OLD BUSINESS:

Monthly/Quarterly Practitioner Reports:

- Bruce Gorby, D.O. WVMPHP reports Dr. Gorby has remained in compliance.
- Michael Richmond, D.O. WVMPHP reports Dr. Richmond remains in full compliance with his CRCA. He has also received his DEA back for prescribing of controlled substances.
- Terry Thomas, D.O. WVMPHP reports full compliance with last quarterly reporting period.

Bi-Annual Statistical Report was provided by WVMPHP.

NEW BUSINESS:

Executive Director Report:

- 1) **Interstate Medical Licensing Compact:** The first meeting of the Interstate Medical Licensing Compact is scheduled for October 27 and 28, 2015 in Chicago, Illinois. The Governor's Office has delineated the responsibility of appointing the Commissioners representing West Virginia on the Commission to the two State Licensing Board. Motion was made and unanimously passed to appoint Diana Shepard, Executive Director, as the Commissioner to represent the West Virginia Board of Osteopathic Medicine on the IMLC Commission. **(Rubin/Whitler)**
- 2) **FSMB Attorney Workshop:** The 2015 Attorney Workshop, sponsored by the Federation of State Medical Boards will be held in Las Vegas, Nevada on November 12-13, 2015. Motion was made and unanimously passed to provide travel and hotel funds to Board Counsel, Jennifer Akers, to attend. **(Rubin/Rowe)**
- 3) **Tri-Regulator Symposium:** Dr. Rubin, Secretary of the Board, was planning to attend the Tri-Regulator Symposium in Arlington, Virginia. However, his schedule was changed cancelling his trip to Arlington.
- 4) **Supreme Court Case No. 15-0131:** The West Virginia Board of Nursing had its second case presented to the West Virginia Supreme Court earlier this month. This issue dealt, primarily, with the Board's non-compliance with *W.Va. Code 30-1-5(c)* which requires a certified letter be sent to the complainant within six months of the complaint filing to provide an update on the status of the complaint. The Court's decision for the RN Board case has not yet been given. However, with Complaint 2013-16, the WV Board of Osteopathic Medicine may be facing the same issue. While regular communication was exchanged with the complainant via telephone and letters, a certified letter at six months was not sent while attempts at setting a hearing were unsuccessful with the physician and his counsel. Legal Counsel and the Executive Director have worked on procedural and computer changes to provide six month alerts on all complaint cases.
- 5) **PA Formulary Review:** The current formulary was presented for review. Most state medical licensing boards have eliminated the use of a drug formulary as it quickly becomes outdated with new drugs and schedule changes. Motion was made to eliminate the current drug formulary and replace it by stipulating what class of drugs and dosages can be prescribed by Physician Assistants within their application for licensure and their Practice Agreements. **(Jones/Rubin)**
- 6) **WVU Request Regarding DEA Requirement for Physician Assistants:** A request for interpretation of *24 CSR 02.11.7* was received from WVU. If a Physician Assistant is not going to prescribe Schedule III through V controlled substances, must they obtain a DEA? Historically, the Board has required a DEA not knowing whether the PA would be prescribing controlled substances. Re-interpretation of *24 CSR 02.11.7* was made for the requirement of a DEA to be determined by the application process and asking whether or not the supervising physician wants the PA to prescribe controlled substances. **(Jones/Rubin)**
- 7) **3 Hour CME Requirement Within First Year of Licensing:** SB437 required all newly licensed healthcare practitioners to complete the 3 hour Pain Prescribing CME requirement within the first year of licensing. An audit was conducted revealing 29 Physician Assistants and 12 Osteopathic Physicians who had not done so within the first year. A letter was mailed to all non-compliance licensees and, as of this meeting all have met those requirements.

Motion was made at 12:00 PM to recess for lunch. **(Adams/Muscari)**

President Miller re-convened the meeting at 1:35 PM.

