**DEC 30 2008**

State of West Virginia  
Legislative Manager, Aaron Allred  
Building 1, Room E-132  
1900 Kanawha Blvd., East  
Charleston, WV 25305-0610

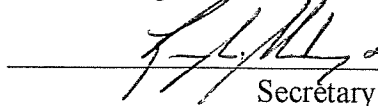

Dear Mr. Allred:

We have the honor, on behalf of the Board of Professional Surveyors, and pursuant to the provisions of Chapter 30, Article 1, Section 12(b) of the West Virginia Code, to transmit the Annual Report for FY 2008.

Sincerely,

Chairman

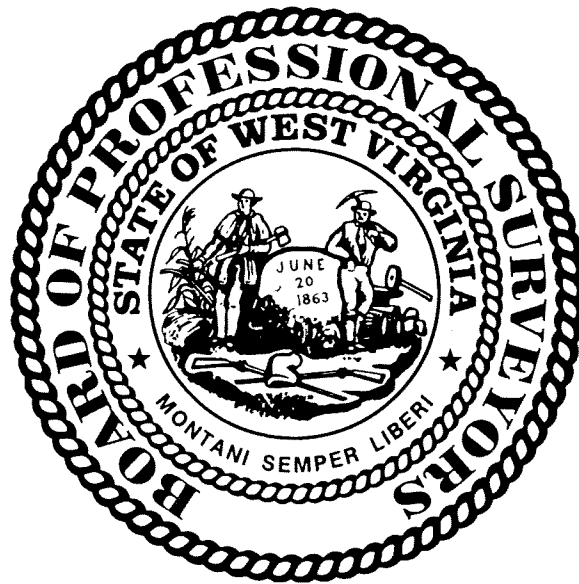

Secretary

Enclosure

West Virginia  
Board of Professional Surveyors

ANNUAL REPORT – FY 2008

---

to the Honorable Joe Manchin, III  
Governor of West Virginia

### Former Board Members

Arden L. Marshall (deceased)	May 26, 1969 to May 25, 1970
M. S. Holt, Jr. (deceased)	May 26, 1970 to June 30, 1979
F. Henry Sipe (deceased)	May 26, 1969 to June 30 1981
Frank H. Barker	November 7, 1979 to June 30, 1982
Floyd R. Stiles (deceased)	May 16, 1979 to June 30, 1983
Charles W. W. Stultz (deceased)	May 1982 to February 1986
Jesse D. Canfield (deceased)	February 19, 1986 to September 1986
Boyd Leman Kendrick	February 16, 1984 to July 16, 1985
Robert Nelson McCoy (deceased)	August 4, 1981 to January 24, 1988
Bryant Wayne Bowman	October 1986 to October 1992
Paul E. Miller	August 7, 1992 to March 5, 1996
Darrell Ray Dean, Jr.	April 1988 to January 6, 2000
Marshall W. Robinson	January 6, 2000 to September 27, 2005
Leon K. Spencer	February 18, 1986 to April 17, 2008

No. 212	May 20, 2008	WVBPS Board Office, Sutton, WV
No. 213	June 17, 2008	Holiday Inn, Oak Hill, WV

**Board Meeting Highlights:**

**July 17, 2007:** The Board approved the addition of a Division of Highways (DOH) official to attend Board meetings and to serve as a liaison for licensure of DOH employees.

The Board received the Real Estate Division’s approval to relocate the Board office in the fall.

During a 3-hour discussion, board members reviewed, revised and then approved the draft response to the public hearing and comments received on the proposed rule revisions (23 CSR 1, 4, and 5).

The need for interpretive rules to clarify ambiguities in the law was discussed as well as one to address re-monumentation of a surveyor’s own work.

A discussion then ensued regarding the need to embrace new technology and get licensees endorsed in such areas as aerial mapping, geospatial, construction, etc. Noting that the National Council of Examiners for Engineering and Surveying (NCEES) is the repository for the Colonial States Boards of Surveyor Registration (CSBSR) databank of questions for a mapping science examination and the licensing activities that are underway in other states, it was suggested that a steering committee be formed with WV Society of Professional Surveyors (WVSPS) participation to discuss options, Code modifications, etc.

The Board revised the comity exam application to require employment verifications for only the last 10 years and no longer requires college transcripts; approved the applications for 13 licensees who applied for retired status and denied two others for not meeting the age and/or medical disability requirement; reviewed the documentation from a licensee seeking a waiver of delinquent fees for medical reasons; and requested additional documentation from three licensees to determine their compliance with continuing education requirements.

Members voted to deny the renewal of a licensee’s delinquent license and found probable cause for his failure to respond to the Board and for surveying without a valid license and a valid certificate of authorization (COA).

Members also directed that a complaint be filed for a surveyor's non-compliance with a signed Settlement Agreement and Order. Board members were also updated on the status of several disciplinary actions and the formal hearing set for August 17.

**August 21, 2007:** The Board reviewed several administrative issues relating to the planned office relocation.

Following review of a draft proposed interpretive rule regarding the exemption clause, action was deferred pending further revision.

The Board approved the WVSPS Elkins Chapter's request to conduct minimum technical standards and ethics seminars on September 21.

The Board approved orders to deny active status for two licensees who did not comply with continuing education requirements; approved orders to deny active status for licensees who did not meet the quadrennial minimum technical standards and ethics continuing education requirement; and disapproved three special supervision requests.

Regarding complaints, the Board approved found probable cause and set a hearing date; approved the issuance of a Settlement Agreement and Order; authorized an investigation of three related complaints; summarily dismissed three unfounded complaints; closed three others with letters of warning to the surveyors; and authorized counsel to discuss terms of a proposed consent agreement with opposing counsel.

