That §18-2E-5 of the Code of West Virginia, 1931, as amended, be amended and reenacted to read as follows:

#### **ARTICLE 2E. HIGH QUALITY EDUCATIONAL PROGRAMS:**

**§18-2E-5. Process for improving education; education standards; statewide assessment program; accountability measures; Office of Education Performance Audits; school accreditation and school system approval; intervention to correct low performance.**

(a) *Legislative findings, purpose and intent.* — The Legislature makes the following findings with respect to the process for improving education and its purpose and intent in the enactment of this section:

(1) ~~The process for~~ Improving education includes four primary elements, these being:

(A) Standards which set forth the knowledge and skills that students should know and be able to perform as the result of a thorough and efficient education that prepares them for the twenty-first century, including measurable criteria to evaluate student performance and progress;

(B) Assessments of student performance and progress toward meeting the standards;

(C) A system of accountability for continuous improvement defined by high-quality standards for schools and school systems articulated ~~by a rule promulgated by the state board~~ and outlined in subsection (c) of this section that will build capacity in schools and districts to meet rigorous outcomes that assure student performance and progress toward obtaining the knowledge and skills intrinsic to a high-quality successful education rather than monitoring for compliance with specific laws and regulations; and

(D) A method for building the capacity and improving the efficiency of schools and school systems to improve student performance and progress;

~~(2) As the Constitutional body charged with the general supervision of schools as provided by general law, the state board has the authority and the responsibility to establish the standards, assess the performance and progress of students against the standards, hold schools and school systems accountable and assist schools and school systems to build capacity and improve efficiency so that the educational standards are met, including, when necessary, seeking additional resources in consultation with the Legislature and the Governor;~~

The Constitution of the State of West Virginia, section one, article twelve thereof, states: "The Legislature shall provide, by general law, for a thorough and efficient system of free schools." Furthermore, section two, article twelve of said Constitution states: "The general supervision of the free schools of the State shall be vested in the West Virginia board of education which shall perform such duties as may be prescribed by law." (Emphasis added). Therefore, because the Legislature is empowered to identify "such duties as may be prescribed by law" to the West Virginia Board of Education, it is clearly within the Legislature's purview to specify appropriate academic standards that will provide for a thorough education. (Emphasis added); and

~~(3) As the Constitutional body charged with providing for a thorough and efficient system of schools, the Legislature has the authority and the responsibility to establish and be engaged constructively in the determination of the knowledge and skills that students should know and be able to do as the result of a thorough and efficient education. This determination is made by using the process for improving education to determine when school improvement is needed, by evaluating the results and the efficiency of the system of schools, by ensuring accountability and by providing for the necessary capacity and its efficient use;~~

(4) (3) In consideration of these findings, the purpose of this section is to establish a process for improving education that includes the four primary elements as set forth in subdivision (1) of this subsection to provide assurances that the high-quality educational standards are, at a minimum, being met and that a thorough and efficient system of schools is being provided for all West Virginia public school students on an equal education opportunity basis. ~~and~~

~~(5) The intent of the Legislature in enacting this section and section five c of this article is to establish a process through which the Legislature, the Governor and the state board can work in the spirit of cooperation and collaboration intended in the process for improving education to consult and examine the performance and progress of students, schools and school systems and, when necessary, to consider alternative measures to ensure that all students continue to receive the thorough and efficient education to which they are entitled. However, nothing in this section requires any specific level of funding by the Legislature.~~

(b) *Electronic county and school strategic improvement plans.* — The state board shall promulgate a rule consistent with the provisions of this section and in accordance with article three-b, chapter twenty-nine-a of this code establishing an electronic county strategic improvement plan for each county board and an electronic school strategic improvement plan for each public school in this state. Each respective plan shall be for a period of no more than five years and shall include the mission and goals of the school or school system to improve student, school or school system performance and progress, as applicable. The strategic plan shall be revised annually in each area in which the school or system is below the standard on the annual performance measures. The plan shall be revised when required pursuant to this section to include each annual performance measure upon which the school or school system fails to meet the standard for performance and progress, the action to be taken to meet each measure, a separate time line and a date certain for meeting each measure, a cost estimate and, when applicable, the assistance to be provided by the department and

other education agencies to improve student, school or school system performance and progress to meet the annual performance measure.