- 8) Request for Use of Vyvanse in Treating Binge Eating Disorder: The Board was approached by Shire Pharmaceutical Company after the deadline for filing legislative rule changes for the 2016 Legislative Session. Shire was requesting a change to **24 CSR 01-18.1.dd** to allow the use of Vyvanse in the treatment of Binge Eating Disorder. This issue will be tabled until the November meeting to allow further study and review. In the meantime, the Board goes on record to not discipline any physician who uses Vyvanse, as directed, and with clear documentation of patient progress without complications.
- 9) Telemedicine Guidelines: A proposed set of guidelines for the practice of osteopathic telemedicine was tabled from the last meeting. It is presented for approval as an internal policy for the practice of osteopathic telemedicine until we can get the telemedicine bill, which was killed in committee this year, re-submitted for 2016. Motion to approve was made and unanimously passed. **(Rubin/Whitler)**
- 10) Board Office Phone System: The Executive Director requested permission to begin looking at new phone systems for the Board Office. The Board requested quotes be presented at the next meeting for a phone system with conferencing and intercom capabilities for all four staff members in the office.
- 11) Security for Board Office: The Executive Director reported a couple of instances within the last six months in which building security was placed on standby when particular visitors were expected in the Board Office. Staff has no rear exit within the office should they be threatened in any way. Request for study and review of ways to provide more security within the Board Office. The Board granted permission to investigate adequate security measures.

Licensing Issues:
MedExpress

MedExpress presented several new dispensing sites for multiple osteopathic licensees for Board approval. The Executive Director questioned why this procedure is required. It was determined that when controlled substances were being dispensed from those facilities the Board needed to be aware of those sites. Now that controlled substances can no longer be dispensed without a prescription, this has become a moot issue and no longer needs to be reported to the Board.

First Licensed Collaborative Pharmacy Practice:

Eight years after the first pilot programs for collaborative pharmacy practices, the Board has licensed its first collaborative. The license will be for a two year period and then will the pharmacist will apply for renewal.

Onsite Physician Assistant Inspections:

Four unannounced inspections were conducted by one of the Board's contract investigators on four Physician Assistants whose licenses were up for renewal in 2015. Included in that review were two PA's under the supervision of David Tolliver, D.O., one with Claudia Duncan, D.O. and one with John Short, D.O. All appeared to be practicing within their scope of practice with the exception on one Physician Assistant who has a current open complaint and will be discussed in Executive Session.

The Board moved into Executive Session at 2:35 PM with the Executive Director, Board Counsel and Licensure analyst present. **(Rubin/Whitler)**

Motion was made to move back into Public Session at 3:35 PM. **(Muscari/Whitler)**

- 1) State Auditor's Annual Chapter 30 Board Seminar: The Annual State Auditor's Conference will be held at the Charleston Marriott on Tuesday, December 1, 2015

- 2) Legislative Rules Committee Decision on Vyvanse Rules:
Shire Pharmaceutical Company, through their representative, Chris Hall, have asked the Legislative Rules Committee to recommend the Board of Osteopathic Medicine change 24 CSR 01-18.1.dd to allow the use of Vyvanse in the treatment of Binge Eating Disorder. According to W.Va. Code 29A-3-16(b), the Legislative Rule-Making Committee, after reviewing a board's legislative rule, shall make recommendations to an agency or board, who promulgated the rule, and to the Joint Commission on Government and Finance. This is still under review by the joint chairs of the Rules Committee.
- 3) Telemedicine Bill in 2016: Some changes have been recommended by the West Virginia Board of Medicine and, as this is a joint bill being entered by both boards, a review is needed by the Osteopathic Board members. Draft changes were provided and will be reviewed by members to be finalized during the 2016 legislative session. The Board Office has received calls from licensed psychiatrists regarding the new telemedicine guidelines which were included in the fall newsletter. Those physicians have been encouraged to write the board members and to contact the Osteopathic Medical Association regarding their prescribing concerns via telemedicine.
- 4) Office Phone System: Quotes were provided for a new four-phone system with intercom and conferencing capabilities. The Executive Director was authorized to purchase the best system not to exceed \$1,000.
- 5) Office Security System: Quotes were provided for a front door security system to allow staff to identify visitors before unlocking the door and authorizing entrance. Members also expressed interest in an alert system to contact building management if assistance is needed. The Executive Director was authorized to purchase a security system and have it and the telephones installed.
- 6) Report on First Inaugural Meeting of the Interstate Medical Licensing Compact Commission: First meeting of the Compact Commission occurred on October 27-28th in Chicago, Illinois. Bylaws were approved, officers were elected and a committee structure was identified, assigned and given a charge for the next meeting. That meeting will be held in Salt Lake City, Utah on December 18, 2015. A timetable for the first issued compact license has been set for July 1, 2016. Each member state should be looking at what they will need to implement that process. To date, all that is needed would be a dedicated computer for processing the criminal background checks. Ms. Shepard was also elected Secretary for the Commission.
- 7) FSMB Scholarships for Public Members at 2016 Annual Meeting: The Federation of State Medical Boards is offering 12 scholarships worth \$1,800 for public members who have served for less than two years or never attended an FSMB annual meeting. Members Present:

Ernie Miller, D.O. – President

Heather Jones, PA-C - Physician Assistant Member
Sharon Rowe – Public Member

Staff Members Present:

The Board moved back into Public Session at 2:05 PM. **(Adams/Jones)**

Richard Blackburn, D.O.:
(Complaint 2014-22)

A hearing was scheduled for tomorrow, June 9, 2016, after several continuances requested by respondent's counsel. On June 3, 2016, Board Office received a letter from Dr. Blackburn's counsel offering to surrender his license.