**September 18, 2007:** Note: A disciplinary hearing at 9 a.m. preceded the Board meeting.

Representatives of the Southern WV Community and Technical College highlighted aspects of the College's new survey technician program that is being developed in consultation with East Tennessee State University. Following discussion and responses to several questions, the Board agreed to review the NCEES guidelines for surveying curricula and the College's proposal in more detail.

The Division of Highways representative reported on progress toward licensure of several employees currently enrolled in Glenville State College courses and who plan to apply for the spring licensure exams. He reviewed use of machine control in several ongoing highway projects. He also led a discussion on route surveying and the planned issuance of a design directive that could benefit property owners when corners are removed by the DOH in widening projects. The Board offered to provide input to DOH before the directive is finalized.

The Board voted to issue an order revoking the license of John F. Kovach, P.S. 999 that would require payment of fines and administrative costs and completion of educational requirements before he can reapply for licensure.

Also, the Board approved the terms of a consent agreement for counsel to offer in lieu of completing a hearing in progress; if the terms are not acceptable, the hearing will continue as planned.

The Board authorized an investigation of specific aspects of a complaint (\$2500 budget limit); summarily dismissed one complaint as unfounded; approved another complaint for closure with a letter of warning to the surveyor and a requirement that a revised, compliant plat and description be resubmitted to the Board and complainant; and approved the issuance of three settlement agreements and orders to resolve three other complaints.

**October 16, 2007:** With the office relocation planned for late October, the Board approved the low bid by DeMary Brothers Transfer for moving services. Other issues related to the relocation were discussed.

Representatives of Southern WV Community and Technical College were in attendance to discuss the new survey technician program in more detail, noting that any Board recommended adjustments could be made to the program. Since the course syllabi had been e-mailed to the Board the previous day and there was inadequate time for review, the Board hoped to provide its approval or disapproval in November or December.

Members recapped information regarding additional licensure endorsements obtained in dialogue among the states attending the CSBSR meeting in Kentucky.

The Board found probable cause and approved the issuance of an order setting a hearing date for licensee who practiced without a valid license and COA and who did not respond to the Board; approved a draft consent agreement to settle a complaint; instructed counsel to revise the order and set continued hearing because surveyor rejected offer to settle with a consent agreement; set an informal investigative conference with a surveyor and complainants to be held in conjunction with November meeting; approved the Complaint Review Committee (CRC) to conduct informal investigative conferences with three other surveyors involving four complaints; suggested settlement agreement and orders be offered to close two cases; and closed one additional complaint as being without merit.

**November 27, 2007:** The Board approved the purchase of a server based on lowest bid received by the Office of Technology's (OT) bid process, the operating system software and licenses by statewide contract, and a firewall based on OT's recommendation.

Representatives of the Southern WV Community and Technical College discussed several aspects of the College's new surveying program. As requested, the Board approved the three courses scheduled for the spring semester.

The Division of Highways representative expressed his interest in a license endorsement for route surveying as well as serving on a steering committee to review endorsement options. While noting that the Code limits endorsements to underground and then recapping efforts by the CSBRS in developing a databank for photogrammetry and geographic information systems (GIS), other potential members of a steering committee were suggested by Board members.

Following discussion of the recent continuing education audit and in an effort to maintain integrity of that program, the Board adopted a policy that for the next renewal period any in-house training, company sponsored-seminars, or attendance at local chapter meetings of professional or technical society will count as 25 percent of the total 8 professional development hours required.

The Board was also advised of a meeting with Judge Facemire in which the Judge agreed to the Board's use of agreed-to injunctions, a successful mechanism used by the Kentucky Board to settle complaints for unlicensed practice. During the discussion, it was also suggested that the respondent pay the filing process fees as part of the agreement.

The Board approved the issuance of licenses to three who successfully passed the fall licensing examinations; approved one application for retired status based on a documented medical disability; disapproved an incomplete application for conducting a minimum technical standards and ethics seminar; approved one special supervision application through June 30, 2008; and reviewed a complaint that a complainant asked to be re-opened based on additional documentation he submitted.

Note: The Board also conducted an informal investigative conference with a surveyor and two complainants from 1 p.m. to 4 p.m.

**January 15, 2008:** The Board meeting was held via conference call due to inclement weather. The Board tabled a special supervision application pending additional information/clarification; approved an application for retired status; reviewed results of the random continuing education audit, approving all but three that warrant additional review; and set the date for the Board-sponsored standards/ethics workshop for May 14, 2008, at the Civic Center in Charleston.

Regarding complaints, the Board: approved the issuance of a cease and desist order for unlicensed practice and a subpoena to a potential complainant for additional documents relating to same individual; discussed terms of agreements pursuant to informal investigative conferences involving three surveyors and 5 complaints; summarily dismissed three complaints as unfounded; set the date for an informal investigative conference with a surveyor; and confirmed dates for upcoming formal hearings (February 13, and March 27 and 28).

**February 19, 2008:** As a result of discussions at the legislative hearings regarding rules, concern was again expressed by delegates about the need to revise/strengthen the law regarding county surveyor; the Board encouraged WVSPS and the county surveyor association to be proactive in seeking legislative action. Other discussions warranting further review and comment related to: renaming of peaks, streams, and long-standing landmarks and the impact on future historical public record research, and the Jefferson County Commission's Planning Department's proposal regarding digital file submission standards. In follow up to previous discussions regarding the formation of a steering committee to review potential license endorsements for three disciplines (construction/highway; GIS, and photogrammetry), seven individuals including representatives of those disciplines were invited to serve on the steering committee on a volunteer basis.