The department shall make available to all public schools through its website or the West Virginia Education Information System an electronic school strategic improvement plan boilerplate designed for use by all schools to develop an electronic school strategic improvement plan which incorporates all required aspects and satisfies all improvement plan requirements. ~~of the No Child Left Behind Act~~

(c) ~~High-quality education standards and efficiency standards.~~ — In accordance with the provisions of article three-b, chapter twenty-nine-a of this code, the state board shall adopt and periodically review and update high-quality ~~education standards for student,~~ school and school system performance and processes in the following areas:

(1) Curriculum;

(2) Digital literacy;

~~(2)~~(3) Workplace readiness skills;

~~(3)~~(4) Finance;

~~(4)~~(5) Transportation;

~~(5)~~(6) Special education;

~~(6)~~(7) Facilities;

~~(7)~~(8) Administrative practices;

~~(8)~~(9) Training of county board members and administrators;

~~(9)~~(10) Personnel qualifications;

~~(10)~~(11) Professional development and evaluation;

~~(11)~~(12) Student performance, progress and attendance;

~~(12)~~(13) Professional personnel, including principals and central office administrators, and service personnel attendance;

~~(13)~~(14) School and school system performance and progress;

~~(14)~~(15) A code of conduct for students and employees; and

~~(15)~~(16) Indicators of efficiency. ~~and~~

~~(16) Any other areas determined by the state board.~~

(d) West Virginia Academic Standards.

(1) For purposes of this subsection, "academic standards" are concise, written descriptions of what students are expected to know and be able to do at a specific stage of their education. Academic standards describe what students should have learned by the end of a course, grade level, or grade span.

(2) Legislative authority —

Sections one and two, article twelve of the Constitution of the State of West Virginia impose a duty upon the Legislature to provide, by general law, for a thorough and efficient system of free schools and the ability to impose “duties as may be prescribed by law” on the West Virginia Board of Education.

(D) Effective immediately, any proposed changes to academic content standards for public schools shall comply with section two, article two-h, chapter eighteen of the code, which, in part, requires a sixty day written comment period and at least four public hearings in various locations in the state.

(4) The state board shall withdraw from the Memorandum of Agreement entered into with the Council of Chief State School Officers and The National Governors Association for Best Practices which required the state board to agree that Common Core represents eighty-five percent of West Virginia’s standards in English Language Arts and Mathematics and withdraw as a governing state in the Smarter Balanced Assessment Consortium;

Therefore, the Office of Education Performance Audits may rely on other agencies and mechanisms in its review of schools and school systems.

~~(f)~~ (m) *School accreditation.* —

(1) The state board shall establish levels of accreditation to be assigned to schools. The establishment of levels of accreditation and the levels shall be subject to the following:

The revised plan shall be submitted to the state board for approval.

When the state board approves the recommendations, they shall be communicated to the county board. If progress in correcting the emergency, as determined by the state board, is not made within six months from the time the county board receives the recommendations, the state board shall intervene in the operation of the school system to cause improvements to be made that will provide assurances that a thorough and efficient system of schools will be provided. This intervention may include, but is not limited to, the following:

~~(n)~~(o) Notwithstanding any other provision of this section, the state board may intervene immediately in the operation of the county school system with all the powers, duties and responsibilities contained in subsection ~~(m)~~ (n) of this section, if the state board finds the following:

(1) That the conditions precedent to intervention exist as provided in this section; and that delaying intervention for any period of time would not be in the best interests of the students of the county school system; or

(2) That the conditions precedent to intervention exist as provided in this section and that the state board had previously intervened in the operation of the same school system and had concluded that intervention within the preceding five years.

~~(e)~~(p) *Capacity*. — The process for improving education includes a process for targeting resources strategically to improve the teaching and learning process. (p) *Building leadership capacity.* — To help build the governance and leadership capacity of a county board during an intervention in the operation of its school system by the state board, and to help assure sustained success following return of control to the county board, the state board shall require the county board to establish goals and action plans, subject to approval of the state board, to improve performance sufficiently to end the intervention within a period of not more than five years. The state superintendent shall maintain oversight and provide assistance and feedback to the county

board on development and implementation of the goals and action plans. At a minimum, the goals and action plans shall include:

(A) An analysis of the training and development activities needed by the county board and leadership of the school system and schools for effective governance and school improvement;

(B) Support for the training and development activities identified which may include those made available through the state superintendent, regional education service agencies, Center for Professional Development, West Virginia School Board Association, Office of Education Performance Audits, West Virginia Education Information System and other sources identified in the goals and action plans. At least once each year during the period of intervention, the Office of Education Performance Audits shall assess the readiness of the county board to accept the return of control of the system or school from the state board and sustain the improvements, and shall make a report and recommendations to the state board supported by documented evidence of the progress made on the goals and action plans. The state board may end the intervention or return any portion of control of the operations of the school system or school that was previously removed at its sole determination. If the state board determines at the fifth annual assessment that the county board is still not ready to accept return of control by the state board and sustain the improvements, the state board shall hold a public hearing in the affected county at which the attendance by all members of the county board is requested so that the reasons for continued intervention and the concerns of the citizens of the county may be heard. The state board may continue the intervention only after it holds the public hearing and may require revision of the goals and action plans.

Following the termination of an intervention in the operation of a school system and return of full control by the state board, the support for governance education and development shall continue as needed for up to three years. If at any time within this three years, the state board determines that intervention in the operation of the school system is again necessary, the state board shall again hold a public hearing in the affected county so that the reasons for the intervention and the concerns of the citizens of the county may be heard.”
