The mission of the Board of Trustees of the West Virginia College and Jumpstart Savings Programs is to offer simple, convenient, safe, and efficient college savings programs that will:

- \* Make a college education more accessible and affordable to more West Virginians
- \* Encourage more families to save ahead for the costs of college
- \* Promote attendance at West Virginia's public and private institutions of higher learning
- \* Establish college attendance as the norm for more of West Virginia's youth
- \* Express the quality, user-friendliness, professionalism, and innovation inherent in the Treasurer's Office.

State Capitol, Room E-145 1900 Kanawha Boulevard East Charleston WV 25305

Riley Moore State Treasurer

The Honorable Members of the Legislature; The Board of Trustees of the West Virginia College and Jumpstart Savings Programs; Program Participants; and Citizens of West Virginia:

I am pleased to present the Annual Comprehensive Financial Report (ACFR) for the Board of Trustees of the West Virginia College and Jumpstart Savings Programs for the year ended June 30, 2022 prepared in accordance with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). The financial statements contained herein have been audited by an independent certified public accounting firm.

The ACFR exemplifies the Office of the State Treasurer's commitment to financial accountability and adheres to nationally recognized standards. The ACFR is designed to provide the reader with clear, concise, and complete financial data.

This report is made possible through the efforts of many people throughout the Treasurer's Office dedicated to providing reliable and credible financial information in conformity with accounting principles generally accepted in the United States. Their commitment and dedication to national reporting standards have resulted in the Board's achievement of a high level of financial accountability.

Sincerely,

**Riley Moore**

October 13, 2022

The Honorable State Treasurer, Riley Moore; The Honorable Members of the Legislature; The Board of Trustees of the West Virginia College and Jumpstart Savings Programs; Program Participants; and Citizens of West Virginia:

Ladies and Gentlemen:

The Annual Financial Comprehensive Report (ACFR) of The Board of Trustees of the West Virginia College and Jumpstart Savings Programs (the "Board") for the year ended June 30, 2022, is hereby respectfully submitted. This report was prepared by the Office of the Financial Director of the Board. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with management and ultimately the Board.

To the best of our knowledge and belief, the information presented is accurate in all material respects and reported in a manner designed to fairly set forth the financial position and operations of the Board and the respective changes in financial position and cash flows where applicable. All disclosures necessary to enable the reader to gain an understanding of the Board's financial activities have been included.

Management is responsible for establishing and maintaining internal control designed to ensure that the assets of the Board are protected from loss, theft or misuse and that the preparation of the financial statements is in conformity with accounting principles generally accepted in the United States of America. Internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived from it, and (2) the valuation of costs and benefits requires estimates and judgments by management. Management of the Board has established a comprehensive internal control framework that is designed to provide a reasonable basis for making representations concerning the finances of the Board. Because the cost of internal control has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Accounting principles generally accepted in the United States of America require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis ("MD&A"). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The

Board's MD&A can be found immediately following the report of the independent auditors in the financial section of this report.

#### Audit

The Board is required by Chapter 18, Article 30 of the West Virginia Code to have an annual audit by an independent certified public accounting firm. The firm of Brown, Edwards & Company, L.L.P. performed the financial statement audit as of and for the fiscal year ended June 30, 2022, in accordance with auditing standards generally accepted in the United States of America. The auditors' report on the Board's financial statements is included in the financial section of this report.

#### **Profile of the Board**

The West Virginia College and Jumpstart Savings Programs are administered by the Board of Trustees. Effective with the passage of Senate Bill 8 by the West Virginia Legislature on January 24, 2022, the Board of Trustees of the West Virginia Prepaid Tuition and Savings Program was renamed the Board of Trustees of the West Virginia College and Jumpstart Savings Programs. With this legislation, the West Virginia Legislature indicated that since the Prepaid Tuition Plan was closed during 2021 and since the Jumpstart Savings Program was structurally similar to the College Savings Program, having a single board in place to administer the programs would reduce management and administrative cost to the State of West Virginia. Senate Bill 8 charged the Board with the administrative accounts for the programs. In addition, Senate Bill 8 transferred responsibility for the Prepaid Tuition Trust Escrow Fund to the Board from the West Virginia State Treasurer's Office. The legislation also increased the number of Board members from nine to eleven.

The West Virginia College Savings Program (the "College Savings Program") operates under the provision of West Virginia State Code, Chapter 18, Article 30, West Virginia College Savings Program Act ("the Act"). The Act was originally adopted by the West Virginia State Legislature in 1997 and was known as the West Virginia College Prepaid Tuition and Savings Act. The Act was amended April 12, 2001, to continue the Prepaid Tuition Trust Fund (the "Prepaid Tuition Plan"), which operated as a plan, not a trust fund, and to enhance and complement the Prepaid Tuition Plan by authorizing the creation of the Savings Plan Trust Fund. Senate Bill 8 renamed the Act and codified the closure of the Prepaid Tuition Plan during 2021.

The purpose of the West Virginia College Savings Program is to offer a comprehensive statesponsored college savings plan, marketed as SMART529. Hartford Funds Management Company LLC provides records administration, cash management, customer service and investment management services for the College Savings Program. All funds paid into or invested in the College Savings Program will be available for use at any post-secondary program or two- or fouryear college or university in the country, with refund and transfer options available. West Virginia state income tax deductions are available to state residents for contributions into the College Savings Program. Since the College Savings Program is an Internal Revenue Service Section 529 Qualified Tuition Program, earnings on the funds are federally tax deferred until used for college or other qualifying expenditures. Effective January 1, 2018, qualified withdraws for federal tax purposes have been expanded to include up to \$10,000 in tuition per year, per student in connection with private school enrollment in kindergarten through grade 12.

The Jumpstart Savings Program operates under the provisions of West Virginia State Code, Chapter 18, Article 31, the Jumpstart Savings Act. This legislation was adopted by the Legislature during the 2021 regular session of the West Virginia Legislature, and was amended in parts by the passage of Senate Bill 8 on January 24, 2022. The purpose of the Jumpstart Savings Program is to provide a state-administered savings program to help West Virginians save money to help cover the costs of pursuing a career in skilled trades and vocations. In accordance with the legislation, the Jumpstart Savings Program Trust Fund opened to the public on July 1, 2022. Accordingly, there was no activity for the Jumpstart Savings Program Trust Fund during the fiscal year-ended June 30, 2022.

The purpose of the Prepaid Tuition Plan was to provide individuals and organizations the opportunity to prepay future college tuition and mandatory fees at West Virginia public colleges and universities. Benefits could be transferred to any eligible private or out-of-state institution based on the average cost of in-state West Virginia public tuition and fees. Hartford Funds Management Company LLC provided record administration, cash management, and customer service for the Prepaid Tuition Plan through plan closure. After being authorized by the West Virginia Legislature in April 2021, the Board approved termination of the Prepaid Tuition Plan effective September 30, 2021. Final payments to account owners were issued accordingly, with any uncashed payments being sent to the West Virginia Unclaimed Property division in December 2021 and February 2022. As of June 30, 2022, the only assets or liabilities remaining related to the Prepaid Tuition Plan were the assets being held in a fiduciary capacity in the Prepaid Tuition Plan arising after the closure.

#### **Budget and Spending**

The Office of the State Treasurer includes appropriation requests for the Board in the State Treasurer's budgetary schedule that is submitted to the Budget Director of the West Virginia Department of Revenue each year. The submission is subject to annual budget review and approval by the West Virginia State Legislature.

Budgetary control is maintained through legislative appropriation and the Executive Branch quarterly allotment process. Agencies submit budgetary requests to the State Department of Administration, which compiles the Executive Budget on behalf of the Governor, who submits it to the Legislature. After approval of the budget, the Department of Administration maintains control over the spending patterns of the state at the activity level and by use of the quarterly allotments. Annual appropriations are released for spending in quarterly installments or allotments. The State Auditor exercises control over spending at the annual appropriation level. All appropriations, except funds that are re-appropriated, expire 31 days after fiscal year end. All re-appropriated funds are available, in the aggregate, on the first day of the fiscal year. The State's

fiscal year is July 1 through June 30.

#### **Financial Condition**

The total net position of the Board's fiduciary funds decreased as compared to June 30, 2021. The details of net position can be found in the Management Discussion and Analysis section of this report. The Board experienced a special item for a transfer of operations during the year related to the Prepaid Tuition Trust Escrow fund, a new custodial fund presented as of June 30, 2022. Net position of the fiduciary fund represents funds held in trust for individual investors or funds restricted for other purposes, and, as such, is not available to support operations of the enterprise funds.

The total net position of the Board's enterprise funds, comprised of the Prepaid Tuition Trust fund and the College and Jumpstart Savings Administrative Account increased for the period June 30, 2021 to June 30, 2022. This increase is primarily due to activity related to the Prepaid Tuition Trust Fund. The details of this increase can be found in the Management Discussion and Analysis section of this report.

The Jumpstart Savings Program Trust Fund opened to the public on July 1, 2022. Accordingly, there was no activity for the Jumpstart Savings Program Trust Fund during the fiscal year-end June 30, 2022.

#### Cash Management

The West Virginia Board of Treasury Investments, Hartford Funds Management Company, LLC and the Office of the State Treasurer manage the cash and cash equivalents of the programs.

#### Certificate of Achievement for Excellence in Financial Reporting

The Government Finance Officers Association of the United States and Canada ("GFOA") awarded a Certificate of Achievement for Excellence in Financial Reporting to the West Virginia College Prepaid Tuition and Savings Program (the "Program") for its annual comprehensive financial report for the fiscal year ended June 30, 2021. This was the twenty third consecutive year that the Program has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. Although the name of the Board of Trustees was changed by legislative action, we believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

#### Acknowledgments

The Board's success would not be possible without the support and leadership of the State

Treasurer, the Legislature and the members of the Board. Their commitment and dedication to providing an affordable higher education has provided the Board with a blueprint for success. The Board's staff, Hartford Funds Management Company, LLC, and the staff of the Office of the State Treasurer provided diligent and dedicated service in building the Board and establishing it as the national model of achievement that it is today. The preparation of this report was accomplished only through the many hours and long days of work generously given by the Board's staff and the many hardworking individuals at Hartford Funds Management Company, LLC who are essential for the success of the College Savings Program.

Respectfully,

Brakery Corrow

Gregory Curry, Financial Director West Virginia College and Jumpstart Savings Programs

#### **INDEPENDENT AUDITOR'S REPORT**

To the Board of Trustees of the West Virginia College and Jumpstart Savings Program (formerly known as the West Virginia College Prepaid Tuition and Savings Program) Charleston, West Virginia

#### **Report on the Audit of the Financial Statements**

#### **Opinions**

We have audited the accompanying financial statements of each major fund of the business type activities and the fiduciary funds of the West Virginia College and Jumpstart Savings Program (formerly known as the West Virginia College Prepaid Tuition and Savings Program ) (the Entity) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Entity's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the fiduciary funds of the Entity as of June 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the West Virginia College Savings Program Plan Trust Fund (the College Savings Plan Trust Fund), which represents 99.9% of the statement of fiduciary net position and 94% of the changes in fiduciary net position. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the College Savings Plan Trust Fund, is based solely on the report of the other auditors.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Entity and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Emphasis-of-Matter – Closure of the West Virginia College Prepaid Tuition Plan

As discussed in Note 10 to the financial statements, the Board of the Entity voted to close the West Virginia College Prepaid Tuition Plan on September 30, 2021. Management's outcomes concerning this matter and the subsequent name change of the Entity are also discussed in Note 1. Our opinion is not modified with respect to this matter.