The Board was advised that the Insurance Commissioner is establishing procedures to implement 2007 legislation that would require state agencies to "revoke any contract, license, permit, certificate or other authority to conduct a trade, profession or business in the State, of any employer in employer default with regard to workers' compensation."

The Board changed the 2009 certificate of authorization application requirement for a corporate officer or owner to certify that the firm is compliant with all required business registrations in

W.Va., rather than requiring compliance copies to be submitted with the application. The Board approved 40 applications for licensure exams and denied three others. The Board also approved: the minimum technical standards and professional ethics seminars to be given at the Society's convention, and a newspaper ad soliciting applications for the Board Administrator position to be vacant July 1, 2008.

Regarding complaints, the Board approved: six settlement agreements; one consent agreement; the terms of two other consent agreements for discussion of acceptance with surveyors; the issuance of agreed orders and injunctions for three unlicensed practitioners; and two vacate orders. The Board also closed two complaints, one with a letter of caution, and summarily dismissed one unfounded complaint.

**March 18, 2008:** A brief board meeting followed an informal investigative conference. The Board noted the need for Series 1, 4, and 5 rules to be final filed with the Secretary of State's office following completion of legislative action on March 8. In the absence of an invited representative, the Board also discussed its response to the WVSPS Clarksburg Chapter regarding complaint procedures.

Regarding complaints, the Board: approved an order to grant continuance for a formal hearing; approved in concept the terms of one consent agreement and one settlement agreement; approved for signature two final settlement agreements (changing one from a vacate order), one vacate order, and one subpoena; approved issuance of injunctive agreements for two unlicensed practitioners; closed two complaints with letters of caution to the surveyors; and closed another complaint with an offer of a consent agreement with reprimand. Two other complaints were tabled pending receipt of additional information relating to the possible violation of a previous consent agreement and order.

**April 29, 2008:** The Board approved Legislative Rules, Series 1, 4, and 5, to be effective May 1, 2008. Notification will be through 2009 license renewal notices.

A discussion was held expressing concerns of expanding use of GPS units on machinery. A letter needs drafted for Board approval indicating that machine control needs to be supervised by a licensed surveyor.

A discussion was held concerning when a survey was and was not required for annexation. Members voted that annexation of parcels can utilize existing boundaries, provided there is a well written description clearly defining intent with boundary map attached, completed by a licensed surveyor. If new lines are drawn for annexation, then, minimum standards for boundary survey apply. An Interpretive Rule will be prepared concerning annexation.

The Board approved requests from DOH and WVUIT to conduct minimum standards and ethics workshops for continuing education.

The Board discussed that anyone claiming more than 2 PDH's for attendance at Chapter meetings shall provide supporting documentation to show subject matter training relative to surveying. This discussion was to clarify a motion from a previous meeting.

The Board approved the revision of the License Renewal Form to delete the areas of practice and special competence section.

The Chairman presented a recap of his attendance at the NCEES Northeast Zone Meeting and that he would be attending the NCEES Annual Meeting in Minneapolis, MN, in August 2008.

The Board approved the issuance of a probable cause order and set a hearing date; approved a consent agreement and order and settlement agreement; approved the issuance of an injunctive agreement; scheduled an informal conference; summarily dismissed four unfounded complaints; and dismissed two complaints with letters of warning.

**May 20, 2008:** Travis Long, DOH Representative, presented the Board with a highway sign for the new Board office location.

A Board discussion was held concerning Interpretive Rules for Exemption from Licensure, Machine Control, and Annexation.

The Board approved the special supervision request but noted that the current form is deficient and needs revision.

Southern West Virginia Community & Technical College submitted their Fall 2008 semester schedule for review by the Board. After discussion, the Chairman directed that a letter be drafted indicating that their proposed classes were incomplete and more information and detail would be required for consideration.

The Board discussion was held concerning the minimum full-time work hours per week for designation as Surveyor-in-Charge.

The letter to Patriot Coal for exemption from the Certificate of Authorization requirement was approved.

The Board approved revisions to the 2009 License Renewal Application and Continuing Education Verification forms.

Fourteen applicants were reported as passing the West Virginia specific examination. Results of the exam will not be released until notification of results from NCEES.

The Board approved Final Order with changes; forwarded one rejected subpoena to the Prosecuting Attorney's Office for further action; approved the issuance of a letter or reprimand; and approved a Settlement Agreement and Order.

**June 17, 2008:** A discussion was held concerning the Board's website being developed. Future additions to the Web site will allow browsers to search the database, but will not be able to provide a roster. Database search will be by individual name only with a current Certificate of Authorization for name, license #, and status. A search by county will provide a roster of which the public can select a surveyor, to obtain their business, address, and phone number. Complaints will not be accessible on the Web site.

Mr. Henline, WVSPS Representative, reported that the limitation of Chapter meetings for PDH's at 25% was not being well received with the Society.

Mr. Henline led a general discussion concerning machine control and reported that the Board's fee increase proposal had been submitted to the Society.

The Board approved the revised Special Supervision Form and directed that it be posted to the Board's Web site along with the Complaint Form and instructions.

A discussion was held concerning Construction Stake-out Services in West Virginia.

The Board approved the minimum standards and ethics seminar sponsored by the WVSPS on June 28, 2008 in Flatwoods, WV.

The Board Administrator reported that a joint meeting with the Engineering Board was scheduled for June 25, 2008, at the Board office.

The Board approved a Consent Agreement; closed two complaints with letters of warning; approved an investigator for unlicensed complaint; issued probable cause order; and scheduled formal hearing.

