STATE OF WEST VIRGINIA
BOARD OF EXAMINERS FOR REGISTERED PROFESSIONAL NURSES
101 Dee Drive, Suite 102
Charleston, WV 25311-1620

December 8, 2010

The Honorable Earl Ray Tomblin
Governor, State of West Virginia
State Capitol Building
Charleston, WV 25301

Dear Governor Tomblin:

The West Virginia Board of Examiners for Registered Professional Nurses (Board) is pleased to submit the Annual Report for the biennium of 2008 - 2010.

For over one hundred years the Board has been vested in its mission to protect the citizens and those within the borders of West Virginia through the regulation of the practice of registered professional nurses. More recently, dialysis technicians were placed under the Board's jurisdiction. The Board oversees nursing education programs, nurses in advanced practice, limited prescriptive authority and all matters related to licensure. At the end of fiscal year 2010 there were 28,218 registered professional nurses holding a West Virginia license, 153 certified dialysis technicians, and over 600 nurses with Limited Prescriptive Authority.

The Board remains open for communications with the public, other agencies, nurses and dialysis technicians by providing a time for an Open Forum during each Board meeting, the newsletter, phones, facsimile, and by Internet through e-mail and its web site (www.wvrnboard.com).

The Board and its staff are available to answer questions about this report or other matters related to the regulation of registered professional nurses and dialysis technicians in West Virginia.

For the Board,

A handwritten signature in cursive script that reads "Robin Walton".

Robin Walton, EdD, RN, FNP-BC
President

Overview of Board Activities and Responsibilities

The mission of the West Virginia Board of Examiners for Registered Professional Nurses (Board) is to promote and protect public health, safety and welfare through the regulation of the practice of registered professional nurses. Further, the Board is authorized to regulate the practice of Dialysis Technicians to protect public health, safety and welfare. The West Virginia Legislature has empowered the Board to perform a number of functions to ensure this mission is accomplished.

The Board is authorized to, among other things, adopt and amend rules and regulations, accredit and prescribe standards for educational programs preparing persons for registered professional nursing licensure, examine, license and renew licenses, and conduct hearing(s) upon charges calling for discipline of a licensee or revocation or suspension of a license.

The Board is also authorized to adopt and amend rules and regulations, accredit and prescribe standards for educational programs preparing persons for Dialysis Technician certification, certify and renew certifications, and conduct hearing(s) upon charges calling for discipline of a certification or revocation or suspension of a certification.

In order to fulfill its mission the Board has developed specific goals. These goals are found on page 7 of this report. Included with the Board's goals and objectives are performance measures.

The 2004 West Virginia Legislature passed a bill establishing the West Virginia Center for Nursing (Center) as a result of recommendations from the "Nursing Shortage Study Commission" which was funded by the Board. The Center was created to establish a statewide strategic plan to address the nursing shortage in the state and to facilitate recruitment and retention of nurses. The Center is funded in part by a supplemental fee added to the license renewal for RN's and LPN's. The Board continues to work with and support the efforts of the Center.

This overview provides a brief description of the Board's activities over the past year in the fulfillment of its mission. Also provided with this report are statistical data which show the Board's activities over the past two (2) years. The majority of these reports begin on page 58. Additionally, to give an even broader view of the Board's activities, included with this year's report are tables and charts covering a ten (10) or twenty (20) year time period revealing how the number of registered professional nurses has increased or decreased during the time frame, the number of students that have graduated from nursing programs throughout the state during this time, disciplinary actions that have taken place, as well as other interesting facts regarding the functions of the Board. This information can be found throughout the Report. A Graph Table of Contents is provided for the reader's convenience (see page iii).

One of the most important ways the Board achieves its mission is ensuring that it is easily accessible to the public, its licensees and to other state and national agencies. To that end, the Board convenes an average of 10 days a year, with Committees meeting an additional 4 days a year. The law requires one meeting per year. In accordance with the law, Board meeting notices are

Overview Continued

filed timely with the Secretary of State. The agenda for each meeting is also provided to each nursing school, to Directors of Nursing across the state, and interested parties. A list of Board meeting dates is provided in this report on page 12. Notice of the meeting is also included in the Board newsletter, which is published at least twice a year and mailed to every licensee and to those persons expressing an interest in receiving the newsletter, and on the web site. A copy of each newsletter is located on the Board's web site at www.wvrnboard.com.