Motion was made and unanimously passed to accept the surrender of license and cancel the hearing. **(Adams/Rowe)**

Michael Kostenko, D.O.:
(Complaint 2015-10)

Board received and reviewed Hearing Examiner's Findings of Fact, Conclusions of Law and Recommendations from hearing held on March 18 and 23, 2016.

The following amendments were made to the Hearing Examiner's report:

- 1) Page 4, "Issue" should state the West Virginia Board of Osteopathic Medicine may suspend a license, limit or restrict a license or revoke any license issued by the Board, upon satisfactory proof that the licensee has demonstrated a lack of professional competence to practice osteopathic medicine with a reasonable degree of skill and safety for patients. **(§24-1-18.1.i)**

- 2) Agree with the Hearing Examiner's Findings of Fact, Conclusions of Law. The revocation is justified because Dr. Kostenko deviated from the accepted standards of practice and demonstrated a lack of care, skill and proper treatment contributing to the deaths of the three patients named in the complaint. As he accepted no responsibility nor demonstrated any concern for changing his way of practicing pain management, the Board has reason to believe this practice will continue unless definitive action is taken by the Board.

Motion was made to accept the recommendations of the Hearing Examiner, as amended, and permanently revoke the license of Michael Kostenko, D.O.. **(Rowe/Jones)** Motion carried with Jimmy Adams, D.O. abstaining from the vote as an expert witness.

Sanjay Mehta, D.O.:
(Complaint 2015-11)

As a result of the expert reviewer's report received by the Board on April 7, 2016 and reviewed by the Complaint Committee on May 19, 2016 motion was made on behalf of the Complaint Committee to Summarily Suspend the license of Dr. Mehta.

**WEST VIRGINIA BOARD OF OSTEOPATHIC MEDICINE
NEWSLETTER
SPRING 2015**

Please do not discard this publication!!!!

This is the West Virginia Osteopathic Licensees' lifeline to licensing questions and answers. Like everywhere else in medicine today, lots of changes have occurred regarding licensing for physicians and physician assistants. We urge you to visit our website, www.wvbdosteo.org and click on "Legislation" to review all current rules regulating your medical license in 2015.

The biggest change in 2014/15 is in relation to Physician Assistant licensing. As of June 6, 2014, a PA can apply for a license without having a working contract with a supervising physician. **However, the PA cannot begin working until a Practice Agreement has been completed and signed by both the PA and the Physician; and signed as approved by the Board. The Practice Agreement now outlines what the PA can do under the supervision of what physician(s), including prescriptive authority. All Physician Assistants should complete a Practice Agreement even if your license is not scheduled for renewal in 2015.**

**WV BOARD OF OSTEOPATHIC

- 5) When answering the personal information questions, if you have a “yes” answer it will bring up a screen for you to type in your response;
- 6) Answer the State mandated child support questions;
- 7) The CME report allows you to link directly with the NCCPA to request your CME hours. If you submit a copy of your NCCPA CME certificate, we will keep them on file and you will never be contacted during a CME audit. Remember, if you also have prescriptive authority, you must document at least 10 hours of CME in Pharmacology topics within the 100 required hours.
- 8) Lastly you check a certification box which attests to the accuracy of your information.
- 9) The next screen is the payment screen for you to enter your credit card information. You will be given the opportunity to print your receipt at the conclusion of the form.

LICENSING OF PAIN CLINICS

The required licensing of Pain Management Clinics began July 1, 2014. Because this law has been in effect since 2012, there is no additional grace period for applying for licensure. If your practice meets the definition of a Pain Clinic, you **MUST** apply with OHFLAC through WV Department of Human and Health Services for a license to continue their current practice of medicine in the State. The contact person at OHFLAC is Sylvia Fields, Program Manager (304) 558-0050.

If you meet the requirements but do not apply for a license, OHFLAC will report that to the WV Board of Osteopathic Medicine and the Board will open a complaint. If you are unsure whether you meet the requirements, contact the Board Office or OHFLAC.