#### **Administration:**

***Board Appointments and Officers:*** On April 17, 2008, Governor Manchin appointed Nelson Douglass, P.S., for a term ending June 30, 2010, succeeding Leon K. Spencer.

Mr. Spencer was appointed by the Governor to serve as an emeritus member of the Board in a non-voting position. The Governor's proclamation was presented to Mr. Spencer by Mr. Steve Pilato, the Governor's regional representative, at a ceremony in Oak Hill on June 17, 2008. Mr. Spencer will serve in that capacity as requested by the Board.

On April 29, 2008, Gregory A. Smith was re-elected Board Chairman and Roy E. Shrewsbury was elected as Board Secretary, to succeed Mr. Spencer.

***Personnel:*** Marilee Bright and Connie Frame continued as Board Administrator and Administrative Assistant, respectively.

To prepare for Mrs. Bright's planned retirement on July 1, 2008, advertisements were published in several Sunday and weekly newspapers in early March 2008. Applicant letters and resumes were reviewed by the Board in late March and interviews were conducted on April 2.

Dennis D. Jarrell was selected as the new Board Administrator and appointed to a 60-day temporary transition appointment on May 1. He assumed the position of Board Administrator upon Mrs. Bright's retirement on July 1, 2008.

Jake Wegman, Assistant Attorney General, served as the Board's designated counsel for a 16-month period which ended on May 1, 2008, when Anthony Eates, II, was assigned to that position by the Attorney General's office.

**Office Relocation/Enhancements:** With the continued unavailability of high-speed internet and the need for a larger conference room, the Board relocated its office to a new building 2 miles from the I-79/Flatwoods interchange in late October 2007, pursuant to the Real Estate Division's approval. The higher rent is offset by utilities that are included and the need to rent off-site space for routine hearings and conferences is negated.

In mid-March 2008, the mailing address changed for direct delivery to 416 Airport Road, Suite 1, Sutton, WV 26601, rather than a post office box address that had been used for the last several years. At the same time, the Board's E-mail address also changed to [wvbps@wv.gov](mailto:wvbps@wv.gov), with documents forwarded from the old E-mail address for a 90-day transition period.

High-speed internet service was also finally accomplished in mid-March 2008, after several months of T-1 connectivity delays by Verizon. Because Verizon could not provide any high-speed internet service at the new address, service was approved by the Office of Technology (OT) for phone and internet service to be provided by Fibernet, at a cost equal to the voice lines provided under state-wide contract by Verizon.

With an enhanced website planned, data backup and segregation of data for public review, it seemed prudent to upgrade to a dedicated server for the Board's records in lieu of the aging desktop computer that had also functioned as the network server. A server, software, and a firewall were purchased with the assistance of OT staff in Charleston via statewide contracts and/or bid process. Installation and technical assistance was completed by OT following high-speed internet connectivity.

A basic website, designed by the State Treasurer's office at no cost, was available in time for licensees to make credit card payments for license renewals on June 9, 2008. Seventeen percent of the active and inactive licensees (191) paid their renewal fees by credit cards via the Board's new website.

**Budget:** The Board's FY 2009 expenditure schedule was submitted on April 30, 2008.

**Training:**

Mrs. Bright completed the State Auditor's training for Boards on September 26, 2007, at the Charleston Marriott.

Mrs. Bright successfully completed the mandatory Purchasing Card training for coordinators on September 27, 2008, at the Charleston Marriott.

Mark Hornish attended CLEAR's (Council on Licensure, Enforcement and Regulation) specialized National Certified Investigator/Inspector Training program in Phoenix, Arizona, on October 22-24, 2007.

**Purchasing Inspection:**

In response to a request from the Director of the Purchasing Division, the Board provided documentation for a purchasing inspection that was scheduled for July 16, 2007. No significant compliance issues were identified in the Division's report dated August 7, 2007.

### ***Professional Meetings:***

Board Chairman Gregory Smith attended the Annual Meeting of the National Council of Examiners for Engineering and Surveying in Philadelphia, Pennsylvania August 22-25, 2007. Machine control, licensure mobility, and a possible separate licensing module for GIS that some states have defined under surveying, were among the surveying subjects discussed.

Board members attended the fall meeting of the Colonial States Boards of Surveyor Registration (CSBSR) October 5-6, 2007, in Frankfort, Kentucky. Since this Board is looking at geographic information system (GIS) “endorsements” to supplement the P.S. license, the CSBSR Mapping Sciences Item Bank and the GIS examination being compiled for the South Carolina licensing board were of particular interest. Board members also met with Kentucky State Board of Licensure for Professional Engineers and Land Surveyors to discuss more aggressive complaint resolution regarding unlicensed practice issues.

Mrs. Bright attended meetings of the WV Association of Licensing Boards in Charleston on September 26, 2007, and February 8, 2008.

Board Chairman Gregory Smith and Mark Hornish presented the Board’s Calendar Year (CY) 2007 reports at the opening session of the WV Society of Professional Surveyors 40<sup>th</sup> annual convention in Morgantown on March 20, 2008.

Gregory Smith attended the spring meeting of the Colonial States Boards of Surveyor Registration on April 3 and the NCEES Northeast Zone Meeting – April 3-5, 2008, in Quincy, MA.

### **Legislation:**

Legislation, which was introduced by Senator Sypolt as S. B. 253 and was passed by the Legislature, amended the WV Professional Surveyors Act (§30-13A-27) to provide the conversion factor for a meter to a U.S. survey foot in the West Virginia Coordinate System of 1983.