- Your Success is Our Focus -

#### **Emphasis-of-Matter – Reporting Entity**

As discussed in Note 1, the financial statements present only the Entity and do not purport to, and do not, present fairly the financial position of the State of West Virginia as of June 30, 2022, the changes in its financial position, and where applicable, their cash flows for the year ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Entity's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control. Accordingly, no such opinion is expressed.

#### Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Entity's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the Schedule of the Entity's Proportionate Share of the Net OPEB Liability (Asset) and Schedule of the Entity's Contributions to the OPEB Plan, Schedule of the Entity's Proportionate Share of the Net Pension Liability (Asset), and Schedule of the Entity's Contributions to the West Virginia Public Employees Retirement System, and the accompanying notes to required supplementary information, as noted on the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplemental Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Entity's basic financial statements. The supplemental information included in the financial section as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplemental information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, the supplemental information, which, in so far as it relates to the College Savings Plan Trust Fund, is based on the report of other auditors, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### **Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Brown, Edwards & Company, S. L. P.

CERTIFIED PUBLIC ACCOUNTANTS

Charleston, West Virginia October 13, 2022 The Board of Trustees of the West Virginia College and Jumpstart Savings Programs

Management's Discussion and Analysis (Unaudited)

June 30, 2022

As management of the Board of Trustees of the West Virginia College and Jumpstart Savings Programs (the "Board"), we offer readers of the financial statements this discussion and analysis by management of the financial performance for the fiscal year ended June 30, 2022. We encourage readers to consider the information presented in this section in conjunction with the financial statements, including notes to the financial statements, which follow this section.

#### Financial Highlights

Effective with the passage of Senate Bill 8 by the West Virginia Legislature on January 24, 2022, the Board of Trustees of the West Virginia Prepaid Tuition and Savings Program was renamed the Board of Trustees (the "Board") of the West Virginia College and Jumpstart Savings Programs. With this legislation, the West Virginia Legislature indicated that since the Prepaid Tuition Plan was closed during 2021 and since the Jumpstart Savings Program was structurally similar to the College Savings Program, having a single board to administer the programs would reduce management and administrative cost to the State of West Virginia. Senate Bill 8 charged the Board with the administration of the College Savings Program as well as the Jumpstart Savings Program and combined the administrative accounts for the programs.

The Fiduciary Net Position of the College Savings Program is \$2,778,888,947 as of June 30, 2022. The net position of the College Savings Program decreased \$422,974,555 over June 30, 2021. Net investment earnings and contributions were (\$103,694,766) and redemptions and expenses were \$319,279,789 for the year ended June 30, 2022. Net position of the fiduciary fund represents funds held in trust for individual investors, and, as such, is not available to support operations of the enterprise funds.

The Jumpstart Savings Program Trust Fund opened to the public on July 1, 2022. Accordingly, there was no activity for the Jumpstart Savings Program Trust Fund during the fiscal year-end June 30, 2022.

The net position of the College and Jumpstart Savings Administrative Account is \$3,785,605 as of June 30, 2022. The net position of the Administrative Account was \$3,148,887 as of June 30, 2021. This increase is the result of operational activities during the year.

After being authorized in April 2021 by the West Virginia Legislature to close the Prepaid Tuition Plan early, the Board approved termination of the Prepaid Tuition Plan effective September 30, 2021. Final payments to account owners were issued accordingly, with any uncashed payments

being sent to the West Virginia Unclaimed Property division in December 2021 and February 2022. As of June 30, 2022, the only assets or liabilities remaining related to the Prepaid Tuition Plan were the assets being held in a fiduciary capacity in the Prepaid Tuition Trust Escrow Fund for the purpose of satisfying any claims against the Prepaid Tuition Plan arising after the closure.

Senate Bill 8 transferred responsibility for the Prepaid Tuition Trust Escrow Fund to the Board from the West Virginia State Treasurer's Office. Effective January 24, 2022, the Board recognized a Special Item of \$18,683,698 for this transfer of operations to recognize the investments and net position of the Prepaid Tuition Trust Escrow Fund on the Board's fiduciary fund statements. At June 30, 2022, the Prepaid Tuition Trust Escrow Fund had a net position of \$1,003,606.

In accordance with Senate Bill 294, which passed the West Virginia Legislature in April 2021, once all outstanding obligations of the Prepaid Tuition Trust Plan were satisfied, the moneys remaining in the Prepaid Tuition Trust Escrow Fund were allocated as follows:

- Five million dollars was transferred to the West Virginia Savings and Investment Program Fulfillment Fund.
- At the December 8, 2021 quarterly meeting, the Board voted to maintain one million dollars in the Prepaid Tuition Trust Escrow Fund, for a period not to exceed ten years from the closure of the Prepaid Tuition Trust Fund, for the purpose of satisfying any claims against the Prepaid Tuition Trust Plan arising after the plan's closure.
- After setting aside the one million dollars to retain in the account, the remaining funds totaling \$12,685,427 were transferred to the state's General Revenue Fund in February 2022.

#### **Overview of the Financial Statements**

This report presents the operating results and financial status of the Board, which is composed of two enterprise funds and two fiduciary funds. The enterprise funds are the Prepaid Tuition Trust Fund (the "Prepaid Tuition Plan") and the College and Jumpstart Savings Programs Administrative Account (the "Administrative Account"). The enterprise funds' financial statements are reported using the economic resources measurement focus and the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP") for governmental entities. The Board's Savings Plan Trust Fund ("College Savings Program") and the Prepaid Tuition Trust Escrow Fund are fiduciary funds and also are reported using the accrual basis of accounting in accordance with GAAP.

The State of West Virginia reports the combined Prepaid Tuition Plan and Administrative Account as enterprise funds of the Board and the College Savings Program and the Prepaid Tuition Trust Escrow Fund as fiduciary funds of the Board in its Annual Comprehensive Financial Report. Enterprise fund reporting is used to report the functions of a governmental entity with businesstype activities in which a fee is charged to external users for goods or services. Fiduciary fund reporting is used to account for resources held for the benefit of parties outside the governmental entity, and those resources are not available to support continuing operations of that entity.

The Statement of Net Position presents information on the enterprise funds' assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference between the total of assets and deferred outflows of resources and the total of liabilities and deferred inflows of resources reported as net position. This statement is categorized into current and non-current assets and liabilities. For purposes of the financial statements, current assets and liabilities are those assets and liabilities with immediate liquidity or which are collectible or becoming due within 12 months of the fiscal year end.

The Statement of Revenues, Expenses and Changes in Net Position reflects the operating and nonoperating revenues and expenses of the enterprise funds for the operating year. Operating revenues primarily consisted of administrative fees for the College Savings Program and a tuition contract benefits gain, while the major sources of operating expenses were general and administrative expenses. Nonoperating revenues and expenses primarily consisted of transfers.

The Statement of Cash Flows is presented on the direct method of reporting, which reflects the enterprise funds' cash flows from operating and investing activities. Cash collections and payments are reflected in this statement to arrive at the net increase or decrease in cash and cash equivalents for the year.

The Statement of Fiduciary Net Position presents information on the fiduciary funds' assets and liabilities, with the difference between the two reported as net position held in trust for individuals or organizations.

The Statement of Changes in Fiduciary Net Position reports the additions and deductions to the fiduciary funds for the year. For the College Savings Program, additions consisted of contributions and net investment earnings and deductions represented redemptions and operating expenses. For the Prepaid Tuition Trust Escrow Fund, additions consisted of net investment earnings, deductions consisted of transfers to other funds, and a Special Item was recognized for the transfer of operations.

#### Financial Analysis of the Prepaid Tuition Plan and Administrative Account

**Net (deficit) position.** The following are combined, condensed Statements of Net (Deficit) Position of the enterprise funds, which are the Prepaid Tuition Plan and the Administrative Account, as of June 30, 2022 and 2021.

	2022	2021
Current assets	\$ 3,925,835	\$ 7,024,823
Noncurrent assets	231,921	
Total assets	4,157,756	7,024,823
Deferred outflows of resources	152,428	151,333
Current liabilities	124,652	11,040,902
Noncurrent liabilities	6,646	160,417
Total liabilities	131,298	11,201,319
Deferred inflows of resources	393,281	133,434
Net position (deficit):		
Restricted	3,785,605	3,148,887
Unrestricted	-	(7,307,484)
Total net position (deficit)	\$ 3,785,605	\$ (4,158,597)

The net deficit decreased \$7,944,202 or 191% in fiscal year 2022 resulting in net position. Net position is the excess of total assets and deferred outflows of resources over total liabilities and deferred inflows of resources, and a net deficit occurs when liabilities and deferred inflows of resources exceed assets and deferred outflows of resources.

Current assets represent cash and cash equivalents and short-term receivables. Noncurrent assets represent investments and long-term receivables. Deferred outflows of resources relate to OPEB and pension amounts described in Notes 6 and 7, respectively, during the current fiscal year. Current liabilities represent short-term payables for administrative expenses. Noncurrent liabilities represent long-term payables for administrative expenses. Deferred inflows of resources relate to OPEB and pension amounts described in Notes 6 and 7, respectively, during the current fiscal year.

**Changes in net (deficit) position.** The following are combined condensed Statements of Revenues, Expenses and Changes in Net (Deficit) Position of the enterprise funds for the years ended June 30, 2022 and 2021.

	2022	2021
Operating Revenues		
Operating revenues:		
Tuition contract benefits gain	\$ 659,561	\$ 25,131
Savings Plan administrative fee	1,722,497	1,646,620
Total operating revenues	2,382,058	1,671,751
Nonoperating revenues:		
Investment gain	351	6,982
Transfer from Prepaid Tuition Trust Escrow Fund	9,187,311	-
Transfer from West Virginia Savings and	,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,	
Investment	49,371	-
Program Fulfillment Fund	,	
Other		2,525
Total nonoperating revenues	9,237,033	9,507
Total revenues	11,619,091	1,681,258
Expenses		
Operating expenses:		
Tuition contract benefits loss	-	1,640,439
General and administrative expenses	1,135,431	1,227,082
Total operating expenses	1,135,432	2,867,521
Nonoperating expenses:		
Other postemployment benefits expense	1,804	-
Transfer to Prepaid Tuition Trust Escrow Fund	2,537,654	-
Total nonoperating expenses	2,539,458	-
Change in net (deficit) position	7,944,202	(1,186,263)
Net (deficit) position at beginning of year	(4,158,597)	(2,972,334)
Net (deficit) position at end of year	\$ 3,785,605	\$ (4,158,597)

The net position increased by \$7,944,202 for the year ended June 30, 2022. This change in net position is the result of the large increase in nonoperating revenues attributable to the transfer of funds from the Prepaid Tuition Trust Escrow Fund to the Prepaid Tuition Trust Fund to meet the financial obligations of the prepaid program and close out the program.

