Executive Director Report:

- 1) **Ad Hoc Committee/Regulatory Issues:** The WV Board of Osteopathic Medicine and the West Virginia Board of Medicine would like to establish an Ad Hoc Committee to review possible regulatory issues for 2019. Vice President Whittler appointed Jimmy Adams, D.O. and Diana Shepard, Executive Director to represent WVBOOM at committee meetings.

- 2) **Review of Need for Interview Process:** The Board had requested a review be conducted on the number of “clean” applications that have come before the Board for interview to determine if a face-to-face interview should still be required. No change in the current process can be made without a review of the legislative requirement. The new President will appoint a sub-committee to review that process with a report back to the Board at their January meeting. **(Adams/Muscari)**

- 3) **FSMB Committee/Workgroup Participation:** The Executive Director provided links to the FSMB website for Board Member Fellows to express interest in serving on committees and/or workgroups in 2019.

- 4) **2018 Auditor’s Conference:** Every board member is required to attend at least one Auditor’s Conference during their five year term. The 2018 conference will be held at the Charleston Marriott on November 27, 2018. Board members were advised to notify the Board Office by November 16, 2018, if they plan to attend this year’s conference. A registration fee of \$100 is required to cover lunch and breaks.

Reports From Supervising Physicians:

Reports were received from the Supervising Physicians for Jane Kelley-Tallman, D.O. and Brian McDevitt, D.O. as required in their Consent Orders. Both physicians were reported in compliance.

NEW BUSINESS:

Executive Director Report:

- 1) Ad Hoc Committee on Regulatory Issues: The meeting of the Ad Hoc Committee meeting with the West Virginia Board of Medicine scheduled for January 4, 2019, was postponed. The meeting will be rescheduled at a later date.

- 2) Osteopathic Growing Profession: An article in “The DO” reported the number of DO’s have more than tripled nationally since 1990. It also noted that 65% of all DO’s in active practice were under the age of 45 with women comprising 41% of the active practices.

- 3) Survey on PDMP Utilization: Marshall University is conducting a survey as part of their “WV SPF-RX Program” designed to examine perceptions, attitudes and knowledge about prescription drug misuse and related contributing factors in West Virginia. The Board supported this survey being made available on the Board Website to invite licensees to participate.

- 4) FSMB Annual Meeting Scholarships: The Board has received scholarship applications for the Voting Delegate and the Executive Director for the 2019 Annual Meeting of the FSMB being held in Fort Worth. A motion was made and unanimously carried to select Jimmy Adams, D.O. as the voting delegate for 2019 and Diana Shepard, CMBE, to attend as the Board Executive under the FSMB scholarships. Board Counsel will be attending with registration and expenses covered by the Board. **(Thymius/Jones)**

- 5) Post Audit Report – Chapter 30 Boards: The results of an audit of all Chapter 30 Boards from 2016 through 2018 was conducted by the Post Audit Division of the Legislative Auditors. This audit was performed to identify those Chapter 30 Boards who maintain more than 2 years of their annual budget in reserves. HB 2510 has been introduced to insure that when the special fund of any board accumulates to an amount which exceeds twice the annual budget or \$10,000 (whichever is greater) the State Treasurer is required to transfer the excess funds to the General Revenue Fund. Since the bill reflects the funds will be accounted for at the end of the fiscal year, and that is when most boards have just completed their license renewals to replenish their funds, the West Virginia Board of Osteopathic Medicine requests this sweeping of funds be conducted under a “cost accounting system” as opposed to the current “cash accounting system.

Legislative Issues:

- 1) Proposed changes to Telemedicine Statute:
Tom Susman, TSG, addressed the Board and explained the purpose of the draft bill being considered to allow for immediate administration of a controlled substance via via telemedicine to a hospital inpatient. The purpose of this bill is to provide coverage in an Intensive Care Unit through a telemedicine provider who is contracted with the hospital facility and has clinical privileges through the hospital credentialing program. A motion was made and passed with one negative vote. **(Thymius/Jones)**

- 2) Current Proposed Legislation:
The Board reviewed a list of several House and Senate Bills being proposed for healthcare issues. Other than the telemedicine bill referenced above, no action was recommended on any other currently proposed legislation.