### **Rules and Regulations:**

The Board again proposed changes to its Series 1 legislative rules, *Rules and Minimum Standards of Practice of Land Surveying in West Virginia*, and the creation of Series 4 and Series 5. Similar proposals were withdrawn in 2006 to provide more time for the surveying community to consider the scope and impact of the rules.

Series 1 (23 CSR 1) was revised and reorganized to contain all the rules pertinent to the examination and licensing of professional surveyors and the title changed to *Examination and Licensing of Professional Surveyors in West Virginia*. The result was the creation of Series 4 and 5. Series 4 (23 CSR 4), *Fees for Surveyors and Surveying Firms in West Virginia*, established a fee schedule relevant to surveyors and surveying firms. Series 5, (23 CSR 5) *Standards for the Practice of Surveying in West Virginia*, consolidated all the rules pertinent to the practice of surveying.

Following distribution and discussion of draft rules at the February 2007 Convention of the West Virginia Society of Professional Surveyors (WVSPS), the society provided comments at a later meeting with the Board, which resulted in proposed rules being submitted to the Secretary of State on June 7, 2007. All licensees were notified of the proposed rule changes and that a public hearing had been set for July 9, 2007, at the Days Hotel in Flatwoods. Six individuals attended the public hearing; written comments were received on behalf of the WVSPS and two of the attendees. Agency approved rules were filed with the Secretary of State and the Legislative Rule-Making Review Committee on July 27, 2007.

The Legislative Rule-Making Review Committee held a hearing on the Board's legislative rules on Sunday, December 9, 2007, and approved the revision of 23 CSR 1 with minor technical modifications. While the WVSPS had agreed not oppose the rule revisions, members of the Clarksburg chapter raised unauthorized WVSPS opposition to the proposed fee increases in 23 CSR 4 resulting in Committee consideration of 23 CSR 4 and 23 CSR 5 being continued to Tuesday, December 11. Following rejection of the proposed license renewal and certificate of authorization renewal fee increases and return of those fees to current levels, the Committee approved 23 CSR 4, Fees, and 23 CSR 5, Standards of Practice, with only minor technical modifications on December 11, 2007. The Board submitted modified proposed rules for all three series on December 19, 2007.

Senate Bills 442, 443, and 444 and House Bills 4271, 4272, and 4282 were introduced and considered by relevant committees to authorize promulgation of the respective rules. Subsequently, the Board's rules were bundled in S. 349 that was passed by the Legislature on March 8 and was signed by the Governor on March 27, 2008. The final rules were filed with the Secretary of State's office on April 30, 2008, and were made effective May 1, 2008: 23 CSR 1 - Examination and Licensing of Professional Surveyors in West Virginia; 23 CSR 4 - Fees for Surveyors and Surveying Firms in West Virginia; and 23 CSR 5 - Standards for the Practice of Surveying in West Virginia.

### **Licenses:**

License renewal applications were mailed in May 2007 to 1003 active licensees, 139 inactive licensees, 96 in delinquent status (28 whose licenses went delinquent June 30, 2004, were notified by certified mail that their licenses would expire if not renewed by June 30, 2007; 35 went delinquent on June 30, 2005; and 33 went delinquent on June 30, 2006). Reminder notices were mailed on August 8, 2007, to 71 licenses who had not returned their renewal applications (46 previously active and 25 previously inactive licensees).

Bar-coded renewal coupons accompanied applications and licensees were instructed to mail their renewals to a P. O. Box in Charleston – to the State Treasurer where renewals were opened, coupons scanned, and check and credit card payments were deposited in the Board's account. Before noon each day, an electronically-transmitted payment report was sent to the Board for uploading to surveyor's individual accounts in the database. The renewal applications were then mailed to the Board office for receipt and processing the next business day.

This effort significantly reduced staff time in paper handling, manual data entry, processing checks for daily deposit, and making treks to the bank. There were NO glitches in lost or delayed paperwork nor charge for the service they so ably provided.

The issuance of three licenses was delayed until the Board was notified by either the Bureau of Employment Programs or the WV Insurance Commission that defaulted unemployment compensation or workers' compensation accounts had been cleared.

Thirteen licensees who applied for retired status were approved by the Board. Applications for two others who neither met the minimum age requirement nor offered medical reasons for early retirement were denied; both maintained their licenses, however, one in active status and the other in inactive status.

For FY 2008, the Board maintained records on 1361 licensees: 966 active licensees; 141 inactive licensees, 171 retired licensees, and 83 delinquent licensees who were in the 36-month grace period for renewal without re-examination. Six hundred and twenty-two active licensees resided or worked in WV.

### **Licensing Examinations:**

#### ***Fall 2007 Examinations:***

The Board administered the licensing examination to 33 of the 37 approved candidates on October 26 and 27, 2007, at the Days Hotel in Flatwoods, WV. Four approved candidates cancelled because of work assignments or family reasons. One application was denied by the Board.

- Four of the twelve candidates approved to take the NCEES Fundamentals of Surveying examination passed the first portion of the licensing exam; three of whom have surveying degrees from Glenville State College (GSC). Nine of the twelve took it for the first time. Nine also met the new educational requirements while the remaining three qualified under the experience requirements. The following candidates received their Surveyor Intern certificates:

Samuel Franklin Coffey –SI 138  
Joshua Thomas Rayburn – SI 139  
Douglas Raymond Rowe – SI 140  
Robert Allen Ruffner, SI 141

- Four of the six candidates who took the NCEES Principles and Practice of Surveying examination passed; three of the five who took it for the first time passed.

- Three of the twenty-one candidates who took the West Virginia state-specific examination passed. Nine of the examinees were WV residents; while twelve were non-residents. Seven had previously taken the exam at least one other time.