At the beginning of each Board meeting there is an Open Forum. Open Forum still allows anyone in attendance at the meeting the opportunity to raise issues of concern with the Board and to have an open discussion with Board members.

The Board office is available by telephone twenty four hours a day, seven days a week through a voice mail system 1-877-743-6877(NURS). During regular business hours, Monday through Friday, the office is staffed to respond to questions by phone, facsimile, e-mail, U.S. mail and from persons coming to the office. A list of all Board staff is on page 13 of this report.

Additional avenues the Board utilizes to remain accessible to the public are by way of e-mail and web page. The Board's e-mail address is rnboard@state.wv.us. The web site address is www.wvrnboard.com. Most of the Board's applications are available for downloading from the web.

The Board has informational brochures available to the public on continuing education, discipline and the complaint process. The Board maintains a number of other brochures from organizations regarding patient rights and nurse/patient boundaries. Because the Board sees educating the public as one of its priorities, it continues to be active in providing information through presentations at various sites throughout the state. These presentations cover Board functions, the licensing process, mandatory continuing education, advanced practice, prescriptive authority, discipline and how to file a complaint. Board staff participated in several presentations in FY2010.

One of the main functions of the Board in the fulfillment of its mission is the regulation of the nursing programs in the State of West Virginia. Currently, there are 21 schools of nursing providing 22 nursing programs (the University of Charleston has bachelor and associate degree programs) in the state that require Board approval. A list of the schools of nursing providing both baccalaureate and associate degrees, as well as other programs not requiring Board approval, is provided in this report on pages 24 through 27. Also included in this report are statistics on the number of graduates from baccalaureate and associate degree programs and statistics on licensees holding advanced degrees.

The accreditation process of a school of nursing goes far beyond the initial accreditation of that school. It is an ongoing process. Each year every Board approved program is required to submit an Annual Report to the Board for review. The Annual Report covers every aspect of the program, from the financial status to the degrees held by instructors and most importantly the quality of the information being taught to the student. The Board also conducts a number of on-site visits to programs to have a hands on view of the activity taking place at the school. During the on-site visit, Board representatives have the opportunity to view the quality of the information contained in the library for nursing students

Overview Continued

and to also speak with nursing students on campus regarding the nursing program. In FY2010 the Board performed nineteen (19) visits to campuses in the state for purposes of On-Site Accreditation visits and follow up visits.

Another Board function is to provide a test for graduates to successfully complete for initial licensure. Currently, that test is known as the National Council Licensure Examination -RN (NCLEX-RN). It has been a computer adaptive test since April 1994. The candidate may take the examination at any test center in the United States, U.S. Territories, or several countries across the world provided the state where they wish to hold initial licensure is designated, and an application specific to that state has been completed and approved.

The national pass rate for first time candidates taking the licensure examination during FY2010 is 88.80%. West Virginia's percentage is 86.12%. This percentage ranks West Virginia as thirty-eight (38) out of fifty-four (54) member board jurisdictions. This information is provided through a report from the National Council of State Boards of Nursing, Inc.

From the graduates who pass the licensing examination who are able to hold the title registered professional nurse, there are a number of individuals who pursue advanced certifications and practice in more specialized areas. The Board regulates advanced certifications and practice in more specialized areas. The Board regulates 1,423 nurses with Announcement of Advanced Practice. This number includes the 657 nurses having prescription writing privileges granted by the Board. A breakdown of this information is found on pages 102 through 105 of this report. As part of the prescription writing privilege application process, the Board of Medicine, the Board of Pharmacy, the Board of Osteopathy, and the Federal Drug Enforcement Agency are notified of each new prescriptive authority privilege issued.

