Senators Beach and Leonhardt offered the following resolution:

Senate Concurrent Resolution No. 9—Petitioning the United States Congress to call a convention for the purpose of proposing amendments to the Constitution of the United States of America.

Whereas, The first President of the United States, George Washington, stated, “The basis of our political systems is the right of the people to make and to alter their Constitutions of Government.”; and

Whereas, It was the stated intention of the framers of the Constitution of the United States of America that the Congress of the United States of America should be “dependent on the people alone.” (James Madison, Federalist 52); and

Whereas, That dependency has evolved from a dependency on the people alone to a dependency on those who spend excessively in elections, through campaigns or third-party groups; and

Whereas, The United States Supreme Court ruling in *Citizens United v. Federal Election Commission*, 558 U. S. 310 (2010), removed restrictions on amounts of independent political spending; and

Whereas, The removal of those restrictions has resulted in the unjust influence of powerful economic forces, which have supplanted the will of the people by undermining our ability to choose our political leadership, write our own laws and determine the fate of our state; and

Whereas, Article V of the United States Constitution requires the United States Congress to call a convention for proposing amendments upon application of two thirds of the legislatures of the several states for the purpose of proposing amendments to the United States Constitution; and

Whereas, The State of West Virginia sees the need for a convention to propose amendments in order to address concerns such as those raised by the decision of the United States Supreme Court in *Citizens United v. Federal Election Commission* (2010), 130 S.Ct. 876, and related cases and events, including those occurring long before or afterward or for a substantially similar purpose, and desires that the convention should be so limited; and

Whereas, The State of West Virginia desires that the delegates to the convention shall be comprised equally from individuals currently elected to state and local office, or be selected by election in each congressional district for the purpose of serving as delegates, though all individuals elected or appointed to federal office, now or in the past, be prohibited from serving as delegates to the convention, and intends to retain the ability to restrict or expand the power of its delegates within the limits expressed above; and

Whereas, The State of West Virginia intends that this be a continuing application considered together with applications calling for a convention passed in the 2013-2014 Vermont Legislature as R454 and the 2013-2014 California Legislature as Resolution Chapter 77 and all other passed, pending and future applications, the aforementioned concerns of West Virginia notwithstanding, until that time as two thirds of the several states have applied for a convention and the convention is convened by Congress; therefore, be it

Resolved by the Legislature of West Virginia:

That the Legislature hereby petitions the United States Congress to call a convention for the purpose of proposing amendments to the Constitution of the United States of America; and, be it

Further Resolved, That the Clerk of the Senate is hereby directed to forward a copy of this resolution to the President and Vice President of the United States, the Speaker of the United States House of Representatives, the Minority Leader of the United States House of Representatives, the President Pro Tempore of the United States Senate, to each senator and representative from West Virginia in the Congress of the United States, to the Governor of each state and to the presiding officers of each legislative body of each of the several states, requesting the cooperation of the states in issuing an application compelling Congress to call a convention for proposing amendments pursuant to Article V of the U. S. Constitution.

Remarks were made by Senator Kessler.

Thereafter, at the request of Senator Unger, and by unanimous consent, the remarks by Senator Kessler were ordered extended in the Journal as follows:

SENATOR KESSLER: Thank you, Mr. President and members of the Senate.

Just a few days ago we adopted, during our opening session, the Rules of the Senate. I was encouraged, Mr. President, when we adopted those rules and you—the majority party—included a Jobs Impact Statement as part of that. I was pleased as well when the Senior Senator from the Sixteenth added not only the quantity of the jobs but also the wages and quality of the jobs to be so created by any legislation we might be considering. I think, based upon the overriding concern within this body of the members, that sound public policy should be based on accurate information. The better information we have, the better policy we can put out. For that reason, I applaud the adoption of the new rules.

But as we are moving forward here—and I know Senate Bill No. 1 (*Repealing certain Alternative and Renewable Energy Portfolio Standard code sections; allowing net meter credit transfer by electric utility customer-generators to nonprofits*) is moving fairly quickly, the Renewable Energy bill. Mr. President, I would suggest to you, as the leader of the body, that it may be a prime opportunity for us to look at the Jobs Impact Statement of that bill. I don't make that request, Mr. President, for purposes of being an obstructionist, to slow it down—in fact, I support the bill.