- Three candidates received their licenses in December 2007 as a result of the fall exams:

Rick Kevin Bowers, P.S. 2157  
Jonathan Franklin Murphy, P.S. 2158  
Thomas E. Wince, P.S. 2159

The new licensees represent the following states: West Virginia, North Carolina, and Tennessee. One new licensee holds a surveying degree from GSC.

***Spring 2008 Examinations:***

The Board administered the licensing examination to 40 approved applicants on April 11 and 12, 2008, at the Days Hotel in Flatwoods, West Virginia. Three applications were denied by the Board.

- Three of the ten candidates approved to take the NCEES Fundamentals of Surveying examination passed the first of three portions of the licensing examinations; one of the successful candidates holds a surveying degree from GSC. Two of the ten took it for the first time and were among those passing. Six of the ten also met the new educational requirements while the remaining four qualified under the experience requirements. The following candidates received their Surveyor Intern certificates:

Jason Scott Hinter, SI 142  
Ray Richard Huffman, III, SI 143  
Erik Devon Schafer, SI 144

- Two of the four candidates who took the NCEES Principles and Practice of Surveying examination passed; both had previously taken the exam at least one other time. One successful candidate holds a surveying degree from GSC.

- Fifteen of the thirty candidates who took the WV state-specific exam passed. Eleven of the examinees were WV residents and nineteen were non-residents. Nineteen had previously taken the exam at least one other time (ten resident; nine non-resident).

- Fifteen candidates received their licenses on June 4, 2008, as a result of the spring exams:

Gregory A. Biedenbach, P.S. 2160  
Michael Joseph Cannoni, P.S. 2161  
David Tylee Frankenfield, P.S. 2162  
Philip R. Horne, P.S. 2163  
Jeffrey A. Horneman, P.S. 2164  
Ryan R. Jones, P.S. 2165  
Jared Nicholas Knerr, P.S. 2166  
Bradley David Miller, P.S. 2167  
Benjamin Lee Neal, P.S. 2168  
David P. Povich, P.S. 2169  
Neil Charles Shultz, P.S. 2170  
David Neil Shumate, P.S. 2171  
Shannon Lee Stotler, P.S. 2172  
Gregory Wengert, P.S. 2173  
Jason Lee Woods, P.S. 2174

The new licensees represent the following states: West Virginia - 3; Delaware - 1; Kentucky - 1; Ohio - 3; Pennsylvania - 5; and Virginia - 2. One new licensee holds a surveying degree from GSC.

### ***Underground Endorsements:***

Following application to the Board and passage of a new written exam, two new underground surveying endorsement certificates were issued: Charles Kevin Tustin, 2133 SU, on January 31, 2007, and James Herman Corner, 2137 SU, on April 25, 2007.

### **Continuing Education:**

The Board continues to be generally pleased that most professional surveyors continue to comply with the Board's mandatory continuing education requirement of 8 professional development hours (PDHs) in order to renew their annual license. Each licensee is asked to report PDHs earned with the annual license renewal application. PDHs are reviewed by the Board Administrator prior to license cards being issued.

Twenty-four dual licensees were requested to provide additional information to verify that their reported PDHs were indeed surveying related. Five were found to be fully compliant, while seventeen had sufficient PDHs to be licensed, although some PDHs were disapproved and their carry-over was reduced. Two others did not provide substantiating information that their reported PDHs were surveying related, so their licenses were placed in inactive status; however, both subsequently obtained PDHs that were approved and they were immediately returned to active status. All licensees were mailed computer-generated status reports, noting the PDHs claimed, PDHs applied to the requirement, and any hours to be carried over to the next reporting period. The report also noted their compliance in meeting the quadrennial requirement for 2 PDHs each in minimum technical standards and surveying ethics.

The Board's database generated the random audit list and letters were mailed to 50 licensees October 19, 2007, requesting verification of claimed PDHs. As a result of the audit, all were found to be fully compliant; however, seven reported some PDHs that were not approved by the Board. Five of those still retained the maximum of 8 PDH carryover while two received a reduction in carryover PDHs.

Following review of PDHs reported during the renewal process and in an effort to maintain integrity of its mandatory continuing education program, the Board adopted new policies regarding the number of PDHs that will be accepted for certain activities:

- In-house company-sponsored or company-required courses will be limited to 25% of the total 8 PDHs required unless documentation is provided to show relevance to surveying.

- Attendance at local chapter meetings of professional or technical societies will also be limited to 25% of the total 8 PDHs required unless documentation is provided that shows a structured training program relative to surveying was conducted aside from the business meeting (limited to 1 PDH per meeting).

The Board's mandatory continuing education rules require licensees to obtain 2 PDHs each in minimum technical standards and surveying ethics every four years. Such courses must be Board sponsored or Board approved. Five workshops were approved by the Board and offered to licensees for the period July 1, 2006 to June 30, 2007. All licensees who needed to meet the mandatory requirement by June 30, 2007, were sent a reminder notice that accompanied their licenses the previous year. However, eighteen did not fully meet the mandatory requirements for minimum technical standards and ethics and their licenses to practice were denied. Subsequently, nine successfully completed the requirements and were returned to active status during FY 2008 (while 5 more met the requirements and returned to active status at the beginning of the FY 2009 license year).

During FY 2008, the Board held a continuing education workshop at the Clarion Hotel and Conference Center in Shepherdstown, WV on December 13, 2007, on minimum technical standards and ethics. Certificates were presented to 50 participants who completed the workshop despite the icy road conditions. The workshop was repeated at the Charleston Civic Center in Charleston, WV on May 14, 2008, where 102 certificates were awarded to participants. Knud Hermansen, Ph.D., PLS, PE, Esq. was the instructor for both workshops.