#### Financial Analysis of the College Savings Program

**Net position -** The following are condensed Statements of Fiduciary Net Position of the College Savings Program as of June 30, 2022 and 2021.

	2022	2021
Assets	\$ 2,787,599,720	\$ 3,204,941,178
Liabilities	8,710,773	3,077,676
Net position	\$ 2,778,888,947	\$ 3,201,863,502

Net position decreased 13.2% or \$422,974,555 during the current fiscal year. Net position is the excess of total assets over total liabilities. Net investment earnings and contributions were (\$103,694,766) and redemptions and expenses were \$319,279,789 for the year.

Investments make up 99.6% of total assets, and the remaining assets include cash, receivables for units and securities sold, and dividends receivable. Liabilities consists of payables for securities purchased and units redeemed and accrued fees.

**Changes in net position** - The following are condensed Statements of Changes in Fiduciary Net Position of the College Savings Program for the years ended June 30, 2022 and 2021.

	Year Ended June 30,	
	2022	2021
Additions		
Contributions	\$ 217,608,677	\$ 201,981,813
Net investment gain (loss)	(321,303,443)	628,193,687
Total additions	(103,694,766)	830,175,500
Deductions		
Redemptions	312,801,841	266,146,545
Administrative expenses	6,477,948	6,114,096
Total deductions	319,279,789	272,260,641
Increase (decrease) in net position	(422,974,555)	557,914,859
Net position at beginning of year	3,201,863,502	2,643,948,643
Net position at end of year	\$ 2,778,888,947	\$ 3,201,863,502

Contributions for the current fiscal year increased by 7.7% or \$15,626,864. Redemptions, however, outpaced contributions and increased 17.5% or \$46,655,296 from the prior year. The program experienced a net investment loss of \$321,303,443 for the fiscal year.

Administrative expenses for the College Savings Program represent charges related to investment management expenses; sales, marketing and distribution expenses; and other administration expenses.

#### Financial Analysis of the Prepaid Tuition Trust Escrow Fund

**Net position -** The following are condensed Statements of Fiduciary Net Position of the Prepaid Tuition Trust Escrow Fund as of June 30, 2022. Comparative data for 2021 is not available because the Board did not assume responsibility for the Prepaid Tuition Trust Escrow Fund until January 24, 2022.

	2022	
Assets	\$ 1,003,606	
Liabilities		
Net position	\$ 1,003,606	

**Changes in net position – Prepaid Tuition Trust Escrow Fund.** The following are condensed Statements of Changes in Fiduciary Net Position of the Prepaid Tuition Trust Escrow Fund for the year ended June 30, 2022.

	2022
Additions	
Net investment gain	\$ 5,335
Deductions	
Payments and Transfers	17,685,427
Special Item	
Transfer of Operations	 18,683,698
Change in net position	1,003,606
Net position at beginning of year	 -
Net position at end of year	\$ 1,003,606

#### **Economic Factors**

**Prepaid Tuition Plan.** In January 2021 the Board approved terminating the Prepaid Tuition Plan on September 30, 2021. As of September 30, 2021, all account owners who had remaining units were paid for the remaining units, therefore closing out the Prepaid Tuition Plan. The Prepaid Tuition Trust Fund had a net position of \$0 as of June 30, 2022.

**College Savings Program**. As a private purpose trust fund focused on investment, the College Savings Program is subject to the same risks and consequent gains and losses as all publicly and privately offered investment funds. The College Savings Program is directly affected by all factors

that affect the economic and investment arenas. Management continuously monitors activity in the stock market as well as consulting regularly with its various investment advisors and analysts.

#### **Requests for Information**

This financial report is designed to provide a general overview of the Program's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Financial Director's Office, West Virginia College and Jumpstart Savings Programs, 1900 Kanawha Boulevard East, Charleston, WV 25305.

The accompanying notes are an integral part of these financial statements.

## The Board of Trustees of the West Virginia College and Jumpstart Savings Programs

## Notes to Financial Statements

June 30, 2022

## 1. Organization and Operations

The West Virginia College and Jumpstart Savings Programs ("the Programs") are administered by the Board of Trustees (the "Board"). Effective with the passage of Senate Bill 8 by the West Virginia Legislature on January 24, 2022, the Board of Trustees of the West Virginia Prepaid Tuition and Savings Program was renamed the Board of Trustees of the West Virginia College and Jumpstart Savings Programs. With this legislation, the West Virginia Legislature indicated that since the Prepaid Tuition Plan was closed during 2021 and since the Jumpstart Savings Program was structurally similar to the College Savings Program, having a single board in place to administer the programs would reduce management and administrative cost to the State of West Virginia. Senate Bill 8 charged the Board with the administration of the College Savings Program as well as the Jumpstart Savings Program and combined the administrative accounts for the programs. In addition, Senate Bill 8 transferred responsibility for the Prepaid Tuition Trust Escrow Fund to the Board from the West Virginia State Treasurer's Office. The legislation also increased the number of Board members from nine to eleven.

The West Virginia College Savings Program (the "College Savings Program") operates under the provision of West Virginia State Code, Chapter 18, Article 30, West Virginia College Savings Program Act ("the Act"). The Act was originally adopted by the West Virginia State Legislature in 1997 and was known as the West Virginia College Prepaid Tuition and Savings Act. The Act was amended April 12, 2001, to continue the Prepaid Tuition Trust Fund (the "Prepaid Tuition Plan"), which operated as a plan, not a trust fund, and to enhance and complement the Prepaid Tuition Plan by authorizing the creation of the Savings Plan Trust Fund. Senate Bill 8 renamed the Act and codified the closure of the Prepaid Tuition Plan during 2021.

The purpose of the West Virginia College Savings Program is to offer a comprehensive statesponsored college savings plan, marketed as SMART529<sup>™</sup> The College Savings Solution. Hartford Funds Management Company LLC provides records administration, cash management, customer service and investment management services for the College Savings Program. All funds paid into or invested in the College Savings Program will be available for use at any post-secondary program or two- or four-year college or university in the country, with refund and transfer options available. West Virginia state income tax deductions are available to state residents for contributions into the College Savings Program. Since the Program is an Internal Revenue Service Section 529 Qualified Tuition Program, earnings on the funds are federally tax deferred until used for college or other qualifying expenditures. Effective January 1, 2018, qualified withdraws for federal tax purposes have been expanded to include up to \$10,000 in tuition per year, per student in connection with private school enrollment in kindergarten through grade 12.

The Jumpstart Savings Program operates under the provisions of West Virginia State Code, Chapter 18, Article 31, the Jumpstart Savings Act. This legislation was adopted by the Legislature during the 2021 regular session of the West Virginia Legislature, and was amended in parts by the passage of Senate Bill 8 on January 24, 2022. The purpose of the Jumpstart Savings Program is to provide a state-administered savings program to help West Virginians save money to help cover the costs of pursuing a career in skilled trades and vocations. In accordance with the legislation, the Jumpstart Savings Program Trust Fund opened to the public on July 1, 2022. Accordingly, there was no activity for the Jumpstart Savings Program Trust Fund during the fiscal year-end June 30, 2022.

The purpose of the Prepaid Tuition Plan was to provide individuals and organizations the opportunity to prepay future college tuition and mandatory fees at West Virginia public colleges and universities. Benefits could be transferred to any eligible private or out-of-state institution based on the average cost of in-state West Virginia public tuition and fees. Hartford Funds Management Company LLC provided record administration, cash management, and customer service for the Prepaid Tuition Plan through plan closure. After being authorized by the West Virginia Legislature in April 2021, the Board approved termination of the Prepaid Tuition Plan effective September 30, 2021. Final payments to account owners were issued accordingly, with any uncashed payments being sent to the West Virginia Unclaimed Property division in December 2021 and February 2022. As of June 30, 2022, the only assets or liabilities remaining related to the Prepaid Tuition Plan were the assets being held in a fiduciary capacity in the Prepaid Tuition Plan arising after the closure.

The accompanying financial statements include business-type activities of the Board reported as enterprise funds and fiduciary funds.

# **Enterprise Funds: Prepaid Tuition Plan and College and Jumpstart Savings Administrative Account**

Operations of the Prepaid Tuition Plan began in July 1997 with the initial enrollment period commencing on October 1, 1998 and ending January 31, 1999. The Prepaid Tuition Plan sold approximately 9,730 prepaid tuition contracts during the time it was open. As indicated previously, the Prepaid Tuition Plan was closed effective September 30, 2021. The Prepaid Tuition Plan was administered by the Office of the State Treasurer under the direction of the Board. Hartford Funds Management Company, LLC provided records administration, cash management, and customer service for the Prepaid Tuition Plan.

As the Prepaid Tuition Plan moved closer to closure, contract payments of all Prepaid Tuition Plan participants were combined into a single investment fund in order to maximize benefits. The fund was invested in a professionally managed portfolio of fixed income investments through the West Virginia Board of Treasury Investments (the "BTI"). Monies from the investment fund were used to pay Prepaid Tuition Plan benefits and expenses. When the beneficiary was accepted to an eligible college or university, the contract became redeemable. Benefits could be transferred to any fully accredited private or out-of-state college or university within the United States in an amount based on the weighted average cost of tuition and fees then charged by West Virginia public colleges and universities. However, there was no guarantee that the tuition benefit available would cover the actual cost of tuition and fees charged by the private or out-of-state institution. If the beneficiary was awarded a scholarship for tuition and fees, the benefit value of the contract was paid in accordance with state and federal regulations.

The College and Jumpstart Savings Administrative Account (the "Administrative Account"), previously named the College Prepaid Tuition and Savings Program Administrative Account, was continued by Senate Bill 8 to implement, operate and maintain the College and Jumpstart Savings Programs. Sources of funds for the Administrative Account come from fees charged to participants in the College Savings Program. In addition, transfers from the West Virginia Savings and Investment Program Fulfillment Fund of the State have been made to Administrative Account to cover start-up expenses related to the Jumpstart Savings Program. The Jumpstart Savings Program began operations on July 1, 2022 and Jumpstart participant fees may also generate funds for the Administrative Account cover administrative operations, such as wages and benefits, consulting services, and office supplies.

The accompanying financial statements report the financial position, results of operations, and cash flows for the fiscal year ended June 30, 2022, of the Board's enterprise funds, which includes the Prepaid Tuition Plan and the Administrative Account. The Board's enterprise funds are enterprise funds of the primary government of the State of West Virginia.

