The Honorable Jim Justice  
Governor, State of West Virginia  
State Capitol Building  
1900 Kanawha Boulevard, East  
Charleston, WV 25305

Dear Governor Justice:

On behalf of the West Virginia State Board of Registration for Professional Engineers, we are pleased to provide you with our FY2024 Annual Report. This report is hereby submitted in compliance with mandates of the statutory requirements of W.Va. Code §30-1-12(b).

In order to safeguard life, health and property and to promote the public welfare, the practice of engineering in this state is declared to be subject to regulation in the public interest. The WV PE Board is charged with the administration and enforcement of the provisions of W.Va. Code §30-13 governing the practice of professional engineering. Enclosed is the Board's certified Annual Report covering fiscal years 2023-2024, including required documentation of agendas, minutes, receipts, disbursements, rosters and a listing of filed complaints. As always, all information contained within this report, as well as other relevant applicant and examinee information, is accessible 24 hours a day, 7 days a week, via our website at [www.wvpebd.gov](http://www.wvpebd.gov).

We are pleased to report that during FY2024, pursuant to W.Va. Code §5A-3-3(9) and 148CSR, our Board completed a Purchasing Division Inspection and Review and received a flawless evaluation with no material findings. In addition, the WV Performance Review Act outlined in W.Va. Code §4-10, required the Performance Evaluation and Research Division (PERD) to conduct a Regulatory Board Review of our agency as well. During the October 2024 legislative interims, PERD staff presented a successful outcome of their review to the Joint Committee on Government Organization. Our Board appreciates the time and effort of both comprehensive reviews and remains committed to continued compliance with legislative standards.

In closing, please know the WV State Board of Registration for Professional Engineers and their staff will continue to strive to provide superior service to the engineering students, the engineering professionals, and the citizens of our great state! # **RECEIPTS & DISBURSEMENTS**

The West Virginia Board of Registration for Professional Engineers is self-supporting, and operates on the collection of license application fees and renewals rather than appropriated funds. Receipts collected by the WV PE Board are deposited into a Special Revenue Fund at the Office of the Treasurer, and the expenses of the Board are disbursed from this fund. A statement of the total receipts and disbursements of the Board for FY2023 and FY2024 are shown on the following pages. All civil penalties (fines) paid as a result of a disciplinary action are not retained by the Board but rather deposited directly into the General Fund for the State of West Virginia.

All revenue received by the WV State Board of Registration for Professional Engineers is generated in accordance with WV Engineering Law (WV Code Chapter 30-13 and Legislative Rule 7-1-13.4) as outlined in the Fee Table provided below. Additional monies deposited by this agency that could appear in the revenue total from year to year include nominal FOIA copy charges and directly reimbursed Administrative Costs resulting from resolution of a complaint. Daily itemized deposits by revenue type are available for review and all expense disbursements are processed by Object Code in WVOASIS.

Board member Stevens and Ms. Rosier provided the Board with a recap of the NCEES Northeast Zone meeting held in Washington, D.C. They both attended along with staff member Coleman. Ms. Rosier and Mrs. Stevens updated the Board on the most recent activity with the UK Mutual Recognition Agreement and the ceremonial signing that will take place on Tuesday, August 13, during the NCEES annual meeting in Chicago. Ms.

Rosier also provided an update on the NCEES MBA Committee activity, as well as the MBA Forum that she led at the Zone meeting. Mrs. Stevens provided an update on her first-time attendee experience, as well as a recap of the Engineers Forum that she participated in at the Zone meeting.

The Board reviewed the 2024 NCEES Annual Meeting agenda and supporting documentation, noting the deadline for NCEES delegates to register and book travel is June 30<sup>th</sup>. She requested all those planning to attend to respond to the latest NCEES registration email, and book travel, as soon as possible.

Ms. Rosier presented recent information received from NCEES and the Alliance for Responsible Professional Licensing (ARPL) regarding the current legislative landscape and licensure advocacy updates. In addition, the Board reviewed the NCEES News Release regarding the official launch of the NCEES Foundation and the six board members appointed to oversee its activities. The NCEES Foundation will be the philanthropic arm of the National Council of Examiners for Engineering and Surveying. It will be committed to supporting programs that further the NCEES mission to advance licensure for engineers and surveyors in order to safeguard the health, safety, and welfare of the public.

Ms. Rosier continued the NCEES discussions noting the minimal exam and CBT administration updates for the upcoming year and that NCEES Committee appointments for 2024-2025 have yet to be announced. She also reminded Board members of the upcoming State of the Council webinars scheduled for the remainder of 2024, which would also be posted to the Member Resources section of the NCEES website if any Board member is unable to attend the live sessions.

Ms. Rosier reviewed the 2024 WV Legislative Calendar with the Board and shared there were no agency rule revisions or submissions planned for the upcoming year. Ms. Rosier also provided an update to Board members regarding the recent requests and responses provided to the PERD Legislative Research Analyst conducting our agency Regulatory Board Review.

Ms. Rosier shared the correspondence from Mr. Kenneth Tyree, WV State Fire Marshal, regarding the implementation of a new State Fire Code, which has an effective date of May 1, 2024. Per Mr. Tyree, there are several significant changes that will affect the design, construction, remodel/renovation/repair, fire protection system installation, and inspection of buildings. Ms. Rosier agreed to share this information with the engineering community by posting to our website home page Special Announcements, providing a link to the newly adopted State Fire Code on our website Resource tab, and to prepare an article to include in the Board's 2024 newsletter that will be sent to all active WV PEs, Retired PEs and engineering firms with a WV COA.