The Board moved into Executive Session at 2:30 PM with the Executive Director and Board Counsel present. **(Adams/Thymius)**

The Board moved back into Public Session at 3:30 PM. **(Adams/Muscari)**

AOA Presentation:

Dr. Walker and Ms. Richards were invited to speak to the Board on the issue of AOA required internship for licensing or an option for 40 hours of Category 1A, AOA CME with at least 10 hours in OMT. Dr. Walker reported that West Virginia is one of three states still requiring an AOA internship for licensure now that the AOA and ACGME have begun the transition of AOA/ACGME accredited residency programs. West Virginia is the only state that requires AOA, CME prior to licensure if an AOA internship has not been approved through Resolution 42. This is becoming a disadvantage for osteopathic licensure in West Virginia.

Reports From Supervising Physicians:

Reports were received from the Supervising Physicians for Jane Kelley-Tallman, D.O., Brian McDevitt, D.O., John Tabit, D.O. and Jessica (Irvine) Wickline, D.O. as required in their Consent Orders and reported in compliance.

NEW BUSINESS:

Executive Director Report:

- 1) **2018 CME Audit Results:** The results of the 2018 CME Audit was presented. A 10% audit of the 475 license renewals reflected a 96% compliance rate. One physician did not have documentation of the required 16 AOA hours and a second physician did not respond to the audit at all. No motion made to open complaints.
- 2) **Board Funds Misdirected to BRIM:** A transfer of Board funds through the wrong interface between the licensing database software vendor and the WV State Treasurer's Office has resulted in an overpayment to BRIM of \$47,400. Several meetings were held with all transactions from March 2017 being reviewed to determine the final figure to be reimbursed to the Board. The Executive Director hopes to have the funds re-directed to the Board's account before the end of this fiscal year.

Legislative Issues:

- 1) **AOA Internship Requirement:**
The West Virginia Board of Osteopathic Medicine will continue to review this issue and will work with the West Virginia Osteopathic Medical Association if regulatory changes are required prior to the full implementation of the AOA/ACGME transition in 2020.
- 2) **SB668 and Required Changes to PA Statute:**
The Board's Legal Counsel is working with the West Virginia Board of Medicine in drafting legislative rule changes with the passing of SB 668. If the collaborating physician or the physician assistant has been credentialed by a hospital or ambulatory surgical facility as a condition of employment and the scope of practice has been reviewed and approved by the governing body of the health care facility or the ambulatory surgical facility, that contract can replace the Practice Agreement.
- 3) **SB199 Requires Revisions to 24 CSR 01:**
Legal Counsel has already submitted legislative rule changes for 24 CSR 01 to delete patient testimonials from the list of possible disciplinary actions in advertising.
- 4) **SB396 Requiring No Application Fee for Low Income Applicants:**
Board Counsel is working on rules to establish a process by which low income determinations can be made for osteopathic applicants.

Updates were also provided on additional medical legislation that was approved or vetoed by the Governor in 2019.

The Board recessed from 10:30 AM until 10:40 AM.

The Board moved into Executive Session at 10:40 AM with the Executive Director and Board Counsel present.

ADJOURNMENT: The meeting was adjourned at 11:30 AM. (**Muscari/Rowe**)

NOTICE TO STATE MEDICAL BOARDS REGARDING ALARMING TRENDS IN PRESCRIBING

Three business arrangements are being implemented throughout the United States that may violate federal and state anti-kickback and fraud laws, as well as violate provisions related to prescribing as set forth in your state's medical practice act. They are as follows:

- 1) Compounding pharmacies are hiring marketing firms to approach medical practices and/or their staff with proposals to offer "bonuses" if they prescribe through that pharmacy. However, the prescriptions are routed through call centers and these "bonuses" may be classified as kickbacks under federal and state laws.

- 2) These same call centers are being used to route prescriptions to specific pharmacies that have contracts with the patient's insurer. Drug combinations may be altered at the pharmacy to find an insurer who will reimburse for that combination. Modifications are done outside the purview of the pharmacists and result in exorbitant reimbursements of thousands for what may have been sold for dollars at the local pharmacy. This is not in reference to approved formulary changes in hospital or institution-based pharmacies.

- 3) These deceptive business practices have also been found to change labels on medications in order to provide the originally prescribed medication using a label that results in maximum reimbursement from an insurer.