## Fiduciary Funds: College Savings Program and Prepaid Tuition Trust Escrow Fund

Beginning March 1, 2002, the College Savings Program has been available in conjunction with the Board's now-closed Prepaid Tuition Plan. Investment options were developed in partnership with Hartford Funds Management Company, LLC. The College Savings Program is administered by the Office of the State Treasurer under the direction of the Board. Hartford Funds Management Company, LLC provides records administration, cash management, investment management and customer service for the College Savings Program.

The College Savings Program currently is composed of 62 different investment portfolios and individual funds. These financial statements report on the total of all portfolios and individual funds.

The College Savings Program is a private-purpose trust fiduciary fund of the primary government of the State of West Virginia.

On January 24, 2022, the West Virginia Legislature passed Senate Bill 8, which was effective from passage. This legislation codified the closure of the West Virginia Prepaid Tuition Plan during 2021 and transferred responsibility for the Prepaid Tuition Trust Escrow Fund to the Board from the West Virginia State Treasurer's Office. Specifically, West Virginia Code §18-30-13(a) states the following: "The Prepaid Tuition Trust Escrow Fund, which was previously authorized by §18-30-6 of this code, is continued in the State Treasury to guarantee payment of outstanding

obligations of the Prepaid Tuition Plan arising after the plan's closure. The Board is authorized to take any action necessary to satisfy the obligations of the Prepaid Tuition Plan arising after the plan's closure." West Virginia Code §18-30-13(c) further indicates how the Board should invest the funds in the Prepaid Tuition Trust Escrow Fund.

The transfer of responsibility for the Prepaid Tuition Trust Escrow Fund from the West Virginia State Treasurer's Office meets the definition of a transfer of operations under GASB Statement No. 69, *Government Combinations and Disposals of Government Operations*. No consideration was exchanged during the transfer of the responsibility for the oversight of the Prepaid Tuition Trust Escrow Fund. Amounts previously reported as part of the General Revenue Fund of the State of West Virginia were transferred to the Board, where they are reported as a fiduciary fund (custodial fund).

The following amounts were recognized as of the effective date of the transfer of operations of the Prepaid Tuition Trust Escrow Fund to the Board:

Investments	\$18,683,698
Total Net Position	\$18,683,698

The West Virginia Legislature first created the Prepaid Tuition Trust Escrow Account in March 2003 to guarantee payment of Prepaid Tuition Plan contracts. Under the legislation, the Escrow Account received transfers of \$1,000,000 from the State Unclaimed Property Trust Fund each year there was an actuarially determined unfunded liability of the Prepaid Tuition Plan. An additional one-time transfer of \$8,000,000 from the Unclaimed Property Trust Fund was authorized for July 2009. All earnings on the transferred funds remained in the Escrow Account. In the event the Prepaid Tuition Plan was unable to cover the amount of money needed to meet current obligations, funds were permitted to be withdrawn from the Escrow Account to meet those obligations.

In April 2021, the West Virginia Legislature passed Senate Bill 294 which authorized the early closure of the Prepaid Tuition Trust Fund. Based on this legislation, the Board approved terminating the Prepaid Tuition Plan effective September 30, 2021. As of September 30, 2021, any account owner having remaining semester units in the Plan was paid a rate of \$4,808 for each remaining plan unit. In September 2021, \$9,187,311 was transferred from the Prepaid Tuition Trust Escrow Fund to the Prepaid Tuition Trust Fund to meet the September 30, 2021 payout of all remaining semester units in the Plan. In accordance with Senate Bill 294, after all outstanding obligations of the Prepaid Tuition Trust Plan were satisfied, moneys remaining in the Prepaid Tuition Trust Escrow Fund were allocated as follows:

- Five million dollars was transferred to the West Virginia Savings and Investment Program Fulfillment Fund.
- At the December 8, 2021 quarterly meeting, the Board voted to maintain one million dollars in the Prepaid Tuition Trust Escrow Fund for a period not to exceed ten years from the closure of the Prepaid Tuition Trust Fund for the purpose of satisfying any claims against the Prepaid Tuition Trust Plan arising after the plan's closure. Upon the expiration of ten years following

the date of closure of the Prepaid Tuition Trust Fund or when the balance of the Prepaid Tuition Trust Escrow Fund is zero, whichever occurs first, the account shall be closed and any moneys remaining in the Prepaid Tuition Escrow Fund shall revert to the state's General Revenue Fund.

• After setting aside the one million dollars to retain in the account, the remaining funds totaling \$12,685,427 were transferred to the state's General Revenue Fund in February 2022.

## 2. Significant Accounting Policies – Enterprise Funds and Prepaid Tuition Trust Escrow Fund

### **Basis of Accounting**

As **enterprise funds**, the financial statements of the Prepaid Tuition Plan and Administrative Account are presented on the flow of economic resources measurement focus and the accrual basis accounting in conformity with accounting principles generally accepted in the United States of America. Under this method of accounting, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that the costs of providing services to the general public and others on a continuing basis be financed or recovered primarily through user charges.

The **enterprise funds** distinguish operating revenues and expenses from nonoperating. Operating revenues and expenses generally result from providing services in connection with the enterprise funds' principal ongoing operations. The principal operating revenues and expenses relate to tuition contract revenues, tuition contract benefits gain, and general and administrative expenses. Net investment earnings and State subsidized OPEB payments are reported as nonoperating revenues.

It is the Board's policy to first apply unrestricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

Assets of the Board's enterprise funds (the "Prepaid Tuition Plan" and the "Administrative Account") are available to support the Board's operations.

Fiduciary funds focus on net position and changes in net position. As a private-purpose trust fund, assets of the College Savings Program are held in a trustee capacity for individuals and entities invested in the program, and those assets cannot be used to support the Board. Because the College Savings Program assets are not available to support the Board's operations, the College Savings Program and its accounting policies are discussed separately in Note 3 to these financial statements.

The Board's other fiduciary fund, the Prepaid Tuition Trust Escrow Fund, is a custodial fund. The assets of the Prepaid Tuition Trust Escrow Fund are also not available to support the Board's operations. The custodial fund is reported using the economic resources measurement focus and the accrual basis of accounting.

Certain estimates and assumptions are required by management in the preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The significant estimates and assumptions that affect the reported amounts of assets, liabilities, and deferred outflows/inflows of resources at the statement of net position date and revenues and expenses for the years then ended are those required in the estimation of accrued contract benefits liability, accrued contract expense liability, net pension liability, net other postemployment benefits liability, deferred outflows and deferred inflows related to pension and other postemployment benefits, tuition contract revenues, and tuition contract benefits expenses. Actual results in the near-term could differ from the estimates used to prepare these financial statements.

## **Budgetary Information**

The Office of the State Treasurer submits a detailed budgetary schedule of administrative expenses to the Budget Director of the West Virginia Department of Revenue prior to the beginning of each fiscal year. The budgetary schedule is prepared on the cash basis of accounting. Appropriation requests for the Board's programs are included in the Treasurer's schedule. The budgetary schedule is subject to the annual budget review and approval process of the West Virginia State Legislature. In accordance with GAAP, budgetary financial schedules or statements are not required to be presented in the Program's basic financial statements.

## Cash and Cash Equivalents

Cash equivalents are short-term investments with maturities when acquired of 90 days or less. Cash and cash equivalents of the enterprise funds and the Prepaid Tuition Trust Escrow Fund principally consist of interest-earning deposits in certain investment pools maintained by the BTI. Such funds are available to the Board with overnight notice. Earnings from these investments are distributed to investment pool participants based on their pro rata participation in the pools.

## Investments

Investments are funds invested with BTI investment pools. The intent of the investment is to invest funds in a manner to achieve a strong, risk-adjusted return. Investments will be liquidated as needed to cover future claims.

## **Revenue Recognition**

The Administrative Account records College Savings Program administrative fee revenue from Hartford Funds Management Company, LLC in the period that administrative services are provided.

## **Compensated Absences**

Employees fully vest in all earned but unused annual leave to maximum amounts ranging from 240 to 320 hours depending on years of service, and the Program accrues for obligations that may arise in connection with compensated absences for vacation at the current rate of employee pay.

In accordance with personnel policies of the State, employees vest in any remaining unused sick leave only upon retirement, at which time any unused sick and annual leave time either can be converted into employer-paid premiums for postretirement health care coverage through the West Virginia Retiree Health Benefit Trust Fund (the "RHBT"), or can be converted into a greater retirement benefit under the State of West Virginia Public Employees Retirement System (the "PERS").

## Net Other Postemployment Benefits Asset (OPEB), Net Pension Asset, Deferred Outflows of Resources, and Deferred Inflows of Resources

## Net OPEB Asset

The Program recognizes other postretirement benefits that may arise in connection with unused sick leave that may be converted to employer-paid premiums for postretirement health care coverage, and for the employer portion of all postretirement health care coverage regardless of whether the retiree has unused sick leave. Net OPEB asset represents the Board's proportionate share of the net OPEB asset of the RHBT as of the measurement date of June 30, 2021.

## Net Pension Asset

Net pension asset represents the Board's proportionate share of the net pension asset of PERS as of the measurement date of June 30, 2021.

## Deferred Outflows of Resources and Deferred Inflows of Resources

Deferred outflows of resources and deferred inflows of resources represent the effects of changes and differences in the Board's proportionate share of the State's total net OPEB and net pension assets. The Board's contributions to the State OPEB and pension plans subsequent to the measurement dates are reported as deferred outflows of resources.

## Measurement of OPEB and Pension Assets and Deferred Outflows of Resources and Deferred Inflows of Resources

For purposes of measuring the net OPEB and net asset liabilities, deferred outflows of resources and deferred inflows of resources related to OPEB and pension, and OPEB and pension expense, information about the fiduciary net positions of RHBT and the PERS and additions to/deductions from the RHBT's and the PERS's fiduciary net positions have been determined on the same basis as they are reported by the RHBT and the PERS. For this purpose, benefit payments (including refunds of employee contributions to the RHBT and to the PERS) are recognized when due and payable in accordance with the benefit terms. The RHBT and PERS investments are reported at fair value, except for certain pooled investments, money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at amortized cost.

## **Restricted Assets and Net Position – Enterprise Funds**

Restricted assets are subject to constraints imposed by creditors or by law. The Prepaid Tuition Plan has a net position of zero as of June 30, 2022 since the Prepaid Plan was closed on September

30, 2021 and all financial liabilities of the Prepaid Tuition Plan were paid. Assets of the College and Jumpstart Savings Administrative Account are restricted for the purposes of implementing, operating and maintaining the Programs. Net pension and OPEB assets are also reported as restricted for the payment of pension and OPEB benefits.

## **Federal Income Taxes**

The College Savings Program and Prepaid Tuition Plan were designed to comply with the requirements for treatment as a qualified tuition program under Section 529 of the Internal Revenue Code. Therefore, no federal income tax provision is required. There are no federal income tax benefits for the Jumpstart Savings Program when it begins operations on July 1, 2022.