The Board also pre-approved the West Virginia Society of Professional Surveyors to present minimum standards and ethics courses at Elkins, WV on September 21, 2007; at its annual convention in Morgantown on March 20 and 22, 2008; and in Flatwoods, WV on June 28, 2008. Additionally, the Board approved the Department of Highways to present the minimum standards course on May 15, 2008, in Flatwoods, and the West Virginia University Institute of Technology to present both minimum standards and ethics on May 29 and 30, 2008, at its Montgomery, WV campus.

The Board limits its course pre-approval to the mandated minimum technical standards and surveying ethics courses. It is the licensee's responsibility to select courses that will maintain, improve, or expand the skills and knowledge relevant to the licensee's field of practice.

### **Certificates of Authorization (COA):**

Renewals for Certificates of Authorization for CY 2008 were mailed on November 29, 2007, to 460 firms holding active certificates (WV firms: 313; non-resident: 147 firms). Notices were also sent to 80 firms who had requested that their COAs be placed in inactive status in CY 2007 (WV firms: 33; non-resident: 47).

For CY 2008, 464 COAs were issued; 67 firms filed for inactive status; 78 firms have closed or are no longer offering surveying services in the state and the COAs for 105 have expired. The fee for both the initial COA application and the annual renewal fee was \$100.

During FY 2008, four new COAs were issued in the last half of CY 2007 and seventeen new COAs were issued in the first half of CY 2008.

Two firms were in default with both their unemployment compensation and workers' compensation accounts. One was resolved and the COA was subsequently issued; the Board was not notified that the other one was satisfactorily resolved so the COA was not issued before the end of FY 2008.

The status of two COAs was changed from active to inactive when the Board learned that the firms' surveyors-in-charge (SIC) and the only WV-licensed surveyor with those companies had left their employment. Several other COAs were issued but the SIC was notified that the license of a listed "authorized" surveyor was not active and he was not authorized to practice surveying in this state.

Because of multiple instances of non-compliance, the Board continued in CY 2008 to require submission of the WV business registration and workers' compensation certificates (or exemption certificates) with their COA renewal application. However, for future renewals (CY 2009) the Board will require only a certification from a corporate official that the firm is in compliance with all WV-state business registration requirements.

**In Memoriam:**

Charles Elkins Maddox, Jr.	P.S. 1660
Curtis Douglas Miller	P.S. 1218
Harvey D. Peterson	P.S. 598
Herbert Chapin Rockwell, Jr.	P.S. 584

**Complaints:**

Complaints are processed in accordance with 23 CSR 3, Disciplinary and Complaint Procedures for Land Surveyors. Once a complaint is received at the Board office, an acknowledgement letter explaining the complaint process is mailed to the complainant with a copy to the licensed surveyor. The complaint then goes through a preliminary review to determine whether it is founded or unfounded. An unfounded complaint is outside the jurisdiction of the Board or there are insufficient grounds to pursue an investigation. If the Board concurs, unfounded complaints are summarily dismissed. Founded complaints are filed, assigned a complaint number, and the licensee is sent a letter asking him to respond to the allegations within 30 days. Following an opportunity for the complainant to review and respond to the surveyor's response, the complaint is sent to the Board's Complaint Review Committee (CRC) for review and recommendation.

During FY 2008, 55 complaint forms were mailed to potential complainants. Of those, 31 were returned prior to the end of the fiscal year. Twelve additional complaints were filed by the Board, bringing the total to 43 complaints. Of the 34 founded (filed) complaints, 9 or 26 percent were from unlicensed practice and 25 or 74 percent involved licensees.

The primary reasons for complaints against licensees were:

- failure to make a reasonable attempt to contact or notify adjoiners;
- preparing survey documents requested by attorneys and used as exhibits in court (the specific purpose should be stated and such documents should not be presented as an official survey document, i.e., plat of survey);
- failure to apply minimum standards;
- failure to show facts as a result of actual field location rather than using verbatim calls of another surveyor;

- performing a “claimed by” survey rather than comparing claim areas and use lines to the senior record line.

### ***Complaint Review Committee:***

The CRC assists the Board in the review and investigation of founded complaints by: summarizing complaint allegations and reviewing the surveyor’s response to them; providing technical review and evaluation of the facts as they relate to the law, rules or regulations; and to make recommendations to the Board for further action. The CRC, which is chaired by Board Member, Mark H. Hornish, P.S., consists of four other licensed professional surveyors who also function as contract investigators: David L. Jackson, P.S., Lantz G. Rankin, P.S., Rick Sypolt, P.S., and Donald L. Teter, P.S. The members represent different regions throughout the state and do not investigate within their respective areas if at all possible.

The CRC met five times in FY 2008:

- At its August 14, 2007, session, 10 complaints were reviewed: two were unfounded; one surveyor was found to be surveying without an active license; two surveyors were requested to provide additional information; investigations were recommended on three complaints involving the same surveyor; and two were recommended for closure (one with a letter of warning).

- At the January 8, 2008, session, the CRC conducted two informal investigative conferences with the surveyors and complainants. One session involved one complaint and the other involved two complaints against the same surveyor.

- At the March 10, 2008, session, five complaints were reviewed. The CRC recommended that reprimands be issued for two complaints; additional information needed to be requested on one complaint; and two were recommended for closure with letters of caution.

- At the April 21, 2008, session, five complaints were reviewed. The CRC recommended that three complaints be closed, with letters of caution being issued to two surveyors for two of the three complaints and that informal investigative conferences be scheduled on the other two complaints.