Pain Clinic Definition:

Privately owned clinic, facility or office wherein the total number of chronic pain patients treated during any 1 month who receive tramadol, opioids, carisoprodol, or other Schedule II or III controlled substances equals greater than 50%.

Included in SB 437 passed by the 2012 Legislature and signed by the Governor was the development of a Review Committee who receives reports from the State Medical Examiner regarding overdose deaths. This committee of healthcare professionals, including an osteopathic physician, will make determinations on a case-by-case basis of unusual prescribing practices and report their findings to the practitioner's licensing board and to law enforcement.

**WEST VIRGINIA BOARD OF OSTEOPATHIC MEDICINE
ADOPTS NEW TELEMEDICINE GUIDELINES**

Definition of Telemedicine

“Telemedicine” means the practice of osteopathic medicine using electronic communications, information technology or other means of interaction between a licensed healthcare practitioner in one location, and a patient in another location, with or without an intervening healthcare provider. The utilization of electronic communications in on call, cross coverage and emergency services situations, is not “telemedicine.” Generally, telemedicine is not an audio-only telephone conversation, email/instant messaging conversation, or fax.

“Telemedicine technologies” mean technologies and devices enabling secure electronic communications and information exchange in the practice of telemedicine and generally involve the application of secure, real time video conferencing or similar secure video services, remote monitoring, interactive audio and store and forward digital image or health data technology to provide or support health care delivery by replicating the interaction of a traditional in person encounter between a provider and a patient.

The practice of Osteopathic Medicine through Telemedicine

The practice of osteopathic medicine occurs where the patient is located at the time telemedicine technologies are used. An osteopathic physician or physician assistant who engages in the practice of osteopathic medicine through telemedicine technologies with respect to patients located in this state shall be licensed by the WV Board of Osteopathic Medicine, until such time as the Interstate Medical Licensing Compact has been approved and is operating under the authority of the Interstate Medical Licensing Commission.

An osteopathic physician or physician assistant using telemedicine technologies to practice osteopathic medicine for a patient shall:

- 1.) Verify the identity and location of the patient;
- 2.) Provide the patient with confirmation of the identity, location and qualifications of the Osteopathic physician or physician assistant;
- 3.) Establish and/or maintain an osteopathic physician or physician assistant - patient relationship which conforms to the standard of care;

West Virginia Board of Osteopathic Medicine
405 Capitol Street - Suite 402
Charleston, WV 25301

- 4.) Determine whether telemedicine technologies are appropriate for the particular patient presentation for which the practice of osteopathic medicine is to be rendered;
- 5.) Obtain from the patient informed consent for the use of telemedicine technologies in the practice of osteopathic medicine for the patient;
- 6.) Conduct all appropriate evaluations and history of the patient consistent with traditional standards of care for the particular patient presentation;
- 7.) Verify compliance with the requirements of medical record documentation.

Items 2 through 5 in the above section do not apply to the practice of pathology and radiology medicine through store and forward telemedicine.

Where an existing osteopathic physician or physician assistant/patient relationship is not present prior to the utilization to telemedicine technologies, or when services are rendered solely through telemedicine technologies, an osteopathic physician or physician assistant/patient relationship may only be established through the use of telemedicine technologies which incorporate interactive audio using store and forward technology with real time videoconferencing or similar secure video services during the initial osteopathic physician or physician assistant/patient encounter. However, an osteopathic physician/patient relationship may be established through store and forward telemedicine for the practice of pathology and radiology.

Once an osteopathic physician assistant/patient relationship has been established, the osteopathic physician or physician assistant, with the informed consent of the patient, may utilize any telemedicine technology which meets the standard of care and is appropriate for the particular patient presentation.

The utilization of telemedicine technologies to practice osteopathic medicine on a patient for whom the standard of care requires an in-person, physical examination or osteopathic manipulation therapy shall constitute dishonorable, unethical and unprofessional conduct.

Prescribing through Telemedicine Technologies:

The practice of osteopathic medicine provided via telemedicine technologies, including the establishment of an osteopathic physician or physician assistant/patient relationship and issuing a prescription via electronic means as part of a telemedicine encounter, are subject to the same standard of care, professional practice requirements and scope of practice limitations as traditional in-person osteopathic physician or physician assistant/patient encounters. Treatment, including issuing a prescription, based solely on an online questionnaire does not constitute an acceptable standard of care.

An osteopathic physician or physician assistant who has an osteopathic physician or physician assistant/patient relationship and who practices osteopathic medicine to a patient solely through the utilization of telemedicine technologies may not prescribe any controlled substances listed in Schedule I or II of the Uniform Controlled Substances Act.