### **Effect of New Accounting Pronouncements**

The GASB has issued a statement relating to financial accounting and reporting for leases: Statement No. 87, *Leases*. The objective of Statement No. 87 is to better meet the information needs of financial statement users by improving accounting and reporting for leases by governments. The provisions of this statement are effective for reporting periods beginning after June 15, 2021. Because the West Virginia College and Jumpstart Savings Programs do not typically lease assets and have no plans to lease any assets in the near future, it is not currently affected by this statement.

The GASB has issued a statement related to financial reporting for public-private and public-public partnership arrangements: Statement No. 94, *Public-Private and Public-Public Partnership and Availability Payment Arrangements*. The objective of Statement No. 94 is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements ("PPPs"). As used in Statement 94, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a non-financial asset, such as infrastructure, or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. The provisions of this statement are effective for reporting periods beginning after June 15, 2022. Because the West Virginia College and Jumpstart Savings Programs do not engage in PPP arrangements, it is not affected by this statement.

The GASB has issued a statement related to accounting and financial reporting for subscriptionbased information technology arrangements ("SBITAs") for government end users: Statement No. 96, *Subscription-Based Information Technology Arrangements*. The objective of Statement 96 is to better meet the information needs of financial statement users by (a) establishing uniform accounting and financial reporting requirements for SBITAs; (b) improving the comparability of financial statements among governments that have entered into SBITAs; and (c) enhancing the understandability, reliability, relevance, and consistency of information about SBITAs. The provisions of this statement are effective for reporting periods beginning after June 15, 2022. The West Virginia College and Jumpstart Savings Programs has not yet evaluated the impact of this statement on its future financial reporting.

## 3. Significant Accounting Policies - College Savings Program

## **Basis of Accounting**

The College Savings Program is a special purpose trust **fiduciary fund**. As a fiduciary fund, the College Savings Program's financial statements are presented on the flow of economic resources measurement focus and the accrual basis of accounting. Fiduciary funds are used to report assets held in a trustee or agency capacity for others and therefore cannot be used to support a government's own programs. A fiduciary fund is used to report all trust arrangements, other than pension (and other employee benefit) trust funds and investment trust funds, under which principal and income benefit individuals, private organizations, or other governments. Revenues mainly are derived from investment income. Expenses consist primarily of investment expenses and administrative costs associated with the College Savings Program.

## Security Transactions and Investment Income

Security transactions of the College Savings Program are recorded on the trade date (date the order to buy or sell is executed). Dividend income and capital gain distribution from the underlying funds, if any, are recorded on the ex-dividend date. Realized gains and losses on securities transactions are computed on the basis of specific identified cost.

Investments in the underlying funds are carried at the closing net asset value per share of each underlying fund on the day of valuation.

The College Savings Program contains a guaranteed investment contract named the SMART529 Stable Value Fund. This fund is managed by INVESCO International. The contract has a guaranteed interest rate that resets quarterly. Following the guidance and provisions of GAAP, the guaranteed investment contract is a nonparticipating contract in which the redemption terms of the contract do not consider current market rates. The nonparticipating guaranteed investment contract value (i.e., cost plus accrued interest) as required under the current governmental accounting standards.

#### Units

Contributions by a participant are evidenced through the issuance of units in the particular portfolio or fund. Contributions and withdrawals are subject to terms and limitations defined in the participation agreement between the participant and the College Savings Program. Contributions are invested in units of the assigned portfolio or fund on the same day as the credit of the contribution to the participant's account. Withdrawals are based on the unit value calculated for such portfolio or fund on the day that the withdrawal request is accepted. The earnings portion of non-qualified withdrawals, in addition to applicable federal and state income tax, may be subject to a 10% non-qualified withdrawal penalty to be withheld from the withdrawal.

## Expenses

Expenses in the College Savings Program financial statements reflect investment management fees, and distribution and administrative charges.

### Fair Value Measurement

Hartford Funds Management Company LLC invests and manages the College Savings Program investments in 62 different portfolios. Each portfolio, in turn, is either a mutual fund or contains multiple mutual funds. Except for the SMART529 Stable Value Fund, as discussed below, investments are reported at fair value, which is the same as the value of the pool shares, and are accounted for by the College Savings Program accordingly, with changes in the fair value included in investment earnings.

Fair value measurements of investments within the fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels as follows:

Level 1 inputs – Quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.

Level 2 inputs – Inputs – other than quoted prices included within Level 1 – that are observable for an asset or liability, either directly or indirectly.

Level 3 inputs – Unobservable inputs for an asset or liability.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs.

As of the year ended June 30, 2022, all investment securities within the portfolios, except for the SMART529 Stable Value Fund, were measured at fair value using Level 1 inputs. The SMART529 Stable Value Fund investments are held at contract value and are excluded from the fair value hierarchy.

The SMART529 Stable Value Fund is a synthetic guaranteed investment contract, which is a form of derivative instrument, and accordingly is reported at contract value in accordance with GAAP. Changes in contract value are included in investment earnings. The fair value and the contract value of the SMART529 Stable Value Fund as of June 30, 2022 are as follows:

	Fair Value	Contract Value
Underlying investments	Ф <b>525</b> 805 507	Φ.5.1 772 005
Wrap contract	\$525,805,597	\$551,772,995
1		-
Total SMART529 Stable Value Fund		
	\$525,805,597	\$551,772,995

Various portfolios include the SMART529 Stable Value Fund as part of their families of underlying investments. Additionally, the SMART529 Direct Stable Value Fund and The Hartford SMART529 Stable Value Fund are standalone investment options that contain only the SMART529 Stable Value Fund.

The following represents a calculation of the net change in the carrying value of investments during the year ended June 30, 2022:

Carrying value at end of year	\$2,776,432,259
Less cost of investments purchased during year	(971,650,486)
Plus cost of investments redeemed during year	787,686,709
Less carrying value at beginning of year	(3,202,110,054)
Change in carrying value of investments during year	\$(609,641,572)

The Program has adopted an investment policy for the College Savings Program that requires blended benchmarks for the various funds and portfolios. While the diversified benchmarks represent the diversification of the funds and portfolios – and diversification in general results in risk reduction – the investment policy does not specifically address custodial credit risk, credit risk, concentration credit risk, interest rate risk or foreign currency risk. Investments in the College Savings Program represent units of mutual funds rather than specific securities, and as such are not exposed to those risks. Neither the Board, the College Savings Program, nor the funds and portfolios have been rated for credit risk by any organization.

## **Related Parties and Fund Managers and Advisers**

<u>West Virginia College Savings Program</u> There are three 529 college savings plans within the West Virginia College Savings Program that are set forth below. Hartford Funds Management Company, LLC ("HFMC"), which is a wholly owned indirect subsidiary of The Hartford Financial Services Group, Inc. ("The Hartford"), is the program manager to the plans and Hartford Funds Distributors, LLC is the principal underwriter and distributor for the plans. HFMC and the West Virginia State Treasurer's Office provide administrative services to the plans. More information about the 529 plans and the investment advisers/sub-advisers to the underlying funds is included below.

<u>SMART529 WV Direct College Savings Plan</u> - The Vanguard Group, Inc., serves as the investment adviser to all of the underlying funds, except for The SMART529 Stable Value Fund, which is managed by Invesco Advisers, Inc. ("Invesco").

<u>The Hartford SMART529 College Savings Plan</u> - All of the underlying funds except iShares Russell 1000 Large-Cap Index Fund (the "iShares Fund"), The SMART529 Stable Value Fund and the MFS Global Equity Fund are managed by HFMC. BlackRock Fund Advisors serves as the investment adviser for the iShares Fund. The SMART529 Stable Value Fund is managed by Invesco. Massachusetts Financial Services Company is the investment adviser for the MFS Global Equity Fund.

Wellington Management Company, LLP is investment sub-adviser to The Hartford Total Return Bond Fund, The Hartford Inflation Plus Fund, The Hartford High Yield Fund, The Hartford Capital Appreciation Fund, The Hartford Small Cap Growth Fund, The Hartford MidCap Fund, The Hartford MidCap Value Fund, The Hartford Dividend and Growth Fund, The Hartford Growth Opportunities Fund, The Hartford Small Company Fund, The Hartford Equity Income Fund, The Hartford International Opportunities Fund, The Hartford Balanced Income Fund, The Hartford Strategic Income Fund, Hartford Core Equity Fund, The Hartford World Bond Fund, Hartford Total Return Bond ETF, and Hartford Core Bond ETF.

Schroder Investment Management North America Inc. is the investment sub-adviser for Hartford Schroders Emerging Markets Equity Fund and Hartford Schroders International Multi-Cap Value Fund, and Schroder Investment Management North America Limited serves as the sub-sub-adviser to the two funds.

<u>SMART529 Select College Savings Plan</u> - Dimensional Fund Advisors Inc. is the investment adviser to the underlying DFA mutual fund portfolios in the SMART529 Select College Savings Plan.

### 4. Investments and Cash and Cash Equivalents

The Board invests the Prepaid Tuition Trust Escrow Fund in the WV Money Market Pool maintained by the BTI. Prior to the closure of the Prepaid Tuition Trust Fund during the fiscal year, those funds were also invested in the WV Money Market Pool. The pooled funds are invested in short-term fixed income securities not subject to market fluctuations. The BTI reports investments in the pool at amortized cost as permissible under GASB standards. The net income of the WV Money Market Pool is declared as dividends and distributed daily to the participants based upon their pro rata participation in the pools. The distributions of net investment income are credited to the participants' accounts in the form of dividend reinvestments in the pool.

The Board has adopted an investment policy that mandates that funds shall be invested so as to minimize the risk of large losses. A prudently allocated investment program possesses a significant level of diversification, which results in risk reduction. Diversification is considered in regard to asset classes, geography/country, industry, and maturity. In order to preserve risk control, the Board has adopted a formal review schedule in which investment performance is reviewed at least quarterly, broad asset allocation and within-class asset allocation are reviewed every three years, and the Board's investment policy is reviewed every year.

The BTI measures all investments in the WV Money Market Pool at amortized cost for financial reporting purposes in accordance with criteria established by GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*. The Board reports its investments in the WV Money Market Pool accordingly and is not subject to disclosure requirements for the fair value measurement of investments.

## Investment and Deposit Risk Disclosures

Although the Board's investment policy does not specifically address custodial credit risk, credit risk, concentration of credit risk, interest rate risk, and foreign currency risk, the WV Money Market Pool at the BTI can be exposed to some of these investment risks.

## Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Although the BTI has not been rated for credit risk by any organization, the WV Money Market Pool has been rated AAAm by Standard & Poor's. A fund rated AAAm has extremely strong capacity to maintain principal stability and to limit exposure to principal losses due to credit, market, and/or liquidity risks. AAAm is the highest principal stability fund rating assigned by Standard & Poor's.