- At the June 10, 2008, session, the CRC held informal investigative conferences with two surveyors involving two complaints. The Committee also recommended that another complaint be closed with a letter of warning. The Committee also began but could not complete review of another voluminous complaint file before adjourning.

### ***Cease and Desist Orders:***

The Board issued nine (9) Cease and Desist Orders for the following individuals for the unlicensed practice of surveying:

- August 3, 2007: David G. Meyer, P.E. (OH) second order reiterating that a recorded boundary survey transfer of WV property he signed and sealed and expert witness testimony concerning surveying matters constitute unlicensed practice of surveying.

- December 19, 2007: Larry A. Sowards, Nitro, WV
- December 28, 2007: Larry Angel, Huntington, WV
- December 28, 2007: Robert E. Blackburn, Fayetteville, WV
- January 17, 2008: Merlyn J. Jenkins, P.S. (PA) for surveys conducted in Raleigh and Kanawha Counties in WV.
- January 17, 2008: Gregory A. Davis, Newton, WV.
- January 23, 2008: Darrin F. Cooper, Chesapeake, WV.
- June 3, 2008: Robert Sovine, Hurricane, WV.
- June 16, 2008: Richard L. Johnson, Cross Lanes, WV.

The Board issued two (2) cease and desist orders to the following licensees for practicing without an active license and certificate of authorization:

- August 31, 2007: William F. Knight, P.S.710-Inactive.
- September 24, 2007: Ralph Adkins, Jr., P.S.897-Delinquent.

***Orders and Agreements Issued to Resolve Complaints:***

The Board finalized the following orders to resolve complaints filed against licensees:

- October 10, 2007, the Board issued a Settlement Agreement and Order which was accepted by the Respondent, Kevin D. Schafer, P.S. 923 on October 16, 2007, to resolve a complaint. Although no surveying laws or rules were violated, the Agreement contained a warning for failing to follow established boundary law principles. He agreed to reimburse the Board's administrative and legal expenses and to complete 15 additional PDHs.
- October 23, 2007: The Board issued an Administrative Decision and Order denying the license renewal application and revoking the delinquent P.S. license of John F. Kovach (P.S. 999), following a hearing on September 18, 2007, resulting from four complaints filed against Mr. Kovach for practicing without a valid survey license or COA and non-response to the Board. Mr. Kovach would be subject to payment of fines and administrative costs and completion of a required course prior to reapplying for a P.S. license.
- November 13, 2007: The Board offered a Consent Agreement and Order which was accepted by Richard J. Prine, P.S. 851, on December 11, 2007, to resolve a complaint. Mr. Prine was reprimanded and his license was placed on probation for one year. He was levied a fine and was required to reimburse the Board for its administrative and legal expenses.

· February 28, 2008: The Board offered a Consent Agreement and Order which was accepted by Ralph Adkins, Jr., P.S. 897-Delinquent, on March 10, 2008, to resolve a complaint for practicing without a valid license or COA and non response to the Board. Fines were levied and reimbursement of Board's administrative and legal expenses was required.

· The Board issued Settlement Agreement and Orders to resolve unlicensed practice complaints that were associated with flagging of existing survey monuments or markings in sales of real estate property in Morgan County, WV. Agreements were accepted by: J. Philip Kesecker on March 4, 2008; Steven E. and Brenda J. Hutchinson on March 21, 2008; and William E. Allgyer on March 24, 2008. The Settlement Agreement and Orders followed the issuance of Cease and Desist Orders to those individuals in 2007. On March 18, 2008, the Board also vacated the Cease and Desist Order issued to Mary McBee in a related complaint as being without merit.

· May 20, 2008: The Board issued a Final Administrative Order in response to four complaints filed against Randall Ray Myers, P.S. 751, following hearings on December 11, 2007, and January 10, 2008, on three of the complaints and an informal investigative conference on January 10, 2008, on the fourth complaint. The Order was subsequently amended; Mr. Myers' license was suspended for 90 days, with probation for the following 9-month period, and he was required to pay fines and administrative costs, and complete two educational courses.

***Informal Investigative Conferences (Pending Final Resolution):***

In addition to the previously reported informal investigative conferences held by the Complaint Review Committee, the Board held informal investigative conferences with the surveyor and complainants on November 27, 2007, involving two complaints; and on March 18, 2008, with the surveyor regarding one complaint with multiple complainants. Negotiations to resolve the complaints through appropriate orders or agreements were not concluded by the end of the fiscal year.

***Formal Hearings (Pending Final Resolution):***

In follow up to a formal hearing that began on August 17, 2007, several attempts were made to schedule a second day of hearings regarding a long-standing complaint against a licensee. A second day of hearings was scheduled for January 11, 2008, and while all parties were in attendance, the hearing was abruptly continued at the request of the opposing attorney due to the serious illness of his mother. The Board's attorney was not successful in securing another suitable date before the end of FY 2008.

Another formal hearing that had been continued several times was also scheduled for March 26 and 27, 2008, in an attempt to resolve eight complaints filed against one surveyor. The opposing attorney requested a meeting to negotiate a settlement in lieu of the formal hearing. A meeting was held on March 11, 2008, and although several versions of a consent agreement and order were reviewed by the parties over the ensuing months, an agreement wasn't finalized until early in FY 2009.

**FY 2008- Financial Statement: (July 1, 2007 – June 30, 2008)**

RECEIPTS: JULY 1, 2007 THROUGH JUNE 30, 2008	
License Renewals/Late Fees	121,436.00
Licensing Applications/Examination Fees	26,085.00
Certificate of Authorization Fees	47,500.00
Verification Fees	675.00