Controlled Substance Abuse Monitoring Program utilization and updates.

Sponsorships by a physician education grant through the WVDHHR provided additional support inclusive of 20 scholarships for early career students, residents and appropriate others. Many were in attendance from the Comprehensive Behavioral Health Centers. Other organizations in the field were represented, including Acadia Healthcare, Aegis Sciences Corporation, Affinity eHealth, Alkermes, Assurex Health, BioDelivery Sciences, CorrLabs, LLC, First Choice Health/First Choice Services, Firstlab, Highline Health, LLC, Indivior, IntegraLabs, Las Veas Recovery Center, Millennium Labs, Mount Regis Center, Orexo US, Inc., Pavillon, Pfizer, Inc., The American Institute of Technology, The Farley Center at Williamsburg Place, Timberline Knolls Residential Treatment Center, WV Medical Insurance Agency, WV Medical Professionals Health Program, WV Society of Addiction Medicine and WVDHHR/Division of Rural Health & Recruitment.

The success of the conference is an excellent example of integration, collaboration and communication among organized medicine within the state and the expertise, passion and support of many in the field including nationally recognized experts. The WVMPPH has been informed it has an opportunity for a similar grant from the WVDHHR/BBHFF to continue its efforts in the area of physician and provider education for 2016 and we hope you will join us. As always, such support, assistance and guidance is a primary reason the WV Medical Professionals Health Program exists as it does today. On behalf of the WVMPPH, the providers we serve and West Virginia, I thank you all!

**P. Bradley Hall, M.D. DABAM, FASAM, MROCC
AAPDAC Conference Chair
Executive Medical Director, WVMPHP
President-Elect, FSPHP**

The annual Appalachian Addiction & Prescription Drug Abuse Conference was held in Charleston, West Virginia September 24 - 26, 2015. This conference was the 4th conference of its type held since inception of the licensure board's three hour CME Best Practices Prescribing of Controlling Substances required education. Specifically, The Treatment of Pain and Addiction Utilizing Education and Proper Prescribing: The New Paradigm Continued.

Some topics included the new naloxone rescue legislation and utilization, chronic pain and addiction, clinical perspectives of pain and addiction, neonatal abstinence syndrome, proper prescribing and drug diversion, updated epidemiologic statistics, a number of case studies, heroin and the addiction epidemic, WV Laws, Rules and Regulations and

Medical Record Documentation for Patient Encounters via Telemedicine:

The patient record established during the use of telemedicine technologies shall be accessible and documented for both the osteopathic physician, physician assistant and the patient, consistent with the laws and legislative rules governing patient health care records and shall include a copy of the informed consent to the practice of osteopathic medicine via telemedicine technologies. All laws governing the confidentiality of health care information and governing patient access to medical records shall apply to records of the practice of osteopathic medicine provided through telemedicine technologies. An osteopathic physician or physician assistant solely providing services using telemedicine technologies shall make documentation of the encounter easily available to the patient and, subject to the patient's consent, any identified care provider of the patient immediately after the encounter.

CME AUDITS TO BE DONE IN DECEMBER

Chapter 30 Licensing Boards are required to conduct a CME audit each calendar year following the renewal of an osteopathic physician's license. If you renewed your WV license in 2015 and did not submit CME certificates with your application, you may receive a letter requesting proof of completion of the CME's reported in your application. A random 10 % of the license renewals will be audited. If you receive a CME audit letter, please respond to the Board as quickly as possible. When reporting CME's on your applications, do not just enter a range of dates, i.e., June 2012 - June 2015. Each CME program needs to be entered with the correct number of approved hours documented. Also, remember the CME schedule for AOA membership is 3 years. WV License cycle is two years.

DISCUSSIONS PHYSICIANS SHOULD BE HAVING WITH THEIR PATIENTS

The National Transportation Safety Board recently analyzed toxicology tests from 6,677 pilots who died in a total of 6,597 aviation accidents between 1990 and 2012. The results demonstrate a significant increase in the use of a variety of potentially impairing drugs.

In this study, the pilot was considered to be positive for a drug if it could be qualitatively or quantitatively identified in blood or tissue; drugs identified only in urine or used as part of resuscitative efforts were excluded.

The study revealed the following:

- 1) The proportion of pilots testing positive for at least one drug increased from 10% to 40%;
- 2) More than 20% of all pilots were positive for a potentially impairing drug, and 6% of all pilots were positive for more than one potentially impairing drug;
- 3) Overall, the most common potentially impairing drug was diphenhydramine, a sedating antihistamine;
- 4) Those pilot deaths reviewed in the last five years, revealed 8% tested positive for narcotics with hydrocodone and diazepam accounting for 20% of the positive findings.