The BTI limits the exposure to credit risk in the WV Money Market Pool by requiring all longterm corporate debt be rated A+ or higher by Standard & Poor's (or its equivalent) and short-term corporate debt be rated at A-1 or higher by Standard & Poor's (or its equivalent). The following table provides information on the credit ratings of the WV Money Market Pool's investments:

	Credit Rating	
Security Type	S&P	Percent of BTI Pool Assets
U.S. Treasury notes *	AA+	0.47%
Commercial Paper	A-1+	24.00
	A-1	47.27
Negotiable certificates of deposit	A-1+	2.55
	A-1	14.01
	A+	1.44
Money market funds	AAAm	2.67
Cash	A-1+	0.01
Repurchase agreements (underlying securities):		
U.S. Treasury bonds and notes*	AA+	1.44
U.S. agency bonds and notes	AA+	6.14
		100.0%

\* U.S. Treasury issues are explicitly guaranteed by the United States government and are not considered to have credit risk.

#### Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The BTI's WV Money Market Pool is subject to interest rate risk.

The overall weighted average maturity (WAM) of the investments of the WV Money Market Pool cannot exceed 60 days. Maximum maturity of individual securities cannot exceed 397 days from date of purchase, except for government floating rate notes, which can be up to 762 days. The following table provides information on the weighted average maturities for the various asset types in the WV Money Market Pool:

	WAM
Security Type	(Days)
U.S. Treasury notes	1
Commercial paper	23
Negotiable certificates of deposit	25
Repurchase agreements	1
Money market funds	1
Cash	1
Weighted average maturity	21

### Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the Program's investment in a single corporate issuer. The BTI investment policy prohibits the WV Money Market Pool from investing more than 5% of its assets in any one corporate name or one corporate issue.

#### Custodial Credit Risk

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the Program will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The BTI requires repurchase agreements to be collateralized by at least 102% of their value, and the collateral is held in the name of the BTI. The BTI or its agent does not release cash or securities until the counterparty delivers its side of the transaction.

#### Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The BTI's WV Money Market Pool does not hold any interests in foreign currency or interests valued in foreign currency.

## Deposit Risk

The carrying value in the College and Jumpstart Savings Administrative Account of cash on deposit with the State Treasurer's Office was \$3,797,396 at June 30, 2022. The cash is pooled with other deposits from the State's agencies, departments, boards and commissions and is subject to

coverage by the Federal Deposit Insurance Corporation (the "FDIC") or collateralized by securities held by the State or its agents in the State's name. Custodial credit risk in regard to deposits is the risk that in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The Board does not have a deposit policy for custodial credit risk. Board management does not believe any of its deposits are exposed to custodial credit risk.

## 5. Compensated Absences

The accruals for compensated absences represent obligations that may arise for earned but unused annual leave as of June 30, 2022. Current liabilities of \$61,118 represent obligations for compensated absences that can become due within one year from June 30, 2022, and noncurrent liabilities of \$6,646 represent compensated absences liabilities that can become due more than one year after June 30, 2022.

The accrued compensated absences liability at June 30, 2022, and changes for the fiscal year then ended are as follows:

	Current	Noncurrent	Total
Beginning balance, June 30, 2021	\$39,887	\$15,533	\$55,420
Additions	21,231	44,413	65,644
Reductions	-	(53,300)	(53,300)
Ending balance, June 30, 2022	\$ 61,118	\$ 6,646	\$ 67,764

## 6. Other Postemployment Benefits (OPEB)

## General Information about the OPEB Plan

## **OPEB** Plan Description

The West Virginia Other Postemployment Benefit Plan (the OPEB Plan) is a cost-sharing, multiple-employer, defined benefit other post-employment benefit plan and covers the retirees of State agencies, colleges and universities, county boards of education, and other government entities as set forth in the West Virginia Code Section 5-16D-2 (the Code). The financial activities of the OPEB Plan are accounted for in the West Virginia Retiree Health Benefit Trust Fund (RHBT), a fiduciary fund of the State of West Virginia. The OPEB Plan is administered by a combination of the West Virginia Public Employees Insurance Agency (PEIA) and the RHBT staff. OPEB Plan benefits are established and revised by PEIA and the RHBT management with approval of their Finance Board. The PEIA issues a publicly available financial report of the RHBT that can be obtained at www.peia.wv.gov or by writing to the West Virginia Public Employees Insurance Agency, 601 57th Street, SE Suite 2, Charleston, WV 25304.

## Benefits Provided

Employees who retire are eligible for PEIA health and life benefits, provided they meet the minimum eligibility requirements of the PERS or meet certain other eligibility requirements of other West Virginia Consolidated Public Retirement Board (CPRB) sponsored retirement plans.

RHBT provides medical and prescription drug insurance and life insurance benefits to those qualified participants. Life insurance is provided through a vendor and is fully funded by member contributions. The medical and prescription drug insurance is provided through two options; Self-Insured Preferred Provider Benefit Plan - primarily for non-Medicare-eligible retirees and spouses or External Managed Care Organizations - primarily for Medicare-eligible retirees and spouses.

The RHBT Medicare-eligible retired employees and their Medicare-eligible dependents receive medical and drug coverage from a Medicare Advantage Plan administered by a vendor. Under this arrangement, the vendor assumes the financial risk of providing comprehensive medical and drug coverage with limited copayments. Non-Medicare retirees continue enrollment in PEIA's Preferred Provider Benefit or the Managed Care Option. The RHBT collects employer contributions for Managed Care Organization (the "MCO") participants and remits capitation payments to the MCO. Survivors of retirees have the option of purchasing the medical and prescription drug coverage.

Eligible participants hired after June 30, 2010, will be required to fully fund premium contributions upon retirement. The Plan is a closed plan to new entrants.

## **Contributions**

West Virginia Code Section 5-16D-6 assigns to the PEIA Finance Board the authority to establish and amend contribution requirements of the plan members and the participating employers. Participating employers are required by statute to contribute at a rate assessed each year by the RHBT. The annual contractually required rate is the same for all participating employers. Employer contributions represent what the employer was billed during the respective year for their portion of the pay as you go premiums, commonly referred to as paygo, retiree leave conversion billings, and other matters, including billing adjustments. The annual contractually required per active policyholder per month rates for State non-general funded agencies and other participating employers effective June 30, 2022, 2020, and 2019, respectively, were:

	20	22	2022		2021	2020	
	2/1/22-6	5/30/22	7/1/21-	1/31/22			
Paygo Premium	\$	48	\$	116	\$160	\$	168

Contributions to the OPEB plan were \$6,453, \$12,084 and \$11,634 for the years ended June 30, 2022, 2021 and 2020, respectively.

Members retired before July 1, 1997, pay retiree healthcare contributions at the highest sponsor subsidized rate, regardless of their actual years of service. Members retired between July 1, 1997 and June 30, 2010, pay a subsidized rate depending on the member's years of service. Members hired on or after July 1, 2010, pay retiree healthcare contributions with no sponsor provided implicit or explicit subsidy.

Retiree leave conversion contributions from the employer depend on the retiree's date of hire and years of service at retirement as described below:

- Members hired before July 1, 1988, may convert accrued sick or leave days into 100% of the required retiree healthcare contribution.
- Members hired from July 1, 1988, to June 30, 2001, may convert accrued sick or leave days into 50% of the required retiree healthcare contribution.

The conversion rate is two days of unused sick and annual leave days per month for single healthcare coverage and three days of unused sick and annual leave days per month for family healthcare coverage.

#### Contributions by Nonemployer Contributing Entities in Special Funding Situations

The State of West Virginia is a nonemployer contributing entity that provides funding through SB 419, effective July 1, 2012, amended by West Virginia Code §11-21-96. The State provides a supplemental pre-funding source dedicating \$30 million annually to the RHBT Fund from annual collections of the Personal Income Tax Fund and dedicated for payment of the unfunded liability of the RHBT. The \$30 million transferred pursuant to this Code shall be transferred until the Governor certifies to the Legislature that an independent actuarial study has determined that the unfunded liability of RHBT has been provided for in its entirety or July 1, 2037, whichever date is later. This funding is to the advantage of all RHBT contributing employers.

The State is a nonemployer contributing entity that provides funding through SB 469 which was passed February 10, 2012, granting OPEB liability relief to the 55 County Boards of Education effective July 1, 2012. The public school support plan (the "PSSP") is a basic foundation allowance program that provides funding to the local school boards for "any amount of the employer's annual required contribution allocated and billed to the county boards for employees who are employed as professional employees, employees who are employed as service personnel and employees who are employed as professional student support personnel", within the limits authorized by the State Code. This special funding under the school aid formula subsidizes employer contributions of the county boards of education.

## **OPEB** Assets, **OPEB** Expense (Revenues), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to **OPEB**

At June 30, 2022, the Board reported an asset for its proportionate share of the RHBT net OPEB asset that reflected a reduction for State OPEB support provided to the Program. The amount recognized by the Board as its proportionate share of the net OPEB asset, the related State support, and the total portion of the net OPEB asset that was associated with the Board was as follows:

	2022
Board's proportionate share of the net OPEB asset State's special funding proportionate share of the net OPEB	\$1,970
asset associated with the Board	388
Total portion of net OPEB asset associated with the Board	\$2,358

The net OPEB asset reported at June 30, 2022 was measured as of June 30, 2021, and the total OPEB asset used to calculate the net OPEB asset was determined by an actuarial valuation as of June 30, 2020, and rolled forward to a measurement date of June 30, 2021. The Board's proportion of the net OPEB asset was based on its proportionate share of employer and non-employer contributions to the OPEB Plan for the fiscal year ended on the measurement date. At June 30, 2021, the Board's proportion was 0.0066%, which is an increase of 0.0006% from its proportion measured as of June 30, 2020.