Because nurses are continuing to specialize in different areas, the Board's approach to discipline continues to evolve. Disciplinary cases continue to increase in complexity. Board staff process a significant number of discipline related records. In past years the majority of complaints against registered nurses, resulting in action, involved the use, misuse and abuse of drugs and alcohol. Although these issues still make up the majority of the complaints, there is an increase in practice related issues, such as documentation errors and the lack of competency. Health care institutions are utilizing more unlicensed individuals than ever before. With the predicted decrease in available registered nurses and the increase in work demand on the nurses who are available, the amount of complaints with practice issues will surely rise over the next several years. Statistical information regarding the Board's disposition of complaints and disciplinary action taken over the past two (2) years is provided on pages 64 and 65 of this report. A pie chart on page 63 represents a summary of disciplinary action for the past ten years.

In order to completely fulfill its mission to protect the public, the Board recognizes the necessity in maintaining open communication with other related national and state agencies. In that regard, the Board always sends representatives to meetings of the National Council of State Boards of Nursing, Inc.(NCSBN) and is actively involved in the discussion and voting processes which occur at these meetings. The Executive Director, Laura Skidmore Rhodes, is the immediate past president

Overview Continued

of the Board of Directors for NCSBN. Marty Alston, Secretary II/Accounting Assistant II currently serves on the Awards Panel for NCSBN. Cyndy Haynes, previous Director of Education and Practice served on the NCSBN Commitment to Ongoing Regulatory Excellence (CORE) committee. Alice R. Faucett, General Counsel and Director for Discipline previously served on the Professional Discipline, International Relations and Legal Issues Committees for the Council on Licensure Enforcement and Regulation.

The Board, in conjunction with NCSBN, developed an on-line continuing education program for registered professional nurses about the current law. This program offers two (2) continuing education hours which qualify for inclusion in the total twelve (12) hour requirement each year.

Locally, the Board keeps an ongoing alliance with the West Virginia State Board of Licensed Practical Nurses (LPN Board). Because the two agencies generally have to address similar topics and certainly in the employment arena they usually function together, it is important to the Board to ensure that communication lines are open with this agency. In 1995, the Joint Nursing Regulatory Committee was formed to enhance communications between Board and the LPN Board, and between the Board and constituents. This committee lead to the practice of holding a yearly Joint RN/LPN Board meeting. Together the two Boards publish a document entitled "Criteria for Determining Scope of Practice for Licensed Nurses and Guidelines for Determining Acts That May Be Delegated or Assigned by Licensed Nurses" or simply the "Purple Book". This document was updated last year.

Board members and staff are diligent in their efforts to assure Board accomplishes its mission and goals. Staff ensure that records reflecting the Board's financial status are accurately maintained. This information is provided on pages 14 through 19 of this report. Board members are kept thoroughly apprised of all operations by Board staff.

Legislation was passed during the 2005 session which placed the regulation of the Dialysis Technician Education programs and Dialysis Technicians under the jurisdiction of the Board. There are 153 certified dialysis technicians in West Virginia. Information about Dialysis Technicians is provided on pages 179 through 196.

As previously stated, there is a predicted decrease in the number of registered nurses available for employment in upcoming years. This decrease will not only effect West Virginia, but will be a national decrease. However, because of the size of our state, the effect on West Virginia will be easily felt. As reflected on pages 68 through 71 of this report, licensees have steadily endorsed out of West Virginia to other states, with the exception of FY05 when more nurses endorsed into WV. This is directly related to an influx of nurses preparing to assist a West Virginia hospital in the event of a strike. As the citizenship ages and illnesses increase, the need for registered nurses will increase. More nurses are still needed. Not having enough nurses makes it even more important for the West Virginia Board of Examiners for Registered Professional Nurses to fulfill its goal to protect the public.

When the impending nursing shortage was recognized, schools of nursing across the state increased enrollment in their nursing programs thus reflecting the slight increase in the number of register nurses. There are approximately 3,214 students enrolled in West Virginia schools of nursing to obtain an initial degree in nursing.