INTERSTATE MEDICAL LICENSURE COMPACT GOES LIVE!

WV Legislature passed the Interstate Medical Licensure Compact during their 2016 legislative session. The IMLC provides for an expedited license to practice in physician-selected member states within the Compact. Currently, 18 states have adopted the Compact Legislation. Please see the map to determine those states who have already passed the legislation and those who have introduced it in their 2017 state legislatures.

In June 2016, the Commission had hoped to have the expedited licensure process available on their website, IMLCC.org by January 2017. However, that date was delayed until April 3, 2017. A HRSA grant of \$250,000 has been awarded to aid in the development of this licensing process and Bylaws and Rules have been developed and approved by the Commission for this work.

All Commission meetings are public as it is an extension of all member state governments and it has received a great deal of interest from a variety of practice groups, corporations and healthcare institutions.

2017 LEGISLATIVE CHANGES AFFECTING OSTEOPATHIC PHYSICIANS & PA'S

The following is a list of some of the legislation passed during the 2017 Legislative Session which may affect your practice of Osteopathic Medicine:

SB 4: Changes §30-14-12b to allow Osteopathic physician in good standing to donate medical care of the indigent and needy under an arrangement with a clinic organized to provide free care. The services may be provided in a clinic setting or in the physician's office.

SB 339: Establishes two coalitions for responsible pain management and diabetes management respectively. Physician members will be appointed by the President of Senate and Speaker of House in consultation with co-chairs of Joint Committee on Health.
& SB 360:

SB 347: Would have established collaborative agreements between PA's and physicians, eliminated the need for NCCPA certification for licensure, changed the reimbursement rate for PA's and given signature authority for death certificates and DNR's. Bill was vetoed by the Governor.

SB 578: Requires physicians to provide a requested copy of the medical record to the patient, their personal representative or authorized agent within 30 days of the request. The physician may charge a handling fee of \$30 plus \$0.40/page. An indigent patient is authorized to receive one free copy of their medical record.

HB2219: Approved the following legislative rule changes for Osteopathic DO, PA and Resident Licensing:

- 1) Moral Character Forms no longer required;
- 2) Criminal Background checks required at initial licensing;

HB2509: Prescribing Controlled Substances via telemedicine is prohibited with the following exemptions:

- 1) When providing treatment to and keeping records for minors

who are enrolled in a primary or secondary education program and diagnosed with intellectual or developmental disabilities, neurological disease, ADD, Autism or a traumatic brain injury according to guidelines established by APA, AACAP or AAP.

- HB2518:** Allows Pharmacists and Pharmacy Interns to administer Flu and HPV vaccines with a physician order.
- HB2628:** Board may discipline a licensee that knowingly fails to report an act of gross misconduct committed by another licensee of the Board;
- HB2631:** Currently, law requires complaints be resolved within twelve months, unless an agreed upon extension has been received in writing. However, this bill turned the 12 month clock off if the licensee or their counsel were the cause for the delay.

WEST VIRGINIA Medical Professionals HEALTH PROGRAM

At the printing of this newsletter, plans have been confirmed for the Fifth Annual Appalachian Addiction & Prescription Drug Abuse Conference. This year's conference will be held in Charleston on October 19-22, 2017, and promises to provide another superb list of speakers including DHHR Secretary Bill Crouch, Public Health Commissioner Rahul Gupta, M.D., Director of NIH and second White House Drug Chief Robert DuPont, M.D. and WV Chief Medical Examiner Allen Mock, M.D. and many other state and national experts including the Deans of all three medical schools.

The West Virginia Medical Professionals Health Program (WVMPHO) has been operational for 7+ years. It continues to be the only physician health program recognized by both West Virginia Licensing Boards. To date, there have been 169 participants of whom 80 continue under an agreement impacting 32 hospitals/medical schools and many other areas of organized medicine. WVMPHP has served an excess of 100 others who have sought assistance and guidance relative to the services provided by the WVMPHP. Less than 1/3 of signed participants were referred by their licensure boards. The vast majority have voluntarily sought assistance and guidance.

Of those who have completed the initial phase of treatment and are under contract; 90% have remained abstinent, licensed and are practicing safely. THAT FIGURE IS ASTOUNDING IN THIS REALM OF TREATMENT! 22% of current participants are medical students and/or residents reflecting on the effectiveness of early intervention and salvaging careers, individuals and families.