Many of you know I'm from Marshall County, the leading coal-producing county in the state. In fact, we're doing quite well up there. My brother tells me—he's the Assessor there—that we've got over \$150 million worth of new investment. I'm happy to report that just two weeks ago Murray Energy, which took over the Consol operations, announced that it's putting a \$48 million additional investment in its Benwood facility in order to produce even more coal up in that area at their prep plant facility.

I'm also happy to say when it comes to energy that, while we may not be the leading gas-producing county in the state, Marshall County certainly is blessed with a great deal of reserves both in Marcellus and Utica. And if we are not the leading gas-producing county, I would suggest we're in the top three. Again, I would suggest to you, Mr. President, we have put over \$10 billion worth of investment in the ground in oil and gas, Marcellus and Utica exploration in current or planned investment which is huge for our region, our opportunity and for our entire state.

I'm also happy to report that over a half billion dollars was announced recently for a new gas-fired power plant in Marshall County which is taking advantage of that Marcellus gas that we have in that region. It's going to be built, I should add, within miles of what was the former McElroy Coal plant facility, which is the largest, most productive deep mine in the country. Right across from their prep plant and down the road from there, they are going to be building a half billion dollars worth of a gas-fired power plant.

So, I think it's important and I am concerned, Mr. President, if we pass this bill that we look at the total job impact. It may create, and I know the objective is to create, more coal jobs; and that's a good thing. I'm all for that. Trust me, I'm all for that. But on the other side, the flip side of the coin, will it have an adverse effect on the creation of the gas jobs? Will they balance each other? Or will there be creation of both?

That's the kind of information I think, Mr. President, when we adopted Senate Rule No. 15b that we envisioned so that we would know if we're doing good, we're doing anything or make it have a negative impact. So, I think it would be an excellent opportunity, Mr. President, for you to show leadership and request such a study on that bill. It's been mischaracterized or characterized—I don't know—if it's a cap and trade bill. I don't know if it is or it isn't. I've heard it called a cap and trade bill. I've heard folks from the industry get up at the podium of the meeting—I'm not on that committee, but I've heard portions of it over our network—to say that it is not a cap and trade bill.

What is it? I don't know. It's an energy portfolio bill. People say, what does it do? It doesn't do nothing. The current bill doesn't do nothing. I ask, "Why?" Because we already meet all the standards when we passed it. The bill doesn't do anything.

What does it do going forward? Well, it's going to set new standards of what we've got to do in 2020 and 2025. And you ask the industry and they say, well, we're already there, too. So it does nothing.

You know, my undergraduate degree is in economics so I always look at a cost-benefit analysis, Mr. President. So, I look at that. What is the cost? What is the benefit? Is there a plus or a minus or none? But the overriding fact and the truth of the matter is that we have a bill that does nothing. We're going to repeal it and it will do nothing. And the simple math of it is zero plus zero still equals zero. And zero minus zero still equals zero.

But this would give us an opportunity, Mr. President, to show the public, to show the people of this state, it would create more jobs, if it does so, or create lower energy utility costs for the people we represent. It's been at least suggested this will lower electric rates for folks. Well, goodness gracious, we're all for that. Everybody in this body is for lower electric rates and more jobs.

But let's see if it happens, Mr. President, because I think we need to work and create sound public policy based on measurable improvements. I think we did the right thing by adopting that rule to give you the power to do that. I don't say it to slow it down. It could be done after we do whatever action we take and then report back and say whether or not what we did, or what we intend to do, actually benefits the people of this state, Mr. President.

Because as I've heard people say, you know, it's cap and trade; it's not cap and trade. I'm not sure what it is. But if it's good for West Virginia, I'm for it. I know you'll be for it. I know all these people will be for it. But I also think it's also helpful that we go

back and report to our folks six months from now, a year from now, that we can tell the folks that what we did, we've done for a reason and it had a positive impact on our state and our constituents.

Thank you, Mr. President.

The Senate proceeded to the thirteenth order of business.