Ms. Rosier shared she had been contacted in late April by Emily Papadopoulos, Executive Director for the WV Board of Architects, to provide the latest revisions made to the draft Handbook for Building Code Officials. She indicated she had shared drafts with the Board of Surveyors, the Board of Landscape Architects and the State Fire Marshal's office and their Board was ready to move on with working with an editor to put in final print form for publication. The latest draft document was presented to the Board for review and

discussion. Due to a number of requests for clarifications specific to the FAQ, the Board was unable to confirm interest in moving forward with the project at this time and requested an additional meeting with the Board of Architects. Ms. Rosier will contact Ms. Papadopoulos to request a one-hour joint session during the PE Board's July Board meeting.

Ms. Rosier discussed plans regarding the Board's 2024 INTERchange newsletter. Ms. Rosier requested all newsletter topics be submitted before or at the Board's July 2024 meeting. Ms. Rosier also shared that staff member Coleman prepared an article regarding third-party licensing agents that will be published in the upcoming issue of NCEES's Licensure Exchange.

Ms. Rosier discussed the remaining dates on the Board's 2024 Calendar of Events, noting she now has a conflict with the September 17<sup>th</sup> Board meeting date. At her request, the Board agreed to move the September Board meeting up one week to September 10<sup>th</sup>. Ms. Rosier indicated she would immediately contact the WV Secretary of State's Office to make the necessary update on the required public meeting notice and she would also make the change on the Board's website.

Upon motion by Mrs. Stevens, seconded by Mr. Gates, the Board voted to adjourn the meeting at 1:58pm. The next Board meeting will be July 16, 2024, in Charleston. The Board members will be compensated one day per diem plus travel expenses.

## Celebrating a New Era!

The Taylor Swift-Barbie era is a time that has brought forth powerful and influential women who are challenging norms, breaking barriers, and shaping the cultural landscape. During this unique period, strong female voices have emerged that resonate with millions of young people worldwide. Whether it's through the music of country-turned-pop star Taylor Swift or the enduring appeal of the doll named Barbie, a new generation of leaders are on the scene, inspiring and empowering others with their creativity, confidence, and authenticity.

Here in our small corner of the world, we are celebrating a new era as well. I am thrilled to be here to witness our first female engineer being appointed to the West Virginia State Board of Registration for Professional Engineers. Governor Jim Justice naming Mrs. Carol A. Stevens, PE, to the WV PE Board is a significant milestone in our agency's 102-year existence. I have known Carol for over 30 years and have served alongside her in a variety of professional engineering society roles. She is a small business owner, a leader in the engineering community, and brings a wealth of knowledge and expertise to the Board. A few weeks ago, we sat down for several hours for Board orientation and I immediately knew she would be a great fit. She is smart, observant and committed to fulfilling the duties of protecting the health, safety and welfare of the citizens of our state.

In addition, I just returned from the 2023 Annual Meeting of the National Council of Examiners for Engineers and Surveyors, where I witnessed NCEES Member Boards elect the second-ever female to the organization's highest office. Laura Sievers, PE, of Iowa, began her term as 2023-24 NCEES president at the conclusion of the organization's 102nd annual meeting, held August 15-18 in Boston, Massachusetts. Patty Mamola, PE, of Nevada, accepted the office of NCEES president in August 2014 and was the organization's first female president since its founding in 1920. The inclusion of female engineers on the Board of Directors at both our state and the national level sends a powerful message to the engineering community and beyond. It underscores the importance of diversity in leadership which can lead to more innovative solutions and better decision-making.

In closing, I hope these historic moments serve as an inspiration for aspiring female engineers who may have previously felt discouraged by the lack of representation at the highest levels of their profession and society in general. My own daughter is currently well into her senior year of high school, with aspirations of pursuing STEM studies in college. It is my sincere hope she will see a different classroom composition than I did 35 years ago. I had no female professors leading lectures in my engineering classrooms, not a single one at the undergraduate or graduate levels of two different universities. There were no females in leadership positions as Department Chairs, in the Dean's Office or higher. Years later, when I returned to my alma mater to serve as the first female professor in the civil engineering department, still the only other female staff in the building were the administrative assistants (some of whom, by the way, became my very dear and lifelong friends). I do not want that for my daughter. I want her to see female role models who are educating young minds and imparting their wisdom and knowledge to the next generation. I want her to recognize that with talent, determination and the right opportunities, women can (and do) rise to the top in traditionally male-dominated fields.

*I know the safer path for a woman is to be humble and modest, but we need to celebrate and know the glass ceilings will shatter as women help other women break through ... and I am here for it!*

## Board Updates

### HISTORIC MOMENT: FIRST FEMALE ENGINEER APPOINTED TO BOARD

The West Virginia State Board of Registration for Professional Engineers is pleased to announce a new appointment to the Board. Per a gubernatorial notification made by Governor Jim Justice on August 2, 2023, Mrs. Carol A. Stevens, PE, was appointed to her first term ending on June 30, 2026. Mrs. Stevens is filling a partial term, succeeding Mr. Bhajan Saluja whose final 3-term service expired on June 30, 2021.

As permitted per WV Code §30-13-4, Mr. Saluja continued to faithfully serve the Board for the last two years until the receipt of the Governor's notification that his successor had been named.

