INDEPENDENT AUDITOR'S REPORT

To the Board of Directors and Management United Summit Center, Inc. Clarksburg, West Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of United Summit Center, Inc. (a nonprofit organization), which comprise the statements of financial position as of December 31, 2015 and 2014 and the related statements of activities, changes in net assets and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

122 N. Oak St. * P.O. Box 1916 * Clarksburg, WV 26302-1916 * (304) 624-5564 * Fax: (304) 624-5582 * www.tetrickbartlett.com 1517 Mary Lou Retton * Fairmont, WV 26554 * (304) 366-2992 * Fax: (304) 366-2370 An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of United Summit Center, Inc. as of December 31, 2015 and 2014, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplementary schedules, as listed in the index, are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

To the Board of Directors

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 12, 2016, on our consideration of United Summit Center, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering United Summit Center, Inc.'s internal control over financial reporting and compliance.

1. Summary of Significant Accounting Policies

Description of Organization

United Summit Center, Inc. (the Center) is a non-profit West Virginia corporation established for the purpose of providing mental health, mental retardation, and related services to residents of Harrison, Braxton, Doddridge, Lewis, Gilmer, Marion, and Taylor counties. Funding for operations is primarily from grant sources, purchased service contracts with the State of West Virginia, and fees for services provided.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Basis of Presentation

The Center is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets temporarily restricted net assets and permanently restricted net assets.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents consist of short-term, highly liquid investments which are readily convertible into cash within ninety (90) days of purchase.

Patient Accounts Receivable

Patient accounts receivable are reported at net realizable value. Accounts are written off when they are determined to be uncollectible based upon management's assessment of individual accounts. The allowance for doubtful collections is estimated based upon a periodic review of the accounts receivable aging, payer classifications, and application of historical write-off percentages. Effective December 31, 2015, management modified the estimation methodology for the allowance for doubtful collections. The change in estimation methodology resulted in an increase of \$325,000 in the allowance for doubtful collections and the provision for bad debts.

A significant concentration of net patient receivables at December 31, 2015 and 2014, includes amounts receivable for the Medicaid programs, 70% and 63%, respectively. Laws and regulations governing the Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term.

Assets Whose Use is Limited

Assets whose use is limited include assets set aside by the Board of Directors (the Board) for future capital improvements over which the Board retains control and may at its discretion subsequently use for other purposes. It also includes assets held by trustee for future self-funded malpractice insurance claims.

Investments

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value. Cash and cash equivalents are carried at cost which approximates fair value. Investment income or loss (including realized and unrealized gains and losses on investments, interest, and dividends) is included in revenues (less than) in excess of expenses unless the income or loss is restricted by donor or law.

Land, Property and Equipment

Land, property and equipment acquired by the Center are considered to be owned by the Center. However, funding sources may maintain equitable interest in the property purchased with grant monies as well as the right to determine the use of any proceeds from the sale of these assets. The funding sources have a reversionary interest in those assets purchased with its funds which have a cost of \$1,000 or more and an estimated useful life greater than one year. Accordingly, the Center capitalizes all expenditures for fixed assets acquired with grant funds which have a cost of \$1,000 or more and an estimated useful life greater than one year. Computers, cell phones, tablets, and other hand-held electronic devices purchased with grant funds are capitalized regardless of cost as required by the granting agency.

The Center follows the practice of capitalizing, at cost, all expenditures for fixed assets acquired with Center funds in excess of \$5,000. Depreciation is computed on a straight-line basis over the useful lives of the assets.

Net Patient Service Revenue

Net patient service revenues are reported at the estimated net realizable amounts from patients, third-party payers, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payers. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted, as necessary, in future periods as tentative and final settlements are received. It is reasonably possible that the estimates used could change in the near term.

Charity Care

The Center provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Center does not pursue collection of amounts determined to qualify as charity care, they are not reported in net patient service revenues.

The amount of estimated charity care costs for the years ended December 31, 2015 and 2014 were \$1,013,000 and \$1,312,000, respectively. The estimated costs were calculated based upon a ratio of cost to gross charges, and then multiplying that ratio by the provision for charity care (forgone charity care revenue).

Income Taxes

The United Summit Center, Inc. is exempt from federal and state income taxes under section 501 (c)(3) of the Internal Revenue Code.

The Center accounts for uncertainty in income taxes using a recognition threshold of morclikely-than not to be sustained upon examination by the appropriate taxing authority. Measurement of the tax uncertainty occurs if the recognition threshold is met. Management determined there were no tax uncertainties that met the recognition threshold in 2015and2014.

All required federal information returns for the Center have been filed up to, and including the tax year ended December 31, 2014. The Center's federal information returns for 2012, 2013 and 2014 remain subject to examination by the Internal Revenue Service.