For the year ended June 30, 2022, the Board recognized OPEB expense (revenue) of (31,133) and for support provided by the State under special funding situations revenue (expenses) of (1,804). At June 30, 2022, the Board reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 13,573
Changes of assumptions	-	41,694
Net difference between projected and actual earnings on		
OPEB Plan investments	-	13,598
Changes in proportion and differences between Board		
contributions and proportionate share of contributions	23,053	16,487
Reallocation of opt-out employer change in proportionate		-
share	-	732
Board contributions subsequent to the measurement date		
of June 30, 2021	6,453	
Total	\$ 29,506	\$ 86,084

The amount of \$6,453 reported as deferred outflows of resources related to OPEB resulting from Board's contributions subsequent to the measurement date will be recognized as an increase in the net OPEB asset in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ending June 30:				
2023	\$ (26,390)			
2024	(29,792)			
2025	(2,900)			
2026	(3,949)			

## Actuarial Assumptions

The total OPEB liability reported at June 30, 2022 was determined by an actuarial valuation as of June 30, 2020, and rolled forward to a measurement date of June 30,2021, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.25%
Salary increases	Rates based on 2015-2020 OPEB experience study and dependent on pension plan participation and attained age, and range from 2.75% to 5.18%, including inflation
Investment rate of return	6.65%, net of OPEB plan investment expense, including inflation
Healthcare cost trend rates	Trend rate for pre-Medicare per capita costs of 7.0% for plan year end 2020, decreasing by 0.50% one year, then by 0.25% each year thereafter, until ultimate trend rate of 4.25% is reached in plan year 2032. Trend rate for Medicare per capita costs of (31.11%) for plan year end 2022. 9.15% for plan year end 2023, 8.40% for plan year 2024, decreasing ratably each year thereafter, until ultimate trend rate of 4.25% is reached in plan year end 2036.
Actuarial cost method	Entry Age Normal Cost Method
Amortization method	Level percentage of payroll
Remaining amortization period	20 years closed period beginning June 30, 2017

Post-retirement mortality retirement rates were based on Pub-2010 General Healthy Retiree Mortality Tables projected with MP-2019 and scaling factors of 100% for males and 108% for females for Teachers' Retirement System (TRS), Pub-2010 Below-Median Income General Healthy Retiree Mortality Tables projected with MP-2019 and scaling factors of 106% for males and 113% for females for PERS, and Pub-2010 Public Safety Healthy Retiree Mortality Tables projected with scale MP-2019 and scaling factors of 100% for males and females for West Virginia Death, Disability, and Retirement Fund (Trooper A) and West Virginia State Police Retirement System (Trooper B). Pre-retirement mortality rates were based on Pub-2010 General Employee Mortality Tables projected with MP-2019 for TRS, Pub-2010 Below-Median Income General Employee Mortality Tables projected with MP-2019 for TRS, Pub-2010 Below-Median Income General Employee Mortality Tables projected with MP-2019 for TRS, Pub-2010 Below-Median Income General Employee Mortality Tables projected with MP-2019 for TRS, Pub-2010 Below-Median Income General Employee Mortality Tables projected with MP-2019 for TRS, Pub-2010 Below-Median Income General Employee Mortality Tables projected with MP-2019 for TRS, Pub-2010 Below-Median Income General Employee Mortality Tables projected with MP-2019 for TRS, Pub-2010 Below-Median Income General Employee Mortality Tables projected with MP-2019 for TRS, and Pub-2010 Public Safety Employee Mortality Tables projected with Scale MP-2019 for Troopers A and B.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period of July 1, 2015 to June 30, 2020.

There were no assumption changes from the actuarial valuation as of June 30, 2020, measured at June 30, 2020 to a roll-forward measurement date of June 30, 2021.

The long-term expected rate of return of 6.65% on OPEB plan investments with the West Virginia Investment Management Board (IMB) was determined by a combination of an expected long-term rate of return of 7.00% for long-term assets invested with the IMB and an expected short-term rate of return of 2.50% for assets invested with the BTI. Long-term pre-funding assets are invested with the IMB. The strategic asset allocation consists of 55% equity, 15% fixed income, 10% private equity, 10% hedge fund and 10% real estate invested. Short-term assets used to pay current year benefits and expenses are invested with the BTI.

The long-term rates of return on OPEB plan investments are determined using a building block method in which estimates of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future rates of return by the target asset allocation percentage. Target asset allocations, capital market assumptions, and forecast returns were provided by the plan's investment advisors, including the IMB. The projected return for the Money Market Pool held with the BTI was estimated based on the IMB assumed inflation of 2.0% plus a 25 basis point spread. The target allocation and estimates of annualized long-term expected real returns assuming a 10-year horizon are summarized below:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity	55.0%	4.8%
Core Plus Fixed Income	15.0%	2.1%
Hedge Fund	10.0%	2.4%
Private Equity	10.0%	6.8%
Core Real Estate	10.0%	4.1%

## Discount rate

A single discount rate of 6.65% was used to measure the total OPEB liability. This single discount rate was based on the expected rate of return on OPEB plan investments of 6.65%. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made in accordance with the prefunding and investment policies. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

## Other Key Assumptions

Members hired on or after July 1, 2010, are required to pay 100% of expected cost of coverage, resulting in no implicit or explicit employer cost. Consequently, these members are excluded from the actuarial valuation.

### **OPEB** Subsequent Event

Subsequent to the OPEB valuation with a measurement date of June 30, 2020, the RHBT was still experiencing the effects of the global pandemic that was declared by the World Health Organization due to an outbreak and spread of the COVID-19 virus. The OPEB valuation with a measurement date of June 30, 2021, does not reflect the recent and still developing impact of COVID-19, which is likely to influence healthcare claims experience, demographic experience and economic expectations.

## Sensitivity of the Board's Proportionate Share of the Net OPEB Asset to Changes in the Discount Rate

The following presents the Board's proportionate share of the net OPEB asset calculated using the current discount rate, as well as what the Program's proportionate share of the net OPEB asset would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage-point higher than the current rate:

	Current			
	1%	1%		
	Decrease	Rate	Increase	
	(5.65%)	(6.65%)	(7.65%)	
Board's proportionate share of the net OPEB				
asset (liability)	(\$ 10,573)	\$ 1,970	\$ 12,385	

## Sensitivity of the Board's Proportionate Share of the Net OPEB Asset to Changes in the Healthcare Cost Trend Rates

The following presents the Board's proportionate share of the net OPEB asset, as well as what the Board's proportionate share of the net OPEB asset would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage point higher than the current rates:

		Current	
		Healthcare	
	1%	Cost Trend	1%
	Decrease	Rates	Increase
Board's proportionate share of the net OPEB			
asset (liability)	\$ 14,549	\$ 1,970	\$ (13,351)

## 7. Pension Plan

### General Information about the Pension Plan

### Pension Plan Description

The Board contributes to the PERS, a cost-sharing multiple-employer defined benefit pension plan administered by the CPRB pursuant to Chapter 5, Article 10D of the West Virginia Code. Benefits under PERS include retirement, death and disability benefits, and have been established and may be amended by action of the West Virginia State Legislature. The CPRB issues a publicly available financial report that includes financial statements and required supplementary information for the PERS. That report can be obtained at the CPRB's internet address <a href="http://www.wvretirement.com/">http://www.wvretirement.com/</a> or by writing to CPRB, 4101 MacCorkle Avenue Southeast, Charleston, WV 25304.

### Benefits Provided

The PERS provides retirement, disability and death benefits to plan members and beneficiaries. Qualification for normal retirement is age 60 with five years of service or at least age 55 with age and service equal to 80 or greater. For all employees hired July 1, 2015 and later, qualification for normal retirement is age 62 with 10 years of service. The straight-life annuity retirement benefit is equivalent to 2% of average salary multiplied by years of service. Average salary is the average of the highest annual compensation during any period of three consecutive years within the last 15 years of earnings. For all employees hired July 1, 2015 and later, average salary is the average of the five consecutive highest annual earnings out of the last 15 years of earnings. Terminated members with at least five years of contributory service who do not withdraw their accumulated contributions may elect to receive their retirement annuity beginning at age 62. For all employees hired July 1, 2015 and later, this age increases to 64 with 10 years of service.

## **Contributions**

Contributions as a percentage of payroll for members are established by statutes, subject to legislative limitations and are not actuarially determined. Contributions as a percentage of payroll for employers are established by the CPRB. Members hired prior to July 1, 2015 contribute 4.5% of annual earnings. All members hired July 1, 2015 and later contribute 6% of annual earnings. Current funding policy requires employer contributions of 10.0% for the years ended June 30, 2022, 2021, and 2020, respectively.

During the years ended June 30, 2022, 2021, and 2020, the Board's contributions to PERS required and made were approximately \$42,686, \$41,710, and \$34,772, respectively.

## Pension Assets, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2022, the Board reported an asset of \$229,951 for its proportionate share of the net pension asset. The net pension asset reported at June 30, 2022 was measured as of June 30, 2021, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of July 1, 2020, rolled forward to the measurement date of June 30, 2021. The Board's proportion of the net pension asset was based on the Board's share of contributions to the pension

plan relative to the contributions of all employers participating in PERS for the year ended June 30, 2021. At June 30,2021, the Board's proportion was .0262%, which was an increase of .0038% percent from its proportion measured at June 30, 2020.

For the year ended June 30, 2022, the Board recognized pension expense of \$ (39,585). At June 30, 2022, the program reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Ou	eferred tflows of esources	Ir	Deferred Iflows of esources
Differences between expected and actual experience	\$	26,243		872
Changes in assumptions		43,752		1,864
Net difference between projected and actual earnings on pension plan investments		-		294,529
Changes in proportion and differences between Board contributions and proportionate share of contributions		10,241		9,932
Board contributions subsequent to the measurement date of June 30, 2021		42,686		
Total	\$	122,922	\$	307,197

The amount of \$42,686 reported as deferred outflows of resources related to pensions resulting from Board contributions subsequent to the measurement date will be recognized as an increase in the net pension asset in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30:							
2023	\$ (44,587)						
2024	(36,300)						
2025	(59,324)						
2026	(86,750)						

## Actuarial Assumptions

The total pension asset in the June 30, 2021 actuarial valuation was determined using the following assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary increases	2.75 - 6.75%, average, including inflation
Investment rate of return	7.25%, net of pension plan investment expense

Mortality rates were based on 100% of Pub-2010 General Employees table, below-median, headcount weighted, projected generationally with scale MP-2018 for active employees, 108% of Pub-2010 General Retiree Male table, below-median, headcount weighted, projected generationally with scale MP-2018 for retired healthy males, 122% of Pub-2010 General Retiree Female table, below-median, headcount weighted, projected generationally with scale MP-2018 for retired healthy females, 118% of Pub-2010 General / Teachers Disabled Male table, headcount weighted, projected generationally with scale MP-2018 for disabled males, and 117% of Pub-2010 General/Teachers Disabled Female table, headcount weighted, projected generationally with scale MP-2018 for disabled males.

Experience studies, which were based on the years 2015 through 2020 for economic assumptions and 2013 through 2018 for all other assumptions, were used for the 2021 actuarial valuation.

Certain assumptions have changed since the prior actuarial valuation as of June 30, 2020. The discount rate and salary scales were changed to reflect the recent experience study covering the economic assumptions for July 1, 2015 through June 30, 2020.

The long-term rates of return on pension plan investments was determined using the buildingblock method in which estimates of future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and by adding expected inflation. Best estimates of long-term geometric rates of return are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Rate of Return	Weighted Average Expected Real Rate of Return
Domestic equity	27.5%	5.5%	1.51%
International equity	27.5%	7.0%	1.93%
Fixed income	15.0%	2.2%	0.33%
Real estate	10.0%	6.6%	0.66%
Private equity	10.0%	8.5%	0.85%
Hedge funds	10.0%	4.0%	0.40%
Total	100.0%		5.68%
Inflation (CPI)		-	2.10%
			7.78%

## Discount Rate

The discount rate used to measure the total pension asset was 7.25%. The projections of cash flows used to determine the discount rates assumed that employer contributions will continue to follow the current funding policies. Based on those assumptions, the fiduciary net position of the pension

plan was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rates of return on pension plan investments were applied to all periods of projected benefit payments to determine the total pension liability.

