## STATUTORY HISTORY

### [West Virginia Code § 30-13A](#)

HB 4450, sponsored by the [West Virginia Society of Professional Surveyors](#), was introduced to the WV Legislature by Delegates Fragale, Boggs, Hartman, Hatfield, Morgan, Stephens, and T. Walker on February 11, 2010. After several revisions in the House and Senate Government Organization Committees, the Bill completed the legislative process and was passed by both the House and Senate on March 12, 2010. The Bill was signed by the Governor on March 23, 2010, and becomes effective on June 10, 2010.

The significant changes to *West Virginia Code § 30-13A*

1. Removed paragraph §30-13A-26 [Minimum Standards for Boundary Surveys \(2004\)](#), which is already included in *Legislative Rule 23CSR5-7 (2008)*.
2. Moved paragraph §30-13A-27 [West Virginia Coordinate System \(2004\)](#) to *West Virginia Code §1-1-5 (2010)*.
3. Newly created article of the *West Virginia Code §7-2-8 License Required for County Surveyor (2010)*, now requires that each county surveyor newly elected or appointed after January 2, 2013, be licensed as a Professional Surveyor pursuant to §30-13A.
4. Paragraph §30-13A-4 [Board of Professional Surveyors \(2010\)](#), removes the requirement for one (1) member of the Board to have an “Underground Surveying” endorsement in addition to their Professional Surveyor license, commencing July 1, 2010.
5. Deletes paragraph 30-13A-8(A)(1)a, b, c, & d, [Education, Experience, and Examination Requirements for a Surveying License \(2004\)](#), which will no longer allow examination candidates to apply for the Fundamentals of Surveying examination based on 8-years experience unless their letter of intent was postmarked to the Board prior to December 31, 2004.

West Virginia Code § 30-13A is accompanied by five (5) rules and regulations that govern or detail licensing, continuing education, complaints, fees, and minimum standards, associated with professional surveying.

# COMPLAINTS

Complaints are processed in accordance with Procedural Rule 23 CSR 3, Disciplinary and Complaint Procedures for Land Surveyors (2001). Once a complaint is received at the Board office, an acknowledgement letter explaining the complaint process is mailed to the complainant with a copy to the licensed surveyor. The complaint then goes through a preliminary review to determine whether it is founded or unfounded. An unfounded complaint is outside the jurisdiction of the Board or there are insufficient grounds to pursue an investigation. If the Board concurs, unfounded complaints are summarily dismissed. Founded complaints are filed, assigned a complaint number, and the licensee is sent a certified letter to respond to the allegations within 30 days. Following an opportunity for the complainant to review and respond to the surveyor's response, the complaint is sent to the Board's Complaint Review Committee (CRC) for review and recommendation.

During Fiscal Year 2010, 22 complaint forms were mailed to potential complainants, with an undetermined number downloaded from the Board's website. 31 complaints were received and an additional 6 complaints were filed by the Board. Of the 20 founded (filed) complaints, 5 or 25% were from unlicensed practice and 15 or 75% involved licensees. 6 complaints from fiscal year 2010 remain open.

The primary reasons for complaints against licensees were:

- failure to contact or notify adjoiners
- failure to apply minimum standards
- surveying the wrong property
- use of tax maps as primary reference

# COMPLAINT REVIEW COMMITTEE (CRC)

The CRC assists the Board in the review and investigation of founded complaints by: summarizing complaint allegations and reviewing the surveyor's response to them; providing technical review and evaluation of the facts as they relate to the law, rules or regulations; and to make recommendations to the Board for further action. The CRC, which is chaired by Board Member Mark H. Hornish, P.S., consists of four other licensed professional surveyors who also function as contract investigators. The members represent different regions throughout the state and do not investigate complaints within their respective areas.

(Proposed Revision West Virginia Code §30-13A)

Licensure Steering Committee will define the multi-disciplines, education, and licensing requirements. To promote awareness, a letter to all licensees will be included in the Board's Standards and Ethics Seminar scheduled for mailing at the end of March 2010. Information and a Letter of Support needs to be requested from the North-East Zone, Colonial States, and other states that have enacted similar legislation.

Mr. Green reported to the Board that he, Mr. Henline, and Mr. Douglass, met with the Government Organization committee in Charleston, WV on Thursday, December 10, 2009.

The WVSPS Executive Committee felt that they were going to merge their version with the Board's version and submit to the Legislature. Definition of "surveyor" was the sticking point. When presented at Chapter meeting, additional comments were voiced, and a motion was made to "not" support the Board's bill.

Copy of proposal from government organization will be received for the Board/Society to introduce in the House & Senate which includes:

- Removing SU requirement from Board Member
- Removing Minimum Standards
- Delinquent and expiration paragraph
- County Surveyor
