVU Tech
- WVU Parkersburg

Total cost of Phase II: \$12.5 million dollars  
Guaranteed annual savings (year 1): \$1.1 million  
Phase II savings still need to be verified.

The environmental impact of Phase II is equal to eliminating the pollution from 1,132 cars per year or to planting 2,345 trees per year. The environmental impact of Phase II includes the following energy reductions:

- Generation fuel (natural gas and coal) savings equivalent to 14,559 barrels of crude oil
- Electricity savings of 8,088,793 kilowatt hours
- Water savings of 24,257,000 gallons/year

### **Performance Contracting PHASE III**

Performance Contracting Phase III will include system and equipment upgrades at the WVU Health Sciences Center Campus located in Morgantown, WV. Building upgrades will reduce energy consumption, reduce deferred maintenance, resolve existing Life Safety issues, and enhance the facility's operation.

Performance Contracting will provide facility improvements to existing buildings, that are owned and operated by West Virginia University, and will use existing utility budgets to fund the projects. These improvements will enhance Facility Management's ability to meet the present and future needs of the university.

Phase III costs : \$7.25 million  
Annual guaranteed savings: \$586,311  
Simple payback: 11.76 years  
Scheduled completion date: Spring 2011