## Sensitivity of the Board's Proportionate Share of the Net Pension Asset to Changes in the Discount Rate

The following presents the Board's proportionate share of the net pension asset calculated using the discount rate of 7.25%, as well as what the Board's proportionate share of the net pension asset would be if it were calculated using a discount rate that is one-percentage-point lower or one-percentage-point higher than the current rate:

	1%	Current	
	Decrease	Discount Rate	1% Increase
	(6.25%)	(7.25%)	(8.25%)
Board's proportionate share of the net pension			
asset (liability)	(\$ 2,628)	\$ 229,951	\$ 426,258

## 8. Transactions with State Treasurer's Office

The State Treasurer's Office provides various administrative services at no cost to the Board and pays certain administrative costs on behalf of the Board. Such administrative services and costs were not determinable for the year ended June 30, 2022 because they were blended in with the overall operations of the State Treasurer's Office.

## 9. Risk Management

The Board is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to and illnesses of employees; and natural disasters.

The Board has obtained health coverage for its employees through PEIA. PEIA provides the following basic employee benefit coverage to all participants: hospital, surgical, group major medical, basic group life, accidental death, and prescription drug coverage for active and retired employees of the State of West Virginia and various related State and non-State agencies. Additionally, the Board has obtained coverage for job-related injuries through Encova, a private insurance company. There have been no workers' compensation claims since the inception of the Board.

Furthermore, the Board uses the West Virginia State Board of Risk and Insurance Management, which provides a public entity risk pool, to obtain coverage in the amount of \$1,000,000 per occurrence for general liability and property damage. There have been no claims since the inception of the Board.

## 10. Closure of Prepaid Tuition Trust Fund and Contracts Benefits Gain

In April 2021, the West Virginia Legislature passed Senate Bill 294 which authorized the early closure of the Prepaid Tuition Trust Fund. Based on this legislation, the Board approved terminating the Prepaid Tuition Plan effective September 30, 2021. As of September 30, 2021, any account owner having remaining semester units in the Plan was paid a rate of \$4,808 for each remaining plan unit. Terminating payments totaling \$9,679,316 were made to 560 account holders on September 30, 2021. The tuition contract benefits gain is the result of the actual benefits liability at closure being \$659,561 less than the previous actuarial liability.

The Board of Trustees of the West Virginia College and Jumpstart Savings Programs

Notes to Required Supplementary Information

## **1. Trend Information Presented**

The accompanying schedules of the Board's proportionate share of the net OPEB and pension liabilities (assets) and contributions to PERS and RHBT are required supplementary information to be presented for 10 years. However, until a full 10-year trend is compiled, information is presented in the schedules for those years for which information is available.

## 2. Plan Amendments

The PERS was amended to make changes which apply to new employees hired after July 1, 2015 as follows:

- For employees hired prior to July 1, 2015, qualification for normal retirement is age 60 with five years of service or at least age 55 with age and service equal to 80 or greater. A member may retire with the pension reduced actuarially if the member is at least age 55 and has at least 10 years of contributory service, or at any age with 30 years of contributory service. For employees hired after July 1, 2015, qualification for normal retirement is 62 with 10 years of service. A member hired after July 1, 2015 may retire with the pension reduced actuarially if the member is between ages 60 and 62 with at least 10 years of contributory service, or between ages 57 and 62 with at least 20 years of contributory service, or between ages 55 and 62 with at least 30 years of contributory service.
- The straight life annuity retirement benefit is equivalent to 2% of average salary multiplied by years of service. For employees hired prior to July 1, 2015, average salary is the average of the three consecutive highest annual earnings out of the last 15 years of earnings. For all employees hired after July 1, 2015 average salary is the average of the five consecutive highest annual earnings out of the last of the five consecutive highest annual earnings.
- For employees hired prior to July 1, 2015, terminated members with at least five years of contributory service who do not withdraw their accumulated contributions may elect to receive their retirement annuity beginning at age 62. For all employees hired after July 1, 2015, this age increases to 64 with at least 10 years of contributory service, or age 63 with at least 20 years of contributory service.
- For all employees hired prior to July 1, 2015, employees are required to contribute 4.5% of annual earnings. All employees hired after July 1, 2015, are required to contribute 6% of annual earnings.

OPEB Plan members retired before July 1, 1997 pay retiree healthcare contributions at the highest sponsor subsidized rate, regardless of their actual years of service. Members retired between July

1, 1997 and June 30, 2010, pay a subsidized rate depending on the member's years of service. Members hired after June 30, 2010, pay retiree healthcare contributions with no sponsor-provided implicit or explicit subsidy.

## **3. OPEB Plan Assumptions**

The total OPEB liability was determined by an actuarial valuation as of June 30, 2020, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.25%
Salary increases	Specific to the OPEB covered group, ranging from 2.75% to 5.18%, including inflation
Investment rate of return	6.65%, net of OPEB Plan investment expense, including inflation
Healthcare cost trend rates	Trend rate for pre-Medicare per capita costs of 7.0% for plan year end 2022, 6.50% for plan year end 2023, decreasing by 0.25% each year thereafter, until ultimate trend rate of 4.25% is reached in plan year 2032. Trend rate for Medicare per capita costs of (31.11%) for plan year end 2022, 9.15% for plan year end 2023, 8.40% for plan year end 2024, decreasing gradually each year thereafter, until ultimate trend rate of 4.25% is reached in plan year end 2036.
Actuarial cost method	Entry Age Normal Cost Method
Amortization method	Level percentage of payroll over a 20-year closed period
Remaining amortization method	20 years closed as of June 30, 2017
Mortality rates: Public Employees Retirement System retirees Teachers Retirement System retirees	Pub-2010 Below-Median Income General Healthy Retiree Mortality Tables projected with MP-2019 and scaling factors of 106% for males and 113% for females Pub-2010 General Healthy Retiree Mortality Tables projected with MP-2019 and scaling factors of 100% for males and 108% for females

Troopers Retirement System retirees

Pub-2010 Public Safety Healthy Retiree Mortality Tables projected with scale MP-2019 and scaling factors of 100% for males and females

# 4. OPEB Changes in Assumptions

Below are changes in assumptions between the 2020 and 2018 valuations:

The assumption changes that most significantly impacted the total OPEB liability were an approximate \$831 million decrease due to updated capped subsidy rates, per capita costs, and trend rates, as well as an approximate \$279 million decrease due to changes in assumptions as a result of an experience study as follows:

- General/price inflation decrease price inflation rate from 2.75% to 2.25%
- Discount rate decrease discount rate from 7.15% to 6.65%
- Wage inflation decrease wage inflation rate from 4.00% to 2.75% for PERS and TRS, and 3.25% for Troopers A and B
- OPEB retirement develop explicit retirement rates for members who are eligible to retire with healthcare benefits and elect healthcare coverage
- Waived annuitant termination develop explicit waived termination rates for members who are eligible to retire with healthcare benefits but waive healthcare coverage
- SAL conversion develop explicit SAL conversion rates for members who are eligible to convert sick and annual leave (SAL) balances at retirement and convert SAL balances into OPEB benefits
- Lapse/re-entry develop net lapse/re-entry rates for members who either lapse coverage after electing healthcare coverage or elect healthcare coverage after waiving coverage.
- Other demographic assumptions develop termination, disability, and mortality rates based on experience specific to OPEB covered group
- Salary increase develop salary increase assumptions based on experience specific to the OPEB covered group

Below are changes in assumptions between the 2018 and 2017 valuations:

The assumption changes that most significantly impacted the total OPEB liability were an approximate \$11.8 million decrease in the per capita claims costs for Pre-Medicare and Medicare, as well as an approximate \$224.2 million decrease due to capped subsidy costs implemented in December 2019. Certain other assumption changes were noted but did not materially impact the total OPEB liability.

Below are changes in assumptions between the 2017 and 2016 valuations:

The assumption changes that most significantly impacted the Net OPEB Liability are as follows: the inclusion of waived annuitants increased the liability by approximately \$17 million; a 15% reduction in the retirement rate assumption decreased the liability by approximately \$68 million; a change in certain healthcare-related assumptions decreased the liability by approximately \$232

million; and an update to the mortality tables increased the liability by approximately \$25 million. Certain other assumption changes were noted but did not materially impact the Net OPEB Liability.

Below are changes in the assumptions between the 2016 and 2015 valuations:

Certain economic and behavioral assumptions are unique to healthcare benefits. These assumptions include the healthcare trend, per capita claims costs, the likelihood that a member selects healthcare coverage and the likelihood that a retiree selects one-person, two person or family coverage. These assumptions were updated based on a recent experience study performed by the RHBT actuaries using five-year experience data through June 30, 2015. The updated per capita claims costs were also based on recent claims, enrollment and premium information as of the valuation date.

For the June 30, 2016 valuation, the retiree healthcare participation assumption for each retirement plan is slightly higher than the previous assumption used in the June 30, 2015 OPEB valuation. More members who were covered as actives will be assumed to participate as retirees.

The 2016 and 2015 valuations include consideration of the \$30 million annual appropriations under Senate Bill 419, through July 1, 2037, or if earlier, the year the benefit obligation is fully funded. Additionally, the presentation of covered payroll was changed for the June 30, 2015, actuarial valuation. Participating employees hired before July 1, 2010, pay retiree premiums that are subsidized based on years of service at retirement. Participating employees hired on or after July 1, 2010, are required to fully fund premium contributions upon retirement. Consequently, beginning June 30, 2015, actuarial valuation covered payroll represents only the payroll for those OPEB eligible participating employees that were hired before July 1, 2010, allowing a better representation of the UAAL as a percentage of covered payroll, whereas, for the prior years, covered payroll is in total for all participating employees.

## **5. PERS Assumptions**

The information in the schedules of the proportionate share of the net pension liability (asset) was based on actuarial valuations rolled forward to measurement dates of June 30 of each year presented below using the following actuarial assumptions:

<u>2014</u>

(2) Portfolio turnover rate is calculated on the basis of the portfolio as a whole without distinguishing between the class of shares issued.

(3) Per share amount is less than \$0.005.

# **Statistical Section**

The Statistical Section presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and supplemental information says about the Board's overall financial health. The following two categories of information provide tables of schedules and other information to better understand the Board and its operations.

Financial Trends – Tables 1 & 2

These tables contain trend data to help the reader understand how the Board's financial performance and well-being have changed over time. FY 2022 includes transfer activity that was not present in FY 2013 through FY 2021. This transfer of operations was the result of legislative action.

Demographic and Economic Information – Tables 3 – 5

These tables offer demographic and economic indicators to help the reader understand the environment within which the Board's financial activities take place.

## Table 2: Changes in Net Position – Fiduciary Funds

The table below presents additions, deductions and changes in net position for each of the past ten fiscal years. The activity for 2002 (four months of activity) through 2021 was related only to the College Savings Program. The activity for 2022 includes both the College Savings Program and the Prepaid Tuition Trust Escrow Fund, which was transferred to the Board during the year.

	Fiscal Year Ended June 30 In Thousands					
		2022	2021	2020	2019	
Additions						
Contributions:						
Account holders	\$	217,609	\$ 201,982	\$ 205,657	\$ 196,893	
Deposits to establish new investment funds		-