Overview Continued

The West Virginia Board of Examiners for Registered Professional Nurses continues to fulfill its mission of protecting the citizens of West Virginia through the regulation of the education and practice of 28,218 registered professional nurses, as well as the 153 Certified Dialysis Technicians.

EDUCATION

The education section of the Board has grown significantly over the past ten years. One of the Board's functions is to provide a test (NCLEX-RN) for graduates of accredited nursing programs to pass successfully for initial licensure. The education section reviews the applications and transcripts to assure qualifications are met. West Virginia NCLEX-RN pass rates are monitored annually. Advanced practice requirements including midwifery and prescriptive authority are processed through the education section of the Board, assuring qualifications, credentials and educational requirements are met.

The Board is responsible for the regulation of West Virginia nursing programs preparing registered professional nurses for initial licensure. The Education section of the Board reviews reports, faculty qualifications, changes reported by the programs and performs accreditation site visits to assure the requirements in the law are met. Statistics such as program pass rates and graduate numbers are maintained by the education section of the Board.

The education section also serves to provide access to information related to the practice of registered professional nursing. Educational brochures, presentations and responding to practice questions via telephone, email and written requests are among the avenues the Board provides information. The Board developed an on-line continuing education course about the law pertaining to West Virginia registered professional nurses.

Continuing education requirements for registered professional nurse are monitored by an auditing process for compliance with the law. Licensees are randomly selected for auditing of their continuing education completed during a reporting period. Auditing of licensees occurs after every reporting period. The education section also reviews any requests for waivers of the continuing education requirement. Continuing Education Providers may apply for a providership with the Board. Providers are audited for compliance with requirements in 19CSR11 annually.

GRADUATES OF SCHOOLS OF NURSING PREPARING INDIVIDUALS FOR INITIAL LICENSURE AS A REGISTERED PROFESSIONAL NURSE

1990 - 2010

West Virginia has 21 schools of nursing which offer a total of 22 nursing programs preparing individuals for initial licensure. There are other programs which offer additional degrees for those already licensed. This graph shows the number of individuals graduating from schools of nursing in West Virginia to prepare for **initial licensure**. More schools are graduating nursing students at various times throughout the year in addition to the traditional spring graduation. Schools are now reporting the number of graduates in a calendar year.