Effective June 1, 1993, the legislature of the State of West Virginia enacted a broad-based healthcare related tax. This tax in based upon net patient service revenues of certain types of healthcare providers. The Center recognized expenses of approximately \$242,865 in 2015 and \$39,850 in 2014 related to this tax.

2. Deposits

The Center's deposits are categorized to give an indication of the level of risk assumed by the Center at December 31, 2015 and 2014. The categories are described as follows:

- Category 1 Insured or collateralized with securities held by the Center or its agent in the Center's name.
- Category 2 Collateralized with securities held by the pledging financial institution's trust department or agent in the Center's name.

Category 3 - Uncollateralized.

		2015			
	Bank		Category		Carrying

	\$ <u>\$</u>	13,533	\$ 1,237,115 \$

4. Investments

Assets Whose Use is Limited

The composition of assets whose use is limited, stated at fair value, at December 31, 2015 and 2014, is set forth below.

	2015	2014
Board-designated funds:		
Funded depreciation		
Cash and cash equivalents	\$ 318,	721 \$ 280,379
Mutual funds		
US fixed income	1,765,9	1,800,518
US large cap equity	1,121,8	1,190,729
US mid cap equity	245,4	250,230
International equity	461,6	401,033
Total Board-designated funds	3,913,0	507 3,922,889
Trustee-held funds:		
Cash and cash equivalents	108,1	.52 99,894
Equity securities		
US large cap	197,0	219,102
Mutual funds		
US fixed income	377,4	400,717
US large cap equity		
US mid cap equity	49,5	07 59,751
US small cap equity	4,0	71 4,690
International equity	156,5	57 197,092
Alternative investments	36,4	9851,610
Total trustee-held funds	929,2	56 1,032,856
Total Assets Whose Use is Limited	\$ 4,842,8	63 \$ 4,955,745

The trustee-held funds are part of a pooled investment with the Hospital to cover future selffunded malpractice insurance claims.

Long-Term Investments

The composition of long-term investments at December 31, 2015 and 2014 is set forth below.

	2015		2014
Equity Securities			
Financial	\$ 18,262	S	21,088

Investment income and gains for assets whose use is limited, cash equivalents, and long-term investments are comprised of the following for the years ending December 31, 2015 and 2014:

	2015	2014
Income:		
Interest and dividend income	\$ 248,475	\$ 211,547
Realized gains	230,368	80,280
Unrealized (losses) gains	(479,332)	(27,720)
	<u>\$ (489)</u>	\$ 264,107

5. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

- · quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3.Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Cash and cash equivalents: these investments are carried at cost which approximates fair value.

Equity securities: the fair value of these investments are based on quoted market prices

Mutual funds: Valued at the net asset value of shares held, which approximates fair value.

Fair value of assets and liabilities are measured on a recurring basis at December 31, 2015 and 2014 are as follows:

	Assets at Fair Values as of December 31, 2015						31, 2015	
		Level 1	L	evel 2	Le	vel 3		Total

6. Land, Property and Equipment

The following is a summary of land, property and equipment at December 31,:

	2015	2014
Land	\$ 85,096	\$ 85,096
Buildings	35,962	35,962
Leasehold improvements	2,282,836	2,282,836
Furniture and fixtures	556,028	556,028
Equipment	3,191,795	2,931,990
	6,151,717	5,891,912
Less: Accumulated depreciation	(4,423,888)	(3,989,936)
Total	\$ 1,727,829	\$ 1,901,976

Depreciation expense for the years ended December 31, 2015 and 2014 amounted to \$433,952 and \$516,993, respectively.

7. Net Patient Service Revenues

The following is a summary of net patient service revenues for the years ended December 31,:

	2015	2014
General patient revenues	\$ 34,774,821	\$ 33,819,165
Less: Provision for charity care	(1,302,302)	(1,831,793)
Gross patient revenues	33,472,519	31,987,372
Less: Provision for contractual allowance	(12,776,436)	(11,984,931)
Net patient service revenues	\$ 20,696,083	\$ 20,002,441

The Center has agreements with third-party payers that provide for payments to the Center at amounts different from its established rates. A significant portion of the Center's net patient service revenues is derived from these third-party payer programs. A summary of the principal payment arrangements with major third-party payers follows:

Medicaid

Inpatient acute care services rendered to Medicaid program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors. Outpatient services are paid on a published fee schedule.

Medicare

Inpatient acute care services and outpatient services rendered to Medicare program beneficiaries are paid at prospectively determined rates. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors.

Net patient service revenue from Medicaid programs accounted for approximately 86% and 88%, respectively, of the Center's net patient service revenue for 2015 and 2014. Laws and regulations governing the Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term.