Carol A. Stevens, F.ASCE, earned a bachelor's degree in civil engineering from West Virginia University in 1984 and a master's of engineering degree in engineering science from The Pennsylvania State University (Harrisburg) in 1989. After working in the defense industry for four years, Mrs. Stevens began her career in design of building structures. She is currently president of CAS Structural Engineering, Inc., a structural consulting firm located in Alum Creek, WV and, is registered as a professional engineer in 6 states. In addition to new construction and renovation projects, she has been involved with restoration and preservation of a number of historic structures, including the West Virginia Capitol Building, the West Virginia Governor's Mansion and various historic structures in the area. Carol has also been a team member on several AIA award winning projects. An ASCE member since 1982, Carol has progressed through the local branch and state officer positions and also served as the Region 4 Governor for West Virginia.

Mrs. Stevens is a member of a number of other professional societies including, but not limited to, the National Society of Professional Engineers, the West Virginia Society of Professional Engineers, the American Concrete Institute, and the American Institute of Steel Construction. She also volunteers her time to serve on the West Virginia University Department of Civil and Environmental Engineering Advisory Committee, the West Virginia University Institute of Technology Department of Civil Engineering Advisory Committee, and as head judge of many ASCE Steel Bridge Competitions at the Virginias' Conference over the last few decades.

Mrs. Stevens resides in Lincoln County, in the Seventh Senatorial District, and lives in Alum Creek, West Virginia, with her husband Jeff.

### 2023-2024 BOARD LEADERSHIP ELECTION RESULTS

## Board Updates Continued

### REAPPOINTMENT OF GARTH THOMAS, JR, PE

The West Virginia State Board of Registration for Professional Engineers received a welcomed reappointment to the Board. Per a gubernatorial notification made by Governor Jim Justice on August 2, 2023, Mr. Garth E. Thomas, Jr, PE, was reappointed to his second full 5-year term ending on June 30, 2028.

Mr. Thomas was originally appointed on June 8, 2016 to succeed Dr. William Pierson who left a partial term, and then Garth received his first full 5-year appointment on August 29, 2018. Mr. Thomas is current serving in his third year as President of the Board. He had a long career as a faculty member, Department Chair of Chemical Engineering, and Associate Campus Provost at the West Virginia University Institute of Technology. In addition, he is a dedicated 20-year member of the NCEES Fundamentals of Engineering (FE) Exam Development Committee and has served on numerous national NCEES Committees during his 7-year tenure on the WV PE Board.

Mr. Thomas is from Kanawha County, in the Seventeenth Senatorial District, and lives in Charleston, West Virginia, with his wife Darlene.

### GONE BUT NOT FORGOTTEN ...

It is with great sadness that we share the passing of our first Board Investigator, our dear friend, Don Johnson, PE. Don joined our Board staff in 2003, and is credited with developing and growing our first true Enforcement Program into the success that it is today. He was a dedicated staff member with exemplary work ethic and everyone he encountered, no matter what side of the Board room table you may have been on, would attest to him being honest, sincere, thoughtful and simply a true gentleman.

Don earned his degree in Mechanical Engineering from the University of Alabama, and he was an avid supporter through the years (this is where he would have said "Roll Tide!") He had a long career with Monsanto/Flexsys and, after retiring, he went back to work for the WV Board of Professional Engineers for 11 years. Following his last retirement from state government, he could be found working alongside his wife in her pottery studio and gardens.

Don was 77 years old when he passed away on January 25, 2023 at home with his family after a long battle with Dementia and Parkinson's disease. He is dearly missed.

## RUBENSTEIN HONORED FOR 4 DECADES OF PUBLIC SERVICE

In the realm of public service, commitment and dedication often stand as the cornerstones of a successful career. It is with immense pride and gratitude that we celebrate the remarkable four-decade journey of Sue Rubenstein serving our state government.

Sue has been the backbone of efficient operations at the Board office for the last 16 years, and one of the unsung heroes behind the scenes. However, her journey in public service began over 40 years ago in Morgantown. Sue served as the Assistant to the Vice President for Student Affairs and Director of New Student Orientation Programs at West Virginia University from 1982 to 1990. Her family then moved to Charleston and she accepted the position as Bar Admissions Administrator for the Board of Law Examiners and served in that capacity from 1991 to 2007.

To mark this momentous occasion, Sue was invited to the state's annual Public Service Recognition Week celebration. Unable to attend this event, the Board recognized Sue at their May 2023 Board meeting where she was presented with flowers, a lapel pin, a formal certificate from Governor Jim Justice and sweet treats from a favorite local bakery.

In a world where public service often goes unnoticed or underappreciated, it is crucial to take a moment to celebrate individuals like Sue who have dedicated their entire career to making our state a better place. Congratulations to Sue Rubenstein on 40 years of outstanding dedication to our state and its people!

# Board Disciplinary Actions

**Disclaimer:** Every effort has been made to ensure that the enforcement information is correct; however this information should not be relied upon without verification from the Board office or website. It should be noted that the names of companies and individuals listed may be similar to the names of parties who have not had enforcement actions taken against them. Should you have any specific questions regarding the disciplinary actions noted below, please contact the Board office.

In meeting its mission of safeguarding life, health and property, and to promote the public welfare, the WV Board actively enforces the statutes and rules that fall within its jurisdiction. Below is a summary of formal complaints that resulted in disciplinary action since the 2022 newsletter. Numerous other investigations were conducted, some resulting in formal complaints which are still pending; some dismissed because the charges were unsubstantiated or considered trivial; and some closed after acceptable corrective action or warning.

Disciplinary actions can be either a result of a formal hearing resulting in a Board Order or settled informally resulting in a Consent Order. These orders are public records. If you are interested in knowing more about the nature of the complaint, you may request a copy pursuant to the State's Freedom of Information Act. All Orders are posted on the Board website.

All civil penalties are deposited in the state's general fund. Administrative costs are made payable to the WV PE Board and are retained by the Board to offset costs incurred in the investigation and complaint resolution efforts. Administrative costs may be waived if the complaint is resolved with a minimum of expense.

# Lessons Learned: A Cautionary Tale For App-Based Engineering Work

## COUNSEL'S COLUMN

MS. DEBRA HAMILTON, RETIRED BOARD COUNSEL

*Ms. Debra Hamilton retired on June 30, 2018. Debra had been practicing law for nearly 40 years and spent over 20 years in state government as counsel to the WV Legislature in the 1980's and then the last 16 years of her career as Managing Deputy Attorney General as well as counsel to the WV PE Board. However, she emerged from retirement in recent months to assist the Board due to an unexpected absence of her successor. The Board would like to sincerely thank Debra for stepping up and stepping in without question or hesitation. With the Board's current counsel now back in good health and back in the office, we again bid farewell to this cherished member of our team so she may return to her retirement adventures.*

A recent Board-initiated complaint was brought against an engineering design firm that is a national provider of architectural, engineering and consulting services. The complaint was initiated in a common way. The Board's investigator and in-house counsel was reviewing drawings, which had been uploaded to a publicly accessible plan room, and saw a set of drawings that indicated they were "ISSUED FOR BID / PERMIT" and had not been signed and sealed.

After presentation to the Board at a regular meeting, a complaint was filed and served upon the Respondent. The firm was represented in this matter by their in-house counsel. Communications between the attorneys ensued, and a Verified Response to the Complaint was received. The following information comes from that response.

### The Issue

Respondent is a growing company that serves clients in all 50 states, the District of Columbia, and Puerto Rico. Understandably, the firm set out to zealously defend against the allegations set forth in the Complaint. After describing their scope of work for the West Virginia project in question, its counsel proceeded to explain that the Client's standard operating procedure for this and other projects is to collaborate on work-in-progress with those doing the professional work as facilitated through a real estate management application, also referred to as an asset management system.

The firm went on to explain that these work-in-progress design documents "were accessible to a general contractor ... through no control of Respondent." Unbeknownst to Respondent, the contractor uploaded these work-in-progress documents to a public plan room, making them available for bidding purposes to any entity

subscribing to this service. The effect being that undated, unsigned, and unsealed plans became available to the public.

### The Response

During the Respondent's internal investigation, their counsel asked the firm who was the expeditor on the project to assist with determining what had occurred, stating Respondent was unfamiliar with the bidding process. It was confirmed that all final documents had been properly signed, sealed, and dated. "Respondent was not responsible for submitting any request for proposals with general contractors or subcontractors and did not publicly post any work-in-progress or final plans for bidding purposes."

The Board's counsel and the Respondent's counsel had several communications regarding the matter, culminating in an informal conference before the Board at a regularly scheduled Board meeting. The Respondent's counsel was accompanied by two professional engineers who had worked on the project in question. They answered many of the questions that had been propounded by Board counsel during discussions of the complaint, as well as many questions asked by the Board, such as:

- Why had the Client's template not been modified or redacted so as to make it clear the documents were a work-in-progress?
- Why weren't questions asked and precautions taken regarding the security of the platform to prevent unfinished work product from being accessed, utilized, uploaded, etc., by a third-party?
- How do you plan to keep similar situations from occurring in the future?

The Respondent's representatives addressed the various questions and also detailed the best practices that it has instituted to avoid something like this from ever happening again. Some of the precautions undertaken include the following:

All issued documents, either hard copy or electronic, that are intended for preliminary review and/or reference shall meet the following standards.

- Remove any reference to "permit, bid, construction, as-built, or record" from the cover sheet, title block, drawing index, etc.
- Apply Watermark to Seal Box and add submission notes to the Title Block indicating one of the following:
  - Preliminary
    - Not for Construction
  - Progress Drawings
    - Not for Construction
  - Client Review
    - For Review Purposes Only

## A Learning Opportunity

When Ms. Hamilton (the Board's former counsel from the Attorney General's Office) agreed to return from retirement to assist the Board with interim duties, she had been asked to consider contributing to the upcoming newsletter. Even with her years of experience with the Board, she opined that in her experience this was an unusual, if not unique, set of facts that could provide a learning opportunity for the engineering community. She inquired whether Respondent would be amenable to collaboration on an article to educate the engineering community about the document control problems that prompted this complaint. The Respondent agreed to collaborate and has contributed to this article.

It is unclear the extent to which engineering firms are now being requested or required to work through the client's asset management system. The Respondent provided the following estimate of the number of their clients requesting or requiring usage of an outside-controlled asset management system that houses or may house design work-in-progress for communicative, conceptual, presentative, or rendering purposes:

- Buildings - 90%
- Federal - 0%
- Earth Sciences - 20%
- Transportation - 0%

## Key Takeaway

Given this complaint is now resolved, the Board thought it would be of benefit to the engineering community to become aware of such pitfalls as you steer clear of or work through the various challenges brought on by technological changes, especially as we enter the age of advanced artificial intelligence.

It is our hope that the situation presented here, and the changes made in the firm's standard operating procedures provide food for thought and possibly upgrades to your own best practices. The key take-away here is if your drawings are not ready for bid or are not final, something should appear on the face of all documents to indicate the status of the document in every instance where others outside your office can view work-in-progress. Otherwise, the security of the documents is not assured.

Remember, as Stevie Wonder might say, until they're "signed, sealed, delivered, they're yours," and the West Virginia Board will hold YOU responsible.

# PE / COA Renewal Updates

## UPCOMING WV COA RENEWAL REMINDER

**It's time to renew your firm Certificate of Authorization!** All firms in possession of an active WV COA will be required to be renewed by December 31, 2023. As outlined in WV Engineering Law, our agency is required to send notification at least 30 days prior to the expiration of a license, meaning no later than December 1st of odd numbered years for COAs and December 1st of even numbered years for PEs and Retired PEs. Renewal notifications are typically mailed in mid-late November and the WV State Treasurer's Office activates our online license renewal system at the same time. If you have an active COA, renewal instructions were enclosed with this newsletter and a live COA renewal link is posted on our website as well. A number of courtesy email notifications will also be sent to the record email address(es) throughout the renewal season until successfully renewed.

If you have any questions regarding the COA renewal process, please do not hesitate to contact Tiffany Coleman as she handles all COA matters for the WV PE Board. You may email her at [tiffany@wvpebd.gov](mailto:tiffany@wvpebd.gov) or call 304-558-3554.

## CBT EXAM TRANSITION COMPLETE!

As of 2024, all NCEES FE and PE exams will be transitioned to Computer-Based Testing (CBT). This CBT conversion process began with the FE exam in 2011 and will end with the PE Structural Exams in the fall of 2023. Some CBT exams are administered year-round. NCEES constructs these exams using a linear-on-the-fly (LOFT) algorithm. This means that all examinees for a particular exam are required to answer the same number of questions in the same topics; however, no examinees will have the same set of questions. The algorithm will assemble a unique exam within the same specification framework (i.e., the same number of questions per topic area) and the same relative level of difficulty. Other CBT exams that have a smaller examinee population use a different high-stakes testing model and are administered on a single day each year. All examinees taking these exams receive the same questions. The question formats used on both types of exams are the same, independent of the statistical model employed.

## NEW EXAM SPECIFICATIONS & STANDARDS

The Principles and Practice of Engineering (PE) exam tests for a minimum level of competency in a particular engineering discipline. It is designed for engineers who have gained a minimum of four years' of post-college work experience in their chosen engineering discipline.

For the most up-to-date exam information, including exam specifications and standards, as well as the relevant exam schedules, please visit the NCEES website and select your engineering discipline at [ncees.org/engineering/pe](https://ncees.org/engineering/pe). Once registered with NCEES and approved by their State Board, examinees may reserve their seats at a Pearson VUE test center for NCEES exams.

**Below is a list of the most recent PE Exam Updates published by NCEES for the Fall of 2023 and the Spring of 2024:**

## ! Red Flags

### Watch out for these issues:

- Architectural sheets sealed by an engineer
- Engineering sheets sealed by an architect
- Plans sealed by an unlicensed person, architect or engineer
- Plans sealed by an engineer of an unauthorized firm (one without a COA)
- Incomplete documents sealed without a disclaimer
- Plans that have not been sealed, signed (dated) by the licensee(s)
- Prototypical, standard plans that do not bear the seal of the WV licensee and disclaimer
- Seals that appear to be cut and pasted
- Contact person is not the licensee or it is difficult to contact the licensee
- Plans, details, letters, reports, etc. do not appear to apply to the project
- Plans have numerous or serious code violations
- Non-dated revisions
- Revisions or changes missing seal, signature (date)
- Plans which do not list the name of the architect or engineer involved and the name of his/her firm.

## ? What to do?

- Question the professional as to circumstances and qualifications
- Get the issue corrected
- Reject the documents
- Contact the appropriate licensing board
- File a complaint with the appropriate licensing board

## e Engineering Addendum:

### Are the services of a registered professional engineer required for single family residential structures?

Single family residences do not normally require the design services of professional (structural) engineers except for some large custom designed homes where the owner requests the services or the spans are too large for typical code-specified framing to work. Generally the only times a structural engineer will become involved in a single family residence are as follows:

- Where there is a problem with the foundation or framing of the house, such as storm damage, soil movements, or unusual deflections and damages in the architectural finishes.
- When an existing house is being sold and the mortgage company is looking for someone to identify and describe the various structural movements and damages that have occurred in the structure, as well as provide some recommendations of what should be done to eliminate the problems.
- When the design of the house involves a structural system which is outside of the typical structural framing and foundation systems specified in the residential building code or when the building code requires engineering services.

## § Relevant Codes

### What is the current building code reference?

Neither board is responsible for regulating or enforcing building code compliance. Interested parties should contact the WV State Fire Marshal or their local code official for details.

# Introduction

The licensing of Professional Engineers began in the State of Wyoming in 1907. The West Virginia State Board of Registration for Professional Engineers (WV PE Board) was formed to oversee the licensing of engineers in West Virginia in 1921. Article 13 – the part of the professional licensing chapter of the code (Chapter 30) that regulates Professional Engineers – was first enacted in 1992. The statutes in W.Va. Code 30-13-1 et seq. and Series 7 of the Code of State Rules are the primary components of what is referred to as “West Virginia Engineering Law.”

Laws requiring professional licensure and regulating the practice of that profession are enacted under the police powers of the State. The primary purpose is to protect the public. Through its statutes and rules, the WV PE Board works to safeguard life, health and property and promote the public welfare. This is done, in part, by requiring professional engineers to meet specified minimum standards, follow certain procedures, and practice in accordance with their rules of professional responsibility.

Those licensure standards, and the procedures and rules that govern those who have been granted the privilege to practice engineering in West Virginia, can be found in these pages. It is hoped that the information provided here helps you understand the substantive and procedural aspects of West Virginia Engineering Law. The staff and its counsel are always available in the event you need more information or have questions regarding the Board’s implementation and application of West Virginia Engineering Law.

The Board and staff work diligently to carry out our responsibilities to the public, the State of West Virginia, and to the professional engineers licensed in West Virginia. The more that these entities know, understand and comply with West Virginia Engineering Law, the easier our job will be, and we can all work together to ensure that West Virginia’s professional engineers are providing good service to the State and its people.

## CHANGES TO STATUTE OR RULES AFTER 2022:

---

*Please be advised this booklet contains only legislative action prior to August 2022. It is unpredictable when the West Virginia Legislature may consider and possibly pass legislation amending Article 13, and there is always the possibility that the Board may choose to seek statutory and/or or legislative rule changes through the legislative process in future years. The Board, on its website, will attempt to keep the engineering community and citizens of West Virginia apprised of legislative developments and will always post legislation amending Article 13 that is enacted into law. In addition, any proposed legislative rule filing will be posted for comment on the Board’s website at [www.wvpabd.gov](http://www.wvpabd.gov) and on the WV Secretary of State’s website at [www.sos.wv.gov](http://www.sos.wv.gov).*

In lieu of information required on the board's application forms, the board may accept the verified information contained in a valid council record issued by the national council of examiners for engineering and surveying for professional engineer applicants.

The board shall set fees for all applicants for registration and certification by promulgating legislative rules under the provisions of article three, chapter twenty-nine-a of this code.

Fees of unsuccessful applicants and the fees of applicants who have been refused registration or certification for any purpose shall be retained by the board to cover administrative costs.

### **§30-13-15. Examinations.**

- (a) The board has the power to establish, by legislative rule, the requirements for examination for registration as a professional engineer and certification as an engineer intern including, but not limited to, the following criteria: subject matter, prerequisites for testing, passing score, examination sites and schedules, entities authorized to administer examinations, prerequisites for testing and form of testing, including examination by electronic or other means.
- (b) The board's rules for examination shall include the following minimum requirements:

- (d) A candidate for registration as a professional engineer who fails the examination of the principles and practice of engineering may retake the examination one time upon payment of the fee established by the board. In the event of a second failure, the candidate may not repeat the examination unless the examinee demonstrates to the board that he or she has pursued additional instruction or training to correct the candidate's deficit areas of knowledge.

In the case of a registrant of another state using a temporary permit issued by this state, the registrant shall use the state of permanent registration seal and shall affix his or her signature and temporary permit number to all work. In the case of a registrant checking the work of an out-of-state registrant, the state registrant shall completely check and have complete dominion and control of the design. The complete dominion and control includes possession of the sealed and signed reproducible construction drawings with complete signed and sealed design calculations indicating all changes in design.

- (d) The board shall issue to any applicant who, in the opinion of the board, has met the requirements of this article, an enrollment card as engineer intern, which indicates that his or her name has been recorded in the board office. The engineer intern enrollment card does not authorize the holder to practice as a professional engineer. ### §7-2-1. General.

- 1.1. **Scope.** — This rule specifies the procedure for Resolution of complaints relating to the practice of engineering in this State pursuant to the authority granted to the West Virginia State Board of Registration for Professional Engineers by W. Va. Code §30-13-1 et seq.
- 1.2. **Authority.** — W. Va. Code §30-13-1 et seq. and §30-1-1 et seq.
- 1.3. **Filing Date.** — June 22, 2004.
- 1.4. **Effective Date.** — July 23, 2004.

### §7-2-2. Complaints.

#### 2.1. Submission.

- (a) **Form.** The form of complaints shall be determined by the Board. All complaints shall be in writing and verified by the complainant before a notary public.
- (b) **Who may submit.** A complaint may be submitted by any natural person or legal entity, any registered engineer, or any firm holding a certificate of authorization. A complaint may be submitted by the Board, a member of the Board staff, with or without direction from the Board, or a member of the Board. Charges may be based upon information received solely through investigative activities undertaken by the Board.

#### 2.2. Filing.

- (a) The applicable statute provides for disposition of a complaint if trivial, unfounded, or settled informally. Unless in the opinion of at least one member of the Board the alleged situation which is the subject of a

complaint presents an imminent danger to health or safety, a complaint will be deemed received and filed only upon the majority vote of the Board members present and meeting in general session. Until such action, the complaint will be on the agenda for each meeting until resolved informally or filed. During the period before a complaint is deemed filed, the Board may take appropriate action, upon motion and consistent with the applicable statutes, to investigate and settle the complaint informally.

- (b) A complaint will not be considered by the Board until an original is delivered to and logged in and numbered by the Board Administrator at Charleston during normal business hours. Facsimile and other electronic transmission of complaints will be accepted for filing, provided originals are delivered to the Board Administrator within fourteen (14) days thereafter.

- 2.3. **Notice to Respondent.** The Board Administrator shall give notice of the filing of a complaint to any and all respondents named in the complaint. Such notice shall be by certified mail, return receipt requested, to the respondent at his, her, or its last known address or in a manner consistent with the rules for service of process under the West Virginia Rules of Civil Procedure. A return of service shall be completed by the person effecting service and filed with the Board.
- 2.4. **Response to Complaints.** The respondent may file, within thirty days after service of the complaint, a responsive pleading which shall state with particularity every defense in law or fact to the allegations in the complaint. Every responsive pleading shall be verified by the respondent.
- 2.5. **Failure to File Response.** The failure to file a response to the complaint shall be deemed an admission of the factual allegations contained therein. The failure to file a response shall not be grounds for delaying hearing or other action upon the complaint.
- 2.6. **More Definite Statement.** The Board or a respondent may request a clarification or more definite statement of the allegations in the complaint. A respondent's request for a more definite statement shall be filed with the Board not less than fifteen days before the hearing date. The Board's request may be issued to a complainant at any time, and the complainant shall respond within seven days of service of the request by the Board. Failure of a complainant to respond timely to such request may be grounds for dismissal of the complaint.

## **§7-2-3. Hearing Panel.**

### **3.1. Hearing Panel.**

- (a) Complaints regarding persons licensed by the Board and complaints regarding unlawful practice of engineering in this State or a request for hearing regarding licensure or issuance of a certificate of authorization shall be heard and decided by the Board as a whole sitting as a Hearing Panel, except that any member of the Board who has a conflict of interest with regard to a particular complaint may decline to participate

in such proceedings. Recusal is mandatory in any proceeding in which a judge, similarly situated, would be required to exercise recusal. The filing of a complaint by a Board member will not automatically be grounds for recusal. Recusal shall not prevent a Board member from testifying as a witness.

- (b) If recusals result in there being less than a quorum, the remaining unrecused members of the Board shall appoint a registered professional engineer who is not a member of the Board for each recused member to serve solely for the purposes of hearing and deciding such complaint.
  - (c) The Hearing Panel shall conduct hearings, make findings of fact and conclusions of law, and issue administrative decisions and orders to enforce the provisions of W. Va. Code §30-13-1 et seq.
- 3.2. Location of Hearing Proceedings.** Unless otherwise ordered by a majority vote of the Board, all hearings shall be heard at Charleston.
- 3.3. Quorum.** A quorum shall consist of not less than three members of the Hearing Panel.
- 3.4. Presiding at Hearings.**
- (a) The President of the Board shall serve as the presiding officer at hearings. In the event of the President's recusal, the Hearing Panel shall elect a presiding officer from among themselves who will preside for hearings on that complaint.
  - (b) The presiding officer shall have the power to (1) administer oaths and affirmations, (2) rule upon offers of proof and receive relevant evidence, (3) regulate the course of the hearing, (4) hold conferences for the settlement or simplification of the issues by consent of the parties, and (5) dispose of procedural requests or similar matters.
- 3.5. Privilege and Immunity.** All information provided, including documents and testimony given with respect to any complaint, investigation or proceeding under these rules, shall be privileged in any action for defamation or the like. All members of the Board, its counsel, and their employees shall be absolutely immune from civil suit in the same manner as members of the judiciary in the State for any conduct in the course of their official duties.

## **§7-2-4. Procedural Rules for Hearings.**

### **4.1. Notice of Hearings.**

- (a) Within sixty (60) days of filing complaint, the presiding officer shall set a hearing date and time. Notice of the hearing date and time shall be served on respondent and counsel for respondent, if any, by first class mail addressed to the last known mailing address of such person. Such notices shall be mailed not less than thirty (30) days before the hearing date. All complaints, unless dismissed by the Board as unfounded, trivial or settled informally, shall be heard within six months after the date each complaint was received and filed.
- (b) Hearings may be rescheduled by the presiding officer and, once begun, continued from time to time, for cause shown as the interests of justice may require.

**4.2. Prehearing Matters.** The presiding officer, with or without the request of a party, may schedule a prehearing conference to narrow the issues to be heard, to estimate the time which will be required for the hearing, rule upon prehearing motions, and, when appropriate, negotiate informal disposition of the complaint.

**4.3. Hearings Generally.**

**(a) Conduct and Order of Hearing.**

- (1) Upon calling on for hearing any complaint, the presiding officer may cause the complaint to be read and shall offer the respondent the opportunity to reply. The Hearing Panel may receive evidence from its investigator or staff. Respondent, directly or by counsel, may present evidence in defense against the complaint. All testimony given shall be subject to cross-examination by the opposing party. The Board may receive rebuttal evidence after respondent's presentation. Any member of the Hearing Panel may inquire to any witness at any time.
- (2) After the receipt of all evidence, respondent and Board staff, directly or by counsel, may be allowed to make closing arguments.
- (3) If the respondent is not a natural person, the respondent shall be represented by counsel. The Board or its staff may be represented by counsel.
- (4) Failure of the respondent to appear, without cause, shall not result in delay or postponement of the hearing.

**(b) The Record.** The record of a hearing shall consist of the testimony and documentary and physical evidence admitted into evidence by the Hearing Panel, all judicially cognizable facts so noticed, and the administrative decision or order ruling upon the complaint. All hearing proceedings on the record shall be recorded by stenographic means. Any party may obtain a transcript of the proceedings at the party's expense.

**(c) Testimony.** Witnesses shall testify under oath or affirmation.

**(d) Evidence.**

- (1) The West Virginia Rules of Evidence shall apply. Irrelevant, immaterial, or unduly repetitious evidence shall be excluded. When necessary to ascertain facts not reasonably susceptible of proof under those rules, evidence not admissible thereunder may be admitted, except where precluded by statute, if it is of a type commonly relied upon by reasonably prudent persons in the conduct of their affairs. The Hearing Panel shall be bound by the rules of privilege recognized by law. Objections to evidentiary offers and the ruling thereupon shall be noted in the record. Any party to any such hearing may vouch the record as to any excluded testimony or other evidence.
- (2) Only the evidence admitted into the record and judicially cognizable facts so noticed shall be considered in the determination of the complaint.
- (3) Depositions may be taken and read or otherwise received as evidence in accordance with Rules 30 and 32 of the West Virginia Rules of Civil Procedure.

- (e) **Conformance.** Upon motion of any member of the Hearing Panel or any party assigning error or omission in any part of any transcript, the presiding officer shall settle all differences arising as to whether such transcript truly discloses what occurred at the hearing and shall direct that the transcript be corrected as appropriate so as to make it conform to the truth.
  - (f) **Deliberations.** Hearing Panels may deliberate and issue decisions in person, by telephone conference, or by written correspondence, including electronic communications.
  - (g) **Open Meetings and Executive Sessions.** Pursuant to W.Va. Code §6-9A-1, the Board may by majority vote hold hearings under these rules in executive session unless the respondent requests an open meeting. In any event, the vote upon the final decision of the Hearing Panel shall be in open session.
- 4.4. Standard of Proof.** To impose any sanction or penalty, the findings of the Hearing Panel in support thereof must be proved by a preponderance of the evidence.
- 4.5. Subpoena and Contempt Power.** The Hearing Panel shall have power to issue subpoenas or any other lawful process through the presiding officer at the request of any party. Subpoenas may be issued for attendance of witnesses or the production of documentary evidence. Subpoenas and other process may be served in accordance with the West Virginia Rules of Civil Procedure. All witnesses shall be entitled to such witness fees and expenses as in any civil proceeding in this State. The Hearing Panel may apply to any circuit court for an order requiring any person to comply with the presiding officer's directions in maintaining order at a hearing or to compel compliance with subpoenas.
- 4.6. Criminal Convictions.**
- (a) An engineer who has been convicted of a crime that reflects adversely on the engineer's honesty, trustworthiness or fitness as an engineer, or of any felony, shall, within thirty days of entry of the order or judgment of conviction, forward a copy of the order or judgment to the Board's Administrator. A plea or verdict of guilty or a conviction after a plea of nolo contendere shall be deemed to be a conviction within the meaning of this rule. Any other person may file a copy of the order or judgment with the Board.
  - (b) Upon receipt of the order or judgment, which shall be conclusive evidence of the guilt of the crime or crimes of which the engineer has been convicted, the Board Administrator shall treat the order or judgment as a complaint for misconduct and violation of professional responsibility.
  - (c) A respondent may present evidence and argument in support of mitigation based on, but not limited to, the nature of respondent's misconduct, surrounding facts and circumstances, previous ethical violations, the willfulness of the conduct, and the adequacy of respondent's previous opportunity to present evidence.

#### **4.7. Reciprocal Discipline.**

- (a) A final adjudication in another jurisdiction, whether state or federal, of misconduct constituting grounds for discipline of a registered professional engineer in that jurisdiction or a voluntary surrender of a license to practice engineering in connection with a disciplinary proceeding in that jurisdiction shall, for the purposes of proceedings under these rules, conclusively establish such conduct.
- (b) A registrant in this State against whom any form of public discipline has been imposed by the authorities of another jurisdiction, whether state or federal, or who voluntarily surrenders his or her license to practice engineering in connection with such disciplinary proceedings shall notify the Board of such action in writing within ten days thereof. Failure to notify the Board shall constitute an aggravating factor in any subsequent disciplinary proceeding. Any other person may notify the Board of such action by submitting a complaint.
- (c) If the registrant intends to challenge the validity of the disciplinary order entered in the foreign jurisdiction or the voluntary surrender of his or her license to practice engineering in connection with a disciplinary proceeding, the registrant must request a formal hearing and file with the Board a full copy of the record of the disciplinary proceedings which resulted in imposition of the disciplinary order or the voluntary surrender of a license to practice engineering.

### **§7-2-5. Disposition of Complaints.**

#### **5.1. Administrative Decisions and Orders.**

- (a) Any party may submit proposed findings of fact and conclusions of law as permitted in the discretion of the presiding officer.
- (b) After a hearing upon a complaint is completed, including an instance in which the respondent defaults, the Hearing Panel may make findings of fact and conclusions of law and shall issue the appropriate administrative decision or order.
- (c) The Hearing Panel may make findings of fact and conclusions of law in connection with the hearing and in conformity with applicable law notwithstanding the failure of the complaint to allege the grounds therefor.
- (d) Informal disposition may also be made of any complaint by stipulation, agreed settlement, or consent order provided, however, that a hearing upon any pending complaint set pursuant to Rule 4.0 shall not be cancelled other than by a respondent's acceptance of such proposed informal disposition.
- (e) All dispositions of complaints shall be signed by the presiding officer. A copy shall be maintained in the permanent records of the Board.
- (f) The official determination of the Hearing Board shall be made by majority vote of the Hearing Panel. The presiding officer shall vote in every matter but shall reserve his vote to the last. Any minority of the Hearing Panel may preserve its opinion in written form submitted at or not less than ten days after the entry of the majority's administrative decision or order.

- (g) A copy of the administrative decision or order shall be served upon each party and his counsel in person or by registered or certified mail within five days after entry by the presiding officer.

- 5.2. **Unlawful Practice.** In addition to disciplinary actions authorized by W. Va. Code §30-13-21, if the administrative decision or order finds that the respondent is engaging in the practice of engineering in this state without being registered, the Board may request the prosecutor of any county to prosecute the respondent pursuant to W. Va. Code §31-13-23 or the Board may file a complaint seeking an injunction to enforce the provisions of W. Va. Code §31-13-1 et seq. Nothing in these rules shall prohibit the Board from requesting prosecution or seeking an injunction without prior notice and opportunity for hearing to the person who is believed to be in violation.
