WEST VIRGINIA BOARD OF EDUCATION

2014-2015 Impact and Effectiveness of the Accreditation System

November 2015

(Information)

West Virginia Code §18-2E-5(e). *State annual performance measures for school and school system accreditation* states:

The state board shall promulgate a rule in accordance with the provisions of article three-b, chapter twenty-nine-a of this code that establishes a system to assess and weigh performance measures for state accreditation of schools and school systems. The state board also may establish performance incentives for schools and school systems as part of the state accreditation system. On or before December 1, 2013, the state board shall report to the Governor and to the Legislative Oversight Commission on Education Accountability the proposed rule for establishing the measures and incentives of the accreditation and the estimated cost therefore, if any. Thereafter, the state board shall provide an annual report to the Governor and to the Legislative Oversight Commission on Education Accountability on the impact and effectiveness of the accreditation system. The rule for school and school system accreditation proposed by the board may include, but is not limited to, the following measures:

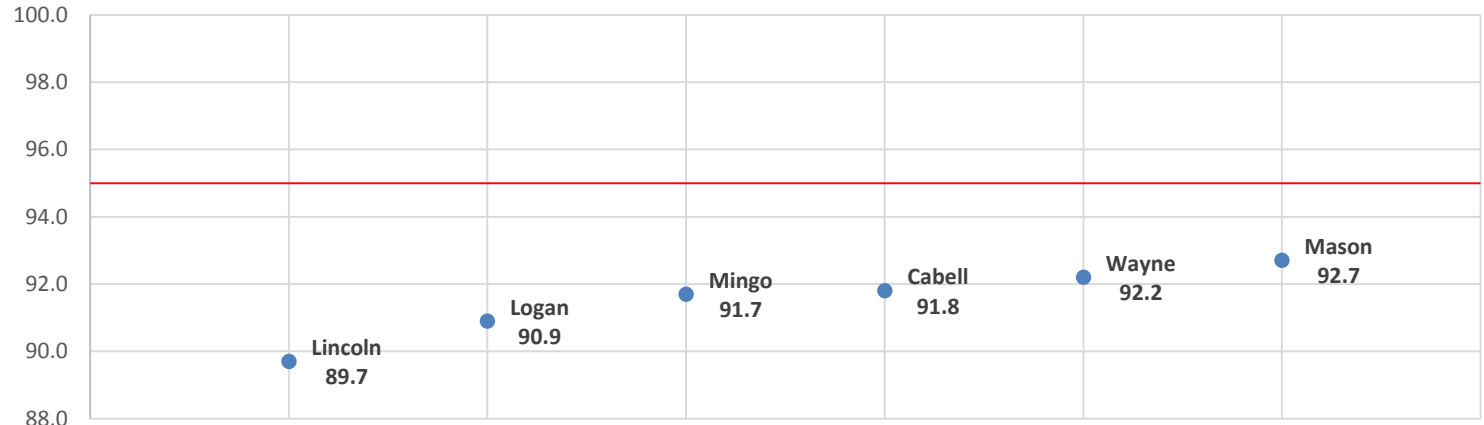

- 1) Student proficiency in English and language arts, math, science and other subjects determined by the board;
- 2) Graduation and attendance rate;
- 3) Students taking and passing AP tests;
- 4) Students completing a career and technical education class;
- 5) Closing achievement gaps within subgroups of a school's student population and;
- 6) Students scoring at or above average attainment on SAT or ACT tests.

The following data report reflects the impact and effectiveness of the state annual performance measures for school and school system accreditation in 2014 – 2015 Year One baseline.
