Dear Governor Tomblin,

The West Virginia Board of Respiratory Care is pleased to provide you with our annual report for the period of July 1, 2012 to June 30, 2013.

## OVERVIEW OF ACTIVITIES

Members of the Board of Respiratory Care are appointed to serve in a voluntary capacity. The Board members are selected from various regions of the state and are practiced in home care and acute care. The Board is composed of five therapists; one physician and one lay member. As of June 30, 2013, all board terms are expired. The composition of the Board provides a knowledge base to insure the public that all facets of respiratory care are represented.

The West Virginia Board of Respiratory Care is an active participant in meetings across the state and national level. Their participation in these meetings addresses the areas of licensing, professional regulation, standards of care, clinical practice guidelines and overall changes to the healthcare delivery system. Several members of the board attend and are active in the American Association of Respiratory Care with a nationwide voting capacity of over 52,000 members. With continued involvement, the West Virginia Board of Respiratory Care and licensed practitioners in the State of West Virginia are abreast of national issues facing the current and future delivery of respiratory care services.

The Board also participates in the National Board of Respiratory Care's Disciplinary Database and the National Practitioners Data Bank – Health Practitioners Data Bank which are national databases of final disciplinary actions taken against respiratory care practitioners in all licensure states.

Respiratory practitioners holding a license to practice in the State of West Virginia are categorized into associates, certified therapists and registered therapists. As of June 30, 2013, the West Virginia Board of Respiratory Care maintained a total of

1,631 active licenses, 58 inactive licenses, and 24 active student permit practitioners in its database.

The board continues to recognize the National Board of Respiratory Care's examination as the criteria for licensing respiratory therapists in West Virginia. This national examination provides for interstate endorsement of licensees without further testing. The national examination is computerized and is offered to graduating students at more than 100 testing locations nationally. The West Virginia Board of Respiratory Care issues a license to practice when an applicant completes the educational requirements by being a graduate of a school of respiratory care and by passing at minimum, the entry level examination, and payment of appropriate fees. All applications are verified with the National Board of Respiratory Care Disciplinary Database and cleared by other state's licensing boards prior to final license approval.