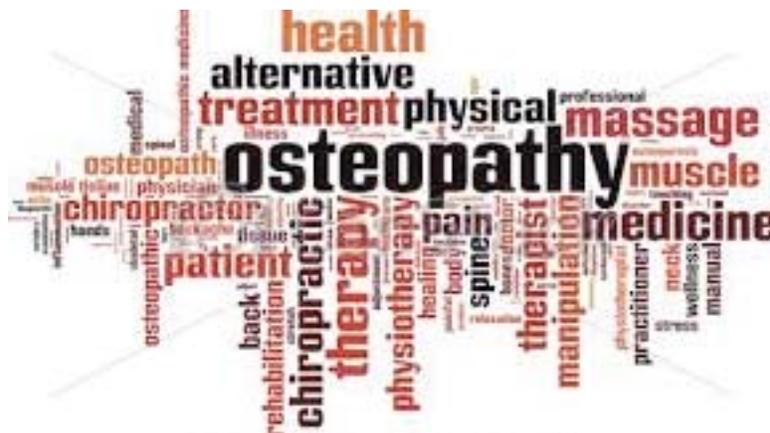

The WV Medical Health Professionals Program and its board members continue active involvement with organized medicine, legislative committees, hospitals, credentialing bodies, malpractice carriers, insurance payers and other venues where the experience and expertise is sought and beneficial. As the WV Board of Osteopathic Medicine continues to support WVMPHP through a portion of its licensing fees, we ask that others within the healthcare community who have benefited from this program, pledge their support to WVMPHP for the benefit of our healthcare providers and to the benefit of West Virginia and the public we serve.

LEGISLATIVE RULE CHANGES AFFECTING 2018 PHYSICIAN ASSISTANT RENEWALS

The 2017 WV Legislature, during the extended regular session, approved SB1014 and the Governor signed the bill with an effective date of July 1, 2017. Legislative Rules have been introduced and entered for public comment to enforce SB 1014. Please check our website, www.wvbdosteop.org for all legislative updates. The Physician Assistant rule will be identified under Series 2.

Changes affecting the licensing and practice of a Physician Assistant in West Virginia include the following:

- 1) The term “supervising” has been changed to “collaborative” in every aspect of the rule;
- 2) Physician Assistants, currently holding a license, registration or certification to practice in another jurisdiction may apply for a Volunteer License. This will allow them to volunteer, without compensation, for a charitable function for a period not to exceed ten days by submitting a board-approved application at least ten days in advance of the function. There is no application fee and only proof of license in one state is required;
- 3) NCCPA certification is only required at time of initial application for licensure. It will not be required at renewal time, however, if re-certification is obtained, it will meet the CME requirements of 100 hours for license renewal;
- 4) Physician Assistant has signature authority for the following, if included in their Practice Agreement:
 - a) Physician order for life sustaining treatment;
 - b) Physician order for scope of treatment;
 - c) DNR forms;
 - d) Disability medical evaluations/certifications for persons with disabilities in support of hunting or fishing permits;
 - e) Utility company forms /certifications requiring maintenance of utilities regardless of ability to pay.

5) Review sessions between collaborating physician and the physician assistant must be conducted and documented monthly for six months for a physician assistant that has practiced for less than one year. After that initial six month period, the regularity of the reviews should be outlined in the Practice Agreement.

- 6) Changes to prescriptive authority for physician assistants are as follows:
- a) Schedule III medications are limited to a 30 day supply without refill;
 - b) If using electronic prescription system, the PA prescription must include name, title, practice location, telephone number, signature, license number, the collaborating physician's name, business address and business telephone number and any other information required by state and federal law.
 - c) Physician assistants may administer local anesthetics;
 - d) Physician assistants granted prescriptive privileges through their Practice Agreement may accept professional samples and may apply to be registered as a controlled substance dispensing practitioner as set forth in 24 CSR 7;
 - e) Physician Assistant **MUST** complete the mandatory 3 hour Board Approved CME on best practice prescribing prior to receiving prescriptive authority;
- 7) Physician Assistants can independently bill for services rendered.

If you have questions or would like more information about the Code changes, please contact our office, (304) 558-6095.