The Center has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment to the Center under these agreements includes prospectively determined rates per discharge, discounts from established charges, and prospectively determined daily rates.

Operating Leases

The Center has various leases for equipment and buildings which are classified as operating leases. Total rent expense for the year ended December 31, 2015 and 2014 for these operating leases amounted to \$902,898 and \$752,444, respectively. Future minimum lease payments under the operating leases are as follows:

	and the second se
Total	\$ 2,325,357
Thereafter	 514,161
2020	258,786
2019	277,912
2018	319,296
2017	393,104
2016	\$ 562,098

The Center also entered into an agreement with the West Virginia Department of Health and Human Resources in which the Center is allowed to occupy the building known as 6 Hospital Plaza, Clarksburg, WV 26301 as long as it operates a Community Based Mental Health facility for the use and treatment of persons who have mental health needs and for no other purpose. The Center also has to remain in compliance with certain grant provisions.

Management has determined that the agreement constitutes an exchange transaction in accordance with ASC 958-605-55; therefore, \$180,000 is reflected on the Statement of Operations for 2015 and 2014 as Other Income and Rent Expense representing the fair value of the use of the property.

9. Defined Contribution Plan

The United Summit Center sponsors a defined contribution plan which covers substantially all employees. The employees may make tax deferred contributions to the plan. Under the plan, the Center contributes 2% of base compensation that a participant contributes to the plan. Employer match pension expense for 2015 and 2014 was \$181,530 and \$201,116, respectively.

10. Related Entities

United Hospital Center, Inc. (the Hospital) is the parent corporation to United Summit Center, Inc. The Hospital approves the majority of Center's board appointments. The existence of this relationship could result in changes in net assets or financial position of United Summit Center, Inc. that are significantly different from those that would have been obtained if the organizations were autonomous. Also, the Center's financial statements are included in the consolidated financial statements of West Virginia United Health System (WVUHS), the parent corporation of the Hospital.

The Hospital acquired assets on behalf of the Center in November 1996 for \$323,505. Further equity contributions from the Hospital to the Center for the period November 1, 1996 to December 31, 1997, amounted to \$800,000. No equity contributions were made to Center by Hospital for the years ended December 31, 2015 and 2014.

The Center's Executive Director is appointed by and an employee of the Hospital. The Center reimbursed the Hospital for his services which amounted to \$230,557 and \$171,719 for 2015 and 2014, respectively. The Hospital also leases facilities to the Center. The Center paid \$144,046 and \$139,163 in 2015 and 2014, respectively, pursuant to the lease agreements.

11. Medical Malpractice Claims Coverage

The Center participates in a self-insurance program for medical malpractice insurance and general liability insurance with the Hospital. The program requires the Center to deposit funds held in trust, based upon actuarial calculations, sufficient to cover estimated claims.

The Center's estimated future payments of its allocated asserted and unasserted general and medical malpractice claims liabilities under the self-insurance program were \$695,704 and \$722,770 at December 31, 2015 and 2014, respectively. These estimates are based upon actuarially determined estimates of the ultimate costs for known reported claims and claims incurred but not reported under the self-insurance program. The discount rate used in determining the liabilities was 3.5% at December 31, 2015 and 2014.

The Center believes it has adequate self-insurance and insurance coverages and accruals for all asserted claims and it has no knowledge of unasserted claims which would exceed its selfinsurance and insurance coverages and accruals.

12. Workers' Compensation Claims Coverage

The Center participates in the WVUHS pool for its workers compensation coverage. The WVUHS pool's workers' compensation policies provide statutory workers' compensation limits of liability to its participants. WVUHS was required to establish a loss fund with both insurers and to provide a letter of credit to secure the deductible obligation. The two letters of credit total \$5,485,000 and are automatically renewed by the bank every July 1st unless notified 90 days prior to the renewal date.

The loss fund is drawn on by the insurer and replenished by WVUHS on request by the insurer with a guideline that the fund shall have a balance of approximately 2 ½ months of average claims payments. The Center's estimated allocation of payments of workers' compensation claims liability, included in salaries and benefits payable on the balance sheet, was \$280,417 and \$186,428 at December 31, 2015 and 2014, respectively.

13. Health Insurance Benefits

The Center self-insures its employee health insurance coverage under an arrangement using contract administrators. The Center also participates in the WVUHS pool for its stop-loss insurance coverage. The Center pays premiums to the pool which is used to obtain external stop loss coverage and to pay individual claims incurred in excess of set amounts during a calendar year.

The Center accrues the estimated costs of incurred and reported and incurred but not recorded claims, after consideration of its individual and aggregate stop-loss insurance coverage, based upon data provided by the third-party administrators of the programs and its historical claims experience. The Center's estimated claims liability, included in salaries and benefits payable on the balance sheet, was \$537,640 and \$437,000 at December 31, 2015 and 2014, respectively.

14. Functional Expenses

The Center provides mental health care services to residents within its geographic location. Expenses related to providing these services are as follows:

	2015	2014
Mental health care services Management and general	\$ 19,965,844 6,068,019	\$ 18,625,487 5,341,891
	\$ 26,033,863	\$ 23,967,378

15. Litigation

The Center is a party to various legal actions arising in the ordinary course of its services. In management's opinion, the Center has adequate legal defenses and/or external or self-insurance coverage respecting each of these actions and does not believe that this will materially affect the Center's operations or financial position. However, the Center is aware of unasserted claims, which could have a material impact on the Centers operations or financial position. All settlements from legal actions in 2015 and 2014 were paid by the Center's self-insurance program.

16. Financial Instruments

Concentration of Credit Risk Due to Patient Accounts Receivable

Financial instruments that potentially subject the Center to concentrations of credit risk consists principally patient accounts receivable.

The Center grants credit without collateral to its patients, most of who are local residents and are insured under third-party payer agreements, primarily with Medicare, Medicaid, and various commercial insurance companies. The Center maintains allowances for potential credit losses and such losses have historically been within management's expectations.

16. Loss Contingency

In 2013, the Center was notified by the West Virginia Department of Health and Human Resources that \$171,678 in reimbursed costs it received under the Medicaid Aged and Disabled Waiver program were disallowed and should be repaid. In accordance with ASC 450-20-30-1, when a loss is probable and reasonably estimable, it requires an accrual. Management has conservatively rounded the estimate of the liability up to \$175,000 to allow for any additional cost related to the dispute. In 2015, the Center received notification of an overpayment from the Department of Health and Human Resources of \$30,554. The total of both is \$205,554 and is reported on the accompanying Balance Sheet as accounts payable and accrued expenses. The Center has requested that the Bureau of Medical Services perform desk reviews of the assessments for the contended items; however, management has not received any correspondence through the date of the financial statements regarding the requests.

17. Date of Management's Review of Subsequent Events

Management has evaluated subsequent events through March 12, 2016, the date which the financial statements were available to be issued.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors and Management United Summit Center, Inc. Clarksburg, West Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of United Summit Center, Inc. (a nonprofit organization), which comprise the balance sheet as of December 31, 2015, and the related statements of operations, changes in net assets and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated March 12, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered United Summit Center, Inc.'s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of United Summit Center, Inc.'s internal control. Accordingly, we do not express an opinion on the effectiveness of United Summit Center, Inc.'s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

¹²² N. Oak St. * P.O. Box 1916 * Clarksburg, WV 26302-1916 * (304) 624-5564 * Fax: (304) 624-5582 * www.tetrickbartlett.com 1517 Mary Lou Retton * Fairmont, WV 26554 * (304) 366-2992 * Fax: (304) 366-2370

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying schedule of finding and response at item 2015-001 that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether United Summit Center, Inc.'s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

We noted certain other matters that we reported to Management of United Summit Center, Inc. in a separate letter dated March 12, 2016.

United Summit Center Inc.'s Response to Findings

United Summit Center, Inc.'s response to the finding identified in our audit is described in the accompanying schedule of finding and response. United Summit Center, Inc.'s response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standard* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

DHHR - Finance OCT 2 0 2016 Date Received

UNITED SUMMIT CENTER, INC. SCHEDULE OF FINDING AND RESPONSE FOR THE YEAR ENDED DECEMBER 31, 2015

2015-001 - Significant Deficiency - Segregation of Duties

Criteria: Control systems should be implemented to assign different individuals the responsibility for approving, executing and recording transactions in order to properly detect and correct fraud, noncompliance with provisions of laws, regulations, contracts or grant agreements, or abuse having an effect of the financial statements.

Condition: Control systems have not been implemented to assign different individuals the responsibility for approving, executing and recording transactions.

Cause: Certain individuals have multiple responsibilities for approving, executing and recording the same transactions.

Effect: Because of the failure to segregate duties, the control system could fail to prevent, or detect and correct fraud, noncompliance with provisions of laws, regulations, contracts or grant agreements, or abuse having an effect on the financial statements.

Recommendation: Responsibilities of approval, executing, recording and custody associated with all financial transactions should be distributed among the accounting staff to the highest degree possible. We recommend that the Board of Directors should remain involved in the financial affairs of the Center to provide oversight and independent review functions.

Entity's Response: The size of the Center's accounting and administrative staff precludes certain internal controls that would be preferred if the office staff were larger. The Board believes that complete segregation of duties is not economically feasible; however, to mitigate the effects of this significant deficiency, management will continue to segregate duties to the extent possible.