Given the general increase in drug use in the population, it is likely that there has been a similar trend in drug use among operators across modes of transportation.

These results highlight the importance of routine discussions between health care providers and their patients about the potential risks that drugs and medical conditions can create when patients are operating a vehicle in any mode of transportation.

CURRENT WV OSTEOPATHIC STATISTICS

As of the printing of this newsletter the following statistics reflect the licensing of osteopaths in the state of West Virginia:

Total Number of Physicians Licensed in West Virginia	1,264
Total Number Practicing in West Virginia:	972
Total Number of Osteopathic PA's Licensed in West Virginia:	208

PHYSICIAN RESPONSIBILITIES FOR SUPERVISION OF PHYSICIAN ASSISTANTS

As physician-led healthcare teams become more prevalent in the delivery of healthcare, the relationship between a Physician Assistant and their Supervising Physician becomes critically important. Recent changes to §24-2-1, the Legislative Rule for Physician Assistants, has made the licensing process easier in today's environment of the multi-clinic setting with both MD's and DO's working with Physician Assistants.

With the Emergency Rule change to the licensing process for Physician Assistants, a PA can work with MD's and DO's under one license and can be issued a license without a named supervisor but cannot see patients until a Practice Agreement has been completed with a supervisor. With these changes there are duties and responsibilities that each Supervising Physician must take seriously. The Board has disciplined supervisors who have not taken these responsibilities seriously and paid the consequences. If you are supervising Physician Assistants or are planning to supervise one, some of the responsibilities attached to that privilege are listed below. For a complete list, go to our website, www.wvbdosteo.org.

- 1) Supervising physician is responsible for observing, directing and evaluating the work, records and practices performed by the physician assistant and is legally responsible for the practice of the PA at all times;
- 2) Supervising physician may not permit a physician assistant to practice independently, maintain an independent place of practice, or practice outside the scope of the board-approved privileges;
- 3) Constant physical presence of the physician is not required as long as the supervising physician and physician assistant are, or can be, easily in contact with one another by electronic communication;
- 4) NCCPA certification is a requirement for all licensed PA's. If that certification is lost by non-renewal at the end of the calendar year due, the PA's license is automatically expired. They have no license to practice and the Supervising Physician MUST not allow them to continue to see patients;
- 5) Personal and regular review, at least monthly, by the Supervising Physician of selected patient records with PA involvement. The chart review shall be sufficient in number to assure adequate review of the PA's scope of practice. This must occur monthly for the first six months of the Practice Agreement and quarterly thereafter with written documentation of the meeting;
- 6) Only alternate supervisors named within the Practice Agreement can serve as a supervisor to the PA when the primary supervising physician is absent;
- 7) If a Practice Agreement or Contract is terminated between a PA and the Supervising Physician, BOTH must contact the Board within ten (10) days.

NEW ONLINE CME FOR REQUIRED 3 HOUR CME ON PAIN PRESCRIBING

The West Virginia Board of Osteopathic Medicine has joined with WVOMA, WVMA, WV Board of Medicine and the Appalachian Addiction and Prescription Drug Abuse Conference to provide a new online, 3 hour CME on pain prescribing. It is a condensed version of the September 2015 Appalachian Addiction and Prescription Drug Abuse Conference held in Charleston at the Embassy Suites. Go to our website, www.wvbdosteo.org and click "Online CME" to complete the approved course.

RECOGNIZING SIGNS AND BEHAVIORS OF POTENTIAL PHYSICIAN IMPAIRMENT

A free web course for doctors and nurses on recognizing the signs and behaviors of potential impairment is now available. Go to www.wvmp.org to learn the identification and management process with healthcare professionals who exhibit these behaviors and how you can help them get the help they need. Under §24-6-5.2.5 of the Rules of the WV Board of Osteopathic Medicine, any individual having reason to believe that the conduct of licensee amounts to professional incompetence shall be encouraged to report the information to the Board.

CHANGES TO THE LAW WITH THE LICENSING OF PAIN CLINICS

The required licensing of Pain Management Clinics began July 1, 2014. If your practice meets the definition of a Pain Clinic, you **MUST** apply with OHFLAC through WV Department of Human and Health Services for a license to continue their current practice of medicine in the State. The contact person at OHFLAC is Sylvia Fields, Program Manager (304) 558-0050.

If you meet the requirements but do not apply for a license, OHFLAC will report that to the WV Board of Osteopathic Medicine and the Board will open a complaint. If you are unsure whether you meet the requirements, contact the Board Office or OHFLAC.

Pain Clinic Definition:

Privately owned clinic, facility or office where more than fifty percent (50%) of patients of the clinic are prescribed or dispensed opioids or other controlled substances specified in rules promulgated pursuant to this article for chronic pain resulting from conditions that are not terminal.

Chronic Pain Definition:

Pain that has persisted after reasonable medical efforts have been made to relieve the pain or cure its cause and that has continued, either continuously or episodically, for longer than three (3) continuous months. For purposes of this article, "chronic pain" does not include pain directly associated with a terminal condition.

**WEST VIRGINIA REMAINS #1 IN

Progressive diseases **ARE NOT** considered terminal in this new regulation. The 50% formula is **NO LONGER** for a one month patient volume. It is 50% of total number of patients.

WV BOARD OF OSTEOPATHIC PHYSICIAN ASSISTANT
LICENSES DUE TO EXPIRE MARCH 31, 2017

If you received a postcard with this newsletter, that means your license is scheduled for renewal before March 31, 2017. Just follow the steps on www.wvbdosteo.org, to renew between February 1st and March 31st, 2017.

CURRENT WV OSTEOPATHIC STATISTICS

As of the printing of this newsletter the following statistics reflect the licensing of osteopaths in the state of West Virginia:

<i>Total Number of Physicians Licensed in West Virginia</i>	<i>1,261</i>
<i>Total Number Practicing in West Virginia:</i>	<i>973</i>
<i>Total Number of Osteopathic PA's Licensed in West Virginia:</i>	<i>240</i>

LICENSING REQUIREMENTS FOR OSTEOPATHIC RESIDENTS

Whether you are in an allopathic or osteopathic post graduate program, if you were a graduate of an Osteopathic Medical School, received a D.O. degree and are participating in a residency program anywhere in West Virginia, you **MUST** have an Educational Permit. If, after the first year, you decide you would rather have a full, unrestricted license, you may apply. However, if you do not want or need a full license, you **MUST** renew your Educational Permit every year while in training.

All Educational Permits expire on June 30th like a regular license and **MUST** be renewed annually. There have been recent situations when the resident did not renew the ED Permit nor acquire a full license before July 1st and exposed themselves to possible disciplinary action by the WV Board of Osteopathic Medicine for practicing without a license. Once this disciplinary action is taken, that resident will have to report that action in every state thereafter in which they may apply for a license.

If you are a resident, intern or a licensed D.O. responsible for post graduate training, please make sure everyone understands the importance of this process. It is **NOT** required by the West Virginia Board of Medicine and, if your allopathic colleagues are telling you it is not required, that may be true for them but not for you as an Osteopath.

The Educational Permit applications for renewal can be found on our website, www.wvbdosteo.org, under “Resident Applications.” If you are still in a training program and have applied for a full license, but have not had your interview for licensure prior to June 1, 2017, you probably should apply for an Educational Permit Renewal to cover your practice of medicine after July 1st.

CHANGES TO DEA REGISTRATION RENEWAL PROCESS **BEGINNING JANUARY 1, 2017**

The DEA has announced some critical changes in its registration renewal process that all prescribing health providers should be made aware and take heed.

- 1) Beginning January 1, 2017, the DEA will send only one single renewal notice to each registrant stating this his/her DEA registration is set to expire. The notice will be sent to the “mail to” address on file with the agency, will be mailed about 65 days in advance of the scheduled expiration date and **NO ADDITIONAL REMINDERS** will be sent.
- 2) In addition, a current DEA registrant **WILL NOT BE ABLE TO RENEW** their DEA after the expiration date. They will be required to go back to square one to apply for a new DEA registration with a new DEA number. The original registration **WILL NOT** be reinstated.
- 3) Also, paper renewals received after the expiration date will not be accepted. If the agency fails to receive a registrant’s paper renewal and supporting material by the expiration date, they will be returned, and the registrant will need to submit an application for a new DEA registration.

What this will mean for prescriptions written on an expired DEA is they will not be honored and patients will not be able to receive their medications, including an emergency 72-hour supply. Then the prescription’s validity comes into question, and could create unanticipated fallout for state prescription drug monitoring programs (CSMP) should reports from pharmacies that make the error and fill the prescriptions reach the CSMP.

IMPLEMENTATION OF UNIFORM **APPLICATION**

The West Virginia Board of Osteopathic Medicine has been working with FSMB and Albertson Consulting, Inc. to make the FSMB’s Uniform Application (U/A) available to any and all applicants wishing to use the U/A. The go-live date is scheduled for Monday, January 9, 2017. Any new applicant after that date will be given the option to complete the U/A and have it stored at the Federation of State Medical Boards office in Euless, TX or just complete the required West Virginia application for licensure. If you have questions, please call the Board’s Licensure Analyst, Melanie Horn at (304) 558-6095.

NOTICE TO STATE MEDICAL BOARDS REGARDING ALARMING TRENDS IN PRESCRIBING

Three business arrangements are being implemented throughout the United States that may violate federal and state anti-kickback and fraud laws, as well as violate provisions related to prescribing as set forth in your state's medical practice act. They are as follows:

- 1) Compounding pharmacies are hiring marketing firms to approach medical practices and/or their staff with proposals to offer "bonuses" if they prescribe through that pharmacy. However, the prescriptions are routed through call centers and these "bonuses" may be classified as kickbacks under federal and state laws.

- 2) These same call centers are being used to route prescriptions to specific pharmacies that have contracts with the patient's insurer. Drug combinations may be altered at the pharmacy to find an insurer who will reimburse for that combination. Modifications are done outside the purview of the pharmacists and result in exorbitant reimbursements of thousands for what may have been sold for dollars at the local pharmacy. This is not in reference to approved formulary changes in hospital or institution-based pharmacies.

- 3) These deceptive business practices have also been found to change labels on medications in order to provide the originally prescribed medication using a label that results in maximum reimbursement from an insurer.

INTERSTATE MEDICAL LICENSURE COMPACT GOES LIVE!

WV Legislature passed the Interstate Medical Licensure Compact during their 2016 legislative session. The IMLC provides for an expedited license to practice in physician-selected member states within the Compact. Currently, 18 states have adopted the Compact Legislation. Please see the map to determine those states who have already passed the legislation and those who have introduced it in their 2017 state legislatures.

In June 2016, the Commission had hoped to have the expedited licensure process available on their website, IMLCC.org by January 2017. However, that date was delayed until April 3, 2017. A HRSA grant of \$250,000 has been awarded to aid in the development of this licensing process and Bylaws and Rules have been developed and approved by the Commission for this work.

All Commission meetings are public as it is an extension of all member state governments and it has received a great deal of interest from a variety of practice groups, corporations and healthcare institutions.

2017 LEGISLATIVE CHANGES AFFECTING OSTEOPATHIC PHYSICIANS & PA'S

The following is a list of some of the legislation passed during the 2017 Legislative Session which may affect your practice of Osteopathic Medicine:

- SB 4:** Changes §30-14-12b to allow Osteopathic physician in good standing to donate medical care of the indigent and needy under an arrangement with a clinic organized to provide free care. The services may be provided in a clinic setting or in the physician's office.
- SB 339:** Establishes two coalitions for responsible pain management and diabetes management respectively. Physician members will be appointed by the President of Senate and Speaker of House in consultation with co-chairs of
- & SB 360:** Joint Committee on Health.
- SB 347:** Would have established collaborative agreements between PA's and physicians, eliminated the need for NCCPA certification for licensure, changed the reimbursement rate for PA's and given signature authority for death certificates and DNR's. Bill was vetoed by the Governor.
- SB 578:** Requires physicians to provide a requested copy of the medical record to the patient, their personal representative or authorized agent within 30 days of the request. The physician may charge a handling fee of \$30 plus \$0.40/page. An indigent patient is authorized to receive one free copy of their medical record.
- HB2219:** Approved the following legislative rule changes for Osteopathic DO, PA and Resident Licensing:
- 1) Moral Character Forms no longer required;
 - 2) Criminal Background checks required at initial licensing;
- HB2509:** Prescribing Controlled Substances via telemedicine is prohibited with the following exemptions:
- 1) When providing treatment to and keeping records for minors

who are enrolled in a primary or secondary education program and diagnosed with intellectual or developmental disabilities, neurological disease, ADD, Autism or a traumatic brain injury according to guidelines established by APA, AACAP or AAP.

- HB2518:** Allows Pharmacists and Pharmacy Interns to administer Flu and HPV vaccines with a physician order.
- HB2628:** Board may discipline a licensee that knowingly fails to report an act of gross misconduct committed by another licensee of the Board;
- HB2631:** Currently, law requires complaints be resolved within twelve months, unless an agreed upon extension has been received in writing. However, this bill turned the 12 month clock off if the licensee or their counsel were the cause for the delay.