LICENSES DUE TO EXPIRE MARCH 31, 2017

<i>Total Number of Physicians Licensed in West Virginia</i>	<i>1,261</i>

LICENSING REQUIREMENTS FOR OSTEOPATHIC RESIDENTS

Whether you are in an allopathic or osteopathic post graduate program, if you were a graduate of an Osteopathic Medical School, received a D.O. degree and are participating in a residency program anywhere in West Virginia, you **MUST** have an Educational Permit. If, after the first year, you decide you would rather have a full, unrestricted license, you may apply. However, if you do not want or need a full license, you **MUST** renew your Educational Permit every year while in training.

All Educational Permits expire on June 30th like a regular license and **MUST** be renewed annually. There have been recent situations when the resident did not renew the ED Permit nor acquire a full license before July 1st and exposed themselves to possible disciplinary action by the WV Board of Osteopathic Medicine for practicing without a license. Once this disciplinary action is taken, that resident will have to report that action in every state thereafter in which they may apply for a license.

If you are a resident, intern or a licensed D.O. responsible for post graduate training, please make sure everyone understands the importance of this process. It is **NOT** required by the West Virginia Board of Medicine and, if your allopathic colleagues are telling you it is not required, that may be true for them but not for you as an Osteopath.

The Educational Permit applications for renewal can be found on our website, www.wvbdosteo.org, under “Resident Applications.” If you are still in a training program and have applied for a full license, but have not had your interview for licensure prior to June 1, 2017, you probably should apply for an Educational Permit Renewal to cover your practice of medicine after July 1st.

CHANGES TO DEA REGISTRATION RENEWAL PROCESS BEGINNING JANUARY 1, 2017

The DEA has announced some critical changes in its registration renewal process that all prescribing health providers should be made aware and take heed.

- 1) Beginning January 1, 2017, the DEA will send only one single renewal notice to each registrant stating this his/her DEA registration is set to expire. The notice will be sent to the “mail to” address on file with the agency, will be mailed about 65 days in advance of the scheduled expiration date and **NO ADDITIONAL REMINDERS** will be sent.
- 2) In addition, a current DEA registrant **WILL NOT BE ABLE TO RENEW** their DEA after the expiration date. They will be required to go back to square one to apply for a new DEA registration with a new DEA number. The original registration **WILL NOT** be reinstated.
- 3) Also, paper renewals received after the expiration date will not be accepted. If the agency fails to receive a registrant’s paper renewal and supporting material by the expiration date, they will be returned, and the registrant will need to submit an application for a new DEA registration.

What this will mean for prescriptions written on an expired DEA is they will not be honored and patients will not be able to receive their medications, including an emergency 72-hour supply. Then the prescription’s validity comes into question, and could create unanticipated fallout for state prescription drug monitoring programs (CSMP) should reports from pharmacies that make the error and fill the prescriptions reach the CSMP.

IMPLEMENTATION OF UNIFORM APPLICATION

The West Virginia Board of Osteopathic Medicine has been working with FSMB and Albertson Consulting, Inc. to make the FSMB’s Uniform Application (U/A) available to any and all applicants wishing to use the U/A. The go-live date is scheduled for Monday, January 9, 2017. Any new applicant after that date will be given the option to complete the U/A and have it stored at the Federation of State Medical Boards office in Euless, TX or just complete the required West Virginia application for licensure. If you have questions, please call the Board’s Licensure Analyst, Melanie Horn at (304) 558-6095.

WEST VIRGINIA MEDICAL PROFESSIONALS
HEALTH PROGRAM

The WV Medical Professionals Health Program was founded in WV in 2007 and formed by a number of very passionate, influential physicians and organizations representing a collaborative medical community to ensure healthcare professionals had their own confidential resource when they experienced health problems. In March of 2007, Senate Bill 573 was passed as enabling legislation providing a safe avenue for assistance and guidance in a confidential and respectful manner. Since that time, WVMPHP has assisted over 700 participants and callers with some of the results listed in the above testimonials and with a 90% referral success rate.

WVMPHP...hopes to serve Physicians and Physicians Assistants for years to come!

If you, or someone you know who is a physician, a physician assistant, a medical student or a resident needs help in fighting an addiction, PLEASE call:
