The Honorable Jim Justice

Charleston, West Virginia 25305

Dear Governor Justice,

The West Virginia Board of Respiratory Care is pleased to provide you with our annual report for the period of July 1, 2023, to June 30, 2024, in accordance with Chapter 30-1-12 of the West Virginia State Code.

The mission of this agency is to protect the public by providing competent and qualified respiratory therapists for the citizens of West Virginia. The West Virginia Board of Respiratory care provides oversight of the licensing of respiratory therapists, provides guidelines for licensing requirements, renewal of licenses, continuing education requirements, and investigations and/or prosecution of license violations.

The Board of Respiratory Care consists of seven members appointed by the governor with the advice and consent of the senate. Members consist of one lay person, one practicing physician currently licensed to practice in West Virginia with certification, clinical training and experience in the treatment of pulmonary diseases, and five members engaged in the practice of respiratory care during five years immediately preceding their appointment.

The Board of Respiratory Care works with state and national organizations to maintain the highest standards of the practice of respiratory care to ensure the citizens of West Virginia are protected and offered the highest quality of care in the practice of respiratory therapy. Respiratory Therapists have been one of the leading professions in the treatment and care of COVID-19 patients in all aspects of the healthcare field.

Please contact our office with any questions or comments regarding the information contained in this report.

Respectfully submitted,

Tracy S. Matthews, MBA, RRT, LRTR
Board President

OVERVIEW OF ACTIVITIES

The members of the Board are selected from various regions of the state and are practiced in home care and acute care. The Board is composed of five respiratory therapists, one physician and one lay member. The composition of the Board provides a knowledge base to assure the public that all facets of respiratory care and private citizens' input are represented.

The West Virginia Board of Respiratory Care is an active participant in meetings across the state and national level. Their participation in these meetings addresses the areas of licensing, professional regulation, standards of care, clinical practice guidelines and overall changes to the healthcare delivery system. Several members of the board attend and are active in the American Association of Respiratory Care with a nationwide organizational capacity of over 50,000 members. With this continued involvement, the West Virginia Board of Respiratory Care and licensed practitioners in the State of West Virginia are abreast of national issues facing the current and future delivery of respiratory care services.

The Board also participates in the National Board of Respiratory Care's Disciplinary Database and the National Practitioners Data Bank – Health Practitioners Data Bank which are national databases of final disciplinary actions taken against respiratory care practitioners in all licensure states. Respiratory practitioners holding a license to practice in the State of West Virginia are categorized into Associates, Certified Therapists, and Registered Therapists. Pursuant to Legislative Rule 30CSR1, effective July 1, 2022, the board grants licensure to applicants applying as “new or reinstatement” with a registered respiratory therapist (RRT) credential conferred by the National Board of Respiratory Care. Any respiratory therapist certified (LRTC) credential conferred by the National

Board of Respiratory Care prior to July 1, 2022, are grandfathered for licensure.

As of June 30, 2024, the West Virginia Board of Respiratory Care maintained a total of 2,279 licenses, 52 inactive licenses, and 54 active student practitioners in its database.

The board continues to recognize the National Board of Respiratory Care's examination as the criteria for licensing respiratory therapists and other credentials in the practice of respiratory care in the State of West Virginia. This national examination provides for interstate endorsement of licensees without further testing. The national examination is computerized and is offered to graduating students at more than 300 testing locations nationally. The West Virginia Board of Respiratory Care issues a license to practice when an applicant completes the educational

requirements of graduation from a Respiratory Care Educational Program of a COARC accredited school and by passing at minimum, the entry level examination, and payment of appropriate fees. All applicants are verified with the National Board of Respiratory Care Disciplinary Database and the US Department of Health and Human Services Healthcare Providers Disciplinary Database. Moreover, if an applicant previously held or is currently licensed in another state, the applicant is verified by those states for any disciplinary action which may be completed or pending.

Board Activity – Fiscal 2024

The board held three (3) meetings during the fiscal year 2024. Attendance of meetings, webinars, conferences continue to be offered by teleconference. Video equipment was purchased in June 2023 to enable video conferencing.

Prior to COVID-19 the board averaged and volume of 115 new and reinstated licenses. In fiscal 2023 the board licensed 350 new and reinstated licensees alone. This created excess funds that were transferred to the general fund.

The board continued to utilize its website for all processing of license activity. The website allows applicants to apply for new and reinstatement of licenses and to also request name changes, verifications, and annual renewal of their license in real time online. The online database also allows the licensees to report and track their continuing education units. The board continues its efforts to become paperless and efficient for its licensees and employers.

The West Virginia Board of Respiratory Care continues to operate a web site at www.wvborc.com with links to the West Virginia State homepage, various national organizations, and continuing education sponsors for respiratory care. Various forms, online license renewal payments, license verifications, and other information are available from the web site in continuing efforts for public communication. The website also allows the public to submit complaints. All monies and payments are processed by the West Virginia Treasurer's Office or the Treasurer's Office E-Gov for the board.

The board is committed to collaboration with other health related or licensing agencies and organizations in West Virginia and nationally, to identify needs, improve public access, and provide information about education, licensure practice, discipline, and accountability for health professionals. To this end, the board has continued to provide open public communication through its website and staffed office located at 106 Dee Drive in Charleston, West Virginia, 25311.

EverCheck Presentation – Ashley Kittrell; Kelly Parker

Ms. Kittrell was given the option to proceed with the EverCheck presentation by teleconference or by video at the next regularly scheduled meeting since the Video conference failed for this meeting. Ms. Kittrell decided to proceed with teleconference. At her request, this was a revisit of her first presentation. Tracy Matthews asked questions several questions, such as; (1) why EverCheck was wanting a daily data file download of our Respiratory Therapists (2) will they be charging WV Healthcare Facilities to verify credentials of Respiratory Therapists when anyone, including, WV Healthcare Facilities can already do that at no charge on our website (3) is EverCheck the only verification company that performs this service or are their others that will want data downloads as well (4) if United Health Systems and Princeton Community Hospital are requesting this daily data file transfer from the board to EverCheck, can they provide a letter to the board. Ms. Kittrell will contact the facilities and provide the letters to the board. It is notable that our board does not have its own IT server and utilizes the state's server. This matter is tabled to allow more information to be secured from the facilities and will be addressed at the December meeting of the board.