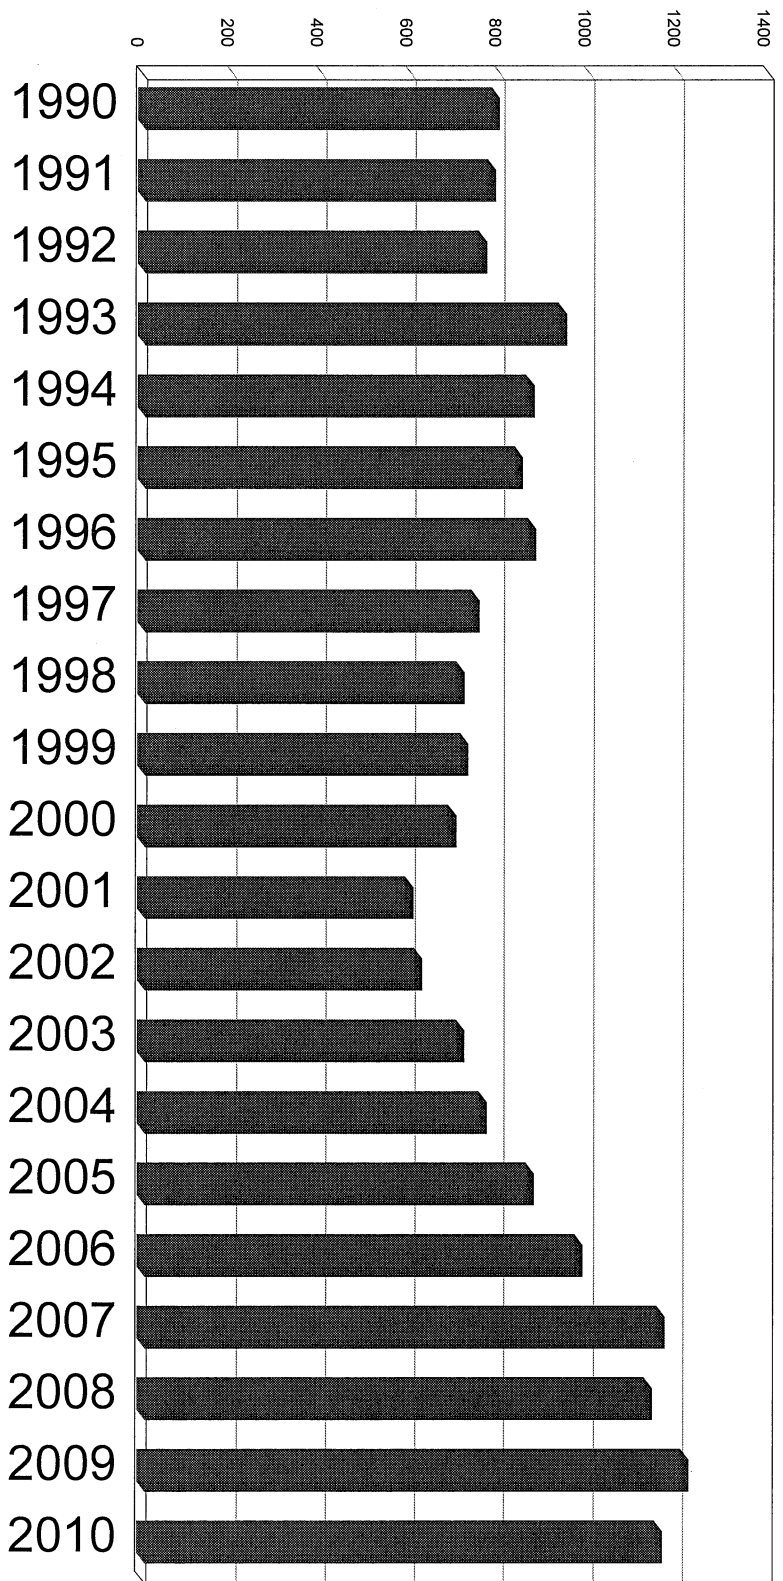

During a short time between 1990 and 2010, there were three basic degrees offered, bachelor degree, associate degree and diploma, graduating a total of 17,941 students. The last diploma program, St. Mary's Hospital, graduated its last class in 1996. At that time, St. Mary's joined with Marshall University to offer an Associate Degree in nursing.

The highest number of graduates occurred in 2007 when 1,162 candidates graduated from West Virginia nursing programs. The lowest number of graduates was in 2001 with 598 graduates. Should the historical cycle of graduates repeat itself, there should be another increase in the number of graduates over the next four to five years. The prediction for a scarcity of registered professional nurses due to the aging workforce, retirement of nursing educators and a decrease in the number of persons interested in nursing as a career is still a concern even though the current economy has resulted in a shift back to work. RNs working part time are now working full time, those in retirement have returned to work and those planning to retire are waiting until the economy is better. Though more males are choosing nursing as a career, the profession remains predominantly female.

NURSING (RN) GRADUATES IN WEST VIRGINIA BY DEGREE

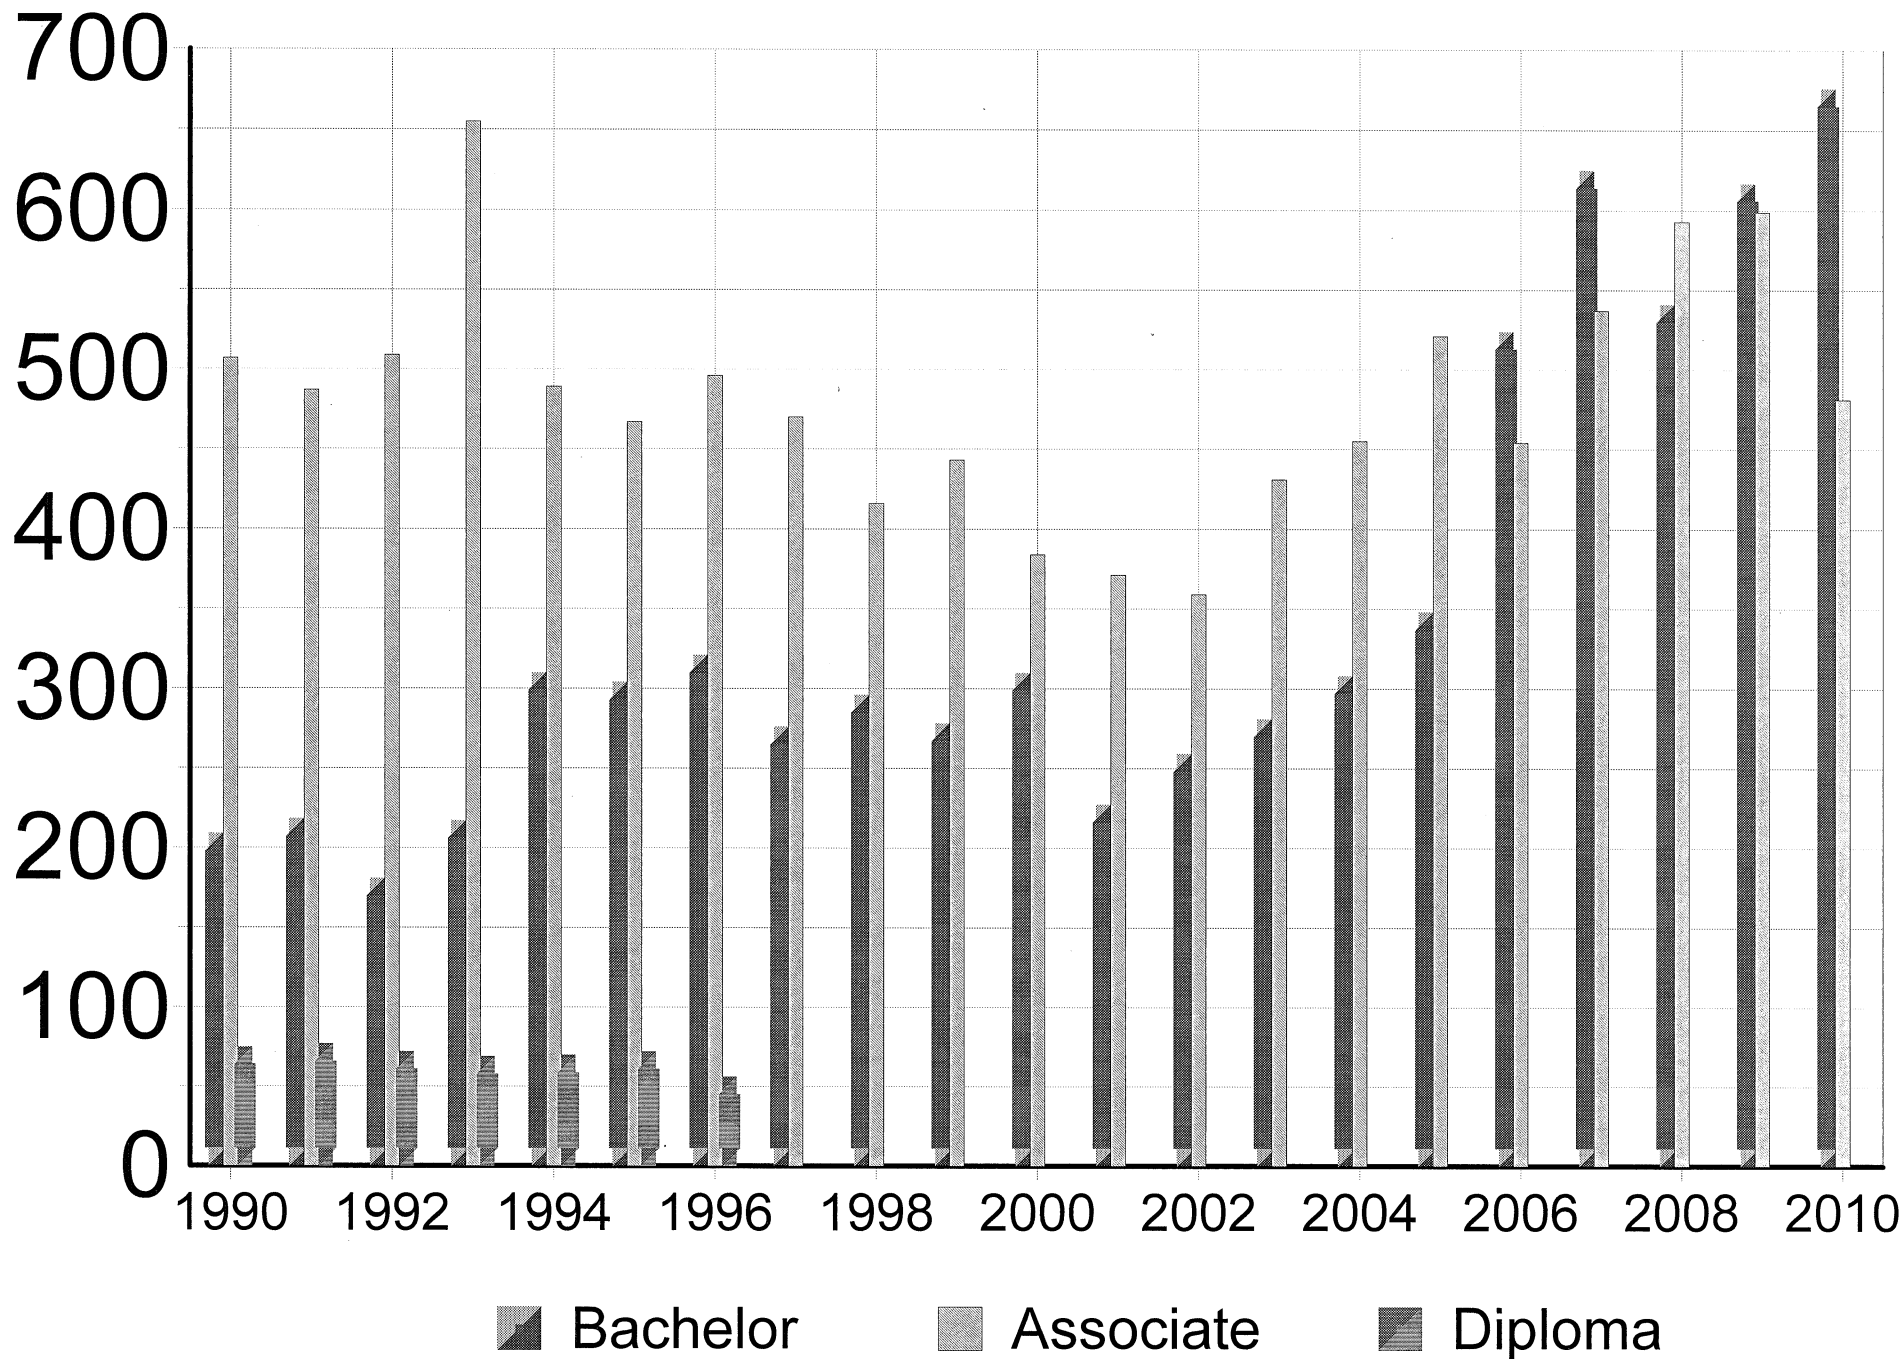

Between 2000 and 2010 a total of 9,465 students graduated. The total number of graduates include; Baccalaureate graduates 4,318, and Associate Degree graduates 5,147.

The class of 2009 had the largest number of graduates with 1,216. The lowest number of graduates occurred in 2001 with 598 graduates.

The Bachelor Degree graduate numbers increased between 1993 and 1994 by 217 in 1993 and 310 in 1994. This increase was stable through 1996 when there was a slight decrease every other year until 2002. Since 2002 there has been a steady increase of about 30 additional BSN graduates each year until 2006 when the number increased by 104 and in 2007 increased by 101 graduates. There was a slight decrease in the total number of graduates in 2008 and an increase again in 2009.

Between 1989 and 2009 a total of 17,439 students graduated from schools of nursing preparing for initial licensure. The graph on the opposite page reflects information for this twenty year period. The graph does not include registered professional nurses pursuing additional nursing degrees, such as a Bachelor degree after obtaining an Associate degree, or a Master's or Doctoral degree.

DISCIPLINE

The disciplinary section is constantly being reviewed to ensure efficiency. The disciplinary chart shows the number of final actions taken against a licensee since 2000. The chart does not indicate the actual number of cases that the disciplinary section has to review. It is safe to say that between 2000 and 2010 there were over 100 complaint driven disciplinary cases reviewed per year. In addition, there are hundreds of other cases that were reviewed by this department that were not true disciplinary cases. For instance, if an applicant, whether it is a first time applicant or endorsement or renewal applicant, indicates a criminal conviction, a drug or alcohol addiction or provides any other negative answer on the application, then that application is passed on to the disciplinary section. Some of these instances result in disciplinary action, but most do not. Yet, there is still a great amount of time and effort put into investigating the individual. There are also a great amount of resources utilized to investigate complaints which are ultimately dismissed. Although no action is taken in these cases, in order to determine a dismissal is warranted, the time and effort spent investigating the allegations is significant. Also, many of the complaints against licensees are resolved by way of consent agreement. This means that the disciplinary section is constantly monitoring licensees to ensure compliance with the agreement. Further, with the change in the child support laws, affirmative responses to these questions are also passed along to the disciplinary section.

The pie chart indicates final actions taken between 2000 and 2010. However, there were many more cases reviewed during this time that required further review by the Disciplinary Department. The disposition of the disciplinary cases includes 84 Reprimands, 228 Probations, 231 Suspensions, 4 Revocations, 20 Surrenders, 141 Denials and 632 Dismissed After Investigation. The Board also holds contested case hearings. Between 2000 and 2010, 21 hearings were held.

A licensing system developed by IS&C permits tracking of licensing activities. Board staff can now track the number of applications reviewed by each department. During the last fiscal year the Discipline Department reviewed 574 applications. This review included 128 Exam Applications, 45 Endorsement Applications, 93 Reinstatement Applications and 303 renewal applications.

ENDORSEMENT ACTIVITY

Registered professional nurses may obtain a license in another state through the process of endorsement. Each state has its own endorsement application and process, which includes a verification of licensure from another Board of Nursing. In the endorsement process, a Board of Nursing from another state accepts the nursing credentials validated by the original state of licensure. Some states also require verification of licensure from each state the person ever held a license. The verification is an official document which validates licensure, exam results (only provided by the original state of licensure), method of licensure (whether by exam or endorsement), and if there are any criminal convictions, disciplinary actions taken or complaints pending against the license.

Registered professional nurses may hold a nursing license in several states at the same time. Nurses living close to state borders and nurses traveling to various places are included in this group. From January 1, 1990 through June 30, 2010 a total of 20,187 registered professional nurses endorsed into West Virginia and 24,940 have requested a verification for endorsement out to other states.

DIALYSIS TECHNICIANS

The law relating to regulating dialysis technicians was first passed in 2005. There are currently one hundred fifty three (153) Certified Dialysis Technicians in West Virginia. Temporary permits have been issued to ninety-one (91) persons. Dialysis Technician Training Programs are also under the authority of the Board. Twenty-four (24) programs have been approved by the Board. Receipts for the 2010 fiscal year total \$45,775.00. The FY10 expenditures total \$26,942.74. A section of the Board's web site is dedicated to Dialysis Technicians. The Board and staff are available to answer any questions related to the regulation of dialysis technicians in West Virginia.
